(ii) *Acceptability Criteria.* The site and neighborhood shall not be subject to serious adverse environmental conditions, natural or manmade, such as dangerous walks, steps, instability, flooding, poor drainage, septic tank back-ups, sewage hazards or mudslides; abnormal air pollution, smoke or dust; excessive noise, vibration or vehicular traffic; excessive accumulations of trash; vermin or rodent infestation; or fire hazards.

(12) *Sanitary Condition*—(i) *Performance Requirement.* The unit and its equipment shall be in sanitary condition.

(ii) *Acceptability Criteria.* The unit and its equipment shall be free of vermin and rodent infestation.

V 40 16 JAN 23 75 XUM

(13) *Congregate Housing.* The foregoing standards shall apply except for the requirement that food preparation and serving facilities be included within the dwelling unit. All units shall contain a refrigerator of appropriate size. The central dining facility (and kitchen facility, if any) shall contain suitable space and equipment to store, prepare and serve food in a sanitary manner, and there shall be adequate facilities and services for the sanitary disposal of food wastes and refuse, including facilities for temporary storage where necessary (e.g., garbage cans).

(h) *Types of Housing.*

(1) Any type of Existing Housing may be utilized under this Part except as set forth below.

(2) No section 8 assistance may be provided with respect to any Owner-occupied unit; however, cooperatives are considered rental housing for this purpose.

(3) Congregate Housing may be utilized or eligible elderly, handicapped, disabled or displaced families and individuals. The Fair Market Rent for Congregate Housing shall be the same as for 0- and 1-bedroom units (as appropriate) of the same structure type, and the Contract Rent shall not include the cost of providing and serving food.

(4) Existing FHA insured, section 202 direct loan, Farmers Home Administration insured or direct loan, or VA guaranteed properties, or properties held by the Secretary or properties sold by the Secretary on which he has taken back a purchase money mortgage, may be utilized under this Part; provided, however, that in any section 221(d)(3) below market interest rate (BMIR), section 202, or section 236 project, (i) units receiving assistance under section 23 and/or rent supplement programs may continue to receive such assistance; and (ii) units not receiving such assistance may receive section 8 assistance only after approval by the Assistant Secretary for Housing Production and Mortgage Credit and the Assistant Secretary for Housing Management on a case by case basis, and in such cases the number of units assisted under section 8 (together with any section 23 and/or rent supplement units), will generally be limited to 20 percent of the units in each such project. The housing assistance payment shall be the amount by which the rent payable by the Eligible Family is less than the subsidized rent (which subsidy shall not be reduced by the section 8 payment). In no event may any occupant receive the benefit of more than one of the following: rent supplement, section 23 housing assistance, or section 8 housing assistance.

(i) *Equal Opportunity Requirements.* Participation in this program requires compliance with Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, Executive Order 11063 and all rules, regulations, and requirements issued pursuant thereto. The PHA shall comply with section 3 of the Housing and Urban Development Act of 1968 and all applicable rules, regulations, and requirements.

(j) *Security and Utility Deposits.* (1) An Owner may require Families to pay a security deposit in an amount equal to the amount payable by the Family toward one month's Gross Rent. If a Family vacates the unit, the Owner may utilize the deposit as reimbursement for any unpaid rent or other amount owed under the Lease. If the Family has provided a security deposit, and it is insufficient for such reimbursement, the Owner may claim reimbursement from the PHA, not to exceed an amount equal to the remainder of one month's Contract Rent. If a family vacates the unit owing no rent or other amount under the Lease, or if such amount is less than the amount of the security deposit, the Owner shall refund the full amount or the unused balance, as the case may be, to the Family.

(2) In those jurisdictions where interest is payable by the Owner on security deposits, the refunded amount shall include the amount of interest payable. The Owner must comply with all State and local laws regarding interest payments on security deposits.

(3) Families shall be expected to obtain the funds to pay security and utility deposits, if required, from their own resources and/or other private or public sources.

(k) *Establishment of Income Limit Schedules.* HUD will establish schedules of income limits for defining Lower-Income Families and Very Low-Income Families.

(l) *30 Percent of Assisted Families To Be Very Low-Income Families.* Each PHA shall so administer its Existing Housing program under this Part, including the issuance of a sufficient number of Certificates to Very Low-Income Families, so that at least 30 percent of the Families for whom Leases are approved by the PHA are Very Low-Income Families; *Provided, however,* That in connection with periodic reexamination of Family income, the PHA shall ascertain whether at least 30 percent of all the assisted Families are Very Low-Income Families; and where the percentage is lower than 30 percent, the PHA shall thereafter use its best efforts in connection with subsequent issuance of Certificates of Family Participation to achieve at least a 30 percent level.

(m) *Establishment of Amount of Housing Assistance Payments.* The amount of Housing Assistance Payment on Behalf of an Eligible Family, to be determined in accordance with schedules and criteria established by HUD, will equal the difference between (1) no less than 15 percent nor more than 25 percent of the Family's gross income and (2) the Gross Rent, taking into consideration the income of the Family, the number of minor children in the household, and the extent of medical or other unusual expenses incurred by the Family, except that, in the case of a large Very Low-Income Family or a very large Lower-Income Family or a Family with exceptional medical or other expenses, the amount of the housing assistance payment shall be the difference between 15 percent of the Family's gross income and the Gross Rent. The term large Family means a Family which includes six or more minors (other than the head of the Family or spouse). The term very large Family means a Family which includes eight or more minors (other than the head of the Family or spouse). The amount of the housing assistance payment shall be adjusted, where appropriate, to reflect the shopping incentive credit pursuant to paragraph (n) of this section.

(n) *Shopping Incentive-Family Credit for Savings of Government Assistance Payments.* (1) As an incentive to Families to find the most economical housing suitable to their needs and approvable under this Part, if a Family selects a unit (other than a unit receiving the benefit of Federal, State or local subsidy) for which the Owner's proposed Contract Rent plus any applicable Allowance is below the applicable Fair Market Rent, the Family will be given credit (Shopping Incentive Credit) by a reduction in its required monthly Gross Family Contribution.

(2) The amount of the monthly Shopping Incentive Credit shall be the dollar amount equal to that percentage of the Gross Family Contribution which the Rent Saving is of the Fair Market Rent. The Rent Saving is the amount by which the Fair Market Rent (i) exceeds the approved Contract Rent (plus any applicable Allowance), or (ii) exceeds the initially proposed Contract Rent (plus any applicable Allowance), if that be higher than the approved Contract Rent (plus any applicable Allowance).

(o) *Responsibilities of the PHA.* In administering its ACC with HUD, the PHA (subject to review or audit by HUD) shall be responsible for the following:

(1) Publication and dissemination of information concerning the availability and nature of housing assistance for Lower-Income Families;

(2) Public invitation of Owners to make dwelling units available for leasing by Eligible Families and development of working relationships and contacts with landlords and appropriate associations and groups;

(3) Receipt and review of applications for Certificates of Family Participation and maintenance of a waiting list in accordance with this part;

(4) Issuance of Certificates of Family Participation to Eligible Families;

(5) Notification of families determined to be ineligible;

(6) Provision to each Certificate holder of basic information on applicable housing quality standards and inspection procedures, search for and selection of housing, landlord and tenant responsibilities, and basic program rules including the operation of the "shopping incentive;"

(7) Determination of amounts of Gross Family Contributions and credits, if any, pursuant to section 1275.103(n);

(8) Determination of amounts of housing assistance payments;

(9) Review of and action on Requests for Lease Approval;

(10) Making of housing assistance payments;

(11) Reexaminations of Family income, composition, and extent of exceptional medical or other unusual expenses, and redeterminations, as appropriate, of the amount of Family contribution and amount of housing assistance payment in accordance with HUD-established schedules and criteria;

(12) Redeterminations of amount of Family contribution and amount of housing assistance payment in accordance with HUD-established schedules and criteria as a result of an adjustment by the PHA of any applicable Allowance for Utilities and Other Services;

(13) Inspections prior to leasing and inspections at least annually to determine that the units are maintained in Decent, Safe, and Sanitary condition, and notifications to Owners and Families of PHA determinations;

(14) Authorization of evictions (see section 1275.207(o));

(15) Administration and enforcement of contracts with Owners and taking of appropriate actions in case of noncompliance or default; and

(16) Compliance by the PHA with equal opportunity requirements.

(p) *Responsibility of the Family.* A Family receiving housing assistance under this program shall be responsible for fulfilling all its obligations under the Certificate of Family Participation issued to it by the PHA and under the Lease with the Owner.

(q) *Responsibilities of the Owner.* The Owner shall be responsible (subject to review or audit by the PHA or HUD) for performing all of his obligations under the Contract and Lease. The Owner's responsibilities shall include but not be limited to:

(1) Performance of all management and renting functions;

(2) Payment for utilities and services (unless paid directly by the Family);

(3) Performance of all ordinary and extraordinary maintenance;

(4) Collection of Family rents;

(5) Preparation and furnishing of information required under the Contract; and

(6) Compliance by the Owner with equal opportunity requirements. Any owner may contract with any private or public entity to perform such services for a fee, provided that such contract shall not shift any of the owner's responsibilities or obligations, and provided further that no such contract may be entered into with an entity which is responsible for administration of the contract.

(r) *Single ACC.* (1) All of the Existing Housing units administered by a PHA under the Housing Assistance Payments Program shall be assigned a single project number and shall be administered under a single ACC Part I.

(2) In the event that a PHA applies for additional Existing Housing units, the units, if approved, shall be incorporated into a revised Part I of the ACC which shall cover the PHA's entire Housing Assistance Payments Program for Existing Housing. The revised Part I shall be for a new term for the aggregate number of units starting with the date of execution of the revised ACC Part I. When the PHA applies for additional units, it shall specify the number of years for which the aggregate number of units is needed and shall demonstrate such need. On the basis of such showing, HUD shall determine whether the new term for the aggregate number of units shall be five years or such lesser number of years as HUD may find to be justified. The maximum annual contribution of the revised project shall be the sum of (i) the maximum annual contribution for the project prior to the revision, plus (ii) the amount approved for the additional units which shall be computed on the basis of the current Fair Market Rents.

§ 1275.104 Direct HUD administraion of programs under this part.

(a) If, after publishing an invitation in accordance with § 1275.203, no application is received by HUD, by the deadline date, for operation of an Existing Housing program in the area, or if the only applications received are not approvable, the HUD field office shall make such further inquiry, including advice and offer of assistance, as in its judgment may result in the submission of an approvable application by a PHA.

(b) If, on the basis of such further inquiry and all other pertinent information available to the HUD field office, HUD determines that there is no PHA organized or that there is no PHA able and willing to implement the provisions of this part for an area, HUD may, pursuant to section 8(b)(1) of the Act, enter into Contracts with owners and perform the functions otherwise assigned to PHAs under this part with respect to such area.

§ 1275.105 Recently completed housing.

(a) Until December 31, 1975, for any area in which HUD determines that new construction or substantial rehabilitation is justified (see 24 CFR 1273.103(a) and 1277.103(a), respectively) but that there are one or more projects of newly constructed or substantially rehabilitated housing completed subsequent to December 31, 1972 ("Recently Completed Housing"), with substantial vacancies of extended duration, HUD may, for a specified maximum number of units:

(1) Establish Fair Market Rents for such Recently Completed Housing at 75 percent of the Fair Market Rents for new construction then in effect; and

(2) Authorize the PHA to publicize the availability of such Fair Market Rents for the specified number of units of Recently Completed Housing, invite Owners of such projects to qualify their units as Recently Completed Housing, and inform holders of Certificates of Family Participation of the locations of such Housing and of the applicable Fair Market Rents.

(b) All provisions of this part, not specifically modified by this section, shall be applicable to housing under this section.

Subpart B—Project Development and Operation

§ 1275.201 Allocations of contract authority to field offices.

HUD will allocate to field offices contract authority for the Section 8 Housing Assistance Payments Program for metropolitan areas and for non-metropolitan areas in conformance with section 213(d) of the HCD Act.

§ 1275.202 Program mix (new construction, substantial rehabilitation, existing housing).

Each field office shall, after considering the contents of Local Housing Assistance Plans and any other pertinent information which it has or which is brought to its attention, in relation to the factors set forth in section 213(d) of the HCD Act, determine the number and types of units to be advertised for new construction and for substantial rehabilitation, and to be made available for existing housing.

§ 1275.203 Invitations for existing housing program applications.

(a) *Publication.* The HUD filed office shall initiate implementation of its program with respect to Existing Housing by publishing invitations for Existing Housing program applications in accordance with a schedule established by the field office. Such publications shall be at least once a week on the same day or days of each of two consecutive weeks in a newspaper(s) of general circulation serving the area(s) for which the applications are desired. In addition HUD shall promptly notify minority media, minority organizations involved in housing and community development, and fair housing groups. To the extent feasible, HUD may also notify appropriate PHAs the chief executive officer of the appropriate unit(s) of general local government, trade journals and other non-minority media. Copies of each invitation shall be available in the HUD field office.

(b) *Contents of Invitation.* The invitation shall indicate: (1) That applications may be submitted by public housing agencies (i.e., any State, county, municipality, or other governmental entity or public body (or agency or instrumentality thereof) which is authorized to engage in or assist in the development or operation of low-income housing), (2) the maximum number of units, (3) the geographic area, (4) the deadline for submission of applications (which shall be at least 30 but not more than 60 calendar days after the date of the first publication in the newspaper of general circulation), (5) the fact that application and other forms and copies of program regulations may be obtained from the field office, (6) the fact that if no application is received by the deadline date, HUD may determine to carry out the Existing Housing program directly, pursuant to section 8(b)(1) of the Act, and (7) such

V 40 16 JAN 23 75 XUM

other basic information as the field office may specify.

§ 1275.204 Submission of application.

The application for an Existing Housing program shall be submitted by a PHA to the HUD field office. Advice and assistance in the preparation of the application are available from the HUD field office. The application shall be in the form prescribed by HUD and shall require the applicant to:

(a) Indicate the types of Existing Housing (e.g., elevator, nonelevator) likely to be utilized in the proposed program and whether authorization for the use of Recently Completed Housing is desired (see § 1275.105).

(b) Indicate the total number of units expected to be utilized by unit size (i.e., one bedroom units, two bedroom units, etc.) and the approximate number of units to be for occupancy by elderly, handicapped, or disabled.

(c) Demonstrate that the program requested in paragraph (b) of this section is consistent with the applicable Local Housing Assistance Plan, or, in the absence of such a Plan, that the proposed program is responsive to the condition of the housing stock in the community and the housing assistance needs of Lower-Income Families (including the elderly, handicapped, and disabled, large Families and those displaced or to be displaced) residing in or expected to reside in the community.

(d) Demonstrate that the applicant qualifies as a "public housing agency" and is legally qualified and authorized to participate in the proposed section 8 Existing Housing program for the area in which the Existing Housing program is to be carried out and include in such demonstration (1) the relevant enabling legislation, (2) any rules and regulations adopted or to be adopted by the agency to govern its operations, and (3) a supporting opinion from the agency counsel.

(e) Submit an equal opportunity housing plan which shall set forth the PHA's policies and procedures for encouraging the participation of Owners of units in areas other than low-income or minority concentrated areas, for advertising, and for making known to families who might be eligible for assistance the opportunity for applying for Certificates of Family Participation and the PHA's policies and procedures (including preferences and priorities, if any) for issuance of such Certificates. Such plan shall be in conformance with Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968 and Executive Order 11063 and shall include policies, if any, for carrying out its responsibilities for rehousing displaced Families.

(f) Submit a statement that the housing quality standards to be used in the operation of the program will be as set forth in § 1275.103(g) or that variations in the Acceptability Criteria are proposed. In the latter case, each proposed variation shall be specified and justified.

(g) Submit the proposed schedule of Allowances for Utilities and Other Services with a justification of the amounts proposed.

(h) Propose a schedule specifying the number of units to be leased by the end of each three-month period, for purposes of § 1275.206(c).

§ 1275.205 Evaluation of application.

(a) *Initial Screening.* Promptly after receipt of an application, the HUD field office will check whether or not the application is complete. If an application is incomplete, the PHA will be so notified and will be given until the deadline date or, if necessary, a reasonable time thereafter, within which to complete the application.

(b) *Notice to Unit of General Local Government.* Within 10 days of receipt of each completed application by the HUD field office, the field office will forward, under cover of a letter in the prescribed form, a copy of such application to the chief executive officer (or such designee as such officer may designate in writing to the HUD field office) of the unit of general local government in which the proposed Existing Housing program is to be carried out. The cover letter will invite a response within 30 days.

(c) *Evaluation of Applications.* HUD may begin its evaluation immediately upon receipt of the application, but no final decision of approval or disapproval of the application may be made until after the deadline for receipt of applications or the end of the opportunity for response referred to in paragraph (b) of this section, whichever is later. Each application will be evaluated by HUD on the basis of all pertinent factors under this Part, including comments, if any, received during the comment period from the unit of general local government. If there are two or more approvable applications for a program for a particular area, HUD shall determine on what basis to distribute the units among such applicants, or if it determines that such distribution is not feasible, HUD shall determine which application shall be approved.

(d) *Disapproval, Conditional Approval, or Approval of Applications.* If an application is disapproved, HUD shall notify the applicant by letter indicating in detail the reasons for disapproval. If an application can be approved only if certain changes are made, HUD shall notify the applicant by letter stating that the application can be approved if the PHA adopts, within a reasonable time as determined by HUD, the changes required by HUD. If an application is approved, the applicant shall be sent a Notification of Application Approval, utilizing the prescribed form. This Notification will state, among other things, that authorization for preparation of an ACC has been requested, and that, upon receipt of such authorization, an ACC will be prepared and forwarded to the PHA for execution by it.

§ 1275.206 Annual contributions contract.

(a) *Transmittal of ACC.* After the HUD field office has prepared the ACC, shown as Appendix I, the ACC shall be transmitted to the PHA for execution by the PHA. The letter of transmittal shall advise the PHA that after the ACC has been executed by the PHA, it shall be returned to HUD together with the PHA's estimates of its financial requirements on the prescribed forms.

(b) *Execution of ACC by HUD.* After receipt of the PHA-executed ACC and the accompanying financial estimates, HUD shall review the estimates and, if approved, shall execute the ACC. HUD then shall transmit a fully executed copy of the ACC together with a leasing schedule in accordance with paragraph (c) of this section.

(c) *Expeditious Leasing.* The ACC shall include a provision relating to expeditious leasing of units under the program. HUD will review the PHA-proposed schedule specifying the number of units that are expected to be leased by the end of each three-month period, and will make such changes as it may deem appropriate. In its transmittal of the ACC to the PHA, HUD will include the HUD-approved schedule. This schedule will be established so as to implement HUD policy that all units in a section 8 Existing Housing program of 100 units or more must be leased by Eligible Families within 12 months. In the case of smaller programs, a shorter time period may be established by HUD. Failure of the PHA to demonstrate a good faith effort to adhere to this schedule will be considered a basis for reduction by HUD of the number of units and amount of HUD's annual contributions commitment.

§ 1275.207 Project operation.

(a) *Public Notice to Lower-Income Families; Waiting List.* (1) Promptly after receiving the executed ACC, and thereafter as may be necessary, the PHA shall make known to the public through publication in a newspaper of general circulation as well as through minority media and other suitable means, the availability and nature of housing assistance for lower-income families (including assistance with respect to units already occupied by the families) and the notice shall inform such families where they may apply for Certificates of Family Participation.

(i) The notice shall also state that occupants of housing assisted under the Act (including leased housing and housing occupied with assistance under the Section 23 Housing Assistance Payments Program), applicants on waiting lists for any such housing, and holders of Certificates of Family Participation for such housing must apply specifically if they wish to be considered for a Certificate of Family Participation under this Part. In addition, the notice shall state that such applicants for Certificates will not lose their place on the public housing waiting list.

(ii) Such notice shall be made in accordance with the PHA's HUD-approved equal opportunity housing plan and with the HUD guidelines for fair housing requiring the use of the equal housing opportunity logotype, statement, and slogan, emphasizing outreach to families not otherwise expected to apply. The

PHA shall send to the appropriate HUD field office a statement of the methods used and a copy of the published notice and other material.

(2) The PHA shall establish and maintain a waiting list for applicants for Certificates of Family Participation under this Part. If an applicant is determined by the PHA to be eligible but the PHA has determined pursuant to § 1275.207(c)(3) that it cannot issue any more Certificates, the PHA shall place such Family on this waiting list and notify the Family of this fact, and of the approximate date that a Certificate may be issued, insofar as such date can reasonably be determined.

(3) If the number of Families on the PHA's waiting list for Certificates of Family Participation is such that there is no reasonable prospect that additional applicants could be issued Certificates within the next year, the PHA may determine to suspend the taking of further applications, and in such case the PHA shall not be required to take the actions specified in paragraph (a)(1) of this section. Any such determination by the PHA shall be publicly announced in the same manner as provided in paragraph (a)(1) of this section and shall be effective as of the date stated in such announcement.

(b) *Activities to Encourage Participation by Owners and Others.* (1) The PHA shall invite Owners, through publication in a newspaper of general circulation as well as through minority media and other suitable means, to make dwelling units available for leasing by Eligible Families, and in doing so, the PHA shall encourage the participation of Owners of units in areas other than low-income or minority concentrated areas. Such invitation shall be made in accordance with the PHA's HUD-approved equal opportunity housing plan, and with the HUD advertising guidelines for fair housing requiring the use of the equal housing opportunity logotype, statement, and slogan. The PHA shall publicize the needs of the program in such ways as to reach a maximum number of Owners and real estate brokers.

(2) The PHA shall also (i) request the field office to furnish it with a list of Secretary-held properties available for rent, to be included in the Certificate Holder's Packets, (ii) develop working relationships with local Owners and real estate broker associations, (iii) establish contact with civic, charitable, or neighborhood organizations which have an interest in housing for low-income families, and public agencies concerned with obtaining housing for displacees, and (iv) explain fully the provisions of the program, including equal opportunity requirements, to real estate, landlord, and other groups the members of which have dealings with low-income families or are interested in housing such families.

(3) The PHA shall send to the appropriate HUD field office a statement of the methods used in its activities under this paragraph (b) and a copy of the published notice and other material.

(c) *Initial Determination of Family Eligibility.*

(1) The PHA shall be responsible for determining eligibility in accordance with schedules and criteria established by HUD, and for selecting Families for participation in accordance with the PHA's HUD-approved equal opportunity Part. If an Owner is the initial point of housing plan and the provisions of this contact by an applicant who does not have a Certificate of Family Participation, he shall refer such applicant to the PHA.

(2) Every applicant for a Certificate shall complete and sign the form of application prescribed by HUD.

(3) The PHA shall maintain a system to assure that it will be able to honor all outstanding Certificates of Family Participation within its ACC authorization.

(4) PHA records on applicant and certified Families shall be maintained so as to provide HUD with racial, gender, and ethnic data.

(d) *Issuance of Certificate of Family Participation, and Certificate Holder's Packet.* If an applicant is determined by the PHA to be eligible and is selected for participation, he shall be given a Certificate of Family Participation (see Appendix III) signed by the PHA. At the same time, the Family shall be given two Certificate Holder's Packets, each of which shall include:

(1) Request for Lease Approval (see Appendix IV);

(2) Agency Determination with Respect to the Request for Lease Approval (see Appendix V);

(3) Required Lease Provisions and Prohibited Lease Provisions (see Appendices VI and VII);

(4) Booklet, *Watch Out for Lead Paint Poisoning,* issued by the U.S. Department of Health, Education, and Welfare and identified as DHEW Publication No. (HSM) 73–5101;

(5) The PHA's statement of housing quality standards and the forms for inspection of housing units and certification of compliance with those standards (see Appendices VIII and IX).

(6) *Your Housing Rights* (HUD–177–EO(2)) and *Fair Housing U.S.A.* (HUD–63–EO(6)), both issued by the U.S. Department of Housing and Urban Development; and Equal Opportunity complaint form HUD–903.

(7) Housing Assistance Payments Contract (see Appendix II);

(8) A list of Secretary-held properties available for rent and information concerning Recently Completed Housing, if any;

(9) Information as to the Gross Family Contribution, the Fair Market Rents appropriate for the Family size and composition, and the benefit of the shopping incentive credit for rents below the Fair Market Rent;

(10) The PHA's schedule of Allowances for Utilities and Other Services;

(11) Such other items as the PHA may determine should be included.

(e) *Briefing of Certificate Holders.* When a Family initially receives its Certificate of Family Participation, a full explanation of the following shall be provided to assist the Family in finding a suitable unit and to apprise the Family of its responsibilities and the responsibilities of the Owner (this may be done either in group or individual sessions; and adequate opportunity shall be provided for Families to raise questions and to discuss the information provided):

(1) Family and Owner responsibilities under the Lease and Contract;

(2) How to find a suitable unit;

(3) Applicable housing quality standards and procedures for joint Family-Owner inspection and for individual certification of compliance with those standards;

(4) Significant aspects of the applicable State and local laws; and

(5) Significant aspects of Federal, State and local fair housing laws.

(f) *Expiration and Extension of Certificate.*

(1) The Certificate of Family Participation shall expire at the end of 60 days unless within that time the Family submits a Request for Lease Approval (Appendix IV).

(2) If a Request for Lease Approval is submitted before expiration of the original Certificate but the Request is disapproved, the PHA shall determine whether sufficient time remains under the Certificate to give the Family a reasonable opportunity to find another unit. If the remaining time is determined to be insufficient, the PHA shall issue a new Certificate to the Family.

(3) If a Certificate expires or is about to expire (other than on the occasion of disapproval of a Request for Lease Approval described in paragraph (f)(2) or extension pursuant to paragraph (g)(1) of this section), a Family may submit the Certificate to the PHA with a request for an extension. The PHA shall review with the Family the efforts it has made to find a suitable dwelling unit and the problems it has encountered and shall determine what advice or assistance might be helpful. If the PHA believes that there is a reasonable possibility that the Family may, with the additional advice or assistance, if any, find a suitable unit, the PHA may grant one or more extensions not to exceed a total of 60 days; provided, however, that further extensions may be granted if the PHA specifically determines that the Family's failure to find a suitable unit is not due to the fault or lack of diligence of the Family. A determination by the PHA that no further extensions should be granted shall not preclude the Family from filing a new application for another Certificate.

(g) *Continued Participation When Assisted Family Moves.*

(1) If an assisted Family notifies the PHA that it wishes to obtain another Certificate of Family Participation for the purpose of finding another dwelling unit, or that it has found another unit to which it wishes to move, the PHA shall (unless it does not have sufficient ACC authority for continued assistance to the Family) issue another Certificate or process a Request for Lease Approval, as the case may be, if the PHA determines

V 4 0 1 6 JAN 23 75 XUM

that the Owner is not entitled to payment pursuant to § 1275.103(j) on account of nonpayment of rent or other amount owed under the Lease, or that the Family has satisfied any such liability.

(2) If a Family wishes to move to another jurisdiction and qualifies under paragraph (g)(1) of this section, the Family may obtain housing assistance in the jurisdiction to which it is moving, *provided*, That the Family obtains a Certificate of Family Participation from the appropriate PHA. The appropriate PHA shall give the Family the same consideration as any other applicants, except that the PHA shall not deny the Family a Certificate on the ground that its income is above the income limits for admission in that jurisdiction.

(h) *Families Determined by the PHA to be Ineligible.* If an applicant is determined by the PHA to be ineligible on the basis of income or family composition, or for any other reasons, the PHA shall notify the applicant by letter of the determination and the reasons therefor and the letter shall state that the applicant has the right within a reasonable time (specified in the letter) to request an informal hearing. If, after conducting such an informal hearing, the PHA determines that the applicant is ineligible, it shall so notify the applicant in writing. The procedures of this paragraph do not preclude the applicant from exercising its other rights if it believes it is being discriminated against on the basis of race, color, creed, religion, sex, or national origin. The PHA shall retain for three years a copy of the application, the notification letters, the applicant's response if any, the record of any informal hearing, and a statement of final disposition.

(i) *Request for Lease Approval*—(1) *Submission of Request to PHA.* When a Family has found a unit it wants and the Owner is willing to lease, the Family shall submit to the PHA a Request for Lease Approval signed by the Owner of the unit and the Family, together with the Family's Inspection Report and the Owner's Inspection Report. At the same time, the Family shall submit a copy of the proposed lease, which shall contain all required provisions shown in Appendix VI and shall be complete except for execution and entry of the portion of monthly rental which the Family shall be obligated to pay to the Owner.

(2) *Amount of Rent to Owner.*

(i) The PHA shall determine whether the requested rent is approvable in accordance with Sec. 1275.103(d)(1). If the Family is to pay directly for any of the utilities or services, the PHA shall determine the amount of the Allowance on account thereof. Inasmuch as the Fair Market Rents are established for a geographic area within which the rents for modest Decent, Safe, and Sanitary housing may vary substantially, the PHA shall make an analysis to determine the reasonable rent for the particular unit. If the requested Contract Rent plus any applicable Allowance is at or below the reasonable rent and at or below the Fair Market Rent, it may be approved.

(ii) If the otherwise approvable Contract Rent to Owner plus the applicable Allowance, if any, is higher than the applicable Fair Market Rent, and if the PHA determines that such higher rent is justified, it shall request HUD approval in accordance with Section 1275.103(d)(1).

(3) *"Shopping Incentive" Credit.* If the Family is entitled to a "shopping incentive" credit pursuant to Sec. 1275.103(n), the amount of the rent payable by the Family to the Owner shall be reduced by the amount of the credit.

(4) *Decent, Safe, and Sanitary Condition of Unit.*

(i) Before approving a Lease, the PHA shall inspect the unit for compliance with the PHA's housing quality standards as established in accordance with Sec. 1275.103(g), or cause it to be so inspected, as promptly as possible after the date on which the Owner indicates that the unit will be ready for inspection.

(ii) If there are defects or deficiencies which must be corrected in order for the unit to be Decent, Safe, and Sanitary, the Owner shall be advised by the PHA of the work required to be done. Before a Contract is executed, the unit must be reinspected to ascertain that the necessary work has been performed and that the unit is Decent, Safe, and Sanitary.

(iii) A report for every inspection and reinspection under this subparagraph (4) shall be prepared and maintained in the files of the PHA. Each such report shall specify (A) any defects or deficiencies which must be corrected in order for the unit to be Decent, Safe, and Sanitary, and (B) any other defects or deficiencies, a record of which shall be maintained for use in the event of a subsequent claim by the Owner that they were caused during the period of occupancy by the Family.

(5) *Oversized Unit.* No otherwise acceptable unit shall be disapproved on the ground that it is too large for the Family, provided that the rent to Owner plus any Allowance does not exceed the Fair Market Rent for the smaller size unit as stated in the Family's Certificate.

(6) *Lease Requirements*—(i) *Term of Lease.* The PHA shall determine that the term of Lease is consistent with § 1275.103(f).

(ii) *Required Provisions.* The Lease shall contain the required provisions specified in Appendix VI and in Part I of the Housing Assistance Payments Contract.

(iii) *Prohibited Provisions.* The Lease shall not contain any clause which falls within the classifications listed in Appendix VII.

(7) *Approval of Lease and Execution of Related Documents.* If the PHA determines that a unit which an Eligible Family wishes to lease is in Decent, Safe, and Sanitary condition, that the rent is approvable, and that the proposed lease complies with the requirements of this Part, the PHA shall approve the lease, and shall notify the Owner and the Family of its determination utilizing Appendix V. The Contract and Lease shall thereafter be executed by the appropriate parties.

(8) *Disapproval of Lease.* If the PHA determines that the lease cannot be approved for any reason, including the condition of the unit, the PHA shall so notify the Owner and the Family using Appendix V. A copy of this notification shall be maintained in the PHA's files together with the original Request for Lease Approval and the inspection report(s) relating to the unit.

(j) *Maintenance, Operation, and Inspections.*

(1) *Maintenance and Operation.* The Owner shall provide all the services, maintenance and utilities which he agrees to provide under the Contract, subject to abatement of housing assistance payments or other applicable remedies if he fails to meet these obligations.

(2) *Periodic Inspection.* In addition to the initial inspection provided under paragraph (i)(4)(i) of this section, the PHA will inspect or cause to be inspected each dwelling unit leased to an Eligible Family at least annually and at such other times as the PHA may deem to be necessary to assure that the Owner is meeting his obligations to maintain the unit in Decent, Safe, and Sanitary condition and to provide the agreed upon utilities and other services. The PHA will take into account complaints and any other information coming to its attention in scheduling inspections. All complaints by Families concerning compliance by the Owner with the PHA's housing quality standards shall be retained in the PHA's files for three years.

(k) *Units Not Decent, Safe, and Sanitary.* If the PHA notifies the Owner that he has failed to maintain a dwelling unit in Decent, Safe, and Sanitary condition and the Owner fails to take corrective action within the time prescribed in the notice, the PHA may exercise any of its rights or remedies under the Contract, including abatement of housing assistance payments (even if the Family continues in occupancy) and termination of the Contract. If the Family wishes to be rehoused in another dwelling unit with section 8 assistance and the PHA determines to terminate the Housing Assistance Payments Contract, the PHA shall issue to the Family another Certificate of Family Participation.

(l) *Reexamination of Family Income, Composition, and Extent of Exceptional Medical or Other Unusual Expenses.* Reexamination of Family income, composition, and the extent of medical or other unusual expenses incurred by the Family shall be made by the PHA at least annually (except that such reviews may be made at intervals no longer than two years in the case of elderly Families), and appropriate redeterminations shall be made by the PHA of the amount of Family contribution and the amount of the housing assistance payment, all in accordance with schedules and criteria established by HUD.

(m) *Overcrowded Unit.* If the PHA determines that a dwelling unit is not Decent, Safe, and Sanitary by reason of increase in Family size, the Family and the PHA shall try to find an acceptable unit as soon as possible. If an acceptable unit is found that is available for occupancy by the Family, and the Lease with the first Owner can be terminated in accordance with its terms, the Contract with the first Owner shall be terminated and housing assistance payments shall be made available to the Family for occupancy in the acceptable unit. Housing assistance payments will not be terminated unless the Family rejects without good reason the offer of a unit which the PHA judges to be acceptable.

(n) *Adjustment of Allowance for Utilities and Other Services.* The PHA shall determine, as part of its annual inspection and at such other times as it deems appropriate, whether an adjustment is required in the Allowance for Utilities and Other Services applicable to the dwelling unit on grounds of changes in utility rates or other change of general applicability. If the PHA determines that an adjustment should be made, the PHA shall prescribe the amount of the adjustment and make a corresponding adjustment in the amount of rent to be paid by the affected Family and the amount of housing assistance payment and notify the Owner accordingly.

(o) *Eviction.* The Owner shall not evict any Family unless the Owner complies with the requirements of local law, if any, and of this paragraph. The Owner shall give the Family a written notice of the proposed eviction, stating the grounds and advising the Family that it has 10 days (or such greater number, if any, that may be required by local law) within which to respond to the Owner. The Owner must obtain the PHA's authorization for an eviction; accordingly, a copy of the notice shall be furnished simultaneously to the PHA, and the notice shall also state that the Family may, within the same period, present its objections to the PHA in writing or in person. The PHA shall forthwith examine the grounds for eviction and shall authorize the eviction unless it finds the grounds to be insufficient under the Lease. The PHA shall notify the Owner and the Family of its determination within 20 days of the date of the notice to the Family, whether or not the Family has presented objections to the PHA. If the Owner has not received a response from the PHA within 20 days, he shall telephone the PHA and shall be informed by the PHA whether a notice of determination has been mailed. If the PHA informs the Owner that no notice has been mailed within the 20 day period, the PHA shall be deemed to have authorized the eviction.

(p) *Inapplicability of Low-Rent Public Housing Model Lease and Grievance Procedures.* Model lease and grievance procedures established by HUD for PHA-owned low-rent public housing are not applicable to the Section 8 Housing Assistance Payments Program under this Part.

§ 1275.208 HUD review of contract compliance.

HUD will review project operations at such intervals as it deems necessary to ensure that the Owner and the PHA are in full compliance with the terms and conditions of the Contract and the ACC. Equal Opportunity review may be conducted with the scheduled HUD review or at any time deemed appropriate by HUD.

§ 1275.209 PHA reporting requirements. [Reserved]

APPENDIX I

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM MASTER SECTION 8 ANNUAL CONTRIBUTIONS CONTRACTS #------

This Annual Contributions Contract (ACC) is entered into on the -- day of ----------, 19 --, (the date of execution by the Government) by and between the United States of America (herein called the "Government"), pursuant to the United States Housing Act of 1937 (42 U.S.C. 1437, *et seq.*), which Act as amended to the date of this ACC is herein called the "Act," and the Department of Housing and Urban Development Act (42 U.S.C. 3531), and ---------- (herein called the "PHA"), which is a "public housing agency" as defined in the Act. In consideration of the mutual covenants hereinafter set forth, the parties hereto agree as follows:

0.1. *Project or Projects.* The PHA is undertaking to provide Decent, Safe, and Sanitary housing for Families (as defined in Section 2.1) pursuant to section 8 of the Act by means of Housing Assistance Payments Contracts ("Contracts") with Owners (as defined in Section 2.1). Such undertaking may involve an agreement for the use of housing to be constructed ("New Contruction"), an agreement for the use of existing housing to be substantially rehabilitated ("Substantial Rehabilitation"), or the use of existing housing without substantial rehabilitation ("Existing Housing"). In each instance, the numbers and sizes of dwelling units with respect to which a certain maximum Annual Contributions commitment is made shall constitute a Project hereunder and shall be identified by a stated Project number.

0.2. *Part I and Part II of this Annual Contributions Contract.*

(a) Certain provisions of this ACC, principally those which are specifically applicable to a designated Project, are contained in Part I. Separate forms of Part I are used for different types of Projects (i.e., New Construction, Substantial Rehabilition, and Existing Housing). A separate Part I, on the applicable form thereof, has been executed with respect to each Project hereunder, and each such Part I, so executed, constitutes a part of this ACC.

(b) The remaining provisions of this ACC, which are applicable to all Projects hereunder, are contained in Part II, which, although not separately executed, constitutes a part of this ACC.

0.3. *Fiscal Year.* Except for the first Fiscal Year of each Project, there shall be one Fiscal Year for all Projects hereunder. Such established Fiscal Year shall be the 12-month period ending ---------- of each calendar year. The first Fiscal Year for each Project shall be as provided in the Part I applicable to such Project.

0.4. *Schedule of Projects.* Attached to this Master Section 8 ACC, as Attachment A, is a list identifying each ACC Part I and ACC Part I amendment by project number, date, and ACC List number and date.

THE GOVERNMENT
By ----------
Date ----------

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM ANNUAL CONTRIBUTIONS CONTRACT

PART I

EXISTING HOUSING PROJECT NO. ------

Effective Date ----------

[Date of execution by the Government of this ACC Part I]

ACC List Number and Date ----------

1.1. *The Project.* The PHA proposes to enter into Housing Assistance Payments Contracts ("Contracts") with respect to the following numbers and sizes of existing dwelling units:

Size of Unit	*Number of Units*

The PHA, to the maximum extent feasible, shall enter into Contracts in accordance with the numbers and sizes of units specified above. The PHA shall not enter into any Contract or take any other action which will result in a claim for a total Annual Contribution in respect to the Project in excess of the maximum amounts stated in Section 1.4(a).

1.2. *Authorization of Actions by PHA.* In order to carry out the Project, the PHA is authorized to (a) enter into Housing Assistance Payments Contracts, (b) make housing assistance payments on behalf of Families, and (c) take all other necessary actions all in accordance with the forms, conditions and requirements prescribed or approved by the Government; Provided, however, that neither the PHA nor the Government shall assume any obligation beyond that provided in Contracts, in the form approved by the Government.

1.3. *Term of ACC, Lease and Contract.*

(a) The term of this ACC shall be five years.

(b) The term of each Lease shall be for not less than one year nor more than three years, but the Lease may contain a provision permitting termination upon 30 days advance written notice by either party. The term of each Contract shall be for the term of the Lease, provided that if a Family continues in occupancy after the expiration of the term on the same terms and conditions as the original Lease, the Contract shall continue in effect for the duration of such tenancy subject to the limitations in the next sentence. The specified Contract and Lease term, including specified renewal options, if any, and any continuation of tenancy beyond the Lease term shall in no case exceed three years or extend beyond the term of this ACC. This limitation shall not preclude the execution of a new Lease and Contract for the dwelling units.

1.4. *Annual Contributions.*

(a) Notwithstanding any other provisions of this ACC (other than paragraph (c) of this Section) or any provisions of any other contract between the Government and the PHA, the Government shall not be obligated to make any Annual Contributions or any other payment in excess of:

(1) $------ for housing assistance payments under Contracts; or

(2) $------ for other Project Expenditures; or

(3) A total of $------ for all Project Expenditures in respect to the Project;

Provided, however, that these amounts shall be reduced commensurate with any reduction in the number of units under any provision of this ACC.

(b) Subject to the maximum dollar limitations in paragraph (a) of this Section, the Government shall pay Annual Contributions to the PHA in respect to the Project in an amount equal to the sum of the following (subject to reduction by the amount of any

V 4 0 1 6 JAN 23 75 XUM

Project Receipts other than Annual Contributions, which Receipts shall be available for Project Expenditures):

(1) The amount of housing assistance payments payable during the Fiscal Year (see Section 1.5) by the PHA pursuant to the Contract, as authorized in Section 1.2.

(2) The allowance, in the amount approved by the Government, for preliminary costs of administration.

(3) The allowance, in the amount approved by the Government, for the regular costs of administration.

(c) (1) A project account will be established and maintained by the Government, as a specifically identified and segregated account, in an amount as determined by the Government consistent with its responsibilities under section 8(c)(6) of the Act. To the extent funds are available in said account, the Annual Contribution for any Fiscal Year may exceed the maximum amounts stated in paragraph (a) of this Section by such amount, if any, as may be required for increases reflected in the estimates of required Annual Contributions applicable to such Fiscal Year as approved by the Government in accordance with Section 2.11 below.

(2) The Government will take such additional steps authorized by section 8(c)(6) of the Act as may be necessary to assure availability of funds to cover increases in housing assistance payments on a timely basis as a result of increases in Contract Rents or decreases in Family incomes.

(d) The Government will make periodic payments on account of the Annual Contributions upon requisition therefor by the PHA in the form prescribed by the Government. Each requisition shall include certifications by the PHA that housing assistance payments have been or will be made only:

(1) In accordance with the provisions of the Contracts.

(2) With respect to units which the PHA has inspected or caused to be inspected, pursuant to Section 2.4 of Part II of this ACC, within one year prior to the making of such housing assistance payments.

(e) Following the end of each Fiscal Year, the PHA shall promptly pay to the Government, unless other disposition is approved by the Government, the amount, if any, by which the total amount of the periodic payments during the Fiscal Year exceeds the total amount of the Annual Contribution payable for such Fiscal Year in accordance with this Section.

1.5. *Fiscal Year.* The Fiscal Year for the Project shall be the Fiscal Year established by Section 0.3 of this ACC; Provided, however, that the first Fiscal Year for the Project shall be the period beginning with the effective date of this ACC Part I and ending on the last day of said established Fiscal Year which is not less than 12 months after such effective date. If the first Fiscal Year exceeds 12 months, the maximum Annual Contribution in Section 1.4(a) may be adjusted by the addition of the pro rata amount applicable to the period of operation in excess of 12 months.

1.6. *Periodic Adjustment of Contract Rents.* Each Contract may provide for periodic adjustment in the rents chargeable by the Owners and commensurate increases in amounts of housing assistance payments in accordance with the applicable Government regulations.

1.7. *Equal Opportunity Housing Plan.* The PHA, in disseminating information concerning the availability and nature of the housing assistance, inviting Owners to make dwelling units available for leasing by Families, and issuing Certificates of Family Participation, shall comply with its HUD-approved equal opportunity housing plan.

1.8. *Expeditious Carrying Out of Project.* The PHA shall proceed expeditiously with the Project. If the PHA fails to proceed expeditiously, the Government, by notice to the PHA, may reduce its obligation hereunder with respect to the Project to the number and size of dwelling units under Contracts with Owners as of the date of receipt of such notice by the PHA, with a corresponding reduction in the maximum amounts of Annual Contributions specified in Section 1.4(a).

1.9. *Prior ACCs Superseded.* This Part I supersedes prior ACC Parts I, if any.

Section 8 Housing Assistance Payments Program

Terms and Conditions

Constituting Part II of an

Annual Contributions Contract

between

Public Housing Agency

and the

United States of America

U.S. Department of Housing and Urban Development

2.1. *Definitions.*

(a) "Families" means Lower-Income Families (including "Very Low-Income Families") and includes Families consisting of a single person in the case of Elderly Families and Displaced Families and includes the remaining member of a tenant family.

(b) "Elderly Families" means Families whose heads (or their spouses), or whose sole members, are persons who are at least 62 years of age or are under a disability as defined in section 223 of the Social Security Act or in section 102(5) of the Developmental Disabilities Services and Facilities Construction Amendments of 1970, or are handicapped. The term Elderly Families includes two or more elderly, disabled, or handicapped individuals living together, or one or more such individuals living together with another person who is determined under regulations of the Secretary of Housing and Urban Development ("Secretary") to be a person essential to their care or well being.

(c) "Displaced Families" means Families displaced by governmental action, or Families whose dwellings have been extensively damaged or destroyed as a result of a disaster declared or otherwise formally recognized pursuant to Federal disaster relief laws.

(d) "Lower-Income Families" means Families whose incomes do not exceed 80 percent of the median income for the area, as determined by the Secretary with adjustments for smaller and larger families, except that the Secretary may establish income limits higher or lower than 80 percent of the median for the area on the basis of his findings that such variations are necessary because of prevailing levels of construction costs, unusually high or low family incomes, or other factors.

(e) "Very Low-Income Families" means Families whose incomes do not exceed 50 percent of the median income for the area, as determined by the Secretary with adjustments for smaller and larger families.

(f) "Income" means income from all sources of each member of the household, as determined in accordance with criteria prescribed by the Secretary.

(g) "Owner" means the person or entity, including a cooperative, with which the Agreement and Contract are entered into.

(h) "Rent" or "rental" mean, with respect to members of a cooperative, the charges under the occupancy agreements between such members and the cooperative.

(i) "Project Receipts" with respect to each Project means the Annual Contributions payable hereunder and all other receipts, if any, accruing to the PHA from, out of, or in connection with such Project.

(j) "Project Expenditures" with respect to each Project means all costs allowable under Section 1.4(b), Part I of this ACC, with respect to such Project.

(k) "Substantial Default" means the occurrence of any of the events listed in Section 2.16.

2.2. *Lower-Income Housing Use; Compliance with Act and Regulations.* The PHA shall use the Annual Contributions solely for the purpose of providing Decent, Safe, and Sanitary dwellings for Families in compliance with all applicable provisions of the Act and all regulations issued pursuant thereto.

2.3. *Eligibility and Amount of Housing Assistance Payments.*

(a) The PHA shall comply with the income limits established by the Government and with the requirements of the Government pursuant to section 8(c)(7) of the Act that at least 30 percent of the Families assisted in all its Projects under its Master Section 8 ACC shall be Very Low-Income Families.

(b) The PHA shall comply or assure compliance with the schedules and criteria established by the Government with respect to the amounts of housing assistance payments made on behalf of Families.

(c) The PHA shall make or cause to be made periodic reexaminations of the income, composition, and extent of exceptional medical or other unusual expenses of Families for whom housing assistance payments are being made, for the purpose of confirming or adjusting, in accordance with the applicable schedules established by the Government, the amount of rent payable by the Family and the amount of housing assistance payment.

(d) The PHA shall determine, as part of its annual inspection and at such other times as it deems appropriate, whether an adjustment is required in the Allowance for Utilities and Other Services applicable to the dwelling unit on grounds of changes of general applicability. If the PHA determines that an adjustment should be made, the PHA shall prescribe the amount of the adjustment and make a corresponding adjustment in the amount of rent to be paid by the affected Family and the amount of Housing Assistance Payment and notify the Owner accordingly.

(e) Prior to the approval of eligibility of a Family and thereafter on the date established for each reexamination of the status of such Family, the PHA shall review or cause to be reviewed a written application, signed by a responsible member of such Family, which application shall set forth all data and information necessary for a determination of the amount, if any, of housing assistance payment which can be made with respect to the Family.

2.4. *Inspections.*

(a) The PHA shall require, as a condition for the making of housing assistance payments, that the Owner maintain the assisted dwelling units and related facilities in Decent, Safe, and Sanitary condition.

(b) The PHA shall inspect or cause to be inspected dwelling units and related facilities prior to commencement of occupancy by

Families and shall make or cause to be made subsequent inspections at least annually, adequate to assure that Decent, Safe, and Sanitary housing accommodations are being provided and that the agreed-to services are being furnished.

2.5. *Nondiscrimination in Housing.*

(a) The PHA shall comply with all requirements imposed by Title VI of the Civil Rights Act of 1964, Public Law 88-352, 78 Stat. 241; the regulations of the Department of Housing and Urban Development issued thereunder, 24 CFR, Subtitle A, Part 1, Section 1.1, *et seq.*; the requirements of said Department pursuant to said regulations; and Executive Order 11063, to the end that, in accordance with that Act and the regulations and requirements of said Department thereunder, and said Executive Order, no person in the United States shall, on the ground of race, color, creed, religion, or national origin, be excluded from participation in, or be denied the benefits of, the Housing Assistance Payments Program or be otherwise subjected to discrimination. The PHA shall, by contractual requirement, covenant, or other binding commitment, assure the same compliance on the part of any subgrantee, contractor, subcontractor, transferee, successor in interest, or other participant in the program or activity, such commitment to include the following clause:

"This provision is included pursuant to the regulations of the Department of Housing and Urban Development, 24 CFR, Subtitle A, Part 1, Section 1.1, *et seq.*; issued under Title VI of the said Civil Rights Act of 1964, and the requirements of said Department pursuant to said regulations; and the obligation of the [contractor or other] to comply therewith inures to the benefit of the United States, the said Department, and the PHA, any of which shall be entitled to invoke any remedies available by law to redress any breach thereof or to compel compliance therewith by the [contractor or other.]"

(b) The PHA shall incorporate or cause to be incorporated into all Housing Assistance Payments Contracts a provision requiring compliance with all requirements imposed by Title VIII of the Civil Rights Act of 1968, and any rules and regulations issued pursuant thereto.

(c) The PHA shall not, on account of creed or sex, discriminate in the sale, leasing, rental, or other disposition of housing or related facilities (including land) included in any Project or in the use of occupancy thereof, nor deny to any Family the opportunity to apply for such housing, nor deny to any eligible applicant the opportunity to lease or rent any dwelling in any such housing suitable to its needs. No person shall *automatically* be excluded from participation in or be denied the benefits of the Housing Assistance Payments Program because of membership in a class such as unmarried mothers, recipients of public assistance, etc.

2.6. *Equal Employment Opportunity.*

(a) The PHA shall not discriminate against any employee or applicant for employment because of race, color, creed, religion, sex, or national origin. The PHA shall take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to race, color, creed, religion, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

(b) (1) The PHA shall incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR, Chapter 60, which is to be performed pursuant to this contract, the following Equal Opportunity clause:

"Equal Employment Opportunity

During the performance of this contract, the contractor agrees as follows:

(A) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, creed, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, creed, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the PHA setting forth the provisions of this Equal Opportunity clause.

(B) The contractor will in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, creed, sex, or national origin.

(C) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by the PHA advising the said labor union or workers' representative of the contractor's commitments under this Section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(D) The contractor will comply with all provisions of Executive Order No. 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(E) The contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the Government and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(F) In the event of the contractor's noncompliance with the Equal Opportunity clause of this contract or with any of the said rules, regulations, or orders, this contract may be cancelled, terminated, or suspended in whole or in part, and the contractor may be declared ineligible for further contracts in accordance with procedures authorized in Executive Order No. 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor or as otherwise provided by law.

(G) The contractor will include the portion of the sentence immediately preceding Paragraph (A) and the provisions of Paragraphs (A) through (G) in every subcontract or purchase order unless exempted by the rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontractor or purchase order as the Government may direct as a means of enforcing such provisions including sanctions for noncompliance; Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Government, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

(2) The PHA agrees that it will assist and cooperate actively with the Government and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the Equal Opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the Government and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the Government in the discharge of the Government's primary responsibility for securing compliance.

(3) The PHA further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order No. 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and Federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the Equal Opportunity clause as may be imposed upon contractors and subcontractors by the Government or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order.

2.7. *Training, Employment, and Contracting Opportunities for Businesses and Lower Income Persons.*

(a) The project assisted under this ACC is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that to the greatest extent feasible opportunities for training and employment be given lower income residents of the Project area and contracts for work in connection with the Project be awarded to business concerns which are located in or owned in substantial part by persons residing in the area of the Project.

(b) Notwithstanding any other provision of this ACC, the PHA shall carry out the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary set forth in 24 CFR, Part 135 (published in 38 Federal Register 29220, October 23, 1973), and all applicable rules and orders of the Secretary issued thereunder prior to the execution of this ACC. The requirements of said regulations include but are not limited to development and implementation of an affirmative action plan for utilizing business concerns located within or owned in substantial part by persons residing in the area of the Project; the making of a good faith effort, as defined by the regulations, to provide training, employment, and business opportunities required by section 3; and incorporation of the "section 3 clause" specified by Section 135.20(b) of the regulations in all contracts for work in connection with the Project. The PHA certifies and agrees that it is under no contractual or other disability which would prevent it from complying with these requirements.

(c) Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Secretary issued thereunder prior to approval by the Government of the application for this ACC shall be a condition of the Federal financial assistance provided to the Project, binding upon the PHA, its successors and assigns. Failure to fulfill these requirements shall subject the PHA, its contractors and subcontractors, its successors, and assigns to the sanction specified by this ACC and to such sanctions as are specified by 24 CFR Section 135.135.

(d) The PHA shall incorporate or cause to be incorporated into any contract pursuant

V40116 JAN2375 XUM

to this contract such clause or clauses as are required by the Government for compliance with its regulations issued pursuant to the Housing and Urban Development Act, as amended. The PHA shall cooperate with the Government in the conducting of compliance reviews pursuant to said Acts and Regulations.

2.8. *Cooperation In Equal Opportunity Compliance Reviews.* The PHA shall cooperate with the Government in the conducting of compliance reviews and complaint investigations pursuant to applicable civil rights statutes, Executive Orders, and rules and regulations pursuant thereto.

2.9 *Clean Air Act and Federal Water Pollution Control Act.* The PHA shall incorporate or cause to be incorporated, into any contract for construction or substantial rehabilitation, such clause or clauses as are required by the Government for compliance with the regulations issued by the Environmental Protection Agency pursuant to the Clean Air Act, as amended, the Federal Water Pollution Control Act, as amended, and Executive Order 11738. The PHA shall cooperate with the Government in the conducting of compliance reviews pursuant to said Acts and Regulations.

2.10 *Labor Standards.* The PHA shall incorporate or cause to be incorporated into any contract for construction or substantial rehabilitation of nine or more dwelling units, such clause or clauses as are required by the Government for compliance with its regulations issued pursuant to the Copeland Act, the Davis-Bacon Act, and the Contract Work Hours and Safety Standards Act. The PHA shall cooperate with the Government in the conducting of compliance reviews pursuant to said Acts and Regulations.

2.11. *Estimates of Required Annual Contributions.* The PHA shall from time to time submit to the Government estimates of required annual contributions at such times and in such form as the Government may require. All estimates and any revisions thereof submitted under this Section shall be subject to Government approval.

2.12. *Insurance and Fidelity Bond Coverage.* For purposes of protection against hazards arising out of or in connection with the administrative activities of the PHA in carrying out the Project, the PHA shall carry adequate (a) comprehensive general liability insurance, (b) workmen's compensation coverage (statutory or voluntary), (c) automobile liability insurance against property damage and bodily injury (owned and non-owned), and (d) fidelity bond coverage of its officers, agents, or employees handling cash or authorized to sign checks or certify vouchers.

2.13. *Books of Account and Records; Reports.*

(a) The PHA shall maintain complete and accurate books of account and records, as may be prescribed from time to time by the Government, in connection with the Projects, including records which permit a speedy and effective audit, and will among other things fully disclose the amount and the disposition by the PHA of the Annual Contributions and other Project Receipts, if any.

(b) The books of account and records of the PHA shall be maintained for each Project as separate and distinct from all other Projects and undertakings of the PHA, except as authorized or approved by the Government.

(c) The PHA shall furnish the Government such financial, operating, and statistical reports, records, statements, and documents at such times, in such form, and accompanied by such supporting data, all as may reasonably be required from time to time by the Government.

(d) The Government and the Comptroller General of the United States, or his duly authorized representatives, shall have full and free access to the Projects and to all the books, documents, papers, and records of the PHA that are pertinent to its operations with respect to financial assistance under the Act, including the right to audit, and to make excerpts and transcripts from such books and records.

(e) The PHA shall incorporate or cause to be incorporated in all Contracts the following clauses:

"PHA AND GOVERNMENT ACCESS TO PREMISES AND OWNER'S RECORDS

"(1) The Owner shall furnish such information and reports pertinent to the Contract as reasonably may be required from time to time by the PHA and the Government.

"(2) The Owner shall permit the PHA and the Government or any of their duly authorized representatives, to have access to the premises and, for the purpose of audit and examination, to have access to any books, documents, papers, and records of the Owner that are pertinent to compliance with this Contract, including the verification of information pertinent to the monthly requests to the PHA for housing assistance payments."

(f) Audits required by the Government will be performed or paid for by the Government.

2.14. *General Depositary Agreement and General Fund.*

(a) The PHA shall maintain one or more agreements, which are herein collectively called the "General Depositary Agreement," in the form prescribed by the Government, with one or more banks (each of which shall be, and continue to be, a member of the Federal Deposit Insurance Corporation) selected as depositary by the PHA. Immediately upon the execution of any General Depositary Agreement, the PHA shall furnish to the Government such executed or conformed copies thereof as the Government may require. No such General Depositary Agreement shall be terminated except after 30 days notice to the Government.

(b) All monies received by or held for account of the PHA in connection with the Projects shall constitute the General Fund.

(c) The PHA shall, except as otherwise provided in this ACC, deposit promptly with such bank or banks, under the terms of the General Depositary Agreement, all monies constituting the General Fund.

(d) The PHA may withdraw monies from the General Fund only for (1) the payment of Project Expenditures, and (2) other purposes specifically approved by the Government. No withdrawals shall be made except in accordance with a voucher or vouchers then on file in the office of the PHA stating in proper detail the purpose for which such withdrawal is made.

(e) If the PHA (1) in the determination of the Government, is in Substantial Default, or (2) makes or has made any fraudulent or willful misrepresentation of any material fact in any of the documents or data submitted to the Government pursuant to this ACC or in any document or data submitted to the Government as a basis for this ACC or as an inducement to the Government to enter into this ACC, the Government shall have the right to require any bank or other depositary which holds any monies of the General Fund, to refuse to permit any withdrawals of such monies; Provided, however, that upon the curing of such Default the Government shall promptly rescind such requirement.

2.15. *Pooling of Funds under Special Conditions and Revolving Fund.*

(a) The PHA may deposit under the terms of the General Depositary Agreement monies received or held by the PHA in connection with any other housing project developed or operated by the PHA pursuant to the provisions of any contract for annual contributions, administration, or lease between the PHA and the Government.

(b) The PHA may also deposit under the terms of the General Depositary Agreement amounts necessary for current expenditures of any other project or enterprise of the PHA, including any project or enterprise in which the Government has no financial interest; Provided, however, that such deposits shall be lump-sum transfers from the depositaries of such other projects or enterprises, and shall in no event be deposits of the direct revenues or receipts of such other projects or enterprises.

(c) If the PHA operates other projects or enterprises in which the Government has no financial interest, it may from time to time, withdraw such amounts as the Government may approve from monies on deposit under the General Depositary Agreement for deposit in and disbursement from a revolving fund provided for the payment of items chargeable in part to the Projects and in part to other projects or enterprises of the PHA; Provided, however, that all deposits in such revolving fund shall be lump-sum transfers from the depositaries of the related projects or enterprises and shall in no event be deposits of the direct revenues or receipts.

(d) The PHA may establish petty cash or change funds in reasonable amounts, from monies on deposit under the General Depositary Agreement.

(e) In no event shall the PHA withdraw from any of the funds or accounts authorized under this Section 2.15 amounts for the Projects or for any other project or enterprise in excess of the amount then on deposit in respect thereto.

2.16. *Default.*

(a) *Failure or Inability of PHA to Comply with Agreement.* In the event the Government determines that the PHA is in default under the Agreement with the Owner, or if such Agreement is held to be void, voidable or ultra vires, or if the power or right of the PHA to enter into such Agreement is drawn into question in any legal proceedings, or if the PHA asserts or claims that such Agreement is not binding upon the PHA for any such reason, the Government may, after reasonable notice to the PHA, determine that the occurrence of any such event, if the Owner is not in default, constitutes a Substantial Default hereunder as to the Project. In such case, the Government will assume the PHA's rights and obligations under the Agreement and carry out the obligations of the PHA under the Agreement, including the obligation to enter into the Contract.

(b) *Failure or Inability of PHA to Comply with Contract.* In the event of failure of the PHA to comply with the Contract with the Owner, or if such Contract is held to be void, voidable or ultra vires, or if the power or right of the PHA to enter into such Contract is drawn into question in any legal proceeding, or if the PHA asserts or claims that such Contract is not binding upon the PHA for any such reason, the Government may, after reasonable notice to the PHA, determine that the occurrence of any such event, if the Owner is not in default, constitutes a Substantial Default hereunder. In such case, the Government will assume the PHA's rights and obligations under such Contract, and the Government shall, for the duration of such Contract, continue to pay Annual Contributions for the purpose of making housing assistance payments with respect to dwelling units under such Contract, shall perform the obligations and enforce the rights of the PHA, and shall exercise such other powers as the Government may have to cure the Default.

(c) *Other Defaults by the PHA.* If the PHA defaults in the observance or performance of the provisions of Section 2.4; fails to comply with its obligations under any duly issued Certificate of Family Participation in accordance with its terms; fails to comply with the requirements of Sections 2.5, 2.6, 2.7, or 2.8; defaults in the performance or observance of any term, convenant, or condition of this ACC other than the defaults enumerated in this paragraph, and if such defaults have not been remedied within a reasonable time, not to exceed 30 days, after the Government has notified the PHA thereof; or fails to comply with the applicable provisions of the Act and all regulations issued pursuant thereto; the Government may, after reasonable notice to the PHA, determine that the occurrence of any such event, if the Owner is not in default, constitutes a Substantial Default hereunder as to the Project. Upon the occurrence of a Substantial Default with respect to any Project, the PHA shall, if the Government so requires, assign to the Government all of its rights and interests in and to the project, or such part thereof as the Government may specify, and the Government shall continue to pay Annual Contributions with respect to dwelling units covered by Housing Assistance Payments Contracts in accordance with the terms of this ACC until reassigned to the PHA.

(d) *Return of Rights and Obligations to PHA.* All rights and obligations of the PHA assumed by the Government pursuant to this Section 2.16 will be returned as constituted at the time of such return (1) when the Government is satisfied that all defaults have been cured and that the Project will thereafter be administered in accordance with all applicable requirements or (2) when the Housing Assistance Payments Contract is at an end, whichever occurs sooner.

(e) *Rights of Owner.* The provisions of this Section 2.16 are made with, and for the benefit of, the Owner or his assignees who will have been specifically approved by the Government prior to such assignment. To enforce the performance of this provision the Owner and such assignees, as well as the PHA, shall have the right to proceed against the Government by suit at law or in equity.

2.17 *Remedies Not Exclusive and Non-Waivers of Remedies.* Any remedy provided for herein shall not be exclusive or preclude the Owner, PHA and/or the Government from exercising any other remedy available under this ACC or under any provisions of law, nor shall any action taken in the exercise of any remedy be deemed a waiver of any other rights or remedies available to such parties. Failure on the part of any such party to exercise any right or remedy shall not constitute a waiver of that or any other right or remedy, nor operate to deprive the party of the right thereafter to take any remedial action for the same or any subsequent default.

2.18. *Interest of Members, Officers, or Employees of PHA, Members of Local Governing Body, or Other Public Officials.*

(a) Neither the PHA nor any of its contractors or their subcontractors shall enter into any contract, subcontract, or arrangement, in connection with any Project in which any member, officer, or employee of the PHA, or any member of the governing body of the locality in which the Project is situated, or any member of the governing body of the locality in which the PHA was activated, or any other public official of such locality or localities who exercises any responsibilities or functions with respect to the Project during his tenure or for one year thereafter has any interest, direct or indirect. If any such present or former member, officer, or employee of the PHA, or any such governing body member or such other public official of such locality or localities involuntarily acquires or had acquired prior to the beginning of his tenure any such interest, and if such interest is immediately disclosed to the PHA and such disclosure is entered upon the minutes of the PHA, the PHA, with the prior approval of the Government, may waive the prohibition contained in this subsection; Provided, however, that any such present member, officer, or employee of the PHA shall not participate in any action by the PHA relating to such contract, subcontract, or arrangement.

(b) The PHA shall insert in all contracts entered into in connection with any Project or any property included or planned to be included in any Project, and shall require its contractors to insert in each of its subcontracts, the following provisions:

"No member, officer, or employee of the PHA, no member of the governing body of the locality in which the Project is situated, no member of the governing body of the locality in which the PHA was activated, and no other public official of such locality or localities who exercises any functions or responsibilities with respect to the Project, during his tenure or for one year thereafter, shall have any interest, direct or indirect, in this contract or the proceeds thereof."

(c) The provisions of the foregoing subsections (a) and (b) of this Section 2.18 shall not be applicable to the General Depositary Agreement, or utility service the rates for which are fixed or controlled by a governmental agency.

2.19. *Interest of Member of or Delegate to Congress.* No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of this ACC or to any benefits which may arise therefrom.

APPENDIX II

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM, HOUSING ASSISTANCE PAYMENTS CONTRACT

EXISTING HOUSING

PART I

This Housing Assistance Payments Contract ("Contract") is entered into by and between _____, the person or entity having the legal right to lease the unit ("Owner"), and _____ ("PHA"), which is a public housing agency as defined in the United States Housing Act of 1937, 42 U.S.C. 1437, *et seq.* ("Act"), at section 1437a(6).

The Owner and the PHA agree as follows:

1.1 *FAMILY TO BE HOUSED: PHA ASSISTANCE.*

a. *Family to be Housed.* The Contract Unit is to be leased by the Owner, under a PHA-approved lease ("Lease"), to the following Lower-Income Family ("Family") for use and occupancy by such Family solely as a private dwelling:

_____

(Name of Family)

b. *PHA Assistance and Contract Unit.* In order to enable the Family to lease Decent, Safe, and Sanitary housing pursuant to section 8 of the Act, the PHA agrees to make housing assistance payments on behalf of the Family for the following described dwelling unit ("Contract Unit"):

_____

c. *Term of Contract.* The term of this Contract shall be __ years [the term of the Lease, not to exceed three years] beginning on _____, 19__, [the effective date of the Lease] and ending _____, 19__; Provided, however, that if the Family continues in occupancy, after the expiration of the term, on the same terms and conditions as the original Lease, the Contract shall continue in effect for the duration of such tenancy, but in no case for a total term of more than five years.

1.2 *AMOUNT OF CONTRACT RENT AND FAMILY PORTION.*

a. *Amount of Contract Rent.* The lease rental for the unit ("Contract Rent") is $_____ per month.

b. *Family Portion of Rent.*

(1) The monthly amount the Family is required to pay toward the Contract Rent is $_____.

(2) If there are any utilities or services payable directly by the Family, the amount in paragraph b(1) was computed as follows:

(i) Monthly amount Family must pay toward Gross Rent $_____.

(ii) Less: PHA-determined Allowance for utilities and services payable directly by the Family $_____.

(iii) Amount payable by Family toward Contract Rent $_____.

(3) If the amount in line (2)(ii) is *greater* than the amount in line (2)(i), enter the amount of such excess $_____.

The Owner agrees to pay the Family this monthly amount, on behalf of the PHA, upon receipt of funds from the PHA for that purpose, and the Owner shall furnish the PHA, upon request by it, with evidence of such payment.

(4) The amount set forth in this paragraph b shall be subject to change by reason of changes in the Family income, composition, or extent of exceptional medical or other unusual expenses, or in the Allowance for Utilities and Other Services or in the Contract Rent, as determined by the PHA, effective as of the date stated in a notification of such change by the PHA to the Family and Owner.

c. *PHA Not Obligated for Family Portion of Rent.* Neither the PHA nor the United States of America ("Government") has assumed any obligation whatsoever for the portion of the rent payable by the Family or for the satisfaction of any claim by the Owner against the Family other than in accordance with Section 1.7 of this Contract. The financial obligation of the PHA is limited to making housing assistance payments on behalf of the Family in accordance with this Contract.

1.3 *HOUSING ASSISTANCE PAYMENTS.*

a. *Amount.* The PHA will pay on behalf of the Family a housing assistance payment equal to the difference between the Contract Rent and the portion of said rent payable by the Family.

b. *Conditions for Payment.* Housing assistance payments shall be made by the PHA to the Owner, under the terms and conditions of this Contract and the pertinent Annual Contributions Contract ("ACC"), only for the period during which the Contract Unit is leased or occupied by the Family during the term of the Contract (see section 1.1c), except as provided in paragraphs c and d of this section.

c. *Payment for Vacated Unit.*

(1) If the Family vacates its unit in violation of the provisions of the Lease or tenancy agreement, the Owner shall receive housing assistance payments in the amount of 80 percent of the Contract Rent for a vacancy period not exceeding 60 days or the expiration or other termination of the Lease or tenancy agreement, whichever comes first; Provided, however, that if the Owner collects any of the Family's share of the rent for this period in an amount which, when added to the 80 percent payments, results in more than the Contract Rent, such excess shall be payable to the Government or as the Government may direct; and provided further that if the vacancy is the result of action by the Owner, the Owner shall not receive any payment under this paragraph if the action was in violation of the Lease

V 4 0 1 6 JAN 23 75 XUM

or the Contract or any applicable law. (See section 1.5.)

(2) The Owner shall not be entitled to any payment under this paragraph c unless he (i) immediately upon learning of the vacancy, has notified the PHA of the vacancy or prospective vacancy, (ii) has taken and continues to take all feasible actions to fill the vacancy including, but not limited to, contacting applicants on his waiting list, requesting the PHA and other appropriate sources to refer applicants, and advertising the availability of the unit, and (iii) has not rejected any applicant except for good cause acceptable to the PHA.

(3) The Owner shall not be entitled to housing assistance payments with respect to vacant units under this paragraph c to the extent he is entitled to payments from other sources (for example, payments for losses of rental income incurred for holding units vacant for relocatees pursuant to Title I of the Housing and Community Development Act of 1974 or payments under Section 1.7).

d. *Owner's Monthly Requests for Payments.*

(1) The Owner shall submit monthly requests to the PHA or as directed by the PHA for housing assistance payments. Each such request shall set forth: (i) the name of the Family and the address and number, if any, of the unit leased by the Family; (ii) the Contract Rent for the unit for which the Owner is claiming payments; (iii) the amount of rent payable by the Family leasing the unit (or, where applicable, the amount to be paid the Family in accordance with Section 1.2b(3)); and (iv) the total amount of housing assistance payments requested by the Owner.

(2) Each of the Owner's monthly requests shall contain a certification by him that to the best of his knowledge and belief (i) the dwelling unit is in Decent, Safe, and Sanitary condition, (ii) all the other facts and data on which the request for funds is based are true and correct, (iii) the amount requested has been calculated in accordance with the provisions of this Contract and is payable under the Contract, and (iv) none of the amount claimed has been previously claimed or paid.

(3) If the Owner has received an excessive payment, the PHA, in addition to any other rights to recovery, may deduct the amount from any subsequent payment or payments.

(4) The Owner's monthly requests for housing assistance payments shall be made subject to penalty under 18 U.S.C. 1001, which provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

1.4 *MAINTENANCE, OPERATION AND INSPECTION.*

a. *Maintenance and Operation.* The Owner agrees (1) to maintain and operate the Contract Unit and related facilities so as to provide Decent, Safe, and Sanitary housing, and (2) to provide all the services, maintenance and utilities set forth in the Lease. If the PHA determines that the Owner is not meeting any of these obligations, the PHA shall have the right, in addition to its other rights and remedies under this Contract, to abate housing assistance payments in whole or in part.

b. *Inspection.*

(1) Prior to occupancy of the unit by the Family, the Owner and the Family shall inspect the unit and each shall furnish a report and certification of the condition of the unit, on the form prescribed by the PHA. By executing this Contract, the Owner certifies that to the best of his knowledge and belief and in accordance with the criteria provided in the PHA-prescribed form, the unit is in Decent, Safe, and Sanitary condition on the date of execution.

(2) The PHA shall inspect the Contract Units and related facilities, or cause them to be inspected, at least annually and at such other times (including prior to initial occupancy of the unit) as the PHA may determine to be necessary to assure that the Owner is meeting his obligation to maintain the unit in Decent, Safe, and Sanitary condition and to provide the agreed upon utilities and other services. The PHA shall take into account complaints by occupants and any other information coming to its attention in scheduling inspections, and shall notify the Owner and the Family of its determinations.

c. *Units Not Decent, Safe, and Sanitary.* If the PHA notifies the Owner that he has failed to maintain the dwelling unit in Decent, Safe, and Sanitary condition and the Owner fails to take corrective action within the time prescribed in the notice, the PHA may exercise any of its rights or remedies under the Contract, including abatement of housing assistance payments (even if the Family continues in occupancy) and termination of the Contract. If the Family wishes to be rehoused in another dwelling unit with Section 8 assistance and the PHA determines to terminate the Contract, the PHA shall issue to the Family another Certificate of Family Participation.

d. *Notification of Abatement.* Any abatement of housing assistance payments shall be effective as provided in written notification to the Owner. The PHA shall promptly notify the Family of any such abatement.

e. *Overcrowded Unit.* If the PHA determines that a Contract Unit is not Decent, Safe, and Sanitary by reason of increase in Family size, the Family and the PHA shall try to find an acceptable unit as soon as possible. If an acceptable unit is found that is available for occupancy by the Family, and the Lease with the first Owner can be terminated in accordance with its terms, the Contract with the first Owner shall be terminated and housing assistance payments shall be made available to the Family for occupancy in the acceptable unit. Housing assistance payments will not be terminated unless the Family rejects without good reason the offer of a unit which the PHA judges to be acceptable.

1.5 *EVICTION.* The Owner shall not evict the Family unless the Owner complies with the requirements of local law, if any, and of this Section. The Owner shall give the Family a written notice of the proposed eviction, stating the grounds and advising the Family that it has 10 days (or such greater number, if any, that may be required by local law) within which to respond to the Owner. The Owner must obtain the PHA's authorization for an eviction; accordingly, a copy of the notice shall be furnished simultaneously to the PHA, and the notice shall also state that the Family may, within the same time period, present its objections to the PHA in writing or in person. The PHA shall forthwith examine the grounds for eviction and shall authorize the eviction unless it finds the grounds to be insufficient under the Lease. The PHA shall notify the Owner and the Family of its determination within 20 days of the date of notice to the Family, whether or not the Family has presented objections to the PHA. If the Owner has not received a response from the PHA within 20 days, he shall telephone the PHA and shall be informed by the PHA whether a notice of determination has been mailed. If the PHA informs the Owner that no notice has been mailed within the 20 day period, the PHA shall be deemed to have authorized the eviction.

1.6 *OWNER-FAMILY LEASE.* The Lease between the Owner (Lessor) and the Family (Lessee) shall contain the following provisions:

"ADDENDUM TO LEASE

"The following additional Lease provisions are incorporated in full in the Lease between ---------- (Lessor) and ---------- ---------- (Lessee) for the following dwelling unit: ----------. In case of any conflict between these and any other provisions of the Lease, these provisions shall prevail.

"a. The total rent shall be $------ per month.

"b. Of the total rent, $------ shall be payable by the Public Housing Agency (PHA) as housing assistance payments on behalf of the Lessee and $------ shall be payable by the Lessee. These amounts shall be subject to change by reason of changes in the Lessee's family income, composition, or extent of exceptional medical or other unusual expenses, or by reason of adjustment by the PHA of any applicable Allowance for Utilities and Other Services. Any such change shall be determined in accordance with HUD-established schedules and criteria and shall be effective as of the date stated in a notification to the Lessee.

"c. The Lessor shall provide the following utilities: [Specify]

"d. The Lessor shall provide maintenance and services as follows:

(1) The Lessor shall maintain the dwelling unit and all equipment provided therewith, as well as common areas, facilities and equipment provided for the use and benefit of the Lessee, in compliance with the Housing Quality Standards on the basis of which this Lease was approved by the Public Housing Agency, and the Lessor shall respond in a reasonable time to calls by the Lessee for services consistent with said obligation. Where applicable (as in case of multiunit buildings), such maintenance with respect to common areas, facilities and equipment shall include cleaning; maintenance of grounds, lawns and shrubs; and removal of snow and ice. Where security equipment and services are to be provided by Lessor they are as follows: [Specify, or state "None"].

(2) Extermination services shall be provided by Lessor as conditions may require. If such service is to be provided on a scheduled basis, the schedule is as follows: [Specify, or state "No schedule"].

(3) Repainting shall be provided by Lessor as conditions may require. If such service is to be provided on a scheduled basis, the schedule is as follows: [Specify, or state "No schedule"].

"e. The Lessor shall not evict the Lessee unless the Lessor complies with the requirements of local law, if any, and of this provision. The Lessor shall give the Lessee a written notice of the proposed eviction, stating the grounds and advising the Lessee that he has 10 days (or such greater number, if any, that may be required by local law) within which to respond to the Lessor. Because the Lessor must obtain the PHA's authorization for an eviction, a copy of the notice shall be furnished simultaneously to the PHA, and the notice shall also state that the Lessee may, within the same time period, present his objections to the PHA in writing or in person. The PHA shall forthwith examine the grounds for eviction and shall authorize the eviction unless it finds the grounds to be insufficient under the Lease. The PHA shall notify the Lessor and the Lessee of its determination within 20 days of the date of notice to the Lessee, whether or not the Lessee has presented objections to the PHA. If the Owner has not received a response from the PHA within 20 days, he shall telephone the PHA and shall be informed by the PHA whether a notice of determination has been mailed. If the PHA informs the Owner that no notice has been mailed within the 20 day period, the PHA shall be deemed to have authorized the eviction.

"f. The Lessor shall not discriminate against the Lessee in the provision of services, or in any other manner, on the grounds of race, color, creed, religion, sex, or national origin.

"g. This Lease has been signed by the parties on the condition that the PHA will promptly execute a Housing Assistance Payments Contract with the Lessor. Accordingly, this Lease shall not become effective unless the PHA has executed such Contract by the first day of occupancy specified in the Lease.

"Lessor ----------

By ----------

Date ----------

Lessee ----------

Date ----------"

1.7 *SECURITY DEPOSITS.* [This section is applicable only if the Owner has required the Family to pay a security deposit.]

a. The Family has paid the Owner a security deposit in an amount equal to the amount payable by the Family toward one month's Gross Rent. If the Family vacates the unit, the Owner may utilize the deposit as reimbursement for any unpaid rent or other amount owed under the Lease. If the amount of the security deposit is insufficient for such reimbursement, the Owner may claim reimbursement from the PHA, not to exceed an amount equal to the remainder of one month's Contract Rent. If the Family vacates the unit owing no rent or other amount under the Lease, or if such amount is less than the amount of the security deposit, the Owner shall refund the full amount or the unused balance, as the case may be, to the Family.

b. In those jurisdictions where interest is payable by the Owner on security deposits, the refunded amount shall include the amount of interest payable. The Owner must comply with all State and local laws regarding interest payments on security deposits.

1.8 *RENT ADJUSTMENTS.*

a. Contract Rents shall be adjusted as provided in paragraphs a (1) and (2) of this Section upon request to the PHA by the Owner, provided that such request is accompanied by a certification signed by the Owner and the Family that the unit is in Decent, Safe, and Sanitary condition and that the Owner is otherwise in compliance with the terms of the Lease.

(1) An adjustment as of any anniversary date of the Lease not to exceed the percentage of change in the applicable published Fair Market Rent (with appropriate reduction in the adjustment where utilities are paid directly by the Family), provided that the Owner has the legal right to terminate the tenancy as of such anniversary date.

(2) A special adjustment, subject to Government approval, effective as of the date when the Owner has the legal right to terminate the tenancy, to reflect increases in the actual and necessary expenses of owning and maintaining the unit which have resulted from substantial general increases in real property taxes, utility rates, or similar costs (i.e., assessments, and utilities not covered by regulated rates), but only if and to the extent that the Owner clearly demonstrates that such general increases have caused increases in the Owner's operating costs which are not adequately compensated for by the annual adjustments provided for in paragraph a(1). The Owner shall submit financial statements which clearly support the increase.

b. Notwithstanding any other provisions of this Contract, adjustments as provided in paragraph a shall not result in material differences between the rents charged for assisted and comparable unassisted units, as determined by the PHA (and approved by the Government, in case of adjustments under paragraph a(2)).

1.9 *ENTIRE AGREEMENT.* This Contract, including Part II hereof, contains the entire agreement between the parties hereto, and neither party is bound by any representations or agreements of any kind except as contained herein. No changes in this Contract shall be made except in writing signed by both the Owner and the PHA.

1.10 *OWNER'S WARRANTY OF LEGAL CAPACITY.* The Owner warrants that he has the legal right to execute this Contract and to lease the dwelling unit covered by this Contract.

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM; EXISTING HOUSING

HOUSING ASSISTANCE PAYMENTS CONTRACT

PART II

2.1 *Nondiscrimination in Housing.*

a. Neither the Owner nor the PHA shall, in the selection or approval of Families, in the provision of services, or in any other manner, discriminate against any person on the grounds of race, color, creed, religion, sex, or national origin. No person shall be *automatically* excluded from participation in or be denied the benefits of the Housing Assistance Payments Program because of membership in a class such as unmarried mothers, recipients of public assistance, etc.

b. The Owner shall comply with all requirements imposed by Title VIII of the Civil Rights Act of 1968, and any rules and regulations pursuant thereto.

c. The Owner shall comply with all requirements imposed by Title VI of the Civil Rights Act of 1964, Public Law 88-352, 78 Stat. 241; the regulations of the Department of Housing and Urban Development issued thereunder, 24 CFR, Subtitle A, Part 1, Section 1.1, *et seq;* the requirements of said Department pursuant to said regulations; and Executive Order 11063 to the end that, in accordance with that Act, the regulations and requirements of said Department thereunder, and said Executive Order, no person in the United States shall, on the ground of race, color, creed, religion or national origin, be excluded from participation in, or be denied the benefits of, the Housing Assistance Payments Program, or be otherwise subjected to discrimination. This provision is included pursuant to the regulations of the Department of Housing and Urban Development, 24 CFR, Subtitle A, Part 1, Section 1.1, *et seq,* issued under Title VI of the said Civil Rights Act of 1964, and the requirements of said Department pursuant to said regulations; and the obligation of the Owner to comply therewith inures to the benefit of the Government, the said Department, and the PHA, any of which shall be entitled to invoke any remedies available by law to redress any breach thereof or to compel compliance therewith by the Owner.

2.2 *Cooperation in Equal Opportunity Compliance Reviews.* The PHA and the Owner shall cooperate with the Government in the conducting of compliance reviews and complaint investigations pursuant to all applicable civil rights statutes, Executive Orders, and rules and regulations pursuant thereto.

2.3 *Annual Contributions Contract.*

a. The PHA has entered into an Annual Contributions Contract dated ------, 19--, with the Government, with respect to Project No. ------ ("ACC") under which the Government will provide financial assistance to the PHA pursuant to Section 8 of the Act, for the purpose of making housing assistance payments, which ACC shall be provided by the PHA to the Owner upon request.

b. The PHA hereby pledges such annual contributions payable under Section 1.4(b)(1) of Part I of the ACC to the payment of housing assistance payments pursuant to this and other Housing Assistance Payments Contracts entered into as a part of said Project.

2.4 *PHA and Government Access to Premises and Owner's Records.*

a. The Owner shall furnish such information and reports pertinent to the Contract as reasonably may be required from time to time by the PHA or the Government.

b. The Owner shall permit the PHA or the Government or any of their duly authorized representatives to have access to the premises and, for the purpose of audit and examination, to have access to any books, documents, papers and records of the Owner that are pertinent to compliance with this Contract, including the verification of information pertinent to the monthly requests to the PHA for housing assistance payments.

2.5 *Default by the Owner.*

a. A Default by the Owner under this Contract shall result if:

(1) The Owner has violated or failed to comply with any provision of, or obligation under, this Contract or of the Owner-Family Lease; or

(2) The Owner has asserted or demonstrated an intention not to perform some or all of his obligations under this Contract or under the Owner-Family Lease.

b. Upon a determination by the PHA that a Default has occurred, the PHA shall notify the Owner of the nature of the Default, of the actions required to be taken on account of the Default (including the curing of the Default by the Owner, the abatement of housing assistance payments in whole or in part, where appropriate, or any combination of actions), and of the time within which the Owner shall respond with a showing that he has taken all the actions required of him. If the Owner fails to respond or take action to the satisfaction of the PHA, the PHA shall take appropriate actions to achieve compliance or to terminate the Contract.

2.6 *Remedies Not Exclusive and Non-Waiver of Remedies.* The availability of any remedy under this Contract shall not preclude the exercise of any other remedy under this Contract or under any provisions of law, nor shall any action taken in the exercise of any remedy be deemed a waiver of any other rights or remedies. Failure to exercise any right or remedy shall not constitute a waiver of the right to exercise that or any other right or remedy at any time.

2.7 *Disputes.*

a. Except as otherwise provided herein, any dispute concerning a question of fact arising under this Contract which is not disposed of by agreement of the PHA and Owner may be submitted by either party to the Department of Housing and Urban Development field office director who shall make a decision and shall mail or otherwise furnish a written copy thereof to the Owner and the PHA.

b. The decision of the field office director shall be final and conclusive unless, within 30 days from the date of receipt of such copy, either party mails or otherwise furnishes to the field office director a written appeal addressed to the Secretary of Housing and Urban Development. The decision of the

V 40 16 JAN 23 75 XUM

Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive, unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this Section, the appellant shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, both parties shall proceed diligently with the performance of the Contract and in accordance with the decision of the field office director.

c. This Section does not preclude consideration of questions of law in connection with decisions rendered under paragraphs a and b of this Section; Provided, however, that nothing herein shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

2.8 *Interest of Members, Officers, or Employees of PHA, Members of Local Governing Body, or Other Public Officials.* No member, officer, or employee of the PHA, no member of the governing body of the locality (city and county) in which the premises are situated, no member of the governing body of the locality in which the PHA was activated, and no other public official of such locality or localities who exercises any functions or responsibilities with respect to the premises, during his tenure or for one year thereafter, shall have any interest, direct or indirect, in this Contract or in any proceeds or benefits arising from it.

2.9 *Interest of Member of or Delegate to Congress.* No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of this Contract or to any benefits which may arise therefrom.

2.10 *Nonassignability.*

a. The Owner agrees that he has not made, and will not make any sale, assignment, or conveyance or transfer in any other form, of this Contract, or any of his interest therein, except with the prior consent of the PHA. An assignment by the Owner to a limited partnership of which the Owner is the sole general partner shall not be considered an assignment herein.

b. The Owner agrees to notify the PHA promptly of any proposed action covered by paragraph a of this Section. The Owner further agrees to request written consent of the PHA in regard thereto.

c. For the purpose of this Section, a transfer of stock in the Owner in whole or in part, by a party holding ten percent or more of the stock of said Owner, or a transfer by more than one stockholder or the Owner of ten percent or more of the stock of said Owner, or any other similarly significant change in the ownership of such stock or in the relative distribution thereof, or with respect to the parties in control of the Owner or the degree thereof, by any other method or means, whether by increased capitalization, merger with another corporation, corporate or other amendments, issuance of new or additional stock or classification of stock or otherwise, shall be deemed an assignment, conveyance, or transfer with respect to this Contract. With respect to this provision, the Owner and the party signing this Contract on behalf of said Owner, represent that they have the authority of all of the existing stockholders of the Owner to agree to this provision on behalf of said stockholders and to bind them with respect thereto.

APPENDIX III

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—EXISTING HOUSING

CERTIFICATE OF FAMILY PARTICIPATION

1. *Certification.* The undersigned Public Housing Agency ("Agency") hereby certifies that the Family headed by _____ is authorized to participate in the Section 8 Housing Assistance Payments Program of this Agency. Under this program, the Agency makes housing assistance payments on behalf of participating Families toward their rents to Owners of Decent, Safe, and Sanitary dwelling units selected by the Families.

2. *Dwelling Unit.* If the Family finds a dwelling unit meeting its space requirements and otherwise suitable to its needs, which is in Decent, Safe, and Sanitary condition, the Family should submit to the Agency the Request for Lease Approval, together with the required inspection reports and a proposed lease. Prior to approval of the proposed lease, the Agency will inspect the dwelling unit or cause it to be inspected.

3. *Lease Rent.* The monthly rental provided in the Lease must be determined by the Agency to be reasonable; and generally this rent, plus the allowance approved by the Agency for any utilities payable directly by the Family, may not exceed the Fair Market Rents for a ___ bedroom dwelling unit, which are $_____ for elevator buildings and $_____ for non-elevator buildings.

4. *Family Portion of Rent.*

(a) Under the rules and regulations of the Housing Assistance Payments Program, the Family will be obligated to pay $_____ toward the monthly lease rental; however, this amount will be reduced by any Allowance for utilities to be paid directly by the Family, and this reduction will be reflected in the amount payable by the Family as specified in the Lease.

(b) As an incentive to the Family to find the most economical housing suitable to its needs, if the Family selects a dwelling unit (other than a unit receiving the benefit of Federal, State or local subsidy) for which the proposed monthly lease rental plus any applicable allowance is below the applicable Fair Market Rent, the Family will be given credit by a reduction in the amount it must pay toward rent and utilities (Gross Family Contribution). The amount of this credit will be that percentage of the Gross Family Contribution which the Rent Saving is of the Fair Market Rent. The Rent Saving is the amount by which the Fair Market Rent (i) exceeds the monthly lease rental (plus any applicable allowance) approved by the Agency, or (ii) exceeds the initially proposed lease rental (plus any applicable allowance) if that be higher than the approved lease rental (plus any applicable allowance).

(c) The amount which the Family is required to pay toward rent and utilities is subject to change by reason of changes in Family income, composition, and extent of exceptional medical or other unusual expenses and changes in the Allowance for Utilities and Other Services and the Contract Rent.

5. *Agency Portion of Rent.* Pursuant to a Housing Assistance Payments Contract with an Owner, the Agency will pay to the Owner on behalf of the Family an amount equal to the difference between the Family portion of the rent to the Owner and the monthly lease rental.

6. *Agency Approval of Lease.*

(a) After receipt of a Request for Lease Approval, the Agency will notify the Owner and the Family whether or not the proposed lease is approvable. This notification will be given within __ working days from the date of availability for inspection as stated in the Request for Lease Approval.

(b) The Agency, upon issuing this Certificate of Family Participation, anticipates that if a lease meeting the requirements of this program is submitted for approval, the Agency will have funds available for a Housing Assistance Payments Contract with the Owner; however, the Agency is under no obligation to the Family, to any Owner or to any other person to approve any submitted lease, nor does the Agency incur any liability by reason of issuing this Certificate.

7. *Conditions.* The Family agrees to perform all its obligations under the Housing Assistance Payments Program, including the obligations to (a) provide such Family income information and records as may be required in the administration of the program, (b) permit inspection of its dwelling unit at reasonable times after reasonable advance notice, and (c) give at least 30 days notice to the Agency of the Family's intention to vacate the unit.

8. *Equal Housing Opportunity.* If the Family has reason to believe that, in its search for suitable housing, it has been discriminated against on the basis of race, color, creed, sex, religion, or national origin, it may file a complaint with the HUD Regional Office. Fair Housing Complaint Forms (Form HUD-903) are available from this Agency.

9. *Expiration Date.* A Request for Lease Approval may be submitted to this Agency no later than _____ (60 days from the date of this Certificate). If a Request is not submitted by such date, this Certificate shall expire unless extended by the Agency in writing.

APPENDIX IV

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—EXISTING HOUSING

REQUEST FOR LEASE APPROVAL

1. *Request.* The undersigned Owner and Family hereby request the _____ (Name of Public Housing Agency) to approve the attached lease for the dwelling unit located at _____ (Street Address and Apartment Number, if any) for a term of _____ months, beginning _____, 19__. The unit, consisting of _____ bedrooms, is to be leased at $_____ per month. This rent includes maintenance and other services as provided in the lease and the following utilities and appliances:

(Check applicable boxes)

☐ GAS ☐ WATER ☐ REFRIGERATOR
☐ ELECTRICITY ☐ SEWER ☐ RANGE ☐ OTHER (Specify)
☐ HEAT

2. *Certifications.*

THE OWNER, by executing this Request, certifies that:

(a) The most recent rent charged for the above dwelling unit was $_____ per month. The reasons for the difference, if any, between this amount and the proposed rent are:

(b) This unit is made available, managed, and operated regardless of race, color, religion, creed, sex, or national origin.

(c) He has inspected the dwelling unit, as evidenced by the attached inspection report, and his certification as to the condition of the unit is true to the best of his knowledge and belief.

THE FAMILY, by executing this Request, certifies that it has inspected the dwelling unit, as evidenced by the attached inspection report, and that its certification as to the condition of the unit is true to the best of its knowledge and belief.

3. *Dates of Availability for Inspection and Occupancy.*

a. The dwelling unit will be available for inspection by the Agency on _____, 19__.

b. The dwelling unit will be available for occupancy by the Family on _____, 19__.

4. *Authority Determination.* The Owner and the Family understand that the Agency will notify them as to whether or not the proposed lease is approvable, within the time period specified in paragraph 6 of the Certificate of Family Participation.

AGENCY DETERMINATION WITH RESPECT TO REQUEST FOR LEASE APPROVAL

(TO BE SENT TO THE OWNER AND FAMILY)

(Check applicable box)

☐ 1. *Approval.* The Agency hereby approves the proposed lease between _____ (Family) and _____ (Owner) for the dwelling unit located at _____ (Street Address and Apartment No., if any)

(a) Enclosed is the proposed lease, which has been completed by the Agency with respect to the portion of the monthly lease rental which the Family shall be obligated to pay to the Owner. The Lease shall be executed by the Family and the Owner and a copy returned to the Agency.

(b) Also enclosed are two copies of a Housing Assistance Payments Contract completed by the Agency except for execution. The Owner shall sign both copies of the Contract and return them to the Agency. The Agency will execute the Contract by the first day of occupancy specified in the Lease and will immediately return an executed copy to the Owner.

☐ 2. *Disapproval.* The proposed lease and/or the dwelling unit are/is disapproved for the following reasons:

☐ 3. *Resubmission.* If the conditions in Item 2 above are remedied, and a Request for Lease Approval is resubmitted by the Owner and the Family to the Agency by _____ (date), the lease will be approved by the Agency if it determines that the conditions have been remedied to its satisfaction. (The Certificate of Family Participation issued to the Family shall not expire before said date.)

APPENDIX VI

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM — EXISTING HOUSING

REQUIRED LEASE PROVISIONS

The Lease between the Owner (Lessor) and the Family (Lessee) shall contain the following provisions:

ADDENDUM TO LEASE

The following additional Lease provisions are incorporated in full in the Lease between _____ (Lessor) and _____ (Lessee) for the following dwelling units: _____. In case of any conflict between these and any other provisions of the Lease, these provisions shall prevail.

a. The total rent shall be $_____ per month.

b. Of the total rent, $_____ shall be payable by the Public Housing Agency (PHA) as housing assistance payments on behalf of the Lessee and $_____ shall be payable by the Lessee. These amounts shall be subject to change by reason of changes in the Lessee's family income, composition, or extent of exceptional medical or other unusual expenses, or by reason of adjustment by the PHA of any applicable Allowance for Utilities and Other Services. Any such change shall be determined in accordance with HUD-established schedules and criteria and shall be effective as of the date stated in a notification to the Lessee.

c. The Lessor shall provide the following utilities: [Specify].

d. The Lessor shall provide maintenance and services as follows:

(1) The Lessor shall maintain the dwelling unit and all equipment provided therewith, as well as common areas, facilities and equipment provided for the use and benefit of the Lessee, in compliance with the Housing Quality Standards on the basis of which this Lease was approved by the Public Housing Agency, and the Lessor shall respond in a reasonable time to calls by the Lessee for services consistent with said obligation. Where applicable (as in case of multiunit buildings), such maintenance with respect to common areas, facilities and equipment shall include cleaning; maintenance of lighting and equipment; maintenance of grounds, lawns and shrubs; and removal of snow and ice. Where security equipment and services are to be provided by Lessor they are as follows: [Specify, or state "None"].

(2) Extermination services shall be provided by Lessor as conditions may require. If such service is to be provided on a scheduled basis, the schedule is as follows: [Specify, or state "No schedule"].

(3) Repainting shall be provided by Lessor as conditions may require. If such service is to be provided on a scheduled basis, the schedule is as follows: [Specify, or state "No schedule"].

e. The Lessor shall not evict the Lessee unless the Lessor complies with the requirements of local law, if any, and of this provision. The Lessor shall give the Lessee a written notice of the proposed eviction, stating the grounds and advising the Lessee that he has 10 days (or such greater number, if any, that may be required by local law) within which to respond to the Lessor. Because the Lessor must obtain the PHA's authorization for an eviction, a copy of the notice shall be furnished simultaneously to the PHA, and the notice shall also state that the Lessee may, within the same time period, present his objections to the PHA in writing or in person. The PHA shall forthwith examine the grounds for eviction and shall authorize the eviction unless it finds the grounds to be insufficient under the Lease. The PHA shall notify the Lessor and the Lessee of its determination within 20 days of the date of the notice to the Lessee, whether or not the Lessee has presented objections to the PHA. If the Owner has not received a response from the PHA within 20 days, he shall telephone the PHA and shall be informed by the PHA whether a notice of determination has been mailed. If the PHA informs the Owner that no notice has been mailed within the 20 day period, the PHA shall be deemed to have authorized the eviction.

f. The Lessor shall not discriminate against the Lessee in the provision of services, or in any other manner, on the grounds of race, color, creed, religion, sex, or national origin.

g. This Lease has been signed by the parties on the condition that the PHA will promptly execute a Housing Assistance Payments Contract with the Lessor. Accordingly, this Lease shall not become effective unless the PHA has executed such Contract by the first day of occupancy specified in the Lease.

APPENDIX VII

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM

EXISTING HOUSING

PROHIBITED LEASE PROVISIONS

Lease clauses which fall within the classifications listed below shall not be included in any Lease in this program.

1. *Confession of Judgment.* Prior consent by tenant to any lawsuit the landlord may bring against him in connection with the Lease and to a judgment in favor of the landlord.

2. *Distraint for Rent or Other Charges.* Authorization to the landlord to take property of the tenant and hold it as a pledge until the tenant performs any obligation which the landlord has determined the tenant has failed to perform.

3. *Exculpatory Clause.* Agreement by tenant not to hold the landlord or landlord's agents liable for any acts or omissions whether intentional or negligent on the part of the landlord or the landlord's authorized representative or agents.

4. *Waiver of Legal Notice by Tenant Prior to Actions for Eviction or Money Judgments.* Agreement by tenant that the landlord may institute suit without any notice to the tenant that the suit has been filed.

5. *Waiver of Legal Proceedings.* Authorization to the landlord to evict the tenant or hold or sell the tenant's possessions whenever the landlord determines that a breach or default has occurred, without notice to the tenant or any determination by a court of the rights and liabilities of the parties.

6. *Waiver of Jury Trial.* Authorization to the landlord's lawyer to appear in court for the tenant and to waive the tenant's right to a trial by jury.

V 4 0 1 6 JAN 23 75 XUM

7. Waiver of Right to Appeal Judicial Error in Legal Proceedings. Authorization to the landlord's lawyer to waive the tenant's right to appeal on the ground of judicial error in any suit or the tenant's right to file a suit in equity to prevent the execution of a judgment.

8. Tenant Chargeable with Cost of Legal Actions Regardless of Outcome. Agreement by the tenant to pay attorney's fees or other legal costs whenever the landlord decides to take action against the tenant even though the court finds in favor of the tenant. (Omission of this clause does not mean that the tenant as a party to a lawsuit may not be obligated to pay attorney's fees or other costs if he loses the suit.)

LEAD-BASED PAINT

☐ I hereby agree that the dwelling unit shall be in compliance with HUD Lead Based Paint Regulations, 24 CFR, Part 35, issued pursuant to the Lead Based Paint Poisoning Prevention Act, 42 U.S.C. 4801, and the dwelling unit has been treated in accordance with such HUD regulations.

☐ If the property was constructed prior to 1950, I hereby certify that this Family upon occupancy will receive the notice required by HUD Lead-Based Paint regulations and procedures regarding the hazards of lead-based paint poisoning, the symptoms and treatment of lead poisoning and the precautions to be taken against lead poisoning and that records showing receipt of such notice by the Family will be maintained for at least three years.

OWNER'S CERTIFICATION

I hereby certify that the foregoing report correctly represents the condition of the above-identified dwelling unit. If this report discloses any deficiencies, I further certify that they will be remedied by the date set forth in the Request for Lease Approval for inspection by the issuing agency.

reminders

NOTE: There were no items that are eligible for inclusion in the list of RULES GOING INTO EFFECT TODAY.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—GENERAL REGULATIONS AND POLICIES—FOOD DISTRIBUTION

[Amdt. 28]

PART 250—DONATION OF FOODS FOR USE IN UNITED STATES, ITS TERRITORIES AND POSSESSIONS, AND AREAS UNDER ITS JURSIDICTION

Miscellaneous Provisions

The regulations for the operation of the Food Distribution Program (31 FR 14297), as amended, are further amended to (1) update the quoted provisions of section 6 and add the new section 14 of the National School Lunch Act, as amended by Pub. L. 93-326, and add provisions of the Agriculture and Consumer Protection Act of 1973, as amended; (2) delete obsolete provisions relating to priority to be given to recipient agencies or recipients; and (3) delete the requirements that feeding operations conducted by food service management companies must be contracted for only on a fee-for-service basis and that contracts for such services must be approved by the appropriate Food and Nutrition Service Regional Office.

This amendment will enable the Department to distribute food more effectively in accordance with recent legislation which prescribes minimum levels of commodity assistance to certain eligible recipient agencies. In addition, this amendment will permit employment of food service management companies by institutions, summer camps for children, and nutrition programs for the elderly on the same basis that schools and service institutions may employ them under Parts 210, 220, and 225 of this chapter.

Since this amendment does not adversely affect the rights or obligations of any member of the public, in that it merely updates quoted statutes, deletes obsolete provisions, and removes restrictions on the use of food service management companies, it is hereby determined that compliance with the proposed rulemaking and public participation procedures is impracticable and unnecessary.

1. The authority citation for Part 250 is revised to read as follows:

AUTHORITY: (5 U.S.C. 301); sec. 32, 49 Stat. 774, as amended (7 U.S.C. 612c); 50 Stat. 323, as amended (15 U.S.C. 713c); secs. 6 and 9, 60 Stat. 231, 233, as amended (42 U.S.C. 1755, 1758); sec. 416, 63 Stat. 1058, as amended (7 U.S.C. 1431); sec. 402, 68 Stat. 843, as amended (22 U.S.C. 1922); sec. 210, 70 Stat. 202 (7 U.S.C. 1859); sec. 9, 72 Stat. 1792, as amended (7 U.S.C. 1431b); 74 Stat. 899, as amended (7 U.S.C. 1431 note); sec. 709, 79 Stat. 1212, as amended (7 U.S.C. 1446a-1); sec. 3, 82 Stat. 117, as amended (42 U.S.C. 1761); sec. 8, 80 Stat. 888 (42 U.S.C. 1777); sec. 707, 86 Stat. 94, as amended (42 U.S.C. 3045f); sec. 4, 87 Stat. 249, as amended (7 U.S.C. 612c note); sec. 2, 88 Stat. 286 (42 U.S.C. 1763).

2. In § 250.1, paragraph (b) is amended by revising subparagraph (6), by adding a new subsection to subparagraph (15), and by adding two new subparagraphs (16) and (17), as follows:

§ 250.1 General purpose and scope.

• • • • • •

(b) *Legislation.* • • •

• • • • • •

(6) Section 6 of the National School Lunch Act, as amended (hereinafter referred to as "section 6"), which reads in part as follows:

(a) The funds provided by appropriation or transfer from other accounts for any fiscal year for carrying out the provisions of this Act, and for carrying out the provisions of the Child Nutrition Act of 1966, other than section 3 thereof, less (1) not to exceed 3½ per centum thereof which per centum is hereby made available to the Secretary for his administrative expenses under this Act and under the Child Nutrition Act of 1966; (2) the amount apportioned by him pursuant to sections 4 and 5 of this Act and the amount appropriated pursuant to sections 11 and 13 of this Act and sections 4, 5, and 7 of the Child Nutrition Act of 1966; and (3) not to exceed 1 per centum of the funds provided for carrying out the programs under this Act and the programs under the Child Nutrition Act of 1966, other than section 3 • • • shall be available to the Secretary during such year for direct expenditure by him for agricultural commodities and other foods to be distributed among the States and schools and service institutions participating in the food service programs under this Act and under the Child Nutrition Act of 1966 in accordance with the needs as determined by the local school and service institutions authorities.

• • • • • •

(c) For the fiscal year ending June 30, 1975, and subsequent fiscal years, the national average value of donated foods, or cash payments in lieu thereof, shall not be less than 10 cents per lunch, and that amount shall be adjusted on an annual basis each fiscal year after June 30, 1975, to reflect changes in the series for food away from home of the Consumer Price Index published by the Bureau of Labor Statistics of the Department of Labor. Such adjustment shall be computed to the nearest one-fourth cent. Among those commodities delivered under this section, the Secretary shall give special emphasis to high protein foods, meat, and meat alternates.

• • • • • •

(15) Section 707 of the Older Americans Act of 1965, as amended, which reads as follows:

• • • • • •

(d) In donating commodities pursuant to this section, the Secretary of Agriculture shall maintain an annually programed level of assistance of not less than 10 cents per meal: *Provided*, That this amount shall be adjusted on an annual basis each fiscal year after June 30, 1975, to reflect changes in the series for food away from home of the Consumer Price Index published by the Bureau of Labor Statistics of the Department of Labor. Such adjustment shall be computed to the nearest one-fourth cent. Among the commodities delivered under this section, the Secretary shall give special emphasis to high protein foods, meat, and meat alternates. The Secretary of Agriculture, in consultation with the Commissioner, is authorized to prescribe the terms and conditions respecting the donating of commodities pursuant to this section, and, within ninety days after the date of enactment of his subsection (d), the Secretary of Agriculture shall issue regulations governing the donation of such commodities.

(16) Section 4(a) of the Agriculture and Consumer Protection Act of 1973, as amended, which reads in part as follows:

(1) Notwithstanding any other provision of law, the Secretary of Agriculture shall until July 1, 1975, (i) use funds available under provisions of section 32 of Public Law 320, Seventy-Fourth Congress, as amended (7 U.S.C. 612c), and not otherwise expended or necessary for such purposes to purchase, without regard to the provisions of existing law governing the expenditure of public funds, agricultural commodities and their products of the types customarily purchased under section 32 (which may include seafood commodities and their products) to maintain the traditional level of assistance for food assistance programs as are authorized by law, including but not limited to distribution to needy families pending the transition to the food stamp program, institutions, supplemental feeding programs wherever located, disaster relief, summer camps for children, and the family commodity distribution program on Indian reservations not requesting a food stamp program, and (ii) if stocks of the Commodity Credit Corporation are not available, use the funds of the Corporation to purchase agricultural commodities and their products of the types customarily available under section 416 of the Agricultural Act of 1949 to meet such requirements.

(2) Notwithstanding any other provision of law, the Secretary of Agriculture shall, during each of the two fiscal years beginning July 1, 1975, and ending June 30, 1977, purchase agricultural commodities and otherwise carry out the provisions of this subsection with funds appropriated from the general fund of the Treasury. There are hereby authorized to be appropriated such funds as may be necessary to carry out the provisions of this paragraph. Authority provided in this paragraph shall be carried out only with such funds as are appropriated from the

V 40 17 JAN 24 75 XUM

general fund of the Treasury for that specific purpose, and in no event shall it be carried out with funds derived from permanent appropriations.

(17) Section 14 of the National School Lunch Act, as amended, which reads as follows:

Notwithstanding any other provision of law, the Secretary, during the period beginning July 1, 1974, and ending June 30, 1975, shall—

(1) use funds available to carry out the provisions of section 32 of the Act of August 24, 1935 (7 U.S.C. 612c) which are not expended or needed to carry out such provisions, to purchase (without regard to the provisions of existing law governing the expenditure of public funds) agricultural commodities and their products of the types customarily purchased under such section, for donation to maintain the annually programmed level of assistance for programs carried on under this Act, the Child Nutrition Act of 1966, and title VII of the Older Americans Act of 1965; and

(2) if stocks of the Commodity Credit Corporation are not available, use the funds of such Corporation to purchase agricultural commodities and their products of the types customarily available under section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431), for such donation.

3. In § 250.4, paragraph (b) is revised to read as follows:

§ 250.4 Availability of commodities.

* * * * *

(b) *Quantities.* The quantity of commodities to be made available for donation under this part shall be determined in accordance with the pertinent legislation and the program obligations of the Department, and shall be such as can be effectively distributed in furtherance of the objectives of the pertinent legislation. Beginning October 10, 1974, the quantity of commodities to be made available for any Federal fiscal year, or portion thereof, for distribution in any State to nutrition programs for the elderly shall be valued at not less than 10 cents for each meal which the State Agency on Aging, in accordance with current regulations and guidelines authorized by the Commissioner on Aging, estimates will be served within the State during the year. For the Federal fiscal year ending June 30, 1975, and subsequent fiscal years, the national average value of donated foods distributed to schools, or cash payments in lieu thereof, shall not be less than 10 cents per lunch served. The value of commodities to be distributed to nutrition programs for the elderly and to schools, or the amount of cash payments to be made to schools in lieu of commodities, shall be adjusted, on an annual basis, the first day of each fiscal year after June 30, 1975, to reflect changes in the series for food away from home of the Consumer Price Index published by the Bureau of Labor Statistics of the Department of Labor. Such adjustment shall be computed to the nearest one-fourth cent. Any commodities made available as a grant or as a sale for foreign currencies shall be made available to the maximum extent practicable for donation under this part. The Department may, at its discretion, restrict distribution of commodities to one or more classes of recipient agencies or recipients.

4. In § 250.8, subparagraph (b) (3) is revised to read as follows:

§ 250.8 Eligible recipient agencies.

* * * * *

(b) *Institutions.* * * *

(3) Institutions which desire to receive commodities under this part may employ food service management companies to conduct their feeding operations, provided that the institutions enter into written contracts with such companies. Contracts between institutions and food service management companies shall expressly provide that:

(i) Any commodities received by the institution and made available to the food service management company shall inure only to the benefit of the institution's feeding operation and shall be utilized therein; and

(ii) The books and records of the food service management company pertaining to the feeding operation of the institution shall be available for a period of three years from the close of the Federal fiscal year to which they pertain for inspection and audit by representatives of the distributing agency, of the Department, and of the General Accounting Office at any reasonable time and place.

* * * * *

NOTE: The reporting and/or recordkeeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

(Catalog of Federal Domestic Assistance Programs, No. 10.550, National Archives Reference Services).

This amendment shall become effective on January 24, 1975.

Dated: January 17, 1975.

RICHARD L. FELTNER,
Assistant Secretary.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 678]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period Jan. 26–Feb. 1, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.976 Lemon Regulation 676.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provision of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons at the beginning of this week was good, but is now showing an easier trend. Average f.o.b. price was $4.87 per carton the week ended January 18, 1975, compared to $5.10 per carton the previous week. Track and rolling supplies at 132 cars were up 8 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necesary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 21, 1975.

(b) *Order.* (1) This quantity of lemons grown in California and Arizona which may be handled during the period January 26, 1975, through February 1, 1975, is hereby fixed at 190,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Dated: January 22, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-2279 Filed 1-23-75;8:45 am]

[Grapefruit Reg. 97]

PART 912—GRAPEFRUIT GROWN IN THE INDIAN RIVER DISTRICT IN FLORIDA

Limitation of Handling

This regulation fixes the quantity of Florida Indian River grapefruit that may be shipped to fresh market during the weekly regulation period Jan. 27–Feb. 2, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 912. The quantity of grapefruit produced in the Indian River District in Florida so fixed was arrived at after consideration of the total available supply of Indian River grapefruit, the quantity currently available for market, the fresh market demand for Indian River grapefruit, Indian River grapefruit prices, and the relationship of season average returns to the parity price for Florida grapefruit.

§ 912.397 Grapefruit Regulation 97.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 912, as amended (7 CFR Part 912), regulating the handling of grapefruit grown in the Indian River District in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Indian River Grapefruit Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling such grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of Indian River grapefruit that may be marketed during the ensuing week stems from the production and marketing situation confronting the Indian River grapefruit industry.

(i) The Committee has submitted its recommendation with respect to the total quantity of grapefruit which it deems advisable to be handled during the next succeeding week. Such recommendation resulted from consideration of the factors enumerated in the order. The Committee further reports the market demand for Indian River grapefruit is about steady, with market supplies ample. Average f.o.b. prices per ⅘ bushel carton for the week ended January 19, 1975, averaged $2.71 for white seedless and $3.50 for pink seedless grapefruit. Shipments for the week ended January 19, 1975, and for the previous week were 375 carlots and 500 carlots, respectively. On January 19, 1975, there were approximately 8,314 carlots of Indian River grapefruit remaining for interstate shipments, while 6,686 carlots have been shipped to date.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of grapefruit which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Indian River grapefruit and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Indian River grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 21, 1975.

(b) *Order.* (1) The quantity of grapefruit grown in the Indian River District which may be handled during the period January 27, 1975, through February 2, 1975, is hereby fixed at 212,500 standard packed boxes.

(2) As used in this section, "handled," "Indian River District," "grapefruit," and "standard packed box" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 22, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 74–WE–54–AD; Amdt. 39–2079]

PART 39—AIRWORTHINESS DIRECTIVES

AiResearch Model GTCP660–4 and –4R Auxiliary Power Units (APU)

Amendment 39–2064 (40 FR 1036), AD 75–01–06, requires installation of a placard restricting use of the AiResearch Model GTCP660–4 and –4R APU's during taxi or flight, a check of the adjustment of the fuel pump ultimate relief valve, and an initial and recurring inspection of the fuel pump body for presence of fatigue cracks. After issuing Amendment 39–2064, the agency has re-evaluated the need for the restriction prohibiting operation of the APU during aircraft taxi, and concluded that this operation restriction may be removed without compromising the original intent of Amendment 39–2064. Therefore, AD 75–01–06 is being amended to eliminate this taxi operation restriction and to correct an error in the APU serial numbers.

Since this amendment relieves a restriction, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation

V40N17 JAN 24 75 XUM

Regulations, Amendment 39-2064 (40 FR 1036), AD 75-01-06 is amended as follows:

(1) By amending the first paragraph of the AD to read:

AIRESEARCH MANUFACTURING COMPANY OF ARIZONA. Applies to model GTCP660-4 (prior to Serial No. P37808) and GTCP660-4R (prior to Serial No. P133) Auxiliary Power Units installed in, but not limited to, Boeing B-747 airplanes, certificated in all categories

(2) By amending paragraph (a) (1) to read:

Within 15 days time in service after the effective date of this AD, install a placard in view of the flight crew to prohibit all inflight operation of the APU. Thereafter, the APU may not be used during flight but may be used for ground operations

This amendment becomes effective January 31, 1975.

(Sections 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, California on January 16, 1975.

LYNN L. HINK,
Acting Director,
FAA Western Region.

[FR Doc.75-2187 Filed 1-23-75;8:45 am]

[Airspace Docket No. 74-GL-40]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of VOR Federal Airways

On November 11, 1974, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (39 FR 39733) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would extend V-175 from Alexandria, Minn., via Park Rapids, Minn., Bemidji, Minn., to Roseau, Minn., and delete V-254 between Bemidji, Minn., and Roseau, Minn.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 27, 1975, as hereinafter set forth.

Section 71.123 (40 FR 307, 39 FR 39261) is amended as follows:

1. In V-175 "Alexandria, Minn." is deleted and "Alexandria, Minn.; Park Rapids, Minn.; Bemidji, Minn.; Roseau, Minn." is substituted therefor.

2. V-254 is revoked.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on January 17, 1975.

GORDON E. KEWER,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.75-2192 Filed 1-23-75;8:45 am]

[Airspace Docket No. 74-CE-36]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Revocation of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to revoke the Leavenworth, Kansas, control zone.

On December 15, 1974, the weather services performed by the United States Air Force for the Leavenworth, Kansas, control zone were permanently ceased. There is no other available source for the service. Accordingly, it is necessary to revoke the Leavenworth, Kansas, control zone designation effective immediately.

Since this revocation will eliminate designated control zone airspace at Leavenworth, Kansas, it will not impose any additional burden on any person. Therefore, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective immediately as hereinafter set forth:

In § 71.171 (39 F.R. 354), the following control zone is revoked: Leavenworth, Kansas.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Kansas City, Missouri, on December 24, 1974.

A. L. COULTER,
Director, Central Region.

[FR Doc.75-2189 Filed 1-23-75;8:45 am]

[Airspace Docket No. 75-SO-2]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Atlanta, Ga. (Dobbins AFB/NAS Atlanta) control zone and the Atlanta, Ga., transition area.

The Atlanta (Dobbins AFB/NAS Atlanta) control zone is described in § 71.171 (40 FR 354) and the Atlanta transition area is described in § 71.181 (40 FR 441). In both descriptions, reference is made to "NAS Atlanta TACAN." Since the name of the TACAN has been changed to "Dobbins," it is necessary to amend the descriptions to reflect this change. Since this amendment is editorial in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 71.171 (40 FR 354), the Atlanta, Ga. (Dobbins AFB/NAS Atlanta) control zone and in § 71.181 (40 FR 441), the Atlanta, Ga., transition area are amended as follows:

"• • • NAS Atlanta TACAN • • •" is deleted and "• • • Dobbins TACAN • • •" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1346(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on January 15, 1975.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.75-2190 Filed 1-23-75;8:45 am]

[Airspace Docket No. 75-SW-4]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Clinton, Okla. (Clinton-Sherman Airport), transition area times of designation from part time to full time.

On June 2, 1970, a final rule was published in the FEDERAL REGISTER (35 FR 8475) designating the Clinton, Okla., transition area. Subsequently, on August 22, 1970, a final rule was published in the FEDERAL REGISTER (35 FR 13425) which redesignated the Clinton, Okla., transition area as the Clinton, Okla. (Clinton-Sherman Airport), transition area and designated the Clinton, Okla. (Clinton Municipal Airport), transition area.

The Clinton, Okla. (Clinton-Sherman Airport), transition area was designated part time and effective during the specific times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual. It has been determined that it would be advantageous to redesignate the Clinton, Okla. (Clinton-Sherman Airport), transition area as full time. An appropriate Notice to Airmen has been issued designating the transition area full time effective January 30, 1975. It is found that this situation will be in the best interest of the public and will impose no undue burden on any person. Notice and public procedure hereon are unnecessary and the amendment may be made effective January 30, 1975.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t., January 30, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the Clinton, Okla. (Clinton-Sherman Airport), transition area is amended by deleting "This transition area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual."

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on January 16, 1975.

A. H. THURBURN,
Acting Director, Southwest Region.

[FR Doc.75-2191 Filed 1-23-75;8:45 am]

[Docket No. 14251; Amdt. 952]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, *effective March 6, 1975.*

In the matter of Century 21 Homes, Inc., Centurion Properties, Inc., and Century 21 Properties, Inc., corporations, and David L. Oringdulph, individually and as an officer of said corporations, Ralph E. Fish, individually and as an officer of Centurion Properties, Inc., and Philip G. Mullard, individually and as a former officer of Century 21 Properties, Inc.; and Century 21 Development, a joint venture, and John F. Weiser, individually and as general manager of Century 21 Development

Consent order requiring a Portland, Ore., firm engaged in the construction, development and sale of residential real property among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:[1]

It is ordered, That respondents Century 21 Homes, Inc., Centurion Properties, Inc., and Century 21 Properties, Inc., corporations, and their officers, and David L. Oringdulph, Ralph E. Fish and Philip G. Mullard, individually and as officers and former officers of said corporations, and Century 21 Development, a joint venture, and John F. Weiser, individually and as general manager of Century 21 Development, and respondents' successors, assigns, agents, representatives and employees, directly or through any corporation, subsidiary, division, or other device, in connection with any extension or arrangement for the extension of consumer credit, or any advertisement to aid, promote or assist directly or indirectly any extension of consumer credit, as "advertisement" and "consumer credit" are defined in Regulation Z (12 CFR 226) of the Truth in Lending Act, P.L. 90–321, 15 U.S.C. 1601 *et seq.*), do forthwith cease and desist from:

1. Stating, in any such advertisement, the rate of any finance charge unless the rate of the finance charge is expressed as an "annual percentage rate," using that term, as required by § 226.10 (d) (1) of Regulation Z.

2. Representing in any such advertisement, directly or by implication, the amount of the downpayment required or that no downpayment is required, the amount of any installment payment, the dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit, unless all of the following items are stated in terminology prescribed under § 226.8 of Regulation Z, as required by § 226.10(d)(2) of Regulation Z:

a. The cash price;

b. The amount of the downpayment required or that no downpayment is required, as applicable;

c. The number, amount, and due dates or period of payments scheduled to repay the indebtedness if the credit is extended;

d. The amount of the finance charge expressed as an annual percentage rate; and

e. Except in the case of the sale of a dwelling or a loan secured by a first lien on a dwelling to purchase that dwelling, the deferred payment price or the sum of the payments, as applicable.

3. Failing, in any consumer credit transaction or advertisement, to make all disclosures, determined in accordance with §§ 226.4 and 226.5 of Regulation Z, at the time and in the manner, form and amount required by §§ 226.6, 226.7, 226.8, 226.9 and 226.10 of Regulation Z.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the consummation of any extension of consumer credit or in any aspect of the preparation, creation or placing of advertising, to all persons engaged in reviewing the legal sufficiency of advertising, and to all present and future agencies engaged in preparation, creation or placing of advertising on behalf of respondents, and that respondents secure from each such person and agency a signed statement acknowledging receipt of said order.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in Century 21 Development or in a corporate respondent, such as dissolution, termination, assignment or sale resulting in the emergence of a successor corporation or corporations, the creation or dissolution of subsidiaries, or any other change in such respondents as may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged, as well as a description of their duties and responsibilities.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Decision and order issued by the Commission Oct. 22, 1974.

CHARLES A. TOBIN,
Secretary.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C 45) [Cease and desist order, William D. Campbell, Jr., et al., trading as Rhode Island Carpets, Mt. Rainier, Md., Docket 8948, Oct. 1, 1974]

[1] Copies of the Complaint & Decision and order filed with the original document.

In the matter of William D. Campbell, Jr., and Jack S. Owens, individually, trading and doing business as Rhode Island Carpets

Consent order requiring a Mt. Rainier, Md., distributor and installer of carpeting and floor coverings, among other things to cease using bait and switch tactics; disparaging merchandise; misrepresenting sale prices; failing to maintain adequate records; misrepresenting the qualifications of its staff; failing to set forth contracts in the principal language used in sales presentations (e.g., Spanish); and failing to inform customers of their right to a three-day cooling-off period during which they may cancel their contract with full refund rights. Further, respondent is required to place a notice in all future advertising that F.T.C. has found that they have engaged in bait and switch tactics.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

I

It is ordered, That respondents William D. Campbell, Jr., and Jack S. Owens, individually, trading and doing business as Rhode Island Carpets or under any other names, and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale, distribution or installation of carpeting and floor coverings, or any other article of merchandise, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using, in any manner, a sales plan, scheme, or device wherein false, misleading, or deceptive statements or representations are made in order to obtain leads or prospects for the sale of carpeting or other merchandise or services.

2. Making representations, directly or indirectly, orally or in writing, purporting to offer merchandise for sale when the purpose of the representation is not to sell the offered merchandise but to obtain leads or prospects for the sale of other merchandise at higher prices.

3. Disparaging in any manner, or discouraging the purchase of any merchandise or services which are advertised or offered for sale.

4. Representing, directly or indirectly, orally or in writing, that any merchandise or services are offered for sale when such offer is not a bona fide offer to sell such merchandise or services.

5. Failing to maintain and produce for inspection and copying for a period of three years following the date of publication of any advertisement, adequate records to document for the entire period during which each advertisement was run and for a period of six weeks after the termination of its publication in press or broadcast media:

a. The cost of publishing each advertisement including the preparation and dissemination thereof;

b. The volume of sales made of the advertised product or service at the advertised price; and

c. A computation of the net profit from the sale of each advertised product or service at the advertised price.

6. Using the words "Sale", "Low, Low Discount Prices", or any other word or words of similar import or meaning not set forth specifically herein, unless the price of such merchandise or service being offered for sale constitutes a reduction, in an amount not so insignificant as to be meaningless, from the actual bona fide price at which such merchandise or service was sold or offered for sale to the public on a regular basis by respondents for a reasonably substantial period of time in the recent, regular course of their business.

7. Representing, directly or indirectly, orally or in writing, that any price amount is respondents' regular price for any article of merchandise or service unless said amount is the price at which such merchandise or service has been sold or offered for sale by respondents for a reasonably substantial period of time in the recent, regular course of their business and not for the purpose of establishing fictitious higher prices upon which a deceptive comparison or a "free" or similar offer might be based.

8. Representing, directly or indirectly, orally or in writing, that a purchaser of respondents' merchandise or services will receive a "free" vacuum cleaner or any other "free" merchandise, service, prize or award unless all conditions, obligations, or other prerequisites to the receipt and retention of such merchandise, services, gifts, prizes or awards are clearly and conspicuously disclosed at the outset in close conjunction with the word "free" wherever it first appears in each advertisement or offer.

9. Representing, directly or indirectly, orally or in writing, that any merchandise or service is furnished "free" or at no cost to the purchaser of advertised mechandise or services, when, in fact, the cost of such merchandise or service is regularly included in the selling price of the advertised merchandise or service.

10. Representing, directly or indirectly, orally or in writing, that a "free" offer is being made in connection with the introduction of new merchandise or services offered for sale at a specified price unless the respondents except, in good faith, to discontinue the offer after a limited time and commence selling such merchandise or service, separately, at the same price at which it was sold with a "free" offer.

11. Representing, directly or indirectly, orally or in writing, that merchandise or service is being offered "free" with the sale of merchandise or service which is usually sold at a price arrived at through bargaining, rather than at a regular price, or where there may be a regular price, but where other material factors such as quantity, quality, or size are arrived at through bargaining.

12. Representing, directly or indirectly, orally or in writing, that a "free" offer is available in a trade area for more than six (6) months in any twelve (12) month period. At least thirty (30) days shall elapse before another such "free" offer is made in the same trade area. No more than three such "free" offers shall be made in the same area in any twelve (12) month period. In such period, respondent's sale in that area of the product or service in the amount, size, or quality promoted with the "free" offer shall not exceed 50 percent of the total volume of its sales of the product or service, in the same amount, size or quality, in the area.

13. Representing, directly or indirectly, orally or in writing, that a product or service is being offered as a "gift", "without charge", "bonus", or by other words or terms which tend to convey the impression to the consuming public that the article of merchandise or service is free, when the use of the term "free" in relation thereto is prohibited by the provisions of this order.

14. Representing, directly or indirectly, orally or in writing, that a stated price for carpeting or floor coverings includes the cost of a separate padding and the installation of such padding and carpeting thereof, unless in every instance where it is so represented the stated price for floor covering does, in fact, include the cost of such separate padding and installation thereof; or misrepresenting in any manner, the prices, terms, or conditions under which respondents supply separate padding and provide installation in connection with the sale of floor covering products.

15. Representing, directly or indirectly, orally or in writing, that respondents employ or have available for prospective customers a trained, qualified interior decorator; or misrepresenting in any manner, the training or qualifications of any of respondents' employees, agents, or representatives.

16. Representing, directly or by implication, orally or in writing, that purchasers of respondents' products are granted easy or assured credit terms by financial institutions with which respondents deal; or misrepresenting, in any manner, the amount, type, extent or any other facet of the credit terms respondents arrange or may arrange for their purchasers.

17. Contracting for any sale whether in the form of trade acceptance, conditional sales contract, promissory note, or otherwise which shall become binding on the buyer prior to midnight of the third day, excluding Sundays and legal holidays, after the date of execution.

18. Failing to furnish the buyer with a fully completed receipt or copy of any contract pertaining to such sale at the time of its execution, which is in the same language, e.g., Spanish, as that principally used in the oral sales presentation and which shows the date of the transaction and contains the name and address of the seller, and in immediate proximity to the space reserved in the contract for the signature of the

[1] Copies of the complaint & decision and order filed with the original document.

V40I17 JAN24 75 XUM

buyer or on the front page of the receipt if a contract is not used and in bold face type of a minimum size of 10 points, a statement in substantially the following form:

You, the buyer, may cancel this transaction at any time prior to midnight of the third business day after the date of this transaction. See the attached notice of cancellation form for an explanation of this right.

19. Failing to furnish each buyer, at the time he signs the sales contract or otherwise agrees to buy consumer goods or services from the seller, a completed form in duplicate, captioned "Notice of cancellation", which shall be attached to the contract or receipt and easily detachable, and which shall contain in ten point bold face type the following information and statements in the same language, e.g., Spanish, as that used in the contract:

NOTICE OF CANCELLATION

[enter date of transaction]

(Date)

You may cancel this transaction, without any penalty or obligation, within three business days from the above date.

If you cancel, any property traded in, any payments made by you under the contract or sale, and any negotiable instrument executed by you will be returned within 10 business days following receipt by the seller of your cancellation notice, and any security interest arising out of the transaction will be cancelled.

If you cancel, you must make available to the seller at your residence, in substantially as good condition as when received, any goods delivered to you under this contract or sale; or you may if you wish, comply with the instructions of the seller regarding the return shipment of the goods at the seller's expense and risk.

If you do make the goods available to the seller and the seller does not pick them up within 20 days of the date of your notice of cancellation, you may retain or dispose of the goods without any further obligation. If you fail to make the goods available to the seller, or if you agree to return the goods to the seller and fail to do so, then you remain liable for performance of all obligations under the contract.

To cancel this transaction, mail or deliver a signed and dated copy of this cancellation notice or any other written notice, or send a telegram, to ----------, at

(Name of seller)

(address of seller's place of business)

not later than midnight of ----------

(date)

I hereby cancel this transaction.

(Date)

(Buyer's signature)

20. Failing, before furnishing copies of the "Notice of Cancellation" to the buyer, to complete both copies by entering the name of the seller, the address of the seller's place of business, the date of the third business day following the date of the transaction, by which the buyer may give notice of cancellation.

21. Including in any sales contract or receipt any confession of judgment or any waiver of any of the rights to which the buyer is entitled under this order including specifically his right to cancel the sale in accordance with the provisions of this order.

22. Failing to inform each buyer orally, at the time he signs the contract or purchases the goods or services, of his right to cancel.

23. Misrepresenting, directly or indirectly, orally or in writing, the buyer's right to cancel.

24. Failing or refusing to honor any valid notice of cancellation by a buyer and within 10 business days after the receipt of such notice, to (i) refund all payments made under the contract or sale; (ii) return any goods or property traded in, in substantially as good condition as when received by the seller; (iii) cancel and return any negotiable instrument executed by the buyer in connection with the contract or sale and take any action necessary or appropriate to terminate promptly any security interest created in the transaction.

25. Negotiating, transferring, selling, or assigning any note or other evidence of indebtedness to a finance company or other third party prior to midnight of the fifth business day following the day the contract was signed or the goods or services were purchased.

26. Failing, within 10 business days of receipt of the buyer's notice of cancellation, to notify him whether the seller intends to repossess or to abandon any shipped or delivered goods.

27. Advertising the price of carpet, either separately or with padding and installation included, for specified areas of coverage without disclosing in immediate conjunction and with equal prominence the square yard price for additional quantities of such carpet with padding and installation needed.

28. Advertising any carpeting or floor covering using a unit of measurement not usually and customarily employed in the retail advertising of carpet or which tends to exaggerate the size or quantity of carpeting or floor covering being offered at the advertised price.

Provided, however, That nothing contained in this order shall relieve respondents of any additional obligations respecting contracts required by federal law or the law of the state in which the contract is made. When such obligations are inconsistent, respondents can apply to the Commission for relief from this provision with respect to contracts executed in the state in which such different obligations are required. The Commission, upon showing, shall make such modifications as may be warranted in the premises.

It is further ordered, That the respondents forthwith cease and desist from dissemination, or causing the dissemination of, any advertisement of merchandise except advertising in connection with respondent Campbell's operation of a retail liquor store, by means of newspapers, or other printed media, television or radio, or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, unless respondents clearly and conspicuously disclose in each advertisement the following notice set off from the text of the advertisement by a black border:

The Federal Trade Commission has found that we engage in bait and switch advertising; that is, the salesman makes it difficult to buy the advertised product and he attempts to switch you to a higher priced item.

One year from the date this order becomes final or any time thereafter, respondents upon showing that they have discontinued the practices prohibited by this order and that the notice provision is no longer necessary to prevent the continuance of such practices may petition the Commission to waive compliance with this order provision.

It is further ordered, That respondents shall maintain for at least a one (1) year period, following the effective date of this order, copies of all advertisements, including newspaper, radio and television advertisements, direct mail and instore solicitation literature, and any other such promotional material utilized for the purpose of obtaining leads for the sale of carpeting or floor coverings, or utilized in the advertising, promotion or sale of carpeting or floor coverings and other merchandise.

It is further ordered, That respondents, for a period of one (1) year from the effective date of this order, shall provide each advertising agency utilized by respondents and each newspaper publishing company, television or radio station or other advertising media which is utilized by the respondents to obtain leads for the sale of carpeting or floor coverings and other merchandise, with a copy of the Commission's News Release setting forth the terms of this Order.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the offering for sale, sale of any product, consummation of any extension of consumer credit or in any aspect of preparation, creation, or placing of advertising, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That the individual respondents, William D. Campbell, Jr., and Jack S. Owens promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business addresses and a statement as to the nature of the business or employment in which they are engaged as well as a description of their duties and responsibilities.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order.

The Decision and Order was issued by the Commission, October 1, 1974.

CHARLES A. TOBIN,
Secretary.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-11187]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

Financial Statements Furnished to Customers of Broker-Dealers

The Securities and Exchange Commission today announced the adoption of an amendment to paragraph (n) of rule 17a-5 under the Securities Exchange Act of 1934. The adoption of this amendment follows the Commission's consideration of comments received in connection with the proposal to adopt the amendment announced in Securities Exchange Act Release No. 11017. This amendment modifies the present requirements of paragraph (n) and requires all broker-dealers subject to paragraph (k) of rule 17a-5 to furnish customers annually one unaudited report of financial condition and certain information concerning the firm's net capital in lieu of the quarterly reports previously required by paragraph (n). In addition, paragraph (m) of the rule presently requires broker-dealers to furnish an audited statement of financial condition and other specified information annually. Thus, under the revised rule, customers would receive two financial reports from broker-dealers annually approximately 6 months apart, one audited and one unaudited.

The Commission believes that it is important that customers of broker-dealers receive the information set forth in paragraphs (m) and (n) of the rule concerning the financial and operating condition of the broker-dealer to whom they entrust their funds and securities. The Commission is also of the view that customers of the broker-dealer will be provided with sufficient information to enable them to judge the financial condition of the broker-dealer to whom they entrust their funds and securities if the broker-dealer is required to provide an unaudited report pursuant to paragraph (n) in addition to the annual audited report required pursuant to paragraph (m) of the rule. The amendment would provide that such unaudited statement will be as of a date approximately 6 months after the date of the audited statement.

COMMISSION ACTION

Pursuant to sections 15(c)(3), 17(a) and 23(a) of the Securities Exchange Act of 1934, the Securities and Exchange Commission hereby amends § 240.17a-5(n) of Chapter II of Title 17 of the Code of Federal Regulations to read as follows:

§ 240.17a-5 Reports to be made by certain exchange members, brokers and dealers.

* * * * *

(n) Every member, broker or dealer who is subject to paragraphs (k), (l) and (m) of this rule shall furnish customers (as defined in paragraph (o) of this rule) and shall file with the Regional Office of the Commission for the region in which the member, broker or dealer has his principal place of business and with the national securities exchange and the national securities association of which he is a member (or, if he is not a member, only with the Commission) not later than 285 days from the date of the audited statements required by paragraph (m) of this rule, an unaudited statement containing the information specified in subparagraphs (m)(1) and (m)(2) of this rule which shall be as of the date of the member's, broker's or dealer's fiscal period which ends nearest to 6 months from the date of the audited statements required to be furnished to customers pursuant to paragraph (m) of this rule.

* * * * *

(Secs. 15(c)(3), 17(a), 23(a), 48 Stat. 895, 897, 901, secs. 3, 4, 8, 49 Stat. 1377, 1379, secs. 2, 5, 52 Stat. 1075, 1076, sec. 7(d), 84 Stat. 1653, 15 U.S.C. 78o(c)(3), 78q(a), 78w)

By the Commission.

Dated: January 17, 1975.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Regs. No. 5, further amended]

PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Subpart M—Conditions for Coverage of Services of Independent Laboratories; Correction

A revision of Subpart M of Regulations No. 5, relating to conditions for coverage of services of independent laboratories under Medicare, and a preamble discussing comments received in response to a notice of such proposed revision, were published in the FEDERAL REGISTER of September 19, 1974 (39 FR 33690).

In the preamble published at that time, Paragraph 5 of the list of changes made in the proposed revision as a result of comments, seems to suggest that a laboratory may not refer tests to another laboratory. Therefore, to more precisely reflect the provisions of the regulations, such paragraph 5 of the preamble to the regulations is revised to read as follows:

5. On § 405.1314 (Clinical laboratories; tests performed), we received several comments expressing concern over the proposed regulation which allowed laboratories to be certified in a specialty or subspecialty even though it was not performing tests in that specialty or subspecialty. We agree that a laboratory should be required to perform tests in all specialties and subspecialties for which it is certified. Therefore, we have deleted the portion of proposed § 405.1314 which permitted approval of a laboratory for a specialty or subspecialty even though tests in such specialty or subspecialty were not performed. Effective October 21, 1974, Medicare will approve independent laboratories only for specialties or subspecialties in which they are actually performing tests. However, a laboratory may continue to refer tests in a particular specialty or subspecialty to a laboratory which is certified under Medicare to perform tests in such specialty or subspecialty regardless of whether the referring laboratory is approved for such specialty or subspecialty. This brings the Medicare regulations into line with the regulations of the Center for Disease Control in this area.

Also, the regulations published at that time contained the following minor errors:

1. As a result of numerous comments regarding the meaning of "significant volume of diagnostic tests," § 405.1310(a) was revised by deleting "performs a significant volume of" and substituting "accepts at least 100 specimens in any category during any calendar year." However, the phrase "diagnostic tests" should also have been deleted. Section 405.1310(a) should read as set forth below.

2. Since several professional groups had contended and we had agreed that predegree experience was just as valid as postdegree experience, we intended to delete the portion of § 405.1310(d) containing the limitation on predegree training. However, the phrase "or prior to qualifying as a technologist under § 405.1315(b)(4)" was inadvertently included. Section 405.1310(d) should read as set forth below.

§ 405.1310 Definitions.

For purposes of this Subpart M, the following definitions apply:

(a) *Independent laboratory.* An independent laboratory performing diagnostic tests means one which is independent both of the attending or consulting physician's office and of a hospital which meets at least the requirements specified in section 1861(e) of the Act to qualify for payment for emergency hospital services under section 1814(d) of the Act. A laboratory which: (1) is located in a hospital which meets at least the requirements specified in section 1861(e) of the Act to qualify for payment for emergency hospital services under section 1814(d) of the Act or, if outside the hospital, is operated under the supervision of the hospital or its organized medical staff, and (2) serves the hospital's patients, is not an independent laboratory. Services furnished by out-of-hospital laboratories under the direction of a physician, such as a pathologist, are considered to be subject to the conditions where the physician holds himself and the facilities of his office out to other physicians as being available for the performance of diagnostic tests. A laboratory maintained by a physician for performing diagnostic tests for his own patients is exempt from the conditions unless such laboratory accepts at least 100 specimens in any category during any calendar year on referral from other physicians. For purposes of this paragraph a category shall be one of the following: (i) Microbiology and serology; (ii) clinical chemistry; (iii) immunohematology; (iv) hematology; (v) pathology; (vi) radiobioassay.

* * * * * *

V40N17 JAN24 75 XUM

(d) *Subsequent to graduation.* The phrase "subsequent to graduation" means laboratory training and experience acquired after receipt of the degree specified. However, for purposes of § 405.1312 or § 405.1313, experience as a technologist in an approved clinical laboratory, which was gained prior to acquiring such degree, may be substituted on an equivalency basis of 1.5 years of such experience for every 1 year of postdegree training and experience; and experience as a general supervisor in an approved clinical laboratory, which was gained prior to acquiring such degree, may be substituted on a 1-for-1 basis.

• • • • • •

3. Since we received numerous comments regarding possible confusion in the numbering scheme used in § 405.1315, we revised the numbering to provide for a separate paragraph for each category of technical personnel, by qualifications and duties. However, the phrase "In the case of a laboratory technologist or cytotechnologist not meeting the training and experience requirements defined in paragraph (b)(1) or (2) of this section" was inadvertently included. It is superfluous, and § 405.1315(c)(3) should read as follows:

§ 405.1315 Condition—clinical laboratory; technical personnel.

• • • • • •

(c) • • •

(3) Achieves a satisfactory grade in a proficiency examination approved by the Secretary. However, after December 31, 1977, initial certification as a cytotechnologist must be in accordance with paragraph (c)(1) or (2) of this section.

• • • • • •

(Catalog of Federal Domestic Assistance Program No. 13.800, Health Insurance for the Aged—Hospital Insurance)

Approved: January 17, 1975.

THOMAS S. MCFEE,
Deputy Assistant Secretary for Management Planning and Technology.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER C—DRUGS

PART 135—NEW ANIMAL DRUGS

SUBPART C—SPONSORS OF APPROVED APPLICATIONS

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Tylosin

The Commissioner of Food and Drugs has evaluated a new animal drug application (98-595V) filed by Walnut Grove Products, Division of W. R. Grace & Co., Atlantic, IA 50022, proposing safe and effective use of a tylosin premix in making swine feed. The application is approved.

To facilitate referencing, the firm is being assigned a sponsor code number and placed in the list of firms in 21 CFR 135.501(c).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Chapter I of Title 21 of the Code of Federal Regulations is amended in Parts 135 and 135e as follows:

1. In Part 135, § 135.501(c) is amended by inserting numerically a new sponsor 132 as follows:

§ 135.501 Names, addresses, and code numbers of sponsors of approved applications.

• • • • • •

(c) • • •

Code no.	Firm name and address
•	• • • •
132	Walnut Grove Products, Division of W. R. Grace & Co., 201 Linn St., Atlantic, IA 50022.
•	• • • •

2. In Part 135e, § 135e.10 is amended by adding paragraph (b)(28) to read as follows:

§ 135e.10 Tylosin.

• • • • • •

(b) • • •

(28) To 132: 4 grams per pound; item 4.

• • • • • •

Effective date. This order shall be effective January 24, 1975.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360(b))

Dated: January 17, 1975.

FRED J. KINGMA,
Acting Director, Bureau of Veterinary Medicine.

[FR Doc.75-2205 Filed 1-23-75;8:45 am]

SUBCHAPTER D—DRUGS FOR HUMAN USE

PART 449—ANTIFUNGAL ANTIBIOTICS

Certification of Nystatin Lotion

In the FEDERAL REGISTER of November 5, 1970 (35 FR 17069), the Food and Drug Administration published its conclusion regarding Nysta-Dome Lotion containing nystatin marketed by Dome Laboratories, Division of Miles Laboratories, Inc., 125 West End Ave., New York, NY 10023. The notice stated that the Food and Drug Administration had evaluated reports received from the National Academy of Sciences/National Research Council and concluded that this preparation is effective for the treatment of cutaneous and mucocutaneous mycotic infections caused by *Candida* species (*Monilia*). Affected firms were requested to submit amendments to their antibiotic applications to provide for revised labeling.

Since the manufacturer has now provided labeling information in accordance with the reevaluation of the drug published in the FEDERAL REGISTER of November 5, 1970, the Commissioner of Food and Drugs concludes that the antibiotic regulations should be amended as set forth below to provide for the certification of this drug.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), Part 449 is amended by adding a new section to read as follows:

§ 449.550h Nystatin lotion.

(a) *Requirements for certification.*—(1) *Standards of identity, strength, quality, and purity.* Nystatin lotion is composed of nystatin with one or more suitable and harmless suspending agents, emulsifiers, surfactants, and preservatives in a suitable and harmless vehicle. Each milliliter contains 100,000 units of nystatin. Its potency is satisfactory if it is not less than 90 percent and not more than 140 percent of the number of units of nystatin that it is represented to contain. Its pH is not less than 5.5 and not more than 7.5. The nystatin used conforms to the standards prescribed by § 449.50(a)(1), except safety.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 432.5 of this chapter.

(3) *Requests for certification; samples.* In addition to the requirements of § 431.1 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(a) The nystatin used in making the batch for potency, loss on drying, pH, and identity.

(b) The batch for potency and pH.

(ii) Samples required:

(a) The nystatin used in making the batch: 10 packages, each containing approximately 300 milligrams.

(b) The batch: A minimum of five immediate containers.

(b) *Tests and methods of assay.*—(1) *Potency.* Proceed as directed in § 436.105 of this chapter, preparing the sample for assay as follows: Place an accurately measured representative portion of the sample into a high-speed glass blender jar containing sufficient dimethylformamide to give a convenient concentration. Blend for 3 to 5 minutes. Remove an aliquot and dilute with sufficient dimethylformamide to yield a stock solution containing 400 units of nystatin per milliliter (estimated). Further dilute with 10 percent potassium phosphate buffer, pH 6.0 (solution 6), to the reference concentration of 20 units of nystatin per milliliter (estimated).

(2) *pH.* Proceed as directed in § 436.202 of this chapter, using the undiluted sample.

Since the conditions prerequisite to providing for certification of subject antibiotic have been complied with, and since the matter is noncontroversial, notice and public procedure and delayed effective date are not prerequisites to this promulgation.

Effective date. This order shall become effective on January 24, 1975.

Dated: January 17, 1975.

MARY A. MCENIRY,
Assistant to the Director for Regulatory Affairs, Bureau of Drugs.

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

Subchapter H—Right-of-Way and Environment

PART 713—RIGHT-OF-WAY—THE PROPERTY MANAGEMENT FUNCTION

Applicability

This will amend the regulations of the Federal Highway Administration by revising § 713.302(c) of 23 CFR 713, Subpart C. Subpart C, dealing with the disposal of rights-of-way, was published in the FEDERAL REGISTER on September 27, 1974 (39 FR 34654). Section 713.302(c) is amended to clarify the nonapplicability of the regulation to real property acquired for planned highway purposes but not used because of a determination not to construct the planned highway facility.

The proposed regulation will codify a revision of paragraph 2(c) of Volume 7, Chapter 4, section 2 of the Federal Highway Program Manual.

Section 713.302(c) is hereby revised to read as follows:

§ 713.302 Applicability.

• • • • • •

(c) The provisions of this section do not apply:

(1) Where whole sections of the Interstate System are withdrawn under the provisions of 23 U.S.C. 103(e)(2) and (4), or

(2) Where real property has been acquired for planned highway purposes, but because of environmental concerns, widespread public objections, or other similar considerations, the State highway department (SHD) or other appropriate State authority determines not to construct the planned highway facility.

This revision will take effect immediately.

Issued on January 20, 1975.

NORBERT T. TIEMANN,
Federal Highway Administrator.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL 325-4]

SUBCHAPTER C—AIR PROGRAMS

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

California

The section entitled "Control strategy: Photochemical oxidants (hydrocarbons) and carbon monoxide" and designated as § 52.240 in the June 22, 1973 FEDERAL REGISTER (38 FR 16564) is redesignated as § 52.269.

Dated: January 20, 1975.

ROGER STRELOW,
Assistant Administrator for Air and Waste Management.

[FR Doc.75-2181 Filed 1-23-75;8:45 am]

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S. O. 1208]

PART 1033—CAR SERVICE

Reading Co.

At a Session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D.C., on the 21st day of January 1975.

It appearing, that the Lehigh and New England Railway Company (LNE) has notified the Commission that, on or before January 24, 1975, it will be unable to transport the traffic offered it because its cash position makes continued operation impossible; and that, accordingly, the LNE has placed its embargo No. 1-75 against all traffic, effective January 7, 1975;

It further appearing, that the imminent cessation of all transportation services by the LNE constitutes an emergency situation such as that contemplated by section 1(16)(b) of the Interstate Commerce Act (49 U.S.C. 1(16)), as amended, by section 601(e) of the Regional Rail Reorganization Act of 1973 (Pub. L. 93-236); and that section authorizes the Commission under certain prescribed conditions, to direct a carrier or carriers by railroad to perform essential transportation services which another carrier is no longer able to perform;

It further appearing, that the legislative history to section 1(16)(b) indicates that its purpose is to assure the continuance of essential rail service for a period of sixty days, or in extraordinary circumstances for an extended period not to exceed 240 days, in the event that a railroad is required to cease operation under conditions described in the Act; and that such authority was intended as an interim emergency measure and not as a permanent solution;

It further appearing, that in determining whether the LNE should be operated pursuant to the authority of section 1(16)(b) and in its planning therefore, the Commission, consistent with Congressional intent and the provisions of the Emergency Rail Services Act of 1970 (45 U.S.C. 661), has coordinated its activities with the Department of Transportation and has been in consultation with representatives of the United States Railway Association, among others;

It further appearing, that the Commission has determined that based upon the statute and the directives contained in the legislative history of section 1(16)(b) of the Act, the operation of the lines of the LNE is necessary and such operation is in the public interest; that the Commission considered many factors, including but not limited to: the transportation requirements of the patrons of the LNE, the economic impact of a discontinuance of service, the amount of originating and terminating traffic on individual lines, transportation requirements of connecting carriers, condition of track, alternative carriers and transportation modes, and net operating revenues attributable to individual lines; and that, the Commission should direct a carrier to operate over the lines of the LNE;

It further appearing, that the Reading Company, Andrew L. Lewis, Jr., and Joseph L. Castle, Trustees (Rdg) should be directed to provide the services herein determined to be essential in the public interest, which were formerly performed by the LNE, because, among other things, the Rdg's proximity to the lines of the LNE, the volume of the traffic LNE interchanges with the Rdg, its familiarity with the operation of the LNE and its willingness and ability to perform the services required for shippers;

It further appearing, that the performance of the operations directed herein will not substantially impair the Rdg's ability adequately to serve its own patrons or to meet its outstanding common carrier obligations; that the performance of the directed operation should not violate the provisions of the Federal Railroad Safety Act of 1970 (45 U.S.C. 421);

It further appearing, that in light of the emergency situation which would result from a cessation of all transportation service by the LNE, public notice and hearings are impractical and not required by the procedures set forth in section 1(15) of the Act; that the public interest requires the continuation of operation over certain lines of the LNE by the Rdg for a period of operation of 60 days as provided by section 1(16)(b) of the Act; and that good cause exists for making this order effective upon the date served;

It further appearing, that the Rdg is presently a railroad in reorganization under section 77 of the Bankruptcy Act (11 U.S.C. 205) subject to the jurisdiction of the United States District Court for the Eastern District of Pennsylvania; and that, accordingly, approval of said court may be necessary for the implementation of this order; and

It further appearing, and the Division so finds, that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969;

It further appearing, and the Division so finds, that cessation of service by the LNE would have serious economic consequences not only to the patrons of the LNE but also to the communities located within the area; and for good cause appearing therefore:

§ 1033.1203 Service Order No. 1203.

(a) *Reading Company, Andrew L. Lewis, Jr., and Joseph L. Castle, Trustees, directed to operate certain portions of Lehigh and New England Railway Company. It is ordered,* That the Reading Company, Andrew L. Lewis, Jr., and Joseph L. Castle, trustees (Rdg), be, and it is hereby directed to enter upon that portion of the Tamaqua branch of the Lehigh and New England Railway (LNE) extending between milepost 2.20

V40017 JAN24 75 XUM

east of Hauto, Pennsylvania, and a connection with the Reading Company at milepost 6.55 in the vicinity of Tamaqua, Pennsylvania, and to operate such railroad and facilities subject to any necessary approval of the reorganization court of the United States District Court for the Eastern District of Pennsylvania, for the purpose of handling, routing, and moving the traffic of the Lehigh and New England Railway Company in accordance with the lawful instructions of shippers and consignees and in compliance with the rules and regulations of the Commission, and subject to the rates and charges prescribed in tariffs lawfully published and filed in accordance with law and applicable to freight transported over the lines of the Lehigh and New England Railway Company; that such entry and operations shall commence on or before 12:01 a.m., January 24, 1975, and shall continue for a period of 60 days, unless such period is reduced by order of the Commission or unless further extended by order of the Commission, for cause shown, for an additional designated period; and that a certified copy of the order of the court authorizing the Reading Company to perform the directed service pursuant to the order of the Commission shall be filed with this Commission, with appropriate reference to this proceeding;

(b) *It is further ordered*, That the Lehigh and New England Railway Company shall, on the date of service of this order inform all persons who were given notice of its embargo No. 1–75, that said embargo shall no longer be applicable to service over its lines;

(c) *It is further ordered*, That the Reading Company shall (1) collect all revenues attributable to the handling, routing, and movement of freight traffic including all agents' and conductors' accounts and all payments from other carriers collected after the commencement of directed operations; (2) distribute such revenues in accordance with divisional agreements presently applicable, collecting and paying to the Lehigh and New England Railway Company the divisions of joint revenues payable to the Lehigh and New England Railway Company pursuant to such division agreements which are derived from services performed and events occurring prior to January 24, 1975, and collecting and retaining for the Reading Company on a segregated basis all such divisions of joint revenues payable to the Lehigh and New England Railway Company pursuant to such division agreements which are derived from services performed by the Reading Company in the place and stead of the Lehigh and New England Railway Company and from events occurring on or after January 23, 1974;

(d) *It is further ordered*, That all carriers are hereby directed to pay to the Reading Company, such sums as otherwise would be payable to the Lehigh and New England Railway Company including interline freight revenues, per diem, and all other interline accounts of whatsoever kind and nature coming due under normal accounting rules and procedures for the settlement of interline transactions and accounts between carriers during the period this order is in effect and thereafter coming due for services performed and events occurring during the period of directed service;

(e) *It is further ordered*, That the Reading Company shall pay to all carriers amounts received by it but due to them for services performed by them, for per diem, and for events occurring either prior to the commencement of operations directed herein or during the period this order is in effect, all in accordance with established procedures for the settlement of interline transactions and accounts between carriers;

(f) *It is further ordered*, That in executing the directions of this Commission as provided for in this order, all carriers involved in the movement of traffic to the lines of the Lehigh and New England Railway Company shall proceed even though in some instances, no contracts, agreements or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; that in the event reroutings are necessary pursuant to the directives of this and subsequent orders, the divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers, or upon failure of the carriers to so agree said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act;

(g) *It is further ordered*, That, in carrying out the operations directed herein, the Reading Company shall hire employees of the Lehigh and New England Railway Company to the extent such employees had previously performed the directed service and shall assume all existing employment obligations and practices of the Lehigh and New England Railway Company relating thereto, including, but not limited to, agreements governing rates of pay, rules, working conditions, and all current employee protective conditions, for the duration of the directed service;

(h) *It is further ordered*, That the Reading Company and the Lehigh and New England Railway Company shall, if possible, negotiate an agreement (hereinafter called the agreement) on all aspects of the directed operation subject to their determination, including, but not limited to use of and rental for equipment, use of, and compensation for, existing inventories of fuel, materials, and supplies, and rental for the use of rights-of-way and other rail facilities; that the Commission shall be represented at all such discussions; that the agreement shall be subject to approval by the Commission upon such procedure as the Commission shall later specify; and that in the event the Reading Company and the Lehigh and New England Railway Company fail to agree upon the terms for such use and compensation, the directed service shall continue pending a Commission determination to establish such terms as it may find to be just and reasonable;

(i) *It is further ordered*, That in the event the parties achieve agreement, any funds to be paid the Lehigh and New England Railway Company thereunder shall be paid into an escrow account until the agreement is given approval by the Commission; and that in the event the parties are unable to reach agreement, any monies the Reading Company holds for the account of the Lehigh and New England Railway Company to compensate it to the use of its equipment and facilities and properties, in lieu of a final agreement, shall be paid into an escrow account until a determination has been made by the Commission as to what terms are just and reasonable;

(j) *It is further ordered*, That the Reading Company shall record the revenues earned and the costs incurred in and for the performance of the operations directed herein over the lines of the Lehigh and New England Railway Company, in a manner to be prescribed by the Commission, that the information so recorded, and supporting data where specifically required, shall be submitted by the Reading Company to the Commission for audit and evaluation immediately upon completion of the directed operation, or at such intervals, during the period of the directed operation, as the Commission may request; and that, if, for the period during which this order shall be effective, the cost to the Reading Company of handling, routing, and moving the traffic over the lines of the Lehigh and New England Railway Company shall exceed the direct revenues therefor, payment shall be made to the Reading in the manner provided by section 1(16) (b) of the Act;

(k) *It is further ordered*, That the Commission shall retain jurisdiction to modify, supplement or reconsider this order at any time and for such purposes as it may consider necessary consistent with the legislative intent and the express provision of section 1(16) (b) of the Interstate Commerce Act, as amended;

(l) *It is further ordered*, That this order shall be served upon the United States Department of Transportation, the United States Railway Association, the Rail Planning Services Office of the Interstate Commerce Commission, the governor of the State of Pennsylvania, Pennsylvania Public Utilities Commission, the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

(m) *It is further ordered*, That this order shall be effective upon the date of service; that the operations which the Reading Company is herein directed to perform shall commence on or before 12:01 a.m., January 24, 1975; and that

such operations shall cease 60 days from the date the directed service shall be instituted by the Reading Company at 11:59 p.m., unless otherwise extended, modified, changed, or suspended by subsequent order of the Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

By the Commission, Division 3.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.75–2262 Filed 1–23–75;8:45 am]

SUBCHAPTER B—PRACTICE AND PROCEDURE

[Ex Parte No. 55 (Sub-No. 12)]

PART 1100—GENERAL RULES OF PRACTICE

Paper Conservation

At a general session of the Interstate Commerce Commission held at its office in Washington, D.C., on the 17th day of January, 1975.

It is ordered, That based on the reasons set forth in the attached notice, Chapter X of Title 49 of the Code of Federal Regulations be, and it is hereby, modified as set forth below.

It is further ordered, That this order shall become effective on January 24, 1975.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy of this order and the attached notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy of the notice to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to interested persons.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

The Interstate Commerce Commission has amended its rules of practice in an attempt to conserve paper. The rule changes will permit persons submitting written pleadings, documents, and papers to use both sides of the paper (rather than one side) and to file 8 (instead of 15) copies of such pleadings, documents, and papers. These measures should permit persons appearing before the Commission to economize on paper and reproduction costs.

The rule is issued under the authority of sec. 12, 17, 24 Stat. 383, as amended, 385, as amended, 49 Stat. 546, as amended, 548, as amended, 551, as amended, sec. 304, 54 Stat. 933, sec. 403, 56 Stat. 285; 49 U.S.C. 12, 13a, 17, 304, 305, 306, 307, 309, 311, 902, 903, 904, 909, 916, 1003, 1010, 1017.

Issued in Washington, D.C., January 17, 1975.

Accordingly, this action modifies 49 CFR 1100.15 and 1100.16 so that they now read as follows:

§ 1100.15 Typographical specifications generally (Rule 15).

Except as otherwise provided respecting applications (Rule 38(a)), exhibits (Rule 84(a)), and informal complaints (Rules 24(a)), all pleadings, documents, and papers to be filed under these rules shall be on opaque, unglazed, durable paper not exceeding 8½ by 11 inches. To permit binding in covers of uniform size, margins of at least 1½ and 1 inch, respectively, shall be allowed on the left and right margins. Binding shall be on the left margin. Reproduction may be by printing, printing by offset press, multigraphing, or mimeographing, or by any other process, provided the copies are clear and permanently legible. Whiteline blueprints which cannot be reproduced by photography are not acceptable. If directly typewritten, or if in facsimile reproduction of typewriting, the impression may be on both sides of the paper and must be double-spaced, except that long quotations shall be single-spaced and indented. Nothing less in size than Elite type shall be used. If printed, adequate leading and nothing less than 10-point type shall be used, except that 8-point type may be employed in footnotes and in tabular matter where printing limitations so require. A pleading or brief in excess of 50 pages (except a pleading under modified or shortened procedure), including cover pages, indexes, and appendixes, must be printed. Printing by offset press will be accepted: *Provided*, That the type used is not reduced in size smaller than that required for typewritten documents and that where the pleading or brief exceeds 50 pages, the impression is on both sides of the paper. Failure to observe these specifications will result in rejection.

§ 1100.16 Copies. (Rule 16).

(a) *Generally.* The original and 8 copies of every pleading, document, or paper permitted or required to be filed under this part shall be furnished for the use of the Commission except as a different number is required under paragraph (b) of this section, or as otherwise provided respecting: answers (Rule 35(c)), applications (Rule 36(b) and Rule 40 (c)); complaints, formal (Rules 26 and 37) and informal (Rule 24(a) and Rule 25(d)); depositions (Rule 64); exhibits (Rules 84(c) and 86); modified procedure (Rule 52); petitions in intervention (Rule 72(d)); prepared statements (Rule 77); protests in investigation-and-suspension proceedings (Rule 42(c)); replies (Rule 23(b)); and matters respecting oral argument (Rule 98); subpenas (Rule 56(a)); time modification (Rule 21(b)); transcript correction (Rule 90(b)), and petitions for rehearing, reargument, or reconsideration (Rule 101(a)).

(b) *In bankruptcy proceedings.* Except as otherwise provided in an application form or instruction (Rule 38) and respecting exhibits (Rule 84(c)), the original and 19 copies of every pleading, document, or paper filed in a proceeding arising under the Uniform Bankruptcy Act shall be furnished for the use of the Commission.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-456]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository
Arkansas	Desha	McGehee, city of	Jan. 28, 1975. Emergency	Mar. 29, 1974		
Massachusetts	Franklin	Greenfield, town of	do	Sept. 13, 1974		
Missouri	Reynolds	Ellington, city of	do	Mar. 29, 1974		
New York	Westchester	Hasting-on-Hudson, city of	do	Nov. 8, 1974		
Do	Oneida	New Hartford, village of	do	Feb. 22, 1974		
Ohio	Delaware	Galena, village of	do	Feb. 15, 1974		
Do	Warren	South Lebanon, village of	do	May 24, 1974		
Tennessee	Lauderdale	Ripley, town of	do	May 17, 1974		
Virginia	Lee	Unincorporated areas	do			
Washington	Whitman	Colfax, city of	do	Apr. 5, 1974		
West Virginia	Monongalia	Morgantown, city of	do	Aug. 2, 1974		
Wisconsin	Chippewa	Cadott, village of	do	Dec. 17, 1973		

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968); effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended, 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969) as amended 39 FR 2787, Jan. 24, 1974.

Issued: January 15, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[FR Doc.75-2178 Filed 1-23-75;8:45 am]

[Docket No. FI-457]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies (1) the effective date of the authorization of the sale of flood insurance in the area under the emergency or under the regular flood insurance program; (2) the effective date on which the community became ineligible for the sale of flood insurance because of its failure to submit land use and control measures as required pursuant to § 1909.24(a); or (3) the effective date of a community's formal reinstatement in the program pursuant to § 1909.24(b). The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository
Arizona	Pima	Tucson, city of	Jan. 20, 1974. Emergency	Aug. 2, 1974		
Do	Pinal	El Rey, city of	do	May 31, 1974		
Florida	Putnam	Palatka, town of	do	July 19, 1974		
Do	Sumter	Bushnell, city of	do	Jan. 16, 1974

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies (1) the effective date of the authorization of the sale of flood insurance in the area under the emergency or under the regular flood insurance program; (2) the effective date on which the community became ineligible for the sale of flood insurance because of its failure to submit land use and control measures as required pursuant to § 1909.24(a); or (3) the effective date of a community's formal reinstatement in the program pursuant to § 1909.24(b). The entry read as follows:

§ 1914.4 Status of participating communities.

[Docket No. FI 450]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding. Since this publication is merely for the purpose of informing the public of the location of areas of special flood hazard and has no binding effect on the sale of flood insurance or the commencement of construction, notice and public procedure are impracticable, unnecessary, and contrary to the public interest. Inasmuch as this publication is not a substantive rule, the identification of special hazard areas shall be effective on the date shown. Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 **List of communities with special hazard areas.**

State	County	Location	Map No.	State map repository	Local map repository	Effective date of identification of areas which have special flood hazards
Alabama	Coffee	New Brockton, town of	H 010233 01 through H 010233 02	Alabama Development Office, Office of State Planning, State Office Bldg., 501 Dexter Ave., Montgomery, Ala. 36104. proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 3]

STATEMENTS OF GENERAL POLICY OR INTERPRETATION

Proposed Deletion of Exemptions from Certain Drug-labeling Requirements

The Commissioner of Food and Drugs, under provisions of 21 CFR 1.106(b)(3) and upon written request stating reasonable grounds therefor, will offer an opinion on a proposal to omit certain labeling information (i.e., full disclosure information) from the dispensing package of a prescription drug if, but only if, the article is a drug for which directions, hazards, warnings, and use information are commonly known to practitioners licensed by law to administer the drug. In 21 CFR 3.515 the Commissioner has offered such opinions exempting certain drug products from the labeling requirements of § 1.106(b)(3)(i) provided they meet the conditions prescribed in § 3.515. The Commissioner last offered such an opinion in an amendment to § 3.515 on June 8, 1962 (27 FR 5428), prior to enactment of the Drug Amendments of 1962.

Under the Drug Amendments of 1962, proof of effectiveness is now required for each claimed use of a new drug. To implement these Amendments the Food and Drug Administration, with the assistance of the National Academy of Sciences/National Research Council, Drug Efficacy Study Group, undertook a study of the effectiveness of the new drugs "approved" prior to October 10, 1962, on the basis of safety. This study has shown that many drug claims commonly known to practitioners in fact lack substantial evidence of effectiveness as required by the Drug Amendments of 1962. A number of these drugs, which are included in § 3.515, have been the subject of Drug Efficacy Study Implementation (DESI) notices. These FEDERAL REGISTER notices set forth the Administration's conclusions on the effectiveness of such drugs based on reports received from the NAS/NRC as well as other available information. These DESI notices require that a drug determined to be effective be labeled to comply with all requirements of the act and regulations and that its labeling bear adequate information for safe and effective use of the drug. Other drugs or indications concluded to lack substantial evidence of effectiveness have been or will be removed from the market.

The Commissioner has concluded that many DESI notices have superseded specific exemptions from drug labeling requirements previously granted under § 3.515, and that any such exemption as it applies to a drug that is the subject of a DESI notice should be revoked.

The Food and Drug Administration is presently establishing procedures for developing old drug monographs. An old drug monograph will set forth conditions for which a prescription drug which is not a new drug and shall be deemed safe and effective and not misbranded. Such old drug monographs will supersede the labeling exemptions for those drugs remaining in § 3.515 which have not already been superseded by DESI announcements.

The following drugs currently listed in § 3.515 are the subjects of DESI notices:

1. Aminophylline (DESI 1626; published in the FEDERAL REGISTER of July 26, 1972 (37 FR 14895)).

2. Atropine methylnitrate (DESI 3265; published in the FEDERAL REGISTER of June 18, 1971 (36 FR 11754)).

3. Barbiturates (DESI 793; published in the FEDERAL REGISTER of July 28, 1972 (37 FR 15186)). Specific barbiturate preparations have been subjects of other DESI announcements.

4. Digitalis (DESI 8627; published in the FEDERAL REGISTER of July 27, 1972 (37 FR 15024)).

5. Epinephrine Injection (DESI 366; published in the FEDERAL REGISTER of July 11, 1972 (37 FR 13564)).

6. Mannitol Hexanitrate (DESI 1786; published in the FEDERAL REGISTER of February 25, 1972 (37 FR 4001)); evaluation for diagnostic purposes (DESI 2282; published in the FEDERAL REGISTER of August 6, 1971 (36 FR 14507)).

7. Pentaerythritol tetranitrate (DESI 1786; published in the FEDERAL REGISTER of February 25, 1972 (37 FR 4001)).

8. Pentaerythritol tetranitrate with phenobarbital (DESI 1786; published in the FEDERAL REGISTER of February 25, 1972 (37 FR 4001)).

9. Quinidine Sulfate (DESI 6320; published in the FEDERAL REGISTER of September 8, 1972 (37 FR 18227)).

10. Scopolamine methylbromide (DESI 3265; published in the FEDERAL REGISTER of June 18, 1971 (36 FR 11754)).

The Commissioner has also concluded that the reference to nitroglycerin in § 3.515 shall be amended to specify the sublingual dosage form which was the intent of the exemption. Sustained action nitroglycerin preparations are the subject of a DESI notice (DESI 1786) published in the FEDERAL REGISTER of February 25, 1972 (37 FR 4001).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 701, 52 Stat. 1050–1053, 1055–1056, as amended; 21 U.S.C. 352, 355, 371) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes to amend Part 3 in § 3.515(b) by deleting the entries "Aminophylline," "Atropine methylnitrate," "Barbiturates," "Digitalis," "Epinephrine injection," "Mannitol hexanitrate," "Pentaerythritol tetranitrate," "Pentaerythritol tetranitrate with phenobarbital," "Quidine sulfate," "Scopolamine methylbromide," and by revising the entry "Nitroglycerin" to read "Nitroglycerin sublingual". As revised, § 3.515 (b) reads as follows:

§ 3.515 Exemptions from certain drug labeling requirements.

* * * * *

(b) The Commissioner of Food and Drugs has considered submitted material covering a number of drug products and has offered the opinion that the following drugs, when intended for those human uses for which they are now generally employed by the medical profession, should be exempt from the requirements of § 1.106(b)(3) of this chapter, provided that they meet the conditions prescribed in this paragraph. Preparations that are not in dosage unit form (for example, solutions) will be regarded as meeting the conditions with respect to the maximum quantity of drug per dosage unit if they are prepared in a manner that enables accurate and ready administration of a quantity of drug not in excess of the maximum per dosage unit:

Atropine sulfate. For oral use, not in excess of 0.54 milligram per dosage unit; for injection, not in excess of 0.54 milligram (1/120 grain) per dosage unit.

Chloral hydrate. For oral use, not in excess of 500 milligrams per dosage unit; for use as suppositories, not in excess of 1.0 gram per suppository.

Codeine phosphate. For oral use, not in excess of 65 milligrams per dosage unit; for injection, not in excess of 65 milligrams per dosage unit.

Codeine sulfate. For oral use, not in excess of 65 milligrams per dosage unit; for injection, not in excess of 65 milligrams per dosage unit.

Dihydrocodeinone bitartrate. For oral use, not in excess of 10 milligrams per dosage unit.

Dihydromorphinone hydrochloride. For oral use, not in excess of 4 milligrams per dosage unit.

Erythrityl tetranitrate. For oral use, not in excess of 30 milligrams per dosage unit.

Homatropine methylbromide. For oral use, not in excess of 5 milligrams per dosage unit.

Hyoscyamine hydrobromide. For oral use, not in excess of 1 milligram per dosage unit.

Hyoscyamine sulfate. For oral use, not in excess of 1 milligram per dosage unit.

V 40 17 JAN 24 75 XUM

Hyoscyamus tincture. For oral use, not in excess of 2 milliliters per dosage unit.

Methenamine. For oral use, not in excess of 1 gram per dosage unit.

Morphine phosphate. For oral use, not in excess of 33 milligrams per dosage unit; for injection, not in excess of 33 milligrams per dosage unit.

Morphine sulfate. For oral use, not in excess of 33 milligrams per dosage unit; for injection, not in excess of 33 milligrams per dosage unit.

Nitroglycerin sublingual. For oral use, not in excess of 0.65 milligram per dosage unit.

Sodium chloride injection.

Sodium nitrite. For oral use, not in excess of 60 milligrams per dosage unit.

Theobromine. For oral use, not in excess of 325 milligrams per dosage unit.

Thyroid. For oral use, not in excess of 220 milligrams per dosage unit.

Water for injection, sterile.

Interested persons may, on or before March 25, 1975, file with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: January 14, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.75–2206 Filed 1–23–75;8:45 am]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Airworthiness Docket No. 72–SW–10]

BELL MODEL 206A AND 206B HELICOPTERS

Proposed Airworthiness Directive

Amendment 39–1437 (37 FR 8438) AD 72–9–2, requires an inspection of the cabin roof reinforcing straps and the support fittings for cracks and loose rivets. It also requires replacement of a cracked strap, loose rivets or a cracked support fitting on certain Bell Model 206A and 206B helicopters. After issuing Amendment 39–1437, the agency received reports of additional cases of cracked cabin roof straps, P/N 206–031–200–23 and –24, on helicopters included in Amendment 39–1437 and on helicopters not included. Therefore, the agency is considering superseding Amendment 39–1437 with a new AD that requires replacement of the cabin roof straps P/N 206–031–200–23 and –24 with straps P/N 206–032–200–37 and –38 on Model 206A and 206B helicopters, serial numbers 1 through 1163.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or comments as they may desire. Communications should identify the docket number and be submitted in triplicate to the Regional Counsel, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before February 24, 1975, will be considered by the Director before taking action upon the proposed rule.

The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Office of Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, Texas.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

BELL. Applies to Bell Models 206A and 206B helicopters, S/N 1 through 1163, certificated in all categories.

Compliance required within the next 1200 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent possible failure of the cabin roof straps, P/N 205–031–200–23 and –24, accomplish the following:

(a) Remove the cabin roof straps, P/N 205–031–200–23 and –24, in accordance with items 1 through 4 of Bell Helicopter Company Service Bulletin 206–01–74–2, dated November 12, 1974, or later approved revision.

(b) Install the cabin roof straps, P/N 206–032–200–37 and –38, in accordance with items 5 through 9 of Bell Helicopter Company Service Bulletin 206–01–74–2, dated November 12, 1974, or later approved revision.

The manufacturers' specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive, who have not already received these documents from the manufacturer, may obtain copies upon request to the Service Manager, Bell Helicopter Company, P.O. Box 482, Fort Worth, Texas 76101. These documents may also be examined at the office of the Regional Counsel, Southwest Region, FAA, 4400 Blue Mound Road, Fort Worth, Texas, and at FAA Headquarters, 800 Independence Avenue SW., Washington, D.C. A historical file on this AD, which includes the incorporated material in full, is maintained by the FAA at its headquarters in Washington, D.C., and at the Southwest Regional Office in Fort Worth, Texas.

This supersedes Amendment 39–1437 (37 FR 8438), AD 72–9–2.

Issued in Fort Worth, Texas, on January 10, 1975.

NOTE: The incorporation by reference provisions in this document were approved by the Director of the FEDERAL REGISTER on June 19, 1967.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.75–2188 Filed 1–23–75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74–SO–96]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Christiansted, St. Croix, V.I., Control Zone and Transition Area.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga., 30320. All communications received on or before February 10, 1975 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue, S.W., Washington, D.C., 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As part of this proposal relates to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly, and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

The FAA proposes to amend § 71.171 (40 FR 354) by altering the Christiansted, St. Croix, V.I., control zone to read as follows:

Within a 5-mile radius of Alexander Hamilton Airport (lat. 17°42'13" N., long. 64°47'54" W.); within 3 miles each side of St. Croix VOR 068° and 248° radials, extending from the 5-mile radius zone to 8.5 miles east of the VOR. This control zone is effective during specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the FAA publication, International NOTAMs.

The FAA also proposes to amend § 71.181 (40 FR 441) by altering the Christiansted, St. Croix, V.I., transition area to read as follows:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Alexander Hamilton Airport (lat. 17°42'13" N., long. 64°47'54" W.); within 3 miles each side of St. Croix VOR 068° radial, extending from the 8.5-mile radius area to 8.5 miles east of the VOR; and that airspace extending upward from 1,200 feet above the surface within a 15-mile radius of Alexander Hamilton Airport; within 9.5 miles north and 4.5 miles south of the St. Croix VOR 068° radial, extending from the 15-mile radius area to 18.5 miles east of the VOR; within 9.5 miles south and 4.5 miles north of the ILS localizer west course, extending from the 15-mile radius area to 18.5 miles west of the LOM.

Revision of the procedure turn altitude from 3,000 feet MSL to 2,200 feet MSL for the VOR Runway 27 instrument approach procedure requires an extension to the 700 foot transition area to comply with the United States Standard for Terminal Instrument Procedures (TERPS). Because the Christiansted RBN has been decommissioned, the control zone extensions and the transition area extensions designated for the protection of instrument approaches predicated on this RBN are no longer required.

This amendment is proposed under the authority of section 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1510), Executive Order 10854 (24 FR 9565) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on January 20, 1975.

GORDON E. KEWER,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.75–2193 Filed 1–23–75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 75–SW–2]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a transition area at Malvern, Ark.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before February 24, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be mads by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

MALVERN, ARK.

That airspace extending upward from 700 feet above the surface within a 5-statute-mile radius of Malvern Municipal Airport, Malvern, Ark. (latitude 34°19'57" N., longitude 92°45'45" W.); and within 3.5 statute miles each side of 046° T (040° M) bearing from the Malvern NDB (latitude 34°19'56" N., longitude 92°45'50" W.), extending from the 5-mile-radius area to 11.5 statute miles northeast of the NDB; excluding that portion which overlies the Little Rock, Ark., transition area.

The proposed transition area will provide controlled airspace for aircraft executing a new instrument approach procedure for the Malvern, Ark., Municipal Airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, TX., on January 16, 1975.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

[FR Doc.75–2194 Filed 1–23–75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74–CE–22]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Waterloo, Iowa.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before February 24, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief.

Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

A new public use instrument approach procedure has been designed for an approach from the southwest to the Waterloo, Iowa, Municipal Airport. Accordingly, it is necessary to alter the 700-foot transition area at Waterloo, Iowa, to provide controlled airspace protection for aircraft executing the new instrument approach procedure.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition area is amended to read:

WATERLOO, IOWA

That airspace extending upward from 700 feet above the surface within a 10-mile radius of the Waterloo Municipal Airport (lat. 42°33'28" N., long 92°23'58" W.); and within 3½ miles each side of the Waterloo ILS localizer northwest course extending from the 10-mile radius area to 8 miles northwest of the OM; and 3 miles each side of the Waterloo, Iowa VORTAC 120° radial extending from the 10-mile radius to 15 miles southeast of the VORTAC; and within 3½ miles each side of the Waterloo, Iowa, VORTAC 194° radial extending from the 10-mile radius to 11½ miles south of the VORTAC; and within 3½ miles each side of the Waterloo, Iowa, VORTAC 001° radial extending from the 10-mile radius to 11½ miles north of the VORTAC; and within 3½ miles each side of the Waterloo, Iowa, VORTAC 316° radial extending from the 10-mile radius to 11½ miles northwest of the VORTAC.

V 4017 JAN 24 75 XUM

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Missouri, on December 23, 1974.

A. L. COULTER,
Director, Central Region.

[FR Doc.75-2195 Filed 1-23-75;8:45 am]

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 2]

[FRL 327-2]

PROVIDING OF INFORMATION UNDER THE FREEDOM OF INFORMATION ACT

Proposed Fee Schedule

Notice is hereby given that the Administrator of the Environmental Protection Agency (EPA) proposes to amend Part 2 of Title 40, Code of Federal Regulations by amending § 2.111(a) to establish a uniform schedule of fees for document search duplication applicable to all constituent units of the Environmental Protection Agency.

Recent amendments to 5 U.S.C. 552, commonly known as the Freedom of Information Act, require each Federal agency to publish in the FEDERAL REGISTER a schedule of reasonable standard fees to be charged for searching for and duplicating requested records. The proposed regulation would comply with that requirement and would revise an existing fee schedule maintained by EPA but not previously published in the FEDERAL REGISTER.

The charge of $2.50 per half hour for "record search time" and $4.50 per half hour for "in-house computer programming time" are based on the estimated average salary of an individual performing the search and/or programming tasks. The charge of $.20 per page for reproduction of documents is based on the combination of salary of the individual reproducing the copy, and machine and materials costs for making that copy.

The cost of computer time varies according to the computer system being used and the components of that system needed to complete the task. The fee for computer time will be the actual direct cost of the machine time, as well as any necessary in-house or contract programming costs.

Interested persons may participate in this rulemaking by submitting written comments in triplicate to the Environmental Protection Agency Information Center, Environmental Protection Agency, Washington, D.C., 20460. Comments on all aspects of the proposed regulation are solicited. All comments received on or before February 24, 1975, will be considered. A copy of all public comments will be available for inspection and copying at the Environmental Protection Agency Information Center, Room 227, West Tower, Waterside Mall, 401 M Street, S.W., Washington, D.C. 20460. Authority: 5 U.S.C. 552, 553.

Dated: January 21, 1975.

RUSSELL E. TRAIN,
Administrator.

It is therefore proposed to amend Part 2 of Title 40, Code of Federal Regulations, by revising § 2.111(a) to read as follows:

§ 2.111 Payment.

(a) *Charges.* Fees will be charged for copies of records which are furnished to a person under this part and for time spent in locating and reproducing them in accordance with the fee schedule below. No fee will be charged for periods of less than one-half hour spent in connection with a search for records or computer programming.

Record search time	$2.50 per half hour.
In-house computer programming time.	$4.50 per half hour.
Reproduction of documents.	$0.20 per page.

If the information requested exists as a computer record and a print-out or tape is a means by which that information may be made available, the fee will be the actual direct cost of the computer system time added to any applicable search, in-house programming, reproduction, or contract programming costs.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

[29 CFR Part 1601]

706 AGENCIES

Proposed Designation

Correction

In FR Doc. 75-1731 appearing on page 3220 of the issue for Monday, January 20, 1975, the reference in the fourth line to "page 3209" should read "page 3210M".

FOREIGN CLAIMS SETTLEMENT COMMISSION

[45 CFR Part 503]

SEARCH AND DUPLICATION OF AGENCY RECORDS

Fee Schedule

Revisions of the regulations of the Foreign Claims Settlement Commission concerning the availability of public information as currently contained under Part 503 of its regulations are being considered to conform with the 1974 amendments (Pub. L. 93-502) to the Freedom of Information Act (5 U.S.C. 552).

Notice is hereby given of the proposal to amend the fee schedule as currently set forth in § 503.14 of the Commission's regulations governing the disclosure of information under the Freedom of Information Act. In the consideration of the 1974 amendments to the subject Act contained under Public Law 93-502, which becomes effective February 19, 1975, it is proposed to amend § 503.14 as follows:

§ 503.14 Fees for services.

Unless otherwise waived by paragraphs (d) and (e) of this section, the following fees shall be imposed for the reproduction of any record disclosed pursuant to this part.

(a) Copying of records and documents. Twelve cents per copy for each page.

(b) Search fees. (i) clerical searches. $1.25 for each quarter hour spent by clerical personnel searching for and producing a requested record or document, including time spent copying any record. (ii) $3 for each one quarter hour spent by professional or supervisory personnel searching for and producing a requested record, including time spent copying any record.

(c) Certification and validation of records. $1 per certification or authentication.

(d) The Executive Director may reduce or waive payment of fees in whole or in part when he determines that such reduction or waiver is in the public interest because furnishing the information can be considered as primarily benefiting the general public, or unless the requester is a government agency or indigent.

(e) No fees will be charged (1) for time spent in examining the requested records for the purpose of determining whether an exemption can and should be asserted, (2) for time spent in deleting exempt matters being withheld from records to furnish, (3) for time spent in monitoring a requester's inspection of agency records made available to him in this manner, (4) for records not found or is determined to be totally exempt from disclosure, or (5) where the cost of providing the records is less than $5.

(f) Payment of fees under this part should be made by check or money order payable to the Treasury of the United States.

(g) Unless the request for services where fees are chargeable under this part, specifically states that whatever cost is involved will be acceptable, or acceptable up to a specified limit that covers anticipated costs, a request that is expected to involve assessed fees in excess of $50 will not be deemed to have been received until the requester is advised promptly at the time of receipt of the request of the anticipated cost and agrees to bear it. When the anticipated fees exceed $50, a deposit of $25 must be made within 5 days of advising the requester of such costs.

Written comments concerning the proposed revisions to the Commission's regulations under the Freedom of Information Act, as amended by Pub. L. 93-502, are invited from interested persons. Comments may be presented in writing to the Executive Director, Foreign Claims Settlement Commission, Washington, DC 20579. All comments received not later than February 18, 1975, will be considered. The revised fee schedule set forth in § 503.14 will become effective on February 19, 1975.

WAYLAND D. MCCLELLAN,
General Counsel.

[FR Doc.75-2234 Filed 1-23-75;8:45 am]

INTERSTATE COMMERCE COMMISSION

[Ex Parte No. MC-230 (Sub-No. 3)]

[49 CFR Part 1090]

MOTOR CARRIERS OF PROPERTY

Circuity Limitations

JANUARY 20, 1975.

Petitioners: Brown Transport Corp. and Harper Motor Lines, Inc. (Atlanta, Ga.). Petitioners' representative: Harry C. Ames, Jr., and Marshall Kragen, 805 McLachlen Bank Building, 666 Eleventh Street, NW., Washington, D.C. 20001.

Section 1090.5 (sometimes called the 85-percent circuity limitation provision) of the Commission's regulations entitled Practices of For-Hire Carriers of Property Participating in Trailer-on-Flatcar Service, 49 CFR Part 1090, provides as follows:

§ 1090.5 Circuity limitations. (a) Motor and water common carriers shall not participate in joint intermodel TOFC service which is to be provided in lieu of their authorized line-haul transportation, and motor and water common and contract carriers shall not utilize open tariff TOFC service, where the distance from origin to destination over the route including the TOFC movement is less than 85 percent of the distance between such points over the motor or water carrier's authorized service route: *Provided, however,* That the Interstate Commerce Commission may grant relief from the provisions of this paragraph upon consideration of an appropriate petition.

(b) For the purpose of paragraph (a) of this section the distance from origin to destination over the motor or water carrier's authorized route shall be computed (1) if a motor carrier operating over regular routes, over its authorized regular service route, (2) if a motor carrier operating over irregular or a combination of regular and irregular routes, through any gateway point which it is required to observe, and (3) if a water carrier, over the most direct available all-water route.

By joint petition filed December 31, 1974, Brown Transport Corp., and Harper Motor Lines, Inc., seek the institution of a rulemaking proceeding, proposing that the words "85 percent" in § 1090.5(a) of the above-noted trailer-on-flatcar (TOFC) service regulations be deleted, insofar as such words pertain to motor carriers, and the words "80 percent" be substituted in lieu thereof in this context.

Petitioners note that in Ex Parte No. 55 (Sub-No. 8), *Gateway Elimination,* 119 M.C.C. 530 (decided February 15, 1974), the Commission has recently adopted procedures (codified at 49 CFR 1065) pursuant to which a motor common carrier authorized to provide service from one point to another point by tacking or combining at a common point of service (a "gateway") separate irregular-route authorities (which authorities were issued to the carrier pursuant to an application proceeding, or proceedings, pending before the Commission on or before November 23, 1973), may (subject to certain other specified conditions), file for and obtain direct-service operating authority from the one point to the other point, thereby eliminating the necessity of operating through the "gateway", provided that the most direct highway distance between the points to be served is not less than 80 percent of the highway distance between such points over the carrier's authorized routing through the gateway. In this context petitioners contend that the asserted disparity in the amount of circuity reduction permitted in the elimination of such gateways and in the circuity reduction permitted motor carriers under the TOFC service regulations is not justified, and urge that appropriate corresponding modifications in the circuity limitation of the TOFC service regulations be made. Petitioners further assert that their proposed amendment would allow carriers to provide improved service, while the minor increase in the circuity reduction permitted under the TOFC service regulations would not allow carriers to provide totally new services which would obtain from the indiscriminate substitution of direct TOFC service for indirect all-motor service.

Moreover, in the environmental analysis submitted in conjunction with their joint petition, Brown and Harper submit that the Commission's granting of the requested relief will have a beneficial impact upon the environment. In this context petitioners assert that adoption of the recommended change in the TOFC service regulations will encourage the increased use of rail transportation, and that the attendant reduction in the number of highway miles traveled by motor carriers will result in a significant reduction in fuel consumption, an increase in efficiency and economy in the movement of freight, a decrease in the emission of air pollutants, a reduction in traffic congestion, and an improvement in highway safety. The only potentially adverse environmental impact which petitioners foresee is the increase in the number of carriers making use of TOFC service; however, petitioners believe that this potential impact is outweighed in overall effect by the asserted substantial benefits which would follow from adoption of the proposed amendment.

In its environmental analysis petitioners further state that there are three possible alternatives to its proposed action, viz: the Commission could (1) take no action, (2) permit reduction in operational circuity greater than that contemplated under petitioners' so-called "20 percent" circuity reduction proposal, (3) establish the proposed amendment for a limited period of time, or (4) continue to allow greater circuity reduction on a case-by-case procedure in accordance with the provision of § 1090.5(a). Petitioners, however, reject each of these alternatives as inappropriate. Thus, petitioners submit (1) that failure to act would mean foregoing the anticipated beneficial effects upon the environment outlined above, (2) that amendment of the considered provision of the TOFC service regulations to permit significantly greater circuity reduction than that which petitioners propose would lead to destructive competition and an inefficient utilization of equipment, (3) that temporary establishment of the proposed rule change would discourage carriers from making the commitments necessary to make full utilization of the new rule, and (4) that following a procedure of processing individual carrier's petitions seeking greater reduction in circuity on a case-by-case basis, as is already provided for under the present TOFC service rules, would, per se, discourage motor carriers from attempting to utilize TOFC service, and, furthermore, would not be consonant with the need for expedition in this matter. Petitioners further contend that the proposed change in the regulations, by enabling carriers to operate more efficiently, will also serve to improve long-term productivity by the conservation of limited fuel supplies. Including their environmental analysis, petitioners submit that there will be no irreversible and irretrievable commitments of resources as a result of the proposed action; and that, on the contrary, such action should result in a better and more efficient utilization of existing resources.

No oral hearing is contemplated at this time, but any person (including petitioners) interested in making representations in favor of, or against, the relief sought in the petition may do so by the submission of written data, views, or arguments. Likewise, any person desiring to comment upon the environmental issues raised by the petition is hereby invited to do so by the submission of written data, views, or arguments. An original and fifteen (15) copies of such data, views, or arguments shall be filed with the Commission on or before March 24, 1975.

A copy of each representation should be served upon petitioners' representatives. Written material or suggestions submitted will be available for public inspection at the Offices of the Interstate Commerce Commission, 12th and Constitution, Washington, D.C., during regular business hours. Notice to the general public of the matters herein under consideration will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection and by filing a copy thereof with the Director, Office of the Federal Register.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

EMPLOYMENT RELATED HOUSING (TEMPORARY LABOR CAMPS)

Additional Hearing Location

Pursuant to section 6(b)(3) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1594,

V40117 JAN 24 75 XUM

29 U.S.C. 655), Secretary of Labor's Order No. 12–71 (36 FR 8754) and 29 CFR Part 1911, the hearing scheduled for Employment Related Housing was published in the FEDERAL REGISTER on Tuesday, December 24, 1974, at 39 FR 44456, with notification of an additional hearing published on January 3, 1975, at 40 FR 797.

It has been determined that an additional hearing will be conducted in Fresno, California, on February 19, 1975. The hearing will begin at 9 a.m. local time in the Ballroom of the Hilton Inn, which is located at 1055 Van Ness Street, Fresno, California.

Interested persons may file a written notice of intention to appear, together with two copies thereof. This notice must be postmarked no later than February 7, 1975. Such requests should be addressed to Mrs. Jeanne Ferrone, Attn: Docket OSH–38, Occupational Safety and Health Administration, Room 200, 1726 M Street Northwest, Washington, D.C. 20210. Phone: (202) 961–2487/2248. The notice must state the name and address of the person wishing to appear, the capacity in which he will appear, and the approximate amount of time required for his presentation. The notice must also include or be accompanied by, a statement of the position to be taken in regard to the specific issues being raised, and the evidence to be adduced in support of this position. For persons wishing to appear at the hearings, but unable to attend, written statements postmarked no later than February 18, 1975, may be submitted to the above address. The written statements should be submitted in triplicate.

In all other respects, the notice of hearing published on December 24, 1974 (39 FR 44456) remains in effect.

Signed at Washington, D.C., this 23rd day of January 1975.

JOHN STENDER,
Assistant Secretary of Labor.

Bureau of Alcohol, Tobacco and Firearms

GRANTING OF RELIEF

Notice is hereby given that pursuant to 18 U.S.C., section 925(c), the following named persons have been granted relief from disabilities imposed by Federal laws with respect to the acquisition, transfer, receipt, shipment, or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding one year.

It has been established to my satisfaction that the circumstances regarding the convictions and each applicant's record and reputation are such that the applicants will not be likely to act in a manner dangerous to public safety, and that the granting of the relief will not be contrary to the public interest.

Brissa, Daniel Patrick, 946 N. St. Louis Avenue, Chicago, Illinois, convicted on July 6, 1966, in the Circuit Court, Cook County, Illinois.

Bryan, Jacob A., 2907 Page Drive, Baltimore, Maryland, convicted on March 23, 1954, in the Baltimore City Court, Baltimore, Maryland; and on February 23, 1957, in the Anne Arundel County Circuit Court, Maryland.

Burrows, Michael Raymond, 5238 South "K", Tacoma, Washington, convicted on December 7, 1965, in the Superior Court of the State of Washington, in and for Pierce County.

Butters, Robert J., McNeil Road, Fryeburg, Maine, convicted on October 4, 1965, in the Oxford County Superior Court, Maine.

Chapman, Roland C., P.O. Box 830, Forks, Washington, convicted on October 19, 1970, in the United States District Court, Tacoma, Washington.

Chesser, Choice L., 10403 Vern Street, Gibsonton, Florida, convicted on June 25, 1957, in the Circuit Court De Kalb County, Alabama.

Crenshaw, George E., 701 Rutherford Avenue, N.W., Roanoke, Virginia, convicted on July 29, 1971, in the Hustings Court of the City of Roanoke, Virginia.

Eaton, James Hoyle, Route #3, Booneville, Mississippi, convicted on June 19, 1959, and on May 2, 1967, in the United States District Court, Northern District of Mississippi.

Fillion, Ralph Rodger, 8805 37th S.W., Seattle, Washington, convicted on July 14, 1970, in the Superior Court of the State of Washington for the County of King.

Fortune, James Wellington, Route 1, Box 40–A, Milford, Virginia, convicted on July 7, 1971, in the Circuit Court of the City of Fredericksburg, Virginia.

Galeotti, Daniel Louis, Box 377, Main Street, Austin, Pennsylvania, convicted on December 10, 1958, in the Potter County Criminal Court, Courdersport, Pennsylvania; and on May 14, 1973, in the Cameron County Criminal Court, Emporium, Pennsylvania.

Gilcott, Wardell A., Route #201, Gardiner, Maine, convicted on September 4, 1948, in the Somerset County Superior Court, Maine; and on November 4, 1959, in the Kennebec County Superior Court, Maine.

Griffin, George L., 4702 18 Avenue, Phenix City, Alabama, convicted on December 2, 1933, in the United States District Court for the Middle District of Alabama.

Jarzemkoski, John Joseph, Sr., 3664 Liermann Avenue, St. Louis, Missouri, convicted on April 14, 1970, in the United States District Court, East St. Louis, Illinois.

Lawrence, James C., 16313 Sandy Ford Road, Chesterfield, Virginia, convicted on March 16, 1970, in the United States District Court for the Eastern District of Virginia.

Lee, Delbert Gene, P.O. Box 507, Amity, Oregon, convicted on April 19, 1967, in the Lane County Circuit Court, Oregon.

May, Karl E., 376 Oak Street, Menasha, Wisconsin, convicted on August 11, 1971, in the Circuit Court, Outagamie County, Wisconsin.

Nystrom, Ellen, 923 Oak Street, Negaunee, Michigan, convicted on June 14, 1971, in the State of Wisconsin Circuit Court, Marinette County, Wisconsin.

Orawiec, Stanley V., Jr., 1714 Pingree Avenue, Ogden, Utah, convicted on July 6, 1971, in the District Court, 2d Judicial District, Weber County, Utah.

Pate, Kenneth Lee, 11 N.E. 81st Street, Kansas City, Missouri, convicted on April 28, 1967, in the County Court, Wyandotte County, Kansas.

Philpot, Chester R., Straight Creek, Kentucky, convicted on June 29, 1973, in the United States District Court, District of Columbia.

Pisegna, Dennis J., 1019 Washington Street, Farrell, Pennsylvania, convicted on June 14, 1973, in the Court of Common Pleas of Mercer County, Pennsylvania.

Scott, Stephen Michael, 3700 28th Street, Lot N. 160, Sioux City, Iowa, convicted on March 7, 1973, in the District Court, Woodbury County, Iowa.

Smith, Jack E., Rural Route #2, Menomonie, Wisconsin, convicted on November 3, 1972, in the State of Wisconsin, County Court, Dunn County.

Soltes, Leonard, 520 N. Mathilda Street, Pittsburgh, Pennsylvania, convicted on November 30, 1951, in the Court of Quarter Sessions of Washington County, Pennsylvania; on or about July 17, 1952, in the Court of Quarter Sessions of Centre County, Pennsylvania; and on November 25, 1959, in the Court of Quarter Sessions of Allegheny County, Pennsylvania.

Sundall, Brant M., 602 St. James Street, Rapid City, South Dakota, convicted on November 14, 1959, in the Circuit Court, Pennington County, South Dakota.

Ticknor, Larry Lowell, 1307 Holly Drive, Sioux Falls, South Dakota, convicted on July 20, 1973, in the United States District Court, District of South Dakota.

Tinklenberg, Harris J., 701 11th Street, Windom, Minnesota, convicted on July 4, 1959, in the Municipal Court, Long Beach, California.

Wakeland, Milo W., 111 Riverside Drive, Truth or Consequences, New Mexico, convicted on January 21, 1949, in the United States District Court for the Southern District of Texas.

Wever, Ewing Gene, 6604 18th Street, Rio Linda, California, convicted on February 14, 1962, in the Superior Court of the State of California in and for the County of Sacramento.

Signed at Washington, D.C. this 9th day of January 1975.

REX D. DAVIS,
Director, Bureau of Alcohol, Tobacco and Firearms.

V 40 17 JAN 24 75 XUM

Office of the Secretary

RECHARGEABLE SEALED NICKEL-CADMIUM BATTERIES FROM JAPAN

Antidumping Proceeding Notice

On December 24, 1974, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), indicating a possibility that rechargeable sealed nickel-cadmium batteries from Japan are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

There is evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the U.S. Customs Service is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information received from all sources is as follows: The information received tends to indicate that the prices of the merchandise sold for exportation to the United States are less than the prices for home consumption.

This notice is published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[INT FES 75-7]

EHV TRANSMISSION LINE CORRIDOR (TG&E), ARIZ.

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Bureau of Land Management, Department of the Interior, has prepared a final environmental statement for the construction of two EHV Transmission Lines from Westwing Substation near Phoenix, to the Vail Substation near Tucson, Arizona. Tucson Gas & Electric Company proposes to construct the lines through portions of Maricopa, Pinal, and Pima Counties. The lines proposed are an extension of the power transmission system for power being generated at the coal fired Navajo Plant in northern Arizona.

The final statement considers the impact of powerline construction, operation, and maintenance.

Copies are available for inspection at the following locations during regular office hours:

Phoenix District Office, Bureau of Land Management, 2929 West Clarendon Avenue, Phoenix, Arizona. Telephone (602) 261-4231.

Arizona State Office, Bureau of Land Management, Room 3204 Federal Building, 230 N. 1st Avenue, Phoenix, Arizona. Telephone (602) 261-3706.

Office of Public Affairs, Bureau of Land Management, Room 5625, Interior Building, Washington, D.C. Telephone (202) 343-5717.

A limited number of single copies may be obtained by writing the Arizona State Director, Bureau of Land Management, 3022 Federal Building, Phoenix, Arizona 85025.

Dated: January 20, 1975.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

Fish and Wildlife Service

LINCOLN PARK ZOOLOGICAL GARDENS

Endangered Species Permit; Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (P.L. 93-205).

Applicant:
Lincoln Park Zoological Gardens
100 W. Webster Avenue
Chicago, Illinois 60614
Mr. Saul L. Kitchener
Assistant Director

LINCOLN PARK ZOOLOGICAL GARDENS

DIRECTOR,
Bureau of Sport Fisheries & Wildlife, United States Department of Interior, Washington, DC 20240

DECEMBER 6, 1974.

DEAR SIR: The Lincoln Park Zoological Gardens, 100 West Webster, Chicago, Illinois 60614, hereby applies for a permit to place a pair of Snow Leopards (*Panthera uncia*) born Lincoln Park Zoo May 29, 1974 on breeding loan with Howletts Zoo Park, Bekesbourne, England. Mr. John Aspinall, 1 Lyall Street, London SWIX 8DW, England (Phone: 01-235-5108) is the owner of Howletts.

At the present time Lincoln Park Zoo owns eleven (11) Snow Leopards and we frankly do not have the facilities to keep all of them. Besides this lack of adequate space it is a good idea for conservation of this species to disperse surplus animals to institutions that have already proved their ability to breed and maintain either this species or related ones. At this writing the pair of Snow Leopards under discussion are living in a small holding area off display. This area is minimal at present and obviously becomes more of a problem as the animals grow. It is imperative, therefore, that a decision be made on this application immediately.

At Lincoln Park Zoo we have always believed in cooperating with our sister institutions for the benefit of our animal charges. Towards this end we regularly send and receive many animals on breeding loans. We sent a female Snow Leopard to the Seattle Zoo on breeding loan as a potential mate for one of their males in June, 1974 and exchanged a female Snow Leopard for a male with Cincinnati Zoo. In early 1973 we exchanged Snow Leopards with Helsinki, Finland; we sent a Zoo-born female there, in return they sent one of their Zoo-born males here under Endangered Species Permit No. ES-324. I am happy to say that this male was the sire of the pair of animals under discussion in this application. It should be mentioned that this pair is therefore a full second generation birth.

Mr. John Aspinall became known to us in early 1973 from a notice in the *International Zoo News* stating his need for a breeding age male Gorilla. At that time he had eleven (11) Gorillas, but his male was not able to impregnate any of his females. An extensive correspondence ensued and one of the Chicago Park District Commissioners even inspected the facilities at Howletts and spent some time with Aspinall himself. He came away thoroughly satisfied that our animal would receive the optimum of care. (Commissioner Franklin Schmick was extremely concerned about Gorillas and in fact donated five (5) of our present Gorilla group. He had been to Cameroon, West Africa to visit a Gorilla capture camp and personally pick out a Gorilla he wished to donate and, as might be expected, was not an easy man to please.)

We also contacted a number of Zoos in England regarding Mr. Aspinall and they reinforced the Commissioner's thoughts and what we ourselves had begun to feel, that Aspinall would do very well indeed by the animal. Taking all of this into consideration we decided to send the male Gorilla.

The arrangements were handled with great dispatch by Aspinall and his staff. As a direct consequence of this loan Mr. Aspinall visited the United States with a film of his Howletts facility. He showed this film to our Zoological Society, among others, and appeared on national television with it as well. Our consulting veterinarian, Dr. Erich Maschgan, and Head Primate Keeper, James Higgins, accompanied the Gorilla to England, at Mr. Aspinall's expense, and both were impressed with him and his entire operation. Howletts Zoo Park is owned entirely by Mr. Aspinall and the public is allowed to visit only a few days of the year. There seems to be no doubt that Aspinall is entirely devoted to his animals and the conservation movement as a whole. From everything we know about him we believe he spares no expense or trouble to further the comfort and breeding potential of his animals.

By his own admission, Aspinall has always had a special feeling for Snow Leopards. When he visited here earlier this year he was extremely pleased with the possibility we would even consider loaning a pair to him. After the successful Gorilla transaction, we decided he would do everything in his power to breed Snow Leopards.

The Snow Leopards will remain the property of Chicago Park District/Lincoln Park Zoo and the offspring will be equally divided between the two parties to the agreement. Please find appended a copy of the signed breeding loan agreement for the Gorilla loan. The Snow Leopard agreement will be exactly the same.

Mr. Aspinall owns and is developing two other animal facilities at the present time, Chilham Rare Animal Compound and Port Lympne Estate. The latter will be open to the public. In 1974 he purchased and is now the owner/publisher of the *International Zoo News* the only international Zoo bulletin. Please find enclosed a copy of letters dated 18 November 1974 written by Mr. Aspinall and his secretary. It would seem salient here to point out that the Cats have done very well at Howletts. Bengal Tigers have bred well and they were the first to breed the Siberian sub-species in England. The most impressive breeding, however, is that of Clouded Leopards which has traditionally been a very

difficult species to breed and maintain in captivity. At present they have nine (9) living offspring along with the breeders who were the first to breed in England. *International Zoo Yearbook* Vol. 14 lists only Dublin, Ireland and Oklahoma City along with Howletts as having bred Clouded Leopards in 1972. More significantly, Howletts' were the only ones to survive.

After viewing Mr. Aspinall's film of his facilities and from personal discussions with him we all feel sure the Snow Leopards will be housed more than adequately. They will be maintained in a large outdoor cage similar to his successful Clouded Leopard areas. I have personally seen these areas in his film and although I cannot state exact dimensions they are bigger than any area I have seen in any Zoo keeping Clouded Leopards. There will be indoor dens although they will probably only be needed for cubbing since the weather there is not as severe as Chicago winters or summers and we house ours outside all year with only a wooden box for shelter.

In June, 1968 the IUCN listed the Snow Leopard as endangered stating that a rough working estimate for their numbers in the wild would be 400, give or take 200. In an updating of Snow Leopard information and status in 1972 the Snow Leopard is still redsheeted in the IUCN data book. In this 1972 update no figures are given as to total numbers, but throughout its entire range the animal is severely threatened and under severe hunting pressure in most areas. Skins are still being offered for sale in various areas and it is interesting to note that Naumann & Nogge (1973) saw skins for sale at the Bazaar in Kabul, Afghanistan. Animals are still being exported from Russia as well. In a letter dated August 13, 1974 to the then Snow Leopard studbook keeper, Mr. Marvin Jones, the German animal dealer, Claus Gollembek, reported that he delivered a pair of Snow Leopards to the Hannover Zoo, West Germany in January, 1974 and a single female to the Zurich Zoo, Switzerland in April, 1974.

These three animals were legally obtained by this dealer from the Russian government. In all probability they were wild caught animals. While the situation in the wild continues to be grim, the situation in captivity continues to brighten. At one time only 6% of Snow Leopards living in captivity were born there, but as of 1972 a full 35% were captive born. An increase of 29% in 10 years. Equally important, if not more so, are the second generation births at, at least, the Lincoln Park, Oklahoma City, Bronx, and Helsinki, Finland zoos.

Lincoln Park Zoo has had a total of 32 Snow Leopards born between 1960 and 1974 and because of this great number has had more experience with Snow Leopards than any other Zoo with the possible exception of Helsinki, Finland. All of our expertise will be made available to Mr. Aspinall and his staff. Please find appended to this application a copy of a paper accepted for publication in *International Zoo Yearbook* Vol. 15. which summarizes our knowledge and experience of Snow Leopards. Mr. Aspinall also plans another trip to the United States in 1975 and we will consult with him at that time, as well.

The continuation of proper management of cantive Snow Leopard stock is imperative and the dispersal, on loan, of this pair of Snow Leopards to Howletts is consistent with our philosophy and management policies at Lincoln Park Zoo. After a great deal of consideration we feel that Mr. Aspinall will make every effort to propagate and maintain these animals. He already has demonstrated his ability with other species of *Felidae* and cooperates with other institutions as can be seen by items iv-v on page 2 of his appended animal inventory. The Siberian Tigers are registered in the studbook and there is no reason to believe he would not do so with the Snow Leopards. It should also be pointed out that since Lincoln Park Zoo now keeps the Snow Leopard studbook we would be in an excellent position to keep track of these animals.

I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and other applicable parts in Subchapter B of Chapter I of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

Sincerely yours,

SAUL L. KITCHENER,
Assistant Director.

1 LYALL STREET LONDON SWIX 8DW

Mr. SAUL L. KITCHENER,
Assistant Director,
Lincoln Park Zoological Gardens,
100 West Webster, Chicago, Illinois 60614

NOVEMBER 18, 1974.

DEAR MR. KITCHENER: That you for your letter of 8th November and for all the documentation you kindly enclosed which I certainly hope will satisfy the authorities over here, with regard to the import of 1/1 Snow Leopard.

I hope that the letter Mr. Aspinall has written to you, which is enclosed, will suffice. The only information I can add to what he has already said, is that Howletts was the first zoo in Great Britain to breed Clouded Leopards, the first zoo to breed Siberian Tigers in this country (all of which are studbook registered in Leipzig), and the first zoo to successfully breed the Honey Badger, in the world.

Yours sincerely,

Miss SUSAN HUNT,
Secretary to Mr. John Aspinall.

1 LYALL STREET, LONDON SWIX 8DW, ENGLAND

Mr. SAUL L. KITCHENER,
Assistant Director,
Lincoln Park Zoological Gardens,
100 West Webster,
Chicago, Illinois 60614.

NOVEMBER 18, 1974.

DEAR SAUL: Please use the following information in the light of a testimonial with reference to our ability to look after 1/1 Snow Leopard which Lincoln Park has offered on loan to Howletts Zoo Park:

From an input of 8 Indian Tigers we have bred 37: the colony at the moment stands at 27 (12 of these we have bred this year). From 4 different females, our Siberian Tiger colony has had an input of 7 and now stands at 15, (4 having been bred this year). The Clouded Leopard colony has had an input of 2 and now stands at 11 (0/2 being bred this year, 0/1 of which is designated to yourselves and will be sent over at your request), these 2 females are now over 6 months old. We also have a breeding pair of Black Leopards. Our other cats are, as yet, too young to breed and consist of 1/1 Spotted Leopard, 1/1 Serval Cat and 1/1 Northern Lynx. The only adult group we have not yet bred successfully are the Cheetahs, but we are now arranging three different enclosures for them so we can separate the females from the males on the pattern of Victor Manton who has bred them successfully in this country, at Whipsnade.

Enclosed is an up to date stock list which gives an indication of the animals we breed successfully at Howletts.

Yours sincerely,

JOHN ASPINALL.

LINCOLN PARK ZOOLOGICAL GARDENS

BREEDING LOAN AGREEMENT BETWEEN CHICAGO PARK DISTRICT AND MR. JOHN ASPINALL/HOWLETT'S ZOO PARK

OCTOBER 17, 1973.

The above parties to this agreement agree to the following concerning the loan of an adult male Lowland Gorilla (*Gorilla g. gorilla*) named Kisoro, age 13 years.

The Chicago Park District will loan Kisoro to Mr. Aspinall for the sole purpose of captive animal propagation at Howlett's Zoo Park. Mr. Aspinall agrees to provide all the necessary housing, food and veterinary care to the best of his ability.

While it is not practical to set a proper monetary value on an adult male breeding gorilla, we request that Mr. Aspinall insure Kisoro for $10,000 U.S. Mr. Aspinall will furnish Chicago Park District proof of insurance coverage of $10,000 U.S. before Kisoro is shipped to England. The insurance will cover the period of transit, as well as the duration of Kisoro's stay in England. Mr. Aspinall also agrees that he will assume all liability should any person be injured or property damaged by Kisoro while the animal is under his care. The Chicago Park District will, therefore, be free of any liability for Kisoro's actions under this loan agreement.

The cost of crating and shipping Kisoro to England will be borne by Mr. Aspinall. He will also be responsible for the cost of returning Kisoro to Chicago when and if this becomes necessary.

Due to the value of this animal adequate personnel should accompany the shipment of Kisoro to England, as well as his return to the United States, cost to be borne by Mr. Aspinall.

If any young are born between the Chicago Park District male and Aspinall's females, the offspring will be equally divided between the Chicago Park District and Mr. Aspinall, with the Chicago Park District receiving the first offspring. An attempt will be made by both parties to have each party to the agreement receive an equitable division of sexes of the young.

There will be a continued evaluation of this agreement by both parties especially related to the amount of time Kisoro will spend in England.

If for any reason this animal is offered for sale during its stay in England, Mr. Aspinall will have the first option to buy.

The agreement can be terminated by either party upon service to the other, with a minimum notice of ninety (90) days.

LESTER E. FISHER, D.V.M.,
Chicago Park District, Zoological Gardens Director, Lincoln Park Zoo.

JOHN ASPINALL,
(Owner),
Howlett's Zoo Park.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the

National Park Service

NATIONAL CAPITAL PARKS

Authorization of Additional Interpretive Visitor Transportation Services

Pub. L. 93-62 (Act of July 6, 1973, 87 Stat. 146), directed the Secretary of the Interior to provide interpretive visitor transportation services between or in Federal areas within the District of Columbia and its environs upon the determination that such services are desirable to facilitate visitation and to insure proper management and protection of these areas.

Pursuant to this authority, it has been determined that providing interpretive visitor transportation service between the Mall and on the grounds of the Robert F. Kennedy Memorial Stadium is desirable to facilitate visitation and to insure proper management and protection of such areas. Therefore, notice is hereby given that, pursuant to the direction of Public Law 93-62 and the authority of the Act of July 25, 1916, as amended and supplemented (16 U.S.C. 1, et seq.), interpretive visitor transportation services are to be provided between the Mall and the grounds of the Robert P. Kennedy Memorial Stadium.

MANUS J. FISH, JR.,
Director, National Capital Parks.

Office of Hearings and Appeals

[Docket No. M 75-81]

OLD BEN COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 816(c) (1970), Old Ben Coal Company has filed a petition to modify the application of 30 CFR 75.1405 to its Dixiana Mine, Norton, Virginia.

30 CFR 75.1405 provides:

All haulage equipment acquired by an operator of a coal mine on or after March 30, 1971, shall be equipped with automatic couplers which couple by impact and uncouple without the necessity of persons going between the ends of such equipment. All haulage equipment without automatic couplers in use in a mine on March 30, 1970, shall also be so equipped within 4 years after March 30, 1970.

In support of its petition, Petitioner states:

(1) All cars in use at the subject mine will be coupled together in units by pin-and-link couplers. A ¼ inch hole will be drilled in each pin which will be fixed in position with a cotter key of appropriate size.

(2) The front end of the first car and the locomotive will be fitted with an Ohio Brass automatic coupler so designed as to permit an employee to couple or uncouple the units without the necessity of positioning himself between the unit and the locomotive.

(3) It is presently planned that most, if not all mine car units will consist of ten cars per unit. However, in the event it becomes more practical to combine cars into units of more or less than ten cars, each unit will conform to the specifications of pin-and-link couplers on all cars and automatic coupler on the front end of the car connected to the locomotive.

(4) Petitioner's alternate method will provide greater safety than the application of the mandatory safety standard because it will prevent the accidental uncoupling of cars which often occurs on undulating track.

The petition is supported by a schematic diagram detailing the specifications for the fixation of the pins in the pin-and-link couplers.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before February 24, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: January 16, 1975.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

Office of the Secretary

OIL SHALE ENVIRONMENTAL ADVISORY PANEL

Notice of Meeting

Notice is hereby given in accordance with Pub. L. 92-463 that a meeting of the Oil Shale Environmental Advisory Panel will be held on February 13 and 14, 1975, at the Ramada Inn, 999 South Main Street, Salt Lake City, Utah. The meeting will begin at 10 a.m. on Thursday, February 13, in the Alta Room No. 1 and conclude at 12 noon on Friday, February 14.

The Panel was established to assist the Department of the Interior in the performance of functions in connection with the supervision of oil shale leases issued under the Prototype Oil Shale Leasing Program. The purpose of the meeting is to review a proposal to stimulate insitu oil shale development; review the first quarterly environmental data reports for the Colorado Lease Tract C-b and for the two Utah lease tracts; review a proposed fish and wildlife management plan for the Utah lease tracts; to receive reports from departmental officials; have a technical briefing on the Uintah Basin tar sands; and to discuss other oil shale related matters.

The meeting is open to the public. It is expected that space will permit approximately 100 persons to attend the meeting in addition to the Panel. Interested persons may make brief presentations to the Panel or file written statements. Requests should be made to Mr. William L. Rogers, Chairman, Office of the Secretary, Department of the Interior, Room 688, Building 67, Denver Federal Center, Denver, Colorado 80225.

Further information concerning this meeting may be obtained from Mr. Henry O. Ash, Office of the Oil Shale Environmental Advisory Panel, Room 820-A, Building 67, Denver Federal Center, Denver, Colorado 80225, telephone (303) 234-3275. Minutes of the meeting will be available for public inspection 30 days after the meeting at the Panel Office.

Dated: January 20, 1975.

JACK HORTON,
Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Rural Electrification Administration

DAIRYLAND POWER COOPERATIVE, WIS.

Supplemental Draft Environmental Impact Statement

Notice is hereby given that the Rural Electrification Administration intends to prepare a supplemental draft environmental impact statement specifically detailing certain items not adequately discussed or which have been changed from the draft environmental impact statement which was made available to the Council on Environmental Quality and the public on July 2, 1974. The original draft environmental impact statement was prepared in connection with a proposed loan guarantee for Dairyland Power Cooperative, 2615 East Avenue, South, LaCrosse, Wisconsin 54601, to provide for new generation facilities and related transmission facilities to be located near Alma, Wisconsin.

The proposed supplemental draft environmental impact statement will detail a proposed 46 mile-161 kV transmission line addition from Alma, Wisconsin to Spring Valley, Wisconsin. The supplement will also detail the alternative of barge delivery of coal to the proposed plant site, the alternative of cooling towers discussed in more detail and the acquisition of certain land for a proposed ash pond and railroad loop coal delivery system. The land under question is presently owned by the Federal Government and is within the boundaries of the Upper Mississippi River National Wildlife and Fish Refuge.

Interested persons are invited to submit comments which may be helpful in preparing the supplemental Draft Environmental Impact Statement.

Comments should be forwarded to the Assistant Administrator—Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, with a copy to the borrower whose address was given above.

Additional information may be obtained at the borrower's office during regular business hours.

Dated at Washington, D.C. this 17th day of January 1975.

DAVID H. ASKEGAARD,
Acting Administrator.

Soil Conservation Service

TYGARTS VALLEY SOIL CONSERVATION DISTRICT, W. VA.

Equipment Grant Eligibility Determination

Notice is hereby given, in accordance with 7 CFR 662.2(c), of a determination that the Tygarts Valley SCD, Philippi, West Virginia 26416, is eligible for a grant of the following items of equipment (or materials) to carry out soil and water conservation work: One—1½-ton supply truck.

The grant is subject to the availability of the equipment from Federal excess property sources, and may be made on or before February 24, 1975.

JAMES S. BENNETT,
State Conservationist, Morgantown, West Virginia 26505.

[FR Doc.75-2201 Filed 1-23-75;8:45 am]

UPPER MEDICINE CREEK WATERSHED, NEBR.

Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8 (b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Upper Medicine Creek Watershed, Hayes, Lincoln, and Frontier Counties, Nebraska.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Wilson J. Parker, State Conservationist, Soil Conservation Service, USDA, 134 South 12th Street, Lincoln, Nebraska 68508, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement include conservation land treatment supplemented by four single purpose floodwater retarding structures.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA
134 South 12th Street, Room 604
Lincoln, Nebraska 68508

Requests for the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken until after February 10, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: January 17, 1975.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ADVISORY COMMITTEES

Meetings

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Public Law 92-463, 86 Stat. 770-776; 5 U.S.C. App. I), the Food and Drug Administration announces the following public advisory committee meetings and other required information in accordance with provisions set forth in section 10(a)(1) and (2) of the act:

Committee name	Date, time, place	Type of meeting and contact person
1. Panel on Review of Miscellaneous—External Drug Products.	February 23 and 24, 9 a.m., Conference room 1, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Closed February 23, open February 24, 9 a.m. to 10 a.m., closed February 24 after 10 a.m., Armond M. Welch, (HFD-100), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose. Reviews and evaluates available data on the safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing miscellaneous external drug products.

Agenda. Open session: Comments and presentations by interested persons. Closed session: Review of over-the-counter miscellaneous external drug products under investigation.

Committee name	Date, time, place	Type of meeting and contact person
2. Panel on Review of Miscellaneous Internal Drug Products.	February 23 and 24, 9 a.m., Conference Room C, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Closed February 23, open February 24, 9 a.m. to 10 a.m., closed February 24 after 10 a.m., Thomas D. DeCillis, (HFD-100), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose. Reviews and evaluates available data on the safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing miscellaneous internal drug products.

Agenda. Open session: Comments and presentations by interested persons. Closed session: Review of over-the-counter miscellaneous internal drug products under investigation.

Agenda items are subject to change as priorities dictate.

During the open sessions shown above, interested persons may present relevant information or views orally to any committee for its consideration. Information or views submitted to any committee in writing before or during a meeting shall also be considered by the committee.

A list of committee members and summary minutes of meetings may be obtained from the contact person for the committee both for meetings open to the public and those meetings closed to the public in accordance with section 10(d) of the Federal Advisory Committee Act.

Most Food and Drug Administration advisory committees are created to advise the Commissioner of Food and Drugs on pending regulatory matters. Recommendations made by the committees on these matters are intended to result in action under the Federal Food, Drug, and Cosmetic Act, and these committees thus necessarily participate with the Commissioner in exercising his law enforcement responsibilities.

The Freedom of Information Act recognized that the premature disclosure of regulatory plans, or indeed internal discussions of alternative regulatory approaches to a specific problem, could have adverse effects upon both public and private interests. Congress recognized that such plans, even when finalized, may not be made fully available in advance of the effective date without damage to such interests, and therefore provided for this type of dis-

V40 I17 JAN 24 75 XUM

cussion to remain confidential. Thus, law enforcement activities have long been recognized as a legitimate subject for confidential consideration.

These committees often must consider trade secrets and other confidential information submitted by particular manufacturers which the Food and Drug Administration by law may not disclose, and which Congress has included within the exemptions from the Freedom of Information Act. Such information includes safety and effectiveness information, product formulation, and manufacturing methods and procedures, all of which are of substantial competitive importance.

In addition, to operate most effectively, the evaluation of specific drug or device products requires that members of committees considering such regulatory matters be free to engage in full and frank discussion. Members of committees have frequently agreed to serve and to provide their most candid advice on the understanding that the discussion would be private in nature. Many experts would be unwilling to engage in candid public discussion advocating regulatory action against a specific product. If the committees were not to engage in the deliberative portions of their work on a confidential basis, the consequent loss of frank and full discussion among committee members would severely hamper the value of these committees.

The Food and Drug Administration is relying heavily on the use of outside experts to assist in regulatory decisions. The Agency's regulatory actions uniquely affect the health and safety of every citizen, and it is imperative that the best advice be made available to it on a continuing basis in order that it may most effectively carry out its misson.

A determination to close part of an advisory committee meeting does not mean that the public should not have ready access to these advisory committees considering regulatory issues. A determination to close the meeting is subject to the following conditions: First, any interested person may submit written data or information to any committee, for its consideration. This information will be accepted and will be considered by the committee. Second, a portion of every committee meeting will be open to the public, so that interested persons may present any relevant information or views orally to the committee. The period for open discussion will be designated in any announcement of a committee meeting. Third, only the deliberative portion of a committee meeting, and the portion dealing with trade secret and confidential information, will be closed to the public. The portion of any meeting during which nonconfidential information is made available to the committee will be open for public participation. Fourth, after the committee makes its recommendations and the Commissioner either accepts or rejects them, the public and the individuals affected by the regulatory decision involved will have an opportunity to express their views on the decision. If the decision results in promulgation of a regulation, for example, the proposed regulation will be published for public comment. Closing a committee meeting for deliberations on regulatory matters will therefore in no way preclude public access to the committee itself or full public comment with respect to the decisions made based upon the committee's recommendation.

The Commissioner has been delegated the authority under section 10(d) of the Federal Advisory Committee Act to issue a determination in writing, containing the reasons therefor, that any advisory committee meeting is concerned with matters listed in 5 U.S.C. 552(b), which contains the exemptions from the public disclosure requirements of the Freedom of Information Act. Pursuant to this authority, the Commissioner hereby determines, for the reasons set out above, that the portions of the advisory committee meetings designated in this notice as closed to the public involve discussion of existing documents falling within one of the exemptions set forth in 5 U.S.C. 552(b), or matters that, if in writing, would fall within 5 U.S.C. 552(b), and that it is essential to close such portions of such meetings to protect the free exchange of internal views and to avoid undue interference with Agency and committee operations. This determination shall apply only to the designated portions of such meetings which relate to trade secrets and confidential information or to committee deliberations.

Dated: January 17, 1975.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FAP 5B3066]

E. I. DUPONT DE NEMOURS & CO.

Filing of Petition for Food Additive

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (FAP 5B3066) has been filed by the E. I. DuPont de Nemours & Co., Wilmington, DE 19898, proposing that § 121.2502 *Nylon resins* be amended to provide for the safe use of nylon 612 resins made by the condensation of hexamethylenediamine and dodecanedioic acid as a component of food contact articles intended for repeated use.

The environmental impact analysis report and other relevant material have been reviewed, and it has been determined that the proposed use of the additive will not have a significant environmental impact. Copies of the environmental impact analysis report may be seen in the office of the Assistant Commissioner for Public Affairs, Rm. 15B-42 or the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, during working hours, Monday through Friday.

Dated: January 13, 1975.

HOWARD R. ROBERTS,
Acting Director,
Bureau of Foods.

RADIATION EMISSION FROM AND HUMAN EXPOSURE TO ELECTRONIC PRODUCTS

Memorandum of Understanding Between the United States of America and Canada

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697) that future agreements or memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

A Memorandum of Understanding between the Food and Drug Administration and the Health Protection Branch of the Canada Department of National Health and Welfare was executed on December 16, 1974. The memorandum pertains to exchange of information on compliance program efforts that are of mutual concern to both agencies and is restricted to activties that involve controlling radiation emission and human exposure from electronic products. It reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE FOOD AND DRUG ADMINISTRATION DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, U.S.A. AND THE HEALTH PROTECTION BRANCH DEPARTMENT OF NATIONAL HEALTH AND WELFARE, CANADA

The Health Protection Branch of the Canada Department of National Health and Welfare (hereinafter referred to as HPB) and the Food and Drug Administration of the U.S. Department of Health, Education, and Welfare (hereinafter referred to as FDA) do hereby jointly agree to the following terms and conditions as stated herein.

I. *Purpose:* To establish a formal mechanism by which the Canadian Health Protection Branch and the U.S. Food and Drug Administration may develop a procedure to exchange information on compliance program efforts which are of mutual concern to both agencies. This understanding is restricted to those activities which involve controlling radiation emission and human exposure from electronic products.

II. *Items of Agreement.* A. FDA agrees that:

1. Prior to the issuance of standards by FDA under the Radiation Control for Health and Safety Act to control the emissions of radiation from electronic products, HPB will be consulted during the development stage of the standards, for advice on the latest available scientific and medical data in the field of electronic product radiation, the reasonableness and technical feasibility of such standards, and the standards currently in existence or being developed by HPB dealing with the same subject.

2. Copies of all regulations, standards, policy statements, and other similar documents pertaining to electronic product radiation will be provided to HPB.

3. Upon request from HPB, FDA will promptly furnish copies of decisions arising from inspections of manufacturers of electronic products prepared by FDA personnel.

4. Joint inspections of electronic product manufacturing plants may be conducted in the United States and Canada, provided the manufacturers so consent. This will afford opportunities for comparing inspection and reporting techniques, for exchanging inspection experiences, for developing common administrative practices, and for early mutual recognition of the inspectional findings of our respective inspectors and investigators.

5. FDA shall endeavor to provide prompt notification to HPB with respect to electronic product defects and noncompliance with FDA performance standards. This will include the name of the firm, the model number and other identification, the reason for the compliance action and a description of the manufacturer's corrective action program.

6. At appropriate intervals, and by mutual agreement, FDA will endeavor to arrange for meetings between its inspectors, technical experts, and management, and those of HPB for the purpose of reviewing the progress made through implementation of this information exchange.

7. Information shall be provided to the extent that United States law permits. Information furnished to FDA by HPB will be treated as confidential for intergency use only insofar as United States law permits. The provision of information shall not extend to the disclosures of financial data or trade secrets.

B. HPB agrees that:

1. Prior to the establishment of standards or regulations under the Radiation Emitting Devices Act or the Food and Drugs Act relative to radiation emitting devices, FDA will be consulted during the development stage for advice on the latest available scientific and medical data in the field of radiation emitting devices, and reasonableness and technical feasibility of such standards, and the standards currently in existence or being developed by FDA dealing with the same subject.

2. Copies of all regulations, standards, policy statements, and other similar documents pertaining to radiation emitting devices will be provided to FDA.

3. Upon request from FDA, HPB will promptly furnish copies of decisions arising from inspections of manufacturers of radiation emitting devices prepared by HPB personnel.

4. Joint inspections of radiation emitting devices' manufacturing plants may be conducted in the United States and in Canada, provided the manufacturers so consent. This will afford opportunities for comparing inspection and reporting techniques, for exchanging inspection experiences, for developing common administrative practices, and for early mutual recognition of the inspectional findins of our respective inspectors and investigators.

5. HPB shall endeavor to provide prompt notification to FDA with respect to radiation emitting device defects or noncompliance with Canadian performance standards.

6. At appropriate intervals, and by mutual agreement, HPB will endeavor to arrange for meetings between its inspectors, technical experts, and management, and those of FDA for the purpose of reviewing the progress made through implementation of this information exchange.

7. Information shall be provided to the extent national legislation permits. The provision of information will not extend to the disclosure of financial data or trade secrets.

III. *Name and Address of Participating Agencies.*

Health Protection Branch, Health and Welfare of Canada, Brookfield Rd., Ottawa, Canada K1A 1C1.

Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20852.

IV. *Liaison Officers.*

A. Mr. G. E. MacDonald (613-995-7059), Chief, Compliance Services, Environmental Health Directorate, Health Protection Branch.

B. Mr. Robert G. Britain (301-443-4016), Director, Division of Compliance, Bureau of Radiological Health, Food and Drug Administration.

V. *Period of Agreement.* This Memorandum of Understanding shall continue in effect unless modified by mutual consent of both parties or terminated by either party upon thirty (30) days advance written notice to the other.

This Memorandum of Understanding does not modify existing agreements nor does it preclude entering into separate agreements setting forth procedures for special programs which can be handled more efficiently and expeditiously by special agreement.

Nothing in this agreement is intended to diminish or otherwise affect the authority of either agency to carry out its respective statutory functions.

Date: December 16, 1974.

ALEXANDER M. SCHMIDT,
Commissioner, Food and Drug Administration, Department of Health, Education, and Welfare.

Date: December 16, 1974.

A. B. MORRISON,
Assistant Deputy Minister, Health Protection Branch, Canada Department of National Health and Welfare.

Effective date. This Memorandum of Understanding became effective on December 16, 1974.

Dated: January 16, 1975.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner
for Compliance.

SANITARY QUALITY OF FROZEN FROG LEGS EXPORTED TO THE UNITED STATES OF AMERICA

Agreement Between the Export Inspection Council, Ministry of Foreign Trade, India and the Food and Drug Administration

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697) that future agreements or memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs gives notice that an agreement was approved and accepted by the Food and Drug Administration and the Export Inspection Council, Ministry of Foreign Trade, India on January 13, 1975. This agreement, which provides for control of the sanitary quality of frozen frog legs exported from India to the United States, reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN FOOD AND DAUG ADMINISTRATION, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, UNITED STATES OF AMERICA AND THE EXPORT INSPECTION COUNCIL, MINISTRY OF FOREIGN TRADE, INDIA

This Memorandum of Understanding has been developed and agreed to by the respective agencies to control the sanitary quality of frozen frog legs exported to the United States of America.

For purposes of this Memorandum, both parties agree to the following terms:

Lot. A lot is a quantity of frozen frog legs produced during a discrete period of time, by one manufacturer, packaged in identical containers identified by a code or mark traceable to the manufacturer and sealed in such a manner as to maintain integrity of the lot.

Salmonella- and *Arizona*-negative. Microbiological examination for the presence of *Salmonella* and *Arizona* will be conducted as follows: Place 15 pairs of frog legs into a flask containing 3,500 milliliters of broth. When single legs are estimated to average 25 grams or more, modify by culturing only one leg of each of the 15 pairs. Shake the flasks on a shaker for 15 minutes following which the lactose broth is decanted into another sterile flask and incubated at 35° C

V40N24 JAN 75 XUM

for more than 24 hours. Following incubation, proceed according to "Official Methods of Analysis of the Association of Official Analytical Chemists," 11th ed. (1970).[1]

THE EXPORT INSPECTION COUNCIL

1. The Export Inspection Council agrees to inspect each lot of frozen frog legs produced in this country and offered for export to the United States of America to assure that it is negative for *Salmonella* and *Arizona* based upon examination of sample units consisting of 15 pairs of frog legs and analyzed by methods prescribed in the above paragraph, "*Salmonella* and *Arizona*-negative."

2. The Export Inspection Council agrees to issue an export certificate for only those lots which meet the criteria of paragraph 1. Any lot which fails to meet such criteria will be denied export to the United States of America.

3. The Export Inspection Council agrees to require that all containers of all lots exported to the United States of America be identified by lot number, together with all other information required by the Federal Food, Drug, and Cosmetic Act.

4. The Export Inspection Council agrees to include in the certificate for each lot exported to the United States of America the following information:

a. Lot identification.

b. Number and size of containers in the lot.

c. Analytical results for *Salmonella* and *Arizona*.

d. Date.

e. Name and stamp or seal of authorizing official.

5. The Export Inspection Council agrees to furnish to the Food and Drug Administration a copy of the regulations and procedures used to assure that frozen frog legs are sanitary.

6. The Export Inspection Council agrees to furnish to the Food and Drug Administration a full description of the manufacturing processes and quality controls used to assure the production of sanitary frozen frog legs.

FOOD AND DRUG ADMINISTRATION

1. The Food and Drug Administration is responsible for the safety and quality of frozen frog legs imported into this country for human consumption.

2. The Food and Drug Administration will sample products certified under this program to assure that the exporting country and the exported products comply with specifications set forth in this Memorandum of Understanding and all other requirements of the Federal Food, Drug, and Cosmetic Act. The intensity of sampling may be reduced on gaining confidence in the compliance of the product to these specifications.

3. The Food and Drug Administration will share information about its audit sampling with the exporting country.

4. The Food and Drug Administration will share expertise and will provide consultative assistance to the exporting country when necessary to assure the safety of the frozen frog legs exported to the United States.

The Export Inspection Council and the Food and Drug Administration agree that this Memorandum of Understanding shall become effective on the date it is signed by the Food and Drug Administration. It shall remain in effect, and govern all frozen frog legs exported to the United States of America pending revision or revocation at the request of either agency.

In witness whereof, the agencies have executed this Memorandum of Understanding.

For the Food and Drug Administration.
By: A. M. Schmidt.
Title: Commissioner of Food and Drugs.
Country: The United States of America.
Date: January 13, 1975.

For the Ministry of Foreign Trade.
By: C. N. Modawal.
Title: Director of Quality Control and Inspection.
Country: India.
Date: January 13, 1975.

Effective date. This agreement became effective January 13, 1975.

Dated: January 17, 1975.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[DESI 9366; Docket No. FDC-D-556; NDA No. 11-417]

DEANOL ACETAMIDOBENZOATE

Opportunity for Hearing on Proposal to Withdraw Approval of New Drug Application

Correction

In FR Doc. 75-521, appearing at page 1533 of the issue for Wednesday, January 8, 1975, the following corrections are made:

1. On page 1533, column 3, the eighth line from the bottom, the section number reading "314.11" should read "314.111".

2. On page 1534, column 1, the seventeenth line from the top, the word "patient" should read "parent".

Office of the Assistant Secretary for Health

NATIONAL COMMISSION FOR THE PROTECTION OF HUMAN SUBJECTS

Meeting and Hearing

Notice is hereby given that the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research will meet on February 14 and 15, 1975 in Conference Room 6, C Wing, Building 31, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014. The meeting will convene at 9 a.m. both days and will be open to the public, subject to the limitation of available space. The meeting on February 14 will be open for presentation by the public of views on research on the fetus. In addition, the Commission will examine issues involved in research on the fetus and, time permitting, other items of its legislative mandate set forth in P.L. 93-348.

The deadline for requests to participate in the hearing on February 14 has been extended by the Commission from January 9 to January 31, 1975. It should be noted that this is the only hearing scheduled by the Commission to hear the views of members of the public regarding research on the fetus. Any person wishing to speak on February 14 must file a written request prior to the deadline and receive approval from the Commission. A request to participate must include a detailed summary of the proposed presentation; oral presentation shall be limited to 10 minutes for each participant. Requests should be addressed to:

Staff Director, National Commission for the Protection of Human Subjects, Westwood Building, Room 125, 9000 Rockville Pike, Bethesda, Maryland 20014.

Requests for information should be directed to Ms. Anne Ballard at the address given above. Telephone number (301) 496-7526.

Dated: January 15, 1975.

CHARLES U. LOWE,
Executive Director, National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research.

Office of Education

INDIAN ELEMENTARY AND SECONDARY SCHOOL ASSISTANCE

Extension of Closing Date for Receipt of Applications

Notice is hereby given that the U.S. Commissioner of Education has extended the February 15, 1975 closing date for receipt of applications for support of schools located on or near a reservation which are non-local educational agencies as well as local educational agencies which have been local educational agencies for less than three years under section 303(b) of the Indian Elementary and Secondary School Assistance Act, Title III of P.L. 81-874, as added by Title IV, Part A of Public Law 92-318 (20 U.S.C. 241aa-241ff), and Title VI, Part C of Pub. L. 93-380, previously published in the FEDERAL REGISTER at 40 FR 1535 on January 8, 1975, to February 18, 1975.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue, S.W., Washington, D.C. 20202, Attention: 13.551. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than the fifth calendar day prior to the closing date (or if such fifth calendar day is a Saturday, Sunday, or Federal holiday, not later than the next following business day), as evidence by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education).

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. *Program information and forms.* Information and application forms may be obtained from: Program Manager, Part A, U.S. Office of Education, Office of Indian Education, Room 3662, Regional Office Building Three, 400 Maryland Avenue SW., Washington, D.C. 20202.

D. *Applicable regulations.* The regulations applicable to this program include the Office of Education General Provisions Regulations (45 CFR 100a) and 45 CFR Part 186, published in the FEDERAL REGISTER on June 24, 1974 at 39 FR 22424.

(20 U.S.C. 241bb(b))

(Catalog of Federal Domestic Assistance Number 13.551; Indian Education Grants to Non-LEA's (Part A))

Dated: January 17, 1975.

T. H. BELL,
U.S. Commissioner of Education.

HEALTH RESOURCES ADMINISTRATION

Statement of Organization, Functions, and Delegations of Authority Amendments

Part 7 (Health Resources Administration) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare (39 FR 1456, January 9, 1974), is amended to reflect the following changes under section 7-B:

Organization and Functions. 1. Delete the title and statement for *Office of Management* (*7A19*), and substitute the following:

Office of Operations and Management (*7A19*). (1) Serves as the Administrator's principal staff for providing Administration-wide leadership in all phases of management and for direct conduct or general supervision of Administration-wide operational functions; (2) directs and coordinates the Administration's activities in the areas of management policy, operational planning, systems management, financial management, procurement and materiel management, grants management, and personnel management; (3) advises the Administrator on management implications of Administration plans and programs; (4) provides staff support and facilities for advisory councils, conferences, and meetings; (5) collaborates with the Office of Planning, Evaluation, and Legislation in the development and implementation of the five-year program and financial plan for the Administrator; (6) provides facility and space management services for Administration field elements and directs the Agency's safety management program; (7) coordinates Agency programs with PHS Regional Office functions by providing liaison to the Office of Regional Operations, PHS; and (8) directs data systems management and the Agency's management information support systems.

2. *Within the National Center for Health Statistics (7B00), the Office of the Center Director (7B01)* is amended by replacing the current statement for that office and adding statements for its newly created staff offices as follows:

Office of the Center Director (*7B01*). (1) Plans, directs, administers, coordinates and evaluates the total vital, health, and health related statistics programs of the Center; (2) stimulates basic and applied research and developmental activities; (3) provides national and international leadership in vital and health statistics; (4) conducts a variety of professional activities to provide assistance to government agencies, to foster international relationships, and to improve the broad fields of vital and health statistics; (5) coordinates the Center's activities with public and private health statistical agencies; (6) directs and coordinates Center activities in support of the Department's Equal Employment Opportunity program; (7) provides management and administrative support for the Center; (8) provides program planning and development for the Center; and (9) develops and coordinates legislative activities.

Office of Program Support (*7B02*). (1) Plans, directs, administers, coordinates and evaluates the Center's fiscal, management, and administrative support activities; (2) develops, analyzes, improves and implements internal management policies, methods and procedures; (3) in cooperation with the Division of Financial Management, HRA, provides financial guidance and information to NCHS program managers in the operation of the Center's financial management system, including program policy interpretation in budget formulation and execution, and preparation of program planning and budgetary support data; (4) coordinates the Center's contracts activities; (5) directs the Center's employee development and training activities; (6) advises the Center Director on administrative policy matters affecting the Center's programs; and (7) maintains close liaison with the Office of the Associate Administrator for Operations and Management, HRA, and with other governmental agencies, and outside groups.

Office of International Statistics (*7B03*). (1) Plans, directs, coordinates and evaluates the Center's international statistical programs; (2) plans and conducts training programs in vital and health statistics for foreign statisticians and demographers; (3) determines needs for technical assistance in various foreign countries and arranges for consultants and advisors to provide such assistance; (4) stimulates Center professional staff to conduct research in vital and health statistics in foreign countries; (5) develops and maintains an international statistical data file and conducts international studies of demographic and health statistics; (6) provides advice and guidance on disease classifications and disease classification problems in the Center; coordinates activities within the Center on classification of diseases and procedures; and has responsibility for development of revision proposals and U.S. position on decennial revisions of the International Classification of Diseases; (7) provides an Executive Secretary for the U.S. National Committee on Vital and Health Statistics; and (8) maintains liaison with key officials in HRA, the Department and international agencies on requests for data and consultant services.

Office of Program Development (*7B05*). (1) Provides a focus for short- and long-range program planning, coordination, and evaluation of the adequacy and completeness of new and existing programs in meeting the Center's mission; (2) serves as liaison with organizations planning or conducting new initiatives in Federal health statistics; (3) provides staff advice on the development of new health statistics programs based on assessment of emerging needs; (4) in collaboration with the Associate Director for Management, translates planning into program and budget proposals for Center operations; (5) assists the Center Director in the assessment of program accomplishments through a program review process; (6) develops and coordinates the Center's legislative activities; (7) administers a program of project review as required by the Federal Reports Act, including official bureau clearance officer responsibilities; (8) serves as the Center coordinator for interdisciplinary and interprogram activities; (9) provides liaison with counterparts at higher levels; and (10) provides support services for the Center's conferences, advisory committees, and other advisory groups.

Office of Statistical Research (*7B07*). (1) Provides general direction to and coordinates the Center's statistical research program; (2) plans and budgets Center-wide research activities; (3) stimulates research in the Center, and maintains close communication with research statisticians in universities and in private and governmental organizations; (4) conducts a program of basic measurement research and long-range applied research in statistical methodology; (5) promotes the publication and dissemination of statistical research findings; and (6) provides technical assistance to the Center Director in methodological matters.

Dated: January 17, 1975.

THOMAS S. MCFEE,
Acting Assistant Secretary for Administration and Management.

Federal Aviation Administration

UNITED STATES TERMINAL INSTRUMENT PROCEDURES (TERPS) ADVISORY COMMITTEE

Notice of Meeting

Pursuant to section 10(a)(2) of Pub. L. 92-463, notice is hereby given that the United States Terminal Instrument Procedures (TERPS) Advisory Committee will hold a meeting beginning at 9 a.m., e.s.t., March 3 through 7, in Rooms 6A, B, C, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. The following agenda item is scheduled for this meeting:

Discussion. Preparation of final draft for publication in the United States Standards for Terminal Instrument Procedures (TERPS) Handbook 8260.3A.

a. New Chapter 12, Departure Procedures.

b. Major revisions of the nonprecision instrument approach criteria.

c. Minor editorial changes to the entire handbook.

All those interested in attending the meeting should contact James A. Forgas, Chief, Flight Procedures Standards Branch, AFS-460, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-8144. The meeting will be open to the public.

Issued in Washington, D.C. on January 16, 1975.

JAMES A. FORGAS,
Chairman, U.S. Terminal Instrument Procedures (TERPS) Advisory Committee.

National Highway Traffic Safety Administration

[Docket No. EX 74-6; Notice 2]

VINTAGE REPRODUCTIONS, INC.

Petition for Temporary Exemption from Federal Motor Vehicle Safety Standards

The National Highway Traffic Safety Administration has decided to grant Vintage Reproductions, Inc. an exemption of its 1900 Series Horseless Carriages from many Federal motor vehicle safety standards on grounds of substantial economic hardship.

Notice of petition for the exemption was published in the FEDERAL REGISTER on October 22, 1974 (39 FR 37526) and an opportunity afforded for comment. Vintage, of Fort Lauderdale, Florida, produces replicas of the 1901 Ford Runabout and several different 1901 Olds passenger cars and truck body types. The company requested exemption from the following safety standards applicable to passenger cars or trucks: 101, 102, 103, 104, 105, 106, 108, 109, 110, 111, 114, 115, 124, 201, 202, 203, 204, 207, 208, 210, 212, 215, 216, 301, and 302. The vehicles apparently will comply with Standards Nos. 107, 113, 205, and 211. The basic reason behind the request, described more fully in Notice 1, is that most safety standards are not "reasonable, practicable, or appropriate" for the configuration of 1901-style vehicles.

In support of its petition the company argued that its vehicles would not present a significant hazard to traffic safety. In two years of production the company manufactured 199 vehicles and intends to manufacture not more than 900 units before terminating production. The overall concept of the vehicle is such, argues the company, that its appeal is primarily for occasional, limited use (*e.g.* auto shows, resorts) rather than for extensive use on the public roads. The company has 20 full-time employees and had a net loss of $142.75 in the 12-month period ending April 30, 1974. Compliance with standards for which exemption is sought would involve substantial costs and, in the opinion of the company, destroy the character and hence the sales appeal of the vehicle.

No comments were received on the petition. The NHTSA concurs with the company's assessment that conformance would be costly and risky to the short term future of the company, and accepts its assessment that the effect of a denial would cause a loss of over $60,000 in the year following it.

In reaching a decision that an exemption would be in the public interest, the Administrator has balanced the intent of Congress in providing temporary hardship exemptions to limited-production manufacturers against the need for traffic safety. While the manufacturer could produce as many as 30,000 units under a 3-year hardship exemption, it states that its intended production will not exceed 900. Many of the standards (*e.g.* 206, 214) are inappropriate for 1900-style vehicles that are open from the top and sides. Other standards, while appropriate (*e.g.* 109, 110), contain dimensional specifications outside the limits of 1900-style vehicles, making compliance impossible. Because of their small numbers and distinctive configurations, the Administrator does not believe that these vehicles will present a significant hazard to traffic safety.

The manufacturer has not shown that providing lap belts would create a hardship, and it thus is not exempted from that requirement of Standard No. 208.

For the reasons discussed above, the NHTSA finds that the exemptions requested are in the public interest and consistent with the objectives of the Act. Vintage Reproductions, Inc. is hereby granted NHTSA Temporary Exemption No. 74-6, expiring December 1, 1977, from the following motor vehicle safety standards: 101, 102, 103, 104, 105, 106, 108, 109, 110, 111, 114, 115, 124, 201, 202, 203, 204, 207, 208 (except for that portion of S4.1.2.3.2 that requires a Type 1 seat belt assembly at each designated seating position), 210, 212, 215, 216, 301, and 302.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410); delegation of authority at 49 CFR 1.51)

Issued on January 21, 1975.

NOEL C. BUFE,
Acting Administrator.

[FR Doc.75-2231 Filed 1-23-75;8:45 am]

ACTION

FOSTER GRANDPARENT AND SENIOR COMPANION PROGRAMS

Eligibility Levels

This notice revises the schedule of income eligibility levels for individuals and a family of two for the Foster Grandparent Program and the Senior Companion Program published in the FEDERAL REGISTER of November 4, 1974 (39 FR 39077). The figures increase the currently applicable guideline published by the Office of Economic Opportunity (OEO) by the 4.1 percent change in the Consumer Price Index during the four-month period of July 1974 through October 1974. The heading of the second column in the schedule has been changed from Couples to Family of Two to coincide with Census Bureau and OEO usage of terms. A third column, Family of Three, has been added to meet occasional needs therefor.

These ACTION programs are authorized pursuant to section 211 of the Domestic Volunteer Service Act of 1973, Pub. L. 93-113, 87 Stat. 402. Pursuant to section 421(4) of Pub. L. 93-113, 87 Stat. 414, the income eligibility levels are determined by the current applicable guideline published by the Office of Economic Opportunity, pursuant to section 625 of the Economic Opportunity Act of 1974, as amended (42 U.S.C. 2971(a)), and increased by the amounts individual states supplement the Federal Supplemental Security Income (SSI) Program. The states supplemental payments reflect the higher cost of living in the geographic area to be served by the project. Section 625 permits the OEO guideline to be adjusted for cost-of-living changes.

The income eligibility levels will be reviewed at least once a year, and similar schedules will be prepared to reflect any changes required as a result of that review.

Pursuant to section 420 of Pub. L. 93-113, this policy will become effective on January 23, 1975.

SCHEDULE OF INCOME ELIGIBILITY LEVELS FOR FOSTER GRANDPARENTS OR SENIOR COMPANIONS

State	Individuals	Family[1] of two	Family[1] of three
Alabama	$2,425	$3,327	$4,097
Alaska	4,277	5,569	6,861
Arizona	2,425	3,195	3,965
Arkansas	2,425	3,195	3,965
California	3,493	5,847	6,617
Colorado	2,653	4,527	5,297

CIVIL SERVICE COMMISSION

FEDERAL EMPLOYEES PAY COUNCIL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Federal Employees Pay Council will meet at 2 p.m. on Wednesday, February 19, 1975. This meeting will be held in room 5323 of the U.S. Civil Service Commission building, 1900 E. Street, NW., and will consist of continued discussions on the fiscal year 1976 comparability adjustment for the statutory pay systems of the Federal Government.

The Chairman of the U.S. Civil Service Commission is responsible for the making of determinations under section 10(d) of the Federal Advisory Committee Act as to whether or not meetings of the Federal Employees Pay Council shall be open to the public. He has determined that this meeting will consist of exchanges of opinions and information which, if written, would fall within exemptions (2) or (5) of 5 U.S.C. 552(b). Therefore, this meeting will not be open to the public.

For the President's Agent.

RICHARD H. HALL,
Advisory Committee Management Officer for the President's Agent.

COMMISSION OF FINE ARTS

NOTICE OF MEETING

JANUARY 17, 1975.

The Commission of Fine Arts will meet on Wednesday, February 19, 1975 at 11:30 a.m. in the Commission offices at 708 Jackson Place, N.W., Washington, D.C. 20006 to discuss various public projects affecting the appearance of Washington, D.C. Inquiries regarding the agenda and requests to submit written or verbal statements should be addressed to Charles H. Atherton, Secretary, Commission of Fine Arts, at the above address.

CHARLES H. ATHERTON,
Secretary.

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

List of Statements Received

Environmental impact statements received by the Council on Environmental Quality from January 13 through January 17, 1975. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements is March 10, 1975. The thirty (30) day period for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies will also be available at cost, from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

DEPARTMENT OF AGRICULTURE

Contact: David Ward, Acting Coordinator, Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 331-E, Administration Building, Washington, D.C. 20250, (202) 447-3965.

FOREST SERVICE

Draft

Tongass N.F. Land Use Plan, Alaska, January 15: The statement concerns the implementation of a Land Use Plan prepared for the Tongass National Forest. The Plan divides the over 20 million acres into 13 planning units. Uses and activities include road building, timber harvesting, recreation development, mining, wildlife projects, off-road vehicle use, and others. A large acreage will remain roadless and undeveloped. (ELR Order No. 50076.)

South Fork Salmon River Planning Unit, Boise, Payette Valley Counties, Idaho, January 13: The statement concerns a planning unit containing 348,328 acres, approximately 246,000 of which are within Payette National Forest, 102,328 of which are within Boise National Forest, and 855 acres are in private ownership. The plan sets forth the allocation of lands to resource uses and activities. Minor adverse effects such as temporary air pollution due to burning of residual material after timber harvests are expected (50 pages). (ELR Order No. 50059.)

Siuslaw, Siskiyou, Umpqua N.F.'s, Supplement, Oregon and California, January 13: The statement supplements a final eis which was filed with CEQ on February 25, 1974, and refers to the use of herbicides on the three forests in forest management activities. The chemical agents to be used include 2,4-D, 2,4,5-T, 2,4,5-TP, Amitrole-T, atrazine, picloram, and dicamba. There will be impacts to non-target species and to wildlife. (ELR Order No. 50060.)

Timber Plan, Bighorn National Forest, Wyoming, January 13: The statement refers to a proposed timber plan for the Bighorn National Forest. Over the next ten year period, 68,300 acres (28 percent of the suitable and available forest land) will be subject to various timber management activities. The expected annual yield is 54.2 cunits, including 21.9 million board feet of saw timber. There will be impacts to soil, air, water, and visual qualities from timber cutting and the requisite road construction. (ELR Order No. 50067.)

Final

Silverleads Planning Unit, Salmon N.F., Lemhi County, Idaho, January 13: The statement refers to the 25,560 acre Silverlands Planning Unit, Lemhi County in the Salmon N.F. The planning area was divided into two management areas. The management areas are further divided into smaller segments called management units, which are separate parcels of land for which management requirements, protection needs, and resource uses are indicated. Adverse impacts will be to soil, water, vegetation, wildlife, scenics, livestock grazing, and roadless area values. Comments made by: AHP, USDA, DOI, EPA, State and local agencies. (ELR Order No. 50058.)

SOIL CONSERVATION SERVICE

Draft

West Fork of Bayou Lacassine Watershed, Jefferson Davis and Calcasieu Parishes, Louisiana, January 13: The statement refers to a watershed protection, flood prevention, and agricultural water management project. Project measures include 83 miles of channel works, land treatment measures, weirs, and pipe drops. There will be adverse impact to air and water quality, and to mature hardwood stands. (ELR Order No. 50066.)

North and South Mill Creek Subwatershed, Grant, Pendleton, Hardy Counties, West Virginia, January 17: Proposed is the construction of 5 single-purpose floodwater retarding dams and one multi-purpose floodwater retarding and recreation dam for purposes of flood control and recreation. The project will inundate 102 acres of farm land and 1.9 miles of stream (114 pages). (ELR Order No. 50090.)

ATOMIC ENERGY COMMISSION

Contact: For Non-Regulatory Matters: Mr. W. Herbert Pennington, Office of Assistant General Manager, E-201, AEC, Washington, D.C. 20545, (301) 973-4241. For Regulatory Matters: Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing, P-722, AEC, Washington, D.C. 20545, (301) 973-7373.

Draft

Plutonium Cardiac Pacemakers, January 16: The statement, a generic eis, refers to the proposed authorization of wide-scale use of plutonium powered pacemakers in cardiac patients. The statement outlines design and testing standards for pacemakers. Environmental impacts discussed include the possibility of plutonium release through accidental breach of the pacemaker, and the effects of exposure to the patient, those around him, and those involved in the handling and transport of the instrument. (ELR Order No. 50083.)

Proposed Final

The following statement, as the result of an agreement with CEQ and AEC is to be considered a proposed final. The commenting period on this statement is to be 60 (sixty) days, beginning with this FEDERAL REGISTER notice of availability (January 27, 1975).

Liquid Metal Fast Breeder Reactor, January 16: The statement refers to AEC's administrative action to continue the program to develop Liquid Metal Fast Breeder Reactor (LMFBR) technology. Consideration is given to all aspects of the environmental effects

V40N17 JAN24 75 XUM

of the LMFBR program, including the postulated nuclear breeder power reactor industry. The LMFBR is expected to have a higher thermal efficiency and lower radiological releases than the current light, water plants. The environmental effects of the LMFBR fuel cycle, including fuel fabrication and reprocessing, waste management and transportation, are not expected to differ significantly from light water plants that have a similar uranium-plutonium fuel cycle (seven volumes). Comments made by: USDA, USCG, TVA, HEW, DOT, EPA, DOI, FPC, State and local agencies, and concerned citizens. (ELR Order No. 50089.)

DEPARTMENT OF DEFENSE

ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, (202) 693-7168.

Draft

Mermentau River-Gulf of Mexico Navigation Channel, Louisiana, January 13: Proposed is the maintenance dredging of the Mermemtau River-Gulf of Mexico Navigation Channel to its design cross section, 15 by 100 feet. Also included in the proposal are the maintenance of jetties at the entrance of the channel in the Gulf and the disposal of dredged materials in a manner that would least alter the existing ecological conditions and would create new tidal marsh. Annual dredging would result in destruction of benthic habitat and dredged material dumped on existing disposal banks would destroy vegetation and existing wildlife habitat. (ELR Order No. 50055.)

Yazoo River Basin Flood Control, several counties, Mississippi, January 14: Proposed is the construction of four large levees (already completed), channel modifications, drainage control structures, levees, floodwalls, and pumping plants for the purpose of flood control in the Yazoo River Basin. Previous attempts at channel improvement have resulted in siltation, bank caving, and deterioration of channel efficiency. Approximately 45,000 acres of woodlands, 42,000 acres of cleared lands, and 4,800 acres of channel area would be committed to the project (Vicksburg District). (ELR Order No. 50073.)

Final

Nome Harbor and Seawall, Alaska, January 13: The statement refers to the maintenance and operation of the Nome Harbor and Seawall. Typical maintenance requires the annual dredging of 16,000 to 20,000 cu. yds. of material. Adverse impact would be that resulting to marine organisms (Alaska) (62 pages). Comments made by: DOI, DOC, USCG, EPA, State agencies. (ELR Order No. 50031.)

North Fork Feather River, Plumas County, California, January 16: The project concerns the construction of a diversion dam and diversion channel from North Fork Feather River into Lake Almanor to provide flood control protection. A total of 670 acres (336 agricultural and 234 residential) will be lost to the project. Adverse impacts will include loss of wildlife habitat, vegetation and esthetic values (42 pages). Comments made by: EPA, DOI, HEW, USDA, State agencies. (ELR Order No. 50080.)

Cahokia Creek Low Dam, Illinois, January 17: The statement refers to a plan which is designed to replace an existing dam which has been damaged beyond engineering economically justifiable repairs. Failure of the existing structure could result in severe scour along the channel, threatening several bridges and levees. The proposed is a rectangular broad-crested concrete dam with a spillway width of 188 ft. and a spillway basin with the exception of the temporary impacts which result from construction activities (noise, dust, and visual pollution), the only significant adverse impact will be the loss of 20 acres of woodland, which will be revegetated (St. Louis District). Comments made by: EPA, USDA, DOI, HUD, AHP, State agencies. (ELR Order No. 50097.)

Marion Local Flood Protection, Kansas, January 14: The project consists of construction of a levee and floodway on Mud Creek and Cottonwood River for flood protection at Marion. The adverse effects resulting from the project include purchase of 3 home sites, increased flooding on some lands outside of the protected area, and alteration of the ground characteristics and vegetation on 110 acres of land required for the levee and diversion channel. There will also be temporary inconvenience to area inhabitants during construction (Tulsa District). Comments made by: DOI, EPA, HUD, DOT, USDA, DOC, HEW, State and local agencies, and concerned citizens. (ELR Order No. 50070.)

Onaga Lake, Pottawatomie County, Kansas, January 16: The statement refers to the proposed construction of Onaga Lake, a multi-purpose lake project on Vermillion Creek. At the top of the multi-purpose pool the lake will have a surface area of 5,320 acres; at the top of the flood control pool the lake will have a surface area of 10,990 acres. The project will result in the inundation of 17 miles of stream; 12,210 acres of land will be purchased in fee simple for project purposes. Adverse impact will include the inundation of wildlife habitat and stream fishery; the displacement of people; effects to the agricultural economy; and loss of archeological and historical sites (Kansas City District). Comments made by: USDA, HUD, DOI, USCG, DOT, EPA, AHP, State and local agencies. (ELR Order No. 50086.)

Hurricane Protection, New Orleans to Venice, Louisiana, January 16: The statement refers to the proposed enlargement of 36 miles of levee from City Price to Venice, and the construction of 16 miles of new levee from Phoenix to Bohemia, in order to provide protection from hurricane-induced flooding. Approximately 8,500 acres will be used for temporary ponding and 1,200 acres will be required for right-of-way; much of this land is estuarine marsh. Comments made by: DOI, EPA, USDA, DOC, DOT, HEW, AHP, State agencies. (ELR Order No. 50082.)

Modification of Ludington Harbor and Channel, Michigan, January 14: The project involves the widening of Ludington Harbor breakwater entrance, inner channel, and inner harbor turning area, and deepening of the channel and turning area to depth of 27 to 29 feet. Dredged sand will be distributed south of the harbor in shallow, near shore waters parallel to the Buttersville bar and south adjoining bluffs. Adverse impacts include the removal of 5 acres of developable Pere Marquette Lake shore zone, loss of .75 acres of aquatic bottom land, and temporary effects such as construction, noise turbidity, and increased traffic. Comments made by: USDA, DOC, DOI, EPA, HUD, State agencies. (ELR Order No. 50071.)

South Branch, Wild Rice River Flood Protection, Norman and Clay Counties, Minnesota, January 14: The proposed project involves the construction of local flood protection works, including channel modification, levees, and inlet modifications, on certain reaches of the South Branch Wild Rice River and Felton Ditch. Also included is the implementation of a wildlife corridor plan. A total of 314 acres of land will be committed to project measures; 6.6 miles of natural stream would be lost (St. Paul District). Comments made by: AHP, DOI, USDA, USCG, FPC, EPA. (ELR Order No. 50074.)

Navigation Project, Davis, Carteret County, North Carolina, January 13: The statement refers to the proposed construction and maintenance of a deeper navigation project at Davis. Construction consists of deepening the existing project by 2 feet to provide a channel 7 feet deep, 75 feet wide, and 3,500 material in diked areas (34 pages). Comments made by: AEC, USDA, HEW, USCG, EPA, DOI, State and local agencies, and one citizens group. (ELR Order No. 50062.)

Candy Lake, Candy Creek, Osage County, Oklahoma, January 17: The statement refers to the proposed Candy Lake located in Osage County on Candy Creek. Project purposes are flood control, water supply, recreation, and fish and wildlife. The project consists of an earth dam, a reinforced concrete outlet works, an uncontrolled spillway, and project buildings and access roads. Adverse impacts are the inundation of 2,170 acres of land and 7.5 miles of Candy Creek, displacement of pipelines, powerlines and telephone lines, and relocation of 8 families (Tulsa District). Comments made by: EPA, HUD, DOI, DOT, USDA, AHP, HEW, State agencies. (ELR Order No. 50096.)

Catherine Creek Dam and Lake, Union County, Oregon, January 16: The statement refers to the construction of an earth-fill dam on Catherine Creek, 2.9 miles of road relocation, and a fish hatchery. The purposes of the project are those of flood control, irrigation, recreation, anadromous fish enhancement, and water supply. Approximately 2300 acres will be acquired for the project. Adverse effects will include the loss of 2.5 miles of natural stream bed and an unspecified amount of land to be inundated. Water quality of the stream will be affected, and the acquisition of 480 acres of land for deer and elk will be necessary to compensate for the loss of big game winter range. Comments made by: EPA, USDA, DOT, FPC, DOC, DOI, State and local agencies, and concerned citizens. (ELR Order No. 50085.)

Cooper River Rediversion Project, South Carolina, January 15: The statement refers to the construction of a channel to redivert water from the Cooper River to the Santee River Basin to relieve shoaling problems in Charleston Harbor. The project will also include construction of a hydropower plant, fish hatchery, and fish lift. Adverse impacts include decreased biological productivity in Cooper River, land requirements for the diversion canal and disposal site, potential destruction of archeological sites, and turbidity and sedimentation during construction (235 pages). Comments made by: USDA, DOC, DOT, DOI, EPA, State agencies. (ELR Order No. 50078.)

Little Goose Lock and Dam, Whitman, Columbia, Garfield Counties, Washington, January 16: The statement refers to the existing Little Goose Lock and Dam Project, a navigation-hydroelectric project on the Snake River. Project measures include a navigation lock, a 3 unit hydroelectric spillway dam, and a 10,025 acre lake. The proposed action is the addition of 3 power units, and the continued operation and management of the project. Impacts discussed in the statement relate to recreational uses, navigation, wildlife habitat management, the operation of fish passage facilities, and the production of electric power (Walla Walla District) (200 pages). Comments made by: FPC, EPA, USCG, DOC, USDA, DOI, State agencies. (ELR Order No. 50079.)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Meyers, Director, Office of Federal Activities, Room 3630 Waterside Mall, Washington, D.C. 20460, (202) 755-0940.

Final

Palmer Lake Sanitation District, Colorado, January 13: Proposed is the construction of an Interceptor sewer and a wastewater treatment plant (0.84 mgd capacity) to serve the Palmer Lake and Monument Sanitation Districts and the Woodmor Water and Sanitation District. A total of 21,000 feet of interceptor has already been constructed. The facility would consist of two aerated lagoons, a polishing pond, and a chlorination system; effluent would be discharged to Monument Creek. The new facility would assure adequate sewage treatment for future area population growth. Comments made by: USDA, HEW, HUD, DOI, State and local agencies, and concerned citizens. (ELR Order No. 50055.)

GENERAL SERVICES ADMINISTRATION

Contact: Mr. Andrew E. Kauders, Executive Director of Environmental Affairs, General Services Administration, 18th and F Streets NW., Washington, D.C. 20405, (202) 343-4161.

Final

Social Security Admin. Facilities, Baltimore, Baltimore County, Maryland, January 14: Proposed is the consolidation of Social Security Administration office and data processing facilities at two sites, one adjacent to SSA headquarters in Woodlawn, the other, Metro West, in the Orchard-Biddle Neighborhood Development Project in Baltimore. The former facility will comprise 1,265,270 sq. ft., the later 1,156,200, including 402,500 sq. ft. for parking (two volumes). Comments made by: HUD, OEO, OMB, GSA, DOT, DOI, AHP, (ELR Order No. 50072.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Acting Director, Office of Environmental Quality, Room 7206, 451 7th Street SW., Washington, D.C. 20410, (202) 755-6295.

Draft

Potter Urban Renewal Project, Middlesex County, New Jersey, January 17: The Township of Edison Housing Authority proposes to erect 866 units of low and moderate income housing on a 177 acre vacant, wooded site in North Edison, adjacent to an existing 90 unit Public Housing Project. The project would result in removal of vegetation and reduction of air and water quality. (ELR Order No. 50095.)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, (202) 343-3891.

Draft

Development, Crow Reservation and Ceded Area, Big Horn and Treasure Counties, Montana, January 16: The statement refers to the probable impacts of two assumed levels of coal development on the Crow Indian Reservation and the Ceded Area. The lower level of development would result in the export of 20,000,000 tons of coal annually from three mines. The higher level of development would result in the mining of 90,000,000 tons annually from three mines, plus three mining complexes and the use of some coal in three conversion plants. There will be impacts on or from: air quality; wildlife habitats; historic and archeological resources; water consumption and water quality; the land surface; the socio-political structure; recreational uses. (ELR Order No. 50081.)

Final

Proposed Iliamna National Resource Range, Alaska, January 16: The statement refers to the proposed legislative designation of 2.8 million acres of public lands in the Lake Iliamna Nushagak River area of Alaska as the Iliamna National Resource Range. It is also proposed that a 47-mile segment of the Alagnak River be designated as a component of the National Wild and Scenic River System. The Bureau of Land Management would have primary responsibility for implementation of the land-use plan related to the action, with assistance coming from the Bureau of Sports Fisheries and Wildlife. Mineral development, except for valid existing rights, will be under the discretionary control of the Federal Government (620 pages). Comments made by: USDA, COE, DOC, EPA, FPC, DOT, DOI, State and local agencies. (ELR Order No. 50088.)

BUREAU OF OUTDOOR RECREATION

Draft

Huron Clinton Land Acquisition, Washtenaw County, Michigan, January 13: The statement refers to the proposed use of Land and Water Conservation Fund Assistance for the acquisition by the Huron Clinton Metropolitan Authority of 3501 acres of land. The land would be used for intensive, multiple activity, daytime recreational use focused around a 618 acre impoundment on Mill Creek. The action will necessitate the relocation of 44 families and the reconstruction of roads and utilities. (ELR Order No. 50054.)

BUREAU OF RECLAMATION

Draft

Columbia Basin Project, several counties, Washington, January 17: The statement concerns the construction of the Third Powerplant at Grand Coulee Dam and the extension of an irrigation system (now 50% complete) to provide irrigation for an additional 577,000 acres. The Grand Coulee Third Powerplant could accommodate additional powerplant capacity for peaking operations of at least 7,500 megawatts. (ELR Order No. 50098.)

BUREAU OF SPORT FISHERIES AND WILDLIFE

Final

Cape Romain National Wildlife Refuge, Charleston County, South Carolina, January 15: The statement refers to the proposed designation of 28,000 acres of the Cape Romain Wildlife Refuge as wilderness within the National Wilderness Preservation System. Comments made by: EPA, COE, USDA, DOT, DOC, DOI, State agencies. (ELR Order No. 50077.)

NATIONAL PARK SERVICE

Final

Proposed Yukon-Charley National Rivers, Alaska, January 16: The statement refers to the proposed Congressional designation of 2.23 million acres of lands and waters along the upper Yukon River as Yukon-Charley National Rivers, in order to protect the nationally significant natural, historic and archeological values. The Rivers would be administered by the National Park Service, and would be studied for possible inclusion in the National Wilderness Preservation System. The land in the Charley River basin would be closed to mining and mineral entry; mining would be permitted on the Yukon portion on a permit and lease system (included in the statement is a discussion of a conceptual master plan for management.) (669 pages). Comments made by: USDA, DOC, COE, HEW, HUD, DOI, DOT, State and local agencies. (ELR Order No. 50087.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, 400 7th Street SW., Washington, D.C. 20590, (202) 426-4357.

FEDERAL HIGHWAY ADMINISTRATION

Draft

Columbus and Thomaston Roads, Widening, Bibb County, Georgia, January 17: Proposed is the widening of Columbus Road from the intersection of Columbus and Thomaston Roads (S.R. 22 and S.R. 74) easterly to a point east of Dempsey Avenue and the widening of Thomaston Road from I 475 to its intersection with Columbia Road. As many as three residences and two businesses will be displaced by the project (154 pages). (ELR Order No. 50091.)

Vista Avenue-Ridenbaugh Canal-U.S. 30 Connection, Ada County, Idaho, January 13: The proposed project consists of improving the existing Vista Avenue-Federal Way (U.S. 30) connection in Boise City, Idaho, including the improvement of three intersections, realignment of through routes, and widening rights-of-way to provide for the projected increase in through traffic flow. Adverse impacts include the displacement of families and businesses, construction disruption and the gradual conversion of residential land to commercial use. A 4(f) statement is included concerning Platt Gardens Park. (ELR Order No. 50057.)

Freeway 592, Polk and Warren Counties, Iowa, January 17: Proposed is the construction of Freeway 592 in Polk and Warren Counties, Iowa. The alternatives range from the upgrading of an existing road, requiring 27 additional acres to construction of a new facility, requiring as much as 690 acres. Dislocation of families and farms depends upon the alternatives chosen. (ELR Order No. 50093.)

S.R. 3025, Rapides Parish, Louisiana, January 17: Proposed is the construction of a 5.6 mile segment of State Route LA 3026 between the municipalities of Tioga and Timber Trails just north of Alexandria. The four-lane controlled access facility will displace 15 families and one business and will require the commitment of 215 acres of residential and forest land to roadway use. (ELR Order No. 50092.)

Loop 1, Austin, Travis County, Texas, January 13: The statement refers to the construction of a 4.3 mile section of Loop 1 (Mo Pac Boulevard) from R.M. Highway 2244 southeast to the City of Austin, south to US 290 west in Travis County. The project will displace one business and will take 315 acres of undeveloped land. There will be construction disruption (248 pages). (ELR Order No. 50085.)

SH 6 Bypass, Falls County, Texas, January 16: Proposed is the construction of the SH 6 bypass, from 3.0 miles south of Marlin to 2.0 miles north of the city. Total length of the four-lane facility will be approximately five miles. Construction of the project will result in the taking of right-of-way and the displacement of twelve residences and businesses (51 pages). (ELR Order No. 50084.)

Final

I-5, Santa Ana Freeway, Broadway Interchange, Orange County, California, January 13: Proposed is the improvement of the interchange of I-5 at Main Street and the construction of a new overpass at Broadway. Twelve businesses and 19 families will be displaced. A 4(f) statement is included concerning 5000 square feet of required right-of-way. Comments made by: DOT, DOI, HUD, COE, EPA, State and local agencies. (ELR Order No. 50064.)

I-90, Big Timber to Greycliff, Sweetgrass County, Montana, January 13: Proposed is the construction of a 4-lane, 10.5 mile segment of I-90. The project will require approximately 3.5 acres of "Fireman's Island", which although belonging to the City of Big Timber is not a city park. Construction disruption will result (105 pages). Comments

V40117 JAN 24 75 XUM

made by: USDA, COE, HEW, HUD, DOI, EPA, State agencies and one local agency. (ELR Order No. 50041.)

New Hampshire Rte. 175, Woodstock, Grafton County, New Hampshire, January 15: The statement refers to the proposed relocation of a 1.2 mile segment of New Hampshire Route 175 in the town of Woodstock. The new two lane facility will necessitate the acquisition of 2.5 acres of land. Other adverse impacts include increased traffic noise levels, temporarily increased siltation levels in the Pemigewasset River during construction, and the loss of wildlife habitat (104 pages). Comments made by: USDA, USCG, COE, HEW, HUD, DOI, EPA, (ELR Order No. 50075.)

Rte. 106, Merrimack County, New Hampshire, January 17: The statement refers to the improvement of 3.8 miles of N.H. Route 106 in the town of Loudon, Merrimack County. The new segment will have two lanes, 2 new bridges over the Soucook River, and six intersections. Adverse impacts include acquisition of 105 acres of land, relocation of 6 families and 1 business, loss of wetlands, and a temporary increase in the level of the Soucook River during construction. There will also be the normal temporary negative impacts associated with highway construction. Comments made by: EPA, HEW, HUD, DOI, FPC, USDA, USCG, State agencies, and concerned citizens. (ELR Order No. 50094.)

US 75 and Spur 503, Grayson County, Texas, January 14: The statement refers to construction of a 14.1 mile section of US 75, beginning at Travis St. in Sherman and ending at the Texas-Oklahoma line at Red River. Also included in the project is a 1.7 mile section of Spur 503 connecting proposed US 75 to existing US 75 and SR 75–A north of Iron Ore Creek. Both US 75 and Spur 503 are to be developed on new location to a multi-lane divided freeway design. Adverse impacts are the taking of additional grass and wooded areas (exact acreage not specified), and the displacement of 89 families, 11 businesses and 3 oil wells. Comments made by: DOT, HEW, HUD, COE, USDA, DOI, State and local agencies. (ELR Order No. 50069.)

State Trunk Highway 59, Waukesha and Milwaukee Counties, Wisconsin, January 13: Proposed construction of 8.1 miles of 2-lane S.H. 59. Thirty-one residences will be displaced by the action and an unspecified number of acres taken. A 4(f) statement will be filed as land would be taken from a local park. Comments made by: HEW, DOI, HUD, EPA, OEO, State and local agencies. (ELR Order No. 50063.)

State Trunk Highway 28, Sheboygan Co., Wisconsin, January 13: Proposed is the construction, on new location, of 4.8 miles of State Trunk Highway 28, from Sheboygan Falls to the city of Sheboygan. Some additional land will be required for right-of-way, and a number of homes will be displaced (115 pages). Comments made by: EPA, HUD, HEW, DOI, State and local agencies, and citizens organizations. (ELR Order No. 50068.)

GARY L. WIDMAN,
General Counsel.

Notice of Adoption

Correction

In FR Doc. 75-1887 appearing on page 3242 of the issue for Monday, January 20, 1975, the effective date, now reading "January 9, 1975", should read "January 19, 1975".

FEDERAL HOME LOAN BANK BOARD

[H. C. 184]

BASS FINANCIAL CORP.

Receipt of Application for Permission To Purchase the Assets of Potomac Building and Loan Association

JAUNARY 20, 1975.

Notice is hereby given that the Federal Savings and Loan Insurance Corporation has received an application from Bass Financial Corporation, Norridge, Illinois, a multiple savings and loan holding company, for approval of a bulk purchase of the assets of Potomac Building and Loan Association, Potomac, Illinois, an uninsured institution, under the provisions of section 408(e) of the National Housing Act, as amended (12 U.S.C. 1730a(e)), and § 584.4 of the regulations for Savings and Loan Holding Companies. Comments on the proposed acquisition should be submitted to the Director, Holding Companies Section, Office of Examinations and Supervision, Federal Home Loan Bank Board, Washington, D.C. 20552, on or before February 24, 1975.

[SEAL] GRENVILLE L. MILLARD, Jr.,
Assistant Secretary,
Federal Home Loan Bank Board.

GENERAL ACCOUNTING OFFICE

FEDERAL TRADE COMMISSION

Receipt of Regulatory Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on January 17, 1975. See 44 U.S.C. 3512(c) & (d). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Further information about the items on this list may be obtained from the Regulatory Reports Review Officer, 202-376-5425.

FEDERAL TRADE COMMISSION

Request for review and clearance of a new single-time FTC survey—Used Car Study. 54 state and territorial transportation officials will be required to provide information on used vehicle inspection programs and vehicle component degradation. The estimated average burden is 2 to 3 man-hours per response.

CARL F. BOGAR,
Regulatory Reports Review.

NATIONAL ADVISORY COUNCIL ON SUPPLEMENTARY CENTERS AND SERVICES

COMMITTEE AND PROJECT REPORTS

Public Meeting

Notice is hereby given, pursuant to Pub. L. 92-463, that the next meeting of the National Advisory Council on Supplementary Centers and Services will be held on February 20 and 21, 1975, from 9 a.m. to 5 p.m. at the Sheraton Harbor Island Hotel, 1380 Harbor Island Drive, San Diego, California.

The National Advisory Council on Supplementary Centers and Services is established under section 309 or Pub. L. 91-230. The Council is directed to advise the President and the Congress concerning the operation of Title III of the Elementary and Secondary Education Act.

Agenda items for the meeting will include: (1) an on-site visit to the Multiage Grouping in Early Childhood Education project, Kenneth Tensell, Project Director, Belle Benchley Elementary School, 7202 Princess View Drive, San Diego, California 92120; (2) member reports on ESEA Title III project visitations since the last Council meeting; (3) recommendations and last chapter of Drop-Out Prevention report; (4) review and revision of Council's operational budget; (5) project report from Sam Kerman, Project Director, Equal Opportunity in the Classroom, Los Angeles County Education Center, 9300 E. Imperial Highway, Downey, California 90242; (6) review of Council's role in cosponsoring the ESEA Title III annual meeting; (7) progress reports on the annual report and the Quarterlies on the handicapped and educational technology; (8) discussion of report on the nonpublic schools; and (9) report from the Committee on Special Concerns, Dr. William Harvey, Chairman.

The meeting of the Council shall be open to the public. Records shall be kept of all Council proceedings and shall be available for public inspection at the office of the Council's Executive Director, located in Suite 529, 425 13th Street, NW., Washington, D.C.

Signed at Washington, D.C. on January 20, 1975.

GERALD J. KLUEMPKE,
Executive Director.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (75-3)]

NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL COMMITTEE ON GUIDANCE, CONTROL AND INFORMATION SYSTEMS

Notice of Meeting

The NASA Research and Technology Advisory Council Committee on Guidance, Control and Information Systems will meet on February 19-20, 1975, at the NASA Ames Research Center, Moffett Field, California 94035. The meeting will

be held in Conference Room 217 of Building 200. Members of the public will be admitted on a first-come, first-served basis, up to the seating capacity of the room, which is about 25 persons. All visitors must report to the Ames Research Center Receptionist in Building 200.

The NASA Research and Technology Advisory Council, Committee on Guidance, Control and Information Systems serves in an advisory capacity only. The current Chairman is Dr. Barry W. Boehm. There are 12 members. The following list sets forth the approved agenda and schedule for the February 19-20, 1975, meeting of the Guidance, Control and Information Systems Committee. For further information, please contact Dr. Peter R. Kurzhals, Area Code 202 755-3225

FEBRUARY 19, 1975

Time	*Topic*
8:30 a.m.	Report of the chairman (Purpose: To summarize issues and actions taken at the November 1974 meeting of the Research and Technology Advisory Council).
9:00 a.m.	Report of the Executive Secretary (Purpose: To brief the Committee on recent changes in the NASA organization and on the status of guidance, control, and information systems programs).
9:30 a.m.	Software Action Plan Review (Purpose: To obtain Committee comments on a plan for improving coordination and management of software research in NASA).
11:00 a.m.	Report on Outlook for Space Technology Forecast (Purpose: To brief the Committee on the organization, status and plans of the Working Group which developed the technology forecast document).
1:00 p.m.	Critique of the Technology Forecast Document (Purpose: To obtain Committee views and detailed comments on the forecasts of technology related to guidance, control and information systems).

FEBRUARY 20, 1975

Time	*Topic*
8:30 a.m.	Review of New Initiatives (Purpose: To brief the Committee on proposed new systems technology program and obtain their comments and recommendations).
10:30 a.m.	Committee Discussions and Recommendations (Purpose: To summarize Committee findings and recommendations and identify critical issues to be studied at subsequent meetings).
12 Noon	Adjournment.

BOYD C. MYERS, II,
Assistant Associate Administrator for Organization and Management, National Aeronautics and Space Administration.

JANUARY 20, 1975.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

MUSEUM ADVISORY PANEL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that closed meetings of the Museum Advisory Panel to the National Endowment for the Arts will be held at 9 a.m.–5 p.m. on February 10, 1975; February 13–14, 1975; February 20, 1975 in the 11th floor Museum area, Columbia Plaza, 2104 E Street, NW., Washington, D.C.

These meetings are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of January 10, 1973, these meetings, which involve matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b)(4), (5)), will not be open to the public.

Further information with reference to these meetings can be obtained from Mrs. Luna Diamond, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-7144.

EDWARD M. WOLFE,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR ASTRONOMY

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92-463), notice is hereby given of a meeting of the Advisory Panel for Astronomy to be held at 9 a.m. on February 10–11, 1975, in room 338 at the National Science Foundation, 1800 G Street, NW., Washington, D.C.

The purpose of this panel is to provide advice and recommendations concerning research proposals and projects in astronomy and to advise the Foundation of the impact of its research support programs on the scientific community in astronomy.

The agenda for this meeting will include:

FEBRUARY 10—MORNING SESSION (9 A.M.–12 NOON)

Summary Discussion of FY 76 Budget for Astronomy Long-range Plans.

AFTERNOON SESSION (1–5 P.M.)

Solar Astronomy Review.

FEBRUARY 11—MORNING SESSION (9 A.M.–12 NOON)

Reports by NSF Staff on Former Panel Concerns Theoretical Physics and Astrophysics Computational Facilities.

AFTERNOON SESSION (1–5 P.M.)

Future Trends in Astronomy.

This meeting will be open to the public but limited to 10 observers who may make written suggestions following the meeting. Individuals who wish to attend should contact Ms. Mary Saffell, Secretary to the Head of the Astronomy Section, Rm. 305, National Science Foundation, Washington, D.C. 20550, telephone 202/632-4196, no later than February 7.

For further information about this Panel, please contact Dr. Robert Fleischer, Head, Astronomy Section, at the above address. Summary minutes of this meeting may be obtained from the Management Analysis Office, Rm. 720–K, National Science Foundation, Washington, D.C. 20550.

FRED K. MURAKAMI,
Committee Management Officer.

JANUARY 20, 1975.

ADVISORY PANEL FOR ENVIRONMENTAL BIOLOGY

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92-463), notice is hereby given of a meeting of the Advisory Panel for Environmental Biology to be held at 9 a.m. on February 10 and 11, 1975, in room 517, 1800 G Street, NW., Washington, D.C.

The purpose of this Panel is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects.

This meeting will not be open to the public because the Panel will be reviewing, discussing, and evaluating individual

V40117 JAN24 75 XUM

research proposals. These proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of P.L. 92-463.

For further information about this Panel, please contact Dr. John L. Brooks, Program Director for General Ecology, Rm. 331, National Science Foundation, Washington, D.C. 20550, telephone 202/632-7324.

FRED K. MURAKAMI,
Committee Management Officer.

ADVISORY PANEL ON SCIENCE EDUCATION PROJECTS

Notice of Subpanel Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92-463), notice is hereby given of a meeting of the Energy-Related Graduate Traineeships Evaluation Subpanel to be held at 9 a.m. on February 10 and 11, 1975 in room 464, 5225 Wisconsin Avenue, NW., Washington, D.C.

The purpose of this Subpanel is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects.

This meeting will not be open to the public because the Subpanel will be reviewing, discussing, and evaluating individual research proposals. These proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries, and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of P.L. 92-463.

For further information about this Subpanel, please contact Mr. Joseph Danek, Program Manager, Fellowships and Traineeships Section, Rm. 464, National Science Foundation, Washington, D.C. 20550, telephone 202/282-7595.

FRED K. MURAKAMI,
Committee Management Officer.

ADVISORY PANEL FOR SYSTEMATIC BIOLOGY

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92-463), notice is hereby given of a meeting of the Advisory Panel for Systematic Biology to be held at 9 a.m. on February 10 and 11, 1975, at the Fairchild Tropical Garden, 10901 Cutler Road, Miami, Florida.

The purpose of this Panel is to provide advice and recommendations for specific proposals and projects.

This meeting will not be open to the public because the Panel will be reviewing, discussing, and evaluating individual research proposals. These proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of P.L. 92-463.

For further information about this Panel please contact Dr. H. Jack Schultz, Program Director, Systematic Biology, Program, Rm. 331, National Science Foundation, Washington, D.C. 20550, telephone 202/632-5846.

FRED K. MURAKAMI,
Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

LIQUID METAL FAST BREEDER REACTOR PROGRAM

Notice of Availability of Proposed Final Environmental Statement

Notice is hereby given by the Atomic Energy Commission that the General Manager has issued a Proposed Final Environmental Statement on the Liquid Metal Fast Breeder Reactor (LMFBR) program and has solicited written comments on it during the sixty (60) days following publication by the Council on Environmental Quality of the Statement's availability in the FEDERAL REGISTER.

Copies of the Proposed Final Environmental Statement will be placed in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, as well as in the Commission's Albuquerque Operations Office, P.O. Box 5400, Albuquerque, New Mexico 87115; Chicago Operations Office, 9500 South Cass Avenue, Argonne, Illinois 60439; Idaho Operations Office, 550 Second Street, Idaho Falls, Idaho 83401; Oak Ridge Operations Office, Federal Building, Oak Ridge, Tennessee 37830; Richland Operations Office, Federal Building, Richland, Washington 99352; Nevada Operations Office, P.O. Box 14100, Las Vegas, Nevada 89114; San Francisco Operations Office, 1333 Broadway, Oakland, California 94612; and Savannah River Operations Office, Savannah River Plant, Aiken, South Carolina 29801.

Single copies of the Proposed Final Environmental Statement have been sent to all who commented on the draft. Others, who wish to comment within the comment period ending March 25, 1975, may obtain single copies by addressing their request to W. H. Pennington, Office of the Assistant General Manager for Biomedical and Environmental Research and Safety Programs, U.S. Atomic Energy Commission, Washington, D.C. 20545. Comments should be sent to the same address.

The Draft LMFBR Program Environmental Statement was issued on March 14, 1974 (39 FR 9692). Public comments were also solicited prior to the issuance of this Draft Statement (38 FR 27540). Additionally, being intent on affording the public a meaningful opportunity to express their views, the Commission held a legislative-type public hearing on the Draft Statement on April 25-26, 1974.

The Proposed Final Statement enlarges the examination of the matters dealt with in the Draft Statement and sets forth and considers the submitted views of the Environmental Protection Agency, other Government agencies, environmental groups, industrial organizations, and other commenters. The Proposed Final Statement has undergone internal reviews by an interdisciplinary committee of senior AEC personnel not involved in the Statement's preparation as well as by several outside consultants.

Ordinarily, this document would have been considered by the Commission to determine whether it should be issued in its present, or some modified, form as a Final Environmental Statement. In view, however, of the imminent assumption of AEC's research and development functions by the Energy Research and Development Administration (ERDA), the AEC has determined that it would be appropriate for the Administrator of ERDA to consider this document in proposed form prior to concluding the NEPA review process on the LMFBR research and development program. More specifically, the Commission has recommended to the Administrator that he review the Proposed Final Statement, as well as the views and comments received on it, and determine whether it, along with a supplementary document embodying those views and comments, should be adopted as ERDA's Final Environmental Statement on the LMFBR research and development program.

Adoption of the foregoing course of action is not required by NEPA. Nevertheless, in embarking upon it, the AEC considered it appropriate to determine whether or not during this further period of review—estimated to extend through the balance of FY 1975—planned LMFBR program activities should continue. With respect to the LMFBR Base Program, it is planned during this period to continue analytical, experimental and prooftesting activities at AEC laboratories and contractor sites as well as to continue design, construction and operation of test facilities. Principal facilities presently under design and construction are the Fast Flux Test Facility, the Sodium Pump Test Facility, the Fuel Element Failure Propagation Loop System, the Large Leak Test Rig, the Sodium Component Test Facility, and the Component Handling and Cleaning Facility. Those principal facilities which will continue to be operated are the Liquid Metal Engineering Center, the Experimental Breeder Reactor—II, the Zero Power Plutonium Reactors, the High Temperature Sodium Facility, the Tower Shielding Facility, the Transient Reactor Test Facility, and the Hot Fuel Examination Facility. Based upon annualized averages, it is presently estimated that expenditures for the activities described in this paragraph during this further period of review will not exceed $50 million per month.

With respect to the Clinch River Breeder Reactor Project (CRBRP), the Government and industrial participants, during this further period of review, will continue system and component design and will continue to order long-lead material and components. There will be no site clearance or construction activity at the CRBRP site. The components scheduled to be ordered during this period are the reactor vessel, the reactor vessel closure head, the reactor guard vessel, the reactor containment building vessel, three (3) intermediate heat exchangers, the turbine generator, twenty-one (21) primary control rod drive mechanisms, seven (7) heat transport system pumps, three (3) heat transport system valves, six (6) pump and intermediate heat exchanger guard vessels, seven (7) large sodium tanks, ten (10) steam generator modules, the condenser, non-sodium valves, and other related components. This would involve estimated average monthly CRBRP expenditures for the period of further review of about $8 million.

It will be during this period of further review that the FY 1976 request will be made for authorization of appropriations for further expenditures on the Base Program and the CRBRP at planned levels which are commensurate with the conduct of the above-described work in these areas.

In undertaking its examination with respect to the continuation of LMFBR Base Program and CRBRP activities during the period of further review, AEC considered and balanced the same factors it focused on in connection with the following Program and Project Determinations previously announced during earlier periods of the NEPA review:

Project Determination—July 24, 1973 (38 FR 19853)

Project Supplemental Determination—February 26, 1974 (39 FR 7478)

Program Determination—March 27, 1974 (39 FR 11326)

These factors are:

1. Whether it is likely that the continuation of LMFBR Base Program and CRBRP activities during the further period of NEPA review will give rise to a significant adverse impact on the environment; the nature and extent of this impact, if any; and whether redress of any adverse environmental impact can reasonably be effected should modification, suspension or termination of Base Program and/or CRBRP activities result from the NEPA review.

2. Whether continuation of the LMFBR Base Program and CRBRP activities during this further period of review would foreclose subsequent adoption of alternatives.

3. The effect of any delay in the LMFBR Base Program and CRBRP upon the public interest.

4. Whether the additional commitment of resources to the LMFBR Base Program and CRBRP during the prospective review period might affect the eventual decision reached on the NEPA review.

The results of AEC's examination are set forth in the following findings:

1. *Continuation of the LMFBR Base Program and CRBRP activities during the further period of review is not expected to give rise to any significant adverse impact on the environment.* Continuation of the LMFBR Base Program during the balance of FY 1975 will not lead to significant releases of radioactive or nonradioactive air and water pollutants. Releases will be small compared to releases due to other activities at various AEC program sites, and will be insignificant compared to normal industrial activities. All applicable Federal and state air and water quality standards will be met by such releases. Any potential construction impact will be minimized by preventive measures employed during construction. Redress of such environmental impact as will result from construction can be readily achieved and the environment can be returned to original surface contours.

With regard to the CRBRP, system and component design and the long-lead procurement activities will involve design, materials-forming and component manufacturing activities that will be conducted within existing offsite facilities. These activities will constitute a negligible increment to the existing work at these facilities. None of these activities will have any direct environmental impact at the CRBRP site.

2. *Subsequent adoption of alternatives—including reorientation, delay or termination—would not be foreclosed by continuation of the LMFBR Base Program and CRBRP during the further period of review.* The LMFBR Base Program is a long term research and development undertaking which will require much additional time and resources to bring the LMFBR concept to a point where it can be considered to be a commercially viable energy option. The contract work to be performed on the LMFBR Base Program and the system and component design work for the CRBRP during this further period of review is a continuation of prior work and all these contracts are terminable by the Government at any time.

Federal Government FY 1975 funds allocated to energy research and development are estimated to be about $1.6 billion. AEC's portion of this is $803 million. Of that amount about $356 million is assigned to energy research and development in other than LMFBR development. This is an increase of more than $105 million by comparison with the FY 1974 budget for AEC research and development on energy systems other than LMFBR. The Federal Government has no intention of restricting work on any other reactor or energy concept as a result of proceeding with LMFBR activities.

The planned CRBRP procurement activities will be directed only to the purchase of such long-lead time items as reactor components and related materials, the designs of which are well established and the manufacturing period for which is relatively long. These components would not be significantly changed by consideration of plant design alternatives relating to such major factors as plant power level, refueling options, and primary pump location. Moreover, if it were decided as a result of the NEPA review that further pursuit of the LMFBR program were to be deferred or discontinued, procurement of those items not yet delivered could be terminated and other use of or sale for scrap arranged for any deliverable materials, with relatively small dollar penalty. It is estimated that if such a decision were reached by July 1, 1975, the dollar penalty which might result from discontinuance of these procurement activities would be about $15 million of Government and utility funds.

Finally, it should be emphasized that issuance of any construction permit for the CRBRP would be preceded by numerous technical reviews, another environmental statement on the Plant, and a hearing on safety and environmental matters in which interested persons may participate. Provision is also made by regulation and statute for further reviews of any decision to construct, and judicial review at the behest of any party to the construction permit proceeding. The industrial participants in the CRBRP expend their own funds at the financial risk that the outcome of the NEPA review or of the licensing process itself may require some alternative course—including project termination. Cf. *Coalition for Safe Nuclear Power v. AEC, et al.*, 463 F.2d 954.

3. *The public interest would be adversely affected by not continuing the LMFBR Base Program and CRBRP activities during this further period of review since it could result in compromising Base Program and CRBRP viability by the loss of key management, scientific and engineering personnel and would result in delay in realizing the availability of a key energy option for the Nation, with significant adverse consequences in terms of increased Base Program and CRBRP costs and substantial dollar penalties in higher costs of electricity.* In AEC's earlier findings in regard to its interim LMFBR Base Program and Project reviews, it was noted that in assessing the wisdom of delaying the LMFBR program (continuation of which would be contingent on the outcome of the NEPA review), AEC could not blind itself to a

V 40 17 JAN 24 75 XUM

number of compelling national interest considerations. The development of viable energy options for the 1980's and beyond is a matter of vital national concern. The soundness of the domestic economy, the Nation's position in international trade (including, particularly, its balance of payments), the country's nondependence on foreign sources for energy supplies—indeed, the health and welfare of the American people—are directly affected by the availability of adequate means for meeting our overall energy needs during the remainder of this century.[1] The need for this country to have the domestic capability to meet both its near and longer term energy requirements has been strongly emphasized by recent and continuing events regarding the Middle East.

While many of these considerations cannot be quantified in dollar costs alone, it is worth noting that, if the LMFBR program does go forward and succeed, a one-year delay in the commercial availability of the breeder reactor could impose upon the U.S. economy a substantial dollar penalty in higher costs of electricity and increased environmental impact from extended use of less environmentally-compatible power generation facilities.[2]

Additionally, it should be reiterated that while a number of technological, environmental and other problems require treatment in connection with any successful demonstration of the breeder concept, availability of the breeder reactor as an alternative energy option would have special significance in regard to conservation of the Nation's fuel resources. Current-type light water reactors utilize less than 2 percent of the available energy from the uranium fuel which they burn. The LMFBR could utilize more than 50 percent of the total energy from uranium and thus extend the usefulness of domestic uranium reserves from decades to centuries.[3]

Moreover, the basic framework has now been established for all elements of the LMFBR program. A highly dedicated group of managers, scientists and engineers—both in Government and industry—has been brought together to work on the Base Program and CRBRP. A decision to delay or significantly curtail the Base Program and CRBRP during this further period of review would essentially destroy the framework that has been established and would result in the loss of key management, engineering and scientific personnel in the participating organizations. It is estimated that approximately 17,000 people are engaged in LMFBR activities funded by AEC. About one-fourth of these are management, scientific and technical personnel. It is unlikely that a large fraction of these people could be utilized on other programs during the period that the LMFBR Base Program and CRBRP would be delayed or curtailed. Thus, it appears that many of these individuals would be permanently lost to the LMFBR program under such circumstances.

Delaying the presently planned LMFBR Base Program and CRBRP during this period would increase the overall cost of the LMFBP program. This is due to the increased expenditures associated with reducing the level of effort or cancelling subprograms and then restoring these programs later, including those costs associated with the difficult task of reassembling resources, replacing lost personnel, retraining personnel and refurbishing facilities and equipment.

A decision to delay or significantly reduce the Government sponsored LMFBR activities also could have serious adverse implications in terms of the nuclear power industry's willingness to continue its support of the development of the LMFBR.

4. *The additional commitment of resources to the LMFBR Base Program and CRBRP during the further review period would not affect the eventual decision reached on the NEPA review.* Total cumulative expenditures on the LMFBR Base Program and CRBRP through January 1, 1975, have been about $1.9 billion. It is estimated that it will require an additional $8.1 billion of Government funds plus substantial private funds to develop the LMFBR as a commercially-viable energy option. The $250 million projected to be spent over the balance of FY 1975 on the Base Program and CRBRP is not insubstantial; however, in the context of prior and projected expenditures, it is not believed to be of such magnitude as to constitute an irrevocable commitment to the continuation of the Base Program and CRBRP. Nor, for the same reasons, would it affect the outcome of the NEPA review of the LMFBR program or the actions which may be appropriate in light thereof, including reorientation, delay, or abandonment, in whole or in part.

The risk involved in the expenditure of these resources during this further period of NEPA review of the LMFBR program is not unique. Such risks are continually being taken in research and development efforts. Notwithstanding the substantial prior expenditure of time, effort and funds, programs have been terminated where it had been found that their continuation was no longer justified. For example, the AEC-NASA space nuclear propulsion program, involving 15 years of effort and $1.4 billion, was discontinued when the feasibility of a nuclear flight engine for use in space was very close to being established. Examples of other discontinued concepts and their program expenditures include: the sodium-cooled, graphite-moderated reactor ($150 million); the heavy water component test reactor ($23 million); the experimental gas cooled reactor ($105 million); the Los Alamos Molten Plutonium Program ($43 million); and the organic-cooled reactor ($54 million).

Based on the results of the foregoing examination, AEC has determined that the actions expected to be taken during the balance of FY 1975 in connection with the LMFBR Base Program and CRBRP should not give rise to any significant adverse impact on the environment; would neither constitute an irrevocable commitment of resources nor foreclose the subsequent adoption of alternatives of the type that could result from the ongoing review; and, if curtailed, would adversely affect the public interest. Accordingly, the Commission has recommended to the ERDA Administrator that the LMFBR Base Program and CRBRP continue as planned during this further period of review.

Dated at Washington, D.C. this 16th day of January, 1975.

For the Nuclear Regulatory Commission.

PAUL C. BENDER,
Secretary of the Commission.

[Docket No. P-351-A]

PUBLIC SERVICE COMPANY OF OKLAHOMA

Receipt of Partial Application for Construction Permits and Facility Licenses: Time for Submission of Views on Antitrust Matters

Public Service Company of Oklahoma (the applicant), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated November 20, 1974, in connection with its plans to construct and operate two boiling water reactors in Rogers County, Oklahoma, near the town of Inola. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portion of the application consisting of a Preliminary Safety Analysis Report accompanied by an Environmental Report pursuant to § 2.101 of Part 2, is expected to be filed during August 1975. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20545 and at the Local Public Document Room Tulsa City—County Library, Tulsa, Oklahoma 74102. Docket No. P-351-A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before March 18, 1975.

Dated at Bethesda, Maryland this 9th day of January, 1975.

For the Nuclear Regulatory Commission.

WALTER R. BUTLER,
Chief, Light Water Reactors Branch 1-2, Directorate of Licensing.

[Docket Nos. 50-440, 50-441]

CLEVELAND ELECTRIC ILLUMINATING COMPANY, ET AL. (PERRY NUCLEAR POWER PLANT, UNITS 1 AND 2)

Order To Show Cause

I. The Cleveland Electric Illuminating Company, the Duquesne Light Company, the Ohio Edison Company, the Pennsylvania Power Company, and the Toledo Edison Company (the Licensees) are holders of a Limited Work Authorization authorizes the conduct of certain work activities pending the completion of action on the Licensees' application for construction permits for the Perry Nuclear Power Plant, Units 1 and 2 (facility). The proposed construction site is (LWA) dated October 21, 1974,[1] which located on Lake Erie in Lake County, Ohio.

II. On December 9, 1974, the Licensees filed Amendment No. 22 to their Preliminary Safety Analysis Report (PSAR) with the then AEC Regulatory Staff.[2] The Licensees, in this Amendment, proposed a change to a prior commitment[3] to design safety-related buildings and structures to withstand the effects of the hydrostatic pressure resulting from a groundwater level of 618 feet mean sea level. During the course of meeting with the NRC Staff on January 10, 1975, in Bethesda, Maryland, the Licensees stated that the proposed change was prompted because of, inter alia, the impracticality of meeting the Commitment. The proposed change involves unique hydrological and plant design features which might have affected the issuance of the LWA if the change had been known at that time. The effect of these events on the pending construction permit proceeding and the work being conducted under the LWA is discussed below.

Upon the completion of evidentiary hearings concerning environmental and site suitability matters for the facility, the cognizant Atomic Safety and Licensing Board (Board) issued a Partial Initial Decision, Environmental and Site Suitability[4] on September 18, 1974, and a Supplemental Partial Initial Decision, Site Suitability and Environmental Matters on October 20, 1974.[5] The Board in these partial initial decisions made the environmental findings required by 10 CFR 51.52 (b) and (c); and determined, based on the available information and review at that time, that there was reasonable assurance that the proposed site for the facility was a suitable location for two nuclear power reactors of the general size and type proposed by the Licensees. Thereafter, the NRC Staff issued an LWA in accordance with and pursuant to 10 CFR § 50.10(e)(1). The Licensees have commenced work under the LWA and are presently engaged in the performance of such activities.

The application for construction permits, consistent with the Nuclear Regulatory Commission's regulations, is still pending before the Board. Among other considerations, the Board's consideration of radiological health and safety matters remains outstanding.

In the context of the environmental and site suitability phase of the proceeding before the Board, the Licensees' Commitment referred to above served as a predicate for the NRC Staff's position concerning environmental and site suitability matters in connection with the application for the construction of the facility.

The effect of the Licensees' Amendment No. 22 on site suitability is intertwined with radiological health and safety considerations. The Licensees' Commitment enabled the NRC Staff to relegate design questions concerning hydrostatic pressure to their health and safety review phase for resolution. However, the Licensees' recently proposed change represents a significant departure from generally used methods in the nuclear field. In such circumstances, the NRC Staff would have inquired further into various design alternatives to the one proposed in Amendment No. 22 before determining that the proposed site was suitable. A site could be found suitable within the concept of the finding required by 10 CFR 50.10(e)(2) if it were determined that satisfactory design alternative(s) to the unique proposal existed, and that such alternative(s) were not compromised by the work proposed to be performed under the LWA. Based on a preliminary review to date of Amendment No. 22, the NRC Staff believes the proposed change may not be acceptable.[6] Although the NRC Staff believes satisfactory alternatives exist, one such alternative—raising the elevations of the facility foundation—could be compromised by the continuation of the LWA work in this case. Specifically, to the extent excavation work under the LWA would permit any excavation of the lower till, the natural geologic foundation of the site could be so weakened as to foreclose this alternative. The lower till is probably more competent as a foundation material than an engineered backfill (such as crushed rock) which might be placed in the excavation in order to raise the elevation of the plant foundations. Concrete is an engineered backfill material which is as competent as the lower till. However, the financial cost of placing lean concrete as a backfill material in the excavation may render this approach impractical.

With respect to environmental concerns, the NRC Staff concluded that dewatering at the construction site would have a negligible environmental impact because site dewatering could occur only during the limited period required to construct the proposed facility.[7] The bases for this conclusion, however, could be vitiated if the Licensees adopted the permanent dewatering system proposed in Amendment No. 22 because dewatering of the site would occur during the forty-year life of the facility. Moreover, the use of the permanent dewatering system gives rise to a number of environmental considerations which have not been previously reviewed and evaluated by either the NRC Staff or the Licensees. These environmental considerations include (i) the drawdown resulting from the proposed permanent dewatering sys-

[1] See the letter dated October 21, 1974, from Mr. Roger Boyd of the then Atomic Energy Commission's (AEC) Directorate of Licensing to Mr. Harold L. Williams, Vice President—Engineering, Cleveland Illuminating Company. The LWA scope of work was supplemented by Mr. Boyd's November 8, 1974, letter to Mr. Williams. The complete scope of the LWA work is set forth in Attachment A to this Order.

[2] Effective January 19, 1975, the AEC Regulatory Staff became a part of the Nuclear Regulatory Commission and is hereinafter referred to in this Order as the "NRC Staff".

[3] On March 15, 1974, the Licensees committed in Amendment No. 12 to the PSAR to meet the NRC Staff's requirement to design safety-related buildings and structures to withstand the effects of the hydrostatic pressure resulting from a groundwater level of 618 feet mean sea level (hereinafter referred to as the "Commitment").

[4] LBP-74-69, RAI-74-9, p. 538.

[5] LBP-74-76, RAI-74-10, p. 701.

[6] The NRC Staff has questions regarding the structural integrity and the performance characteristics of the proposed permanent dewatering system, including the adequacy of the analytical methods used to determine (a) the basis for the proposed strength of the porous concrete blanket; (b) the basis for the seismic category and the safety classifications proposed for the permanent dewatering system; (c) the basis for the permeability values proposed for the porous concrete blanket; (d) the basis for the analysis of the flow distribution within the porous concrete blanket; (e) the effect of potential random cracking and localized crushing of the porous concrete blanket, as well as potential random differential settlement, on the system performance and functionability; (f) the analytical modeling of the dynamic response of the manholes; (g) the structural integrity of the embedded power supply to the submersible pumps; and (h) the proposed preliminary design of the porous concrete blanket.

[7] Final Environmental Statement, Perry Nuclear Power Plant, Units 1 and 2, § 4.1.1, pp. 4-1, 4-2, dated April 1974.

V40N17 JAN 24 75 XUM

tem which could adversely affect the groundwater level beyond the boundary of the facility site, (ii) the potential adverse effects on the in situ and adjacent biota and vegetation resulting from the drawdown of the groundwater level, (iii) the potential adverse effects of discharging the groundwater from the proposed permanent dewatering system, and (iv) the potential adverse effect on shoreline erosion adjacent to the proposed site resulting from the pattern of groundwater flow which the Licensees propose to alter during the lifetime of the proposed facility. In short, Licensees' Amendment No. 22 requires, in the foregoing respects, further environmental review of the proposed facility.[1]

Copies of the Licensees' PSAR, including Amendments Nos. 12 and 22, Mr. Boyd's letters dated October 21 and November 8, 1974, and all pertinent information have been placed in the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, Northwest, Washington, D.C. 20545 and the Nuclear Regulatory Commission's Local Public Document Room, Perry Public Library, 3753 Main Street, Perry, Ohio 44081.

III. In view of the foregoing and pursuant to the Atomic Energy Act of 1954, as amended, and the regulations in 10 CFR Parts 2 and 50, *It is hereby found and ordered*, That:

The Licensees show cause, in the manner hereinafter provided, why all work activities under the LWA (see Attachment A to this Order) should not be suspended pending completion of the Nuclear Regulatory Commission's review and evaluation of the environmental and site suitability considerations raised by Amendment No. 22 to the PSAR; and

The public health, safety or interest requires, pending further order, that all work activities under the LWA (see Attachment A to this Order) be temporarily suspended, effective immediately with the date of issuance of this Order.

The Licensees may, on or before February 13, 1975, file a written answer to this Order under oath or affirmation. Within the same time, the Licensees or any interested person may request a hearing. If a hearing is requested, the Nuclear Regulatory Commission will issue an order designating the time and place for hearing. Upon failure of the Licensees to file an answer within the time specified, an order will be issued, without further notice, suspending any further activities under the LWA.

In the event that a hearing is requested, the issue to be considered at such hearing shall be: whether or not the work activities under the LWA should be suspended pending completion of the Nuclear Regulatory Commission's review and evaluation of the environmental and site suitability considerations raised by the Licensees' Amendment No. 22 to the PSAR.

Order dated and issued at Bethesda, Maryland, this 20th day of January 1975.

EDSON G. CASE,
Acting Director, Office of Nuclear Reactor Regulation.

ATTACHMENT A

The LWA work activities authorized are:

1. Preparation of the site for construction of the facility (including such activities as clearing, grading, construction of temporary access roads and burrow areas) such as:
   a. Site survey and Layout—establishing permanent plant monuments and baselines.
   b. Clearing, grubbing, and demolition.
   c. Preliminary grading of the plant site.
   d. Diversion of the minor stream east of the plant.
   i. Reconstruction of 850 linear feet of Lockwood Road with a drainage culvert.
   e. Relocation of the major stream.
   f. Grading for Barge unloading facility.
   i. Including construction of the crushed stone reactor haul road.
   g. Site Service Roads.
   h. Relocation of the 16-inch gas pipeline.
2. Installation of temporary construction support facilities (including such items as warehouse and shop facilities, utilities, concrete mixing plants, docking and unloading facilities, and construction support buildings) such as:
   a. Construction Office and Warehouse Building.
   i. Foundations and slab on grade.
   ii. Complete steel superstructure and concrete floors.
   b. Guard House.
   c. Concrete Batch Plant.
   d. Construction Power Substation.
   e. Construction Power Distribution System.
   f. Construction Parking Lots.
   g. Contoured Berms Along Parmly Road.
3. Excavation for facility structures.
4. Construction of service facilities (including such facilities as roadways, paving, railroad spurs, fencing, exterior utility and lighting systems, transmission lines, and sanitary sewerage treatment facilities) such as:
   a. Industrial Waste Lagoon Facility (2 lagoons—unlined).
   i. Foundations.
   ii. Concrete superstructure (retaining walls, etc.).
   iii. Pumphouse structures complete.
   iv. Underdrain filter system.
   v. Earth dikes.
   b. Sanitary Sewerage Facility including the Tertiary Treatment Building.
   i. Foundations including sheet piling as required.
   ii. Concrete retaining walls as required.
   iii. Pipe anchor blocks.
   iv. Building superstructures complete with equipment supports and/or foundations.
   c. Railroad Spur Line—approximately 3½ miles long, entering the plant site from the southwest.
   d. Onsite Railroad Sidings.
   e. Onsite Railroad Bridge—over the relocated major stream.
   f. Primary Access Road.
   i. Bituminous Concrete.
   ii. Includes large corrugated metal drainage culvert.
   g. Sediment Control Dams.
   1. In each of three construction drainage areas on site.
   ii. Dumped riprap protection and a spillway with a metal skimming baffle.
   h. Yard Piping.
   i. Plant storm drainage system—including catch basins and headwalls.
   ii. Fire system.
   i. Site and Access Road Lighting System.
   j. Perimeter Grounding System.
   k. Chemical Cleaning Waste Lagoon—lined.
   l. Oil Interceptor Structures.
   m. Construction Fencing.
5. Construction of the following structures, systems, and components which are not subject to the provisions of Appendix B to 10 CFR Part 50:
   a. Service Building.
   i. Foundations.
   ii. Equipment foundations.
   iii. Superstructure.
   iv. Backfill.
   d. Circulating Water Line Installation.
   e. Circulating Water Pumphouse.
   i. Fill concrete as required.
   ii. Installation of waterproofing membrane.
   iii. Placement of foundation mat.
   iv. Concrete exterior and interior walls.
   v. Backfill.
   f. Water Treatment Building and Auxiliary Boiler Building.
   i. Foundations.
   ii. Equipment foundations and supports.
   iii. Superstructure.
   iv. Backfill.
   g. On-shore Discharge Facility.
   i. Cooling Towers.
   i. Foundations.
   ii. Superstructure and basins.
   iii. Backfill.

[FR Doc.75-2317 Filed 1-23-75;8:45 am]

[1] The NRC Staff, shortly, will file an appropriate pleading with the Board which will set forth the NRC Staff's views concerning what action in that forum, if any, is compelled by these changed circumstances.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on January 20, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the clearance office, Office of Management and Budget, Washington, D.C. 20503 (202-395-4529), or from the reviewer listed.

NEW FORMS

FEDERAL RESERVE SYSTEM

Survey of Maturity Distribution of Large Time Deposits at Weekly Reporting Banks, 416X, single-time, large commercial banks, Hulett, D. T., 395-4730.

ENVIRONMENTAL PROTECTION AGENCY

Ground Water Pollution Problems in the Southeastern United States, on occasion, water resources professionals, Weiner, N., 395-4890.

DEPARTMENT OF DEFENSE

Defense Supply Agency: Scientific and Technical Information Needs of the Defense Community, single-time, DOD contractors, National Security Division, 395-4734.

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Delaying Effectiveness of Proposed Amendment to Option Plan

Notice is hereby given that the Chicago Board Options Exchange, Inc. (CBOE) has filed an amendment to proposed changes in its option plan filed pursuant to Rule 9b-1 (17 CFR 240.9b-1) under the Securities Exchange Act of 1934 delaying their effectiveness until the Commission allows them to become effective or disapproves the changes in whole or in part as being inconsistent with the public interest or the protection of investors.

The proposed amendments to Rules 2.8, 18.1, 18.4, 18.5, 18.7 and 18.13, noticed on December 20, 1974 at 39 FR 44100, seek principally to simplify Exchange arbitration procedures and to reduce the number of arbitrators serving on arbitration panels in controversies arising out of Exchange business. In addition, the proposed amendments would, among other things, change the qualifications of nonmember arbitrators serving on arbitration panels in disputes between Exchange members and nonmembers.

All interested persons are invited to submit their views and comments on the proposed amendments to CBOE's plan either before or after they have become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to file number 10-54. The proposed amendments are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, N.W., Washington, D.C.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

JANUARY 16, 1975.

[70-5608]

JERSEY CENTRAL POWER & LIGHT CO.

Proposed Issue and Sale of First Mortgage Bonds at Competitive Bidding

JANUARY 17, 1975.

Notice is hereby given that Jersey Central Power & Light Company ("Jersey Central"), Madison Avenue at Punch Bowl Road, Morristown, New Jersey 07960, an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Jersey Central proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, up to $35,000,000 principal amount of First Mortgage Bonds, due not later than March 1, 2005 ("bonds"). The interest rate (which will be a multiple of ⅛% of 1%) and the price (which will be not less than 100 percent and not more than 102.75 percent of the principal amount of the bonds, plus accrued interest from March 1, 1975, to the date of delivery) will be determined by competitive bidding. The bonds will be issued under the Indenture, dated as of March 1, 1946, of Jersey Central to First National City Bank, successor to First National City Trust Company (formerly City Bank Farmers Trust Company), Trustee, as heretofore supplemented and amended, and as to be further supplemented and

V40117 JAN 24 75 XUM

amended by a Twenty-sixth Supplemental Indenture to be dated as of March 1, 1975. None of the bonds may be redeemed at the option of Jersey Central prior to March 1, 1980, if the funds for such redemption are obtained at an interest cost lower than the yield of the bonds, except under certain circumstances.

The entire proceeds (exclusive of premium and accrued interest) from the sale of the bonds, will be applied to the payment of a portion of Jersey Central's short-term bank loans outstanding at the date of sale of the bonds, for construction purposes or to reimburse Jersey Central's treasury for funds previously expended for construction purposes. Premium resulting from the sale of the bonds will be used for financing the business of Jersey Central, including the payment of the expenses of issuing and selling the bonds. The estimated cost of Jersey Central's 1975 construction program is approximately $135,000,000 (including allowance for funds used during construction).

The fees and expenses to be incurred in connection with the proposed transaction will be supplied by amendment. It is stated that the Board of Public Utility Commissioners of New Jersey has jurisdiction over the proposed issue and sale of bonds and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than February 12, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

[FR Doc.75-2186 Filed 1-23-75;8:45 am]

ARKANSAS LOUISIANA GAS CO. AND GREYHOUND CORP.

Application for Unlisted Trading Privileges and of Opportunity for Hearing

JANUARY 17, 1975.

The Midwest Stock Exchange, Inc. has filed an application with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and rule 12f-1 thereunder, for unlisted trading privileges in the common stock of the following companies, which securities are presently listed and registered on that Exchange and will continue to be listed and registered on one or more other national securities exchange. Applications have been filed with the Commission to withdraw and strike from listing and registration on the Midwest Stock Exchange the common stock of the following companies, to be effective upon the granting of unlisted trading privileges.

Arkansas Louisiana Gas Company, File Nos. 7-4714, 1-3751.

Greyhound Corporation, File Nos. 7-4715, 1-2117.

Upon receipt of a request, on or before February 5, 1975 from any interested person, the Commission will determine whether the application shall be set down for hearing. Any such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no one requests a hearing, this application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

[FR Doc.2237 Filed 1-23-75;8:45 am]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Delaying Effectiveness of Proposed Amendments to Option Plan

Notice is hereby given that the Chicago Board Options Exchange, Inc. (CBOE) has filed an amendment to proposed changes in its option plan filed pursuant to Rule 9b-1 (17 CFR 210.9b-1) under the Securities Exchange Act of 1934 delaying their effectiveness until the Commission allows them to become effective or disapproves the changes in whole or in part as being inconsistent with the public interest or the protection of investors. The amendments were originally published at 39 FR 44100 on December 20, 1974.

The proposed amendments would modify rule 2.6 in two ways: First, the definition of a quorum for the Floor Procedure Committee would be changed from "three" to a "majority" to reflect the growth in the size of the Committee. Second, the Floor Procedure Committee would be empowered to appoint additional Floor Officials from among those members who are regularly engaged in business on the Exchange floor. These additional Floor Officials would assist the Floor Procedure Committee in overseeing activity on the floor and in maintaining a fair and orderly market. The additional Floor Officials would not be members of the Floor Procedure Committee and would not have the authority to halt trading under Rule 6.3, to declare a fast market and take related action under proposed Rule 6.6 or to impose fines under Rule 6.20.

Proposed Rule 6.6 is new and would grant the Floor Procedure Committee and its members authority to adopt special procedures to deal with unusual market conditions. Whenever a large influx of orders in a particular class of option contracts impairs the maintenance of a fair and orderly market under normal trading procedures, it is proposed that a Floor Official may declare the market in that class to be "fast." Under a "fast market" declaration, a Floor Official would be authorized to do one or more of the following with respect to the class or classes involved:

(i) Assign one or more classes or series of options traded at the post to Board Brokers at other posts.

(ii) Authorize Board Broker clerks to execute transactions.

(iii) Assign brokerage responsibilities for particular series to specific Floor Brokers in the trading crowd.

(iv) Authorize one or more Market-Makers to act as Floor Brokers.

(v) Direct that one or more trading rotations be employed pursuant to Rule 6.2.

(vi) Restrict the entry of new orders into the book.

(vii) Take such other actions as are deemed necessary in the interest of maintaining a fair and orderly market.

The fast market would be terminated as soon as conditions would permit. This proposal is intended to provide an alternative to halting trading under existing rule 6.3.

Proposed rule 6.6 would also empower the Floor Procedure Committee to place restrictions on the entry of certain types of orders in one or more classes or series of option contracts if deemed necessary for the maintenance of a fair and orderly market. Any such restriction would require approval by the Exchange's Board of Directors if it were to remain in effect for longer than two consecutive business days.

All interested persons are invited to submit their views and comments on the proposed amendments to CBOE's plan either before or after they become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to File No. 10-54. The proposed amendments are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, NW, Washington, D.C.

Dated: January 20, 1975.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

[FR Doc.75-2238 Filed 1-23-75;8:45 am]

[File Nos. 24NY-7375, 3-4598]

ROBERT SHELLEY PRODUCTIONS, LTD.

Order Temporarily Suspending Exemption

JANUARY 16, 1975.

I

Robert Shelley Productions, Ltd. ("Productions" or "issuer") is a New York corporation originally located at 14 East 62nd Street, New York, New York. It was organized on April 9, 1971 to engage in production of theatrical, television and film works. The issuer changed its name in January, 1972 to National Cultural Industries, Inc., and its present location is 510 Sylvan Avenue, Englewood Cliffs, New Jersey.

On July 2, 1971 Productions filed a notification pursuant to Regulation A in connection with a proposed offering of 300,000 shares of its $0.01 par value common stock at $1.00 per share. The offering was to be conducted by Norbert Asociates, Inc. as underwriter on a "best efforts one-third-or-none" basis. After one amendment to the notification, the offering commenced on October 19, 1971. The offering was completed on February 11, 1972, with the sale of 161,350 shares.

II

The Commission, on the basis of information reported to it by its staff, has reasonable cause to believe that:

A. The offering circular filed by Productions contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading, in the following respects:

1. The statement that Productions owned certain assets which, in fact, it did not own at the commencement of the offering;

2. The listing of an individual as a director who, in fact, was not a director of the issuer; and

3. The statement that an advance against royalties in the amount of $10,000 was paid to the author of a certain stage play.

B. The terms and conditions of Regulation A have not been met in the following respects:

1. The offering circular inaccurately sets forth the issuer's assets;

2. The offering circular incorrectly identifies an individual as a director of the issuer; and

3. The offering circular incorrectly states the amount of an advance against royalties that was paid to the author of a certain stage play.

C. The offering was made in violation of Section 17 of the Securities Act of 1933, as amended.

D. Orders of Injunction were issued in New York State Supreme Court against the issuer and Robert Shelley, its president, after the filing of the notification which would have rendered the Regulation A exemption unavailable if it had occurred prior to such filing.

III

It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of the issuer under Regulation A be temporarily suspended,

It is ordered, Pursuant to rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption of the issuer under Regulation A be, and hereby is, temporarily suspended;

It is further ordered, Pursuant to rule 7 of the Commission's rules of practice, that the issuer file an answer to the allegations contained in this order within thirty days of the entry thereof;

Notice is hereby given That any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within thirty days after the entry of this order; that within twenty days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for a hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for the said hearing will be promptly given by the Commission. If no hearing is requested and none is ordered by the Commission, the order shall become permanent on the thirtieth day after its entry and shall remain in effect unless it is modified or vacated by the Commission.

By the Commission.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

[FR Doc.75-2239 Filed 1-23-75;8:45 am]

[812-3899]

WELLINGTON FUND, INC., ET AL.

Filing of Application for an Order Permitting Certain Proposed Transactions

JANUARY 17, 1975.

Notice is hereby given That Wellington Fund, Inc., Windsor Fund, Inc., Ivest Fund, Inc., Exeter Fund, Inc., Explorer Fund, Inc., Trustees' Equity Fund, Inc., Wellesley Income Fund, Inc., W. L. Morgan Growth Fund, Inc., Westminster Bond Fund, Inc., and Fund for Federal Securities, Inc., all open-end diversified management investment companies, and Gemini Fund, Inc., a closed-end diversified investment company ("Fund"), all of which are registered under the Investment Company Act of 1940 ("Act"); The Vanguard Group, Inc. ("Vanguard"), a Pennsylvania corporation; and Wellington Management Company ("WMC") (collectively "Applicants"), P.O. Box 823, Valley Forge PA. 19482, filed an application on October 4, 1974, pursuant to section 17(b) of the Act and rule 17d-1 thereunder for an order permitting Applicants to engage in certain transactions. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

WMC is presently the "external" investment adviser to each of the Funds and the principal underwriter for all of the Funds except Exeter and Gemini, which do not continuously offer their shares and have no principal underwriter. Pursuant to investment advisory contracts and principal underwriting agreements between WMC and each of the Funds, WMC, in addition to performing advisory and underwriting functions, also provides virtually all of the day-to-day internal corporate administrative services and most of the personnel required for each Fund's operation.

The application states that the boards of directors of the Funds, which, except for Explorer Fund, consist of the same individuals (Explorer Fund has one less member), have conducted a detailed review and analysis of the means by which the Funds could best obtain corporate administration, investment advisory and distribution services. The boards concluded that the Funds should (a) employ a full-time chief executive officer, a full-time supporting executive and a managerial and clerical staff all of whom would be independent of any external investment adviser or distributor; (b) assume for themselves the responsibility of performing, at cost, most corporate administrative functions presently performed by WMC; and (c) continue to contract with WMC for investment advisory and distribution services. The application states that WMC has agreed to enter into revised advisory and underwriting relationships with the Funds based upon their determination to "internalize" corporate administrative functions and to assist in the implementation of these revised relationships. The application also states that Funds and WMC have negotiated a revised investment advisory fee rate schedule which, based upon specified past and present levels of the Funds' assets, will reduce the total advisory fees to be paid by the Funds to WMC by the amount of expenses previously borne by WMC plus an additional amount that will result in reduced total expenses for the Funds.

Funds propose to internalize their corporate administration functions by acquiring, capitalizing, and operating a "service company"—Vanguard—which will be owned by the Funds. Funds will

V40N17 JAN 24 75 XUM

contract with Vanguard to obtain, at cost, substantially the following services: Fund accounting, including the maintenance of books and records; Fund reporting, including the preparation and filing of federal and state securities and tax reports and shareholder communications; supervision of the maintenance of shareholder accounts; administration of the arrangements between Funds and their custodian and depository banks; performance of budget and control functions, including the preparation of budgets and supervision of payments for services; and monitoring and planning, including the review and evaluation of externally performed services.

Under the proposal, Funds will have their elected executive officers who will be employed by Vanguard and who will be responsible for the Funds' general management. No officers or employees of Vanguard will be permitted to own any securities of or to have interests in any external adviser or distributor for the Funds. The initial board of directors of Vanguard will be composed of the eleven directors of the Funds. The initial staff is estimated to consist of sixty officers and employees, most of whom are presently employed by Funds or WMC.

Applicants propose that Funds capitalize Vanguard by purchasing shares of its common stock (or other securities) in proportion to the Funds' relative net assets on the last business day of the month preceding the date on which shares are purchased. The total initial capitalization cannot exceed $500,000 and is expected not to exceed $300,000, which represents the amount necessary for working capital and the purchase of needed office equipment and furnishings from WMC. Based upon Fund assets on August 31, 1974, Applicants estimate that each Fund would contribute approximately .02 percent of its current net assets and in no event more than .05 percent thereof. The amount invested by each Fund will be periodically adjusted by purchases and sales of Vanguard stock among the Funds to reflect changing net assets, assuring that investments do not become disproportionate. Each Fund will be entitled to vote its shares of Vanguard. In the event a Fund terminates its relationship with Vanguard it will be entitled to receive the fair value of its shares of Vanguard.

Applicants contemplate the purchase by Vanguard of various tangible assets such as office furniture, equipment and supplies necessary for the conduct of its business, including furnishings to be purchased from WMC at a negotiated price not to exceed $60,600.

Section 17(a) of the Act provides, in part, that it shall be unlawful for any affiliated person of or principal underwriter for a registered investment company, acting as principal, knowingly to sell any security or other property to such registered investment company or to any company controlled by such registered company or, knowingly to purchase from such registered investment company any security, with certain exceptions not relevant to the application. Section 17(b) of the Act provides, however, that the Commission, upon application, may exempt a transaction from the provisions of section 17(a) if evidence establishes that the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, and that the proposed transaction is consistent with the policy of each registered investment company concerned and with the general purposes of the Act. Vanguard would be an affiliated person of several of the Funds which will own more than 5 percent of its voting securities. Further, since there will be common directors and Funds will own all of Vanguard's voting securities, Vanguard may be deemed to be directly or indirectly controlled by, or under common control with, one or more of the Funds. Vanguard's ovting securities, Vanguard ated person of Funds; and Funds may be deemed to be affiliated persons of each other. WMC is an affiliated person of each of the Funds. Thus, Applicants state, the proposed purchases and sales of Vanguard shares between Funds and Vanguard and sales of tangibles by WMC to Vanguard may be deemed subject to the provisions of section 17(a).

Section 17(d) of the Act and Rule 17d–1 thereunder, in pertinent parts, prohibit an affiliated person of a registered investment company, acting as principal, to participate in, or effect any transaction in connection with any joint enterprise or arrangement in which any such registered investment company or a company controlled by such registered company is a participant with the affiliated person unless an application regarding such transaction is filed and an order is granted approving such joint enterprise or arrangement prior to its submission to security holders for approval; and provide that, in passing upon such application, the Commission will consider whether the participation of such registered or controlled company in such arrangement is consistent with the provisions, policies and purposes of the Act, and the extent to which such participation is on a basis different from or less advantageous than that of other participants.

Applicants state that by virtue of the affiliations described above one, or more or all of the Funds, Vanguard and/or WMC may be deemed to be engaged in such a joint transaction and prohibited from participating in the proposed transaction unless the Commission issues an order allowing the implementation of the proposal.

Applicants therefore, request an order pursuant to section 17(b) of the Act and rule 17d–1 thereunder permitting (1) Vanguard to issue and the Funds to purchase securities of Vanguard as described above; (2) Funds periodically to purchase and sell their securities of Vanguard among themselves to maintain ownership of Vanguard proportional to their assets; (3) WMC to sell office furnishings and equipment to Vanguard; and (4) Funds, Vanguard and/or WMC to enter into and implement the proposed joint transaction described herein.

Applicants represent that all the proposed arrangements and transactions described in the application comport with the applicable statutory standards.

Funds state that by internalizing the management of Funds' corporate administrative affairs through Vanguard the Funds can achieve increased independence from, and an increased ability to monitor and evaluate the performance of, any external investment adviser or distributor, thereby increasing their ability to obtain the best investment advisory, distribution, and administrative services at a reasonable cost. The Funds further state that the proposed arrangement will increase the Funds' bargaining in obtaining advisory and underwriting services and reduce the Funds' expenses both immediately and in the long run by having corporate administrative services performed at cost. The Funds estimate that their expenses will be immediately reduced by approximately $300,000 to $500,000. The Funds state the proposed capitalization of Vanguard to be reasonable in view of the anticipated working capital needs of Vanguard and the de minimis portion of each Fund's assets to be invested and fair since each Fund will contribute capital in proportion to its current net assets with the capital contributions being adjusted periodically so that no Fund will have a disproportionate investment. Applicants also state the consideration to be paid to WMC for office furnishings and equipment necessary to conduct Vanguard's business is reasonable and fair and involves no overreaching on the part of any person concerned.

Applicants further note that the proposed arrangement will be submitted for approval by each Fund's shareholders who must also approve any necessary changes in Fund policies. The Funds state that the essential purposes of the proposal—to increase their independence and control of their affairs, increase their ability to obtain and monitor external services and reduce costs—are consistent with the provisions, policies and purposes of the Act.

Notice is further given That any interested person may, not later than February 11, 1975 at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing)

upon Applicants at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. As provided by Rule O–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of hearing (if ordered) and any postponements thereof.

By the Commission.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice 681]

ASSIGNMENT OF HEARINGS

JANUARY 21, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 140008 Sub 1, Wellington Transportation Corporation, now being assigned March 17, 1975 (2 days), at Kansas City, Mo., in a hearing room to be designated later.

MC 44795 Sub 13, Kissick Truck Lines, Inc., now being assigned March 19, 1975 (2 days), at Kansas City, Mo., in a hearing room to be later designated.

MC 139979, American Colloid Carrier Corp., now being assigned March 21, 1975 (1 day), at Kansas City, Mo., in a hearing room to be designated later.

MC–F–12218, Crouch Bros., Inc.—Control—Caddo Express, Inc., and MC 134308 Sub 8, Caddo Express, Inc., now being assigned March 24, 1975 (1 week), at Kansas City, Mo., in a hearing room to be designated later.

MC 116763 Sub 284, Carl Subler Trucking, Inc. now being assigned February 21, 1975, at Chicago, Ill., Room 1086A, Everett McKinley Dirksen Building, 219 S. Dearborn St.

MC 117165 Sub 37, C. J. Davis, DBA St. Louis Freight Lines, now being assigned, February 20, 1975, at Chicago, Ill., Room 1086A, Everett McKinley Dirksen Bldg., 219 S. Dearborn St.

MC 139841, Denver Trans-Corp., now assigned February 3, 1975, at Denver, Colo., is cancelled and the application is dismissed.

MC 119774 Sub 77, Eagle Trucking Company, now assigned January 29, 1975, at Denver, Colorado, is cancelled and the application is dismissed.

MC–F–12224, Century Express, LTD.—Purchase—Lansdale Transportation Co., Inc., now assigned January 29, 1975, at Philadelphia, Pa., is postponed indefinitely.

MC 124211 Sub 244, Hilt Truck Line, Inc., now assigned February 5, 1975, at Denver, Colorado, is cancelled and the application is dismissed.

MC 106401 Sub 38, Johnson Motor Lines, Inc., application dismissed.

MC 139724 Sub 2, Novo Package Delivery, Inc., application dismissed.

MC 139794 Sub 1, Somerset Limousine Service, Inc., application dismissed.

No. 36060, Seaway Port Authority of Duluth, et al. v. Burlington Northern, Inc., et al., now being assigned April 22, 1975 (4 days), at St. Paul, Minn., in a hearing room to be designated later.

MC 107496 Sub 950, Ruan Transport Corporation, now assigned February 6, 1975, at Chicago, Ill., is advanced to February 3, 1975, in Room 204A, Everett McKinley Dirksen Building, 219 S. Dearborn St., Chicago, Ill.

[I.C.C. Order 138 Under Rev. S. O. No. 994]

BURLINGTON NORTHERN, INC. AND CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD CO.

Rerouting or Diversion of Traffic

In the opinion of R. D. Pfahler, Agent, the Burlington Northern Inc., and the Chicago, Rock Island and Pacific Railroad Company are unable to transport traffic to or from connections or to or from shippers located at Burlington, Iowa, or Mediapolis, Iowa, because of flooding.

It is ordered, That: (a) The Burlington Northern Inc., and the Chicago, Rock Island and Pacific Railroad Company being unable to transport traffic to or from connections or to or from shippers over their joint line between Burlington, Iowa, and Mediapolis, Iowa, because of track damage from high water and flooding; that carriers and their connections are hereby authorized to reroute or divert such traffic via any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Concurrence of receiving roads to be obtained.* The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) *Notification to shippers.* Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date.* This order shall become effective at 3:30 p.m., January 10, 1975.

(g) *Expiration date.* This order shall expire at 11:59 p.m., January 31, 1975, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., January 10, 1975.

INTERSTATE COMMERCE COMMISSION,
R. D. PFAHLER,
Agent.

[F.R. Doc.75–2258 Filed 1–23–75;8:45 a.m.]

FOURTH SECTION APPLICATION FOR RELIEF

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with rule 40 of the general rules of practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 42929—*Wrought Iron or Steel Oil Country Tubular Goods and Line Pipe to Colley, Louisiana.* Filed by Southwestern Freight Bureau, Agent, (No. B–507), for interested rail carriers. Rates on wrought iron or steel oil country tubular goods and line pipe, in carloads, as described in the application, from Minnequa and Pueblo, Colorado, to Colley, Louisiana.

Grounds for relief—Rate relationship.

Tariff—Supplements 62 and 63 to Southwestern Freight Bureau, Agent, tariff 259–F, I.C.C. No. 5080. Rates are

V40117 JAN24 75 XUM

published to become effective on February 20, 1975.

By the Commission.

[AB 43 (Sub-No. 7)]

ILLINOIS CENTRAL GULF RAILROAD CO.

Abandonment of Line

Upon consideration of the record in the above-entitled proceeding; and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, that no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. §§ 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Massac County, Ill., on or before January 29, 1975, and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 13th day of January, 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,
Secretary.

[AB 43 (Sub-No. 7)]

ILLINOIS CENTRAL GULF RAILROAD COMPANY, ABANDONMENT BETWEEN METROPOLIS AND BROOKPORT, MASSAC COUNTY, ILLINOIS

The Interstate Commerce Commission hereby gives notice that by order dated January 13, 1975, it has been determined that the proposed abandonment by the Illinois Central Gulf Railroad Company from Metropolis to Brookport, in Massac County, Ill., a distance of 5.78 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmetal Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental effects of the proposed action are not considered significant because no traffic has been handled on the line since March, 1973, no diversion of traffic from rail to truck will occur, and there are no development plans or land use policies in the tributary territory which are dependent on the availability of rail service. In addition, no major ecological impacts would result should the abandonment be authorized. Furthermore, the Illinois Department of Conservation and the Massac County Bicentennial Committee have expressed their desire to purchase that portion of the right-of-way that passes through Fort Massac State Park for a linear park.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before February 17, 1975.

This negative environmental determination shall become final unless good and sufficient reason is filed to demonstrate why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[FR Doc.75-2257 Filed 1-23-75;8:45 am]

[Finance Docket No. 25949]

LEHIGH VALLEY RAILROAD

Abandonment of Line

JANUARY 21, 1975.

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, That no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in the Borough of Towanda, Pa., on or before January 29, 1975, and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 16th day of January, 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Finance Docket No. 25949]

LEHIGH VALLEY RAILROAD, ABANDONMENT BETWEEN DUSHORE AND TOWANDA, PENNSYLVANIA

The Interstate Commerce Commission hereby gives notice that by order dated January 16, 1975, it has been determined that the proposed abandonment of its entire line of the Lehigh Valley Railroad (LV), between Dushore and Towanda, Pennsylvania, a total distance of 20.889 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts are not considered significant because there have been no operations over the line since June 1972, and prospects for substantial increased demand are speculative, alternate means of transportation are available including rail service over the lines of the Lehigh Valley Railroad Co. at Towanda. The increase in traffic created by diversion to motor carriers will not result in a significant increase in energy consumption nor a significant degradation of the area's air quality or noise levels. The Pennsylvania Department of Transportation is negotiating with Lehigh Valley to purchase this line and restore service at least initially to Monroeton. Reinstitution of service by the State would substantially mitigate any anticipated adverse effects.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before February 17, 1975.

This negative environmental determination shall become final unless good and sufficient reason is filed to demonstrate why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[FR Doc.75-2259 Filed 1-23-75;8:45 am]

[Docket No. AB 33 (Sub. No. 6)]

UNION PACIFIC RAILROAD CO.

Abandonment of Line

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, that no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Jackson County, Colo., on or before January 21, 1975, and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 6th day of January, 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Docket No. AB 33 (Sub-No. 6)]

UNION PACIFIC RAILROAD COMPANY ABANDONMENT PORTION, COALMONT BRANCH BETWEEN WALDEN AND HEBRON, IN JACKSON COUNTY, COLORADO

The Interstate Commerce Commission hereby gives notice that by order dated January 6, 1975, it has been determined that the proposed abandonment by the Union Pacific Railroad Company of its line from Milepost 93.00 at Walden southwesterly to Milepost 108.00 at Hebron, a distance of about 15.0 miles, all in Jackson County, Colo., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental effects of the proposed abandonment are not considered significant because no traffic has moved over the line since 1970 and there is no immediate prospect of obtaining additional business that would warrant continued operations and maintenance. Although abundant coal resources are located in the general area affected by the abandonment, there are no indications that these resources will be developed in the near future or will be adversely affected by the proposed abandonment. In addition, any anticipated shipments in the area involved can be accommodated by motor carrier services with negligible impacts on the local air and water quality.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before February 5, 1975.

This negative environmental determination shall become final unless good and sufficient reason is filed to demonstrate why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

FRIDAY, JANUARY 24, 1975

WASHINGTON, D.C.

Volume 40 ■ Number 17

PART II

FEDERAL COMMUNICATIONS COMMISSION

■

SCHEDULE OF FEES

V40-17 JAN24 75 XUM

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19658; FCC 75-32]

PART 1—PRACTICE AND PROCEDURE

PART 13—COMMERCIAL RADIO OPERATORS

Fee Schedules

In the matter of amendment of Subpart G of Part 1 of the Commission's rules relating to the schedule of fees. Docket No. 19658.

Amendment of Part 13 of the Commission's rules relating to commercial radio operator licenses.

1. On August 7, 1974, the Commission adopted a further notice of proposed rule making in the above-entitled matter looking toward a general revision of the Commission's schedule of fees.[1] It was indicated at the time of adoption of the Commission's first schedule of fees that we would undertake a continuing review of the schedule.[2] The current proceeding is a reflection of that continuing review. A large number of comments, both formal and informal, have been received and fully considered.

2. The statutory basis for the establishment of a schedule of fees by the Commission is Title V of the Independent Offices Appropriation Act of 1952, 31 U.S.C. 483a (hereinafter referred to as Title V). That section provides:

> It is the sense of the Congress that any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration, or similar thing of value or utility performed, furnished, provided, granted, prepared, or issued by any Federal agency (including wholly owned Government corporations as defined in the Government Corporation Control Act of 1945) to or for any person (including groups, associations, organizations, partnerships, corporations or businesses), except those engaged in the transaction of official business of the Government, shall be self-sustaining to the full extent possible, and the head of each Federal agency is authorized by regulation (which, in the case of agencies in the executive branch, shall be as uniform as practicable and subject to such policies as the President may prescribe) to prescribe therefor such fee, charge, or price, if any, as he shall determine, in case none exists, or redetermine in case of any existing one, to be fair and equitable taking into consideration direct and indirect cost to the Government, value to the recipient, public policy or interest served, and other pertinent facts, and any amount so determined or redetermined shall be collected and paid into the Treasury as miscellaneous receipts • • •.

3. The Commission first adopted a schedule of fees in 1963. That schedule was limited in its scope and established nominal fees producing revenue that totalled approximately 25 percent of the Commission's current appropriations.[3] In 1970 the Commission adopted a new and comprehensive schedule intended to produce a fee revenue that would generally approximate the Commission's costs.[4] *Fees Schedule*, 23 FCC 2d 880 (1970), 28 FCC 2d 139 (1971). However, on March 4, 1974, the Supreme Court handed down its decision in *National Cable Television Association, Inc.* v. *United States*, 415 U.S. 336 (1974), a case which had arisen out of a number of petitions for judicial review of the schedule of fees adopted by the Commission in 1970.[5] While the case before the Supreme Court involved only the cable television annual fee, the decision raised certain basic questions with respect to the manner in which the Commission had computed the fees adopted in its 1970 schedule. Since Title V must of course be interpreted by the Commission in the future in light of the Supreme Court's construction of the statute, we issued the further notice of proposed rule making on August 7, 1974 which is the subject of this Report and Order. The notice reflected the remand of the case for further proceedings directed by the Supreme Court with respect to the cable television annual fee and, in addition, proposed other revisions in the schedule of fees in light of the Court's interpretation of the statute.

4. The Supreme Court in the NCTA decision remanded the matter for further proceedings consistent with its opinion after holding that since the Commission's activities benefit the public as well as the regulated industries, the Commission could not merely calculate the total cost of supervision and then contrive a formula that reimburses the Commission for that amount; the Congressional aim that franchisees pay some of the cost of necessary regulation, the Court stated, can be achieved within the framework of "value to the recipient" as contrasted with the public policy interest that is also served. Thus, the Court rejected the concept that the Commission's fees should approximate its budget, stating that the cable television annual fee should not include the agency's costs "for the protective services rendered the public by the Commission." Our Further Notice of Proposed Rule Making was designed to revise the schedule of fees in accordance with the Court's directive.

5. We note at the outset that numerous comments in this proceeding argued that the Court declared annual fees to be illegal *per se*. However, the Court's opinion does not support their contention. We also take note of the fact that the dissent expressly declared its dissatisfaction with the majority's failure so to hold. We therefore reject the contention that the statute withholds power to fashion fees payable on an annual basis.[6]

6. The further notice proposed a revised schedule of fees under which only the costs of those Commission activities that are specifically identified as benefitting identifiable recipients are included as costs to be recovered in the fee program. A fundamental ground upon which the Further Notice was based and upon which the schedule adopted herein is based is that the "value to the recipient" factor is reasonably related to a portion of the Commission's costs. When the *NCTA* decision is read together with Title V, a clearly reasonable interpretation that will result in a workable statute is to base the fees as a reflection of value to the recipients upon the cost of Commission activities that confer a benefit on identifiable recipients. The comments have uniformly failed to recognize this. The value to the recipient cannot practicably be construed as an abstract concept unrelated to the other considerations set out in Title V. The Court's discussion in *NCTA* of the "protective services" the Commission renders the public as compared to the benefits it confers on individual recipients indicates, as does the statute itself, that the costs of providing those benefits constitute the base, and outer limit, for Commission fee recovery. Otherwise the Commission could base its fees on the "true" value to the recipient in an economic sense, and we suspect that no one would argue that the value to individuals of the hundreds of thousands of authorizations issued each year by the Commission does not exceed the Commission's total costs of operation manyfold. Thus, in attempting to revise our schedule of fees in a manner that will be consistent with Title V as construed by *NCTA*, we have identified those areas, primarily processing of applications and other authorizations, which provide a clear value to identifiable recipients. The costs of providing these benefits were set as the upper limit of fee recovery in each area and viewed as equivalent to the total value to all recipients of the specific services. However, rather than dividing the costs equally among all applicants e.g., for broadcast construction permits, which would seem unfair, or attempting to assess fees based on the Commission's actual costs of processing each individual application, which would be unreasonably difficult, if even possible, the value to the recipient concept has been used to establish reasonable fees that reflect the varying value to the myriad of different kinds and sizes of Commission applicants and licensees, whether it be a television station with a spot rate of $3,000 or a radio station with a spot rate of $5; a cable television system with 500 subscribers or 5,000 subscribers; an amateur radio station or a station providing service on a commercial basis in the 806–947 MHz band. It is simply unrealistic

[4] On February 26, 1974 the Commission adopted a further Report and Order establishing a new schedule of fees that was to have been effective May 1, 1974. See FCC News Report No. 9201, February 27, 1974. On March 7, 1974, this Report and Order was set aside. See FCC News Report No. 9233, March 8, 1974.

[5] Petitions for review of the 1970 schedule were consolidated in the United States Court of Appeals for the Fifth Circuit which, in the case of *Clay Broadcasting* v. *United States*, 464 F. 2d 1313 (1972), affirmed the Commission's schedule of fees in all respects. Only the National Cable Television Association petitioned the Supreme Court to review the *Clay Broadcasting* decision.

[6] See Order of Court of Claims in *Cannon Beach TV Co. Inc., et al.* v. *United States* (Case No. 82-74), November 15, 1974 at p. 2.

to suggest, as many comments have, that the value received from such Commission authorizations does not justify the fees.

7. Another basic point which has also been generally ignored and/or misunderstood by the comments, is that a Commission activity that benefits a recipient may be made subject to a fee even though the activity is performed to insure that the authorization received is exercised in a manner which serves the public interest. This point was emphasized in the further notice:

> The Commission does not consider that either Title V or the *NCTA* decision establishes mutually exclusive categories of services, i.e., the Commission is not limited to charging fees for services which solely benefit the recipients of those services. Such a view would render Title V a nullity because the very basis for the establishment of the Commission was the protection of the public interest in wire and radio communication, and public interest considerations are thus an inherent part of all Commission activities. It is our view that the Commission is authorized to charge fees for those services that provide a value to identifiable recipients, which we have identified as activities associated with processing of applications that provide authorization for individuals, for example, to operate radio transmitters, or sell radio equipment, or collect common carrier charges. The fact that the general public may also benefit by Commission authorization of such activities, in that the activities may directly or indirectly provide a service to the public, does not limit the Commission's authority to charge a fee to the recipients of the services that will allow those services provided by the Commission to be operated on a self-sustaining basis as mandated in Title V.[7]

8. Numerous parties commented that the costs of all of the Executive Director's Office should be excluded from the fee collection base as not being directly attributable to application processing and related activities. However, there can be no doubt that the included portions of the Executive Director's Office do provide essential administrative support to the offices and bureaus engaged in the processing itself. As such, they are indirect costs of applications processing which should properly be included in the fee base.

9. Numerous parties objected to the inclusion of the cost of hearings in the fee base. It was frequently pointed out that hearings are required in order to determine whether a licensee is operating in the public interest or which of several competing applicants for a license could best serve the public interest, and it was claimed that the Commission's hearing role is as guardian of the public interest rather than as a provider of value to a recipient. Furthermore, it was argued that hearings are already very costly to Commission licensees and applicants, who should not have to bear the additional burden of the costs of protecting the public. As the Commission observed in the further notice, "the public interest factor is more clearly focused when a hearing is involved."[8] However, it has not been the Commission's view that either Title V or the *NCTA* decision establishes mutually exclusive categories of services, i.e., those that solely provide value to a recipient and those which solely benefit the public. Although the public interest may be more clearly focused, hearings are only one phase of the process the ultimate result of which is the granting of licenses or otherwise providing some value to an identifiable recipient. Whether it be in hearings or in non-hearing review of applications to see if specific standards are met by an applicant, all of the Commission's processing relates to a request for an authorization which is of direct value to the recipient. This cost, we believe, is recoverable through fees.

10. On March 29, 1974, the Commission suspended the collection of the cable television and broadcast annual fees in view of the substantial questions raised by the opinion of the Supreme Court in the *NCTA* case. However, it is clear that the Supreme Court did not declare annual fees illegal *per se*, and there appears to be no reason for not reassessing annual fees for the period in which the suspension order has been in effect. The fees will be determined using the same method employed to calculate the other fees adopted in this Report and Order, but with the budget for fiscal year 1973 as the cost base. The recalculated cable television annual fees for calendar years 1973 and 1974 are being computed in this manner. The cable annual fee for calendar year 1975 will be as set forth in the appendix. The broadcast annual recalculated fee will cover the period April 1, 1973–December 31, 1974. The fee for any part of the twelve month fee payment period occurring after December 31, 1974 will be the fee appearing in the appendix. These fees and their due date will be announced in a second Report and Order to be issued in the very near future.

BROADCAST SERVICES (§ 1.1103)

11. The schedule of fees applicable to Broadcast Bureau applications has been altered significantly as a result of consideration of the comments and a re-examination of the varying processing costs of different applications. It appears that in fact annual fees and assignment and transfer fees produce revenues somewhat higher than the cost of processing renewal applications and transfer applications respectively whereas the revenues from fees for applications for construction permits, major and minor changes and other similar applications are considerably less than the cost of processing these applications. In light of this, we concluded that it would be advisable to determine more precisely the cost of processing the various applications filed with the Bureau and the cost of hearings related to those applications so that fee revenues would more nearly approximate the costs of processing each category of application.

12. As explained in the further notice, the cost figures utilized in developing the fee schedule were those appearing in the Commission's fiscal year 1975 budget estimates submitted to Congress. These estimates are prepared primarily by activity rather than by Commission organizational unit. The word "activity" denotes discrete functions within the Commission such as broadcast and common carrier and includes costs allocated from the administrative law judges, Review Board, Office of Opinions and Review, the Data Automation Division and the Dockets Branch. Each activity is divided into sub-activities which further describe discrete functions within each activity. Of the seven Broadcast sub-activities, the Commission, in developing the further notice, determined that the costs of only two, application processing and related hearings, could be recovered by fees. Thus, in further refining the cost allocation, the primary task was to allocate the cost of the two sub-activities—application processing and hearings—among the three primary categories of applications—renewals, assignments and transfers and facilities applications (applications for construction permits, major and minor changes, etc.).

13. Using estimated costs for the various units of the Broadcast Bureau which process the applications, the percentage of the cost of processing each type of application to the whole bureau cost of application processing was determined. These percentages were applied to the application processing sub-activity costs to determine the cost of processing each type of application. Two per cent was substracted from each of these figures to account for the cost of processing fee exempt applications. Using estimates of the number of broadcast applications which would be designated for hearing in fiscal 1975, the percentage of the cost of hearings for each type of application to the whole cost of hearings was determined. As with the application processing sub-activity, these percentages were applied to the costs of the hearings sub-activity to determine the cost of hearings for each type of application. Two per cent was subtracted from each figure to account for enforcement hearings.

14. The fee recoverable costs for processing and hearings for each category of application were added. The portion of the cost of the Executive Director's Office assigned to Broadcast activity was divided between the three categories of applications on the basis of the ratio of each to the total Broadcast fee recoverable costs. The cost of the Antenna Survey program attributable to the Broadcast Bureau was then added to the total for facilities applications. The resulting total fee recoverable costs were $1,509,178 for renewal applications, $908,272 for transfer applications and $4,558,184 for facilities applications.

15. By utilizing the method described above we have determined more precisely the costs which are incurred in the processing of each category of application. The total fee recoverable cost for the entire Bureau activity utilizing this

[8] *Id.* at 406.

V40N17 JAN24 75 XUM

method is approximately the same as the total fee recoverable cost appearing in the Further Notice.

16. The annual fee has been lowered from that proposed in the Further Notice in order to recover the $1,509,178 cost of processing renewal applications. We find no basis for the contention in several of the comments that the annual fee does not conform to the value concept set forth in the *NCTA* decision. It should be clear that the broadcast annual license fee is imposed in lieu of a renewal application fee. In the 1970 Report and Order in Docket 18802, adopting the present schedule of fees, the Commission pointed out that "upon the effective date of the fee schedule, renewal fees for all broadcast applications will be abolished in favor of annual operating fees."[9] We think there is no question that a fee based on license renewal is soundly rooted in the concept of value to the recipient. We do not agree with the argument in a number of comments that a renewal application fee would be more consistent with the *NCTA* decision. There is nothing in either *NCTA* or in *New England Power Co.* v. *Federal Power Commission*, 415 U.S. 345 (1974), which prohibits *per se* the use of annual fees. When it has been determined that certain Commission activities are of the type that provide valuable benefits to identifiable recipients, there may be a number of methods of assessing a fee. The selection among alternatives is within the Commission's discretion, and we have found nothing in the comments that raises any serious question as to the reasonableness of the selection of an annual fee as opposed to a renewal application fee for recovery of costs attributable to the renewal of operating authority every three years.

17. The assignment and transfer fee has also been lowered further to recover $908,272, the cost of processing assignment and transfer applications. A number of comments raised questions as to both the general policy and the modification of assignment and transfer fees proposed in the further notice. There is no real question, as has been pointed out on numerous occasions, that the grant of an assignment or transfer application results in substantial benefits for the applicant. Moreover, the revised method of assessing the grant fee based on the gross revenue of the station involved clearly provides a reasonable and, we think, quite precise allocation of the fee among various types and sizes of applicants. Several parties also state that the collection of fees in assignment and transfer cases where there is an intervivos gift will have an inhibiting effect on gifts to charitable institutions and would also complicate estate planning. However, assuming that any substantial effect could be demonstrated, we do not believe that its consideration is relevant here. As the Supreme Court made amply clear in the *NCTA* case, our function is not to levy a tax based upon considerations of public policy, but rather to assess a fee to compensate for Commission work done which is of value to the recipient.

18. The various fees charged for the processing of applications by the Facilities Division have been raised so that fee revenues will more nearly approximate the costs of processing of those applications. As stated earlier this cost is $4,558,184. The schedule adopted here is designed to recover approximately $1,200,000. We believe that the various fees are reasonable and fully conform to Title V's mandate and the Supreme Court's decision in *NCTA*. Higher fees, although arguably warranted by the high cost of processing these types of applications, would not properly reflect the value to the recipient of our authorizations as the Supreme Court required. Therefore, we have concluded that we will not recover a large portion of the costs of processing facilities applications.

19. One party contends that the amount of some of the broadcast fees has an inhibiting effect on the Commission's regulatory actions, in that the Commission would hesitate to modify or fail to renew a license or to revoke a license, where the party affected could be said not to have had the opportunity to get the full benefit of the authorization for which the fee was paid. This concern is without foundation, and we note that no basis for it has been supplied.

ASSIGNMENT AND TRANSFER GRANT FEE

20. One of the comments suggests that the gross revenue approach is an improvement in the method of assessing grant fees because it gives a definiteness to the administration of the fee. However, that party also argues that the Commission has not disclosed its method of deriving the formulae used for arriving at different grant fees for different types of applications. We believe that the discussion in the further notice, 48 FCC 2d 409–11, as well as the internal Commission documents used in developing this portion of the schedule, which have been placed in the public docket, have given interested parties adequate and complete information as to the method by which the various formulae components were developed.

21. The rates (multipliers) that are contained in the formula represent the mathematical basis for computing the fee, using the underlying market value of the property in lieu of consideration, which was the base in the 1970 schedule. The use of the gross revenue method of computation of the grant fee in assignment and transfer cases meets the tests specified in *NCTA*, and it gives nearly complete administrative certainty as well as making it easy for the parties negotiating a transaction to compute the fee.

22. One of the parties suggests that the annual gross revenue figure, as reported on line 19 of FCC Form 324, should be reduced by the amount of line 15 of Form 324, *i.e.*, "All Broadcasting Revenues Other Than from Time Sales", because they say those "are not sufficiently related to broadcasting functions to warrant their inclusion in the basis for computation of the Commission's grant fee * * *" The amount of revenues disclosed on line 15, while not a part of time sales, is one of the components of the revenues that determine the entire market value of the broadcast property. Moreover, it would be a rare case in which they were a significant portion of the total annual gross revenues. We believe that certainty obtained in using the total annual gross revenues justifies its use.

23. Several of the parties vigorously challenge the charging of fees for acquisitions of further ownership interests within the two-year period following the transaction that gave rise to the necessity for filing the assignment or transfer application. The challenge is that such a fee is unreasonable and arbitrary because there is no application to process, and all that is involved is record changing in the station's ownership file. As we clearly outlined in the further notice, the Commission based the recovery of such a fee on the ground that interests acquired within the two-year period prior to the "control-acquiring" transaction that gives rise to the necessity of filing an application, and within the two-year period thereafter, are parts of the entire transaction. That is, we utilized the "transactional" approach (48 FCC 2d 412–13). The fact that little or no work is involved in changing the ownership records for additional acquisitions of ownership interests within the specified period is not the determining factor. The Commission is of the opinion that these acquisitions in practically all cases are part of a plan to acquire more than just majority control of the licensee, and we cannot reasonably permit a step-by-step acquisition to be used to frustrate the normal fee collection. Since the acquisitions within the period are part of a process of acquisition a grant fee calculated upon the entire process is fair and reasonable.

24. A number of parties contend that the Commission should create an exemption from grant fees for assignment and transfer applications that are based on involuntary changes in legal ownership to an executor or administrator upon the death of a licensee, a partner, or principal stockholder. They argue that fees in such cases are an undue burden, and are inequitable. Under the present provisions of Note 5 to § 1.1111(a)(5), such Form 316 applications filed pursuant to § 1.541 are exempt from the payment of grant fees. Note 5 makes clear that grant fees are required only on Form 316 applications filed pursuant to § 1.540 (b)(3) or (b)(6). Of course, as in all Form 316 applications, filing fees are required.

25. Two of the parties state that the grant fees to be charged in partnership cases where a "less than controlling" interest in the partnership is transferred are discriminatory because "less than controlling" interests in a corporate licensee can be transferred without payment of grant fees. There is an apparent anomaly. However, the choice of business organization is of course voluntary and generally based upon other considerations. This choice has numerous "side effects," of which this is one. Because of the legal characteristics peculiar to a partnership, changes in its makeup result in the termination of the old entity and the creation of a new legal entity. Therefore, an application is required, work is done by the Commission and a benefit is conferred. A change in ownership of a corporation does not require the filing of an application if less than control is involved. The fact that an application is not required does not mean that no benefit may result from the change, but it does mean that there is no need to invoke the Commission's processes and that, accordingly, there is not the same basis for assessment of a fee as is the case with a partnership.

26. One party stresses the need for confidentiality (that was proposed in paragraph 27 of the further notice) of the gross revenue figures that are to be used in the computation of grant fees in assignment and transfer cases. Two specific steps are here outlined to carry out this objective. Section 0.457(d)(1)(i) will be modified by the addition of a Note to grant confidentiality; any correspondence with respect to the computation of the grant fee will be placed in the "confidential" portion of the license file.

INTERNATIONAL BROADCASTING

27. Far East Broadcasting Company, Inc., the licensee of Station KGEI, an international broadcast station, contends that there should be no fees charged. It urges that: (1) Such stations operate as tax-exempt, non-profit, noncommercial international educational organizations; and (2) An exemption "is dictated" by the United States Information and Educational Exchange Act of 1948 (the Smith-Mundt Act), 22 U.S.C. 1431 *et seq.*; and (3) The fee base has been improperly computed, with an improper imputation of value to the recipient in this case.

28. While the existing international broadcast stations may not now carry commercial material, they may do so, with certain limitations, under our rules, unlike noncommercial educational stations. Nothing in the Communications Act or the Commission's rules or policy prevent KGEI or other international broadcast stations from broadcasting institutional advertising. We believe it reasonable to assess a fee in accord with the authority we grant. Nor do we find that the Smith-Mundt Act dictates an exemption for international broadcasting. Far East urges that that Act contains a Congressional mandate for the expansion of private international broadcasting. However, the Act, as modified by the Reorganization Plan No. 8 of 1953, provides that the Director of the USIA shall reduce government information activities whenever corresponding private information dissemination is found to be adequate. There is nothing there to suggest that such private dissemination is to be exempted from fee payments which are required of domestic counterparts of such stations that choose not to broadcast advertising matter.

29. KGEI claims that the "value to the recipient" in international broadcasting is at best nominal. We do not agree. An international broadcaster has been given the use of valuable spectrum space. He may choose to operate on a profit or non-profit basis, as he so desires. Within broad limitations, he may broadcast programs as he chooses. We see no basis for the requested exemption under either the Independent Offices Appropriation Act or *NCTA*.[10]

COMMON CARRIER (SECTION 1.1113)

30. Common Carrier respondents unanimously objected to the imposition of fees for tariff filings essentially on the grounds that tariff processing is strictly for the benefit of the using public. The argument is made that there is an essential fallacy in the Commission's analysis of section 203 of the Communications Act, since the purpose of the section is to protect the public against discrimination and unjust rates and the carriers do not benefit from enforcement of the tariff filing requirements. The Commission remains of the opinion that it is appropriate to charge tariff filing fees. The filing of tariffs is required before a carrier may lawfully obtain revenues for its services. Without such tariffs the carriers could not legally operate and would receive no revenues whatsoever from the public for interstate and foreign communication's services. In short, carriers must file tariffs to do business. A tariff filing involves a change in some aspect of a carrier's business, and it involves Commission consideration and workload. The processing of tariffs by the Commission provides value to the carrier just as does consideration of a broadcast or other application, even though the carrier need not await a "grant" to commence operation. It is not persuasive to argue that tariffs are filed in order that the public interest may be protected and that the Commission's inquiry concerning a tariff is to assure that the public in protected. This is, of course, true in part in this area as in other areas of Commission regulation. But it is not a dispositive contention because here as in other areas there is also the element of benefit conferred—in this case the right to render common carrier service to the public.

31. The consensus of those responding to the alternatives presented in the further notice is that the most practical method of assessing tariff fees would be to apply a fee to each tariff page. We agree that this method would be the easiest to administer by both the carriers and Commission alike, and we will prescribe a charge for each original or revised tariff page filed with the Commission. Transmittal letters accompanying tariff filings will be excluded but all tariff pages will be included regardless of whether requested or ordered by the Commission or voluntarily filed by the carriers. In recognition of the greater value to the larger carriers who generate proportionately greater interstate and foreign revenues from tariffs than do the carriers of lesser size, we are prescribing a sliding scale of fees based on overall operating revenues of each carrier.

32. We reject the argument made by most of the common carrier respondents that the sole purpose of a rate or tariff hearing is to permit the Commission to resolve questions affecting only the public interest, and that no costs associated with the hearing process should be included within fee recoverable costs for any service. While there is a large element of public benefit in the hearing process, the carriers, in our view, also receive substantial benefit from such proceedings. The Communications Act expressly gives the carriers the right to hearings before the Commission may prescribe rates, regulations, etc. against the carriers' will, and hearings provide opportunities for the carriers to be heard in support of rate or tariff proposals which present problems. Such hearings often result in Commission approval of increased rates or higher rate of return levels,[11] but the essential point is that they are a more formalized phase of the process of reviewing tariff, thus of the process of obtaining an authorization to serve the public. In all tariff and rate hearings proceedings, we are called upon to arrive at results that are just and reasonable not only from the standpoint of the public but also just and reasonable from the standpoint of the stockholders and the owners of the carriers. Accordingly, we conclude that reflection of hearing costs in fee recoverable costs for each activity is not inconsistent with the principles enunciated by the Supreme Court.

33. With respect to the objections raised against the imposition of fees for each mobile unit associated with a base station license in the domestic public land mobile service, we would point out that this fee treatment is strictly in accordance with the "value to the recipient" concept. Furthermore, it is consistent with the application of fees to each transmitter in other Commission radio services. We are not persuaded that the fees proposed are prohibitive or unduly burdensome for the five-year license period in the land mobile service.

34. We recognize the "non-profit" characteristics of cooperative telephone companies. However, the service they render is of economic benefit and is limited to members of the associations. In our view, the public benefit of these telephone companies cannot properly be equated with that of the public safety,

[9] 23 F.C.C. 2d 891 (1970).

[10] *See Aeronautical Radio Inc.* v. *U.S.*, 335 F.2d 304, 311 (7th Cir. 1964), *cert. den.*, 379 U.S. 965 (1965) holding that "value to the recipient" need not be a pecuniary value.

[11] To suggest, for example, that the public is the sole beneficiary of hearings such as Phase I of Docket 19129, wherein the Commission allowed AT&T to increase its rates to provide Bell a rate of return of 8½ percent rather than 7½ percent, is to urge a proposition that is obviously untenable.

V40N17 JAN24 75 XUM

health and welfare and educational entities traditionally exempt from the Commission's fees.

SECTION 214 FEES

35. AT&T suggests certain changes in the proposed fee schedule for domestic satellite channelizing applications, in view of the manner in which such facilities will be used in the domestic network. The presently proposed fee structure is essentially the same structure applied in the past to international satellite channelizing applications and, in AT&T's view, is inappropriate for domestic satellite channelizing applications, particularly the proposed grant fee for channels of communication at an earth station. The carrier recommends that the proposed fee schedule for satellite channelizing applications be confined to international applications and that domestic applications be treated the same as Section 214 landline, wire, cable or radio route applications, with airline mileage, instead of route mileage, used for straight line terrestrial distance between earth stations.

36. We believe AT&T's suggestion has merit. Inasmuch as domestic satellite circuits will be integrated into a terrestrial network and will often be used interchangeably with (or in competition with) terrestrial circuits, it would be appropriate to establish like fee schedules. Therefore, we have decided to apply the grant fee to both domestic satellite and terrestrial circuits on the basis of airline channel miles between terminal cities. We believe such consistency in applying fees will be consistent with most tariff offerings which base distance charges on airline miles.[12] Since we will be applying fees on an airline rather than route mile basis, we have adjusted upward the rate to compensate for the fewer miles that will be involved.[13] Also, we are setting a maximum grant fee based on a 2500 mile channel length so as not to overly burden very long domestic communications facilities (e.g., to Alaska, Hawaii and Puerto Rico). We are also making other minor adjustments to the Section 214 fee schedule for clarification purposes.

37. With respect to the determination of grant fees for Section 214 applications, we proposed to establish equivalency factors for transmission in the digital mode of 9.6 kb/s (for data) and 64 kb/s (for voice) equaling one 4 KHz analog channel (§ 1.1113, footnote 10). AT&T commented that 9.6 kb/s is a reasonable equivalent for data transmitted over a 4 KHz analog (voice) channel but that 64 kb/s of data or one voice channel could be transmitted over digital transmission facilities. Therefore, it recommended that the last sentence of footnote 11 be modified to read: "When a digital mode is used for voice or data services, an equivalency of 64 kb/s to a 4 KHz channel will be used."

38. In considering this matter we recognize the difficulty in equating analog and digital channels since digital data is often connected to an analog format and transmitted over analog facilities while analog or voice signals are digitized and transmitted over digital facilities. In the former case 9.6 kb/s of data can usually be accommodated on a 4 kHz analog or voice channel, and in the latter case the voice signal requires 64 kb/s of capacity on a digital system. We further appreciate the fact that in many systems the use of a single channel may vary between voice and data, and that alternate analog and digital facilities may be interconnected. Therefore, we have decided that for ease of administration we should use only a single equivalency: 64 kb/s equaling a 4 kHz analog channel, and have modified the schedule accordingly.

SAFETY AND SPECIAL RADIO SERVICES (§ 1.1115)

39. Since the release of the further notice of proposed rule making in this proceeding in August 1974, the number of applications filed and expected to be filed in this Bureau has significantly increased resulting in a projected fee revenue substantially higher than that shown in the Further Notice. Therefore, we are on our own motion further lowering the fee to $4.00 for most applications. This will result in fee revenues which more nearly approximate the expected costs of processing applications and granting authorizations.

40. In the land mobile services, all of the comments supported the new fee proposals. Four of the comments, however, took strong exception to the reasons for our decision to withdraw the proposal to charge an additional fee for authorizations with multiple mobile units, or ship or aircraft in plurality or fleet licenses. We said in the Further Notice that the original proposal to charge extra filing fees in these cases was not feasible because the fee recovered for each extra unit would be substantially below $1 and the cost of paying and collecting the fees would be unduly burdensome for both the applicants and the Commission. Accordingly the unit fee is not being adopted and no useful purpose would be served by generally abandoning the principle of unit fees, as some of the comments suggest.

41. One comment, that of Telecommunications Council, expressed concern that a disproportionate share of the costs of operating certain Commission offices such as the Review Board and the Administrative Law Judges, was allocated to the Safety and Special Radio Services Bureau. We have allocated only those costs of those offices for the portion of their time spent on Safety and Special Radio Services Bureau authorization of services matters. Specifically, of the total number of man-years required to operate the offices of the Law Judges, Dockets Division, Review Board and Office of Opinions and Review, we have allocated 5, 3, 2, and 3 man-years, respectively, or a total of 13 man-years to the Bureau's 128 man-years for authorization of services.

42. All but one of the comments pertaining to the Citizens Radio Service supported the proposed fee reduction. Most of the comments suggested that no fee be required for organizations providing a service to the public, e.g., REACT teams. However, these organizations receive the same intrinsic value from their radio license as other licensees, regardless of the services they provide to the general public. The one comment in opposition recommended higher fees, asserting that if the lower fee is adopted licenses might be granted to people who should never be licensed. Apart from the merits of that argument, it is clear that the Commission does not have authority under 31 U.S.C. 483a to use its fee schedule as a vehicle to advance such public policy objections. See *NCTA* v. *U.S.*, 415 U.S. at 340–41.

43. All comments on the fees for the Amateur Radio Service objected to any filing fees in that Service for routine authorizations, on the grounds that the service is by its very nature a public service and the licensee cannot use his station for pecuniary gain or business activity. We again find this argument, which has been repeatedly made by amateur operators, to be inadequate to support the requested relief. Amateur licensees, while they may engage in valuable public service activities, are primarily involved in the use of radio for their own personal interest. Each licensee clearly receives a valuable benefit from his license. Additionally several comments objected to the disparity between a $6 fee for an amateur operator compared to a $4 fee for commercial operator licenses. First, we would note that as discussed above, we are lowering the proposed fee to $4.00. Further, the comments ignore the fact that the amateur fee covers the operator's license as well as the station license. The commercial license fee covers only the operator's license fee; the station fee is additional. We are on our own motion reducing the modification fee from the proposal of $5 to $3, a change which will have no significant impact on the overall recovery of Bureau costs.

44. In the Aviation Service none of the comments objected to the revised, lower fees. Several referred to and supported an earlier comment by the Aircraft Operators and Pilots Association in this proceeding that objected to any licensing fees by this Commission for aircraft stations or aircraft station operators, on the grounds that this licensing should be the function of the Federal Aviation Administration, and argued that no operator permit be required for aircraft stations. However, this is not the appropriate place to address those issues, which are in any event governed by the Congressional directive that we license the use of aircraft radio, and the Radio Regulations of the International Telecommunications Union. One comment

[12] Part 63 of the rules is in the process of being amended to require the specification of airline distance in all section 214 applications.

[13] By comparing airline miles and route miles of various section 214 applications, we estimate that airline mileage would generally be 25–30% less than the route mileage. Thus, the rate per channel mile would have to be adjusted upward about 35–40% to yield approximately the same fee revenue.

questioned whether we are properly computing the portion of our expenses which can lawfully be recovered through fees and, particularly, whether we should recover the costs of hearing or regulatory activities. We are attempting herein to recover our costs in granting authorizations, which may include hearings, but not the general costs of regulating the services. For example, we have included the costs of all our employees who are directly involved in the acceptance, processing and granting of applications, but we have excluded the costs of employees involved in rule writing, revocation proceedings, imposing monetary forfeitures for rule violations or carrying out administrative functions not directly involving authorization of services. Other personnel, who are involved in both regulating and authorizing services, have had an appropriate portion of their time allocated to the authorization of service, as shown on time sheets, or by job descriptions. That portion of their time is reflected in the costs we are recovering through the new fees. Concern was also expressed that too much of the costs of operating the Chicago Spectrum Management office may be allocated to the Safety and Special Radio Service, since that office also processes applications for other services. The present spectrum management licensing program at the Chicago office is devoted primarily to Safety and Special radio activities. Over 99 percent of the applications handled there are in the Safety and Special Radio Services. Consequently, we believe the number of applications relating to the work of other bureaus is too minimal to warrant further adjustments.

CABLE TELEVISION (§ 1.1116)

45. The further notice proposed a revised fee schedule for the Cable Television ("Cable") and Cable Television Relay ("CAR") Service which specified, (1) in the CAR Service, fees ranging from $5 to $20 for applications for construction permits and licenses, and modifications, reinstatements, assignments, and transfers of control and (2) in the Cable Service, an annual authorization fee equal to 13 cents per cable system subscriber. Each of the fees in the proposed revised schedule is slightly more than 40 percent of its counterpart in the previous schedule. The purpose and anticipated effect of that reduction is to yield an estimated return of $1.16 million per year—approximately 45 percent of the anticipated FY 1975 cost of FCC Cable and CAR regulatory activity.

46. The fee was determined in the light of estimates of the number of applications that would be filed in each category during FY 1975 and the estimated total number of cable subscribers in the United States in calendar year 1974.[14] The Commission has adopted a Cable and CAR Service fee schedule designed to yield only enough revenue to offset the costs attendant upon processing applications for CAR Service construction permits, licenses, etc., and Cable television certificates of compliance.

47. Some of the comments contend that, with the possible exception of CAR station licensing, no Commission fees should be levied against cable systems, since the whole purpose and effect of the Commission cable regulatory program is not benefit to cable operators but restriction of cable operators for the benefit of the general public (and, incidentally, broadcast television licensees). It is also suggested that no fees should be charged in connection with the processing or grant of a certificate of compliance, since (a) the certificate does not provide a cable operator with a benefit analogous to the three year loan of a portion of the radio spectrum which accrues to a broadcast station licensee, and (b) the certificate of compliance is not really a license in view of the fact that a prospective cable system operator must first obtain a franchise from a State or local governmental unit.

48. In considering this contention, we note the Supreme Court's statement that, "A fee * * * is incident to a voluntary act, e.g., a request that a public agency permit an applicant to practice law or medicine * * * The public agency performing those services normally may exact a fee for a grant which, presumably, bestows a benefit on the applicant, not shared by other members of society." *NCTA* v. *U.S.*, 415 U.S. at 340–341. We think the Court's reasoning is equally applicable to the Commission's regulation of cable television, which confers an authority—to carry broadcast signals—not conferred upon the public at large. The fact that the regulation attendant upon the grant of this benefit is designed to protect the public interest in its use should not obscure the presence of the very real benefit involved. Nor does the fact that the prospective cable operator must normally obtain another authorization from a State or local governmental unit affect the result. It is irrelevant to the benefit conferred by the Commission's process. It might also be noted in this connection that the Commission's rules prevent State and local authorities from imposing unduly high franchise fees upon cable television systems.

49. Some of the comments argue that no fees should be charged unless an application is granted since an applicant receives no benefit if the application is not granted. The application fees in both the Cable and CAR Services schedule are quite nominal (they range from $5 to $20). In the overwhelming percentage of cases, the application results in a grant of the license or other benefit sought (albeit only after detailed correspondence with the applicant in many cases to elicit from him amendments curing defects in his application). Thus in the overwhelming percentage of cases the fact that the charge is for the filing, rather than the grant, of an application has no practical effect, although it does facilitate the bookkeeping operations of the Commission. In any event, in those few cases where the application is not granted, the application fee is scant compensation for the work performed by the Commission in considering the application. We do not believe that it is improper to impose a nominal fee for this work even though no authorization may finally be granted.

50. It has also been argued that no annual authorization fee should be charged, since a cable operator is benefited by the authorization to operate a cable system only during the year in which the authorization is issued, and that no authorization fee, annual or otherwise, should be levied against cable systems that have obtained their authorizations to operate via temporary "grandfathering" (until 1977) pursuant to the revision of the cable rules in 1972.[15] It is urged that since no application processing work by the Commission is involved in such authorizations, no fee should be exacted. We do not accede to this argument because the cable operator benefits from the authorization to operate conferred by our rules, whether or not he has filed an application for the particular year. Clearly, an authorization with an effective life of several years may be accompanied by a fee apportioned over that period. And, all systems operate under the authority of the Commission rules, including those "grandfathered" systems which need not file a formal application for a certificate of compliance until 1977. The Commission is providing the same benefit, and is doing work in connection with that benefit, whether or not it has received a formal application. We do not believe that the existence of a formal application is the touchstone of the right to impose a fee under Title V.[16]

51. In the area of cable television fees, as well as in other areas, it has been argued that the Commission's expenses resulting from hearings conducted in

[14] Annual authorization fee payments are based upon the number of cable subscribers in the calendar year immediately preceding the due date of the payment. See § 1.1102 of the Commission's rules.

[15] A grandfathered system, operating temporarily pursuant to the general grant of authority to do so, must even within the period expiring March 31, 1977, submit a formal application if its franchise expires before that date or if it desires to add a television broadcast signal to its operations before that date. See § 76.11 (a) and (b) of the Commission's rules.

[16] The Commission could, of course, in lieu of "grandfathering," have required all cable systems to file applications for certificates of compliance within 90 days of adoption of the 1972 rules. The Commission could also have ceremonialized the continuing authority of cable systems to carry broadcast signals by requiring a cable operator to annually apply for a one-year renewal of his authorization, thereby providing the document which some of the comments seem to feel is a prerequisite to imposition of a fee. However, neither Title V nor the Supreme Court's decision in *NCTA* require such formalities. The fact that the Commission has chosen a simpler method of regulation of cable television does not foreclose it from assessing fees for the valuable benefits that are nevertheless provided by the Commission activities. The practical result is the same, and cable operators equitably share the costs of providing the benefits which all of them receive, without regard to the essentially irrelevant consideration of whether any particular system files for a certificate in any particular year.

V40N17 JAN 24 75 XUM

connection with certificate of compliance applications should not be treated as part of the cost-recoverable fee base, since such hearings are conducted to determine the public interest rather than to benefit cable operators. As discussed elsewhere, it is the Commission's position that since hearings are but one phase of the process by which value is provided to cable operators, their cost is properly included in the fee base. As for the fact, also urged upon us, that only a small percentage of certificate of compliance applications result in hearings, the Commission is well aware that processing and evaluation of some applications involves considerably greater Commission activity and expense than is involved in the treatment of other such applications. However, that fact provides no justification for treating the cost as if it were not related to the certification process, and the added increment to all fees is minimal.

52. In response to objections to the use of the number of subscribers as a measure of the annual authorization fee, the Commission remains of the opinion that the formula for determination of the annual authorization fee as set forth in the proposed revision of § 1.1116 provides the best practical means of assessing a fee reasonably related, in each case, to the benefit received by the cable operator from his receipt of the Commission's authorization to operate his cable system. Although monthly subscription rates do vary somewhat from one system to another, utilization of a system's subscriber count in determining the amount of the fee results in a fee reasonably related to earnings differences among systems.[17] At the same time, it is convenient for use by the Commission in verifying the correctness of the amount paid, and avoids the need for reference to cable system income data (net or gross) which should be respected as confidential in nature. It is apparent that the larger a cable operation is, the more its owners benefit from the cable system operating authority which they have received from the Commission. At the same time, the formula is designed to yield a total income not in excess of the total cost to the Commission of its activity in authorizing cable operations.

EQUIPMENT TESTING AND APPROVAL (§ 1.1120)

53. As a result of the fact that the cost allocation to the Equipment Testing and Approval area previously was performed primarily on an application processing basis, the general revision of the cost allocation explained above has had little impact in this area. Thus, there have been relatively few changes in the amounts of fees set out in the Appendix from the fees proposed in the original notice in this proceeding. The categories of fees for certification have been modified somewhat for simplicity and there have been some revisions in fees for type approval to reflect more accurately the relative costs of performing the tests on each type of equipment based on records of man-hours expended and test equipment utilized.

54. Several parties commented on the proposed schedule in this area. Two comments argued that certification of radio frequency devices provides no benefit to the manufacturer as its purpose is to prevent harmful interference which impacts upon the public at large. We note that the argument that the Commission's work is in the public interest has been made by broadcasters, cable television system operators, and common carriers. In response to the argument here, we would point out that manufacturers of radio frequency devices are prohibited from marketing such devices unless they have been certified.[18] Therefore, certification is the prerequisite to any sale by the manufacturer. There can be little question that the Commission's action in certifying equipment provides substantial value to the recipient.

55. One comment indicated that the higher filing fee and a lower grant fee is not as reasonable as a lower filing fee and higher grant fee because equipment may be withdrawn at any time prior to the grant. However, a substantial portion of the costs involved in application processing is incurred whether or not a grant is made; the relatively higher filing fee covers most, but not all of, the costs involved, whether or not the equipment is withdrawn or rejected. Similarly, in regard to the combined fee for certification and acceptance, which was questioned, the costs of processing are incurred whether the equipment passes or fails. It was argued that if equipment is rejected, payment of a fee for resubmittal is not in line with the *NCTA* ruling, for, although the Commission's costs have increased, the benefit to the manufacturer has not. The Commission is not required to provide *gratis* the service of reviewing and/or testing equipment any number of times until the manufacturer perfects it. It is incorrect to say that such a service would not benefit the manufacturer. Furthermore, as we noted in the Further Notice, it has been our experience that the vast majority of such applications are pursued successfully.

56. It has been questioned whether separate fees should be charged for the certification of receivers having the same chassis but different identification numbers. As our certification program does not include testing as a prerequisite to certification, there is relatively little reduction in cost in the processing of the application for certification of a given receiver simply because a receiver with the same chassis was previously certified. Furthermore, new value to the recipient is furnished by each separate certification. Therefore, a lower fee is not warranted.

57. One comment pointed out the omission of the note in the certification subsection which provided: "No fee is required for certificates for use of industrial heating equipment on Form 724 in accordance with § 18.116 of the Commission's rules of this chapter." This provision was inadvertently deleted in the Further Notice, but is now included. Parties filing Forms 724 for equipment which has already received prototype certification are not required to remit any further fee.

58. In response to the comparison made by one comment between the Commission's fees and the lower estimate for equipment testing received from a private laboratory, we can only observe that Title V does not require that in structuring our fee schedule the criterion of the market price of analogous activities engaged in by private businesses be considered. Additionally, the standards used by a private firm may be significantly different from those prevailing in our laboratory.

EFFECTIVE DATE OF THE NEW SCHEDULE OF FEES

59. The new schedule of fees adopted herein and the related amendments to other sections of the Commission's rules will be effective as of March 1, 1975. Under the effective date of March 1, 1975, all applications received by the Commission on or after March 1, 1975, will be subject to the revised schedule of fees as set out below. Additionally all grants of authority made on or after March 1 will be subject to the new schedule regardless of when the application for such grant was filed.

60. Authority for the adoption of the amendments herein is contained in section 4(i) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), and Title V of the Independent Offices Appropriation Act of 1952, 31 U.S.C. 483a.

61. *Accordingly, it is ordered,* That effective March 1, 1975, Parts 1 and 13 of the Commission's rules and regulations are amended as set forth below.

Adopted: January 15, 1975.

Released: January 20, 1975.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

FEDERAL COMMUNICATIONS COMMISSION,[19]

[SEAL] VINCENT J. MULLINS,
Secretary.

Parts 1 and 13 of Chapter I, Title 47 of the Code of Federal Regulations are amended to read as follows:

1. The Schedule of Fees Filed With the Commission, Subpart G of Part 1 is amended in the following respects:

In § 1.1102, the Note following paragraph (b) is deleted, paragraphs (d), (e), and (f) are revised, paragraph (j) is deleted.

In § 1.1103, paragraph (b) is revised and paragraph (c) is deleted.

Sections 1.1111 and 1.1113 are revised.

In § 1.1115, paragraph (a) is revised and a subparagraph (c)(10) is added.

In § 1.1116, paragraphs (a) and (b) are revised and paragraph (c) is deleted.

Sections 1.1117 and 1.1120 are revised.

The revised Subpart G of Part 1 reads as follows:

Subpart G—Schedule of Fees Filed With the Commission

GENERAL INFORMATION

Sec.
1.1101 Authority.
1.1102 Payment of fees.
1.1103 Return or refund of fees.
1.1104 General exceptions.
1.1105 General rule (STA and waiver).
1.1111 Schedule of fees for Radio Broadcast Services.
1.1113 Schedule of fees for Common Carrier Services.
1.1115 Schedule of fees for the Safety and Special Radio Services.
1.1116 Schedule of fees for Cable Television and Cable Television Relay Services.
1.1117 Schedule of fees for commercial radio operator examinations and licensing.
1.1120 Schedule of fees for equipment type approval, type acceptance and certification.

AUTHORITY: Sec. 501, 65 Stat. 290; 31 U.S.C. 483a.

Subpart G—Schedule of Fees Filed With the Commission

GENERAL INFORMATION

§ 1.1101 Authority.

Authority for this subpart is contained in Title V of the Independent Offices Appropriation Act of 1952 (31 U.S.C. 483a) which provides that any service rendered by a Federal agency to or for any person shall be performed on a self-sustaining basis to the fullest extent possible. Title V further provides that the head of each Federal agency is authorized by regulation to prescribe such fees as he shall determine to be fair and equitable.

§ 1.1102 Payment of fees.

(a) *Filing fees.* Each application or other filing filed on or after August 1, 1970, for which a fee is prescribed in this subpart, must be accompanied by a remittance in the full amount of the filing fee. In no case will an application or other filing be accepted for filing or processed prior to payment of the full amount specified. Filings for which no remittance is received, or for which an insufficient amount is received, shall be returned to the applicant without processing. In the case of multiple applications for which a single check is drawn to cover all fees for the applications, there should be attached to the remittance an accounting sheet or notice stating what fees are covered by the check or money order.

(b) *Grant fees.* The applicant shall observe the instruction contained in the notice of grant concerning payment of grant fees. Grant fees shall be accompanied by a transmittal advice identifying the purpose of the check. The duplicate copy of the Commission's notice of grant, which will specify the amount of the fee, will suffice.

(c) All remittances should be accompanied by a letter, application, rate card, grant fee notice or other document to properly identify the purpose of the fee.

(d) Where a separate grant fee payment is prescribed in the various services, the fee will be payable within 45 days after grant by the Commission. In the broadcast services the grant fee in assignment and transfer cases must be transmitted by the new licensee immediately following consummation of the transfer or assignment. All grants, approvals, and authorizations issued by the Commission are made subject to payment and receipt of the applicable fee within the required period. Failure to make payment of the applicable fee to the Commission by the required date shall result in the grant, authorization or approval becoming null, void and ineffective after that date.

(e) *Broadcast Annual License fee.* The annual license fee prescribed for broadcast stations must be submitted each year on or before the anniversary date of the expiration date of the station's license. The licensee shall submit the amount of the annual fee together with the station's rate card for the preceding June 1, on which the annual fee is based. (See § 1.1111(a)(6).) Such fee shall be for the twelve-month period immediately preceding the anniversary date on which the fee is payable.

(1) A new station first becomes liable for the annual license fee at the time program test authority is granted. In the first year, the fee will cover the period from the date of grant of program test authority until the next payment (anniversary) date. (Example: If a station is in operation for seven full months prior to the next payment date, the annual license fee is seven-twelfths of the annual rate.)

(f) *Cable Television Annual Authorization fee.* The annual fee prescribed in § 1.1116(b) of this chapter for cable television systems must be submitted by April 1 of each year for the preceding calendar year. The fee will be based on the average number of subscribers as set out in § 1.1116(b).

(1) A new cable television system becomes liable for the annual authorization fee as of the date it begins to charge for service to 50 subscribers or more. In the first year of operation of the system, the fee will be computed based on the average of the number of subscribers being served on the last day of each calendar quarter of operation up to the end of the calendar year. (Example: If a cable system is in operation on the last day of three quarters prior to the end of the calendar year, the average of those three last-day figures is to be used in computing the fee required.) The fee will cover the number of full months of operation until the end of the calendar year. (Example: If a cable system is in operation for seven full months prior to the end of the calendar year, the fee is seven-twelfths of the annual rate.)

(g) Applications and attached fees should be addressed to Federal Communications Commission, Washington, D.C. 20554, or to the appropriate FCC field office and should not be marked for the attention of any individual bureau or office. Fee payments should be in the form of a check or money order payable to the Federal Communications Commission. The Commission will not be responsible for cash sent through the mails. All fees collected will be paid into the U.S. Treasury as miscellaneous receipts in accordance with the provisions of Title V of the Independent Offices Appropriations Act of 1952 (31 U.S.C. 483a).

(h) Receipts will be furnished upon request in the case of payments made in person, but no receipts will be issued for payments sent through the mails.

(i) Except as provided in §§ 1.1103 and 1.1104, all application filing fees will be charged irrespective of the Commission's disposition of the application. Applications returned to applicants for additional information or corrections will not require an additional fee when resubmitted, unless the additional information results in a major change in the application; the resubmission will then be treated as a new application requiring a new filing fee.

§ 1.1103 Return or refund of fees.

(a) The full amount of any fee submitted will be returned or refunded, as appropriate, in the following instances:

(1) Where no fee is required for the application filed.

(2) Where the application is filed by an applicant who cannot fulfill a prescribed age requirement.

(3) Upon return of an application for renewal of an operator license which is received after expiration of the grace period.

(4) Where the applicant is precluded from obtaining a license by the provisions of section 303(l) or 310(a) of the Communications Act.

(5) Where circumstances beyond the control of the applicant, arising after the application is filed, would render a grant useless.

(6) When applications (accompanied by fees) are filed where not actually required by Safety and Special Radio Services rules (e.g. change of address, pro forma change of corporate name, etc.).

(7) When construction permit holders and licensees make nonsubstantive correction in license grants within a period of 60 days from the grant.

(b) Payment in excess of an applicable fee will be refunded only if the overpayment exceeds $3.

§ 1.1104 General exceptions.

(a) No fee is required for an application filed for the sole purpose of amending an authorization or pending application (if a fee is otherwise required) so as to comply with new or additional requirements of the Commission's rules or the rules of another Federal Government

---

[17] In this respect, the function of the subscriber count in determining the particular cable system's annual authorization fee payment is analogous to the function of the advertising rate card in determining a particular broadcast station's annual fee payment.

[18] See § 2.803 of the Commission's rules.

[19] A statement of Chairman Wiley in which the other members of the Commission join is filed as part of the original document.

V40117 JAN 24 75 XUM

agency affecting the authorization or pending application; however, if the applicant also requests an additional modification or the renewal of his authorization, the appropriate modification or renewal fee must accompany the application. Fee exemptions arising out of this general exception will be announced to the public in the orders amending the rules or in other appropriate Commission notices.

(b) No fee is required for an application filed by an alien pursuant to a reciprocal radio licensing agreement.

(c) A receiver model certificated prior to August 1, 1970, and which will continue to be distributed after August 1, 1970, need not be recertificated and no filing or grant fee shall be required for continued distribution provided it will continue to be distributed under the same trade name and model number and with identical circuitry.

§ 1.1105 General rule (STA and waiver).

Except as otherwise provided no filing fee is required for any application or request for special temporary authority (STA) or waiver of brief duration or minor character in any service or for the grant of either an STA or a waiver of brief duration or minor character. Upon the grant of an application or request for either an STA or a waiver of an important character, the applicant will be notified to remit a fee in the following amount for the respective services:

Broadcast services	$25
Common carrier services	25
Safety and special radio	5
Cable television services	25

§ 1.1111 Schedule of fees for Radio Broadcast Services.

(a) Except as provided in paragraph (b) of this section, the fees prescribed below are applicable to applications and operations in the Radio Broadcast Services:

(1) *Construction permits.* Application for construction permit for new station or for major changes in existing station:

	Filing fee	Grant fee
VHF—Top 50 markets [1]	$10,000	$67,500
UHF—Top 50 markets	2,500	22,500
VHF—Next 50 markets	4,000	27,000
UHF—Next 50 markets	1,000	9,000
VHF—Balance	2,000	13,500
UHF—Balance	500	4,500
FM—Class A	200	1,350
FM—Class B and C	400	2,700
AM—Day—50 kW	1,000	6,750
AM—Day—25 kW	800	5,400
AM—Day—10 kW	600	4,050
AM—Day—5 kW	400	2,700
AM—Day—1 kW	200	1,350
AM—Day—500 W	100	675
AM—Day—250 W	50	340
AM—Unlimited 50 kW	2,000	13,500
AM—Unlimited 25 kW	1,600	10,800
AM—Unlimited 10 kW	1,200	8,100
AM—Unlimited 5 kW	800	5,400
AM—Unlimited 1 kW	400	2,700
AM—Unlimited 500 W	200	1,350
AM—Unlimited 250 W	100	675
AM—Class IV	200	1,350

[1] The market size shall be determined by the ranking of the American Research Bureau, on the basis of prime time households (average quarter-hour audience during prime time, all home stations).

(2) *Other applications:* The following fees shall accompany each application:

	AM	FM	TV	Auxiliary [1]
Application for construction permit to replace expired permit, FCC Form 321 [2]	$250	$250	$250	$50
Application for modification other than major change, FCC Form 301	(3)	(3)	(3)	(3)
(A) Application to change antenna/transmitter site; or to increase antenna height; or to change antenna pattern	100	100	100	
(B) All other FCC Form 301 applications	200	200	200	
Application for change of call sign for broadcast station				
Application for authorization in Auxiliary Broadcast Services, FCC Form 313:				
(A) Application for modification of construction permit or license in Auxiliary Broadcast Service				50
(B) Application for construction permit for remote pickup mobile station				100
(C) Application for construction permit for inter-city relay; or for studio transmitter link; or for remote pickup base station				250
(D) All other Form 313 applications				100
Application for construction permit or license of auxiliary or alternate main transmitter	50	50	50	50
All other applications in the broadcast services	100	100	100	100

[1] With respect to applications for remote pickup broadcast stations authorized under Subpart D of Part 74 of this chapter, one fee will cover the base station (if any) and all the remote pickup mobile stations of a main station, provided the applications therefore are filed at the same time.

[2] The $250 fee applies to construction permits for new stations or major change in existing stations. An application to replace a construction permit for a modification other than a major change must be accompanied by a fee of $50 in all services.

[3] One-half the filing fee for an application for construction permit for new station or major change in existing station, but not less than $100.

(3) *Subscription Television.* Application for Subscription Television Authorizations:

Application filing fee	$700

(4) *International Broadcasting.* Construction Permits:

Filing fee	70
Grant fee	630

Filing Fee for Application for Seasonal Schedule:

Per transmitter-hour requested (for one day)	17

(5) *Assignments and transfers.* Application for assignment of license or transfer of control—Form 314, Form 315 and Form 316 applications. (Where more than one broadcast station license is involved, the total amount of fees prescribed for *each* license so involved will be paid in the manner set forth below.):

Sales or exchanges:	
Application filing fee (forms 314 and 315)	$200.
Application filing fee (form 316)	50.
Grant fee (to be paid immediately following consummation of the assignment or transfer):	
For AM stations, and joint assignment or transfer of AM-FM stations, with gross revenue of $400,000 or less	0.9% of gross revenue.
For AM stations, and joint assignment or transfer of AM-FM stations, with gross revenue greater than $400,000	$3,600 plus 1.4% of gross revenue in excess of $400,000.
For all FM stations	0.9% of gross revenue.
For television stations with gross revenue of $800,000 or less	1% of gross revenue.
For television stations with gross revenue greater than $800,000	$8,000 plus 1.6% of gross revenue in excess of $800,000.
In all other cases and/or when gross revenue is indeterminable (See Note 2)	0.4% of consideration for assignment or transfer.
Gifts:	
Application filing fees and grant fees for assignments or transfers resulting from gifts are the same as those for sales or exchanges above, with the exception that no grant fee will be assessed for an assignment or transfer by gift from a person to a spouse and/or lineal descendant.	

NOTE 1: Gross revenue will be determined by taking the average of the annual gross revenue figures reported on line 19 of FCC Form 324 for the respective station(s) for the three years immediately preceding the date of the consummation of the transfer or assignment.

NOTE 2: In certain situations gross revenue figures are not available for assessment of a fee on that basis—for example, assignment or transfer of an AM or FM station individually from what had been a joint AM–FM operation; assignment or transfer of a broadcast station license in which gross revenue has been either nonexistent or so intermittent as to be an improper basis upon which to establish a grant fee; assignment or transfer of religious or other stations that do not report gross revenue. In those types of cases, the grant fee will be assessed on the basis of consideration as indicated above.

NOTE 3: In the case of transfer of control, the transfer grant fee will be based on the percentage of interest acquired which resulted in the transfer of control (except for those situations described in Note 4 below in which additional acquisitions of interest may be subject to the grant fee). (Example: "A" acquires a 60% interest in an AM station with gross revenue of $100,000. Assuming "A" holds no other interest in this station that was acquired in the preceding two years, the grant fee is $540—$100,000×0.9%×60%.)

NOTE 4: In the case of transfer of control in which the transferee holds previously acquired interest in the subject broadcast station license, the grant fee will be based on the acquisition which resulted in transfer of control and on interests acquired during the two-year period immediately preceding the date of the contract for the transfer of control. In addition, a grant fee will also be assessed against any additional interest in the station acquired within two years following the date of the contract for transfer of control. Such grant fee for additional acquisitions within two years subsequent to transfer of control will be computed on the basis of the same gross revenue figures used in connection with the transfer of control application and such additional fee shall be submitted at the time the supplemental Ownership Report (FCC Form 323) is filed with the Commission pursuant to § 1.615(c) of this chapter. (Example: "A" acquires the following interests in an AM station with $100,000 gross revenue: 1/1/71—10%, 1/1/72—10%; 1/1/73—20% 2/1/74 (contract date)—30%. The transfer grant fee is $450—$100,000 x 0.9% x 50%, with the 50% figure representing the interest that resulted in transfer of control plus interest acquired in the two years immediately preceding the date of contract for the transaction which resulted in transfer of control. If "A" were to acquire any additional interest in this station prior to 2/1/76, an additional grant fee would be incurred equivalent to the additional interest acquired times $100,000 times 0.9%.

NOTE 5: Grant fees are required in the case of FCC Form 316 applications only in cases in which the application is filed pursuant to § 1.540 (b)(3) or (b)(5) of this chapter. In such cases, grant fees will be computed in the same manner as for FCC Form 315 applications.

(6) *Annual License fee.* Each broadcast station shall pay an annual license fee to the Commissioned based on the station's rate card as of June 1 of each year.[1]

For AM & FM radio stations: The annual license fee will be a payment equal to 8.5 times the station's highest single "one-minute" spot announcement rate, but in no event shall the annual license fee for each AM and each FM station be less than $25.

For television broadcast stations: The annual license fee will be a payment equal to 4.25 times the station's highest "30-second" spot announcement rate, but in no event shall the annual license fee be less than $100.

(b) Fees are not required in the following instances:

(1) Applications filed by tax exempt organizations for operation of stations providing noncommercial educational broadcast services, whether or not such stations operate on frequencies allocated for noncommercial, educational use.

(2) Applications in the standard broadcast service requesting authority to determine power of non-directional standard broadcast stations by direct measurement.

(3) Applications for all FM or television translators and all FM or television translator relay stations.

(4) Applications by local government entities in connection with the licensing or operation of a noncommercial broadcast station.

(5) Applications for licenses to cover construction permits in the auxiliary broadcast services.

§ 1.1113 Schedule of fees for Common Carrier Services.

Applications filed for common carrier services shall be accompanied by the fees prescribed below:

[1] See § 1.1102(e) for explanation of manner of payment and computation of the broadcast annual license fee.

(A) DOMESTIC PUBLIC LAND MOBILE RADIO SERVICES [1]

	Application fee
Application for initial construction permit or for relocation of a base station including authority for mobile units, blanket dispatch station authority,[2] and standby transmitters without independent radiating systems [3 4]	$150
If above includes authority for mobile units, blanket dispatch station authority or standby transmitters without independent radiating system add per mobile unit, dispatch station or standby transmitter	6
Application for initial construction permit or for relocation of a dispatch station,[5] auxiliary test station, control station or repeater station [4]	75
Application for other than initial construction permit, modification of construction permit or license for base station, dispatch station, auxiliary test station, control station or repeater station at an existing station location	30
Application for modification of authorization to increase number of mobile units, blanket dispatch stations or standby transmitters without independent radiating systems—per unit or transmitter	6
Application for renewal of base station license	90
If above includes renewal authority for mobile units, blanket dispatch stations or standby transmitters without independent radiating systems, add per mobile unit, dispatch station or standby transmitter	3
Application for renewal of license for dispatch station, auxiliary test station, control station or repeater station	35
Application for license, modification of license or renewal of license for individual mobile stations: [6]	
One mobile unit per application	15
Each additional mobile unit per application	9

(See footnotes at end of tables.)

(B) RURAL RADIO SERVICE

	Application Fee
Application for an initial construction permit or for relocation of central office, interoffice or relay facilities [4]	$120
Application for other than initial construction permit, modification of construction permit or license for central office, interoffice or relay facilities [4]	45
Application for an initial construction permit or for relocation of rural subscriber facilities [4]	75
Application for other than initial construction permit modification of construction permit or license for rural subscriber facilities	45
Application for license for operation of stations at temporary-fixed locations	20
Application for renewal of license of central office, interoffice or relay station	75
Application for renewal of license of rural subscriber station	15

(C) POINT-TO-POINT MICROWAVE RADIO SERVICES

	Application Fee
Applications for construction permit or for modification of construction permit to add or change point(s) of communication or to increase service to existing points of comunication or for relocation of facilities [4 7]	$120
Application for license for operation of a station at temporary-fixed locations	90
Application for other modifications of construction permit or modification of license [4]	30
Application for renewal of license	75

(See footnotes at end of tables.)

(D) LOCAL TELEVISION TRANSMISSION SERVICE

	Application Fee
Application for construction permit or for modification of construction permit to add or change point(s) of communication or to increase service to an existing station location or for relocation of facilities [4]	$120
Application for license for operation of an STL station at temporary-fixed locations	90
Application for license for operation of a mobile television pickup station	90
Application for other modification of construction permit or modification of license [4]	30
Application for renewal of license	75

(See footnotes at end of tables.)

(E) MULTIPOINT DISTRIBUTION SERVICE

	Application Fee
Application for initial construction permit or for modification involving relocation of station or addition or change of frequencies or increase in power	[15] $150
Application for other modification of construction permit or license	30
Application for renewal of license	75

(F) INTERNATIONAL FIXED PUBLIC RADIO-COMMUNICATION SERVICES

	Application Fee
International Fixed Public Station:	
Application for an initial construction permit for a new station or an additional transmitter(s) at an authorized station [4]	$500
Application for construction permit for a replacement transmitter(s) at an authorized station (no fee will be charged for application for modification of license to delete transmitter(s) being replaced if the applications are filed simultaneously) [4]	105
Application for change of location of an authorized station	330
Application for modification of license	75
Application for renewal of license	180
International Control Station:	
Application for an initial construction permit for a new station or an additional transmitter(s) at an authorized station [4]	300
Application for construction permit for a replacement transmitter(s) at an authorized station (no fee will be charged for application for modification of license to delete transmitter being replaced if the applications are filed simultaneously) [4]	180
Application for change of location of an authorized station	300

V 4 0 1 7 J AN 24 75 XUM

	Application Fee		Application Fee
Application for modification of license	$75	Application for assignment of an authorization or transfer of control (a separate fee is required for each call sign covered by the application)	$35
Application for renewal of license	90	All other common carrier radio applications	15

(See footnotes at end of tables.)

(g) OTHER RADIO APPLICATIONS

(h) SATELLITE COMMUNICATIONS SERVICES [1]

	Filing fee	Grant fee
Application for initial construction permit for commerical transmit/receive earth station.[4]	$120	½ of 1 percent of construction cost as set forth in the application, not to exceed $15,000.
Application for initial construction permit for a commercial receive-only or transportable earth station.[4]	60	Do.
Application for modification of construction permit or license or for construction permit for additional equipment at an existing commercial earth station.[4]	60	½ of 1 percent of construction cost as set forth in the application.
Application for authority to operate a transportable earth station at a fixed site.[5]	180	None.
Application for renewal of license for a commercial transmit/receive earth station.	60	$3,000.
Application for renewal of license for a commercial receive-only earth station.[5]	220	None.
Application for initial construction permit or modification of construction permit or license for an auxiliary station (boresight) to an earth station or for a telemetry, tracking and control station.[4]	30	½ of 1 percent of construction cost as set forth in the application.
Application for initial construction permit per satellite [4]	150	$3,000.
Application for authority to launch and operate satellites, per satellite	150	½ of 1 percent of satellite construction cost as set forth in the application (due 45 days after successful launch and operation).
Application for renewal of an auxiliary station to an earth station or for a telemetry, tracking and control station.	180	None.
Application for assignment of a commercial transmit/receive earth station or satellite construction permit or license or transfer of control of a licensee or permittee, per earth station or satellite.	45	None.
Application for assignment of a commercial receive-only or transportable earth station construction permit or license or transfer of control of a licensee or permittee, per earth station.	45	None.
Application for communications common carrier for authorization to own stock in the Communications Satellite Corp.	45	None.
Any other application filed under the Communications Satellite Act or the Communications Act of 1934 in the Satellite Communications Services.	45	None.

(i) COMMON CARRIER NONRADIO APPLICATIONS

Section 214 application for construction or acquisition of landline domestic cable or waveguide.[10]	60	$3 per route mile.
Section 214 application to establish or supplement domestic facilities by installation or acquisition of carrier equipment on wire, cable, waveguide, or radio routes.[10]	15	$4.50 per 100 equivalent 4 kHz channel miles authorized.[11 12]
Section 214 application to lease channels from other carriers for domestic use [10]	15	$3.50 per 100 equivalent 4 kHz channel miles authorized.[11 13]
Section 214 application to lease satellite transponder for domestic use (per transponder).	25	None.
Section 214 application for overseas cable construction	600	$30 per route mile (nautical.
Section 214 application to establish or supplement international facilities by installation or acquisition of carrier equipment on overseas cable or radio routes (except satellite) or to acquire such facilities on a capital basis other than ownership.[10]	30	$6 per 100 3 kHz channel miles authorized.[11]
Section 214 application to lease channels on overseas cable or radio routes (except satellites).[10]	30	$3.50 per 100 equivalent 3 kHz channel miles authorized.[11]
Section 214 application to lease circuits to interconnect international circuits:		
Circuits outside of the U.S.	15	None.
Circuits within the U.S. or territories	15	$3.50 per 100 equivalent 3 kHz channel miles authorized.[11]
Section 214 application to install carrier equipment to establish international channels of communication at an earth station.	60	½ of 1 percent of equipment and installation cost as set forth in application.
Section 214 application to establish and provide international channels of communication via satellite.	150	None.
Section 214 application to acquire satellite channels for international use	30	$12 per equivalent 4 kHz channel.[11]
Cable Landing License	120	None.
Section 214 application to discontinue, reduce or impair service to the public; [10]		
Telegraph offices and Public Coast stations	15	Do.
All other	60	Do.
Interlocking Directorate applications	30	Do.
Section 221 applications	30	Do.
Applications for certification for priority of leased intercity private line service in emergency situations.	45	Do.
All other common carrier nonradio applications	15	Do.

	Filing fee	Grant fee
Tariff Filings:		
Each tariff page, original or revised, filed pursuant to Part 61 of the Commission's Rules.	Annual Gross Revenue [14] of Issuing Carrier:	
	Under $1 million	$50
	$1 million to $100 million	100
	$100 million to $1 billion	300
	$1 billion to $10 billion	500
	Over $10 billion	700

[1] In this service each transmitter at a fixed location is a separate station notwithstanding the inclusion of more than one such station on a single authorization or under a single call sign.

[2] When included as part of base station applications, a request for blanket dispatch station authority made pursuant to the provisions of § 21.519(a) of this chapter does not require an individual application. A request for such dispatch station authority filed separately from a base station construction permit application requires an application for modification of license and an appropriate fee.

[3] An application for a standby transmitter having its own independent radiating system requires the same fee as a base station application.

[4] No additional fee will be charged for a single application for a license to cover a construction permit unless there is a modification or variation of outstanding authority involved. In that event the appropriate fee for modification is applicable.

[5] This fee applies to any request for dispatch station authority not made pursuant to § 21.519(a) of this chapter.

[6] The fee is not required for applications filed by governmental entities.

[7] For applicants who propose to multiplex their radio systems and who make the supplementary showing required by sections 21.608 and 21.706 of this chapter in the lead application in lieu of filing a separate application under section 214 of the Act, an additional grant fee will be payable at the rate prescribed in the schedule for section 214 applications to extend or supplement facilities.

[8] The filing fees specified in the schedule for satellite communications services do not apply to initial applications for domestic systems considered in conjunction with that of Western Union; Public Notice FCC 70-953. However, the grant fee will be applicable to any grant. All subsequent applications will be subject to the filing as well as the grant fees.

[9] In the case of connecting circuits for international satellite circuits the mileage is computed as the distance from the U.S. terminal to the nearest earth station.

[10] Projects undertaken pursuant to grant of continuing authority as prescribed in §§ 63.03(c) and 63.04(c) of this chapter are subject to the grant fee.

[11] Fees for other than 4 kHz or 3 kHz channels will be the appropriate multiple or fractions of the 4 kHz or 3 kHz channel fee. (No grant fee is required for a video and associated audio channels.) Where the transmission of voice or digital data will be accomplished in the digital mode, a 64 kb/s transmission channel is to be considered the equivalent of one 4 kHz analog channel for purposes of calculating the grant fee.

[12] Unless otherwise specified, the grant fees based on channel miles for Section 214 applications are calculated on the basis of airline mileage between terminal cities (up to a maximum of 2500 miles between cities). Where domestic satellite channels are to be established between several cities on a demand use basis (as opposed to a point to point basis), the grant fee is calculated on the basis of the arithmetic average of the distances between each of the cities being so interconnected. Where the channels being established are one-way (rather than two-way), one half the normal grant fee will apply.

[13] For blanket applications filed pursuant to §§ 63.67 or 63.68 of this chapter, the grant fee shall apply to each individual main or branch office for which reduction of hours is authorized.

[14] Total operating revenues as reported for the previous calender year on Form M, Account 300, Line 42.

[15] An additional grant fee of $50 is applied for any application proposing transmitter power in excess of 10 watts.

§ 1.1115 Schedule of fees for the Safety and Special Radio Services.

(a) Except as provided in paragraph (c) of this section, the fees set forth in the schedule below shall accompany all formal applications for authorizations filed in the Safety and Special Radio Services:

Applications for all authorizations except as noted below	$4
Ship license that includes interim authorization	10
Operational fixed station using frequencies above 952 MHz:	
Initial license, 5-year renewal and assignment of license	20
Yearly renewal for stations used in CATV systems	5
Stations using frequencies in the band 806-947 MHz and providing service on a commercial basis—per channel	200
Common carrier public coast stations:	
Initial license, renewal and assignment of license	75
Amateur service:	
Modification of license without renewal	3
Special call sign (in addition to other applicable fee)	25

(b) Except as provided in paragraph (c) of this section, the fee set forth below shall accompany the following application or requests in the Safety and Special Radio Services:

Duplicate license	2

(c) Fees are not required in the following instances:

(1) Applications filed in the Police, Fire, Forestry Conservation, Highway Maintenance, Local Government and State Guard Radio Services.

(2) Applications filed by governmental entities in any of the Safety and Special Radio Services.

(3) Applications filed by the following in the Special Emergency Radio Service: hospitals, disaster relief organizations, beach patrols, school buses, and nonprofit ambulance operators and rescue organizations.

(4) Applications filed in the Disaster Communications Services.

(5) Applications for ship inspections pursuant to the Great Lakes Agreement, the Safety of Life at Sea Convention, and Parts II and III, Title III, of the Communications Act of 1934, as amended.

(6) Application for Novice Class license in the Amateur Radio Service, applications for amateur stations under military auspices, and applications filed in the Radio Amateur Civil Emergency Services (RACES).

(7) Operational Fixed Microwave applications filed for Closed Circuit Educational Television Service.

(8) Applications for Aeronautical Radionavigation Stations, Aeronautical Search and Rescue Stations, and any applications filed by the Civil Air Patrol or its component units in the Safety and Special Radio Services.

(9) Applications for license for an aircraft station to operate with only an emergency locator transmitter.

(10) Amendments to applications for authorizations in the Safety and Special Radio Services if the amended application on an original filing would not have required a higher fee than that already paid for the application being amended. If a higher fee would have been required than that already paid, the applicant will be required to pay the difference upon filing the amendment. If the fee would have been lower, no refund will be made.

§ 1.1116 Schedule of fees for Cable Television and Cable Television Relay Services.

(a) Applications and petitions filed in the Cable Television and Cable Television Relay Services shall be accompanied by the fees prescribed below:

Application in the Cable Television Relay (CAR) Service:	
For a construction permit	$20
For a license or renewal	5
For a modification of construction permit or of a license	5
For reinstatement of expired construction permit or license	5
For assignment of license or of construction permit, or for transfer of control	10
Application for certificate of compliance pursuant to § 76.11	15

NOTE 1: If multiple applications for certificates of compliance are simultaneously filed by cable television systems having a common headend and identical ownership but serving or proposing to serve more than one community, the full $15 fee will be required for only one of the communities; a $5 fee will be required for each of the other communities.

(b) An annual authorization fee shall be paid by each CATV system on or before April 1 of each year for the preceding calendar year. The fee for each system shall be equal to the number of its subscribers times 13 cents. The number of subscribers shall be determined by averaging the number of subscribers on the last day of each calendar quarter. (See § 1.1102(f).)

NOTE 2: Where a system offers bulk-rates to multiple-outlet subscribers, such as apartment house or motel operators, each bulk-rate contract is viewed as a number of subscriptions to be calculated by dividing the total annual charge for the bulk-rate contract by the system's basic annual subscription rate for an individual household. (Thus, for example, if a cable television system charges an apartment house operator $1,000 a year for a bulk-rate contract and charges individual households a basic rate or $50 per year, the bulk-rate contract is counted as 20 subscriptions (i.e. 1,000÷50=20.) Where a variety of "annual subscription rates" for individual households exists (e.g., $50 per year, if paid in one sum, or $60 per year, if paid on a per-month basis), the rate used in the subscriber formula shall be the lowest annual

V40017 JAN24 75 XUM

rate which is offered to individual subscribers ($50 here). Likewise, if the bulk-rate contract is on a monthly basis, it shall be divided by the lowest monthly rate which is offered. In the preceding example, a $50 per year charge should be viewed as a charge of $4.17 per month. It is not contemplated, however, that such calculations should be made with respect to extra payments for additional cable television outlets within the same individual household.

§ 1.1117 Schedule of fees for commercial radio operator examinations and licensing.

(a) Except as provided in paragraphs (b) and (c) of this section, applications for commercial radio operator examinations and licensing shall be accompanied by the fees prescribed below:

(1) Applications for new operator license or permit:	
First-class, second-class, or third-class, either radiotelephone or radiotelegraph	$4
Provisional radiotelephone third-class operator certificate with broadcast endorsement, one-year term	2
Restricted radiotelephone permit	4
Restricted radiotelephone permit (alien), five-year term	4
(2) Application for endorsement of license or permit:	
(3) Application for renewal of operator license or permit:	
First-class, second-class, or third-class, either radiotelephone or radiotelegraph	2
Restricted radiotelephone operator permit (alien)	4
(4) Application for replacement or duplicate license or permit	2
(5) Application for verification card (Form 758-F)	2

(b) Whenever an applicant requests both an operator license or permit and an endorsement the required fee will be the fee prescribed for the license document involved only.

(c) No fee is required for applications for a replacement license or permit for a marriage-related change of name.

(d) When an application is filed for a new license or permit and the applicant fails to appear for the required examination within 18 months, the application will be null and void for failure to prosecute and no refund will be made.

(e) Operator authorizations are issued by the Commission subject to payment and receipt of the applicable fee pursuant to the requirements of § 1.1102 of this chapter. In the case of operator authorizations, when the Commission is unable to collect the prescribed fee by a specified date upon notification mailed to the applicant at his last known address, the authorization will become null, void and ineffective after that date.

§ 1.1120 Schedule of fees for equipment type approval, type acceptance and certification.

Type approval, type acceptance, certification or approval of subscription television systems shall require payment of fees as prescribed below:

(a) CERTIFICATION

Item	Application fee
(1) Application for certification of each receiver model: [3]	
a. Television broadcast receiver	$250
b. FM broadcast receiver (with or without other reception capability)	150
c. Combination TV/FM broadcast receiver (with or without other reception capability)	300
d. All other receivers	150
(2) Application for certification of equipment operating under Part 18 [3] (N fee required for certification for use of industrial heating equipment on Form 724 in accordance with § 18.116 of the Commission's Rules)	150
(3) Application for certification of equipment (other than receivers) operating under Part 15 [3]	150

(See footnotes at end of tables.)

(b) TYPE ACCEPTANCE

Item	Application fee
(1) Application for type acceptance for each equipment type [1 2 3 4]	$200
(2) Application for the addition of one or more rule parts to existing type acceptance for each equipment type as identified by manufacturer or trade name and type number	150
(3) Approval of subscription television system	1500

(See footnotes at end of tables.)

(c) TYPE APPROVAL [5]

Item [6]	Filing fee [7]	Grant fee [7]
(1) Applications for type approval of equipment requiring tests: [8 11]		
a. Part 73:		
1. Broadcast modulation monitors—SCA or stereo	$2,400	$800
2. Broadcast modulation monitors—other	1,200	400
3. Broadcast antenna phase monitors	2,400	800
4. Other broadcasting equipment	1,200	400
b. Parts 81 and 83:		
1. Ship transmitters, including lifeboat transmitters	1,200	400
2. Radar	900	300
3. Ship automatic alarms	3,000	1,000
4. Ship automatic alarm keyers	750	250
5. Other maritime devices	750	250
c. Part 15:		
1. Wireless microphones	450	150
2. Auditory training transmitters (72-76 MHz)	1,200	400
3. Class I TV devices:		
If rated to operate on 1 or 2 channels	1,500	500
If rated to operate on more than 2 channels, for each channel over 2	750	250
4. Other Part 15 devices	450	150
d. Part 18:		
1. Medical diathermy and Subpart H equipment (13.56, 27.12, 40.68 MHz)	750	250
2. Medical diathermy, microwave ovens and other Subpart H equipment (915 MHz and above)	900	300
3. Ultrasonic	450	150
4. Other Part 18 devices	750	250
(2) Applications for type approval of equipment not requiring tests [9]	75	25
(3) Applications for approval of modifications in existing type approved equipment:		
a. Modifications which require retesting	[10] 75	[10] 25
b. All other modifications		
(4) Correction of equipment deficiencies: Application for type approval where unit has been previously rejected for deficiency and is resubmitted for testing	[12]	[12]

[1] The receiver part of a transceiver or a unit which includes a transmitter and receiver shall be separately certificated. The application for receiver certification shall be filed simultaneously with, but under separate cover from, the application for type acceptance.

[2] In the case of an equipment in which one or more receivers and transmitters are packaged as an individual equipment and identified by a single type number, each receiver shall be separately certificated and each transmitter shall be separately type accepted. The application(s) for certification for each receiver shall be filed simultaneously with, but under separate cover from, the application(s) for type acceptance.

[3] Application for certification or type acceptance of equipments which bear different identification will be considered separate applications, regardless of whether such equipment may be otherwise identical.

[4] Fees for type acceptance are not required in the following cases:
(a) When a request for type acceptance is included in an application for station license and covers only the item of equipment to be authorized in that particular station;
(b) When a request is made by the licensee of a station for approval of modifications to a specific item of existing type accepted equipment authorized in that particular station.

[5] Whenever an item subject to type approval is required to comply with more than one set of technical specifications, separate fees will be required for each set of technical specifications for which compliance is examined. For example, a combined frequency and modulation monitor will require the payment of fees applicable to each; a frequency monitor for standard broadcast and FM broadcast will require payment of fees applicable to each. Likewise, combination units of items of the same type, for example, a combination of two radars, will require payment of two fees.

[6] A separate application, with payment of appropriate fees, is required for each equipment bearing different identification, whether in trade name or model number, even though such equipment may otherwise be identical to another. However, see note 9 below.

[7] The filing fee must be remitted with the application. The applicant may include the grant fee if he desires; otherwise the grant fee shall be remitted within the prescribed 45 days after grant of type approval. See §1.1102 of this chapter.

[8] A single application is required for a combination under a single identification of two or more equipments which are subject to type approval, such as a combination of two radars. However, payment of separate fees will be required for each equipment which is tested. For an equipment which is subject to two or more sets of technical specifications in the rules, separate fees will be required for each set of tests.

[9] For a family or series of equipment models having the same radiofrequency generator or transmitter and so nearly identical in design and construction that tests on only one model will be required, the model tested will be subject to the fees specified in paragraph (c)(1), and the other models in that series will be subject to the fees specified in paragraph (c)(2). For example, this would apply to two or more models of microwave ovens identical except for identification, styling, and minor electrical or mechanical changes. Likewise, it would apply to two or more models of marine radars which employ the same transmitter but with different combinations of accessories. However, initial applications for type approval which request use of alternate magnetrons or other critical components will require payment of the fee indicated in paragraph (c)(1) plus the fee required in paragraph (c)(3)a.

[10] 75 percent of the filing and grant fees specified in (1) above for the particular class of equipment.

2. In § 13.71, paragraph (b) is revised to read as follows:

§ 13.71 Issue of duplicate or replacement licenses.

* * * * *

(b) The holder of any license or permit whose name is legally changed shall, within thirty days of the legal change of name, make application for a replacement document to indicate the new legal name by submitting a properly executed application accompanied by the license or permit affected. If the authorization is in the diploma form, the application should be submitted to the office where it was issued. If the authorization is of the card form (Restricted Radiotelephone Operator Permit), it should be submitted to the Federal Communications Commission, Gettysburg, Pa. 17325.

NOTE: Pursuant to § 1.1117(c) of this chapter, no fee is required for application for replacement of license for a marriage-related change of name.

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

MODIFICATIONS TO GENERAL WAGE DETERMINATION DECISIONS

The numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State.

LABORERS (Highway or Heavy)

GROUP 1: Minimum laborer, including cutting to 8", carrying, tying reinforcing rods; Work on cross culverts, connections and side drains in connection with highway work, whether corrugated metal or concrete pipe; Fence erectors; Metal Mesh; Hexel bar ; Tie bars and chairs in concrete paving; Nursery man incl. seeding; mulching; and planting of trees, shrubs and flowers; Stake chaser; Gabion baskets and Tele mattresses

GROUP 2: Chuck tenders; Nippers, core and diamond drill helpers; Powderman helpers

GROUP 3: Hot asphalt laborer; Rikers; Box-tenders; Asphalt curb machines; Potmen (not mechanical)

GROUP 4: Multi-plate culvert pipe; Air, gas and electric tools operators; Barco hammers; Spaders; Electric hammers; Air tampers; Cutting torches on demolition work; Caissons 8' to 12'; Cofferdams; Power operated concrete buggies; Operators of concrete saws on pavement (other than curb saws); Timber and chain saws; Stresser or stretcherman on post tension or pre-stressed concrete on or off jobsite; Tool room man and checkers; Cement finisher helper; Sandblaster helper; Concrete processing material sanitor; Spotters; Signalmen; Dumpmen; Transverse concrete conveyor operator, mechanical grouters; Boring machines (air hydraulic); Automatic concrete power curbing machine; Jackhammer; Vibrators; Paving breakers; Frostproofing

GROUP 5: Any laborers performing bridge work over 40' above the ground or above a floor and working from a bos'n chair, swinging stage, life belt or block and tackle

GROUP 6: Gunniting and shotcrete helpers; Caissons over 12'; Cofferdams; Timbermen; Underpinning and shoring; Form setters and/or stringman on roads, highways, streets and airport runways; Distributor; Placing and hooking of landing mats; Bull float (hand operated) and center expansion machines; Sandblasters; Grade checkers if required by employer

GROUP 7: Powdermen and blasters; Gunnite nozzlemen; Shotcrete operator

GROUP 8: Pipelayer on truck pipe lines in connection with highway work

GROUP 9: Wagon drills and air tracks; Jackhammer operators in caissons over 12'; Bellers and stemmen; Licensed powdermen; Diamond and core drills powered by air

GROUP 10: Any work, other than on bridges, performed by laborers working from a bos'n chair, swinging stage, life belt or block and tackle as a safety requirement

LABORERS (Pipelines)

All mainline sewers; Water mains; Gas, oil or any product pipelines; Penstocks; Siphons or drainage lines; Pipe plants and yards not in connection with highway construction.

GROUP 1: Pipe plants and yards; Stringing of pipe or skids; Handling and signaling on line work

GROUP 2: Potman (not mechanical); Pipewrapper, Dopers, Jeep Holiday Detector Men, Bandage makers, Powdermen helpers

GROUP 3: Laborers working in trenches on all pipelines; Sewer, water, gas, oil, telephone conduit, pen stock, siphons, drainage lines, caulkers, yarners, line graders, air, gas, electric and hydraulic tools, boring machines, hydraulic jacks, drills, tampers, etc.

GROUP 4: Sandblaster, powdermen and blasters, wiping of joint concrete pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Enamelers of pipe, inside and out

GROUP 5: (Relining Pipe)
Relining Pipe

GROUP 5-A: Mixer man

GROUP 6: Pipelayer

LABORERS (TUNNELS):

Group 1: Outside laborers

Group 2: Minimum tunnel labor, dry house man

Group 3: Cable or hose tenders, chuck tenders, concrete laborers, dumpman, whirley pumps operators

Group 4: Helpers on shotcrete, gunniting and sandblasting; Helpers, core and diamond drills; Pot tender

Group 5: Cement finisher helper, applying of concrete processing materials

Group 6: Callapsible form movers and setters, miners, machinemen and bit grinders, nippers, powdermen and blasters, reinforcing steel setters, timbermen (steel or wood tunnel support, incl. the placement of sheeting when required) and all cutting and welding that is incidental to the miner's work; Tunnel liner plate setters; Vibrator men, internal and external; Unloading, stopping and starting of Moran Agitator Cars; Diamond and core drills; Cement finisher (underground); Shotcrete operator; Gunnite nozzlemen; Sandblaster; Pump concrete placement men

(SHAFTS, RAISES, MISSILE SILOS AND ALL UNDERGROUND WORK OTHER THAN TUNNELS)

Group 1: Laborers, Topmen, Bottommen, and Cagers

Group 2: Chucktenders, Concrete laborers, Whirley pumps operators

Group 3: Helpers on shotcrete, gunniting and sandblasting; Helpers on core and diamond drills; Pot tenders; Cement finisher helpers; Applying of concrete processing material

Group 4: Collapsible form movers and setters, miners, machinemen and bit grinders, nippers, powdermen and blasters, reinforcing steel setters, timbermen (steel or wood tunnel support, incl. the placement of sheeting when required); All cutting and welding that is incidental to the miner's work; Liner plate setters; Vibrator men, internal and external

Group 5: Diamond and core drill; Cement finisher (underground); Gunnite nozzlemen; Shotcrete operators; Sandblasters and pump concrete placement men

Group 6: Any employee performing work under ground from a bos'n chair, swinging stage, life belt or block and tackle

LABORERS (BUILDING CONSTRUCTION) (Cont'd)

GROUP DESCRIPTION FOR ALL COUNTIES

Group 1: General Building Laborer

Group 2: Laborers underpinning and shoring...
Class A: 0' to 8' below working surface
Class B: 8' below working surface to any depth below working surface.

Group 3: Power Tool Operators of all mechanical, air, gas, and electrical tools including self-propelled buggies; Cement Finisher Tenders; Gunnite Nozzleman; Sand Blasters

Group 4: Pipe Layers

Group 5: Laborers preparing and placing of stone or any other aggregate in sand bed to be used as exposed face of tiltup panels

Group 6: Jackhammer Operator underpinning and shoring over 12" below working surface; Belters and Stemmers on Caisson Work

Group 7: Mason Tenders, brick and plaster

Group 5	6.03	.42	.45		.07
Group 6	6.08	.42	.45		.07

LABORERS (Heavy Construction)

GROUP 1: Minimum laborer, including caissons to 8', carrying reinforcing rods; Work on cross culverts, connections and side drains in connection with highway work, whether corrugated metal or concrete pipe; Fence erectors; Metal Mesh; Dowel bars; Tie bars and chairs in concrete paving; Nursery man incl. seeding; mulching and planting of trees, shrubs and flowers; Stake chaser; Gabion baskets and Teno mattresses

GROUP 2: Chuck tenders; Nippers, core and diamond drill helpers; Powderman helpers

GROUP 3: Hot asphalt laborer; Rakers; Box-tenders; Asphalt curb machines; Potmen (not mechanical)

GROUP 4: Multi-plate culvert pipe; Air, gas and electric tools operators; Barco hammers; Spaders; Electric hammers; Air tampers; Cutting torches on demolition work; Caissons 8' to 12'; Cofferdams; Power operated concrete buggies; Operators of concrete saws on pavement (other than gang saws); Timber and chain saws; Stresser or stretcherman on post tension or pre-stressed concrete on or off jobsite; Tool room man and checkers; Cement finisher helper; Sandblaster helper; Concrete processing material monitor; Spotters; Signalmen; Dumpmen; Transverse concrete conveyor operator, mechanical grouters; Boring machines (air hydraulic); Automatic concrete power curbing machine; Jackhammer; Vibrators; Paving breakers; Frostproofing

GROUP 5: Any laborers performing bridge work over 40' above the ground or above a floor and working from a bos'n chair, swinging stage, life belt or block and tackle

GROUP 6: Gunniting and shotcrete helpers; Caissons over 12'; Cofferdams; Timbermen; Underpinning and shoring; Form setters and/or stringman on roads, highways, streets and airport runways; Distributor; Placing and hooking of landing mats; Bull float (hand operated) and center expansion machines; Sandblasters; Grade checkers if required by employer

GROUP 7: Powdermen and blasters; Gunnite nozzlemen; Shotcrete operator

GROUP 8: Pipelayer on truck pipe lines in connection with highway work

GROUP 9: Wagon drills and air tracks; Jackhammer operators in caissons over 12'; Bellers and stemmen; Licensed powdermen; Diamond and core drills powered by air

GROUP 10: Any work, other than on bridges, performed by laborers working from a bos'n chair, swinging stage, life belt or block and tackle as a safety requirement

LABORERS (Pipelines)

All mainline sewers; Water mains; Gas, oil or any product pipelines; Penstocks; Siphons or drainage lines; Pipe plants and yards not in connection with highway construction.

GROUP 1: Pipe plants and yards; Stringing of pipe or skids; Handling and signaling on line work

GROUP 2: Potman (not mechanical); Pipewrapper, Dopers, Jeep Holiday Detector Men, Bandage makers, Powdermen helpers

GROUP 3: Laborers working in trenches on all pipelines; Sewer, water, gas, oil, telephone conduit, pen stock, siphons, drainage lines, caulkers, yarners, fine graders, air, gas, electric and hydraulic tools, boring machines, hydraulic jacks, drills, tampers, etc.

GROUP 4: Sandblaster, powdermen and blasters, wiping of joint concrete pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Enamelers of pipe, inside and out

GROUP 5: (Relining Pipe)
Relining Pipe

GROUP 5-A: Mixer man

GROUP 6: Pipelayer

LABORERS (TUNNELS):

Group 1: Outside laborers

Group 2: Minimum tunnel labor, dry house man

Group 3: Cable or hose tenders, chuck tenders, concrete laborers, dumpman, whirley pumps operators

Group 4: Helpers on shotcrete, gunniting and sandblasting; Helpers, core and diamond drills; Pot tender

Group 5: Cement finisher helper, applying of concrete processing materials

Group 6: Collapsible form movers and setters, miners, machinemen and bit grinders, nippers, powdermen and blasters, reinforcing steel setters, timbermen (steel or wood tunnel support, incl. the placement of sheeting when required) and all cutting and welding that is incidental to the miner's work; Tunnel liner plate setters; Vibrator men, internal and external; Unloading, stopping and starting of Moran Agitator Cars; Diamond and core drills; Cement finisher (underground); Shotcrete operator; Gunnite nozzlemen; Sandblaster; Pump concrete placement men

(SHAFTS, RAISES, MISSILE SILOS AND ALL UNDERGROUND WORK OTHER THAN TUNNELS)

Group 1: Laborers, Topmen, Bottommen, and Cagers

Group 2: Chucktenders, Concrete laborers, Whirley pumps operators

Group 3: Helpers on shotcrete, gunniting and sandblasting; Helpers on core and diamond drills; Pot tenders; Cement finisher helpers; Applying of concrete processing material

Group 4: Collapsible form movers and setters, miners, machinemen and bit grinders, nippers, powdermen and blasters, reinforcing steel setters, timbermen (steel or wood tunnel support, incl. the placement of sheeting when required); All cutting and welding that is incidental to the miner's work; Liner plate setters; Vibrator men, internal and external

Group 5: Diamond and core drill; Cement finisher (underground); Gunnite nozzlemen; Shotcrete operators; Sandblasters and pump concrete placement men

Group 6: Any employee performing work under ground from a bos'n chair, swinging stage, life belt or block and tackle

GROUP III	6.12	.40	.35		.05
GROUP IV	5.04	.40	.35		.05

GROUP I: Cranes. derricks. clam shells. draglines, piledriver (including auger & boring machines for drilling in piling). backhoes. hydra cranes. grade all. shovels. patrols. cableways, tug boat captain (150 H.P. or more), multi-bowl operator (similar to R.G. LeTourneau Model L-60 2 or 3 twenty cu. yd. scrapers), front end loaders. (over 4 cy cap.), side boom cats, multi-drum hoist (for rigging). mechanic (heavy equip.) tower crane (stationary. climbing & traveling). gantry cranes, locomotive cranes. bridge cranes (over 20 tons cap.). concrete pump with boom (mobile). high lift or fork lift (second floor & higher) Locomotive engineer (jobs not covered by railroad unions)

GROUP II: Bulldozers. bridge cranes (20 tons & under), highlift of fork-lift (up to 2nd floor), straddle buggys. hoists (other than rigging) including winch truck not mobile & used as a hoist. front end loader (over 2 cy & up to & incl., 4 cy cap.), trenching machine (ladder & wheel type) over 6' cut & over 24' width. concrete paver & scrpaers

GROUP III: Concrete pumps. front end loader (2cy or less not used as hoist) mobile winch trucks. self-propelled sub-grader asphalt paving machine concrete mixer, tractors. aim compressor plant (2 or more compressors on a common manifold). lubricating engineer (mobile plant), pavement breakers street sweeping machines

GROUP IV: Tractors operated sweeper. trenching machine (ladder & wheel type maximum cut 6' & maximum width 24"), firemen, self-propelled rollers. wellpoint pump. asphalt distributor. water truck drivers. motor boat operator. oiler. mechanics' helpers. pumpman (other than well point up to & incl., 5 pumps within 300 ft. raduis), self-propelled sweepers., combination pump, compressor & combustion type welding machine, conveyor (motor operated), welding machine op (3 or more combustion type. pulver mixor, compressor (1 to and including 3 compressors within 3 cu. ft. raduis).

LABORERS

Group 1: All clean-up work of debris, grounds and buildings; Bridge Laborers; Construction Laborers; Dumpman; Gardeners; Horticultural and Landscape Laborers; General Laborers; Limbers, Brush Loaders and Pilers; Maintenance, repair (track and roadbeds)

Group 1-a: Mason Tenders

Group 1-b: High Scaler

Group 1-c: Gunnite Operator

Group 1-d: Powderman

Group 2: Asphalt Shovelers; Cement Dumpers; Choke Setter and Rigger (clearing work); Concrete Chipping; Concrete Laborers (wet or dry) including Bucket Tender for concrete; Driller's Helper, Chuck Tender, Outside Nipper; Guinea Chaser (Stakeman); High Pressure Nozzleman-hudraulic monitor (over 100# pressure) excluding levee work; Loading and unloading, carrying and handling of all rods and materials for use in reinforcing concrete construction; Mucker (under ground); Sloper; All pneumatic, gas and electric tools not listed in Group 1

Group 3: Asphalt Ironers and Rakers; Barko and similar type Tampers; Buggymobile; Chainsaw, Faller, Logloader and Bucker; Concrete and Magnesite Mixer under 1/2 yard; Concrete Grinder; Concrete Pan Work; Concrete Saw (walking or hand type); Cribbers; Cut Granite Curb Setter; Form Raisers; Header Board; Mortar Mixers (block-brick-masonry); Jack-hammer Operator; Jackson and similar type Compactors; Lagging, Sheeting, Whaling, Bracing, Trench-jacking, Hand-guided Lagging Hammer; Magnesite and Mastic Workers (wet or dry); Mechanical Drillers not covered elsewhere; Pavement Breakers; Pipelayers, Caulkers, Bander; Pipewrappers, Kettlemen, Potmen and men applying asphalt, Lay-Kold, Creosote and similar type materials; Post Hole Diggers (hand held-gas, air and electric); Riprap, Stonespaver and Rockslinger, including placing of sacked concrete (wet or dry); Rotary Scarifier; Roto-tiller; Sandblasters; Tank Cleaners; Tree Climbers; Vibra-screed (bull float in connection with laborers' work); Vibrator, Burning, Welding, Signaling, and Rigging in connection with laborers' work; Concrete Pump Machine; Joy Drill Model TWM-2A, Gardner, Denver DH-143 and similar type drills; Track Drillers, Diamond Core, Wagon Drillers and Davis Trencher T-66 or similar types

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)

Group 1: Partsman (heavy duty shop parts room when needed); Repairman Helper

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Group 2: Compressor, electrically, diesel or gas powered etc.; Hydraulic Monitor; Material Loader and/or Conveyor Operator (handling building material); Mixer Box Operator (concrete plant); Pump Operator; Spreader Boxman (with screeds); Tar Pot Fireman (power agitated)

Group 3: Oiler; Fireman; Switchman; Brakeman; Deckhand; Tar Pot Fireman; Box Operator (bunker); Locomotive (up to and including 30 tons); Roller (5 tons and under); Screedman (except asphaltic concrete paving); Self-propelled, automatically applied concrete curing machine (on streets, highways, airports and canals); Tugger Hoist, single drum

Group 4: Boom Truck or Dual Purpose "A" Frame Truck; Fork Lift or Lumber Stacker (construction job site); Material Hoist (1 drum); Straddle Truck; Ross Carrier and similar (jobsite); Dinky Operator

Group 5: Concrete Mixer (up to 2 yards); Concrete Pumps or Pumpcrete Guns; Generators, gasoline or diesel driven (100 K.W.); Lubrication and Service Engineer (mobile and grease rack); Towermobile; Welding Machine (gasoline or diesel); Agri-cat (Mini Cat)

Group 6: Combination Loader and Backhoe (including Mapto (up to and incl. 1/2 yard); Concrete Batch Plants (wet or dry); Concrete Saws and/or Grinder (self-propelled unit on streets, highways, airports and canals); Drilling Machinery (not to apply to waterliners, wagon drills or jack-hammers); Highline Cable-way Signalman; Loader (up to and including 2½ cu. yds.); Lull High Lift; Pavement Braker; Maginnis Internal Full Slab Vibrator (on airports, highways, canals, and warehouses); Mechanical Finishers (concrete)(large Clary, Johnson Bidwell Bridge Deck or similar types); Mobile Crane Driver; Portable Crushers; Power Jumbo Operator (setting slip forms, etc., in tunnels); Rollers (over 5 tons); Self-propelled Compactor (single engine); Small Rubber-tired Tractors; Trencher (up to and including 6'); Slip Form Pumps (power driven by hydraulic, electric, gas, etc., lifting device for concrete forms)

Group 7: Crusher Plant; Dual Drum Mixer; Gradesetter; Hoist (2 drums); Loader (over 2½ cu. yds. up to and including 5 cu. yds.); Mechanical Finishers or Spreader Machine, Asphalt (Barber Greene and similar) (Screedman required); Mine or Shaft Hoist; Pavement Breaker, Truck mounted, with Compressor Combination; Pavement Breaker with Compressor Combination (operates 1 or 2); Pipe Cleaning Machine (tractor propelled and supported); Pipe Wrapping Machine (tractor propelled and supported); Pipe Bending Machine (pipe lines only); Self-propelled Elevating Grader Plane; Slusher Operator; Trencher (over 6'); Water Tanker (pulled by Euclids, T-Pulls, DW-10, 20, 21, or similar); Mixermobile (over 5 tons) Small Tractor (with boom D-6 or similar)

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Group 8: Boring Machine; Cast-in-place Pipe Laying Machine; Concrete Batch Plant (multiple units); Combination Loader and Hydraulic Backhoe (over 1/2 yd. to and incl. 3/4 yd.); Conveyor (tunnel); Engineer, Locomotive (over 30 tons up to and incl. 100 tons); Finishing Machine Operator (airports and highways); Hydraulic Backhoe (over 1/2 yard to and including 3/4 yd.); Kolman Loader; Mechanic Trench Shield; Mucking Machine; No-joint Pipe Laying Machine; Portable Crushing and Screening Plants; Saurman type Dragline (under 5 yards); Self-propelled Boom type Lifting Device; Stationary Pipe Wrapping, Cleaning and Bending Machine; Surface Heater and Planer; Tunnel Badger; Tri-batch Paver

Group 9: Boom type Backfilling Machine; Combination Mixer and Compressor (gunite); Do-more Loader and Adams Elegrader; Lull Hi-lift (40' or over); Rubber-tired Earthmoving Equipment (up to 12 cu. yds.); Wheel Trencher (over 6')

Group 9-A: Dozers; Heavy Duty Repairman or Welder; Push Cats; Scrapers; Self-propelled Compactor with dozer; Sheep Foot; Tractors; Tractors(with boom, larger than D-6 and similar)

Group 10: Chicago Boom; Hoist (3 drums); Koehring Skooper; Loader (over 5 yards up to and including 12 yards); Locomotive (over 100 tons)(single or multiple units); Power Blade Operator; Rubber-tired Earthmoving Equipment (up to and including 35 cu. yds., Euclids, T-Pulls, DW-10, 20, 21 and similar); Saurman type Dragline (5 yards or over); Soil Stabilizer (P & H equal); Sub-grader (Gurries or other automatic type); Track-laying type Earthmoving Machine (single engine with tandem scraper); Tractor, Compressor, Drill Combination; Tractor (tandem scraper); Tractors (D-9 or equivalent)

Group 10-A: Cranes (not over 25 tons); Power Shovels, Clamshells, Draglines, Backhoes, Gradealls (up to and including 1 cu. yd.)

Group 11: Automatic Skip Form Paver (concrete or asphalt)(Gradesetter, Screedman required); Cranes (over 25 tons); DW-10, 20, etc. (Tandem); Earth-moving Machine (multiple propulsion power units and two or more scrapers)(up to and including 35 cu. yds. struck "MRC"); Highline Cable-way; Lift Slab Machine; Loader (over 12 yds.); Power Shovels, Clamshells, Draglines, Backhoes, Gradealls (over 1 yd. and up to 7 yds.); Power Blade Operator (16 or over); Pre-stress Wire Wrapping Machine; Self-propelled Compactor (with multiple propulsion power units); Single Engine Rubber Tired Earth Moving Machine (with tandem scraper); Tandem Cats; Tower Cranes, Mobile; Trencher (pulling attached shield); Universal, Liebher, Linden and similar types of tower cranes; Wheel Excavator (up to and including 750 cu. yds. per hour)

Group 12: Band Wagon (in conjunction with wheel excavator); Derricks; Drill Rigs; Multi-propulsion Earth Moving Machines (2 or more scrapers) (over 35 cu. yds. "struck" mrc); Power Shovels and Draglines (7 cu. yds. and over); Rubber-tired Earthmoving Equipment (over 35 cu. yd. Euclids, T-Pulls, DW-10, 20, 21 and similar); Wheel Excavator (over 750 cu. yds.)

CLASSIFICATION DEFINITIONS

LABORERS - ZONE 1

GROUP 1 - Building and labor construction
GROUP 2 - Stone mason helpers; mechanical tool operators; sewerman (bottom men, caulkers, tenders, joint wipers, hot pot, grade carriers, layers and ditchers 4 feet or over); tender of all crafts; sandblaster (nozzlemen); Sandblaster (pot tender); laying non-metallic pipe over 4 feet deep, including sewer pipe, drain pipe, and underground tile; septic tank diggers and installers, over 4 feet deep; gas & oil pipeline laborers and wrappers
GROUP 3 - Gunite tool operators

DECISION NO. LA75-4033

LABORERS - ZONE 2

GROUP 1 - Building laboror; rotary drill laborers; foundation drill crewman
GROUP 2 - Mason mixer; plaster mixer; mechanical tool operator; sandblaster; laying concrete pipe, clay pipe, plastic pipe, asbestos cement pipe, casing pipe and corrugated metal pipe, as sewer pipe, drain pipe, and underground tile (caulkers, joint wrappers, hot pot and pipe layers); gas and oil pipeline laborers, wrappers and dopers

LABORERS - ZONE 3

GROUP 1 - Building and general laborer; tenders (carpenter, plaster, cement finisher, mason); tank and vessel cleaners
GROUP 2 - Air tool operators (except jackhammer); interior of closed tanks and vessels power equipment
GROUP 3 - Mortar mixers and jackhammer operators
GROUP 4 - Blasterers
GROUP 5 - Blaster helpers; concrete cutters behind paving machine and puddlers; form setters and lines asphalt worker
GROUP 6 - Wiping joints, laying pipe and tile from pumpcrete
GROUP 7 - Interior of closed tanks and vessels manually

LABORERS - ZONES 4 & 5

GROUP 1 - Building and general laborers, carpenter tenders
GROUP 2 - Power tool operators (harner men, tamper, vibrators, power buggies, concrete chippers or cutters, chain saw operators, etc.); pipelayers (non-metallic)
GROUP 3 - Mason tenders, plaster tenders, cement mix (wet or dry) tenders, hod carrier tender; mortar mixers & cement mixers (wet or dry)

LABORERS - ZONE 6

GROUP 1 - Building laborers
GROUP 2 - Laborers handling steel pans, stone masons helpers, mechanical tool operators, sewermen (bottom men, caulkers, tenders, joint wipers, hot pot, grade carriers, layers and ditchers 4 feet and over), sand blaster (nozzlemen and pot tender), laying non-metallic pipe over 4 feet deep, septic diggers and installers over 4 feet deep, gas and oil pipeline laborers and wrappers
GROUP 3 - Gunite tool operators
GROUP 4 - Bricklayers tenders and mason tenders
GROUP 5 - Hod carriers using prime mover to serve a bricklayer; mortar mixers

LABORERS - ZONE 7

GROUP 1 - Common laborers
GROUP 2 - Jackhammermen, sewermen, mason tendors, plasterer tenders, stone masons helpers, vibratormen
GROUP 3 - Mortar mixers

LABORERS - ZONE 8

GROUP 1 - Common laborers; carpenter helpers; mason tenders (other than cement); plasterers' tenders; stone mason helpers; concrete workers; scaffold builders
GROUP 2 - Air tool operators (jackhammer, vibrator, and tamper); sewer pipe joiners and setters; concrete cutters; hod carriers; creosote materials handler; acid worker; mason tenders (cement); mortar mixer (wet or dry); motorized buggy operator; waterproofers (mastic); form setters (steel paving forms)
GROUP 3 - Chain saw operator
GROUP 4 - Asphalt raker, tamper, smoother and shovelers; sewer pipe layers; blaster helpers
GROUP 5 - Powderman

DECISION NO. LA75-4033

LABORERS - ZONE 9

GROUP 1 - Building laborers
GROUP 2 - Mason tenders, plasterer tenders; Asphalt rakers, asphalt smoothers
GROUP 3 - Mortar mixers
GROUP 4 - Air jack operators, vibrator operators; Sewer pipe layers, sewer pipe wipers

LABORERS - ZONE 10

GROUP 1 - Laborers, tenders (bricknasons, stonemasons, cement masons, carpenter, plasterers); Stripping & dismantling; concrete form work; loading, unloading, carrying & handling steel & steel mesh; assisting to the setting of cut stone, granite or artifical stone; building scaffolds; shoring
GROUP 2 - Mechanical tool operator (air, electric, motor, engine, etc.); sewer pipe layers; mortar mixers (hand or machine); gunite operator
GROUP 3 - Pipe dopers & burners

AREA COVERED BY LABORERS (BUILDING CONSTRUCTION) ZONES

ZONE 1 - St. Tammany (as far south as Bayou Lacombe and east to the Mississippi State Line at Pearlington), Tangipahoa (except that portion south of a line running due east from the western boundary of Tangipahoa Parish which follows the northern city limits of Independence, Louisiana to 20 miles east of U.S. Highway 51, then running south paralleling Highway #51 at a 20 mile distance to Lake Pontchartrain) & Washington Parishes
ZONE 2 - Acadia, Iberia, Lafayette, St. Landry, St. Martin, St. Mary & Vermilion Parishes
ZONE 3 - Allen, Beauregard, Calcasieu, Cameron, Jefferson Davis & Vernon Parishes
ZONE 4 - All of Ascension, East Baton Rouge, East Feliciana, Iberville, Pointe Coupee, West Baton Rouge & West Feliciana Parishes; Parts of Assumption, St. James, St. John the Baptist Parishes (north of a line drawn from the southern limits of the town of St. James in St. James Parish to the northern limits of the town of Napoleonville, in Assumption Parish & then directly west to the Parish line, all of St. James Parish except that part which is east of a line drawn from Lutcher, Louisiana to U.S. Highway 61 (Airline Highway) then west on U.S. 61 to Blind River and on a direct line to Manchac, Louisiana)
ZONE 5 - Livingston, St. Helena & Tangipahoa (south & west of a line running from the western parish line to a point directly east which touches the northern limits of the town of Independence, then directly south to Lake Pontchartrain) Parishes
ZONE 6 - Jefferson (except Grand Isle), Orleans, Plaquemines, St. Bernard, St. Charles, St. John the Baptist (on the west bank of the Mississippi River and the portion of St. John the Baptist on the east bank of the Mississippi River as far as the Sycamore Inn Lutcher and north to Blind River and Manchac) & St. Tammany (north as far as Bayou Lacombe, east to the Mississippi State Line at Pearlington) Parishes
ZONE 7 - Assumption (north of Napoleonville), Jefferson (Grand Isle), Lafourche, St. James (on the west bank and including the town of Vacherie) & Terrebonne Parishes
ZONE 8 - Avoyelles, Evangeline, Grant, LaSalle, Natchitoches, Rapides & Winn Parishes

CLASSIFICATION DEFINITIONS

POWER EQUIPMENT OPERATORS - ZONES 1, 2, 3 & 4

GROUP 1 - Oiler
GROUP 2 - Mechanic helper
GROUP 3 - Oiler-Driver
GROUP 4 - Scaleman
GROUP 5 - Air compressor; Asphalt Plant Operator; Bulldozers, D-4 and equivalent & under; Bullfloats; Concrete Spreader; Finishing Machines; Concrete Mixer (16-s or less); Concrete Saw; Distributors (Bitum Surface); Dowell Bar Machine; Farm-Type Tractor (with all attachments except backhoe); Fireman; Fork Lifts (other than setting steel, machinery or pipe); Hoist, 1 drum or less than 4 stories; Kolum Buff Machine; Pull Cats; Pump (3" and over); Pump, concrete (under 6"); Rollers, except on asphalt or brick; Straddle Buggies; Sweepers on streets & roads (Motorized); Winch Truck, A-Frame (other than handling steel or pipe)
GROUP 6 - Asphalt Spreader; Backhoe; Bulldozer, over D-4 and equivalent; Cableways; Concrete Mixer, over 16-s; Cranes; Derricks; Ditching or Trenching Machines; Draglines; Fork Lifts (setting steel, machinery or pipe); Front-End Loaders (except Farm-type tractors); Grease Serviceman; Hoist, 1 drum, 4 stories or more or 40 feet (on structures other than buildings); Hoist, 2 drums and over; Hydrolifts; Heavy Duty Mechanic; Motor Patrols; Piledrivers; Pump, concrete (6" & over); Road Pavers; Rollers on asphalt or brick; Scoopmobiles; Scrapers; Sideboom Cats; Shovels; Tractorvators; Welder, journeyman; Well Point System; Winch Cats (hoisting); Winch Truck, A-Frame (handling steel or pipe)

POWER EQUIPMENT OPERATORS - ZONE 5

GROUP 1 - Scale operator; Oiler-Driver on Motor Crane; Batch Plant Operator
GROUP 2 - Pumps under 3 inch suction; Mechanic Helper
GROUP 3 - Oiler
GROUP 4 - Fireman
GROUP 5 - Combination Oiler-Compressor; Combination Oiler-Fireman; Asphalt Spreader; Backhoe (all types); Bulldozers; Cableways; Cherry Pickers (all types); Concrete Mixers (over 1 sack); Cranes; Deck Winch (2 drums or over); Front End Loaders (except farm type); Grease Serviceman; Hoist (1 drum, 4 stories, or 40 feet) on construction other than buildings; Hoist (2 drums or over); Locomotives (all types); Mechanic; Mixer Plant Operator, Central Mix; Motor Patrols; Piledrivers; Pull Cat; Pump Crete, 6" and over discharge; Push Cat; Road Pavers; Derricks; Ditching or Trenching Machines (riding type); Draglines; Dredges; Fork Lifts (other than farm type) outside warehouses; Foundation Drill; Rollers (plant mix asphalt); Scrapers; Shovels; Sidebooms; Unit Operator; Welder, journeyman; Well Point System; Whirleys; Winch Cats (Cat D-4 and over); Winch Trucks with A-Frame (5 tons and over); Work Boats, requiring licensed operator

DECISION NO LA75-4033

POWER EQUIPMENT OPERATORS - ZONE 5 (CONT'D)

GROUP 6 - Bush Hog; Compressors; Concrete Pumps, under 6" discharge; Concrete Saw; Kolum Buff Machines; Mixers (1 sack and under); Motorized street sweepers self-propelled; Pumps (3 inch and over); Deck Winch (1 drum); Distributors; Dowel Bar Machine; Farm-type tractors (when used to pull discs, grass cutters, etc.); Test Pump, Internal, combustion engine powered; Ditching or Trenching Machines (non-riding type); Water Blast Pumps; Hoist, 1 drum under 4 stories on buildings); Hoist, 1 drum (40 feet or under on structures other than buildings
GROUP 7 - Asphalt Plant Operator; Boom Trucks; Bullfloats; Concrete Spreader; Farm Type Front End Loaders; Rollers (other than plant mix asphalt); Straddle Buggies; Winch Truck with A-Frame (under 5 tons); Work Boat, not requiring licensed operator; Finishing Machines

POWER EQUIPMENT OPERATORS - ZONE 6

GROUP 1 - Snatch Cat; Pumps, 3 inch suction or more
GROUP 2 - Pumps, under 3 inch suction; Mechanic Helper
GROUP 3 - Oiler
GROUP 4 - Batch Plant Operator
GROUP 5 - Air Compressor; Asphalt Plant Engineer; Blade Grader; Distributor (Bitum Surface); Finishing Machine (Concrete, Paving); Hoist, 1 drum, less than 4 stories; Concrete Mixer under 16S; Oiler Driver; Pump Crete; Street and Road Sweeper; Roller (except on asphalt or brick); Roller, asphalt or brick (under 5 tons); Post-Hole Digger; Tractor operated Bush Hog and similar grass or bush cutting equipment
GROUP 6 - A-Frame Truck; Bulldozer, under 6; Crew Boat Operator; Fireman; Fork Lift; Straddle Buggy; Traxcavator, Scoopmobile and similar front-end loading equipment with Scoopmobile or Bucket under one (1) cubic yard capacity; Locomotive; Well Point System; Unit Operator; Hoist, 1 drum, 4 stories or over
GROUP 7 - Backhoe; Cableway; Concrete Mixer, 16S & up; Crane; Derrick; Dragline; Dredge; Equipment Maintenance Mechanic; Hoist, 2 drum; Locomotive Crane; Paving Mixer; Piledriver; Road Paver; Roller on Asphalt or Brick (5 tons & over); Shovel; Sideboom Cat; Bulldozer, 6 and over; Motor Patrol; Scraper; Hydrolift Crane, Hydrolift Truck, Yard Crane; Cherry Picker, etc.; Foundation Boring and Reaming Machine; Cement Stabilizer; Trenching Machine; Asphalt Spreader; Traxcavator and similar front-end loading equipment with scoop or Bucket of one (1) cubic yard or more capacity; Tug Boat Operator; Turnapull; Euclid, DW-10 and other similar self-loading earth moving equipment; Concrete Pump (not Pump Crete
GROUP 8 - Crane Operator, 60 tons & over; Crane Operator, Boom 100 feet & over; Piledriver operator, Leads 100 feet & over
GROUP 9 - Crane Operator, 100 tons & over; Crane Operator, Boom 150 feet & over; Piledriver Operator, Leads 150 feet & over
GROUP 10 - Crane Operator, Boom 250 feet & over; Piledriver Operator, Leads over 250 feet

DECISION NO. LA75-4033

POWER EQUIPMENT OPERATORS - ZONE 7

GROUP 1 - Assistant Master Mechanic
GROUP 2 - Master Mechanic
GROUP 3 - Oilers
GROUP 4 - Batch Plant Operators; Mechanic Helpers; Oilers (Drivers)
GROUP 5 - A-frame truck, except when working with ironworkers or pipefitters; Air Compressor; Asphalt Plant Engineers; Asphalt Finisher, Screed Men; Blade Graders; Boat Operator; Bullfloats; Concrete Joining Machines; Concrete Mixers, 16s and under; Concrete Spreader; Crusher Operator; Deck Winch Operator (1); Distributors, asphalt "Ditch Witch" and similar equipment; Electric Elevators (inside); Finishing Machine; Fireman; Form Graders; Fork Lifts; Hoist, 1 drum, under 4 stories; Power Subgrader; Pug Mill Operators; Pull Tractors; Pump, Pump Crete; Rollers, except on brick and asphalt; Rubber tired Front End Loader (with or without blade attachments) less than 1 cu. yd. capacity; Scale Operator; Scoopmobile; Snatch Cats; Spray Machines; Stabilizers, less than 3 drums; Straddle-Buggy; Track Machines and equivalent Machines; Tractors or Bulldozers smaller than D-6
GROUP 6 - A-Frame Truck, when working with ironworkers and pipefitters; Bulldozers D-6 and larger; Cable Ways; Concrete Mixers, over 16-s paving machines; Cranes, Derricks; Draglines and Clam Shells; Deck Winches (2); Gradealls; Hi-Ho and similar type equipment; Hoist, 1 drum, 4 stories and over; Hoist, 2 drums or more; Hydro Cranes; Mechanic; Motor Patrols; Piledrivers; Rollers on brick and asphalt; Rubber Tired Front End Loader, with or without blade attachments, 1 cu. yd. capacity or more; Scrapers; Shovels; Backhoes (all types); Sideboom Cats; Stabilizers, 3 drums or more; Traxcavators; Trenching Machines; Unit Operator; Welder, journeyman; Well Point Systems (gas, diesel, electric, etc.); Concrete Pump/Boom Combinations

AREA COVERED BY POWER EQUIPMENT OPERATORS (BUILDING CONSTRUCTION) ZONES

ZONE 1 - Bienville, Bossier, Caddo, Claiborne, DeSoto, Red River & Webster Parishes
ZONE 2 - All of Acadia, Lafayette & Vermilion Parishes; Parts of Iberia, St. Martin & St. Mary Parishes (west of a line drawn from the city of Berwick to the junction of the Iberville-St. Landry Parishes border)
ZONE 3 - Avoyelles, Evangeline, Grant, LaSalle, Natchitoches, Rapides, Sabine, St. Landry & Winn Parishes
ZONE 4 - Caldwell, Catahoula, Concordia, East Carroll, Franklin, Jackson, Lincoln, Madison, Morehouse, Ouachita, Richland, Tensas, Union & West Carroll Parishes
ZONE 5 - Allen, Beauregard, Calcasieu, Cameron, Jefferson Davis & Vernon Parishes
ZONE 6 - All of Ascension, East Baton Rouge, East Feliciana, Iberville, Pointe Coupee, St. Helena, West Baton Rouge & West Feliciana Parishes; Parts of Assumption & St. James Parishes (northwest of a straight line drawn from the city of Berwick to the city of Lutcher); Parts of Iberia & southern & northern St. Martin Parishes (east and west of a line from the city of Berwick north to the eastern boundary of the city of Krotz Springs; Parts of Livingston, Tangipahoa & Washington Parishes (west of a line drawn north from the city of Lutcher to the east side of the city of Hammond to the Louisiana-Mississippi border)

DECISION NO. LA75-4033

AREA COVERED BY POWER EQUIPMENT OPERATORS (BUILDING CONSTRUCTION) ZONES (CONT'D)

ZONE 7 - All of Jefferson, Lafourche, Orleans, Plaquemines, St. Bernard, St. Charles, St. John the Baptist, St. Tammany & Terrebonne Parishes; Parts of Assumption, Livingston, St. James, St. Martin, St. Mary, Tangipahoa & Washington Parishes (that part of southeastern Louisiana bounded on the north by the State of Mississippi, on the east by the State of Mississippi and the Mississippi Sound, on the south by the Gulf of Mexico and on the west by a line drawn as follows: beginning at a point on the Louisiana-Mississippi boundary in Washington Parish, Louisiana, due north of the town of Hackley, Louisiana, thence southwesterly in a straight line to a point on the east bank of the Mississippi River at the southernmost point of Lutcher (including Grarercy in the area), thence in a more southwesterly direction in a straight line to midstream of the Atchafalaya River at Morgan City-Berwick (including Morgan City in this area), thence southerly on a line following midstream of the Atchafalaya River to Atchafalaya Bay and in a line due south to the Gulf of Mexico)

DECISION NO. LA75-4033

CLASSIFICATION DEFINITIONS

GROUP 1 - 60 ton crane & over; Crane with 125' boom

GROUP 2 - Crane with 175' boom

GROUP 3 - Heavy Duty Operators-Crane all types; deck winches (2); Hi-Ho and similar type equipment; three drum (or more) stabilizers; pulls all types; concrete mixer one yard and over; all pavers; ditching or trenching machines (track type); mechanics and equipment welders; well-point systems; hoist, two drums or more; hoist, one drum, forty vertical feet or more; scrapers; bulldozers, rubber-tired or track other than farm-type; scoopmobiles; motor patrol; gradall; rollers on hot mix; asphalt paving machines; front end loaders, other than farm-type, one cubic yard or over; shovels and backhoes, all types, and equivalent equipment; pilsdriver operator; sideboom cats; A-frame trucks when handling steel or pipe; work boats requiring licensed operators; tugboats; fork lifts over ten ton capacity; and founation drilling machines

GROUP 4 - Medium Duty Operators-Two drum stabilizers; front end loaders under 1 cubic yard; A-Frame truck except when handling steel or pipe; finishing machines (concrete); power subgraders; tow tractor (crawler type); one drum hoist under 40 vertical feet; fireman; concrete spreader; pugmill operator; bituminous distributor on surface treatment and equivalent; bull floats and equivalent; job grease man on "Highway Construction"; unit operator (all Highway Zones); work boats not requiring licensed operators; inboard motored crew boats

GROUP 5 - Light Duty Operators-Single drum stabilizer; concrete mixer under one yard; spray curing machines; rollers on subgrade; one air compressor over 125 cubic feet; form graders; asphalt finisher screed man; pump over 4 inches; scale operators; crusher operators; concrete jointing machines; concrete saw; tack machines and equivalent equipment; pump crete; electric elevator (inside); oiler driver; farm-type, rubber-tired tractor, with attachments, except backhoe; Kolun buff and similar equipment; fork lifts, ten ton capacity and under; outboard motored crew boats

GROUP 6 - Mechanic Helper; Batch Plant Operator

GROUP 7 - Oiler

GROUP 8 - Fireman

GROUP 9 - Fireman Operating Steam Valve

GROUP 10 - Oiler on Crane Using Air to Drive Piles

AREA COVERED BY POWER EQUIPMENT OPERATORS (HIGHWAY CONSTRUCTION) ZONES

CLASSIFICATION DEFINITIONS

GROUP 1 - One ton and under: Warehouseman, material checker, receiving clerk, spotter and dumper
GROUP 2 - One and one-half (1½) tons to and including two (2) tons (exclusive of dump trucks), truck mechanic helper
GROUP 3 - Single axle dump trucks, single axle water trucks
GROUP 4 - Heavy equipment, tandem axle dump and tandem axle water trucks, winch lift, transit mix, floats, pole trailers, four axle trailer and truck mechanic
GROUP 5 - Special equipment, euclids and five axle moving equipment

AREA COVERED BY TRUCK DRIVERS (HIGHWAY CONSTRUCTION) ZONES

ZONE 1 - Jefferson, Orleans, Plaquemines, St. Bernard & St. Charles Parishes
ZONE 2 - East Baton Rouge Parish
ZONE 3 - Bossier & Caddo Parishes
ZONE 4 - Calcasieu Parish
ZONE 5 - Lafayette, Ouachita & Rapides Parishes
ZONE 6 - Acadia, Ascension, Bienville, Cameron, DeSoto, Iberia, Iberville, Jefferson Davis, Livingston, Red River, Richland, St. James, St. John the Baptist, St. Landry, St. Martin (north of Iberia Parish), St. Tammany, Tangipahoa, Vermilion, Washington, Webster & West Baton Rouge Parishes
ZONE 7 - Allen, Assumption, Avoyelles, Beauregard, Caldwell, Catahoula, Claiborne, Concordia, East Carroll, East Feliciana, Evangeline, Franklin, Grant, Jackson, Lafourche, LaSalle, Lincoln, Madison, Morehouse, Natchitoches, Pointe Coupee, Sabine, St. Helena, St. Martin (south of Iberia Parish), St. Mary, Tensas, Terrebonne, Union, Vernon, West Carroll, West Feliciana & Winn Parishes

WELDERS - receive rate prescribed for craft performing operation to which welding is incidental

SUPERSEDEAS DECISION

STATE: Nevada

COUNTIES: Nevada Test Site Including Tonopah Test Range in Clark and Nye Counties

DECISION NUMBER: NV75-5005

DATE: Date of Publication

Supersedes Decision No. AR-1043 dated November 8, 1974, in 39 FR 39712.

DESCRIPTION OF WORK: Residential Construction consisting of single family homes and garden type apartments up to and including 4 stories.

NOTICES

FEDERAL REGISTER, VOL. 40, NO. 17—FRIDAY, JANUARY 24, 1975

LABORERS

Group 1: Laborers - General or Construction; Demolition (cleaning of brick, lumber, etc.); Dry packing of concrete and filling of form-bolt holes; Gas and Oil Pipeline; Laborer - temporary water lines (portable type); Window Cleaner

Group 2: Cutting Torch Operator (demolition); Tarman and Mortar Man, Kettleman, Potman and man applying asphalt, Lay-kold Creosote, Lime, and similar type materials

Group 3: Guinea Chaser

Group 4: Fine Grader, highway and street paving, airport, runways and similar type heavy construction; Landscape Gardener and Nursery-man

Group 5: Laborers - packing rod steel and pans

Group 6: Underground Laborer including Caisson Bellowers

Group 7: Chucktender (except tunnels); Scaler; Tank Scaler and Cleaner

Group 8: Cesspool Digger and Installer

Group 9: Concrete Curer-impervious Membrane and Oiler of all materials; Riprap Stonepaver; Sandblaster (pot tender); Making and Caulking of all non-metallic Pipe Joints

Group 10: Operators and Tenders of Pneumatic and Electric Tools, Vibrating Machines, hand-propelled Trenching Machines, Impact Wrench Multi-plate and similar mechanical tools not separately classified herein; Asphalt Raker, Ironer, Spreader, Luteman; Buggymobile Man; Cement Dumper (on one yard or larger mixers and handling bulk cement); Concrete Saw Man excluding Tractor type, cutting, scoring old or new concrete; Concrete Core Cutter; Gas and Oil Pipeline Wrapper-pot Tender and Form Man; Operator of Cement Grinding Machine; Roto-scraper; Tree Climber, Faller, Chain Saw Operator, Pittsburgh Chipper and similar type brush shredders

Group 11: Rock Slinger; Scaler (using Bos'n Chair or Safety Belt or Power Tools)

Group 12: Driller and/or Pavement Breaker

Group 13: Oversize Concrete Vibrator Operator, 70 lbs. and over; Laying of all non-metallic pipe, including sewer pipe, drain pipe and underground tile

Group 14: Gas and Oil Pipeline Wrapper - 6 inch pipe and over

Group 15: Cribber or Shorer, Lagging, Sheeting, Trench Bracing, hand guided Lagging Hammer; Powderman-blaster - all work of loading holes, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing

LABORERS (Cont'd)

Group 16: Steel Headboardman

Group 17: Sandblaster (Nozzleman); Driller (Core, Diamond, or Wagon), Joy Driller Model TW-M-2A, Gardner-Denver Model DH 163 and similar type drills

Group 18: Head Rock Slinger

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)

Group 1: Air Compressor, Pump or Generator; Engineer Oiler and Signal Man; Heavy Duty Repairman's Helper; Switchman or Brakeman

Group 2: Concrete Mixer, Skip type; Conveyor and Beltman; Fireman; Generator, Pump or Compressor (2-5 units inclusive, over 5 units, $0.10 per hour for each additional unit up to 10 units, portable units); Generator, Pump or Compressor Plant; Rotary Drill Helper (oilfield type); Skiploader, Wheeltype, Ford, Ferguson, Jeep or similar type, 3/4 yd. or less (w/o dragtype attachments); Temporary Heating Plant; Truck Crane Oiler; Hydrostatic Pump

Group 3: A-Frame or Winch Truck; Dinky Locomotive or Tunnel Motor; Elevator Hoist; Equipment Greaser; Ford, Ferguson or similar type (with drag-type attachments); Hydra-hammer or similar type equipment; Power Concrete Curing Machine; Power Concrete Saw; Power Driven Jumbo Form Setter; Rodman and Chainman; Rosa Carrier; Self-propelled Tar Pipelining Machine; Stationary Pipe Wrapping and Cleaning Machine; Towblade Operator

Group 4: Asphalt Plant Fireman; Boring Machine; Boxman or Mixer Box (concrete or asphalt plant); Derrickman (oilfield type); Drilling Machine (including water wells); Highline Cableway Signalman; Instrumentmen; Locomotive Engineer; Power Sweeper; Roller, Compacting; Screed; Trenching Machine (up to 6 feet depth)

Group 5: Asphalt or Concrete Spreading, Mechanical Tamping or Finishing Machine - Roller (all types and sizes), Soil, Cement, Asphalt - Finish; Asphalt Plant Engineer; Deck Engine; Grade Checker; Heavy Duty Welder; Machine Tool; Pavement Breaker; Pneumatic Heading Shield - Tunnel; Road Oil Mixing Machine; Forklift, under five tons; Rubber Tired, Heavy Duty Equipment)Oshkosh, DW, Euclid, LeTourneau, LaPlant-Choate, or similar type equipment with any type attachments); Skiploader, Wheeltype, over 3/4 yards, up to and including 1½ yds.; Slip Form Pump (power driven hydraulic lifting device for concrete forms); Tractor-drag type Shovel, Bulldozer, Tamper, Scraper and Push Tractor

NOTICES

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Group 6: Combination Heavy Duty Repairman and Welder; Concrete Mixer - Paving; Concrete Mobile Mixer; Concrete Pump or Pumpcrete Gun; Crushing Plant Engineer; Elevating Grader; Heavy Duty Repairman; Highline Cableway; Hoist (Chicago Boom and Mine); Kolman Belt Loader and similar type; Lift Slab Machine; Loader-Athey, Euclid, Hancock, Sierra or similar type; Motor Patrol (any type or size); Multiple Engine-earth moving machinery; Party Chief; Pneumatic Concrete Placing Machine - Hackley-Praaswell or similar type; Rotary Drill, excluding Caisson type; Skiploader, Wheeltype, over 1½ yds.; Surface Heater and Planer; Tractor Loader - crawler type - all types and sizes; Tractor, with boom attachments; Traveling Pipe Wrapping, Cleaning and Bending Machine; Trenching Machine (over 6 feet depth); Universal equipment (Shovel, Backhoe, Dragline, Clamshell, Derrick, Derrick Barge, Crane, Piledriver and Mucking Machine) Forklift, over 5 tons

Group 7: Driller Operator; Fishing Tool Engineer

Group 7-A: Derrickman

Group 7-B: Motorman

Group 7-C: Drillers Helpers

TRUCK DRIVERS

Group 1: Light Duty Driver; Warehouseman

Group 2: Bootman; Truck Greaser; Light Vehicle Dispatcher

Group 3: Tireman; Warehouse Clerk

Group 4: Heavy Duty Driver; Forklift Driver; Equipment Parts; Stockroom Clerk

Group 5: Extra Heavy Duty Driver

GROUP 3	5.43		.40		
GROUP 4	5.33		.40		

DECISION NO TX75-4022

POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITIONS

GROUP 1 - Heavy Duty Mechanic; Blade Grader - Self-propelled; Bull Clam; Back Filler; Derricks, power operated (all types); Dragline; Push Cat Operator; Euclid Operator; Bull Dozer and all types of Cat Tractors; Cable-Way; Back Hoe; Crane, Power Operated (all types); Elevating Grader, self-propelled; Hoist, Motor-Driven, two drums or more; Mix Mobile; High-Lifts & Loaders, over 1/3 cu. yd. capacity; Winch Truck; Locomotive; Mixer, 14 cu. ft. or over; Paving Mixer (all sizes); Scraper; Trenching Machine (all sizes); Gradall; Foundation Boring Machine Scoopmobile; Shovel, Power Operated; Pump Crete Machine; Clam Shell Operator; Rock Crusher Operated On Job; Welding Machine, 6 to 12; Two 125 cu. ft. Compressors; Well points, including installations

GROUP 2 - Blade Grader, Towed; Flex Plane; Form Grader; Mixer, less than 14 cu. ft. Pulsometer; Truck Crane Driver & Oiler, Combination man; Gasoline or Diesel Driven Welding Machine, 3 to 6; Hoist, Single Drum; Pump, 2½ in. or larger; Pneumatic Roller; High-Lifts & Loaders, 1/3 cu. yd. or less; Forklift, 1500 lbs. capacity or less; Air Compressors, anytime there are two or more attachments operating on a 125 cu. ft. compressor, a light equipment operator shall be employed. One 125 cu. ft. air compressor and one welding machine requires no operator. One 125 cu. ft. compressor and two welding machines or any 3 air compressors equivalent to a 125 cu. ft. air compressor requires a light equipment operator

GROUP 3 - Fireman

GROUP 4 - Oiler

BUILDING CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.
ROOFERS:					
Slate, tile, asbestos, roofing & siding	$5.80				.03
Composition, built-up, damp & waterproofing	5.65				.03
SHEET METAL WORKERS:

CLASSIFICATION DEFINITIONS

POWER EQUIPMENT OPERATORS

GROUP 1 - Fireman, Oiler; Mechanic, Grease Truck and Welder's Helpers; Screedman, Pneumatic roller towed by farmtype tractor or truck; Scale Operator and such as bin-a-batch; Rubber-tired farm type tractors and tractors under 35 HP without attachments
GROUP 2 - Air Compressors, Power Plants, pumps and welding machines (an operating engineer will not be required for an air compressor under 315 c.f.m., a pump under three inches or a light plant generating fifteen kilowatts or less, or one welding machine, if and when there is another operating engineer employed on the job who services the units); Concrete mixers, under 1 yard, and concrete batch plants, under 1 yard, gunnite and pumpcrete machines, mechanical bull floats, spreading and finishing machines. Screening Plants. Drilling machines, Diamond, rotary, core and cable drilling; well under 6 inches. Hoists, scoopmobiles, A frame Air tugger; building hoist, 1 drum hydrolift, Hydrocranes, winch truck. Loaders; Elevating, belt type loader, front end loader (under 2 yards) and over head loaders; forklift and lumber stacker on construction job site. Grease truck operator, (Head Oiler). Motor man and Industrial Locomotive. Tractors under 35 HP with attachments; and farm type tractor with back, or shovel type attachments

Page 3

DECISION NO. TX75-4024

POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITIONS (CONT'D)
GROUP 3 - Concrete mixers 1 yard and over, single drum paving machines. Crushing plants. Drilling machines, 6 inches and over; Front end loaders, 2 yards and over; Paving; Asphalt plants, boiler or retort heater, distributor, lay down machine, pug mill, breakdown and tandem rollers. Steam Engineer. Trenching Machines. Patrol, rough, not required to blue top or finish
GROUP 4 - Tractor Equipment: Athey and Barber Green Loader, Scraper, Trenching Dumor, Elevating Grader; Euclid, Highlander, Scraper, Tractor and Tractors 35 HP and up
GROUP 5 - Concrete Paving machines, double drum. Caccranes, Hyteers, Cherry Picker, Attachment cranes, side and swing boom tractors, Building Hoist, 2 drums and up.
GROUP 6 - Shovel, Backhoe, Patrol, finish Mechanic, Welder. Patrol, finish Cranes 25 tons and under; Cranes 3/4 yards and under; Cranes 25 tons
GROUP 7 - Guy and stiff leg derrick, Piledrivers; Crawler or skid rig, Shovel, Backhoe, clam and dragline over 3/4 yards; Cranes over 25 tons
GROUP 8 - Refrigeration, oilers, Jumbo form operators
GROUP 10 - Mine hoists

POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITIONS

GROUP 1 - Heavy Duty Mechanic; Blade Grader - Self-propelled; Bull Clam; Back Filler; Derricks, power operated (all types); Dragline; Push Cat Operator; Euclid Operator; Bull Dozer and all types of Cat Tractors; Cable-Way; Back Hoe; Crane, Power Operated (all types); Elevating Grader, self-propelled; Hoist, Motor Driven, two drums or more; Mix Mobile; High-Lifts & loaders, over 1/3 cu. yd. capacity; Winch Truck; Locomotive; Mixer, 14 cu. ft. or over; Paving Mixer (all sizes); Scraper; Trenching Machine (all sizes); Gradall; Foundation Boring Machine; Scoopmobile; Shovel, Power Operated; Pump Crete Machine; Clam Shell Operator; Rock Crusher Operated on Job; Welding Machine, 6 to 12, Two 125 cu. ft. Compressors; Well points, including installations

GROUP 2 - Blade Grader, Towed; Flex Plane; Form Grader; Mixer, less than 14 cu. ft.; Pulsometer; Truck Crane Driver & Oiler, Combination-man; Gasoline or Diesel Driven Welding Machine, 3 to 6; Hoist, Single Drum; Pump, 2½ in. or larger; Pneumatic Roller; High-Lifts & Loaders, 1/3 cu. yd. or less; Forklift, 1500 lbs. capacity or less; Air Compressors, anytime there are two or more attachments operating on a 125 cu. ft. compressor, a light equipment operator shall be employed. One 125 cu. ft. air compressor and one welding machine requires no operator. One 125 cu. ft. compressor and two welding machine or any 2 air compressors equivalent to a 125 cu. ft. air compressor requires a light equipment operator

GROUP 3 - Fireman

GROUP 4 - Oiler

FEDERAL ENERGY ADMINISTRATION

■

NATIONAL UTILITY RESIDUAL FUEL OIL ALLOCATION

February, 1975 Supplier Percentages

V40-17 JAN24 75 XUM

FEDERAL ENERGY ADMINISTRATION

NATIONAL UTILITY RESIDUAL FUEL OIL ALLOCATION

Supplier Percentage Notice for February, 1975

Pursuant to the provisions of 10 CFR 211.163(b)(3), 211.165 and 211.166(d)(2), the Federal Energy Administration (FEA) hereby provides notice of the volumes of residual fuel oil allocated to each utility and the percentage of such volumes required to be supplied by each supplier for delivery in February, 1975. This information is set forth in the Appendix to this notice. Adjustments of certain supplier base period percentages have been made at the request of affected utilities, pursuant to the criteria of 10 CFR 205.25 and are reflected in the Appendix.

The utility allocations were determined after review of the impact of available fuel supplies between utility and non-utility uses of residual fuel oil. In calculating the allocation level for each utility the FEA considered all of the factors enumerated in 10 CFR 211.163(b)(3) and also the following other factors:

1. The data contained in the Federal Power Commission (FPC Forms 23 and 23A submitted by utilities;
2. Natural gas curtailments;
3. FEA's prediction that this supply level of residual fuel oil is expected to generally equate to the total demand.

The amounts shown in the Appendix are the quantities of residual fuel oil to be delivered to the utilities listed during the month of February, 1975. Some utilities will not receive any allocation for this month for various reasons including the fact that these utilities burn other fuels primarily and use residual fuel oil only for standby purposes.

The Appendix provides the names of the suppliers obligated to supply each utility and each supplier's percentage and volume of each month's allocation to a utility. The first column of the Appendix lists each utility with its suppliers. The second column sets forth the recommended FEA burn level for February. The third and fourth columns provide each supplier's respective percentage and volume share of a utility's allocated volume of residual fuel oil. The fifth column provides the total volume of residual fuel oil for each utility from all suppliers. Following the name of certain suppliers, an additional supplier is shown in parentheses. The supplier in parentheses is presumed, on the basis of the best information available, to be the supplier of the utility's supplier. This information is provided for the convenience of such suppliers and teh FEA requests that any additions or corrections in this regard be forwarded to FEA Electrical Utilities Reports, Code 47, Washington, D.C. 20461.

FEA will consider special circumstances such as unexpected outages which may cause fuel consumption to exceed FEA burn levels in any month. Adjustments may have been made in the allocation to certain utilities to reflect necessary corrections in the delivery levels authorized in previous months. It is contemplated that corrections or adjustments to delivery levels for certain utilities may be required during the month of February to avoid undue hardship. Such corrections or adjustments may be made pursuant to Subpart B and C of Part 10 CFR 205.

FEA expects the utilities to consume supplies at or below FEA burn levels, which are based on the utilities' proposed burn levels less adjustments for projected growth exceeding historic averages.

The utility residual fuel oil allocation program is based in part on the data derived from utilities' filings of FPC Forms 23 and 23A. Thus, the timely submission of these forms will be a necessary prerequisite to receiving future allocations.

Reports should be addressed to FEA Electrical Utilities Reports, Code 47, Washington, D.C. 20461.

Issued in Washington, D.C., January 16, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel.

federal register

January 27, 1975—Pages 3965–4113

MONDAY, JANUARY 27, 1975

WASHINGTON, D.C.

Volume 40 ■ Number 18

Pages 3965–4113

PART I

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

IMPORTS OF PETROLEUM AND PETROLEUM PRODUCTS—Presidential proclamation 3965

RESERVE BALANCES—FRS reduces deposits on categories of net demand up to $400 million; effective 1–30–75 3973

PASSBOOK ACCOUNTS—FHLBB amends regulations to allow increase in interest rate during distribution period; effective 1–27–75 3973

TRANSPORTATION FOR THE ELDERLY—HEW/Human Development Office announces hearing and solicits suggestions and recommendations 4031

PRIME TIME TV—FCC modifies access rule on children's documentary, public affairs, and feature film programming 4001

OCCUPATIONAL SAFETY—Labor/OSHA proposes monitoring requirements for employee exposure to toxic materials; comments by 2–21–75 4019

DEVELOPING INSTITUTIONS—HEW/OE provides additional funding for eligible schools; closing date for applications 3–17–75 4031

(Continued inside)

PART II:

PHOSPHATE MANUFACTURING—

EPA adopts interim final regulations for performance standards for point source category 4101

EPA proposes performance and pretreatment standards for point source categories; comments by 2–26–75 4110

V40-18 JAN27 75 XUM

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

page no. and date

DOT/FAA—Alteration of control zone. 45213; 12–31–74

DOT/FAA—Alteration of transition area. 43056; 12–10–74

DOT/FAA—Alteration of transition area. 43296; 12–12–74

DOT/FAA—Alteration of transition area. 1508; 1–8–75

DOT/FAA—Designation of transition area Federal airways, area low routes, controlled airspace, and reporting points; designation of transition area.... 43711; 12–18–74

DOT/FAA—IFR altitudes.... 3576; 1–23–75

DOT/FAA—Special use airspace; alteration of restricted area..... 45010; 12–30–74

DOT/FAA—Standard Instrument approach procedures..... 3576; 1–23–75

federal register

Phone 523–5240

Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

MEETINGS—

DOD/Navy: Interim Standard Airborne Digital Computer (ISADC) project briefing, 2–4–75 4024

NSF: International Decade of Ocean Exploration Proposal Review Panel, 2–13 and 2–14–75 4049

Minority Institutions Science Improvement Panel (MISIP), 2–13 and 2–14–75 4049

EPA: Scientific Seminar on Automotive Pollutants, 2–10, 2–11, and possibly 2–12–75 4034

FCC: Radio Technical Commission for Marine Services, 2–18, 2–19, and 2–20–75 4037

Defense Manpower Commission, 2–14–75 4032

USDA/ASCS: National Rice Advisory Committee, 2–11–75 4028

Economic Research Service: National Cotton Market Study Committee, 2–26 and 2–27–75 4029

National Foundation on the Arts and the Humanities: Visual Arts Advisory Panel (2 documents), 2–11 and 2–18–75 4050

SEC: Implementation of a Central Market System Advisory Committee, 2–6 and 2–7–75 4052

Commerce: Technical Advisory Board, 2–26 and 2–27–75 4030

DIBA: President's Export Council, 2–27–75 4029

Interior: National Petroleum Council, Coordinating Subcommittee of Committee on Emergency Preparedness, 2–7–75 4028

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

Title 3—The President

PROCLAMATION 4341

Modifying Proclamation No. 3279 [1], Relating to Imports of Petroleum and Petroleum Products, and Providing for the Long-Term Control of Imports of Petroleum and Petroleum Products Through a System of License Fees

By the President of the United States of America

A Proclamation

WHEREAS the Director of the Office of Civil and Defense Mobilization found pursuant to Section 2 of the Act of July 1, 1954, as amended (19 U.S.C. 1352a), "that crude oil and the principal crude oil derivatives and products are being imported in such quantities and under such circumstances as to threaten to impair the national security;" and

WHEREAS, Proclamation No. 3279 as well as modifications thereof, including Proclamation No. 4210 which suspended tariffs on imports of petroleum and petroleum products and established a system of license fees for such imports, was issued pursuant to this finding; and

WHEREAS, although conditions in world oil markets have changed significantly in recent years, the above finding continues to be valid at the present time; and

WHEREAS, the Administrator of the Federal Energy Administration who maintains constant surveillance of imports of petroleum and its primary derivatives in respect to the national security, and who has reviewed the current status of imports under Proclamation No. 3279, as amended, has recommended that the method of adjusting imports of crude oil and the principal crude oil derivatives and products be modified; and

WHEREAS, I agree with this recommendation; and

WHEREAS, pursuant to Section 232 of the Trade Expansion Act of 1962, as amended (19 U.S.C. 1862), the Secretary of the Treasury having made an appropriate investigation to determine the effects on the national security of imports of crude oil and the principal crude oil derivatives and products and having considered the matters required by him to be considered by the Trade Expansion Act of 1962, as amended,

[1] 24 FR 1781, 3 CFR, 1959–1963 Comp., p. 11.

V40N18 JAN 27 75 XUM

has reported the findings of his investigation and has advised me that crude oil, the principal crude oil derivatives and products, and related products derived from natural gas and coal tar, are being imported in such quantities and under such circumstances as to threaten to impair the national security and has recommended that I take action to reduce such imports; and

WHEREAS, having considered the matters required by me to be considered by the Trade Expansion Act of 1962, as amended, I agree with the said advice; and

WHEREAS, I find and declare that adjustments must be made in imports of crude oil, the principal crude oil derivatives and products, and related products, so that such imports will not so threaten to impair the national security; and

WHEREAS, I judge it necessary and consistent with the national security to further discourage importation into the United States of petroleum, petroleum products, and related products, in such quantities or under such circumstances as to threaten to impair the national security; to create conditions favorable to domestic crude oil production needed for projected national security requirements; and to increase the capacity of domestic refineries and petrochemical plants to meet such requirements; and to encourage the development of other sources of energy; and

WHEREAS, in order to achieve the above objectives, I determine that a supplemental fee should be imposed on all imports of petroleum and petroleum products, and that certain other changes in the existing license fee system be made; and

WHEREAS, I have instructed the Administrator of the Federal Energy Administration to evaluate the structure and scope of coverage of those aspects of the existing Mandatory Oil Import Program which are not changed by this Proclamation, and to report to me within three months with his recommendations;

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, acting under and by virtue of the authority vested in me by the Constitution and the laws of the United States, including Section 232 of the Trade Expansion Act of 1962, as amended, do hereby proclaim that, effective as of February 1, 1975, a new system of oil import fees is instituted, and accordingly, Proclamation No. 3279, as amended, is hereby further amended as follows:

SECTION 1. Subparagraph (1) of paragraph (a) of section 3 is amended to read as follows:

"SEC. 3(a)(1). Effective February 1, 1975, the Administrator shall issue allocations and licenses subject to fees, on imports of crude oil, unfinished oils, and finished products. Such licenses shall require, among other appropriate provisions, that:

"(i) With respect to imports of crude oil and natural gas products, over and above the levels of imports established in Section 2 of this Proclamation, such fees shall be $0.21 per barrel;

"(ii) With respect to imports of motor gasoline, unfinished oils, and all other finished products (except ethane, propane, butanes, and asphalt), over and above the levels of imports established in Section 2 of this Proclamation, such fees shall be $0.63 per barrel;

"(iii) With respect to imports of crude oil, natural gas products, unfinished oils, and all other finished products (except ethane, propane, butanes, and asphalt) entered into the customs territory of the United States on or after February 1, 1975, there shall be a supplemental fee per barrel, of $1.00, rising to $2.00 on imports entered on or after March 1, 1975, and to $3.00 on imports entered on or after April 1, 1975;

"(iv) With respect to the fees imposed pursuant to paragraphs 3(a)(1)(i)–(iii), the amount of such fees shall be reduced, on a monthly basis, by an amount equal to any applicable duties paid less any drawbacks received during the same period, except that where duty drawbacks exceed the duty paid during that period, the net differences shall be applied to subsequent periods;

"(v) With respect to all licenses issued prior to the effective date of this Proclamation, such licenses shall be subject to paragraph 3(a)(1)(iii), regardless of whether such licenses were issued as a result of payment of fees or an allocation not subject to fee;

"(vi) With respect to licenses issued prior to the effective date of this Proclamation, not subject to the license fee prescribed in paragraph 3(a)(1)(i)–(ii) or licenses issued by prepayment of such fees, payment of the fees prescribed in paragraph 3(a)(1)(iii) shall be made no later than the last day of the month following the month in which such imports were released from customs custody or entered or withdrawn from warehouse for consumption, whichever occurs first. With respect to licenses subject to the fees prescribed in paragraph 3(a)(1)(i)–(ii) but issued against a surety bond, payment of the fees prescribed in paragraph 3(a)(1)(iii) shall be made simultaneously with payment of the fees prescribed in paragraph 3(a)(1)(i)–(ii). Notwithstanding the provisions of paragraph (b) of Section 3, surety bonds need not be increased to cover the additional fee liability on licenses issued prior to the effective date of this Proclamation;

"(vii) With respect to licenses issued on or after February 1, 1975, for imports entered into the customs territory of the United States prior to April 1, 1975, an amount of fees under paragraph 3(a)(1)(iii) equal to those due on April 1, 1975, shall be payable, subject to refund of the difference between the amount of the fee applicable at the time the imports are entered and the amount already paid;

"(viii) With respect to licenses issued pursuant to paragraph 3(a)(1)(iii) for imports other than (A) crude oil as defined for purposes of the Old Oil Allocation Program which is imported for refining or (B) products refined in a refinery outside of the customs territory as to which crude oil runs to stills would qualify a refiner to receive entitlements under the Old Oil Allocation Program, the Administrator may by regulation reduce the fee payable by the following amounts, or by such other amounts as he may determine to be necessary to achieve the objectives of this Proclamation and the Emergency Petroleum Allocation Act of 1973:

"—For imports entered into the United States customs territory during the month of February, 1975, $1.00 per barrel;

"—For imports entered during the month of March, 1975, $1.40 per barrel;

V4018 JAN27 75 XUM

"—For imports entered during the month of April, 1975, and thereafter, $1.80 per barrel.

"(ix) With respect to licenses issued pursuant to paragraph 3(a)(1)(i)–(iii), the Administrator:

"(A) With respect to imports of crude oil, to the extent that such imports are refined into products or incorporated into petrochemicals exported from the United States and its territories and possessions, shall refund any fee collected; *provided*, that the Administrator may limit the quantity of exports to which refunds under this provision may be applicable;

"(B) With respect to unfinished oils, may, by regulation, provide for refunds to the extent that such unfinished oils are refined into products or incorporated into petrochemicals which are exported from the United States and its territories and possessions; and

"(C) With respect to petrochemicals, shall specify, by regulation, those petrochemicals which qualify an importer for a refund under this subparagraph."

SEC. 2. In addition to the foregoing amendments, which in themselves are intended to achieve the objectives of this Proclamation, the following additional and conforming amendments are made to Proclamation No. 3279, as amended:

(a) Paragraph (c) of Section 1 is amended to read as follows:

"(c) In Districts I–IV, District V, and in Puerto Rico, no department, establishment, or agency of the United States shall without prior payment of the fees provided for in Section 3(a)(1)(i)–(ii) of this Proclamation, import finished products in excess of the respective allocations made to them by the Administrator. Such allocations shall, except as otherwise provided in this Proclamation, be within the maximum levels of imports established in Section 2 of this Proclamation. No such department, establishment, or agency shall be exempt from the fees provided in Section 3(a)(1)(iii)."

(b) Section 2 is amended in the following respects:

(1) The first sentence of paragraph (a) of section 2 preceding subparagraph (1) is amended to read as follows:

"SEC. 2(a). Except as otherwise provided in this Proclamation, the maximum level of imports, from sources other than Canada and Mexico which may be made without prior payment of the fees provided in Section 3(a)(1)(i)–(ii) of this Proclamation, of crude oil, unfinished oils, and finished products (other than residual fuel oil to be used as fuel) shall be:"

(2) Subparagraphs (1), (2), (5) and (6) of paragraph (a) of section 2 are amended by deleting the word "calendar" wherever it appears.

(3) Paragraph (c) of section 2 is deleted, and paragraph (d) is redesignated as paragraph (c).

(4) Subparagraph (1) of paragraph (d) of section 2 preceding the portion of subparagraph (1) designated (i) is amended to read as follows:

"(c)(1) Except as otherwise provided in this Proclamation, the maximum levels of imports from Canada of crude oil and unfinished oils to which license fees under section 3(a)(1)(i)–(ii) are not applicable shall be:"

(5) Subparagraph (1) of paragraph (d) of section 2 is amended in the portions designated (i) and (ii) by deleting the word "calendar" wherever it appears.

(6) Paragraph (e) of section 2 is redesignated as paragraph (d), and is amended by deleting the word "calendar."

(7) Paragraph (f) of section 2 is redesignated as paragraph (e).

(c) Section 3 is amended in the following additional respects:

(1) Subparagraph (2) of paragraph (a) of section 3 is amended in its proviso to read as follows:

"Provided, that such rate shall apply also in cases where the holder of the license establishes to the satisfaction of the Administrator that he made a good faith attempt to arrange shipment by vessel under United States registry and that no such vessel was available at reasonble rates for the purpose at the time this shipment was made."

(2) Subparagraph (3) of paragraph (a) of section 3 is amended to read as follows:

"(3) The Administrator is authorized to refund or reduce fees, whether in whole or in part, (i) for payment to the importer of record, on a monthly basis, of sums equal to the sums collected by way of duties, by the United States Customs Service, less any applicable drawback pursuant to paragraph 3(a)(1)(iv); (ii) for payment to the importer of record of the sums required to be refunded by paragraphs 3(a)(1)(vii) and (viii); (iii) where the licensee failed to use, wholly or in part, the license issued to him; (iv) where refunds of license fees, whether in whole or in part, are ordered by the Oil Import Appeals Board; (v) where refund of a license fee, whether in whole or in part, is called for by reason of a person having exported finished products or petrochemicals; (vi) where crude oil imported by virtue of a license for which a fee was paid has been manufactured into asphalt; (vii) where refund of a license fee is called for by reason of the same having been improperly charged."

(3) Paragraph (b) of section 3 is amended to read as follows:

"(b) Applications for allocations and licenses for imports subject to fee under this section shall be accompanied by the applicant's certified check, or a cashier's check, payable to the order of the Treasurer of the United States in the amount chargeable pursuant to this section, or by a bond with a surety on the list of acceptable sureties on Federal bonds maintained by the Bureau of Government Financial Operations, Department of the Treasury, in a sum not less than the amount chargeable pursuant to this section, conditioned upon payment of such amount to the order of the Treasurer of the United States, by the last day of the month following the month in which such imports were released from customs custody or entered or withdrawn from warehouse, whichever occurs first, or within such other period as the Administrator shall specify. In the event that such bond is terminated or the face value of the bond

V40N18 JAN 27 75 XUM

is reduced below the outstanding liability of licenses issued pursuant to the bond, the Administrator shall immediately revoke all licenses issued pursuant to the bond. Except as to a department, establishment or agency of the United States, applications not accompanied by a certified check, cashier's check, or bond in the amount required shall not be considered. Payment of fees by or for the account of a department, establishment, or agency of the United States shall be accomplished by transfers, as appropriate, from appropriation accounts available to such department, establishment, or agency, to the suspense account provided by subparagraph (1) of paragraph (c) of this section."

(4) Subparagraph (1) of paragraph (c) of section 3 is amended to read as follows:

"(c)(1) All monies received by the Administrator under the terms of paragraph (b) of this section shall be held by the Administrator in a suspense account and may be drawn upon by the Administrator for the payment of refundable license fees. Balances remaining in such suspense account and not required to be reserved for payments hereinabove provided shall be deposited at the end of each fiscal year in the Treasury of the United States and credited to miscellaneous receipts."

(5) Subparagraph (2) of paragraph (c) of section 3 is redesignated as subparagraph (3) and a new subparagraph (2) is added to paragraph (c) to read as follows:

"(2) Any importer, paying fees pursuant to this section, shall, with respect to each such payment, receive the refunds authorized by subparagraph (1)(iv) of paragraph (a) of this section by submitting to the Administrator, simultaneously with or subsequent to the payment of license fees, such evidence of tariff payment as the Administrator shall specify. Said importer shall also certify the amount of drawback received during the same period for which a refund is requested."

(d) Section 4 is amended in the following respects:

(1) Subparagraphs (1), (2), and (4) of paragraph (b) of section 4 are amended by inserting the phrase "under section 3(a)(1)(i)–(ii)" after the words "license fees" wherever such words shall appear.

(2) Subparagraph (5) of paragraph (b) of section 4 is amended in the first sentence by inserting the phrase "under section 3(a)(1)(i)–(ii)" after the words "license fees", and in the third and fourth sentences by inserting the words "to which fees under section 3(a)(1)(i)–(ii) shall not be applicable" after the word "allocations", wherever such word shall appear.

(4) Paragraph (c) of section 4 is amended by adding, at the end of said paragraph, the following sentence:

"In exercising this authority the Administrator will consult with the Secretaries of State, Treasury, and Defense, as appropriate."

(5) Paragraph (d) of section 4 is deleted.

(e) Section 5 is amended in the following respects:

(1) Paragraph (a) of section 5 is amended by deleting the last sentence.

(2) Paragraph (b) of section 5 is amended in clause (1) of the first sentence by deleting the words "on applications for allocations of imports

under such regulations," and by inserting the words "under implementing regulations," in the last sentence by deleting the word "fee" and inserting the words "from the fees established in section 3(a)(i)–(ii)", and by adding a new sentence after the last sentence to read as follows: "Any allocations granted by the Board, however, shall be subject to payment of the fees established in section 3(a)(1)(iii)."

(f) Section 10 is redesignated as section 7 and is amended to read as follows:

"SEC. 7. The Administrator shall provide policy direction, coordination, and surveillance of the mandatory oil import program, and shall, from time to time, in consultation with the Secretaries of State and the Treasury and other federal agencies as appropriate, review the status of imports of petroleum and its primary derivatives in respect to the national security. In this connection, he shall inform the President of any circumstances which might indicate the need for further Presidential action under Section 232 of the Trade Expansion Act of 1962 (19 U.S.C. 1862), as amended."

(g) Section 11 is redesignated as section 8 and is amended by adding after the words "fee" or "fees", wherever they shall appear, the phrase "under section 3(a)(1)(i)–(ii)", and by deleting the proviso.

(h) Section 12 is redesignated as section 9, and is amended by substituting a comma for the period, and by adding the words "except that all such allocations shall be subject to the payment of fees prescribed by section 3(a)(1)(iii) of this Proclamation."

(i) Section 13 is redesignated as section 10.

(j) Section 14 is deleted.

(k) Section 15 is redesignated as section 11 and is amended by adding, after the last paragraph, the following paragraphs:

"(m) The term 'Administrator' means the Administrator of the Federal Energy Administration, or his delegate.

"(n) The term 'Old Oil Allocation Program' means the program adopted pursuant to the Emergency Petroleum Allocation Act of 1973 for Allocation of Old Oil, 39 F.R. 42246 (December 4, 1974), 10 C.F.R. 211.67."

(l) Section 16 is redesignated as section 12, and is amended to read as follows:

"SECTION 12. Effective with respect to articles entered, or withdrawn from warehouse for consumption on or after February 1, 1975, tariffs upon imports of petroleum products listed in schedule 4, part 10—"Petroleum, natural gas, and products derived therefrom"—of the Tariff Schedules of the United States shall be and are reinstated."

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-third day of January, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred and ninety-ninth.

Gerald R. Ford

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. D]

PART 204—RESERVES OF MEMBER BANKS

Reserve Percentages

The Board of Governors has amended Regulation D (12 CFR Part 204) to modify the reserve balances that member banks are required to maintain against demand deposits. The amendments approved by the Board reduce by one-half of 1 percentage point reserves required on all categories of net demand deposits up to $400 million. The reduction on reserves of deposits of more than $400 million will be 1 percentage point. These amendments are designed to permit further gradual improvement in bank liquidity and to facilitate moderate growth in the monetary aggregates. The effect of these amendments will be to release approximately $1.1 billion in reserve balances.

This action was taken pursuant to the Board's authority under section 19 of the Federal Reserve Act (12 U.S.C. 461) to set reserve ratios for member banks. The amendments to Regulation D are effective on deposits outstanding in the week beginning January 30, 1975, and affect reserves held by member banks in the week beginning February 13, 1975. There was no notice or public participation with respect to this amendment since such procedures would result in delay that would be contrary to the public interest and serve no useful purpose. The effective date was deferred for less than the 30-day period referred to in section 553(d) of Title 5, United States Code, because the Board found that the public interest compelled it to make the action effective no later than the date adopted (see § 262.2(e) of the Board's Rules of Procedure).

Effective January 30, 1975, § 204.5(a)(1)(iii) and (2)(iii) of Regulation D are amended to read as follows:

§ 204.5 Reserve requirements.

(a) • • •

(1) • • •

(iii) (a) 7½ percent of its net demand deposits if its aggregate net demand deposits are $2 million or less, (b) $150,000 plus 10 percent of its net demand deposits in excess of $2 million if its aggregate net demand deposits are in excess of $2 million but less than $10 million, (c) $950,000 plus 12 percent of its net demand deposits in excess of $10 million if its aggregate net demand deposits are in excess of $10 million but less than $100 million, or (d) $11,750,000 plus 13 percent of its net demand deposits in excess of $100 million.

(2) • • •

(iii) $50,750,000 plus 16½ percent of its net demand deposits in excess of $400 million.

• • • • • •

By order of the Board of Governors, January 20, 1975.

[SEAL] THEODORE E. ALLISON, *Secretary of the Board.*

[FR Doc.75-2296 Filed 1-24-75;8:45 am]

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER B—FEDERAL HOME LOAN BANK SYSTEM

[No. 75-43]

PART 524—OPERATIONS OF THE BANKS

Lease of Federal Home Loan Bank Quarters

JANUARY 15, 1975.

The following summary of the amendment adopted by this Resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble.

I. *Existing regulation.* Requires prior approval of the Federal Home Loan Bank Board for a Bank or the Fiscal Agent of the Banks to enter into any contract for the lease of Bank quarters.

II. *Amended regulation.* Removes the requirement for prior approval of contracts for the lease of quarters for a period of 10 years or less.

III. *Effect of proposed amendment.* Eliminates the necessity for the Board to review proposed short term (10 years or less) lease contracts for Bank quarters.

The Federal Home Loan Bank Board considers it desirable to amend the regulations for the Federal Home Loan Bank System by revoking § 524.1 (12 CFR 524.1). Section 524.1 requires Board approval prior to entering into any contract for the lease of Bank quarters, as follows:

> Neither a Bank nor the Fiscal Agent of the Banks shall enter into any contract for the lease of quarters until such proposed contract shall have been approved by the Board.

The Board desires to revoke the above provisions to eliminate the burden of Board review for short-term lease contracts for Bank quarters. If this is accomplished, the principal effect would be to enable Banks or the Fiscal Agent of the Banks (whose functions are now performed by the Office of Finance pursuant to § 522.81) to enter into any contract for the lease of Bank quarters having a term of 10 years or less, without prior Board approval. Section 12 of the Federal Home Loan Bank Act, as amended (12 U.S.C. 1432), would continue to require Board approval of any lease of quarters having a term of more than 10 years.

§ 524.1 [Revoked]

Accordingly, the Board hereby revokes § 524.1 of the regulations for the Federal Home Loan Bank System, effective January 27, 1975.

Since the amendment relieves restrictions, notice and public procedure are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and, for the same reason, publication of such amendment for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of the amendment is unnecessary.

(Sec. 17, 47 Stat. 736, as amended (12 U.S.C. 1437). Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1947 Supp.)

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, JR., *Assistant Secretary.*

[No. 74-1353]

PART 545—OPERATIONS

PART 555—BOARD RULINGS

Changing Interest Rates on Passbook Accounts

DECEMBER 19, 1974.

The following summary of the amendments adopted by this Resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to specific provisions of the regulations.

I. *Existing regulations.* Federal "deposit-type" associations may not change the interest rate fixed for passbook accounts during a distribution period.

II. *Amended regulations.* Federal "deposit-type" associations may increase the interest rate on passbook accounts during a distribution period.

III. *Reason for change.* To provide additional flexibility to Federal associations in connection with passbook accounts.

The Federal Home Loan Bank Board considers it desirable to amend § 545.1-1 of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.1-1) and to revoke § 555.8(e) thereof (12 CFR 555.8(e)) in order to permit

V40I18 JAN27 75 XUM

Federal associations to increase the rate of return announced for a distribution period for regular (passbook) accounts as described below.

New paragraph (h) of § 545.1–1 provides that during any distribution period a Federal association, pursuant to a resolution of its board of directors, may increase the rate of return anounced for such period for regular accounts. Federal deposit-type associations (i.e., Federal associations which have adopted the charter provision in § 545.1–3(a)) may have monthly, quarterly or semiannual distribution periods and have been required to fix a rate of return for such period for regular accounts during the month preceding such period. New § 545.1–1(h) permits Federal associations (both deposit-type and share-type, i.e., a nondeposit association) to increase the announced rate of return during the distribution period. Further, new § 545.1–1 (h) permits such increased rate of return to be paid for all or any portion of such distribution period.

For example, if a Federal association having a quarterly distribution period for its regular accounts announces the rate of return for the first calendar quarter at 5 percent, new § 545.1–1(h) would allow the association to increase that rate to 5¼ percent in February. The higher rate could be made applicable to all or any portion of the 3 month period.

New § 545.1–1(h) provides that an increased rate of return shall not exceed the applicable maximum rate of return for regular accounts in the Board's rate control regulations (12 CFR Part 526). Also, new § 545.1–1(h) reflects the contractual nature of the deposit relationship between a deposit association and its savings account holders by providing that a deposit association shall not reduce the rate of return announced for a distribution period for regular accounts, except to conform with the rate control provisions of § 526.2(b).

In connection with adding new § 545.1–1(h), the Board also revokes § 555.8(e), a Board Ruling that Federal asociations were not allowed to pay different rates on the same class of account during a single distribution period.

Accordingly, the Board hereby amends § 545.1–1 by adding a new paragraph (h) at the end thereof to read as set forth below, and amends § 555.8 by revoking paragraph (e) thereof, effective January 27, 1975.

Since the above amendments relieve restrictions, the Board hereby finds that notice and public procedure with respect to said amendments are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b), and since publication of said amendments for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of said amendments would, in the opinion of the Board, likewise be unnecessary for the same reason, the Board hereby provides that said amendments shall become effective as hereinbefore set forth.

1. Paragraph (h) is added to § 545.1–1 to read as follows:

§ 545.1–1 Distribution of earnings on bases, terms, and conditions other than those provided by charter.

* * * * *

(h) *Change of rate of return.* During any distribution period a Federal association, pursuant to a resolution of its board of directors, may increase the rate of return announced for such period for regular accounts issued pursuant to this Part. Any such increased rate of return may be paid for all or any portion of such distribution period. Such increased rate of return shall not exceed the applicable maximum rate of return prescribed in Part 526 of this chapter for regular accounts. During a distribution period, a Federal association which has adopted the charter provision referred to in § 545.1–3(a) (a deposit association) shall not reduce the rate of return announced for such period for regular accounts unless a reduction in rate during such period is required in order to conform with the limitations on rate of return prescribed in Part 526. As used in this paragraph (h) the terms "announced" and "regular account" shall have the same meanings as in § 526.1 of this chapter.

§ 555.8 [Amended]

2. Paragraph (e) of § 555.8 is revoked, effective January 27, 1975.

(Sec. 5, 48 Stat. 132, as amended (12 U.S.C. 1464); Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, Jr.,
Assistant Secretary.

Title 16—Commercial Practices

[Docket No. C–2558]

PART 13—PROHIBITED TRADE PRACTICES

Hercules, Inc.

Subpart—Advertising falsely or misleadingly: § 13.10 *Advertising falsely or misleadingly;* § 13.20 *Comparative data or merits;* § 13.135 *Nature of product or service;* § 13.170 *Qualities or properties of product or service;* § 13.170–46 Insecticidal or repellent; § 13.195 *Safety;* 13.195–60 Product; § 13.205 *Scientific or other relevant facts.* Subpart—Corrective actions and/or requirements: § 13.533 *Corrective actions and/or requirements;* 13.533–20 Disclosures. Subpart—Misrepresenting oneself and goods—Goods: § 13.1575 *Comparative data or merits;* § 13.1685 *Nature;* § 13.1710 *Qualities or properties;* § 17.1740 *Scientific or other relevant facts.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1870 *Nature;* § 13.1890 *Safety;* § 13.1895 *Scientific or other relevant facts.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Hercules, Incorporated, Wilmington, Del., Docket C–2558, Oct. 4, 1974]

In the Matter of Hercules Incorporated, a Corporation

Consent order requiring a Wilmington, Del., formulator and distributor of manufacturing grade insecticides, among other things to cease claiming that its agricultural insecticides are absolutely safe to use or absolutely safe to man or the environment. Further, respondent must place in all promotional material expressing or implying safety claims about agricultural insecticides, a statement reminding users that all pesticides are harmful if misused, and that they should only be used as directed.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

I. *It is ordered,* That respondent, Hercules Incorporated, a corporation, its successors and assigns and respondent's officers, representatives, agents, and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, or sale or distribution of any insecticide product with precautionary labeling which contains any active insecticidal ingredient(s) presently marketed by respondent or currently being field tested by respondent and which is intended for use by custom applicators and commercial growers to protect animals or food, forage, field or fiber crops by virtue of the capacity of its active ingredient(s) to kill insects (sometimes referred to hereinafter as "such products"), do forthwith cease and desist from:

A. Representing, directly or by implication, by print or broadcast advertising, by other promotional material, or by sales representatives' oral statements, that such products are absolutely or unqualifiedly safe, non-toxic or free of hazard for any use registered under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (hereinafter FIFRA) or any other approved use based upon evidence filed in connection with registration under FIFRA.

B. Representing, directly or by implication, by print or broadcast advertising or by other promotional material, that such products are qualifiedly safe, non-toxic or free of hazard for any use registered under FIFRA or any other approved use based upon evidence filed in connection with registration under FIFRA; *provided however,* That factual statements about such products regarding any use registered under FIFRA, any other approved use based upon evidence filed under FIFRA, the level of hazard or toxicity to products or species treated in accordance with such use(s) or residues resulting from such use(s) shall not be prohibited if:

[1] Copies of the complaint and decision and order filed with the original document.

(1) Respondent prominently and in close conjunction thereto, includes a statement (except in broadcast advertisements not more than 30 seconds in length) denoting the existence of any specific caution or category thereof, other than directions for use (e.g., "Do not apply within 7 days of harvest"), which (a) appears on respondent's label or labeling for such products; or, (b) in the absence of relevant cautions on respondent's product labels or labeling, regarding such factual statements, are identified by the Environmental Protection Agency in its "EPA Compendium of Registered Pesticides" or any published supplement thereto; including but not limited to limitations on application due to regional or climatic variations; restrictions on subsequent use of treated crops, animals, or lands; and limitations due to consequent injury of specific species, e.g., crop(s), animal(s), fish, bird(s), or beneficial insect(s); where such specific caution is relevant and material and without notice of which said factual statements would be untrue or misleading; and

(2) At the time of such representations, 1) such statements do not differ in substance from claims accepted in connection with registration under FIFRA, or 2) in the case of other statements not currently rejected as unsubstantiated in connection with registration under FIFRA, such other statements are substantiated by competent scientific tests or other objective materials which provide a reasonable basis for the representation(s) made, and the substantiation materials are either (i) available for public inspection or (ii) otherwise available to the FTC to determine compliance with this Order; and

(3) Such factual statements do not use the word "safe," or any form thereof.

C. Representing, directly or by implication, by print or broadcast advertising or by other promotional material, that such products are relatively or comparatively safe, less toxic or freer of hazard, for any use registered under FIFRA, or any other approved use based upon evidence filed in connection with registration under FIFRA; *Provided however,* That comparative factual statements about such products regarding any use registered under FIFRA, any other approved use based upon evidence filed under FIFRA, the level of hazard or toxicity to products or species treated in accordance with such use(s), or residues resulting from such use(s) shall not be prohibited if:

(1) Such factual statements compare the promoted insecticide with a specifically identifiable insecticide product, product form, or product group; and

(2) Respondent prominently and in close conjunction thereto, includes a statement (except in broadcast advertisements not more than 30 seconds in length) denoting the existence of any specific caution or category thereof, other than directions for use (e.g., "Do not apply within 7 days of harvest"), which (a) appears on respondent's label or labeling for such products, or, (b) in the absence of relevant cautions on respondent's product labels or labeling, regarding such factual statements, are identified by the Environmental Protection Agency in its "EPA Compendium of Registered Pesticides" or any published supplement thereto; including but not limited to limitations on application due to regional or climatic variations; restrictions on subsequent use of treated crops, animals, or lands; and limitations due to consequent injury of specific species, e.g., crop(s), animal(s), fish, bird(s), or beneficial insect(s), where such specific caution is relevant and material and without notice of which said factual statements would be untrue or misleading; and

(3) At the time of such representations, 1) such statements do not differ in substance from claims accepted in connection with registration under FIFRA, or 2) in the case of other statements not currently rejected as unsubstantiated in connection with registration under FIFRA, such other statements are substantiated by competent scientific tests or other objective materials which provide a reasonable basis for the representation(s) made, and the substantiation materials are either (i) available for public inspection or (ii) otherwise available to the FTC to determine compliance with this Order; and

(4) Such factual statements do not use the word "safe," or any form thereof.

II. With respect to representations not covered by the provisions of Section I of this Order, *it is ordered,* That Hercules Incorporated, a corporation, its successors and assigns and respondent's officers, representatives, agents, and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, or sale or distribution of such products, do forthwith cease and desist from:

A. Representing, directly or by implication, by print or broadcast advertising or by other promotional material, or by sales representatives' oral statements, that such products are absolutely safe, non-toxic or free of hazard to human beings, warm-blooded animals, birds, fish, beneficial insects, or the environment.

B. Representing, directly or by implication, by print or broadcast advertising or by other promotional material, that such products are qualifiedly safe, non-toxic or free of hazard to human beings, warm-blooded animals, birds, fish, beneficial insects, or the environment, *Provided however,* That factual statements which (i) describe physical, chemical, biological or toxicological characteristics of the promoted insecticide, or (ii) discuss the aforesaid characteristics and their effects on the environment, human beings, warm-blooded animals, fish, birds, or beneficial insects shall not be prohibited if:

(1) The label or labeling for such product(s) contains no relevant and required general or specific warning or caution regarding such characteristics or any effect caused by such characteristics; provided nothing in this subsection shall prohibit:

(a) The dissemination of instructions for the proper use of such product(s), or

(b) Factual statements which reproduce or discuss the substance of or reason(s) for any statement, warning or caution or direction for use found on the label or labeling of the promoted product(s) and are consistent with such statements, warnings, cautions, or directions for use, and

(2) Such factual statements are true and not misleading under normal circumstances and conditions under which the product could be expected to be used, *Provided further,* If circumstances and conditions of normal use exist in which said factual statements are untrue or misleading, respondent must describe, prominently and in close conjunction with said factual statements, specific circumstances and conditions for use in which said factual statements are true and not misleading; and

(3) At the time of such representations, 1) such statements do not differ in substance from claims accepted in connection with registration under FIFRA, or 2) in the case of other statements not currently rejected as unsubstantiated in connection with registration under FIFRA, such other statements are substantiated by competent scientific tests or other objective materials which provide a reasonable basis for the representation(s) made, and the substantiation materials are either (i) available for public inspection or (ii) otherwise available to the FTC to determine compliance with this Order; and

(4) Respondent discloses, prominently and in close conjunction with any such factual statements concerning human safety (except in broadcast advertisements not more than 30 seconds in length), any toxicological characteristics relating to human safety which are relevant and material and without the disclosure of which said factual statements would be untrue or misleading; and

(5) Respondent discloses, prominently and in close conjunction with any other such factual statements (except in broadcast advertisements not more than 30 seconds in length), any hazardous collateral effects which are relevant and material and without the disclosure of which said factual statements would be untrue or misleading; and

(6) Such factual statements do not use the word "safe," or any form thereof.

C. Representing, directly or by implication, by print or broadcast advertising or by other promotional material, that such products are relatively or comparatively more safe, less toxic or freer of hazard to human beings, warm-blooded animals, birds, fish, beneficial insects, or the environment than any other insecticide product(s); *Provided however,* That comparative factual statements which (i) describe physical, chemical, biological or toxicological characteristics of the promoted insecticide or (ii) discuss the aforesaid characteristics and

V40N18 JAN 27 75 XUM

their effect on the environment, human beings, warm-blooded animals, fish, birds, or beneficial insects shall not be prohibited if:

(1) Such factual statements compare the promoted insecticide with a specifically identifiable insecticide product, product form, or product group; and

(2) Such factual statements are true and not misleading under normal circumstances and conditions under which the product could be expected to be used, *Provided further*, if circumstances and conditions of normal use exist in which said factual statements are untrue or misleading, respondent must describe, prominently and in close conjunction with said factual statements, specific circumstances and conditions of use in which said factual statements are true and not misleading; and

(3) At the time of such representations, 1) such statements do not differ in substance from claims accepted in connection with registration under FIFRA, or 2) in the case of other statements not currently rejected as unsubstantiated in connection with registration under FIFRA, such other statements are substantiated by competent scientific tests or other objective materials which provide a reasonable basis for the representation(s) made, and the substantiation materials are either (i) available for public inspection or (ii) otherwise available to the FTC to determine compliance with this Order; and

(4) Respondent discloses, prominently and in close conjunction with any such factual statements concerning human safety (except in broadcast advertisements no more than 30 seconds in length), any toxicological characteristics relating to human safety in regard to which the promoted product is the more toxic and which are relevant and material and without the disclosure which said factual statements would be untrue or misleading; and

(5) Respondent discloses, prominently and in close conjunction with any other such factual statement (except in broadcast advertisements not more than 30 seconds in length), any hazardous collateral effects in regard to which the promoted product is more hazardous and which are relevant and material and without the disclosure of which said factual statements would be untrue or misleading; and

(6) Such factual statements do not use the word "safe," or any form thereof.

D. Representing, directly or by implication, by print or broadcast advertising or other promotional material, that Toxaphene insecticide, or any product containing Toxaphene insecticide:

(1) Is "soft," or

(2) Is "non-persistent," "non-mobile" and/or will "not magnify biologically"; *Provided however*, That the use of such terms shall not be prohibited if:

(a) Accompanied by statements, which clearly and conspicously and in close conjunction with such terms, fully and accurately explain such terms and the specific context within which such terms are used, and that context reflects a normal circumstance or condition in which the product could be expected to be used; and

(b) Accompanied by statements which set forth all relevant and material adverse effects on the environment known to result from the uses of such product which are suggested by the claims for the product; and

(c) Statements concerning such terms are substantiated by competent scientific tests or other objective material which provide a reasonable basis for the representations made, and the substantiation materials are either (i) available for public inspection, or (ii) otherwise available to the Federal Trade Commission to determine compliance with this Order; and

(d) Statements concerning such terms include no conclusory representations, either directly or indirectly or by implication, suggesting that the product is unqualifiedly safe, non-toxic or free of hazard.

III. *It is further ordered*, That respondent, Hercules Incorporated, a corporation, its successors and assigns and respondent's officers, representatives, agents, and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, or sale or distribution of such products do forthwith cease and desist from making any representations, directly or by implication, orally or in writing, or omitting any representations, concerning any such product, which contradict, are inconsistent with, or detract from the effectiveness of any warning, caution or direction for use required to be set forth on the label or labeling of such product. If the representations, directly or by implication, made by respondent, or the omission of representations by respondent, are in accord with the provisions of Sections I, II and IV of this Order, they shall be considered as being in compliance with this Section of the Order.

IV. *It is further ordered*, That respondent, Hercules Incorporated, a corporation, its successors and assigns and respondent's officers, representatives, agents, and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, or sale or distribution of such products do forthwith cease and desist from disseminating or causing the dissemination of:

A. Any print advertising or print promotional material which contains claims covered by Sections I or II for any such product unless it clearly and conspicuously includes in such print advertisement or print promotional material the following statement:

STOP! ALL PESTICIDES CAN BE HARMFUL TO HEALTH AND THE ENVIRONMENT IF MISUSED. READ THE LABEL CAREFULLY AND USE ONLY AS DIRECTED.

B. Any broadcast advertisement more than 30 seconds in length for any such product which contains claims covered by Sections I or II unless it clearly and conspicuously includes the following statement:

ALL PESTICIDES CAN BE HARMFUL TO HEALTH AND THE ENVIRONMENT IF MISUSED. READ THE LABEL CAREFULLY AND USE ONLY AS DIRECTED.

C. Any broadcast advertisement not more than 30 seconds in length for any such product which contains claims covered by Sections I or II unless it clearly and conspicuously includes the following statement:

ALL PESTICIDES CAN BE HARMFUL. READ THE LABEL. USE AS DIRECTED.

Provided, That in television advertisements no more than 10 seconds in length which contain no direct representations concerning product safety, the requirements of the term "clearly and conspicuously" shall in all cases be met by including the above statement in the video portion of the advertisement.

V. *It is further ordered*, That the provisions of this Order shall apply to all advertising (or advertising claims) prepared by respondent, whether or not such advertising is placed or paid for by respondent alone, or by respondent in conjunction with another under a cooperative advertising plan, or otherwise; *Provided, however*, That Sections I, II, III, and IV of this Order shall not apply to any advertising prepared by the customers of respondent, whether or not respondent makes payment in whole or in part for such advertising under any cooperative advertising plan, or otherwise. Nothing in this Section V shall be construed to extend any provision of this Order beyond the specific terms thereof.

Respondent shall, nevertheless, condition all future payments to customers of insecticide products covered by this Order, made in connection with any cooperative advertising plan in which respondent participates, upon said customers' certification to respondent that they have complied with the standards set forth in Section IV of this Order.

VI. Nothing in this Order shall be construed to apply to scientific articles published in recognized scientific or agricultural journals or government publications, or reprints thereof, or representations (other than print advertising or other promotional material) before public or governmental forums such as public hearings, scientific meetings, or to governmental agencies, agents, or employees responsible for the regulation or dissemination of information concerning insecticide products covered by this Order.

VII. *It is further ordered*, That nothing in this Order shall prohibit the dissemination of product labels (as defined by Section 2(p)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended), or reproductions thereof.

VIII. *It is further ordered*, That this Order shall become effective as to broadcast and print advertisements and other promotional material upon service and as to oral representations by sales representatives two months thereafter, except that Sections I.B., I.C., II.B., II.C. AND III of this Order shall become effective at such time as and to the extent that a Trade Regulation Rule covering the advertising and promotion of products subject to this Order, and containing terms at least as onerous as this Order, becomes final and effective. *Provided*, That at all times subsequent to the date this Order is served, claims which would be governed by Sections I.B., I.C., II.B., or II.C., if said sections were in effect, shall be deemed to be "claims covered by Sections I or II" for purposes of Section IV of this Order.

IX. *It is further ordered*, That should the Federal Trade Commission promulgate a Trade Regulation Rule or Industry Guide governing the advertising or promotion of products subject to this Order, then any pertinent less comprehensive or less restrictive provisions of such Rule or Guide shall automatically replace any comparable provisions set forth herein which are effective on the date that such Rule or Guide becomes effective.

X. *It is further ordered*, That the respondent forthwith distribute a copy of this Order to each of its operating divisions engaged in the manufacture, sale, advertising, promotion or distribution of products subject to this Order, and to all present and future employees of respondent responsible for the advertising, promotion, distribution or sale of such products, and to all parties participating in respondent's cooperative advertising programs for such products.

XI. *It is further ordered*, That the respondent notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale, resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other changes in the corporation which may affect compliance obligations arising out of this Order.

XII. *It is further ordered*, That respondent corporation shall, within sixty (60) days after service upon it of this Order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this Order, except that such report shall in the case of Sections I.B., I.C., II.B., II.C. and III be filed within sixty (60) days after their becoming effective against respondent corporation.

The Decision and Order was issued by the Commission, October 4, 1974.

CHARLES A. TOBIN,
Secretary.

[Docket No. C-2562]

PART 13—PROHIBITED TRADE PRACTICES

McCollum Ford Sales, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.10 *Advertising falsely or misleadingly;* § 13.20 *Comparative data or merits;* § 13.205 *Scientific or other relevant facts.* Subpart—Misrepresenting oneself and goods—Goods: § 13.1575 *Comparative data or merits;* § 13.1740 *Scientific or other relevant facts.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, McCollum Ford Sales, Inc., et al. Spokane, Wash., Docket C-2562, Oct. 7, 1974.]

In the Matter of McCollum Ford Sales, Inc., a Corporation, and H. D. Richardson and Robert D. Sackmaster, Individually and as Officers of Said Corporation

Consent order requiring a Spokane, Wash., seller, lessor and distributor of new and used automobiles and automotive accessories, among other things to cease making any claims as to the fuel consumption or economy of operation or ownership of any vehicle without a reasonable basis for such claim consisting of tests or surveys using statistically valid methodology and having such results available at places of retail sales in a language understandable to the average consumer.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

I. *It is ordered*, That respondents McCollum Ford Sales, Inc., a corporation, its successors and assigns, and its officers, and H. D. Richardson and Robert D. Sackmaster, individually and as officers of said corporation, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale or lease, sale, lease, or distribution of motor vehicles, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from making any representation, directly or by implication, as to the fuel consumption or economy of operation or ownership of any vehicle or type of vehicle, unless:

A. The representation reflects the average consumer's customary or usual driving experience with the vehicles referred to;

B. At the time the representation is made, respondents:

1. Have a reasonable basis for such representation, consisting of tests or surveys using statistically valid methodology, and

2. Have made available to the general public, at the point of retail sale, copies of a brief but comprehensive statement of the results and methodology of such tests or surveys, in terms understandable to the average consumer;

C. In immediate conjunction with the representation, respondents clearly and conspicuously disclose:

1. The year, make, and model of each vehicle or type of vehicle referred to or used as a basis of comparison, and

2. Where and how the test or survey results and methodology may be obtained; and

D. Respondents retain copies of all sales promotional materials which contain such representations, including newspaper advertisements and radio and television scripts, for a period of three years after use of such materials; and retain for a like period all records made pursuant to this order.

II. *It is further ordered*, That the corporate respondent shall forthwith distribute a copy of this order to each of its officers, agents, representatives or employees who are engaged in the preparation or placement of advertisements.

III. *It is further ordered*, That the corporate respondent notify the Commission at least thirty days prior to any proposed change in said respondent, such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of this order.

IV. *It is further ordered*, That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment, and of their affiliation with a new business or employment, in the event of such discontinuance or affiliation. Such notice shall include their current business address and a statement as to the nature of the business or employment in which they are engaged, as well as a description of their duties and responsibilities.

V. *It is further ordered*, That the respondents shall within sixty days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission, October 7, 1974.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 72 Stat. 1717; 15 U.S.C. 45, 70) [Cease and desist order, Miami Menstogs, Inc., et al., Hialeah, Fla., Docket C–2555, Oct. 3, 1974]

In the Matter of Miami Menstogs, Inc., a Corporation, and Henry Young, Individually and as an Officer of Said Corporation

Consent order requiring a Hialeah, Fla., manufacturer of men's sport shirts, among other things to cease misbranding its textile fiber products and failing to maintain required records.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

* * * * *

It is ordered, That respondents Miami Menstogs, Inc., a corporation, its successors and assigns, and Henry Young, individually and as an officer of said corporation and respondents' representatives, agents and employees, directly or through any corporation, subsidiary, division or other device, in connection with the introduction, delivery for introduction, manufacture for introduction, sale, advertising, or offering for sale, in commerce, or the importation into the United States, of any textile fiber product; or in connection with the sale, offering for sale, advertising, delivery, transportation or causing to be transported, after shipment in commerce of any textile fiber product, whether in its original state or contained in other textile fiber products, as the terms "commerce" and "textile fiber product" are defined in the Textile Fiber Products Identification Act, do forthwith cease and desist from:

A. Misbranding textile fiber products by:

1. Falsely or deceptively stamping, tagging, labeling, invoicing or otherwise identifying such products as to the name or amount of the constituent fibers contained therein.

2. Failing to affix a stamp, tag, label or other means of identification to each such product showing in a clear, legible and conspicuous manner each element of information required to be disclosed by Section 4(b) of the Textile Fiber Products Identification Act.

3. Failing to separately set forth the required information as to fiber content in such a manner as to show the fiber content of the separate sections of textile fiber products containing two or more sections which are of different fiber composition where such form of marking is necessary to avoid deception as required by Rule 25(b) of the Rules and Regulations promulgated under authority of the Textile Fiber Products Identification Act.

4. Setting forth information required under Section 4(a) of the Textile Fiber Products Identification Act and Rule 5 (a) promulgated thereunder in abbreviated form on labels affixed to textile products.

B. Failing to maintain and preserve proper records of fiber content of textile fiber products manufactured by respondents as required by Section 6(a) of the Textile Fiber Products Identification Act and Rule 39 of the Rules and Regulations promulgated thereunder.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent, Miami Menstogs, Inc., such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission, October 3, 1974.

[Docket No. C–2571]

PART 13—PROHIBITED TRADE PRACTICES

Northwest Marine Industries, Inc.

Subpart—Advertising falsely or misleadingly: § 13.10 *Advertising falsely or misleadingly;* § 13.180 *Quantity.* Subpart—Corrective actions and/or requirements: § 13.533 *Corrective actions and/or requirements;* 13.533–45 Maintain records; 13.533–45(k) Records, in general.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Northwest Marine Industries, Inc., Seattle, Wash., Docket C–2571, Oct. 8, 1974]

In the Matter of Northwest Marine Industries, Inc., a Corporation

Consent order requiring a Seattle, Wash., trade association promoting the interests of member firms in the marine industry, including manufacturers and distributors of boats, marine engines, marine accessories, etc., among other things to cease misrepresenting the availability of fuel for recreational boating without substantiating material providing a reasonable basis for such claims.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

It is ordered, That respondent Northwest Marine Industries, Inc., its successors and assigns, officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, promotion, offering for sale, sale or distribution of marine equipment, including but not limited to power boats, boat trailers, marine engines, marine hardware and accessories, etc. in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing orally, in writing, visually or otherwise, directly or by implication, that any general or specific quantity of fuel for recreational boating is, or will be, available, unless at the time of such representation, said respondent has a reasonable basis for such representation which shall consist of quantitative data based on a statistically valid sample, or competent scientific or economic data or other appropriate substantiating material.

It is further ordered, That respondent shall, at all times subsequent to the effective date of this order, maintain complete records relative to the manner and form of its compliance with this order during the immediately preceding two-year period. Such records shall include all advertising, promotional literature, the basis for all application advertising claims, correspondence with persons who formulate or place advertising, and other pertinent documents, and shall be made available for inspection and photocopying by authorized representatives of the Federal Trade Commission upon reasonable notice at respondent's place of business or other properly designated location.

It is further ordered, That respondent shall forthwith distribute a copy of this order to each operating division, to all present and future personnel of respondent engaged in the preparation, creation or placing of advertising, and to all present and future agencies engaged in the preparation, creation or placing of advertising on behalf of respondent; and that respondent secure from each such person and agency a signed statement acknowledging receipt of said order.

It is further ordered, That respondent notify the Commission at least thirty days prior to any proposed change in the corporate respondent such as dissolution, assignment or the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondent shall, within sixty days after service upon it of this order, file with the Commission a written report setting forth in detail the manner and form of its compliance with this order.

Decision and order issued by the Commission Oct. 8, 1974.

PART 13—PROHIBITED TRADE PRACTICES

Sterling Drug, Inc., et al.

Subpart—Advertising Falsely or misleadingly: § 13.10 *Advertising falsely or misleadingly;* § 13.135 *Nature of product or service;* § 13.170 *Qualities or properties of product or service;* 13.170–10 Antiseptic, germicidal; 13.170–52 Medicinal, therapeutic, healthful, etc.; 13.170–70 Preventive or protective; § 13.205 *Scientific or other relevant facts.* Subpart—Misrepresenting oneself and goods—Goods: § 13.1685 *Nature;* § 13.1710 *Qualities or properties;* § 13.1740 *Scientific or other relevant facts.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Sterling Drug, Inc., et al., New York, N.Y., Docket 8899, Oct. 1, 1974]

In the Matter of Sterling Drug, Inc., a Corporation, and SSC&B, Inc., a Corporation

Consent order requiring a New York City manufacturer of household disinfectants and its New York City advertising agency, among other things to cease making disease-prevention claims for its Lysol Brand products or any other household disinfectants.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

I. *It is ordered,* That respondents Sterling Drug, a corporation, and SSC&B Inc., a corporation, their successors and assigns and their officers, agents, representatives and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale, sale or distribution of Lysol Brand Products or any household disinfectant product, shall forthwith cease and desist from representing, directly or by implication, that:

A. Environmental surfaces play a significant role in the transmission of viruses or bacteria associated with influenza, colds, or streptococcal throat infection;

B. Use of any household disinfectant product will be of medical benefit in reducing the incidence or preventing the spread of influenza, colds, or streptococcal throat infection;

C. Use of any household disinfectant product kills airborne viruses or bacteria associated with influenza, colds, streptococcal throat infection, or other upper respiratory disease, *Provided,* That nothing in this subparagraph shall be construed to otherwise restrain demonstrations of aerosol products as room deodorizers or air fresheners;

D. Use of any household disinfectant product kills germs associated with disease(s), unless such representation expressly mentions the name(s) of the disease(s); the representation is true; and respondent(s) making such representation has(have) competent and reliable scientific evidence that such use reduces the incidence or prevents the spread of the named disease(s); or

E. Use of any household disinfectant product kills viruses or bacteria associated with influenza, colds, streptococcal infection, staphylococcal infection, or other upper respiratory diseases unless the advertisement is which such representation appears clearly and conspicuously discloses that there is no evidence that the product portrayed will protect the family against flu or strep throat, *Provided,* That nothing in this subparagraph shall be construed to apply to a representation that Lysol Brand Disinfectants kill bacteria which cause streptococcal or staphylococcal skin infections.

II. *It is further ordered,* That nothing herein contained shall be construed to require any alteration of, or deletion from, the labeling of any of Sterling's household disinfectant products of legends, claims or information heretofore specifically accepted by the Environmental Protection Agency or its predecessor agency pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act, as amended 7 U.S.C. section 135 et seq.

III. *It is further ordered,* That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of this order.

It is further ordered, That respondents forthwith distribute a copy of this order to each of its operating divisions or subsidiaries involved in the advertising, promotion, distribution or sale of Lysol Brand Disinfectants.

It is further ordered, That each respondent shall, within sixty (60) days and at the end of six (6) months after the effective date of this order, file with the Commission a report, in writing, signed by respondents, setting forth in detail the manner and form of its compliance with this order.

The Decision and Order was issued by the Commission, October 1, 1974.

CHARLES A. TOBIN,
Secretary.

In the Matter of Timothy, Lynn, Daniel, Inc., a Corporation, Trading and Doing Business as Laufman's and Timothy Gallagher Individually and as an Officer of Said Corporation

Consent order requiring a Houston, Tex., retailer of jewelry and other merchandise, among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

It is ordered, That respondents Timothy, Lynn, Daniel, Inc., a corporation, trading and doing business as Laufman's, or under any other name or names, its successors and assigns, and its officers, and Timothy Gallagher, individually and as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporate, subsidiary, division or other device in connection with any extension of consumer credit as "consumer credit" is defined in Regulation Z (12 CFR Part 226) of the Truth in Lending Act (Pub. L. 90–321, 12 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Failing to disclose the terms required by § 226.7(b) and (c) clearly, conspicuously and in meaningful sequence in accordance with § 226.6(a) of Regulation Z.

2. Failing to disclose the term "finance charge" more conspicuously than other required terminology, as required by § 226.6(a) of Regulation Z.

3. Failing to disclose the term "annual percentage rate" more conspicuously than other required terminology as required by § 226.6(a) of Regulation Z.

4. Failing to disclose the outstanding balance in the account at the beginning

[1] Copies of the Complaint and decision and order filed with the original document.

of the billing cycle, using the term "previous balance", as required by § 226.7 (b) (1) of Regulation Z.

5. Failing to employ the term "payments" to describe the amounts credited to the account during the billing cycle for payments, as required by § 226.7(b) (3) of Regulation Z.

6. Failing to disclose the amount of any finance charge, using the term "finance charge", debited to the account during the billing cycle, as required by § 226.7(b) (4) of Regulation Z.

7. Failing to disclose each periodic rate, using the term "periodic rate" (or "rates") that may be used to compute the finance charge (whether or not applied during the billing cycle), as required by § 226.7(b) (5) of Regulation Z.

8. When a finance charge is imposed during the billing cycle, failing to disclose the annual percentage rate or rates determined under § 226.5(a) of Regulation Z using the term "annual percentage rate" (or "rates"), as required by § 226.7(b) (6) of Regulation Z.

9. Failing to disclose the balance on which the finance charge was computed, and the statement of how that balance was determined, as required by § 226.7 (b) (8) of Regulation Z.

10. Failing to disclose the term "new balance" to describe the outstanding balance in the account on the closing date of the billing cycle, as required by § 226.7(b) (9) of Regulation Z.

11. Failing to employ a statement accompanying the term "new balance" indicating the date by which, or the period, if any, within which payment must be made to avoid additional finance charges, as required by § 226.7(b) (9) of Regulation Z.

12. Failing in any consumer credit transaction or advertisement to make all disclosures determined in accordance with §§ 226.4 and 226.5 of Regulation Z at the time and in the manner, form and amount required by §§ 226.6, 226.7, 226.8, 226.10 of Regulation Z.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the consummation of any extension of consumer credit or in any aspect of preparation, creation, or placing of advertising and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered. That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondents, such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commisison, October 7, 1974.

CHARLES A. TOBIN,
Secretary.

[Docket C-2563]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Camp Chevrolet, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.10 *Advertising falsely or misleadingly;* § 13.20 *Comparative data or merits;* § 13.205 *Scientific or other relevant facts.* Subpart—Misrepresenting oneself and goods—Goods: § 13.1575 *Comparative data or merits;* § 13.1740 *Scientific or other relevant facts.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45.) [Cease and desist order, Camp Chevrolet, Inc., et al., Spokane, Wash., Docket C-2563, Oct. 7, 1974]

In the Matter of Camp Chevrolet, Inc., a Corporation, and Jerry W. Camp, Individually and as an Officer of Said Corporation

Consent order requiring a Spokane, Wash., seller, lessor and distributor of new and used automobiles and automotive accessories, among other things, to cease making any claims as to the fuel consumption or economy of operation or ownership of any vehicle without a reasonable basis for such claim consisting of tests or surveys using statistically valid methodology and having such results available at places of retail sales in a language understandable to the average consumer.

The Decision and Order, including further order requiring report of compliance therewith, is as follows: [1]

I. *It is ordered* That respondents Camp Chevrolet, Inc., a corporation, its successors and assigns, and its officers, and Jerry W. Camp, individually and as an officer of said corporation, and respondent's agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale or lease, sale, lease, or distribution of motor vehicles, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from making any representation, directly, or by implication, as to the fuel consumption or economy of operation or ownership of any vehicle or type of vehicle, unless:

A. The representation reflects the average consumer's customary or usual driving experience with the vehicles referred to;

B. At the time the representation is made, respondents:

1. have a reasonable basis for such representation, consisting of tests or surveys using statistically valid methodology, and

2. have made available to the general public, at the point of retail sale, copies of a brief but comprehensive statement of the results and methodology of such tests or surveys, in terms understandable to the average consumer;

C. In immediate conjunction with the representation, respondents clearly and conspicuously disclose:

1. the year, make, and model of each vehicle or type of vehicle referred to or used as a basis of comparison, and

2. where and how the test or survey results and methodology may be obtained; and

D. Respondents retain copies of all sales promotional materials which contain such representations, including newspaper advertisements and radio and television scripts, for a period of three years after use of such materials; and retain for a like period all records made pursuant to this order.

II. *It is further ordered* That the corporate respondent shall forthwith distribute a copy of this order to each of its officers, agents, representatives or employees who are engaged in the preparation or placement of advertisements.

III. *It is further ordered* That the corporate respondent notify the Commission at least thirty days prior to any proposed change in said respondent, such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of this order.

IV. *It is further ordered* That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment, and of his affiliation with a new business or employment, in the event of such discontinuance or affiliation. Such notice shall include his current business address and a statement as to the nature of the business or employment in which he is engaged, as well as a description of his duties and responsibilities.

V. *It is further ordered* That the respondents herein shall within sixty days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

[1] Copies of the Complaint, Decision and Order, filed with the original document.

The Decision and Order was issued by the Commission, October 7, 1974.

CHARLES A. TOBIN,
Secretary.

PART 13—PROHIBITED TRADE PRACTICES

Commercial Automotive Service, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.10 *Advertising falsely or misleadingly;* § 13.20 *Comparative data or merits;* § 13.205 *Scientific or other relevant facts.* Subpart—Misrepresenting oneself and goods—Goods: § 13.1575 *Comparative data or merits;* § 13.1740 *Scientific or other relevant facts.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Commercial Automotive Service, Inc., et al. Seattle, Wash., Docket C-2561, Oct. 7, 1974]

In the Matter of Commercial Automotive Service, Inc., a corporation doing business as Frank Hawkins Buick Co., and S. M. Rood, individually and as an officer of said corporation

Consent order requiring a Seattle, Wash., seller, lessor and distributor of new and used automobiles, automotive accessories and household appliances, among other things to cease making any claims as to the lifespan, maintenance costs, or fuel consumption of any vehicle without a competent and reliable basis, in the form of tests or surveys, substantiating such claims.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

I. *It is ordered*, That respondents Commercial Automative Service, Inc., a corporation doing business as Frank Hawkins Buick Co., or under any other name, its successors and assigns, and its officers, and S. M. Rood, individually and as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale or lease, sale, lease, or distribution of motor vehicles, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from making any representation, in writing, orally, visually, or in any other manner, directly or by implication, which refers to the lifespan, maintenance cost, or fuel consumption of any vehicle or type of vehicle, unless:

A. The representation reflects the average consumer's customary or usual driving experience with the vehicles referred to;

B. At the time the representation is made, respondents:

1. Have a reasonable basis for such representation, consisting of competent and reliable tests or surveys which substantiate the representation, and

2. Have made available to the general public, at the point of retail sale, copies of a brief but comprehensive statement of the results and methodology of such tests or surveys, in terms understandable to the average consumer;

C. In immediate conjunction with the representation, respondents clearly and conspicuously disclose:

1. Where and how the test or survey results and methodology may be obtained.

2. The year, make, and model of each vehicle or type of vehicle referred to or used as a basis of comparison, and

3. If any lifespan representation is made, exactly how the term "life," or any similar term, is defined; and

D. Respondents retain copies of all sales promotional materials which contain such representations, including newspaper advertisements and radio and television scripts, for a period of three years after use of such materials; and retain for a like period all records made pursuant to this order.

II. *It is further ordered*, That the corporate respondent shall forthwith distribute a copy of this order to each of its officers, agents, representatives or employees who are engaged in the preparation or placement of advertisements.

III. *It is further ordered*, That the corporate respondent notify the Commission at least thirty days prior to any proposed change in said respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

IV. *It is further ordered*, That the individual respondent named herein promptly notify the Commission if he discontinues his present business or employment and affiliates with another business or employment engaged in the sale, lease or distribution of motor vehicles. Such notice shall include respondent's current business address and a statement the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

V. *It is further ordered*, That respondents shall, within sixty days after service upon them of this order, file with the Commission a written report setting forth in detail the manner and form of their compliance with this order.

The Decision and Order was issued by the Commission, October 7, 1974.

CHARLES A. TOBIN,
Secretary.

[1] Copies of the Complaint & decision and order filed with the original document.

Title 18—Conservation of Power and Water Resources

CHAPTER I—FEDERAL POWER COMMISSION

[Docket Nos. R-240; Order 280(a)]

PART 157—APPLICATIONS FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY AND FOR ORDERS PERMITTING AND APPROVING ABANDONMENT UNDER SECTION 7 OF THE NATURAL GAS ACT

Applications by Pipeline Companies; Clarifying Order and Amendment

JANUARY 20, 1975.

On November 27, 1963, the Commission issued Order No. 274 to implement Executive Order 11095 of February 26, 1963 [28 FR 1859, February 29, 1963] regarding national emergency plans and preparedness programs in the natural gas and electric power industries by amending, among other sections, § 157.22 of the regulations under the Natural Gas Act.

On March 31, 1964, the Commission issued order No. 280 which also amended § 157.22 of the regulations in order to include sales in the coverage. In so doing, the last sentence of § 157.22(a) was inadvertently left off. This error has caused latter parts of the section to be ambiguous.

We are, therefore, amending this section to return it to the form intended by Orders No. 274 and No. 280.

The Commission finds:

(1) The notice public procedure and effective date provisions of 5 U.S.C. 553 do not apply with respect to the amendment here adopted.

(2) In view of the purpose, intent and effect of the amendment herein ordered, good cause exists for making it effective upon issuance of this order.

(3) The revision as herein adopted is necessary and appropriate for the administration of the Federal Power Act, the Natural Gas Act, Executive Order 11095, and Commission Orders 274 and 280.

The Commission:

Acting pursuant to the authority granted by the Natural Gas Act, is amended, particularly sections 7, 15, and 16 thereof (52 Stat. 824, 829, 830; 56 Stat. 84; 76 Stat. 72; 15 U.S.C. 7170, 717d, 717f, 7170) orders:

(A) Paragraph (a) §157.22 of the Commission's regulations under the Natural Gas Act, Subchapter E, Chapter I of Title 18 of the Code of Federal Regulations, is revised to read as follows:

§ 157.22 Exemption of temporary acts and operation.

(a) Public interest does not require the issuance of a certificate for the construction and operation of facilities or the sale of natural gas necessary to assure maintenance of adequate natural gas service where interruption or serious curtailment of service exists or is threatened because of failure of facilities or failure or curtailment of supply or

V40118 JAN 27 75 XUM

unusual and unexpected demand on such facilities or supply, and where such acts and operations are limited to a single period of not more than sixty days or in the event a national emergency has been declared by the President, for six months or such further period as the Commission may, by order, allow.

* * * * *

(Secs. 4, 5, 15, 52 Stat. 822, 823, 829; 56 Stat. 83, 84, 76 Stat. 72 (15 U.S.C. 717C, 717d, 717n))

(B) These amendments shall be effective upon issuance of this order.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-2286 Filed 1-24-75;8:45 am]

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER H—RIGHT-OF-WAY AND ENVIRONMENT

PART 712—THE ACQUISITION FUNCTION

Policy

This will amend the regulations of the Federal Highway Administration by revising § 712.103(r) of 23 CFR Part 712, Subpart A. Subpart A was published in the FEDERAL REGISTER on August 16, 1974 (39 FR 29590). Section 712.103(r) is amended to conform the regulations to a legislative amendment contained in section 112 of the Federal-Aid Highway Amendments of 1974 which amended section 323, "Donations", of Title 23 of the United States Code. This regulation codifies a similar revision made to paragraph 4(r) of Federal Highway Program Manual (FHPM) Volume 7, Chapter 2, Section 1.

The purpose of the revision is to permit the acceptance of donations of property without the necessity of making a formal appraisal of property and tender of an offer as long as an owner has been fully informed of his right to receive just compensation for his property. Prior to the amendment of the statute on donations, the law and the regulations had required appraisal and the tender of an offer even though the land was to be donated.

Section 712.103(r) is hereby revised to read as follows:

§ 712.103 Policies.

* * * * *

(r) *Donations.* Nothing in this regulation shall be construed to prevent a person whose real property is being acquired for a federally aided highway project from making a gift or donation of such property, or any part thereof, or of any of the compensation paid therefor, after such person has been fully informed of his right to receive just compensation for the acquisition of his property.

This revision will take effect immediately.

Issued on: January 20, 1975.

NORBERT T. TIEMANN, *Federal Highway Administrator.*

[FR Doc.75-2326 Filed 1-24-75;8:45 am]

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

PART 1910—OCCUPATIONAL SAFETY AND HEALTH STANDARDS

Correction

Part 1910 of Title 29 of the Code of Federal Regulations was republished in its entirety on June 27, 1974 (39 FR 23502), in order to incorporate all changes made in the occupational safety and health standards up to June 3, 1974, and thereby to improve their usefulness and facilitate their enforcement.

When the standards were republished, Table H-12 of § 1910.106(d)(2)(iii) was inadvertently omitted. The purpose of this amendment is to correct the error of omission in the text of the standard.

Since the correction makes no change in the standards, it is not necessary to provide notice of proposed rulemaking, opportunity for public participation therein, nor any delay in the effective date under either section 6(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 or 5 U.S.C. 553.

Accordingly, pursuant to authority in sections 6 and 8(g) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1593, 1600; 29 U.S.C. 655, 657), in Secretary of Labor's Order No. 12-71 (36 FR 8754), and in 29 CFR Part 1911, Part 1910 of Title 29 of the Code of Federal Regulations is hereby amended by adding, in § 1910.106(d)(2)(iii), Table H-12 as follows:

TABLE H-12.—*Maximum allowable size of containers and portable tanks*

Container type	Flammable liquids			Combustible liquids	
	Class IA	Class IB	Class IC	Class II	Class III
Glass or approved plastic	1 pt.	1 qt.	1 gal.	1 gal.	1 gal.
Metal (other than DOT drums)	1 gal.	5 gal.	5 gal.	5 gal.	5 gal.
Safety cans	2 gal.	5 gal.	5 gal.	5 gal.	5 gal.
Metal drums (DOT specifications)	60 gal.	60 gal.	60 gal.	60 gal.	60 gal.
Approved portable tanks	660 gal.	660 gal.	660 gal.	660 gal.	660 gal.

NOTE.—Container exemptions: (a) Medicines, beverages, foodstuffs, cosmetics, and other common consumer items, when packaged according to commonly accepted practices, shall be exempt from the requirements of § 1910.106(c)(2)(i) and (ii).

This amendment is effective January 27, 1975.

(Secs. 6, 8, Pub. L. 91-596, 84 Stat. 1598, 1600 (29 U.S.C. 655, 657), Secretary of Labor's Order No. 12-71 (36 FR 8754), 29 CFR Part 1911)

Signed at Washington, D.C., this 21st day of January, 1975.

JOHN STENDER, *Assistant Secretary of Labor.*

[FR Doc.75-2361 Filed 1-24-75;8:45 am]

PART 1910—OCCUPATIONAL SAFETY AND HEALTH STANDARDS

Mechanical Power Presses; Corrections

In FR Doc. 74-28092, beginning at 39 FR 41841 in the issue dated Tuesday, December 3, 1974, there were a number of typographical errors. Accordingly, FR Doc. 74-28092 is corrected as follows:

1. On page 41845, column 1, second full paragraph, eighth line, in the preamble by changing "disclosure" to "die closure."

2. On page 41845, column 2, fourth line, in the preamble by changing "fromula" to "formula."

3. On page 41845, column 3, first full paragraph, fifth line, in the preamble by changing "operator's" to "operators'."

4. On page 41846, column 1, second line, in the preamble by inserting the word "Development" after the word "Standards."

5. On page 41846, column 2, first full paragraph, fourth line, in the preamble by changing "Safeaty" to "Safety."

§ 1910.217 [Amended]

6. In § 1910.217(b)(14)(ii) (page 41846, column 3, fourth full paragraph, first line), by replacing the word "which" with the words "such that it."

7. In § 1910.217(c)(3)(viii)(a) (page 41847, column 3, fifth full paragraph, sixth line), by changing "operators" to "operators' controls."

Signed at Washington, D.C., this 13th day of January, 1975.

JOHN STENDER, *Assistant Secretary of Labor.*

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository
Arkansas	Ashley	Wilmot, city of	Jan. 14, 1975, Emergency	Mar. 15, 1974

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968), effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended (secs. 408–410, Pub. L. 91–152, Dec. 24, 1969), 42 U.S.C. 4001–4127; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969) as amended 39 FR 2787, Jan. 24, 1974)

Issued: January 7, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[FR Doc.75-2009 Filed 1-24-75;8:45 am]

[Docket No. FI-455]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding. Since this publication is merely for the purpose of informing the public of the location of areas of special flood hazard and has no binding effect on the sale of flood insurance or the commencement of construction, notice and public procedure are impracticable, unnecessary, and contrary to the public interest. Inasmuch as this publication is not a substantive rule, the identification of special hazard areas shall be effective on the date shown. Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

State	County	Location	Map No.	State map repository	Local map repository	Effective date of identification of areas which have special flood hazards
Alabama	Blount	Allgood, town of	H 010229 01	Alabama Development Office, Office of State Planning, State Office Bldg., 501 Dexter Ave., Montgomery, Ala. 36104. Title 33—Navigation and Navigable Waters

CHAPTER II—CORPS OF ENGINEERS, DEPARTMENT OF THE ARMY

PART 204—DANGER ZONE REGULATIONS

Albemarle Sound, N.C.

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1) and Chapter XIX of the Army Appropriations Act of July 9, 1918 (40 Stat. 892; 33 U.S.C. 3), § 204.54 governing the use and navigation of danger zones in Albemarle Sound, Pamlico Sound and adjacent waters in North Carolina is hereby amended with respect to the disestablishment of the target area designated in paragraph (a)(3), (a)(4) and (a)(5), effective January 27, 1975.

Since this revocation constitutes only an agency organizational or procedural matter, notice of proposed rulemaking and public procedures thereto are considered unnecessary. Accordingly, § 204.54 is hereby amended by revoking paragraphs (a) (3), (4) and (5) and revising paragraph (d)(1) as follows:

§ 204.54 Albemarle Sound, Pamlico Sound and adjacent waters, N.C.; danger zones for naval aircraft operations.

(a) • • •

(3) *North of Currituck Beach Light.* [Revoked]

(4) *South of Caffey Inlet Coast Guard Station.* [Revoked]

(5) *Southeast of Caffey Inlet Coast Guard Station.* [Revoked]

• • • • • • • • • • •

(d) *The regulations*—(1) *Target areas.* The area described in paragraph (1)(a) of this section will be used as a dive bombing target by naval aircraft. In peacetime, munitions will be limited to miniature bombs which contain only small explosive charges for producing smoke puffs to mark points of impact. All operations will be conducted during daylight hours, and the area will be open to navigation at night. No vessel shall enter this area during the hours of daylight without special permission from the enforcing agency. The area will be patrolled and vessels will be warned not to enter. "Buzzing" by plane will warn vessels that they are in a danger zone, and upon being so warned vessels which have inadvertently entered the area shall immediately leave the area.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 317-5]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Arizona; Approval of Compliance Schedule

On September 27, 1974, there was published in the FEDERAL REGISTER (39 FR 34671) a notice of proposed rulemaking which proposed to approve a compliance schedule for the Flintkote Company, Nelson, Arizona. The schedule was submitted pursuant to 40 CFR 51.6 by the Governor of Arizona, through his designee, as a revision to the compliance schedule portion of the Arizona plan for the implementation of the National Ambient Air Quality Standards. EPA received no comments from the public on the proposed rulemaking.

The revision establishes a new date by which the individual air pollution source must comply with the applicable air-pollution control regulations specified in the table below. This date is indicated in the table under the heading "Final Compliance Date." The schedule includes incremental steps towards compliance with the specified regulations. While the table below does not include these interim dates, the actual compliance schedule does. The increments of progress, as well as the final compliance date, are legally enforceable by the Administrator pursuant to Section 113 of the Clean Air Act, as amended (42 U.S.C. 1857c-8).

The heading "Effective Date" in the table below refers to the date the compliance schedule becomes effective for purposes of federal enforcement. The entry "Immediately" under that heading indicates that the schedule will be federally-enforceable when the final promulgation of the schedule becomes effective.

A copy of the complete Arizona State Implementation Plan, including this schedule, is available for public inspection at the addresses listed below:

Arizona Department of Health Services
State Health Building
1740 West Adams Street
Phoenix AZ 85007

Environmental Protection Agency, Region IX
Enforcement Division
100 California Street
San Francisco CA 94111

Environmental Protection Agency
Division of Stationary Source Enforcement
Room 3202, Waterside Mall
401 M Street, SW
Washington DC 20460

An evaluation report setting forth EPA's position on the schedule is also available at the office of EPA, Region IX.

The Administrator has determined that the compliance schedule for the Flintkote Company is consistent with the requirements of Section 110 of the Clean Air Act and 40 CFR Part 51. The schedule is therefore approved, pursuant to Section 110 of the Act and 40 CFR 51.8, as a revision to the compliance schedule portion of the approved Arizona State Implementation Plan. Accordingly, the amendment proposed in the FEDERAL REGISTER on September 27, 1974 is hereby adopted without change and is set forth below.

EPA finds that good cause exists to make this rulemaking immediately effective because the schedule is already in effect in Arizona under State law, the affected source is necessarily aware of the existence of the applicable schedule and of its increments, and EPA's approval of the schedule imposes no additional regulatory burdens. Therefore, for the reasons stated, this rulemaking is effective January 27, 1975.

(Sec. 110, Clean Air Act, as amended (42 U.S.C. 1857c-5))

Dated January 17, 1975.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart D—Arizona

1. Section 52.134(c) is amended by adding the following schedule to the table:

§ 52.134 Compliance schedules.

• • • • • •

(c) • • •

Source	Location	Regulation involved	Date of adoption	Effective date	Final compliance date
Flintkote Co.	Nelson	7-1-3.1, 7-1-3.2, and 7-1-3.6.	Apr. 26, 1974	Immediately	Feb. 28, 1975

[FR Doc.75-2265 Filed 1-24-75;8:45 am]

[FRL 317-4]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Nevada; Approval of Compliance Schedules

On September 24, 1974, there was published in the FEDERAL REGISTER (39 FR 34303) a notice of proposed rulemaking which proposed to approve two compliance schedules submitted by the Governor of Nevada and through his designee, pursuant to 40 CFR 51.6, as revisions to the compliance schedule portion of the Nevada plan for the implementation of the National Ambient Air Quality Standards. It was proposed to delete U.S. Gypsum Corporation from the table of compliance schedules disapproved, 40 CFR 52.1482(c) (39 FR 14209), and to amend the table of compliance schedules approved, 40 CFR 52.1482(b) (39 FR 14209), by adding U.S. Gypsum Corporation and the Baroid Division of National Lead Industries, Inc. EPA received no comments from the public on the proposed rulemaking.

Each revision establishes a new date by which the individual air pollution source must comply with the applicable air pollution control regulations specified in the table below. This date is indicated in the table under the heading "Final Compliance Date." Each schedule includes incremental steps towards compliance with the specified regulations. While the table below does not include these interim dates, the actual compliance schedule does. The increments of progress, as well as the final compliance date, are legally enforceable by the Administrator pursuant to Section 113 of the Clean Air Act, as amended (42 USC 1857c-8).

The heading "Effective Date" in the table below refers to the date the compliance schedule becomes effective for purposes of federal enforcement. The entry "Immediately" under that heading indicates that the schedule will be federally enforceable when the final promulgation of the schedule becomes effective.

A copy of the complete Nevada State Implementation Plan, including these schedules, is available for public inspection at the addresses listed below:

Washoe County District Health Department
Division of Environmental Protection
10 Kirman Avenue
Reno NV 89502

Nevada Environmental Commission
201 South Fall Street
Carson City NV 89701

Environmental Protection Agency, Region IX
Enforcement Division
100 California Street
San Francisco CA 94111

Environmental Protection Agency
Room 3202, Waterside Mall
401 M Street, SW
Washington DC 20460

An evaluation report setting forth EPA's position on each of the schedules is also available at the office of EPA, Region IX.

The Administrator has determined that the compliance schedules for U.S. Gypsum Corporation and the Baroid Division of National Lead Industries, Inc. are consistent with the requirements of Section 110 of the Clean Air Act and 40 CFR Part 51. The schedules are therefore approved, pursuant to Section 110 of the Act and 40 CFR 51.8, as revisions to the compliance schedule portion of the approved Nevada State Implementation Plan. Accordingly, the amendments proposed in the FEDERAL REGISTER on September 24, 1974 are hereby adopted without change and are set forth below.

EPA finds that good cause exists to make this rulemaking immediately effective because each schedule is already in effect in Nevada under State law, each affected source is necessarily aware of the existence of the applicable schedule and of its increments, and EPA's approval of the schedules imposes no additional regulatory burdens. Therefore, for the reasons stated, this rulemaking is effective January 27, 1975.

(Sec. 110, Clean Air Act, as amended (42 U.S.C. 1857c-5))

Dated January 17, 1975.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart DD—Nevada

1. In § 52.1482(b) the table is amended by adding the following schedules:

§ 52.1482 Compliance schedules.

• • • • • •

(b) • • •

Source	Location	Regulation involved	Date of adoption	Effective date	Final compliance date
U.S. Gypsum Corp.	Empire	Washoe Co. § 040.005, § 040.010, § 040.020.	Jan. 30, 1974	Immediately	May 30, 1975
Baroid Division National Lead Industries, Inc.	Battle Mountain.	Article 4	Jan. 27, 1973	do	Jan. 1, 1975

2. In § 52.1482(c) the table is revised to read as follows:

§ 52.1482 Compliance schedules.

• • • • • • •

[FRL 318-2]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Commonwealth of Pennsylvania Implementation Plan; Administrator's Response to Exclusive Bus/Carpool Lane Study

Purpose. The purpose of this notice is to state the Administrator's response to the Commonwealth of Pennsylvania's Bus/Carpool lane study requested by him in two of the regulations promulgated on November 28, 1973 (38 FR 32884).

Background. Transportation Control Plans for the Pennsylvania portion of the Metropolitan Philadelphia Interstate and the Southwest Pennsylvania Intrastate Air Quality Control Regions (AQCR) were submitted on April 15, 1973 by the Commonwealth of Pennsylvania, pursuant to section 110 of the Clean Air Act. The strategies included improved mass transit and emission inspection programs. Although portions of these plans were approvable, neither plan could be approved in its entirety. Therefore, on June 15, 1973, the Administrator issued an approval/disapproval notice containing his evaluation of the Commonwealth of Pennsylvania's plan. This notice was published in the FEDERAL REGISTER on June 22, 1973 (38 FR 36559).

On July 3, 1973, the Administrator published a proposed Transportation Control Plan for the Pennsylvania portion of the Metropolitan Philadelphia and the Southwest Pennsylvania Air Quality Control Regions (38 FR 37793). The proposals were largely based on the material submitted by the Commonwealth of Pennsylvania. Public hearings were held on July 30 and 31, 1973 in Pittsburgh and on July 23, 24 and September 14, 1973 in Philadelphia.

Some portions of these submissions made in April were approved in a FEDERAL REGISTER notice that appeared on November 28, 1973. In this same notice, EPA promulgated other measures which, to the maximum extent possible, reflected the preferences of the Commonwealth of Pennsylvania. Two of these regulations dealt with the establishment of suburban corridor exclusive bus/carpool lanes and a third regulation dealt with associated parking restrictions.

Sections 52.2048 and 52.2050 required that the Commonwealth of Pennsylvania, by November 1, 1974, submit to the Administrator detailed analyses of specific route locations considered within the required corridors mentioned in these sections. Further, the studies had to designate the most practicable route for each corridor, presenting advantages and disadvantages for the specific route. The Administrator is to approve the Commonwealth's selection of the most practicable routes or designate an alternative route on which bus/carpool lanes must be established.

In accordance with the November 28, 1973 FEDERAL REGISTER,

(a) Section 52.2048 required radial corridors to the Philadelphia Central Business District (CBD) from the following six suburban areas to be examined:

(1) King of Prussia.
(2) Chester.
(3) Paoli.
(4) Media.
(5) West Chester.
(6) Tacony.

(b) Section 52.2050 required a similar examination of radial corridors to the Pittsburgh CBD from the following nine suburban areas to be examined:

(1) Bellevue.
(2) Bethel Park.
(3) Clairton.
(4) The Greater Pittsburgh International Airport.
(5) McKeesport.
(6) McKees Rocks.
(7) Monroeville.
(8) North Braddock.
(9) Penn Hills.

In addition to studying the specified corridors, the Commonwealth was to examine the feasibility of establishing exclusive bus/carpool lanes on substitute alternate corridors if it was determined that any one of the original corridors was infeasible. Section 52.2051, a regulation limiting public parking related to the establishment of bus/carpool lanes, required that parking be prohibited on any particular street or highway where such parking would interfere with the use of aforementioned exclusive lanes.

Summary. In compliance with §§ 52.2048 and 52.2050, the Pennsylvania Department of Transportation submitted studies to the EPA Philadelphia Regional Office containing detailed analyses of the feasibility of bus/carpool lanes in the Pennsylvania portion of the Metropolitan Philadelphia AQCR and the Southwest Pennsylvania AQCR. The studies were received on October 31, 1974, and as amended November 26, 1974.

In accordance with the requirements set forth in the transportation control plans for Philadelphia and Pittsburgh, the Administrator is setting forth his response to the PennDOT study in the following comments:

(1) The Administrator compliments the Pennsylvania Department of Transportation on the timely submission of the bus/carpool lane study by the November 1, 1974 deadline.

(2) The Administrator takes this opportunity to restate EPA's strong commitment to exclusive bus and bus/carpool lanes as an effective transportation measure for achieving air quality and

V40118 JAN 27 75 XUM

energy conservation goals. Successful implementation of express bus service (most notably the Shirley Highway service) demonstrates that substantial demand exists for fast, efficient transit options that can replace the auto for the work trip. Finally, EPA's commitment to exclusive lane express bus service is consistent with the policy objectives of the Federal Energy Administration and the Department of Transportation.

(3) On the basis of the six corridors studied in the Philadelphia area, the Administrator concludes that three appear suitable for bus/carpool lanes: I–95 north of the CBD, I–95 south of the CBD, and a portion of West Chester Pike. In the Pittsburgh area, the Administrator finds that one exclusive bus lane on a portion of West Liberty Avenue, one exclusive bus/carpool on-ramp at Stanwix Street, and one pair of exclusive bus/carpool lanes on a portion of the Parkway East appear suitable.

(4) The Administrator concludes that the Commonwealth of Pennsylvania should continue planning for the implementation of the above corridors and routes determined suitable by the Administrator in both the Metropolitan Philadelphia AQCR and the Southwest Pennsylvania AQCR. Accordingly, the Commonwealth should proceed with the necessary follow-up studies and interagency coordination in order to meet the deadline for submission of a compliance schedule. The deadline, originally February 1, 1975 (40 CFR 52.2048(e) and 52.2050(e)), is hereby extended to April 1, 1975, in order for each jurisdiction to have adequate time to submit the compliance schedules.

(5) The Administrator has several reservations, explained below, about the PennDOT conclusion concerning the infeasibility of all other bus/carpool lanes set forth in the FEDERAL REGISTER (38 FR 32884).

(6) The Administrator recognizes that the detailed PennDOT bus/carpool lane evaluation study was forced to address a number of complex issues in a very short time period. Due to this situation, all appropriate agencies and interested parties did not have the opportunity to contribute to the assessment of the potential bus/carpool lane corridors or to evaluate the findings of the final report. Consequently, a critical review of the assumptions and methodologies is warranted. The Administrator is thus calling for comment on the PennDOT study and invites the affected jurisdictions and agencies as well as the general public to review and discuss this study. Comments will be accepted in response to this request until February 15, 1975. The Administrator particularly solicits comments on the following:

(a) Have all alternative routes been adequately analyzed? Has the most practicable route in each corridor been selected as mandated in 38 FR, §§ 52.2048 and 52.2050?

(b) The economic, environmental, and energy benefits of diverting commuters from car to bus.

(c) The methodology used to predict express bus and carpool demand.

(d) The difficulties associated with implementing express bus/carpool lanes on all alternative routes and how these operational problems have been overcome where bus/carpool lanes have been successfully implemented.

(e) Discussion is also sought on routes determined both feasible and infeasible by the PennDOT study and on alternative practicable routes that may have been omitted from this report.

At the minimum, comment from the following key agencies should be obtained. Philadelphia: City of Philadelphia, Delaware Valley Regional Planning Commission, Southeastern Pennsylvania Transit Authority, Bucks, Chester, Delaware and Montgomery Counties. Pittsburgh: City of Pittsburgh, Allegheny County, Southwest Pennsylvania Regional Planning Commission, Port Authority of Allegheny County. Additional comment should be obtained from the State Department of Environmental Resources and the appropriate Federal Department of Transportation offices.

(7) Finally, the Administrator agrees with the PennDOT conclusion that additional specific transit and carpool measures also offer a promising potential for reducing areawide vehicle miles traveled (VMT). These measures which include provision of peripheral parking lots, expansion of radial bus and rail service, and provision of non-radial transit service could significantly improve public transportation, air quality, and energy conservation efforts. Therefore, the Administrator encourages the Commonwealth to include, in the Fiscal Year 1976 Unified Work Program for both regions, feasibility and preliminary engineering studies on the above measures.

Philadelphia Area. In accordance with §§ 52.2048 and 52.2051 (38 FR 32884) for the Pennsylvania portion of the Metropolitan Philadelphia AQCR, the Administrator designates the following routes: (1) exclusive bus/carpool lanes for West Chester Pike; (2) exclusive bus/carpool lanes for I–95, upon completion of the highway; (3) the commencement of a detailed analysis for establishing an exclusive bus/carpool lane on the Schuylkill Expressway (I–76) from the Roosevelt Boulevard (Route 1) Interchange to Vine Street Philadelphia.

1. *West Chester Pike.* The bus/carpool lanes on West Chester Pike will be located in the right-hand operating lanes of the highway from Township Line Road (Route 1) to 69th Street and will operate eastbound from 6:30 a.m. to 9:30 a.m. and westbound from 3:30 p.m. to 6:30 p.m. on or before January 1, 1976.

2. *Delaware Expressway (I–95).* The exclusive bus/carpool lanes on I–95 to serve the Tacony and Chester Corridors will be located in the medial lanes of Interstate 95 from the City of Chester to the Woodhaven Road Interchange and will operate in both directions between the hours of 6:30 a.m. to 9:30 a.m. and 3:30 p.m. to 6:30 p.m. upon completion of that segment of the highway.

3. *Schuylkill Expressway (I–76).* The analysis to be performed for the Schuylkill Expressway segment of Interstate 76 from the Roosevelt Boulevard Interchange to Vine Street shall be comprehensive in nature and include the impact of the establishment of exclusive bus/carpool lanes on the Roosevelt Boulevard. This study shall be completed by the Pennsylvania Department of Transportation and shall demonstrate full cooperation from the City of Philadelphia for the section of the Roosevelt Boulevard up to and including Broad Street, and its impact upon the exclusive bus/carpool lane on the aforementioned section of the Schuylkill Expressway. The study shall be completed and forwarded to the Administrator on or before June 1, 1975. Should the study indicate the feasibility of such exclusive lanes, implementation is required on or before January 1, 1976.

Pittsburgh Area. In accordance with §§ 52.2050 and 52.2051 (38 FR 32884), the Administrator approves the following: (1) bus/carpool lanes for the Penn Lincoln Parkway East (I–76); (2) a bus/carpool ramp onto the Fort Pitt Bridge at Stanwix Street, and (3) an exclusive bus lane ramp from West Liberty Avenue into the existing trolley tunnel which parallels the Liberty Tunnel.

1. *Parkway East (I–76).* The bus/carpool lanes on the Parkway East will be located in the medial lanes of the highway from the Squirrel Hill Interchange to the Boulevard of the Allies Interchange, a distance of approximately 2.2 miles. The westbound lane will provide exclusive service for buses and carpools from 6:30 a.m. to 9:30 a.m.; the eastbound lane will provide exclusive service from 3:30 p.m. to 6:30 p.m.

2. *Stanwix Street On-Ramp.* The Stanwix Street ramp onto the Fort Pitt Bridge will be established for the exclusive use of buses and carpools from 3:30 p.m. to 6:30 p.m.

3. *West Liberty Avenue.* The exclusive bus lane on West Liberty Avenue will be located in the center of West Liberty Avenue from Cape May Avenue to the existing trolley ramp. The buses will utilize the existing trolley right-of-way of the ramp and the trolley tunnel and will traverse the Smithfield Street Bridge into the Pittsburgh CBD. The exclusive bus lane on West Liberty Avenue will be one-way north from 6:30 a.m. to 9:30 a.m. and one-way south from 3:30 p.m. to 6:30 p.m.

These bus and bus/carpool lanes for the Pittsburgh area shall be implemented by July 1, 1975.

Participation of Other Entities. The regulations require that the Commonwealth request the participation of a county or local jurisdiction, if the participation of that jurisdiction is necessary to the establishment of the lanes required by this notice. This requirement is extended to include the request for participation of any entity, such as the Port Authority of Allegheny County, the Southwest Pennsylvania Regional Planning Commission (SPRPC), the Southeast Pennsylvania Transportation Authority, or the Delaware Valley Regional Planning Commission (DVRPC), if necessary to the establishment of the lanes required by this notice. In accordance with § 52.2051 (38 FR 32884), legally adopted parking regulations must be submitted to the Administrator no later than 2 months after the Commonwealth requests participation of such entity in an exclusive lane program.

Submission of Compliance Schedules and Regulations. On or before April 1, 1975 the Commonwealth of Pennsylvania and such jurisdictions and entities as the Commonwealth has requested to participate must submit to the Administrator compliance schedules to show in detail the steps which each entity will take to establish the bus or bus/carpool lanes required by this notice and to enforce the limitations on their use.

No later than June 1, 1975 each governmental entity required by this notice to establish lanes shall submit to the Administrator all remaining legally adopted regulations sufficient to implement and enforce all of the requirements of this notice.

Other Strategies. In the study submitted by the Commonwealth and in subsequent discussions, at least three additional transportation strategies requiring further study were identified that would concurrently improve transportation service, reduce automotive emissions, and contribute to energy conservation. These were expansion of fringe parking facilities on radial bus and rail routes, acceleration of improvements to existing rail facilities and development of new passenger rail service, and examination of potential transit service for non-radial travel. However, in order to achieve the air quality standards at the earliest possible date, the Administrator necessarily places a higher priority on short-term transit improvements although the longer range improvements are certainly viewed as essential longer range strategies.

In the Philadelphia area the planning emphasis will be on fringe parking for radial rail lines with additional fringe parking for express bus service. Second, improvements to existing rail rights-of-way, rolling stocks, and service levels is complementary to the increased parking availability. Third, because of the continuing growth in non-CBD oriented travel, a need exists for development of transit programs to serve the expanding suburban and non-CBD employment concentrations.

In the Pittsburgh area, the planning emphasis will be on the assembling of fringe parking facilities to serve existing and future express bus service. Provision of new radial rail and other exclusive right-of-way transit service plus improvements to existing commuter rail lines through additional parking and expanded service will not be felt as quickly as the implementation of fringe parking for express bus service, but will have a more lasting impact. Finally, as in the Philadelphia area continuing growth in non-CBD oriented travel necessitates an improvement in transit service to serve the expanding suburban and non-CBD employment centers.

By this notice the Administrator requests that the Commonwealth of Pennsylvania recommend priority inclusion of these three study areas in the Unified Work Programs (UWP) of DVRPC and SPRPC for Fiscal Year 1976. As elements of the UWP, these areas should include a determination of their impact on air quality and energy consumption. According to Federal Highway Administration (FHWA) Air Quality Guidelines, the UWP's will be reviewed by both FHWA and EPA and a determination will be made as to the consistency of the transportation plan and program with the applicable state air quality implementation plan of which this notice is a part.

The Administrator further requests that the Commonwealth of Pennsylvania submit along with the Compliance Schedule due April 1, 1975 those elements of the Unified Work Programs that identify these three study areas.

Public information. Copies of the Commonwealth of Pennsylvania study prepared by the Pennsylvania Department of Transportation are available for inspection at the Freedom of Information Center, U.S. Environmental Protection Agency, Room W232, 401 M Street, SW., Washington, D.C. 20460 and at the EPA Region III Office, Sixth and Walnut Streets, Philadelphia, Pennsylvania 19106. Comments on the study should be submitted in triplicate to the Air and Hazardous Materials Division Director, EPA Region III Office, Sixth and Walnut Streets, Philadelphia, Pennsylvania 19106. All comments received before February 15, 1975 will be considered.

Dated: January 20, 1975.

JOHN QUARLES,
Acting Administrator.

Title 41—Public Contracts and Property Management

CHAPTER 4—DEPARTMENT OF AGRICULTURE

PART 4–3—PROCUREMENT BY NEGOTIATION

Form AD–744

This amendment involves matters relating to agency management and contracting. It is not subject by law to the notice and public procedure requirements for rule making under 5 U.S.C. 553 but is subject to the Secretary's Statement of Policy (36 FR 13804). The amendment corrects or clarifies existing policy and embodies already existing Government-wide policy. No useful purpose would be served by public participation, and it is found upon good cause, in accordance with the Secretary's Policy Statement, that notice and other public procedures with respect to the amendment are impracticable and unnecessary.

1. The table of contents, Part 4–3, § 4–3.605–1 is revised to read as follows:

§ 4–3.605–1 Department of Agriculture Form AD–744 Purchase Order/Invoice/Voucher

2. Section 4–3.605–1 is revised to read as follows:

§ 4–3.605–1 Department of Agriculture Form AD–744, Purchase Order/Invoice/Voucher.

(a) *Prescribed form.* The Department of Agriculture Form is prescribed for use by this Department. The form is to be used as a combination purchase order and vendor's invoice/voucher for making local, small commercial purchases of items and services for immediate delivery. The Form AD–744 will replace the Standard Form 44 for all such purchases. The Standard Form 44 may continue to be used for the functions listed in (b) below.

(b) *Restrictions on use.* The Form AD–744 shall not be used for any of the following:

(1) Purchases involving future delivery of the items purchased.

(2) As a confirming purchase order.

(3) As an order under a Blanket Purchase Arrangement.

(4) Purchases from GSA or other Government Agencies.

(5) Purchases for which the vendor is paid in cash or as a receipt for such purchase.

(6) Purchases which may be accomplished through an imprest fund transaction.

(c) *Availability.* Both Form AD–744 and SF–44 are stocked by the Central Supply Branch, Office of Operations. The forms are four part snap out sets bound in books of twenty-five sets.

Effective date: February 1, 1975.

(5 U.S.C. 301, 40 U.S.C. 486(c))

Done at Washington, D.C., this 21st day of January, 1975.

GEORGE C. KNAPP,
Deputy Director,
Office of Operations.

[FR Doc.75-2306 Filed 1-24-75;8:45 am]

PART 4–5—SPECIAL TYPES AND METHODS OF PROCUREMENT

Procurement From Federal Prison Industries and the Products of the Blind and Other Severely Handicapped

This amendment involves matters relating to agency management and contracting and while not subject by law to the notice and public procedure requirements for rule making under 5 U.S.C. 553 is subject to the Secretary's Statement of Policy (36 FR 13804). The Amendment corrects or clarifies existing policy and embodies already existing Government-wide policy. No useful purpose would be served by public participation, and it is found upon good cause, in accordance with the Secretary's Policy Statement that notice and other public procedures with respect to the imendment are impracticable and unnecessary.

V401H8 JAN 27 75 XUM

1. The Table of Contents of Part 4–5 is amended as follows:

a. The following Subpart is added:

Subpart 4–5.4—Procurement of Prison-Made Products

b. The following section is added to Subpart 4–5.4:

§ 4–5.408 Clearances

c. Subparts 4–5.51—Federal Prison Industries, and 4–5.56—National Industries for the Blind are deleted.

2. The following Subpart 4–5.4 is added to Part 4–5:

Subpart 4–5.4—Procurement of Prison-Made Products

§ 4–5.408 Clearances.

(a) Clearances are granted by Federal Prison Industries for limited periods. Decisions to request renewal of a clearance should be considered carefully to assure that the circumstances requiring clearance still exist.

(b) Supplies purchased from other sources as a result of clearances from Federal Prison Industries must be identical with the description of the supplies cleared in all material respects, e.g., material width, thickness, strength, performance characteristics, etc.

Subpart 4–5.51 [Deleted]

Subpart § 4–5.56 [Deleted]

3. Subparts 4–5.51 and 4–5.56 are deleted from Part 4–5.

Effective date. January 27, 1975.

(5 U.S.C. 301, 40 U.S.C. 486(c)).

Done at Washington, D.C., this 21st Day of January, 1975.

GEORGE C. KNAPP,
Acting Director,
Office of Operations.

[FR Doc.75-2307 Filed 1-24-75;8:45 am]

Transfer of Material

CROSS REFERENCE: For a document transferring material from 41 CFR Ch. 5 to 41 CFR Ch. 5A, see FR Doc. 75–2353, *infra.*

PART 5–60—CONTRACT APPEALS

Cancellation of Part

Correction

In FR Doc. 75–1703 appearing at page 3291 in the issue for Tuesday, January 21, 1975, and cross-referenced on the same page, Chapter 5 of Title 41 of the Code of Federal Regulations was cancelled in error. Paragraph 2. of FR Doc. 75–1703 should be corrected to show that only Part 5–60 of 41 CFR Chapter 5 is cancelled and should read as follows:

2. *Cancellation.* Part 5–60 of 41 CFR Chapter 5 is cancelled.

The cross reference appearing immediately above FR Doc. 75–1703 should be corrected accordingly.

CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

MISCELLANEOUS AMENDMENTS

Specifications and Standards

This change to the General Services Administration Procurement Regulations (GSPR) updates and transfers material regarding specifications, standards, and purchase descriptions from Chapter 5, GSPR (41 CFR Ch. 5), to Chapter 5A, GSPR (41 CFR Ch. 5A), and updates related portions of Chapter 5A, GSPR (41 CFR Part 5A).

PART 5A–1—GENERAL

The table of contents for Part 5A–1 is amended to revise § 5A–1.305–70 and to add new entries as follows:

5A–1.305–2 Exceptions to mandatory use of Federal Specifications.
5A–1.305–3 Deviations from Federal Specifications.
5A–1.305–6 Military and departmental specifications.
5A–1.305–70 Processing waivers and deviations.
5A–1.307–6 Invitations for bids, "band name or equal" descriptions.

Subpart 5A–1.3—General Policies

§ 5A–1.305 [Amended]

1. Section 5A–1.305 is amended by deleting the text and retaining the number and captions as § 5A–1.305 *Specifications.*

2. Sections 5A–1.305–2, 5A–1.305–3 and 5A–1.305–6 are added as follows:

§ 5A–1.305–2 Exceptions to mandatory use of Federal specifications.

(a) Pursuant to § 1–1.305–2(f), when an Interim Federal Specification exists for a specific item which is also described in a Federal Specification, procuring activities shall use the Interim Federal Specification in lieu of the Federal Specification upon determination that the Interim Federal Specification is more suitable for the specific application. In the absence of a Federal Specification, an Interim Federal Specification, if any, shall be used.

(b) If a procuring activity finds that an Interim Federal Specification is not suitable for use, or that changes are desirable, the appropriate branch chief (or Division Director, FMA) in the Office of Standards and Quality Control shall be so notified. The reasons why the specification is considered unsuitable and any recommendations for changes shall be submitted on GSA Form 2967; Request for Specification and/or Purchase Description Action, in an original and one copy.

§ 5A–1.305–3 Deviations from Federal specifications.

Any deviation from the requirements in a Federal or Interim Federal Specification contemplated under § 1–1.305–3 shall be submitted to the appropriate branch chief (or Division Director, FMA) in the Office of Standards and Quality Control for approval prior to use in a solicitation or contract modification. The request shall include a statement describing the deviation, with justification therefor, and, when appropriate, a recommendation for revision or amendment to the specification. (For procedures applicable to the processing and approval of requests for waivers of specification requirements in connection with the acceptance of nonconforming supplies or services, see § 5A–14.206.)

§ 5A–1.305–6 Military and departmental specifications.

In the absence of a Federal or Interim Federal Specification, military and departmental specifications shall be considered. The contracting officer shall select the most appropriate specification with the advice and assistance of technical personnel.

3. Section 5A–1.305–50 is revised as follows:

§ 5A–1.305–50 Use and availability of specifications and standards.

(a) Formal specifications and standards shall be incorporated by reference in solicitations for offers. The reference shall fully identify the specification or standard by the series printed thereon, i.e. Federal, military, or departmental (e.g., Forest Service), followed by the number and date. (The specification number includes the revision indicator.) Amendments shall be separately identified, e.g., Federal Specification PPP–B–636G, dated February 17, 1972, and Interim Amendment 1, dated August 30, 1972.

(b) Canceled or superseded specifications or standards shall not be used.

(c) When formal specifications or standards are referenced in the solicitation for offers, the following clause (included in GSA Form 1424) shall be included in the solicitation:

COPIES OF GOVERNMENT SPECIFICATIONS AND STANDARDS

The Government specification(s) or standard(s), if any, applicable to each article is stated in the Solicitation for Offers in connection with the general description of the article. A single copy of the referenced Federal or Interim Federal Specification or Standard is available without charge from the General Services Administration Business Service Centers in Boston; New York; Atlanta; Chicago; Kansas City, MO; Ft. Worth; Denver; San Francisco; Los Angeles; and Seattle; or from Specification Sales, GSA, Bldg. 197, Washington Navy Yard, Washington, DC 20407. Additional copies may be purchased from the Specification Sales Office, Washington, DC. Military Specifications, Standards, and Qualified Products Lists may be obtained from Commanding Officer, Naval Publications and Forms Center, 5801 Tabor Avenue, Philadelphia, PA 19120. If other specifications or standards are applicable, the Solicitation for Offers will state where copies of such specifications may be obtained.

(d) In formally advertised procurements, when the contracting officer discovers prior to the time set for the opening of bids that a specification has been improperly cited (e.g., revision indicator not compatible with date) resulting in an ambiguity concerning the intended specification, the solicitation shall be amended in accordance with § 1–2.207. If the current version of a specification has not been cited (e.g., basic specification cited correctly, but latest interim amendment not shown), the solicitation shall be amended if such action will serve the Government's best interest.

(1) If such a discovery is made after bid opening, but prior to award, the bids should not be rejected and the solicitation canceled unless it is determined that cancellation is in the best interest of the Government. For example, cancellation may be in the best interest of the Government when the supplies to be furnished under the cited specification would differ significantly from the Government's current actual requirements or where bidders may have been misled as to the actual specification intended.

(2) When the discovery is not made until after award, the contractor shall be required to comply with the cited specification unless the supplies furnished thereunder would be unsatisfactory to the Government. In such case, the contract may be modified by mutual agreement or by change order, *provided, however,* That such modification would not change the design, construction, and cost, of the item to the extent that it would be unfair to deprive other suppliers of the opportunity to submit offers under the revised specification. If the contracting officer determines that it would be in the best interest of the Government to do so, the contract shall be cancelled and new offers solicited.

(e) In negotiated procurements, discoveries made either before the closing date for the receipt of proposals or after award, shall be handled in accordance with the procedure provided in § 5A–1.305–50(d) for discoveries made either before the time set for the opening of bids or after award, respectively. When discovery is made after the closing date for receipt of proposals but prior to award, and it is determined that award on the basis of the cited specification would not be in the best interest of the Government, negotiations on the basis of the specification which should have been cited in the request shall be conducted with offerors as provided in § 1–3.805–1(d), or the request shall be canceled.

4. Section 5A–1.305–70 is revised as follows:

§ 5A–1.305–70 Processing waivers and deviations.

(a) Section 101–26.100–2 of the Federal Property Management Regulations (FPMR) sets forth instructions to agencies regarding the submission of requests for waivers, and provides that such requests shall be submitted to the Commissioner, Federal Supply Service, for approval or disapproval. The Commissioner, FSS, has delegated to the Assistant Commissioner, Office of Standards and Quality Control (FM), the authority to approve or disapprove agency requests for waivers.

(b) In processing agency requests for waivers, the Office of Standards and Quality Control will coordinate with the Office of Procurement or the regional procuremnt division having procurement responsibility for the category of items involved, and any other interested FSS organizational element.

(c) A copy of the FSS letter in response to the agency request will be forwarded to the Customer Market Research Branch, FFMR. That activity will review waiver actions on a continuing basis and identify any items having substantial value and recurrent demand that should be included in the supply system.

(d) Normally, when an agency submits a request for a waiver it intends to purchase the proposed item through its own procurement office. Occasionally, an agency may submit a waiver request and at the same time (or subsequent to approval of the waiver) request FSS to make the procurement. When the agency submits a purchase request to FSS, the contracting officer shall determine if an item in the GSA supply system will fulfill the end-use purpose of the item requested to be procured and, if such an item is available in the GSA supply system, the agency should be contacted to determine whether it will satisfy the agency's needs. If the agency is unwilling to accept a GSA item as a substitute for the requested item, the procurement activity shall coordinate with the Office of Standards and Quality Control which will determine whether procurement of the proposed item is justified. If the purchase request is for a particular make, model, or brand of item, the justification submitted by the agency must meet the requirements of FPMR 101–26.105(b).

(e) With respect to maintenance, repair, and rehabilitation of equipment, FPMR 101–42.102–1(b) states that when an agency determines that services available from an existing term contract price schedule will not fill its required needs, a request to waive the requirement shall be submitted to the GSA regional FSS office administering the contract. Such request shall specify the quantities involved, describe the difference between the services required and those listed in the price schedule, and give reasons why the service will not meet requirements. Waivers are not required in the case of public exigencies.

5. Section 5A–1.306 is revised as follows:

§ 5A–1.306 Standards.

The provisions of §§ 5A–1.305–2 and 5A–1.305–3 relating to the mandatory use of Federal Specifications and the processing of requests for deviations from Federal Specifications are also applicable to Federal Standards.

6. Section 5A–1.307–1 is revised as follows:

§ 5A–1.307–1 Applicability.

(a) When it has been determined in accordance with § 1–1.307–1(b) that only a particular brand name product has features which are essential to the Government's requirements, the purchase description shall specify the brand name of the product without adding the words "or equal." In such cases, the procurement should be made by negotiation (see also paragraphs (1), (2), and (13) of § 1–3.210(a)).

(b) Repeated use of the same purchase description indicates that consideration should be given to developing a specification. In such cases, procurement activities shall prepare and forward an original and duplicate of GSA Form 2967, request for Specification and/or Purchase Description Action, to the Specification Management Staff, FMR. The recommendation should be supported by annual purchase statistics and any other pertinent data. The Office of Standards and Quality Control will obtain a detailed description of the item from the manufacturer(s) of products known to be acceptable and will coordinate with registered users to develop a specification when demand for the item warrants such action. A completed copy of GSA Form 2967 will be returned to the procurement activity originating the request.

7. Section 5A–1.307–4 is amended by revising paragraph (a) as follows:

§ 5A–1.307–4 Brand name products or equal.

(a) *Referencing of brand name products.* Brand name or equal purchase descriptions shall reference all brand name products known to be acceptable and of current manufacture. Where the use of a brand name or equal purchase description results in the purchase of an acceptable brand name product which was not referenced in the description (an "equal" product), a reference to that brand name product should be included in the purchase description for subsequent procurements. Where it is found that a referenced brand name product is no longer applicable, the reference thereto shall be deleted from the purchase description. Information regarding such additions and deletions coming to the attention of procurement personnel shall be immediately communicated to the appropriate Branch Chief (or Division Director, FMA) in the Office of Standards and Quality Control for formal revision of the purchase description.

• • • • • •

8. Section 5A–1.307–5 is amended by revising paragraph (b) as follows:

§ 5A–1.307–5 Limitations on use of "brand name or equal" purchase descriptions.

• • • • • •

(b) *Approval required.* A "brand name or equal" purchase description shall not be used unless it has been approved by the Office of Standards and Quality Control, with the following exceptions:

(1) Purchase descriptions applicable to Forest Service items shall be approved in accordance with § 5A–72.106–2.

(2) Purchase descriptions covering Veterans Administration items shall be approved by the Director, Supply Service, Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420.

(3) Purchase descriptions applicable to (i) public exigency procurements of

V40I18 JAN27 75 XUM

nonstock items, or (ii) other procurements valued at $5,000 or less, may be approved by the Director of the Procurement Division.

9. Section 5A–1.307–6 is added as follows:

§ 5A–1.307–6 Invitations for bids, "brand name or equal" descriptions.

The entries prescribed in § 1–1.307–6 shall be prominently inserted in the item listing after each item or component part of an end item to which a "brand name or equal" purchase description applies. In addition, because bidders frequently overlook the requirements of Clause 24 of GSA Form 1424, the following cautionary note shall be inserted in the item listing after each "brand name or equal" item (or component part), or at the bottom of each page listing several "brand name or equal" items, or in a manner which may be otherwise considered appropriate to direct the bidder's attention to this important clause of GSA Form 1424:

BIDDERS OFFERING OTHER THAN BRAND NAME ITEMS IDENTIFIED HEREIN SHOULD FURNISH WITH THEIR BIDS ADEQUATE INFORMATION TO ASSURE THAT DETERMINATION CAN BE MADE AS TO EQUALITY OF THE PRODUCT(S) OFFERED (SEE CLAUSE 24 OF GSA FORM 1424).

PART 5A–16—PROCUREMENT FORMS

The table of contents for Part 5A–16 is amended to add the following new entry:

5A–16.950–2967 GSA Form 2967, Request for Specification and/or Purchase Description Action.

NOTE: A copy of the form illustrated in § 5A–16.950–2967 is filed with the original document.

PART 5A–72—REGULAR PURCHASE PROGRAMS OTHER THAN FEDERAL SUPPLY SCHEDULE

Subpart 5A–72.1—Procurement of Stock Items

1. Sections 5A–72.101 through 5A–72.103 are revised as follows:

§ 5A–72.101 General.

Stock items, excepting those available from Government sources of supply (see Subpart 5A–5.50), shall be procured in accordance with this subpart.

§ 5A–72.102 Specifications.

To facilitate procurement and inspection, and to maintain uniformity and established quality standards of stock items, only authorized stock item purchase descriptions as contained in GSA Form 419A, SIPD Data Transmittal Sheet, issued by the Office of Standards and Quality Control, or specifications/purchase descriptions prepared by the U.S. Forest Service and used by Region 8 to purchase special fire-control equipment and supplies, shall be used in describing stock items, except under the circumstances indicated in § 5A–72.103.

§ 5A–72.103 Exceptions to Use of Authorized Stock Item Purchase Descriptions.

(a) Procurement Division Directors may authorize exceptions from the requirement for use of item purchase descriptions (IPD) for stock items when the purchase value is $5,000 or less, provided the product(s) to be purchased are known to meet the applicable specifications or, if not known, are good quality off-the-shelf products. (For interim stock replenishments see § 5A–72.105–29.)

(b) When item purchase descriptions (IPD) specifying Level B packaging and/or packing requirements are used for direct delivery procurements, these requirements may be modified by the contracting officer. The consignee shall be contacted to determine if Level C commercial packing is adequate. If direct deliveries are made under existing contracts, the packaging and packing requirements specified in the contract need not be modified.

2. Section 5A–72.104 is amended by revising the introductory text and paragraph (a).

§ 5A–72.104 Uniform firm stock price policy requirements.

Firm issue prices are established for stock items on the basis of average cost prices being paid by all GSA offices procuring the items and are published in the GSA Supply Catalog. The following procurement price factors and procedures are to be observed by all Federal Supply Service purchasing officers:

(a) Where current prices shown in the current edition of the GSA Supply Catalog are substantially lower than prices being offered, purchasing officers shall request information from other GSA offices procuring the item as to the names of other suppliers, in an effort to locate more satisfactory sources of supply.

* * * * *

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. These regulations are effective on the date shown below.

Dated: January 2, 1975.

M. J. TIMBERS,
Commissioner,
Federal Supply Service.

[FR Doc.75–2353 Filed 1–24–75;8:45 am]

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 205—GENERAL ADMINISTRATION—PUBLIC ASSISTANCE PROGRAMS

CFR Correction

In 45 CFR (Parts 200–499), revised as of October 1, 1974, § 205.102 was inadvertently omitted from page 19. The text of this section reads as follows:

§ 205.102 Separation of services from assistance payments.

(a) *State plan requirements.* A State plan under title I, IV–A, X, XIV or XVI of the Social Security Act must provide:

(1) For development of a plan for separation of services from assistance payments and for the establishment of a separated service system, which will accord with guidelines issued by the Social and Rehabilitation Service, and will be submitted no later than October 1, 1972, to the SRS Regional Commissioner for approval;

(2) For statewide operation of the approved separation plan no later than January 1, 1973; and

(3) For submittal of a progress report on the implementation of separation, no later than March 15, 1973.

(b) *Definitions.* (1) "Separation of services from assistance payments" means the administration and operation of the srevices function independently from the assistance payments function, with separate lines of authority for each function.

(i) In addition to the single State agency head, for both the services and the assistance payments functions, there may be a common head at the level of State supervision of local office operations and at the overall local administrative level.

(ii) There must be, at all levels, separate lines of authority and separate staff directly and exclusively responsible for services programs as distinguished from assistance payments programs. This includes all staff engaged in policy and program development supervision of local operation of service programs, and actual provision of services to clients.

(iii) There may be common or separate facilitating services at any State or local agency level, depending on the need.

(iv) In the case of a sparsely populated geographical area, upon justification by the State agency documenting a lack of administrative feasibility in assigning separate local staff for services and for assistance payments functions, the SRS Regional Commissioner may approve alternate arrangements, based upon criteria set forth in SRS guides, and designed to achieve the purposes of separation in such area to the maximum extent possible, and to provide reporting and cost allocation methods which will assure compliance with other Federal requirements and proper claims for Federal financial participation.

(2) The "services function" encompasses those activities included in the approved State plan and carried out by the agency, pursuant to Parts 220, 222, 223, and 226 of this chapter, in order to enable an individual or family, or groups of individuals or families, to overcome barriers to the achievement of their objectives and the goals of the public social services programs. It includes determination of eligibility for services of those individuals or families who are neither applicants for nor recipients of financial or medical assistance, and, under title IV–A, for those who can qualify under § 220.52(a)(3)(iii) or (iv) of this chapter.

(3) The "assistance payments function" encompasses all activities and payments for basic maintenance, i.e., furnishing the income to which an individual or family is entitled under the approved State plans for meeting day-to-day ongoing living costs and special needs. It includes the complete process of determining initial and continuing eligibility for financial and medical assistance and for commodities distribution or food stamps. It also includes maintaining the case in assistance payment or certification status.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19622; FCC 75–67]

PART 73—RADIO BROADCAST SERVICES

Prime Time Access Rule; Second Report and Order

In the matter of consideration of the operation of, and possible changes in, the prime time access rule, § 73.658(k) of the Commission's rules.

1. In this Second Report and Order, the Commission decides the form of the "prime time access rule" (§ 73.658(k) of the Commission's rules). The substance of the various provisions of the rule, to be effective in September 1975, is set forth in the next paragraph; it will be noted that it is similar to "PTAR I", the original rule adopted in 1970, except for certain exemptions which largely represent waivers regularly granted under that rule, new provisions as to use of feature film, and an exemption for network or off-network programming which is: (1) Programming designed for children; (2) public affairs programs; or (3) documentary programs. In paragraph 62, below, we discuss the future of the rule. Also, in paragraph 60, below, we set forth our view, that the public interest requires stations subject to the rule to devote a substantial proportion of prime time to programming of particular local significance.[1]

2. In substance, the provisions of the new rule, effective September 8, 1975, are as follows:

(a) Network-owned or affiliated stations in the 50 largest markets (in terms of prime time audience for all stations in the market) may present no more than three hours of network or off-network programs (including movies previously shown on a network) during the hours of prime time (7–11 p.m. E.T. and P.T., 6–10 p.m. C.T. and M.T.).

(b) Certain categories of network and off-network programming are not to be counted toward the three hour limitation; these are generally:

Network or off-network programs designed for children, public affairs programs or documentary programs.

Special news programs dealing with fast-braking news events, on-the-spot coverage of news events or other material related to this coverage, and political broadcasts by or on behalf of legally qualified candidates for public office.

Regular half-hour network news programs when immediately adjacent to a full hour of locally produced news or public affairs programming.

Runovers of live network coverage of sports events, where the event has been reasonably scheduled to conclude before prime time.

For stations in the Mountain and Pacific time zones, when network prime time programming consists of a sports or other live program broadcast simultaneously throughout the United States, these stations may schedule programming as though the live network broadcast occupies no more of their prime time than that of stations in the other time zones.

Broadcasts of international sports events (such as the Olympics), New York's Day college football games, or other network programming of a special nature (except other sports or motion pictures) when the network devotes all of its evening programming time, except for brief "fill" material, to the same programming.

(c) Another provision includes definitions of the terms "programs designed for children" and "documentary programs".

I. BACKGROUND AND DESCRIPTION OF COMMENTS.[2]

3. The prime time access rule, § 73.658(k) of the Commission's rules, was originally adopted in May 1970, and, with some modifications adopted later that year, went into effect October 1, 1971, as far as the basic restriction on prime-time network programming was concerned. The restriction on use of off-network and feature film material during the time cleared of network programs went into effect October 1, 1972.[3] This rule, "PTAR I", provides that stations (network-owned or network-affiliated) in the 50 largest U.S. television markets may not carry more than three hours of network programs each evening during the four prime time hours (7–11 p.m. E.T. and P.T., 6–10 p.m. C.T. and M.T.); and that the one hour thus cleared of network programs may not be filled with off-network material or feature films shown by a station in the market within the previous two years. The rule contains an exemption for network programs which are "special news programs dealing with fast-breaking news events, on-the-spot coverage of news events and political broadcasts by legally qualified candidates for public office." The May 1970 decision also contemplated waivers of the rule generally in two other types of situations, which have been granted since: (1) where stations carry a full hour of local news or local public affairs material immediately before prime time, and wish to carry a half-hour of network news at the beginning of prime time without its counting toward the permissible three hours;[4] and (2) sports runovers, where a network telecast of a sports event normally would conclude within the allotted time but possibly may not. This matter arises chiefly with late-afternoon sports events scheduled to last until 7 p.m. E.T., but also sometimes occurs with respect to evening sports events. While not specifically mentioned in the decision adopting the rule, there has also been in effect since 1971 a waiver for one-time network news and public affairs programs, those not part of a regular series. Waivers have been granted since early 1972 for particular off-network programs (Wild Kingdom, National Geographic, etc.). There have also been waivers to take into account time zone differences. In a few cases, where requested by individual stations, waivers have been granted to permit use of 3½ hours of network or off-network material in one evening if accompanied by a reduction in such material on a later night soon after.

4. While not required by the terms of the rule, two other developments have occurred. First as far as network origination of programs is concerned, the time cleared of network programs has been the first hour of prime time, or 7–8 p.m. E.T., Monday through Saturday. On Sunday, CBS and NBC have run from 7:30 to 10:30, leaving 7–7:30 and 10:30–11 as cleared time; ABC has alternated between that schedule and 8–11 p.m. Second, while the rule applies only to the top 50 markets, as a matter of business judgment, the networks decided not to present more prime time programming on affiliated stations below the top 50 markets. Therefore, the rule has led to an across-the-board reduction in network schedules, from 3½ hours on weekdays and 4 hours on Sunday before the rule (25 hours total) to 3 hours a night (21 hours total).[5]

5. Because of complaints about the rule's effects and the filing of three peti-

[1] We do not consider at this time, nor discuss further herein, the "anti-multiple exposure" rule proposed by Sandy Frank Program Sales, Inc., a syndicator, under which no more than one program of the same series could be broadcast each week during access time by a station subject to the rule. Such a rule, which if adopted would mean considerable change in the operation of many stations, is outside the scope of this proceeding.

[2] For a longer discussion of the background of this matter, see the January 1974 decision in Docket 19622, modifying the rule, pars. 4–25, 44 FCC 2d 1081, 1082–1092.

[3] See Report and Order in Docket 12782 (May 1970), 23 FCC 2d 382, and decision on reconsideration (August 1970) generally affirming but making some minor changes, 25 FCC 2d 318.

[4] This principle was extended in a few cases in 1973 to permit carriage of the ABC Reasoner Report program at 7 p.m. e.s.t. without counting toward the permissible three hours, where it is both preceded and followed by a half-hour local program, one of which is public affairs.

[5] ABC presented four hours of programming on Sundays in late 1970, but early in 1971 cut its Sunday programming back to three hours.

V40N18 JAN 27 75 XUM

tions seeking its repeal, the Commission instituted the present inquiry and rule-making proceeding, Docket 19622, on October 26, 1972. This was designed to explore the rule's operation and consider changes in, or repeal of, the rule. Comments in response to the Notice of Inquiry and of Proposed Rule Making[4] were filed early in 1973, and two days of oral argument was held in July 1973 (with additional written submissions). A total of 59 parties filed initial and/or reply comments or participated in oral argument, including independent producers, distributors and their association strongly supporting the rule; major film producers and other independent producers urging repeal; the three networks; labor organizations (opposing the rule); three "public" groups supporting the rule; station licensees on both sides; and various other parties.

6. On January 23, 1974, a Report and Order was issued, making certain changes in the rule to be effective in September 1974.[5] All restrictions were removed from Sundays and from the first half-hour of prime time (7–7:30 E.T., etc.). One of the remaining six 7:30–8 p.m. half-hours could be used for network or off-network material of certain types—children's specials, public affairs or documentary programming ("documentary" was defined to include programs which are educational and informational and non-fictionary, but not where the information is part of a contest among participants). Finally, feature films were barred entirely from access time periods. Following this decision, the networks made plans to use the additional time made available to them. All three networks planned to present four hours on Sundays; NBC planned one-hour shows on 44 Saturdays mostly of a news-magazine type; CBS planned 44 half-hour programs at 7:30 on Saturdays, generally children's programming; and ABC planned only 6 to 12 one-hour news documentaries or children's programs on Saturdays. Thus, under these plans, all of Sunday prime time would be occupied by network programs, and, on an annual basis, about half of the Saturday hour previously cleared.[6]

[4] Notice of Inquiry and Notice of Proposed Rule-Making in Docket 19622, FCC 72–957, adopted October 26 and released October 30, 1972, 37 FR 23349, 37 FCC 2d 900.

[5] Report and Order in Docket 19622, FCC 74–80, adopted January 23 and released February 6, 1974, 44 FCC 2d 1081.

[6] It appears that the expansion of network time by an hour each on Sundays would have resulted in six additional situation comedies (although the new programs would not necessarily have been all on Sundays since there was to be some rearrangement of schedules). As to NBC's planned use of an hour on most Saturdays, strong opposition to this was expressed by NBC affiliates in May, and it was not at all certain as of early June that this planned programming would have been presented had the rule remained in effect, or that affiliates generally would have cleared it if it had been carried on the network.

7. The National Association of Independent Television Producers and Distributors (NAITPD), one of the most vigorous proponents of the original rule, sought judicial review of this decision, appealing to the U.S. Court of Appeals for the Second Circuit which had affirmed the original rule in May 1971.[7] In connection with its appeal, NAITPD sought a stay of the changes for a year, or until September 1975, claiming that the period of 7–8 months allowed was too short a time for independent producers to adjust to "PTAR II". This stay request was denied by us and also by the Court, but the Court set an expedited schedule and on June 18, 1974, issued a decision. The decision (NAITPD et al v. FCC)[8] did not rule on the merits of our January changes or the contentions of the appellants on both sides (NAITPD et al. urging a return to the original rule, some major film producers and independent producers urging repeal). Rather, it held that the Commission had acted too precipitously in making the changes effective this fall, particularly since, when the original rule was adopted in May 1970, the networks were given some 16 months grace before the effective date in the fall of 1971. The Court enjoined us from putting the changes into effect before September 1975, and remanded the matter to us to determine what the effective date should be.

8. While the Court did not rule on the substance of the changes, it did indicate some areas where it believed further Commission inquiry would be appropriate. It is suggested that we get the views of public groups—consumer groups, minority groups, etc.—particularly concerning the effect of the rule on television advertising in prime time,[9] and the impact of the rule on programming for minorities. It was also suggested that playwrights and actors could offer views as to the effect of the rule on their professions. Aside from this broader input, the Court also expressed the desire for more definite statements concerning three matters: the argument that the rule works to increase, rather than diminish, network dominance; the effect of the rule on competition, as to which we were urged to get the views of the Justice Department; and the question of economic impact on Hollywood, the argument being that the rule, by reducing the amount of prime time available for network programs, has a serious impact on the U.S. program production industry and employment in it.

[7] Mt. Mansfield Television, Inc. v. FCC, 442 F. 2d 470 (C.A. 2, May 1971).

[8] National Association of Independent Television Producers and Distributors et al. v. FCC and U.S. 502 F. 2d 249 (U.S.C.A. 2, decided June 18, 1974).

[9] The Court noted the two sides of this question urged by opponents and proponents of the rule respectively: that the rule has increased the number of commercials in access time, and that this development is offset by increased opportunity for local advertisers.

9. In light of these Court observations, we issued on July 9, 1974, a Further Notice Inviting Comments in this proceeding (FCC 74–756, released July 17, 1974, 39 FR 26918). We invited comments from parties on the six points mentioned by the Court, and from consumer groups, minority groups, and the public on these points as well as concerning the rule generally. The question of the appropriate effective date was also raised. Shortly after issuance of the Further Notice, the Commission's Office of Network Study directed letters to numerous consumer and minority groups, as well as labor and guild organizations, specifically inviting their comments. Most of these responded, as did numerous other organizations.[10] Comments and reply comments in response to this Further Notice were due by September 20 and October 10, respectively (though a number of parties, particularly public groups, filed late).

10. *Description of comments in response to the Further Notice.* A total of 43 formal and informal initial comments were filed in response to the Further Notice. Of these, 17 were from public groups, all but one of them supporting the original rule and opposing the January PTAR II modifications. They also opposed waivers or any other relaxations, and also suggested additional regulatory requirements. The Department of Justice also supported the original rule. The Office of Telecommunications Policy (OTP) urged repeal of the rule entirely. Of 24 comments from private parties, 9 urged return to the original rule—NAITPD; ABC (although not viewing the PTAR II compromise as unsatisfactory); Westinghouse Broadcasting Company, Inc. (Westinghouse); Station Representatives Association (SRA); program suppliers Sandy Frank, Time-Life Films, Inc., and Viacom International, Inc.; and TV licensees Leake TV, Inc. (Little Rock and Tulsa), and Wometco Enterprises, Inc. (comments relating chiefly to Miami). Ten (10) comments from private parties urged repeal of the rule—three from six major film companies (Warner Bros. Television-United Artists-MGM Television, MCA Inc.-20th Century Fox, and Columbia Pictures Television); CBS; National Committee of Independent Television Producers (NCITP); Screen Actors Guild, Hollywood Film Council and Writers Guild of America (West) in joint comments; Authors League of America, Inc.; and licensees Metromedia, Inc. (Chiefly independent stations in New York, Washington, Los Angeles, etc.), KOOL Radio Television (KOOL–TV, Phoenix) and Newhouse Broadcasting Corp. (comments relating chiefly to Syracuse). NBC supported the PTAR II compromise. Four other parties took no position as to the basic rule. The

[10] The groups contacted by letter from whom no response was received (directly or through another affiliated organization) were the Consumers Federation of America, National Association for Better Broadcasting, Asian Americans for Fair Media, and the National Council of Senior Citizens.

latter were Motion Picture Association of America, Inc. (MPAA, urging repeal of the feature-film ban), Association of Independent Television Stations, Inc. (INTV, specifically taking no position because of a split among its members); the Wolper Organization, Inc. (urging further consideration of its proposal for an exemption for "educational value" programming); and Bill Burrud Productions, Inc. (seeking definition and clarification as to the status of off-foreign network material under the off-network restriction).

11. Fourteen reply comments were filed, including 9 by parties who had filed earlier comments, and five new parties. The new filings included Post-Newsweek Stations, Inc. (Washington, Miami, Hartford and Jacksonville), and four public groups—the American Civil Liberties Union (which had participated in the proceeding in 1973) and public groups in the St. Louis and San Francisco Bay areas and in Alabama. All of the new parties supported the original rule. The 5 comments from new parties are in large part not proper reply material, being original statements of position rather than an answer to something filed in initial comments. This is not entirely true of the ACLU and Post-Newsweek comments, and the other three are, for the purposes of this decision, cumulative of earlier material filed by public groups. The comments listed are considered herein.[12] Parties filing comments and reply comments are listed in Appendix B.[12a]

12. *Changes in position.* A few parties participating in the proceeding at this stage have changed position from their earlier views. INTV, the independent station association, and Metromedia, formerly strong supporters of PTAR I, now either take no position or urge repeal. Metromedia claims that the rule works to the detriment of independent stations because of more sophisticated techniques used by affiliated stations in selling access-period advertising. Leake TV's position supporting the rule (because of successful hour-long news operations on weekdays) is a reversal of its earlier stand. Post-Newsweek's support for the rule is to some extent a departure from its oral argument position supporting the basic network restriction, but urging repeal of the off-network limitation. NBC's position favoring PTAR II, and (in reply comments) vigorously opposing the majors' argument for repeal, is roughly the same as its oral argument position expressing support for the rule in the interest of certainty and an end to controversy. This position, however, is completely at odds with its original position, as one of the 1972 petitioners strongly urging repeal.[13] Otherwise, the parties have much the same positions as they had earlier. A detailed analysis of the comments mentioned appears in Appendix C.[14a]

[12] We do not consider herein, except to note the general position taken pro or con, material filed later than October 11, the due date for filing comments. This includes comments from the Office of Communication of the United Church of Christ (supporting the rule), some Urban League chapters filing informal comments to the same effect as Youngstown and Grand Rapids filings earlier, and supplemental material filed by Warner Bros. Television and other majors, and Sandy Frank.

[12a] Appendix B is filed with the original document.

II. Discussion and Conclusions

13. As stated at the outset, the Commission has decided to return to PTAR I, the original rule adopted in 1970, except for the codification of certain waiver practices which have grown up under it (sports runovers, network news following an hour of local news, time-zone differences, etc.), and except for network or off-network programming which is designed for children, public affairs or documentary programs, and different provisions as to feature films. Most paragraph references below are to Appendix C (C–3 etc.)

A. *Arguments of opponents of the rule.* 14. In evaluating the arguments of the majors and other opponents of the rule, it is important to bear in mind the rule's primary objectives: to lessen network dominance and free a portion of valuable prime time in which licensees of individual stations present programs in light of their own judgments as to what would be most responsive to the needs, interests and tastes of their communities. At the same time, the rule seeks to encourage alternative sources of programs not passing through the three-network funnel so that licensees would have more than a nominal choice of material. These are still valid objectives. It was also noted that this increased supply would be a concomitant benefit to independent stations; and "it may also be hoped that diversity of program ideas may be encouraged by removing the network funnel for this half-hour • • •". Thus, diversity of programming was a hope, rather than one of the primary objectives. It was emphasized that the Commission's intention is not to smooth the path for existing syndicators or encourage the production of any particular type of program; the "types and cost levels of programs which will develop must be the result of competition which will develop."[15]

15. As to the matter of network dominance, it is readily apparent that, as far as network control over station time is concerned, it is reduced by the requirement of cleared or access time, and that certain public advantages have resulted. These include, the local programming activities which have been stimulated, including those mentioned by the various minority and other citizens' groups filing herein (pars. C–3—C–5), and others such as those mentioned by Leake TV, Wometco in Miami, and Post-Newsweek stations (par. C–50), and others in Boston, Washington and other places. It may be that these programs in some cases would have been presented anyhow, and possibly at a reasonably desirable hour in prime or fringe time; but their presentation in high-audience hours is certainly facilitated by the rule, as Wometco, Urban League and the others point out. These showings afford tangible evidence of the benefits flowing from the rule.[16] The same applies to the presentation of syndicated programs which, in the licensees' judgment, have particular appeal to their stations' audiences, such as Lawrence Welk and Hee Haw after their cancellation on the networks. In sum, the rule in this respect has provided a significant public benefit, in freeing licensees to exercise their own programming judgments. Also of significance in this connection is the fact that affiliated stations are able to retain all of the revenues from access program time (less the amount they spend for programming, typically no more than 33 per cent according to earlier material herein)[17], compared to about 30 percent which they typically get from the networks for network time. Thus they have more money from which to support local programming efforts. We find it an important and valid consideration.

16. Also of considerable importance is the encouragement of a body of new syndicated programming, which independent stations may use as well as affiliated stations, by making prime time

[13] As to the other networks, ABC at all stages of this proceeding has been a strong supporter of the rule, although it states that it did not find the PTAR II compromise unacceptable to it. CBS urges ultimate repeal, as it has before, although it urges a delay before full repeal just as it did in oral argument (its position is now that PTAR II should be in effect for 1975–76, with full repeal effective in September 1976).

[14a] Appendix C is filed with the original document.

[15] See the May 1970 Report and Order in Docket 12782, pars. 23, 25–26, 23 FCC 2d 382, 395–397. The matter of local programming was also mentioned in a footnote as being in the public interest (23 FCC 2d 395, footnote 37).

[16] In the reply comments of Warner et al., it is claimed that the impetus to local programming cannot be used to justify the rule, since it was not essentially one of the reasons for its adoption. Three cases are cited in this connection: SEC v. Chenery Corp., 332 U.S. 194 (1947); Burlington Truck Lines v. U.S., 371 U.S. 156 (1962); and Columbia Broadcasting System, Inc. v. FCC, 454 F 2d 1018 (C.A.D.C. 1971). These cases do not support the concept claimed, since they deal with the extent to which a reviewing Court may consider matters not mentioned in the agency's decision but otherwise asserted, for example in its appellate brief or oral argument. In fact, the Chenery case cited (the second of these well-known decisions) basically stands for just the reverse. There, the Supreme Court affirmed an SEC decision which reached the same result as an earlier decision in the matter which the Court had reversed because it found it to be based on an invalid rationale. The Court approved the SEC's reaching the same result on further consideration for a different reason. It is clearly erroneous to claim that we cannot consider an obvious public-interest benefit from the rule even though it was not one of the main reasons for its adoption.

[17] See Report and Order in Docket 19622, January 1974, 44 FCC 2d 1081, 1111.

V40N18 JAN 27 75 XUM

available for its presentation. Such a body of programming has developed (see pars. C–29, C–49, C–55 and Appendix D).[37a] While the majors et al. urge that this is not of significance (being game shows, foreign imports or other network "retreads"), it is premature to make any final judgment at this time as to the character of this programming (assuming that such a judgment is ever appropriate). There has, of course, been a reduction in network programs, and thus no doubt in programs which could become off-network material; however, the later is rather speculative as to quantity, in view of the rather large number of current and recent network prime-time programs not lasting long enough to make a syndication package, and increased network use of movies, sports, etc. In any event, we conclude that it is definitely in the public interest to encourage the development of a body of new (not repeat) programs outside of the network process, and thus provide opportunity for the development of new program approaches and ideas.[38]

17. On balance, we conclude that the rule also has other benefits. These include the increased opportunity for nonnational advertisers as well as an optional outlet for national advertisers who may choose to use spot rather than network messages.[39] There is increased programming of a public service character presented by ABC as a result of its greater profitability under the rule (see par. C–50). Finally, there is the emergence of successful distributors who are able to finance their own and others' production of network and non-network programs, e.g., Worldvision and Viacom (see pars. C–28 and C–49(a)). As a result there is now an increased number of producers active in prime time. In light of the different views as to the present effect on independent stations, we do not attach significance at this time to the benefit to independent stations formerly claimed and still asserted by some parties.

18. *Diversity and other programming considerations.* We do not regard the various points urged by Warner et al., and other opponents as warranting repeal of the rule, or modification beyond that adopted herein. Of the 9 points mentioned by Warner (other than First Amendment arguments discussed below), the most significant are those relating to the character of access-period programming, since we must always keep foremost in mind the interest of the viewing public rather than the interests of private parties. We reject the argument concerning lack of diversity and quality, as a basis for action at this time beyond that taken herein, for a combination of reasons. First, we are persuaded that the rule has not yet been fully tested. An evaluation of its long-term potential cannot be made at this point, with respect to the kind of programming which is likely to develop with time and a more favorable climate. The uncertainties mentioned in par. C–49(b), have undoubtedly had a discouraging effect on investment in the development of programs other than those most easily produced and readily saleable. We note the failures mentioned by Warner, et al. (par. C–61); but it is arguable that a number of these resulted from various uncertainties, including the uncertainty as to the judicial affirmance of the rule until May 1971.[40] Also, we cannot agree with Warner, et al. that the first year afforded a test simply because, although the "off-network" and feature film restrictions were not in effect, only 23% of access time was occupied by such material. This, over 450 half-hours, when taken together with the amount of time then and now devoted to news and other long-established usages, could well have been a formidable obstacle, along with the other uncertainties just mentioned. Finally, we believe that the case for economic factors being an iron-clad, immutable obstacle to more elaborate programming efforts has not been made. See par. C–62, particularly NAITPD's filing, and the January 1974 decision herein, pars. 89–91,44 FCC 2d 1081, 1137–38. In sum, we do not think it is established that "nothing different is to be expected", given reasonable certainty as to the rule.

19. It is also to be noted that there is by no means a total lack of diversity, even though the emphasis is on game shows. There are a number of programs of other types, including animal shows and musical variety shows. Thus, the picture is not as monotonous as Warner's description might indicate, even looking at syndicated programming alone. See pars. C–51–52 and C–55, and Appendix D.

20. Perhaps more fundamental is the question of to what extent repeal or really substantial abridgement of the rule would be justified on the basis of a Commission evaluation of such matters. Action on a basis like this has the danger of reflecting the Commission's personal predilections and prejudices. A related question is, assuming such an inquiry is appropriate, what standards should be used, and whether they should be applied, in a sense, retroactively and without any public input into their formulation. For example, assuming that 65.6 percent of access entertainment time devoted to game shows is undesirable, what about 41.2 percent of network prime time devoted to crime-drama shows of various types? If we look at the concentration of game shows in certain markets such as Cincinnati or Albany, must we not look also at three network crime-drama shows opposite each other on Wednesdays at 10 p.m.?

21. We do regard it as important to provide greater opportunity for the presentation in access time of certain kinds of material which are to some extent inhibited by the rule. One of our objectives in so doing is to promote an increase in the range of fare available to the public at these times. Should the time come to review the rule again, it may well be that a continuing lack of diversity will be grounds for change; but we do not find it so now except as provided herein.

22. Warner et al. urge two other points concerning programming: the undesirability of use of foreign product, and underrepresentation in access programming of minority groups and women. As to the first, Warner claims that the rule discriminates against American producers and favors foreign producers, which is also urged by another producer, Bill Burrud. Our conclusions are basically the same as they were earlier; see January 1974 decision, pars. 98–99, 44 FCC 2d 1141. In light of the reduced role which foreign product plays in access programming this year as compared to earlier years under the rule, action to repeal or substantially abridge the rule on this basis is not warranted.[41] While it is regrettable that American producers face off-foreign-network competition, which comes in with a cost advantage, this is a situation which obtains elsewhere in our economy. As to the other point—alleged irrelevance of access-period programs from the standpoint of minority groups and women, and American social problems generally—this is much too speculative a matter to afford basis for action at this time, particularly in view of the impetus to local programming. See also pars. C–8 and C–42.

23. *Other arguments.* With respect to the argument concerning increased network dominance in the broad sense, the case for that proposition is not established in this proceeding. Network dominance is obviously reduced by the reduction in network prime time programming; and this reduction is only slightly lessened by the somewhat greater carriage of network programs during network prime time through decline in station preemptions and nonclearances. As indicated in par. C–22, station preemptions have generally been small in the past (nothing in the order of the amount of time involved in the rule), and they continue despite the clearance of time resulting from the rule;

[37a] Appendix D is filed with the original document.

[38] At the 1973 oral argument some NCITP members claimed that the networks exercise no creative control but are simply a conduit. Whether or not this is true with respect to the conception and actual production of a program, the networks obviously exercise a high degree of control in the real sense that they select the programs for network exhibition, according to their views of their needs at a particular time, and also control the continuation or cancellation of the program.

[39] We believe that this is not outweighed by programming (pars. C–11–12 and C–45–4). We note in this regard that most of the public groups did not express great concern about the commercial level of prime time access programming.

[40] See Report and Order in Docket 19622, 44 FCC 2d 1081, 1165, concerning Metromedia's Primus program.

[41] According to the majors' joint appendix, off-foreign network programming (the only foreign-produced material which probably should be considered in this connection) occupied 7.2 percent of access entertainment time in 1974–75, compared to 14.3 percent last year and 17.6 percent in 1972–73.

for ABC, the only data given, the decrease has been from 7.1 to 3.7 percent of U.S. TV homes for the average program. With respect to the role of network-owned stations in access program success (pars. C–23—C–26), while this is often quite important and sometimes vital, it is certainly not necessary for all programs. Some, including some of the most successful, have no owned-station exposure at all, and in other cases the sale to an O&O is on an individual basis, not representing any group purchase. The networks have a greater veto power over programs offered for network exhibition. As to the economic respects in which network control probably is increased, the relationships with national advertiser customers, and producer suppliers, the material set forth (pars. C–18, C–20–21) indicates that this increase in dominance is still an unresolved issue. As to relations with producers, the situation may well be an undesirable one, as indicated by the article noted in Appendix C; but it is not at all clear how much this results from the prime time access rule, or would be changed by repealing it.[42] If the number of unsold pilots is as great as Warner et al. claim, nearly 300, it does not appear that the expansion of network prime time by four hours a week per network would necessarily alter substantially the "leverage" situation. In any event, this particular situation is one which could be approached in other ways, such as the current Justice Department antitrust action (refiled December 10, 1974) or consideration of some restriction on network control and rental of production facilities. Moreover, as the proponents of the rule point out, both advertisers and producers have an alternative under the rule—access period programming—which they are free to use. For purposes of the prime time access rule, we conclude that network dominance is decreased, and that there is no warrant here for modifying it.

24. With respect to the impact on employment in the program production industry, on the basis of the facts presented herein (pars. C–33 and C–39–40 and related footnotes), we find nothing presented to us which could be considered relevant to our decision. What is claimed to be involved are some 3,570 fulltime jobs, with at least some of this loss attributed to the rule made up by increased station employment (up more than 1,000 at top-50-market affiliated stations from 1971 to 1973 according to ABC, and some of this is attributable to the rule). Additionally, there are gains in production of non-network programs as well as sales and similar activity. Bearing in mind also the uncertainties involved (such as the lack of comment from AFTRA, which represents many actors in taped shows), we conclude that it is not a relevant factor on the basis of what is before us.

[42] According to Daily Variety, December 3, 1974, conversations between CBS, NBC and their program suppliers are in progress on this subject. It would be improper to act to modify the rule on the basis of this situation when it is subject to change.

25. As to the more general subject of the well-being of Hollywood entities such as the major film companies and film producers (pars. C–38 and C–39), we do not find in these arguments reason to repeal or substantially abridge the rule. As has been pointed out many times, the problems of Hollywood are of long standing, having many causes, and it is unclear as to the extent the problems are attributable to the rule, or how much help repeal of the rule would afford. We agree with the proponents of the rule that it is not the responsibility of the Commission to return Hollywood companies to their buoyant health of pre-1948 days; and, as ABC points out, most of the majors are doing rather well and they always have the choice of producing for access time. It may be that the majors would benefit from repeal of the off-network restriction; but in our judgment that would clearly be inconsistent with the public interest in stimulating the development of new material, as well as having a tendency to reduce employment in program production even more. In sum, we do not find in these considerations anything of decisional significance in this proceeding.

26. The last argument in this area is the effect on creative persons—actors and playwrights referred to by the Court, and others such as producers, musicians, etc. (pars. C–36–37 and C–41). In this connection, there is an impact on the creative opportunities for some persons as the rule has operated so far, since there is less network programming of a dramatic or comedy nature which uses them, and very little from U.S. sources of the same type for access-period use. But in this respect, it is simply too early to evaluate the rule's long-term effect. Other categories of persons, such as musicians, may well have gained by virtue of the musical variety shows which occupy a certain amount of access time but which are almost totally absent from current network prime time. Playwrights appear not to be significantly affected by the rule one way or the other, since original drama has greatly diminished on network television over the years, and, as the Authors League points out, the rule has not resulted in any such material on stations. We do not find reason here to repeal the rule.

27. With respect to the last of the majors' points—the greater level of commercial activity in access-period programming—our views have been set forth in par. 17 and footnote 19 above.

B. *The Exemption for children's, public affairs and documentary programs; arguments of rule proponents.* 28. As mentioned above, we have decided to permit an exemption for "programs designed for children" and "public affairs programs or documentaries." The definition of children's programming is "programs primarily designed for children aged 2 through 12". The term documentary program is defined as "programs which are non-fictional and educational or informational, but not including programs where the information is used as part of a contest among participants in the program, and not including programs relating to the visual entertainment arts (stage, motion pictures or television) where more than 50% of the program is devoted to the presentation of entertainment material itself". It should be noted that the exemption is different from that in PTAR II in two respects: (1) it refers to "children's programming" without limiting it to children's "specials"; and (2) the definition of documentaries is designed to exclude (in addition to game shows) documentaries about the entertainment world more than half of which are devoted to showing entertainment material.[43]

29. We find that the prime time access rule has had the effect of inhibiting certain kinds of programming which we believe are entitled to special treatment so as to encourage their timely presentation in prime time. We believe that the importance of these kinds of programming outweighs any concern as to its source, whether locally produced, first-run syndicated, network or off-network, and that the public interest is better served by allowing children's programming, public affairs programs or documentaries to appear to some extent in cleared time regardless of their source, and that stations should not be prohibited from also presenting three hours of other network or off-network prime time programming. The viewing public has a right to these types of programming, and the prime time access rule, by its operation, has had the effect of limiting this right.

30. With respect to children's programs, it appears that a very small amount of such material is locally produced and carried in access time (programs in Boston and San Francisco were mentioned in the comments). A small number of syndicated programs (current or in earlier years under the rule) might also fall into this category, although we would not necessarily regard all programs so considered by some as falling within the scope of this exemption.[44] We have also recently granted waiver for a total of six off-network specials of this type. However, our concern here is with the numerous children's spe-

[43] This limitation on the exemption is designed to deal with a possible loophole—the presentation of substantial amounts of what is really regular entertainment programming in the form of a documentary concerning the entertainment industries. If a program of this sort is to be presented under the exemption, it must be at least 50 percent devoted to material other than the entertainment material itself.

[44] NAITPD in its January 1973 comments listed six syndicated programs as falling in the "children's" category—Black Beauty, Circus, Family Classics, Lassie, Mouse Factory and Story Theatre—with Wait Till Your Father Gets Home listed as Children's Variety. A number of these shows are no longer in production; the data in Appendix D shows only Family Classics and Mouse Factory carried in one market each, and Wait Till Your Father Gets Home in three. The newer Salty program, listed by some parties as a children's program, is carried in three markets, and Rainbow Sundae, a program produced by ABC-owned stations and described by ABC as a children's program, is carried in four markets.

V40118 JAN 27 75 XUM

cial programs presented by the networks, generally starting at 8 p.m. E.T. or later under the network schedules which have resulted from the rule, as well as with the potential for regular programming significant in this area. As noted in our January 1974 decision herein (44 FCC 2d 1081, 1134) and in par. C–16, the Commission has received numerous complaints[30] from parents, educators and others interested in children's matters, and sometimes from the children themselves, to the effect that this starting time is simply too late in relation to children's bedtime (except, perhaps, on Saturday). As emphasized in the recent policy statement concerning children's television (Docket 19142, FCC 74–1174, released November 6, 1974, pars. 26–27), the Commission wishes to encourage licensees to meet the needs of children with a variety of programming, especially at a time other than Saturday or Sunday morning. In order to foster such material, and avoid the problem mentioned with network broadcasts, we conclude that an exemption to permit access-period presentation of such material (in addition to the usual three hours of network material) should be granted, with respect to both network and off-network programs. As mentioned, we are extending this to regular as well as special programs, since they may be equally beneficial to the public. For example, we note the waiver request filed by Children's Television Workshop late in 1972, seeking permission for a CTW-produced regular network series at 7:30. Action on this was held in abeyance pending overall consideration of the rule in this proceeding, and it was not renewed (apparently because no agreement was reached with ABC, the network involved). See Children's Television Workshop, 40 FCC 2d 76 (March 1973).

31. It is our expectation that networks and licensees will not abuse this exception to the rule, particularly in access-period use of network or off-network programs which, while having some appeal to children, were or are not primarily designed for them but for viewing by adults, or adults and children, and for presentation of normal commercial advertising addressed to adults. The programming permitted by the exemption is intended to be only that primarily designed for pre-school and elementary school children, ages 2 to 12, taking into account their immaturity and special needs.[31] Also, while the exemption is not limited to educational or informational material, an important purpose of it is to promote the presentation of such material, whose importance we have recently emphasized in our Children's Television Report and Policy Statement (Docket 19142, FCC 74–1174, released October 31, 1974 39 FR 39396, pars. 16, 17, 18 and 22).

32. With respect to public affairs programming, this is not available in significant amount in new syndicated material, although of course there is a substantial amount of such programming produced locally and presented in access time, one of the important benefits of the rule as already mentioned (see par. 15, above and pars. C–5 and C–50). As to the networks, there is a substantial amount of public affairs programming (and similar news documentary material) in prime time on all three networks, but no regularly scheduled material,[32] whereas before the rule both CBS and NBC had regular prime-time programs of this nature, and it is also noted that some such network programming occurs outside of prime time. We conclude, therefore, that the rule constitutes an inhibition on the networks' exercise of this highly important part of their activities, fulfillment of part of their journalistic function to advise and inform the public concerning matters of public importance, and that this added benefit outweighs the impingement on access time. This exemption is a codification and extension of the existing waiver for one-time network news and public affairs programs which has been in effect throughout the rule's history. That exemption has not been used to an inordinate extent by the networks, and, as discussed below, we assume that this exemption also will not be utilized to effectively undercut the basic rule.[33]

33. Documentaries as defined herein also, of course, includes other programs, such as National Geographic and Jacques Cousteau specials and the America series, both network and off-network programs. In our January 1974 decision we noted the value of these programs (usually produced independent of network control) to the public, as well as the difficulties involved in getting network prime time for programs such as National Geographic under the rule, or of producing them for distribution in syndication. See Report and Order, pars. 66–67, 84: 44 FCC 2d 1127–1128, 1134–1135. We are still of the same view.[34] It is also recognized that, particularly as to use of off-network material, the exemption includes half-hour animal series, such as Wild Kingdom and Animal World, as well as a series of one-hour off-network outdoor specials for which a waiver request is pending (from the producer of the World of Survival series). We conclude that the exemption should be broad enough to include such material. When it comes to the off-network restriction, this is not related to network dominance directly, but is simply a restraint on licensee freedom of choice, designed to preserve the potential of cleared time availability for new non-network material. We conclude that preservation of this restraint is not warranted, when it comes to barring a station from using programs such as Wild Kingdom or Animal World (which were independently produced) in cleared time, instead of another program of the same or different type. In sum, in view of the obvious informational value of documentary programs, the benefit to the public from facilitating the presentation thereof outweighs in importance what might be termed an increase in network dominance (to the extent these are network programs) and an incursion into the full availability of 3 hours a night of cleared time for other new material. Here, as with public affairs and programs designed for children, the public interest is on the side of the programs, and not their place of origin. If licensees are better able to serve the needs and interests of their viewing public by presenting network or off-network public affairs and documentary programs, or are better able to serve the needs and interests of children, then we should remove the obstacles to this service which exist under the prime time access rule. Permitting this additional material into the access period will also serve to increase the diversity of fare available.

34. We expect the networks, and licensees in their acceptance of network programs and use of off-network material, to keep such programming to the minimum consistent with their programming judgments as to what will best serve the interests of the public generally.[35] We continue to attach high importance to

[30] In January 1974 Report and Order herein (par. 83, 44 FCC 2d 1134) it was stated that one criticism of the rule is that it has resulted in the total or partial disappearance of public affairs and related documentary material from prime time. The reference was intended to be to regular programming of this sort, as made clear later in the document, par. 101 (44 FCC 2d 1141).

While there are some regular public affairs programs in the early evening, such as ABC's Reasoner Report on Saturday and CBS programs on Sunday, we believe the rule has had the effect of limiting prime time presentations of this type of programming.

[31] In the networks' regular prime time schedules starting in January 1975, it appears that only NBC's Disney program would come within this exemption.

[32] *See Waivers of the Prime Time Access Rule for 1974–75 Broadcast Year*, FCC 74–974 (September 1974, pars. 15–16, 31 R.R. 2d 409, 417).

[33] We note in this connection that while the Cousteau series is on ABC in prime time this year, there will be no National Geographic specials. Their absence (which has been the subject of numerous letters of complaint from the public) is probably not directly attributable to the rule itself (since such programs have been shown on networks during the previous three years) but relates rather to the timing of the Court's decision in relation to the 1974–75 season. However, this does illustrate the problems involved in contraction of network prime time.

[34] Thus, the stripping of off-network material on the theory that it is a program designed for children or a documentary program, would not be regarded as consistent with the spirit or objectives of the rule.

the rule as a limit on network dominance over station time, and as a means of opening up substantial amounts of prime time to sources of new non-network programming, be they producers and distributors for syndication, or local sources. We attach particular importance to the programming opportunities available on Saturday in the access time period. We do so because of the significance of existing local programming efforts in this time period, and the fact that this time offers the most significant opportunity for hour-long access programs. We caution networks to avoid any incursion into this period unless there are compelling public interest reasons for so doing. If there are extensive deviations from these precepts, the exemption may have to be re-visited.

35. In acting herein to permit an increase of network programming of certain types, we are only opening up an option for licensees to use such additional network material if, in light of their programming judgments as licensee-trustees meeting the needs, tastes, interests and problems of their coverage areas, they deem it appropriate to do so. Our purpose is to make available to licensees programming which, to some extent, was removed from prime time or caused to be run at a much later hour. There is intended no requirement, or even a suggestion, that such additional network programming should be carried in order for a licensee to carry out properly his programming obligations.[36]

36. *Arguments of proponents of the rule.* In light of the foregoing, we turn to the arguments advanced by the proponents of PTAR I, including the numerous citizens groups (pars. C–4—C–14) and NAITPD Frank, Westinghouse, ABC and other private parties (pars. C–49 and C–54—C–59 and NAITPD's Court brief). These arguments are addressed largely either to repeal of the rule or the more substantial modifications made in the PTAR II decision; but they apply pro tanto to the exemption discussed above. Some arguments, concerning the impropriety or illegality of preferred classes of programs, relate entirely to this exemption; these are discussed below as part of the First Amendment discussion. Others include: the importance of local programming efforts and the impact of any diminished access time on them; the objectives of the rule; the contentions that any additional network time works to increase network dominance and diminishes opportunities for alternative program sources and a healthy syndication industry; the success of the rule and advantages flowing from it (par. C–49); the potential harm done by the modifications in PTAR II, for example local programming and the chilling effect on the production of programs having to compete with the additional network or off-network material; the rule's shortcomings in practice are not chargeable to it but to stations or networks, and these shortcomings should be attacked by other ways consistent with the rule such as requiring the networks to advance their children's programming by giving up 10:30–11 instead of 7:30–8, making them carry adequate amounts of public affairs programming in their own time, questioning stations as to over-use of game shows or stripped programming, etc.; that weakening the rule affects the entire package adopted in 1970; and NAITPD's contention that under the Commission's approach and its waiver decisions, almost everything seems to be more important than preserving the rule.

37. The short answer to many of these objections is that it is not to be anticipated that these changes will have the untoward results claimed, so as to lessen significantly the advantages flowing from the rule. We do not expect that syndicated programming opportunities, for example the development of material such as dramatic or comedy programs, will be seriously affected by the minimal reduction in time. Similarly with local programming activities, there appears little reason to believe that they will be seriously affected, particularly taking into account the licensee's established obligation to present material of particular significance to his community. We find much too speculative NAITPD's argument that increased competitive pressure will force diminution of this kind of programming activity. It is apparent, in our judgment, that sufficient cleared time is left for local stations to garner the economic support necessary to present such local efforts. We appreciate the participation of the numerous public groups in this proceeding, and we respect their views; but we cannot accept the proposition (which is more or less explicit in the comments of some groups such as the Urban League, and implicit in others) that network programming has little to offer, so that we would not be justified in permitting its expansion if there is the slightest chance that the cause of localism in prime time television would be impeded. We have noted on many occasions over the years the value of national network programming, and the contribution it makes to American television.

38. Aside from the impact in terms of time, there is also the impact in terms of program type, of which NAITPD and others complain. The argument is based on the assumption that nothing can possibly compete with network or off-network programs of the same type, so that no one will attempt to produce new material of this nature. In this kind of situation, we have to consider what is really precluded. As far as we know, there has been very little syndicated public affairs programming, or documentaries like America or National Geographic, except for material from foreign sources. There are other half-hour animal shows. But in view of the extent to which these are also of foreign origin (e.g., Wild, Wild World of Animals) or are easily made largely from stock footage, it does not appear that there is a substantial impact in this respect.[37] As to children's programming, we conclude that the public interest in promoting this from whatever source, for reasons stated in our recent children's television decision outweighs any minimum incursion into the access period. In connection with public affairs and similar programs, we recognize the importance of encouraging a multiplicity of voices. But as mentioned, very few such voices have come forward other than at the local level, which we do not believe will be substantially affected. Bearing in mind the tremendous resources which the net works have for such programming, we conclude that the facilitation of such material from network sources outweighs the claimed disadvantage.

39. We have kept the exemptions narrow so as to avoid any undue incursion into the access period. There will continue to be excluded from access time those programs which make up the bulk of present and former network programming—entertainment programs such as drama, comedy and variety—thus leaving the field for the development of such material to eligible access-period sources.

40. We have considered the argument that we should take other approaches to meet what we consider the shortcomings of broadcasting under the rule—require the networks to run children's programs earlier (giving up the 10:30 time slot instead of 7:30), requiring them to run a certain amount of public affairs in their own time, questioning stations about over-use of game shows or stripping, etc., rather than by relaxing the rule and nullifying its benefits. The same kind of argument applied to off-network material—licensees should be required to run it at other times or, if early evening access time is so important, to run it then and preempt network programs later. We do not agree. We believe that these alternatives would involve the Commission too

[35] According to a May 29, 1974 Variety article concerning the intensive discussion at the NBC affiliates' meeting about affiliate carriage of the Saturday news documentary hour contemplated under PTAR II, an NBC official stated: "This gives you a chance to do what the commission (FCC) has asked you to do. If any station wishes to separate from the network, that's your decision. It is not a decision I would make." All that is involved in our decision here is giving licensees a "chance" to use this material, if their judgment as licensee-trustees so indicates.

NAITPD argues that "any regulation which permits the use of prime time for network or off-network material in fact ensures the use of prime time for such material * * *". This proposition is obviously not literally true. There has always been, and still is, pre-emption of network prime time material; and during the first year of the rule, when off-network material was permitted in access time, only 23% of such time was devoted to it.

[37] See Newsweek, December 9, 1974, pp. 119 and 121, concerning the making of animal programs.

V40118 JAN 27 75 XUM

deeply in day-to-day programming and scheduling decisions.[3]

41. We do not find persuasive the argument that modification of the rule increases network dominance and returns time to the monopoly whose excesses led to the rule. As to the necessity of a full hour of cleared time for the adequate development and health of the industry, this was the conclusion of the 1970 Report and Order in Docket 12782, but the decision contains no particular discussion of the exact amount of cleared time, and there had been no study of the syndication market. We are still committed to the concept of a substantial access period. The limited modifications adopted at this time simply reflect a desire to mitigate certain undesirable effects which came about as a result of PTAR I. We call attention to the statement in the 1970 Report and Order that it was not our objective to smooth the path for existing syndicators, or to create for them a competition-free enclave (23 FCC 2d 397). Our action here is in line with those concepts. We conclude that the time reduction involved here is not sufficient to impair the opportunity for the growth of a reasonably healthy syndication industry, and that, even if it does represent some small impairment, this is outweighed by the benefit to the public of the resulting programming. As to the argument concerning the impact on the package of rules adopted in 1970 (prime time access, financial interests and syndication) there is nothing in our action here which affects the financial interest and syndication rules.

42. Warner Brothers and other opponents of the rule renew herein their arguments that the rule violates the First Amendment in a number of respects; see par. C–64. Some of these were considered and rejected by the U.S. Court of Appeals in its 1971 affirmance of the rule (Mount Mansfield Television, Inc. v. FCC, 442 F. 2d 470, C.A. 2, 1971) and need not be discussed here. There remain for consideration the contentions that experience shows the rule to be invalid because of the infringment on the public's right to diversity, and that the rule cannot be justified on the basis of its impetus to minority-group and other local programming activities because it is an over-broad restraint on the right to diversity. Finally, the contention is raised that it is illegal because the Commission is getting into the business of determining programming by setting up categories of preferred programs, as well as by earlier waiver policy. The latter contention is the same as that of proponents NAITPD et al., and is discussed below.

43. As to the first of these, our conclusion is the same as that already given with respect to the majors' arguments as a matter of policy, that the rule has not had a full test so that it can be determined what will ultimately result, and the other considerations mentioned in pars. 18–20, above. The same thing applies with respect to the lack of diversity, and we call attention to our observations in par. 15, above.

44. The proponents' arguments are mostly those contained in NAITPD's Court brief included in its comments herein. The elaborate argument in substance runs along the following lines: (1) the rule was adopted to further the public's First Amendment right to as much diverse programming as possible from the maximum number of diverse sources—"the widest possible dissemination of information from diverse and antagonistic sources" (Associated Press v. U.S., 326 U.S. 1, 20 (1945)); (2) the PTAR II amendments (including those involved here) violate that concept by returning time to the networks (either directly or through use of former network material), when these were the very monopolies whose excessive dominance led to the impairment of the public's right which the rule was designed to remedy, thus infringing the right; and (3) the returning of time, to the extent it involves preferred program categories, gets the Commission into the business of judgments as to what kinds of programs the public should see, a role completely contrary both to the Constitution and to the § 326 and other provisions of the regulatory framework set up in the Communications Act.

45. We point out that the Commission does not violate the First Amendment in interesting itself in the general program formats and the kinds of programs broadcast by licensees (Red Lion Broadcasting Co. v. FCC, 395 U.S. 367, 390 (1969)). It is also well recognized of course, that the inherent limitations in broadcast spectrum space make necessary restraints—restricting the speech of some so that others may speak—not elsewhere appropriate (Mt. Mansfield, supra).

46. As we see it, our adoption of the prime time access rule, and its modification herein, may be roughly described from a First Amendment standpoint as follows: the rule was designed to lessen the tendency of licensees which led them to carry network or off-network programming, in order that the voices of other persons might be heard. The rule was a restraint on licensees designed to reduce the impact of another restraint, that of the networks, by preventing licensees from choosing present or former network programs so that new program sources might arise and be heard by the public. Such new persons or sources have come forward, but by and large, as far as syndicated programming is concerned, they present mostly game shows. At the same time, other sorts of programming important to the public—those included in the exemptions herein—have been somewhat reduced in amount, or, in the case of children's programming, have not been available at the most appropriate time. Therefore, since it was the Commission's rule which has had this effect, we have an affirmative duty to relax our restraint to permit such programming to be made more readily available. We point out that the kinds of programs involved here are to a large extent those whose importance has been recognized in the Communications Act (§ 315) or by us recently in the children's programming proceeding.

47. We also regard as without merit NAITPD's attack on the legality of the exemptions. The exemptions have been drawn as narrowly as possible consistent with the interest of the public discussed above, to avoid any unwarranted incursion into cleared time. Thus, we have drawn the exemption so as to exclude the possibility of its being used for network game shows (since game shows are plentiful in access time), and to exclude the whole range of entertainment such as drama, comedy and variety, where there appears a potential for impact on the development and success of material which might otherwise develop for access use.

48. We do not believe that permitting the carriage of programs in the categories exempted raises any questions of a Constitutional nature. We state again that the purpose of these exemptions is to facilitate the carriage of programs which the rule has had the effect of limiting. If we did not believe that we had the authority to make these modifications, we would then give further consideration to the advisability of continuing the rule.

D. *Off-network and feature film restrictions.* 49. As noted in pars. C–67–68, some of the opponents of the rule urge that we should repeal the off-network and feature film restrictions of PTAR I, even if we leave the rule in effect otherwise. As to the off-network restriction, we find that repeal or relaxation is not warranted, except to the limited extent adopted herein and discussed above. It is readily apparent that elimination of this restriction would lead to a large-scale incursion into cleared time by use of off-network material, sharply reducing the availability of time to sources of new non-network material. While the off-network aspects of the rule do constitute a restraint which is not directly related to present network dominance, the drastic impact on our objective of encouraging the development of new material would obviously be completely disserved. While there are some results which might be considered anomalous (see par. C–64(b)), this is doubtless true in the short run of any regulation which imposes restrictions looking toward longer-term benefits. We are retaining

[3] We are also not adopting rules, suggested by some parties in this connection and others, which would provide for some of cleared time to be later in the evenings. We have decided to abandon the tie of cleared time to specific periods adopted in PTAR II, to return to the basic three-hour limitation, in the belief that any tighter limitation unduly reduces licensee freedom and flexibility, and gets the Commission too deeply into the details of station operation. As to the networks being required to give up the 10:30 time slot in order to run children's specials at 7:30, it is far from clear that an irregular schedule of this sort would serve the interest of access-period program producers, stations or the public. The Commission is concerned that such a trade off might have the effect of discouraging the early scheduling of children's programming.

the restriction except as indicated herein.

50. We have decided to modify prior provisions regarding the use of feature films in access time. Under the changes made here, we eliminate the restriction on movies which have been shown by a station in the same market within a two-year period. At the same time, however, the new rule bars any feature film which has ever appeared on a network from the access period. If a movie has never appeared on a network, it may now be presented during the access hour, regardless of when or whether it has ever appeared on a station in the same market. If it appeared on a network—whether or not made for television—it is barred. We believe that this will ease the administration of this portion of the rule for licensees, motion picture distributors, and the Commission. We also believe this to be an appropriate resolution of the two sides of the feature film question raised by the supporters and opponents of our total ban in PTAR II. The supporters of the ban (mainly Sandy Frank) stated that there were sufficient opportunities for feature films outside of the access period, and that use of theatrical features cuts down television production activity. The opponents argued that the ban was an unconstitutional restraint that would harm independent production of motion pictures. Our approach here will allow certain movies in, thus relieving to some extent this complaint. In addition, this provision is consistent with the goals of limiting network dominance, and encouraging new sources of programming. Feature films are thus treated exactly like any other programming. Upon further consideration, we have concluded that this approach is more in keeping with the basic purpose of the rule.

51. *Sports runovers.* In subparagraph (4) of new § 73.658(k), we are codifying the existing practice under the rule, of waiving sports runover time, where a football game, golf match, or other sports event is scheduled so that it normally would conclude before prime time, but lasts unexpectedly long and the telecast runs until after 7 p.m. E.T. In a much smaller number of cases, the problem is an evening event scheduled to occupy some but not all of the three permissible network hours. While the present situation is by no means entirely satisfactory, and some of the citizens' groups and other proponents of the rule urge us to preserve access time by requiring either a give-back or a roll-back by the networks in these cases, we are not persuaded that this is a serious enough problem to warrant a basically different approach. Certainly, there is not enough incidence of runovers to affect the potential market for syndicated programming. There are other problems, particularly the possible disruption of local programming activities, and NAITPD's claimed problems in connection with "making good" commercial positions in the access program lost because of the runover. We have no specific information as to these sufficient to warrant any basic change.

52. However, as far as professional football is concerned, there appears to have been a high incidence of runovers this fall, with some abuses—one network when the second game of a doubleheader concluded about 6:45, picking up a third game which lasted until nearly 7:15—and some use of time after 7 p.m. for post-game scoreboard or interview shows. We expect that in the future the networks will exercise a greater degree of care in their scheduling of sports events. Such events should be scheduled so that it would be expected that they would conclude prior to the access period in the absence of unusual occurrences such as overtime or delays due to weather.

53. *Network news following a full hour of local news.* The new rule (§ 73.658(k)(3)) codifies the existing waiver for a half-hour of regular network news if it is preceded by a full hour of local news or local public affairs programming. This waiver was envisaged in the decision adopting the rule, has been granted since the rule went into effect, and there is no substantial objection to its continuation. The rule does not include the extension of this concept to weekend scheduling arrangements involving ABC's Reasoner Report program (which a few licensees wish to delay until 7 p.m.) because that is exempt under (1) as a network public affairs program.

54. *Time zone differences.* The new rule (§ 73.658(k)(5)) also deals with time zone difference situations, codifying waivers granted in the past for situations such as NBC's Academy Awards and Miss America telecasts, where live simultaneous programming is involved. It provides that a network evening schedule which meets the requirements of the rule in the Eastern and Central time zones will also be held to comply with it in the Mountain and Central time zones. This concept, to deal with the problems presented by such broadcasts in the four time zones of the U.S., has not been the subject of substantial objection.

55. *Exemption for special network programming.* In new § 73.658(k)(6), we are adopting the same kind of exemption as in PTAR II, for what might be called the "Summer Olympic" situation, so called because of the 1972 denial of waiver to ABC to carry material concerning the Olympic games in access time in addition to its own network prime time, an action which aroused considerable protest from the public. This provides that where a network uses all of its prime time on an evening (or all except for brief incidental "fill" material for truly special programming), cleared time may be used for the same material. The exemption reads in terms of an international sports event such as the Olympic games, New Year's Day college football games (NBC's long-standing Rose Bowl-Orange Bowl telecasts), and any other special programming except other sports or movies. In comments early in 1973, NAITPD as well as all other commenting parties who discussed the subject expressed the view that some such accommodation should be made. While a few parties in the present stage of the proceeding oppose this kind of exemption, it appears that relaxation of the rule's provisions is warranted to include such unusual programming.

56. Special network news coverage and similar material. New § 73.658(k)(2) retains the exemption for special network news coverage and political broadcasts as adopted in PTAR I, with the slight expansions adopted in PTAR II to include material related to on-the-spot news coverage (e.g., previously filmed material) and political broadcasts on behalf of as well as by qualified candidates. We adhere to the conclusions reached in pars. 103–105 of the January Report and Order (44 FCC 2d 1142) in these connections. NAITPD expresses objection to the expansion to include related material, but in our judgment this is clearly warranted to lessen any impediment to the networks' proper exercise of their journalistic function.

F. *Other matters concerning the substance of the rule*—57. *Views of the Department of Justice and the Office of Telecommunications Policy (OTP).* The views of our two sister government agencies, the Justice Department and the OTP, are set forth elsewhere in pars. C1–2. It may be that the Department would disagree with our conclusion that PTAR I should be modified to permit additional opportunity for programming of certain types from network and off-network sources; if so, we must respectfully disagree, for reasons stated at length above concerning the importance of increased opportunity for the presentation of such material. As to OTP, we are, of course, reaching a decision largely contrary to its position urging repeal of the rule. As mentioned herein, we believe that it is premature to reach a conclusion at this point as to the programming which may ultimately develop under the rule for cleared time. For reasons discussed above, we must also disagree with OTP's suggestion that it is beyond our proper role to act to increase the opportunity for certain kinds of programs. Our views as to impact on Hollywood employment opportunity, and the welfare of the program production industry, have been set forth in pars. 23–24, above. We point out in this connection that OTP's March 1973 study included data only as to the first year of operation under the rule, 1971–72, a period when off-network material in cleared time was still permitted; and therefore it cannot be regarded as of great significance as to longer-term developments, particularly since it focussed almost entirely on production and employment in Hollywood and did not discuss employment gains in other syndicated or local programming efforts, gains in distribution and sales activity, etc.

58. *The rule and competition.* One of the questions raised by the Court in its June 1974 opinion was the rule in relation to the national policy favoring competition in broadcasting, as to which it particularly sought the views of the Department of Justice. We agree with the Department that it is probably too early to give a definitive answer to this question. The rule opens up substantial

V40I18 JAN27 75 XUM

amounts of cleared time to additional, largely different, producers, and, while much of this time is occupied by the programs of a handful of producers (chiefly game-show entrepreneurs), the situation in this respect is not much different from that of network prime time, where the majors occupy about 55% of it with their material (about the same percentage as the access-period producers mentioned). While some producers who claim that they cannot use the access route may be foreclosed from reaching prime-time television, it is too early to say that this will be a permanent matter. The access-period option remains open to them, as well as affording increased opportunity for non-national advertisers as well as an option for national advertisers wishing to use spot rather than network messages. We do not consider the exclusion of off-network material from access time a significant anti-competitive consideration (even though to some extent it may work to the disadvantage of the majors and others), in view of the importance of affording full opportunity for the development of new material.

59. *Reasons for not re-adopting PTAR II.* We are not adopting four of the five rule changes contemplated by the PTAR II decision last January because we find on further consideration that a general increase in network programming, or opportunity for off-network programming on a general basis, is not warranted in light of the importance of the objectives of the rule. Therefore, we are not adopting the provisions removing restrictions from Sundays and from the first half-hour of prime time on other days. As to the latter, it appeared to us earlier that there is something to be said for increasing diversity by permitting off-network material in addition to the news and game shows which generally fill this period Monday–Friday. As a short-run proposition, this might be true. However, for the longer term, we conclude that this would have too much of an impact on the availability of cleared prime time for the development of new material, and that it might tend to increase the use of stripped game shows in the second half-hour of prime time. With respect to the specification of cleared time as the 7:30 half-hour, on further consideration we conclude that this is an unwarranted restriction on licensee flexibility in scheduling.

G. Other Matters: the Licensee's Duty with respect to locally significant material; the future of the rule; effective date. 60. As mentioned above, one of the really significant benefits from the rule is its impetus to the development of local programming efforts, and this is one of the principal reasons for retaining it in a form close to PTAR I. We expect that stations subject to the rule will devote an appropriate portion of "cleared time," or at least of total prime time to material particularly directed to the needs or problems of the station's community and area as disclosed in its regular efforts to ascertain community needs, including programming addressed to the special needs of minority groups. Such programming efforts are necessary if the benefit of the rule in stimulating locally meaningful programming is to be significantly achieved, as well as to carry out the licensee's obligation to serve the public interest. We point out, however, that programming of the significant character mentioned need not necessarily be all locally produced. Syndicated or network programming, where it deals with needs or problems common in substantial degree to many communities, may also make an important contribution.

61. *The future of the rule.* As noted above, the Department of Justice, as well as many of the private proponents of the rule, assert that a period of assured stability for the rule is highly important for realization of its potential for the development of new and varied programming. A five-year guarantee is urged by NAITPD, Frank, Westinghouse, et al.

62. The Commission, however, does not believe it appropriate to give the kind of absolute assurance sought, for a period such as five years, in view of the various uncertainties involved as to what will develop in the fairly near future. While we recognize the need for stability, we do not feel it appropriate for this Commission to bind itself or its successors in this manner.

63. *Effective date.* The matter of an effective date for the changes adopted herein is important, particularly since the only actual holding of the U.S. Court of Appeals last June was that we had erred in making the changes effective in the fall of 1974. As set forth in pars. C–72–73, many proponents of the rule claim that we cannot make any changes, reducing the amount of cleared time, effective for at least 16 months after this decision, the same amount of time given the networks in adopting the original rule in 1970.

64. We respectfully disagree. The changes adopted herein constitute less of an incursion into available access time (particularly in light of our admonition of network and licensee restraint) than would have occurred under PTAR II. We believe that the public interest dictates that the new modifications become effective at an early date because we feel that the rule as amended in this Report and Order will best serve the public interest. Finally, parties to this proceeding have been on notice as to the specific changes adopted in the rule since November 15, 1974, the date of our Public Notice concerning staff instructions in this matter. Therefore, we conclude that these changes can go into effect in September, 1975.

ORDER

65. In view of the foregoing, *It is ordered*, That, effective Monday, September 8, 1975, § 73.658(k) of the Commission's rules, the prime time access rule, is amended, as set forth below. Authority for the rules changes adopted herein is contained in sections 1, 2, 4(i), 301, 303 (b), (f), (g), (i), and (r), and 313 of the Communications Act of 1934, as amended.

66. *It is further ordered*, That this proceeding, Docket No. 19622, is terminated.

(Secs. 1, 2, 4(i), 301, 303 (b), (f), (g), (i), and (r), 313, 48 Stat. as amendde, 1064, 1066, 1081, 1082, 1087; (47 U.S.C. 151, 152, 154, 301, 303, 313)).

Adopted: January 16, 1975.

Released: January 17, 1975.

FEDERAL COMMUNICATIONS COMMISSION,*

[SEAL] VINCENT J. MULLINS,
Secretary.

Effective September 8, 1975, § 73.658 (k) of the Commission's rules, the prime time access rule, is revised to read as follows:

§ 73.658 Affiliation agreements and network program practices.

* * * * *

(k) Effective September 8, 1975, television stations owned by or affiliated with a national television network in the 50 largest television markets (see NOTE 1 to this paragraph) shall devote, during the four hours of prime time (7–11 p.m. E.T. and P.T., 6–10 p.m. C.T. and M.T.), no more than three hours to the presentation of programs from a national network, programs formerly on a national network (off-network programs) or feature films which have previously appeared on a network: *Provided, however,* That the following categories of programs need not be counted toward the three-hour limitation:

(1) Network or off-network programs designed for children, public affairs programs or documentary programs (see NOTE 2 to this paragraph for (definitions).

(2) Special news programs dealing with fast-breaking news events, on-the-spot coverage of news events or other material related to such coverage, and political broadcasts by or on behalf of legally qualified candidates for public office.

(3) Regular network news broadcasts up to a half hour, when immediately adjacent to a full hour of continuous locally produced news or locally produced public affairs programming.

(4) Runovers of live network broadcasts of sporting events, where the event has been reasonably scheduled to conclude before prime time or occupy only a certain amount of prime time, but the event has gone beyond its expected duration due to circumstances not reasonably foreseeable by the networks or under their control. This exemption does not apply to post-game material.

(5) In the case of stations in the Mountain and Pacific time zones, on evenings when network prime-time programming consists of a sports event or other program broadcast live and simultaneously throughout the contiguous 48 states, such stations may assume that the network's schedule that evening occupies no more of prime time in these time zones than it does in the Eastern and Central time zones.

(6) Network broadcasts of an international sports event (such as the Olympic Games), New Year's Day college football games, or any other network programming of a special nature other than motion pictures or other sports events, when the network devotes all of its time on the same evening to the same programming, except brief incidental fill material.

NOTE 1. The top 50 markets to which this paragraph applies on the 50 largest markets in terms of prime time audience for all stations in the market, as listed each year in the Arbitron publication Television Market Analysis. This publication is currently issued each November, and shortly thereafter the Commission will issue a list of markets to which the rule will apply for the year starting the following September.

NOTE 2. As used in this paragraph, the term "programs designed for children" means programs primarily designed for children aged 2 through 12. The term "documentary programs" means programs which are non-fictional and educational or informational, but not including programs where the information is used as part of a contest among participants in the program, and not including programs relating to the visual entertainment arts (stage, motion pictures or television) where more than 50% of the program is devoted to the presentation of entertainment material itself.

* Commissioners Wiley, Chairman; Lee and Reid concurring and issuing statements; Commissioner Robinson dissenting and issuing a statement. Statements of Commissioners Wiley, Chairman; Lee, and Robinson are filed as part of the original document. Statement of Commissioner Reid to be released at a later date.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

PART 1033—CAR SERVICE

[S.O. No. 1209]

Grand Trunk Western Railroad Company Authorized To Operate Over Tracks of Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond, and John H. McArthur, Trustees

At a Session of the INTERSTATE COMMERCE COMMISSION, Railroad Service Board, held in Washington, D.C., on the 20th day of January 1975.

It appearing, That, in order to cooperate in an area re-development plan the Grand Trunk Western Railroad Company (GTW) proposes to discontinue interchanging traffic with the Canadian National Railways (CN) via the use of a car ferry operated by the CN between Detroit, Michigan, and Windsor, Ontario, Canada, and to substitute therefor direct all-rail operations over tracks of the Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond, and John H. McArthur, Trustees, (PC); that such operation by the GTW over the PC will enable the GTW to make available for redevelopment land presently required for railroad operation; that interchange between the GTW and the CN via the all-rail route described herein will be faster than via the present car ferry and will less frequently be subjected to interruption because of weather; that the GTW, in Finance Docket No. 27778 has requested authority from the Commission to operate over tracks of the PC between a point of connection between these companies in the vicinity of Bay City Jct., Yard, Detroit, Michigan and the point where tracks of the PC cross the international boundary between Detroit, Michigan, and Windsor, Ontario, Canada; that the Commission is of the opinion that operation by the GTW over the aforementioned trackage of the PC is necessary in the interest of the public and the commerce of the people, pending disposition of the application of the GTW in Finance Docket No. 27778; that notice and public procedure herein are impractical and contrary to the public interest; and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1209 Service Order 1209.

(a) *Grand Trunk Western Railroad Company authorized to operate over tracks of Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond, and John H. McArthur, Trustees.* The Grand Trunk Western Railroad Company (GTW) be, and it is hereby, authorized to operate over tracks of the Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond, and John H. McArthur, Trustees (PC), between a point of connection between these lines in the vicinity of Bay City Jct., Yard, Detroit, Michigan, and the point where the tracks of the PC cross the international boundary between Detroit, Michigan, and Windsor, Ontario, Canada.

(b) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(c) *Rates applicable.* Inasmuch as this operation by the GTW over tracks of the PC is deemed to be due to carrier's disability, the rates applicable to traffic moved by the GTW over the tracks of the PC shall be the rates which were applicable on the shipments at the time of shipment as originally routed.

(d) *Effective date.* This order shall become effective at 11:59 p.m., January 24, 1975.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., July 31, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended (49 U.S.C. 1, 12, 15, and 17 (2)). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911 (49 U.S.C. 1(10–17), 15(4), and 17(2)))

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Wheeler National Wildlife Refuge, Ala.

JANUARY 20, 1975.

The following special regulation is issued and is effective on March 1, 1975.

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

ALABAMA

WHEELER NATIONAL WILDLIFE REFUGE

With the exception of the display pool adjoining the observation building, the area immediately north of its dike, and along the headquarters shoreline, which are closed to all fishing throughout the year, the area is open to transportation of unstrung bows and arrows when used for fishing in conformance with Alabama State fishing regulations. This regulation effective March 1, 1975, through June 15, 1975.

RAY R. VAUGHN,
Acting Regional Director,
U.S. Fish and Wildlife Service.

[FR Doc.75-2355 Filed 1-24-75;8:45 am]

PART 33—SPORT FISHING

Quivira National Wildlife Refuge, Kans.

The following special regulation is issued and is effective January 27, 1975.

§ 33.5 Special Regulations; sport fishing; for individual wildlife refuge areas.

KANSAS

QUIVIRA NATIONAL WILDLIFE REFUGE

Sport fishing on the Quivira National Wildlife Refuge, Stafford, Kansas is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 990 acres, are delineated on maps available at refuge headquarters, Stafford, Kansas and from the office of the Area Manager, U.S. Fish and Wildlife Service, 601 East 12th Street, Room 1748, Kansas City, Missouri 64106. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from May 1, 1975 to September 30, 1975, inclusive.

(2) Fishing will be with closely attended rod(s) and line(s) only.

(3) The use of boats is not permitted. One-man floater tubes may be used.

(4) Overnight camping is not permitted.

V40I18 JAN27 75 XUM

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through September 30, 1975.

CHARLES R. DARLING,
Refuge Manager, Quivira National Wildlife Refuge, Stafford, Kansas.

JANUARY 9, 1975.

[FR Doc.75-2354 Filed 1-24-75;8:45 am]

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 335, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period January 17–23, 1975. The quantity that may be shipped is increased due to improved market conditions for Navel oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Navel Orange Regulation 335 (40 FR 2792). The marketing picture now indicates that there is a greater demand for Navel oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Navel oranges to fill the current market demand thereby making a greater quantity of Navel oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become affective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Navel oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b) (1) (i), (ii), and (iii) of § 907.635 (Navel Orange Regulation 335; 40 FR 2792) are hereby revised to read as follows:

§ 907.635 Navel Orange Regulation 335.

* * * * *

(b) * * *

(1) * * *

(i) District 1: 1,118,000 cartons;
(ii) District 2: 156,000 cartons;
(iii) District 3: 26,000 cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 22, 1975.

CHARLES R. BADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-2300 Filed 1-24-75;8:45 am]

PART 917—FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA

Subpart—Rules and Regulations

PEAR COMMODITY COMMITTEE; REAPPORTIONMENT OF REPRESENTATION

This document reapportions the grower representation on the Pear Commodity Committee by amending the rules and regulations (Subpart—Rules and Regulations; 7 CFR 917.100 et seq.) currently in effect pursuant to the applicable provisions of the amended marketing agreement and Marketing Order No. 917 (7 CFR Part 917), as amended, hereinafter referred to collectively as "the order." The order regulates the handling of fresh pears, plums, and peaches grown in California. This is a regulatory program effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The principal function of the committee is to analyze supply and demand conditions and recommend, to the Secretary of Agriculture, the seasonal grade, size, quality, maturity, or pack regulation of fresh shipments of California Bartlett pears. The committee also establishes marketing research and development projects and production research on pears.

The production area is geographically divided into six representation areas comprised of one or more Districts, as defined in the marketing order, for purposes of representation on the 12-member Pear Commodity Committee. The number of members from each representation area is based, insofar as practicable, upon the proportionate quantity of pears shipped from the respective representation areas during the preceding three fiscal years.

During the 1972–through–1974 shipping seasons the proportional increase in total shipments from representation area (b), as hereinafter designated, and the proportional decrease in total shipments from representation area (f) were such that the Pear Commodity Committee originated a proposal to reapportion membership from the two areas. Specifically, the committee believes that, on the foregoing basis, one membership from representation area (f) should be transferred to representation area (b). Such a transfer would result in a total of one member from representation area (f) and four members from representation area (b). Accordingly, the Control Committee, established under the order as the agency to administer the terms and conditions thereof, proposed amendment, as hereinafter set forth, of the rules and regulations.

Notice was published in the December 30, 1974, issue of the FEDERAL REGISTER (39 FR 45019) that the Department was giving consideration to the aforesaid proposal to amend the rules and regulations. The notice invited interested persons to submit written data, views, or arguments on the proposal not later than January 17, 1975. No such material was received.

After consideration of all relevant matter presented, including the proposal set forth in the aforesaid notice, the recommendation and information submitted by the Control Committee, and other available information, it is hereby found that amendment, as hereinafter set forth, of said rules and regulations is in accordance with the provisions of the order and will tend to effectuate the declared policy of the act. Therefore, said rules and regulations are hereby amended by adding a new § 917.121 reading as follows:

§ 917.121 Changes in nomination of Pear Commodity Committee members.

Nominations for membership on the Pear Commodity Committee shall be made by the growers of pears in the respective representation areas as follows:

(a) North Sacramento Valley District and the Central Sacramento Valley District one nominee.

(b) Sacramento River District, Stockton District, Contra Costa District, Santa Clara District, and Solano District four nominees.

(c) Placer-Colfax District one nominee.

(d) Lake District four nominees.

(e) Mendocino District and the North Bay District one nominee.

(f) El Dorado District and all of the area not included in the North Sacramento Valley District, Central Sacramento Valley District, Placer-Colfax District, Sacramento River District, Stockton District, Solano District, Contra Costa District, Santa Clara District, Lake District, Mendocino District, and North Bay District one nominee.

Dated: January 22, 1975, to become effective February 28, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-2302 Filed 1-24-75;8:45 am]

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

Modification of Salable and Reserve Percentages for 1974–75 Crop Year

Notice was published in the December 17, 1974, issue of the FEDERAL REGISTER (39 FR 43634) regarding a proposal to modify the salable and reserve percentages, previously established for the 1974–75 crop year (§ 993.210; 39 FR 32733), from 82 and 18 percent to 90 and 10 percent, respectively. Modification of the percentages was favored by a 14 to 7 vote of the Prune Administrative Committee.

The proposal was pursuant to the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The notice gave interested persons until January 3, 1975, to submit written data, views, or arguments with respect to the proposal. Six comments were received, all in opposition to the proposal.

The percentages currently effective were based on an early season estimate that California's 1974 production of dried prunes would be 155,000 natural condition tons, although it was recognized in the rulemaking establishing the current percentages that this production could be less because of adverse weather conditions during July 1974.

In November 1974, the Department's Crop Reporting Board estimated that production at 133,000 tons. The Committee's recommendation to modify the current percentages was based, in part, on that estimate. The Committee's report of its modified marketing policy also included an estimate that export trade demand for the 1974–75 crop year would approximate 37,000 tons, processed weight, 8,000 tons less than its original estimate. On January 13, 1975, the Crop Reporting Board increased its estimate to 138,000 tons.

Of the six written comments submitted pursuant to the notice, three opposed any modification of the current percentages, and three favored elimination of the reserve for the 1974–75 crop year—i.e., establish salable and reserve percentages of 100 percent and zero percent, respectively.

The reduction in the production estimate from 155,000 tons, on which the current percentages are based, to 138,000 tons, necessitates modification of these percentages. On the other hand, while the 138,000 ton estimate of production may not be of sufficient magnitude so as to be considered unduly burdensome, especially after deduction of an estimated 5,600 to 5,800 tons of trash and undersized prunes, the large carryout (over 54,000 tons) on July 31, 1974, from the substantial 1973 production results in a total supply in excess of that which can normally be marketed during a crop year. Thus, some volume regulation of prunes for the 1974–75 crop year should be continued to permit orderly marketing of the supply; e.g., to avoid making too many prunes available as salable prunes which could result in oversupplying domestic and export markets, thereby creating instability, while protecting against a short 1975 crop. On the basis of all information, currently available, the proposed percentages as published in the notice, are the best alternative to achieve this.

After consideration of all relevant matter presented, including that in the notice, the comments received pursuant to the notice, the recommendations of the Committee, and other available information it is found that to modify the salable and reserve percentages as hereinafter set forth will tend to effectuate the declared policy of the act.

§ 993.210 [Amended]

Therefore, the previously established salable and reserve percentages for the 1974–75 crop year of 82 percent and 18 percent, respectively, as set forth in the first sentence of § 993.210 *Salable and reserve percentages for prunes and handler obligation for the 1974–75 crop year* (39 FR 32733) are hereby modified to read "90 percent" and "10 percent" respectively.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) The relevant provision of said amended marketing agreement and this part require that salable and reserve percentages established for a particular crop year shall be applicable to all dried prunes received during the crop year by handlers from producers and dehydrators, excluding the weight obligation of § 993.49(c); (2) the current crop year began August 1, 1974, and the modified percentages will apply automatically to all such dried prunes received on or after that date; and (3) this action relieves restrictions on the handling of dried prunes.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 21, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division.

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

MILK IN THE MIDDLE ATLANTIC AND CERTAIN OTHER MARKETING AREAS

Order Suspending a Certain Provision of the Orders

This order of suspension is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the orders regulating the handling of milk in the aforesaid marketing areas.

It is hereby found and determined that for the months of February and March 1975 the following provision in each of the above listed orders does not tend to effectuate the declared policy of the Act:

The word "second" in §§ 1004.50(a), 1001.61(a), 1002.50a(a), 1006.50(a), 1007.50(a), 1011.51(a), 1012.50(a), 1013.50(a), 1015.61(a), 1030.50(a), 1033.51(a), 1036.50(a), 1040.50(a), 1044.51(a), 1046.50(a), 1049.50(a), 1050.50(a), 1060.50(a), 1061.50(a), 1062.50(a), 1063.50(a), 1064.50(a), 1065.50(a), 1068.50(a), 1069.50(a), 1070.50(a), 1071.50(a), 1073.50(a), 1075.51(a), 1076.50(a), 1078.50(a), 1079.50(a), 1090.50(a), 1094.50(a), 1096.50(a), 1097.50(a), 1098.50(a), 1099.50(a), 1101.51(a), 1102.50(a), 1106.50(a), 1108.50(a), 1120.50(a), 1121.50(a), 1124.51(a), 1125.50(a), 1126.50(a), 1127.50(a), 1128.50(a), 1129.50(a), 1130.50(a), 1131.50(a), 1132.50(a), 1133.50(a), 1134.51(a), 1136.50(a), 1137.51(a), 1138.50(a), and 1139.50(a).

STATEMENT OF CONSIDERATION

This suspension will result in the Class I prices for February and March 1975 under each of the aforesaid orders being based on the basic formula price for the preceding month. Presently, Class I prices are based on the basic formula price for the second preceding month.

Class I prices under such orders are determined by adding a specified differential to the basic formula price, which is an average of prices paid for manufacturing grade milk in Minnesota and Wisconsin. Without suspension, the Class I price under each order for February and March 1975 would be that determined by adding the appropriate Class I differential to the December 1974 and January 1975 basic formula prices, respectively. Under the suspension, Class I prices for February 1975 will be based on the basic formula price for January.

The suspension will result in producers in all 61 Federal order markets receiving for February and March 1975 a Class I price that reflects more promptly any increase in manufacturing milk values resulting from the January 4 increase in the support price for manufacturing grade milk. Without the suspension, such higher values would not be reflected in Class I prices before March.

Although no provisions in the Red River Valley and Southern Illinois orders (Parts 1104 and 1032) are being suspended, Class I prices under these orders nevertheless will be affected through this action. The Red River Valley Class I

V401H8 JAN27 75 XUM

is tied to the Class I price under the Oklahoma Metropolitan order. The Southern Illinois Class I price is based on the St. Louis-Ozarks Class I price.

It is essential to make this suspension effective immediately to carry out the intent of the Secretary of Agriculture in raising the support price for manufacturing milk. The higher support price was deemed necessary because farm milk prices had declined while costs remained at high levels. Without the price support action, farm milk prices would have dropped further in the coming months at a time when milk producers must feed greater quantities of grain and high-priced, commercially-prepared concentrate feeds. Under these circumstances it was anticipated that many producers would leave dairying and that the future production of milk and dairy products would decline.

The higher price support level can be expected to increase farm prices for both manufacturing grade milk and milk approved for fluid consumption. Without this suspension, however, the immediate impact of the price support action will be limited to milk used in manufactured products. This is because Class I prices are based on manufacturing milk values for the second preceding month. With one-third of the milk produced in the United States being priced as Class I milk under Federal orders, a very substantial part of the nation's milk production will not be immediately affected by the price support action unless the Class I price formulas of the orders are changed. This suspension will help carry out the intent of the price support action to increase farm milk prices on an immediate basis.

The suspension is based on a public hearing held January 20 in Washington, D.C. At the hearing, a substantial number of producer groups asked that emergency suspension action be taken to assure that the February and March Class I prices reflect any increased value in manufacturing milk resulting from the January 4 price support action. Although handlers opposed any change in the pricing formulas by suspension, they did indicate that Class I prices should reflect any increase in the M–W price resulting from the higher support price level. It was their position however, that handlers should have advance notification of any change in the pricing formulas for February that would result in Class I prices above those prevailing in January.

The Chief issue presented at the hearing is that of reflecting in Class I prices at the earliest possible time the price support action of the Secretary. The provisions for "advance" pricing impede this, thereby necessitating the suspension. Any delay in changing the orders could deprive producers of the price relief sought by the Secretary for dairy farmers in his price support action effective January 4. This suspension is the only means available to the Department to reflect the higher price support level in Class I prices on a timely basis.

It is hereby found and determined that notice of proposed rulemaking, public procedure thereon, and thirty days' notice of the effective date hereof are impractical, unnecessary, and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the aforesaid marketing areas in that it is necessary to implement at the earliest opportunity the objectives of the United States Department of Agriculture in providing an increase in the support price for manufacturing milk effective January 4, 1975;

(b) This suspension does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Producers requested this suspension at a public hearing held January 20, 1975.

Therefore, good cause exists for making this order effective February 1, 1975.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for the months of February and March 1975.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: February 1, 1975.

Signed at Washington, D.C., on: January 24, 1975.

RICHARD L. FELTNER,
Assistant Secretary.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Definition of Eligible Firm

On November 29, 1974, FEA adopted the final rule for the allocation of old oil (39 FR 42246, December 4, 1974). The final rule invited interested persons to submit further comments by December 15, 1974, as to the definition of eligible firm set forth in the final rule. FEA received over 30 comments with respect to this matter. FEA has carefully considered these comments and is hereby adopting a revised definition of eligible firm which would be effective for entitlements issued for eligible product imports in December 1974 and subsequent months.

Current Definition of Eligible Firm. Section 211.62 generally defines eligible firm as a firm (including a refiner) that has received a fee free license to import an eligible product under 10 CFR 213.15, 213.32 or 213.34 (formerly sections 12, 28, and 30 of Oil Import Regulation I), or a firm that would otherwise qualify for such fee free license under § 213.15 or § 213.34 but for the fact that (a) the firm is not in the business of selling eligible products in PAD District I, (b) the firm had not received an allocation of No. 2 heating oil or No. 2–D diesel fuel in the allocation period beginning prior to January 1, 1973 or (c) the firm is a refiner and/or a petrochemical producer.

To qualify as an eligible firm under the current definition, a firm (including a refiner or a wholesale purchaser-consumer) must be the importer of eligible products (which, under the definition of importer in § 211.51, means the owner thereof at the first place of storage), and must have a deepwater terminal under its management and operational control or have a throughput agreement with the operator of a deepwater terminal. A deepwater terminal is defined under the regulations as a facility having 100,000 barrels or more of storage capacity and able to receive deliveries from a tanker rated 15,000 cargo deadweight tons, drawing not less than 25 feet of water. Throughput agreements are defined to include agreements which provide for delivery of the eligible products to a deepwater terminal by a person that owns the product at the time of delivery and that has the right to withdraw an identical quantity of such product on call from the terminal.

Revised Definiton of Eligible Firm. FEA believes that inclusion within the definition of eligible firm of marketers that have significant imports of residual fuel oil, No. 2 heating oil and 2–D diesel fuel is consistent with FEA's legislative mandate to protect the competitive viability of the independent marketing sector of the petroleum industry. Marketers which are now dependent upon imported product supplies must be allowed to participate in the old oil allocation program to remain competitive with those marketers with domestic suppliers.

FEA has determined that, while reference to the deepwater terminal or throughput agreement requirements imposed by §§ 213.15, 32 and 34 generally covers most significant importers, certain marketers that directly import large volumes of eligible products were excluded. On the basis of comments received and its own analysis of the market situation of product importers, FEA has concluded that the definition of eligible firm shall be revised to include those firms on inland waterways which perform import and marketing functions comparable to those performed by a deepwater terminal operator.

The revised definition adopted has been expanded to include as eligible firms those importers of No. 2 heating oil, No. 2–D diesel fuel and residual fuel oil which have inland waterway terminals with a storage capacity for the eligible product concerned of 150,000 barrels. These minimum storage requirements are designed to include those inland waterway terminals able to store a full shipment of an eligible product from a T–2 tanker or other vessel rated 15,000 cargo deadweight tons.

In addition, the reporting requirements for eligible firms have been amended to confirm that the eligible firm must certify, as to its import volumes of eligible products, that no other firm is reporting any portion of such volumes for purposes of the old oil allocation program. This certification is

presently included in the FEA form for eligible product imports.

Under § 211.66(j) reports from eligible firms setting forth their import volumes of eligible products are required to be filed by January 28, 1975 for December 1974 imports. The publication of this amendment will not afford adequate notice to enable all firms that are included within the revised definition to comply with the reporting requirements for December 1974 imports. Accordingly FEA hereby gives notice that it will accept the affidavits required by § 211.66(k) and the reports for December imports from firms newly included within the definition of eligible firm if such affidavits and reports are filed with FEA on or prior to February 3, 1975.

Finally, FEA realizes that the revised definition of eligible firm adopted hereby may continue to exclude certain importers, the inclusion of which would be consistent with the purposes of the Emergency Petroleum Allocation Act of 1973. Accordingly, FEA will further revise this definition to the extent it deems revisions necesary or appropriate to fulfill its statutory mandate.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93–159; Federal Energy Administration Act of 1974, Pub. L. 93–275; E.O. 11790, 39 FR 23185)

In consideration of the foregoing, Part 211 of Chapter II, Title 10 Code of Federal Regulations, is hereby amended as set forth below effective immediately.

Issued in Washington, D.C. January 23, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel,
Federal Energy Administration.

1. Section 211.62 is amended by revising the definition of "eligible firm" to read as follows:

§ 211.62 Definitions.

* * * * * * *

"Eligible firm" means, an importer (as defined in § 211.51) of eligible products that has received, as to the particular eligible product imported, an import allocation not subject to a license fee under 10 CFR §§ 213.15, 213.32 or 213.34, or a firm which would otherwise qualify for such an import allocation under § 213.15 or § 213.34 if (a) that firm were in the business in PAD District I of selling the eligible product concerned, (b) that firm had received an allocation of imports of No. 2 heating oil or No. 2–D diesel fuel in the allocation period beginning prior to January 1, 1973, or (c) that firm were not a refiner and/or a petrochemical producer. The term eligible firm shall also include an importer of an eligible product which owns and operates an inland terminal and which receives the eligible product concerned into that inland terminal by transportation along an inland waterway. An inland terminal for purposes of this definition means a facility which consists of bulk storage tanks having not less than 150,000 barrels of operational capacity, with respect to the particular eligible product imported, together with pumps and pipelines and which is used for storage, transfer and handling of that eligible product.

* * * * * * *

2. Section 211.66 is amended in paragraph (j) by redesignating paragraph (j) (2) as paragraph (j) (3) and by adding a new paragraph (j) (2) to read as follows:

§ 211.66 Reporting requirements.

* * * * * *

(j) * * *

(2) That no other firm has reported any portion of the volumes of eligible products reported by that eligible firm pursuant to subparagraph (1) of this paragraph (j) for purposes of receiving entitlements with respect to the import thereof.

* * * * * *

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[21 CFR Part 1308]

SCHEDULES OF CONTROLLED SUBSTANCES

Proposed Placement of Chlordiazepoxide, Diazepam, Oxazepam, Chlorazepate, Flurazepam and Clonazepam in Schedule IV

On August 14, 1973, the Administrator of the Drug Enforcement Administration requested the Assistant Secretary for Health of the Department of Health, Education and Welfare to submit, in behalf of the Secretary of Health, Education and Welfare, a scientific and medical evaluation and recommendation that clordiazepoxide(Librium®) and diazepam(Valium®) be placed in Schedule IV of the Controlled Substances Act.

By a letter dated November 25, 1974, the Assistant Secretary for Health submitted the requested scientific and medical evaluation and recommendation concerning chlordiazepoxide and diazepam, and further submitted scientific and medical evaluations and other recommendations that oxazepam(Serax®), flurazepam(Dalmane®), and clonazepam(Clonopin®), which are other members of the benzodiazepine class of drugs, be similarly placed in Schedule IV.

In his November 25, 1974, letter, the Assistant Secretary re-submitted an earlier recommendation made by his office that clorazepate(Tranxene®), another member of the benzodiazepine class, be placed in Schedule IV.

The recommendation and evaluation, and the supporting documentation concerning chlorazepate were originally submitted on November 1, 1972, and February 7, 1973, respectively. However, control proceedings were not commenced at that time by the Bureau of Narcotics and Dangerous Drugs (BNDD, predecessor agency to DEA), because of pending proceedings involving Librium ® and Valium ®. The Assistant Secretary's letter of November 25, 1974, which requests that proceedings be initiated to control all the above-listed members of the benzodiazepine class of drugs, is set out as follows:

NOVEMBER 25, 1974.

JOHN R. BARTELS, JR.,
Administrator,
Drug Enforcement Administration,
Washington, D.C.

DEAR MR. BARTELS: The Drug Enforcement Administration recommended that chlordiazepoxide (Librium) and diazepam(Valium) be controlled in Schedule IV of the Public Law 91-513 (the Controlled Substances Act) and requested in August 1973, that the Department of Health, Education, and Welfare (DHEW) review the scientific and medical aspects of this proposal. This review was postponed pending the establishment of the FDA Controlled Substances Advisory Committee and a complete review of the benzodiazepine class of drugs.

This recommendation has now been reviewed by the appropriate agencies within DHEW, and the FDA Controlled Substances Advisory Committee. We have concluded that Schedule IV controls for chlordiazepoxide and diazepam are appropriate and justifiable under the provisions of the CSA.

As noted above, the review of chlordiazepoxide and diazepam was expanded to include other members of the benzodiazepine class of drugs. As a result of this evaluation we also recommend that flurazepam (Dalmane) and oxazepam (Serax), both of which are marketed drugs, be controlled in Schedule IV and reaffirm our previously forwarded recommendation for similar controls on chlorazepate (Tranxene). In addition, data on clonazepam, an unmarketed investigative drug, were evaluated. We recommend that, should the New Drug Application for clonazepam be approved, it be controlled in Schedule IV at the time of marketing.

A summary of the basis for these recommendations is enclosed. Briefly, extensive documentation of the medical and scientific aspects of the dependence liability and potential for abuse of chlordiazepoxide and diazepam was developed during the several years of hearings held on the subject of control. These documents and findings, although developed under the criteria established by the Drug Abuse Control Amendments of 1965, constitute an ample basis for support of Schedule IV controls under the Controlled Substances Act of 1970. It is our best judgment, based on analysis of presently available data, that none of the other benzodiazepines (oxazepam, chlorazepate, flurazepam and clonazepam) possess a potential for abuse and a dependence liability which is significantly different from that of chlordiazepoxide and diazepam.

The quantum of evidence delineating the dependence liability or potential for abuse (and the consequent risk to public health) differs for each benzodiazepine. For example, specific testing to determine these factors has not, to our knowledge, been performed with clonazepam.

Yet its pharmacological profile strongly suggests that these factors would be the same as those for benzodiazepines on which testing and clinical experience have demonstrated a potential for abuse and dependence.

Reasonable predictions of this type, although they can never be made with absolute certainty, are not unusual in making scientific or medical judgment. This line of thought has been the basis of our "class-action" approach to the evaluation of drugs for control.

We have learned for example from experiences with methaqualone and phenmetrazine, that drugs have been marketed with a claim that they were not abusable. Subsequently, after marketing or after restrictions on similar drugs, such as the barbiturates and amphetamines, these become subject to serious and significant abuse. In retrospect we observed that the differences between their pharmacological profiles and those of related drugs were not as important as the similarities.

Appropriate members of FDA staff will be available to assist the Drug Enforcement Administration in evaluating aspects of this recommendation or will make available relevant information which you may need for the operational procedures at DEA. In particular, the Drug Abuse Staff of the Food and Drug Administration is in possession of several volumes of material which have been considered by the Controlled Substances Advisory Committee in making its evaluation. In order to facilitate this exchange of information FDA staff are authorized to transmit relevant materials directly to appropriate members of DEA Staff. Dr. Barrett Scoville, Director, Division of Neuropharmacological Drug Products will act as liaison for transmittal of information.

Sincerely yours,

CHARLES C. EDWARDS, M.D.,
Assistant Secretary for Health.

Upon receipt of this letter, the Drug Enforcement Administration undertook a review of the following: (1) Materials submitted to DEA by the Department of Health, Education and Welfare with the letter of November 25, 1974; (2) materials submitted to BNDD by the Department of Health, Education and Welfare on February 7, 1973, in support of its letter of November 1, 1972; (3) materials on file with the Food and Drug Administration, and the Drug Enforcement Administration; (4) published scientific and medical literature from the United States and other nations regarding this drug; (5) selected investigatory files compiled for law enforcement purposes by the Drug Enforcement Administration; and (6) the legislative history of the Controlled Substances Act.

Based upon the investigations and review of the Drug Enforcement Administration and upon the scientific and medical evaluations and recommendations of the Secretary of Health, Education, and Welfare, received pursuant to sections 201(a) and 201(b) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 811(a) and 811(b)), the Administrator of the Drug Enforcement Administration finds that:

1. Based on information now available, chlordiazepoxide, diazepam, oxazepan, chlorazepate, flurazepam, and clonazepam have a low potential for abuse relative to the drugs or other substances currently listed in Schedule III.

2. Chlordiazepoxide, diazepam, oxazepam, chlorazepate, and flurazepam have a currently accepted medical use in treatment in the United States.

3. Clonazepam will, upon the approval of New Drug Application by the FDA, have a currently accepted medical use in treatment in the United States.

4. Abuse of chlordiazepoxide, diazepam, oxazepam, chlorazepate, and clonazepam may lead to limited physical dependence or psychological dependence relative to the drugs or other substances in Schedule III.

Therefore, under the authority vested in the Attorney General by section 201(a) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 811(a)), and delegated to the Administrator of the Drug Enforcement Administration by § 0.100 of Title 28 of the Code of Federal Regulations, the Administrator proposes that, upon approval of the New Drug Application for clonazepam by FDA, § 1308.14 of Title 21 of the Code of Federal Regulations (CFR) be amended to read:

§ 1308.14 Schedule IV.

* * * * *

(b) Depressants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1)	Barbital	2145
(2)	Chloral betaine	2460
(3)	Chloral hydrate	2465
(4)	Chlorazepate	2768
(5)	Chlordiazepoxide	2744
(6)	Clonazepam	2737
(7)	Diazepam	2765
(8)	Ethchlorvynol	2540
(9)	Ethinamate	2545
(10)	Flurazepam	2767
(11)	Mebutamate	2800
(12)	Meprobamate	2820
(13)	Methohexital	2264
(14)	Methylphenobarbital	2250
(15)	Oxazepam	2835
(16)	Paraldehyde	2585
(17)	Petrichloral	2591
(18)	Phenobarbital	2285

* * * * *

All interested persons are invited to submit their comments or objections in writing regarding this proposal. The comments or objections should state with particularity the issues concerning which the person desires to be heard. Comments and objections should be submitted in quintuplicate to the Hearing Clerk, Office of the Administrative Law Judge, Drug Enforcement Administration, Department of Justice, Room 1130, 1405 Eye Street N.W., Washington, D.C. 20537, and must be received no later than March 28, 1975.

In the event that an interested party submits objections to this proposal which present reasonable grounds for this rule not to be finalized and requests a hearing in accordance with 21 CFR 1308.45, the party will be notified by registered mail that a hearing on these objections will be held as soon as the matter may be heard at the Drug Enforcement Administration, 1405 Eye Street, NW., Washington, D.C. 20537. If objections submitted do not present such reasonable grounds, the party will be so advised by registered mail.

If no objections presenting reasonable grounds for a hearing on the proposal are received within the time limitations, and all interested parties waive or are deemed to waive their opportunity for the hearing or to participate in the hearing, the Administrator may, without a hearing, and, after giving consideration to written comments, issue his final order pursuant to 21 CFR 1308.48 without a hearing.

Dated: January 22, 1975.

JOHN R. BARTELS, Jr.,
Administrator,
Drug Enforcement Administration.

VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS

Notice of Proposed Rulemaking

Notice is hereby given in accordance with the provisions contained in section 553 of Title 5, United States Code, that it is proposed to amend certain of the regulations relating to viruses, serums, toxins, and analogous products in Part 113 of Title 9, Code of Federal Regulations, issued pursuant to the provisions of the Virus-Serum-Toxin Act of March 4, 1913 (21 U.S.C. 151-158).

These proposed amendments would provide a new two stage potency test to simultaneously evaluate the Eastern and the Western fractions of Encephalomyelitis Vaccine. This new test would replace the two tests currently being used for this product. This test has been developed as a cooperative endeavor between the Veterinary Services Laboratories and the biologics industry.

It is proposed to revise § 113.127(b) to read as follows:

§ 113.127 Encephalomyelitis Vaccine, Eastern and Western, Killed Virus.

* * * * *

(b) *Potency test.* Bulk or final container samples of completed product from each serial shall be tested for potency in accordance with the two stage test provided in this paragarph. The serological interpretations required in this test shall be made for the Eastern Type fraction and the Western Type fraction independent of each other except that a serial or subserial found unsatisfactory for either fraction shall not be released.

(1) For this test, a guinea pig dose shall be one-half the amount recommended on the label for a horse and shall be administered as recommended for a horse. Each of 10 healthy guinea pigs (vaccinates) shall be injected with two guinea pig doses with an interval of 14 to 21 days between doses. Two additional guinea pigs from the same source shall be held as controls.

(2) Fourteen to 21 days after the second injection, serum samples from each vaccinate and each control shall be tested by the plaque reduction serum neutralization test.

(3) If the control serum samples show a titer greater than 1:2 for either or both fractions, the test is inconclusive for that fraction or fractions, as the case may be, and may be repeated; *Provided,* That, if 4 or more of the vaccinate serum samples show a titer of less than 1:4 for the Eastern type fraction or less than 1:32 for the Western type fraction, the serial or subserial is unsatisfactory without further testing.

(4) If 2 or 3 of the vaccinate serum samples show a titer of less than 1:4 for the Eastern type fraction or less than 1:32 for the Western type fraction or both, the second stage may be used; *Provided,* That, if 1 or less such samples meet the titer requirements for one fraction in the first stage, such fraction need not be retested. Otherwise, the second stage shall be conducted in a manner identical to the first stage.

(5) If the second stage is used and 4 or more of the vaccinate serum samples show a titer of less than 1:4 for the Eastern type fraction or less than 1:32 for the Western type fraction, the serial or subserial is unsatisfactory.

(6) The results shall be evaluated according to the following table:

Cumulative totals

Stage	Vaccinates	Failures for acceptance	Failures for rejection
1	10	1 or less	4 or more.
2	20	3 or less	Do.

Interested parties are invited to submit written data, views, or arguments regarding the proposed regulations to Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 828-A, Federal Building, Hyattsville, Maryland 20782. All comments received on or before February 28, 1975, will be considered.

All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business. (7 CFR 1.27 (b)).

Done at Washington, D.C. this 22nd day of January, 1975.

J. M. HEJL,
Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[Hearing Docket CE-P19]

LIVE SLAUGHTER CATTLE, LIVE HOGS, AND FROZEN PORK BELLIES

Proposed Limits on Position and Daily Trading

Section 4a of the Commodity Exchange Act (7 U.S.C. 6a) directs that, for the purpose of diminishing, elim-

V40118 JAN27 75 XUM

inating, or preventing excessive speculation in any commodity named in the Act, the Commodity Exchange Commission shall, from time to time, after due notice and opportunity for hearing, proclaim and fix such limits on the amount of daily trading which may be done, and positions which may be held, by any person under contracts of sale of such commodity for future delivery on or subject to the rules of any contract market as the Commission finds are necessary for such purpose.

Notice is hereby given that it is proposed by the Commodity Exchange Authority that the Commodity Exchange Commission establish limits on (1) the maximum net long or net short positions in live slaughter cattle, live hogs, and frozen pork bellies, respectively, which any person may hold or control under contracts of sale for future delivery on or subject to the rules of any contract market, and (2) the maximum amount of live slaughter cattle, live hogs, and frozen pork bellies, respectively, which any person directly or indirectly may buy or sell under contracts of sale for future delivery on or subject to the rules of any contract market, on any one business day.

The proposed limits on any person's positions and daily trading would not apply to transactions and positions which are shown to be bona fide hedging transactions and positions as provided in regulations issued pursuant to section 4a(3) of the Commodity Exchange Act (7 U.S.C. 6a(3)) and section 404 of Pub. L. 93–463.

The Orders which the Commodity Exchange Authority proposes be issued by the Commodity Exchange Commission concerning limits on positions and daily trading in live slaughter cattle, live hogs, and frozen pork bellies are respectively as follows. It is proposed to add §§ 150.12, 150.13, and 150.14 to read as follows:

§ 150.12 Limits on position and daily trading in live slaughter cattle for future delivery.

The following limits on the amount of trading under contracts of sale of live slaughter cattle for future delivery on or subject to the rules of any contract market, which may be done by any person, are hereby proclaimed and fixed, to be in full force and effect on and after [date to be inserted at time of issuance of order]:

(a) *Position limit.* The limit on the maximum net long or net short position any person may hold or control in live slaughter cattle on or subject to rules of any one contract market is 120,000 cwt. in any one future and 240,000 cwt. in all futures combined.

(b) *Daily trading limit.* The limit on the maximum amount of live slaughter cattle which any person may buy, and the maximum amount which any one person may sell, on or subject to the rules of any one contract market during any one business day is 120,000 cwt. in any one future and 240,000 cwt. in all futures combined.

(c) *Bona fide hedging.* The foregoing limits upon position and upon daily trading shall not be construed to apply to bona fide hedging transactions or positions, as provided in regulations issued pursuant to section 4a(3) of the Commodity Exchange Act (7 U.S.C. 6a(3)) and section 404 of Pub. L. 93–463.

(d) *Manipulations; corners; responsibility of contract market.* Nothing contained in this section shall be construed to affect any provisions of the Commodity Exchange Act relating to manipulation or corners, nor to relieve any contract market or its governing board from responsibility under section 5(d) of the Commodity Exchange Act (7 U.S.C. 7(d)) to prevent manipulation and corners.

(e) *Definition.* As used in this part, the word "person" imports the plural or singular and includes individuals, associations, partnerships, corporations, and trusts.

(f) *Application of limits.* The foregoing limits upon positions and daily trading shall be construed to apply, respectively, to positions held by, and trading done by, two or more persons acting pursuant to an expressed or implied agreement or understanding, the same as if the positions were held by or the trading were done by, a single individual.

§ 150.13 Limits on position and daily trading in live hogs for future delivery.

The following limits on the amount of trading under contracts of sale of live hogs for future delivery on or subject to the rules of any contract market, which may be done by any person, are hereby proclaimed and fixed, to be in full force and effect on and after [date to be inserted at time of issuance of order]:

(a) *Position limit.* The limit on the maximum net long or net short position which any person may hold or control in live hogs on or subject to rules of any one contract market is 60,000 cwt. in any one future and 120,000 cwt. in all futures combined.

(b) *Daily trading limit.* The limit on the maximum amount of live hogs which any person may buy, and the maximum amount which any one person may sell, on or subject to the rules of any one contract market during any one business day is 60,000 cwt. in any one future and 120,000 cwt. in all futures combined.

(c) *Bona fide hedging.* The foregoing limits upon position and upon daily trading shall not be construed to apply to bona fide hedging transactions or positions, as provided in regulations issued pursuant to section 4a(3) of the Commodity Exchange Act (7 U.S.C. 6a(3)) and section 404 of Pub. L. 93–463.

(d) *Manipulations; corners; responsibility of contract market.* Nothing contained in this section shall be construed to affect any provisions of the Commodity Exchange Act relating to manipulation or corners, nor to relieve any contract market or its governing board from responsibility under section 5(d) of the Commodity Exchange Act (7 U.S.C. 7(d)) to prevent manipulation and corners.

(e) *Definition.* As used in this part, the word "person" imports the plural or singular and includes individuals, associations, partnerships, corporations, and trusts.

(f) *Application of limits.* The foregoing limits upon positions and daily trading shall be construed to apply, respectively, to positions held by, and trading done by, two or more persons acting pursuant to an expressed or implied agreement or understanding, the same as if the positions were held by or the trading were done by, a single individual.

§ 150.14 Limits on position and daily trading in frozen pork bellies for future delivery.

The following limits on the amount of trading under contracts of sale of frozen pork bellies for future delivery on or subject to the rules of any contract market, which may be done by any person, are hereby proclaimed and fixed, to be in full force and effect on and after [date to be inserted at time of issuance of order]:

(a) *Position limit.* The limit on the maximum net long or net short position which any person may hold or control in frozen pork bellies on or subject to rules of any one contract market is 54,000 cwt. in any one future and 90,000 cwt .in all futures combined.

(b) *Daily trading limit.* The limit on the maximum amount of frozen pork bellies which any person may buy, and the maximum amount which any one person may sell, on or subject to the rules of any one contract market during any one business day is 54,000 cwt. in any one future and 90,000 cwt. in all futures combined.

(c) *Bona fide hedging.* The foregoing limits upon position and upon daily trading shall not be construed to apply to bona fide hedging transactions or positions, as provided in regulations issued pursuant to section 4a(3) of the Commodity Exchange Act (7 U.S.C. 6a(3)) and section 404 of Pub. L. 93–463.

(d) *Manipulations; corners; responsibility of contract market.* Nothing contained in this section shall be construed to affect any provisions of the Commodity Exchange Act relating to manipulation or corners, nor to relieve any contract market or its governing board from responsibility under section 5(d) of the Commodity Exchange Act (7 U.S.C. 7(d)) to prevent manipulation and corners.

(e) *Definition.* As used in this part, the word "person" imports the plural or singular and includes individuals, associations, partnerships, corporations, and trusts.

(f) *Application of limits.* The foregoing limits upon positions and daily trading shall be construed to apply, respectively, to positions held by, and trading done by, two or more persons acting pursuant to an expressed or implied agreement or understanding, the same as if the positions were held by or the trading were done by, a single individual.

If any interested person desires a hearing with reference to this proposed regulation, he should make a request to that effect stating the reasons therefor, addressed to the Administrator, Commodity Exchange Authority, U.S. Department of Agriculture, Washington, D.C. 20250, on or before March 13, 1975.

Written statements with reference to the subject matter of this proposal may be submitted by any interested person. Such statements should be mailed to the Administrator of the Commodity Exchange Authority prior to March 13, 1975.

The transcript of the proceedings at any hearing which may be held and all written submissions made pursuant to this notice will be made available for public inspection in the Office of the Administrator, Commodity Exchange Authority, during regular business hours.

Issued: January 22, 1975.

ALEX C. CALDWELL,
Administrator,
Commodity Exchange Authority.

Commodity Credit Corporation

[7 CFR Parts 1421, 1446]

LOAN AND PURCHASE PROGRAM FOR 1975 CROP PEANUTS

Notice of Proposed Rulemaking

Notice is hereby given that the Secretary of Agriculture proposes to make determinations and issue regulations concerning a loan and purchase program for 1975 crop peanuts. This notice also provides that interested persons may submit to the office designated below written data, views and recommendations concerning the proposals not later than the date stated herein.

It is proposed that the general regulations governing 1974 and subsequent crop peanut warehouse storage loans (39 FR 25949—July 15, 1974) will continue in effect for the 1975 crop. New regulations to be issued will be a 1975 crop supplement to the general regulations. These regulations will include (1) loan and purchase rates by types of peanuts, (2) premiums and discounts, and (3) other operating provisions necessary to carry out the program.

Authority for such actions are sections 101, 401, and 403 of the Agricultural Act of 1949, as amended, (63 Stat. 1051, as amended; 7 USC 1441, 1421, and 1423), and sections 4 and 5 of the Commodity Credit Corporation Charter Act, as amended, (62 Stat. 1070, as amended (15 USC 714b, 714c)).

Section 101 of the Agricultural Act of 1949 directs the Secretary to make support available on peanuts to cooperators, if producers have not disapproved marketing quotas, at a level between 75 and 90 percent of the parity price, with the minimum permissible level of support within such range to be determined by the supply percentage.

Section 401 of that act requires that in determining the level of support in excess of the minimum level provided by law, consideration be given to the supply of the commodity in relation to the demand therefor, the levels of which other commodities are being supported, the availability of funds, the perishability of the commodity, the importance of the commodity to agriculture and the national economy, the ability to dispose of stocks acquired through a support operation, the need for offsetting temporary losses of export markets, and the ability and willingness of producers to keep supplies in line with demand.

Section 403 of the act provides that appropriate adjustments may be made in the support level for differences in grade, type, quality, location and other factors. The average of any such adjustments shall, so far as practicable, be equal to the level of support for peanuts for the applicable crop year determined in accordance with the Agricultural Act of 1949, as amended.

Current program provisions regarding peanut warehouse storage loans may be found in regulations in Title 7, Part 1446 of the Code of Federal Regulations. Current program provisions regarding peanut farm storage loans may be found in regulations governing loans, purchases and other operations for grain and similarly handled commodities which appear in Title 7, Part 1421 of the Code of Federal Regulations.

Prior to making any of the foregoing determinations, consideration will be given to data, views and recommendations which are submitted in writing to the Director, Tobacco and Peanut Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250. In order to be sure of consideration, all submissions must be postmarked on or before February 28, 1975.

All written submissions made pursuant to this notice will be made available for inspection from 8:15 a.m. to 4:45 p.m. Monday through Friday, in Room 6741 South Building, 14th and Independence Avenue, SW., Washington, D.C. (7 CFR 1.27(b)).

Signed at Washington, D.C. on January 22, 1975.

KENNETH E. FRICK,
Executive Vice President,
Commodity Credit Corporation.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1910]

STANDARDS COMPLETION PROJECT

Camphor, Chloroacetaldehyde, Alpha-Chloroacetophenone, Mesityl Oxide, 5-Methyl- 3-Heptanone, P-Nitroaniline, Ozone, Pival

ADVANCE NOTICE OF PROPOSED RULEMAKING

On March 18, 1974, the Assistant Secretary of Labor for Occupational Safety and Health announced the joint OSHA/NIOSH Standards Completion Project. The purpose of the project is to issue completed standards for all the toxic materials listed in Tables G–1, G–2, and G–3 of 20 CFR 1910.93, with the exception of some substances which are or will be the subjects of NIOSH Criteria Documents. These exceptions will be the subjects of separate rulemaking proceedings, outside of the Standards Completion Project.

Section 1910.93 lists exposure limits for certain hazardous or toxic substances. The new standards will establish requirements for monitoring employee exposure, medical surveillance, methods of compliance, handling and use of liquid forms of the substance, employee training, record-keeping, and sanitation and housekeeping, among other things. In addition, the proposals are also designed to enable employers to better understand and comply with existing OSHA safety standards. The exposure limits listed in § 1910.93 are not at issue in the proposals, and no changes to these limits will be proposed or made in the standards issued as part of the Standards Completion Project.

The Office of Standards Development, Occupational Safety and Health Administration, U.S. Department of Labor invites public participation in the development of the proposed standards. Drafts of the technical content of proposed standards have been prepared for the following substances: Camphor, Chloroacetaldehyde, Alpha-Chloroacetophenone [Phenacyl Chloride], Mesityl oxide, 5-Methyl-3-Heptanone, P-Nitroaniline, Ozone, Pival [2-Pivalyl -1, 3-Indandione]. These draft technical standards reflect only the technical intent of NIOSH and OSHA and do not necessarily contain the specific language which will appear in the proposed standards.

Interested persons are invited to submit written data, views and arguments concerning these drafts or the program in general. Comments are requested concerning requirements of each section of the draft technical standards and alternatives to the provisions of each section. Information submitted in response to the Notice of Intent to Prepare an Environmental Impact Statement, published in the FEDERAL REGISTER on September 20, 1974 (39 FR 33843) need not be resubmitted.

Communications should be submitted to the Docket Officer, Standards Completion Project, Occupational Safety and Health Administration, U.S. Department of Labor, Room 260, 1726 M Street NW., Washington, D.C. 20210, postmarked no later than February 21, 1975. The communications will be available for public inspection and copying at the above location.

Copies of the draft technical standards on the above listed substances are available for inspection and copying, upon request, at the above address and at any of the following OSHA regional and area offices:

APPROVED CALIFORNIA PLAN

Proposed Supplements

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for review of changes and progress in the development and implementation of State plans which have been approved under section 18(c) of the Act and Part 1902 of this chapter. On May 1, 1973, a notice was published in the FEDERAL REGISTER concerning the approval of the California plan and of the adoption of Subpart K of Part 1952 containing the decision (38 FR 10717). On November 7, 1974, the State of California submitted supplements to the plan involving a developmental change (see Subpart B of 29 CFR Part 1953) and a State initiated change (see Subpart E of 29 CFR Part 1953).

The decision approving the California plan incorporated assurances from the State that enabling legislation would be enacted within one (1) year of plan approval. That goal was met on October 23, 1973, following the enactment of Assembly Bill No. 150 authorizing complete implementation of the State plan (see 39 FR 14723). However, it was discerned by the State that there were certain errors and inconsistencies in the enabling legislation which needed to be rectified. Accordingly, Assembly Bill 3335 was enacted by the California Legislature and signed by the Governor on September 23, 1974. The legislation became effective on January 1, 1975. Among other things, the Bill revises the jurisdiction of the Bureau of Investigations in the Division of Industrial Safety to those investigations for accidents involving serious injury to five or more employees rather than for any serious injury as originally enacted, thus making it more consistent with section 5313 of the California Labor Code; extends citation and penalty provisions to recordkeeping violations; and clarifies the authority of the Occupational Safety and Health Appeals Board where an employer files an appeal but fails to appear at the hearing.

The second supplement involves the establishment of a Management Information System. The State has established a complete system for providing evaluation data required by the Assistant Secretary of Labor for Occupational Safety and Health on a timely basis. Copies of forms and instructions in current use in this system are included in the supplement.

2. *Location of the plan and its supplements for inspection and copying.* A copy of the plan and its supplements may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room 850, 1726 M Street, N.W., Washington, D.C. 20210; Office of the Assistant Regional Director for Occupational Safety and Health, Room 9410, Federal Office Building, 450 Golden Gate Avenue, San Francisco, California 94102; California Occupational Safety and Health Administration, 1006 4th Street, Third Floor, Sacramento, California 95814; California Occupational Safety and Health Administration, 455 Golden Gate Avenue, Room 2152, San Francisco, California 94102; and Division of Industrial Safety, 3460 Wilshire Boulevard, Los Angeles, California 90010.

3. *Public participation.* Interested persons are hereby given until February 26, 1975, in which to submit written data, views and arguments concerning whether the supplement should be approved. Such submissions are to be addressed to the Associate Assistant Secretary for Regional Programs at his address as set forth above where they will be available for inspection and copying.

Any interested person may request an informal hearing concerning the proposed supplements, by filing particularized written objections with respect thereto within the time allowed for comments with the Associate Assistant Secretary for Regional programs. If in the opinion of the Assistant Secretary substantial objections are filed, which warrant further public discussion, a formal or informal hearing on the subjects and issues involved may be held.

The Assistant Secretary shall consider all relevant comments, arguments and requests submitted in accordance with this notice and shall thereafter issue his decision as to approval or disapproval of the supplements, make appropriate amendments to Subpart K of Part 1952 and initiate further appropriate proceedings if necessary.

(Secs. 8(g), 18, Pub. L. 91–596, 84 Stat. 1600, 1606 (29 U.S.C. 657(g), 667))

Signed at Washington, D.C., this 21st day of January 1975.

JOHN STENDER,
Assistant Secretary of Labor.

FEDERAL RESERVE SYSTEM

[12 CFR Part 271]

FEDERAL OPEN MARKET COMMITTEE

Freedom of Information Act; Availability of Information; Proposed Fee Schedule

Pursuant to its authority under section (a)(4)(A) of the Freedom of Information Act (5 U.S.C. 552), the Federal Open Market Committee proposes to amend § 271.4 of its rules regarding availability of information. The purpose of the proposed amendments is to specify a uniform schedule of fees for services performed in response to requests for records under the Freedom of Information Act.

The present schedule of fees appears at § 271.4(c) of Part 271 of Title 12 of the Code of Federal Regulations.

The proposed amendments will set the cost of the duplication of available information at 10 cents per standard page. The cost for search time will be $10 per hour. Furthermore, the charge for the retrieval and production of information through computer and other information program systems will not exceed the direct and reasonable costs of such services. Detailed schedules of such costs will be available upon request from the Secretary of the Committee. These schedules are not included in this notice because of their detailed nature. Finally, any or all of the above charges may be reduced or waived where the Secretary of the Committee finds that the public interest will be benefited.

To aid in the consideration of this matter by the Committee, interested persons are invited to submit relevant data, views, comments, or argument. Any such material should be submitted in writing to the Secretary, Federal Open Market Committee, Washington, D.C. 20551, to be received not later than February 13, 1975.

The Committee's Rules Regarding Availability of Information (12 CFR § 271) are proposed to be revised as follows: Paragraph (c) is proposed to be amended by ending the last sentence with the word "difficulty" and striking the remaining language in that sentence, and a new paragraph (to be designated later) is proposed to be added as follows:

§ 271.4 Records available to the public on request.

* * * * *

Fee schedule. A person requesting access to or copies of particular records shall pay the costs of searching and copying such records at the rate of $10 per hour for searching and 10 cents per standard page for copying. With respect to information obtainable only by processing through a computer or other information systems program, a person requesting such information shall pay a fee not to exceed the direct and reasonable cost of retrieval and production of the information requested. Detailed schedules of such charges are available upon request from the Secretary of the Committee. Documents may be furnished without charge or at a reduced charge where the Secretary of the Committee or such person as he may designate determines that waiver or reduction of the fee is in the public interest because furnishing the information can be considered as primarily benefiting the general public.

By order of the Federal Open Market Committee, January 21, 1975.

ARTHUR L. BROIDA,
Secretary.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[Order No. 97 (Rev. 12)]

ASSISTANT COMMISSIONERS ET AL.

Closing Agreements Concerning Internal Revenue Tax Liability; Delegation Order

Pursuant to authority granted to the Commissioner of Internal Revenue by 26 CFR 301.7121–1(a); Treasury Department Order No. 150–32, dated November 18, 1953; Treasury Department Order No. 150–36, dated August 17, 1954 (C.B. 1954–2, 733); and Treasury Department Order No. 150–83, dated August 21, 1973, subject to the transfer of authority covered in Treasury Department Order No. 221, dated June 6, 1972.

(1) The Assistant Commissioner (Technical) is hereby authorized in cases under his jurisdiction to enter into and approve a written agreement with any person relating to the Internal Revenue tax liability of such person (or of the person or estate for whom he acts) in respect of any prospective transactions or completed transactions affecting returns to be filed.

(2) The Assistant Commissioner (Compliance) is hereby authorized in cases under his jurisdiction to enter into and approve a written agreement with any person relating to the Internal Revenue tax liability of such person (or of the person or estate for whom he acts) for a taxable period or periods ended prior to the date of agreement and related specific items affecting other taxable periods. The Assistant Commissioner (Compliance) is also authorized to enter into and approve a written agreement with any person relating to the Internal Revenue tax liability of such person (or of the person or estate for whom he acts) with respect to the performance of his functions as the competent authority in the administration of the operating provisions of the tax conventions of the United States.

(3) The Assistant Commissioner (Employee Plans and Exempt Organizations) is hereby authorized to enter into and approve a written agreement with any person relating to the Internal Revenue tax liability of such person (or of the person or estate for whom he acts) in cases under his jurisdiction, that is, in respect of any transaction concerning employee plans or exempt organizations.

(4) Regional Commissioners; Assistant Regional Commissioners (Apellate); Assistant Regional Commissioners (Audit); District Directors; Director of International Operations; Chiefs and Assistant Chiefs of Appellate Branch Offices, are hereby authorized in cases under their jurisdiction (but excluding cases docketed before the United States Tax Court) to enter into and approve a written agreement with any person relating to the Internal Revenue tax liability of such person (or of the person or estate for whom he acts) for a taxable period or periods ended prior to the date of agreement and related specific items affecting other taxable periods.

(5) Regional Commissioners; Assistant Regional Commissioners (Employee Plans and Exempt Organizations); and District Directors are hereby authorized in cases under their jurisdiction, that is, in respect of any transaction concerning employee plans or exempt organizations, (but excluding cases docketed before the United States Tax Court) to enter into and approve a written agreement with any person relating to the Internal Revenue tax liability of such person (or of the person or estate for whom he acts).

(6) Regional Commissioners; Assistant Regional Commissioners (Appellate) and (Employee Plans and Exempt Organizations); Chiefs and Assistant Chiefs of Appellate Branch Offices, are hereby authorized in cases under their jurisdiction docketed in the United States Tax Court to enter into and approve a written agreement with any person relating to the Internal Revenue tax liability of such person (or of the person or estate for whom he acts) but only in respect to related specific items affecting other taxable periods.

(7) The Director of International Operations is hereby authorized to enter into and approve a written agreement with any person relating to the Internal Revenue tax liability of such person (or of the person or estate for whom he acts) to provide for the mitigation of economic double taxation under section 3 of Revenue Procedure 64–54, C.B. 1964–2, 1008, under Revenue Procedure 72–22, C.B. 1972–1, 747, and under Revenue Procedure 69–13, C.B. 1969–1, 402, and to enter into and approve a written agreement providing the treatment available under Revenue Procedure 65–17, C.B. 1965–1, 833.

(8) The authority delegated herein does not include the authority to set aside any closing agreement.

(9) Authority delegated in this Order may not be redelegated, except that the Assistant Commissioner (Technical) may redelegate the authority contained in paragraph 1 to the Deputy Assistant Commissioner (Technical) and to the Technical Advisors on the Staff of the Assistant Commissioner (Technical) for cases that do not involve precedent issues, the Assistant Commissioner (Compliance) may redelegate the authority contained in paragraph 2 of this Order to the Deputy Assistant Commissioner (Compliance), and the Assistant Commissioner (Employee Plans and Exempt Organizations) may redelegate the authority contained in paragraph 3 of this Order to the Deputy Assistant Commissioner (Employee Plans and Exempt Organizations) and to the Technical Advisors on the Staff of the Assistant Commissioner (Employee Plans and Exempt Organizations) for cases that do not involve precedent issues.

(10) Delegation Order No. 97 (Rev. 11) issued October 19, 1973, is hereby superseded.

Date of issue: January 16, 1975.

Effective date: January 16, 1975.

DONALD C. ALEXANDER,
Commissioner.

[Order No. 96 (Rev. 2)]

ASSISTANT COMMISSIONER (TECHNICAL) AND DEPUTY ASSISTANT COMMISSIONER (TECHNICAL)

Application of Rulings Without Retroactive Effect; Delegation of Authority

1. Pursuant to authority granted to the Commissioner of Internal Revenue by 26 CFR 301.7805–1(b), the Assistant Commissioner (Technical) and the Deputy Assistant Commissioner (Technical) are hereby authorized to prescribe the extent, if any, to which any ruling issued by or pursuant to authorization from the Assistant Commissioner relating to the internal revenue laws shall be applied without retroactive effect, except with respect to:

a. Alcohol, tobacco, and firearms laws imposed under Subtitle E of the Internal Revenue Code.

b. Internal revenue laws specifically applicable to employee plans, exempt organizations (other than IRC 521, exemption of farmers' cooperatives from tax), and actuarial determinations.

2. Pursuant to authority granted to the Commissioner of Internal Revenue by 26 CFR 301.7805–1(b), the Assistant Commissioner (Employee Plans and Exempt Organizations) and the Deputy Assistant Commissioner (Employee Plans and Exempt Organizations) are hereby authorized to prescribe the extent, if any, to which any ruling issued by or pursuant to authorization from the Assistant Commissioner relating to 1b. above, shall be applied without retroactive effect.

V40118 JAN 27 75 XUM

3. This authority may not be redelegated.

4. This Order supersedes Delegation Order No. 96 (Rev. 1) issued August 31, 1972, which superseded Delegation Order No. 96, dated October 27, 1964.

Date of issue: January 15, 1975.

Effective date: January 15, 1975.

DONALD C. ALEXANDER,
Commissioner.

DEPARTMENT OF DEFENSE

Department of the Navy

INTERIM STANDARD AIRBORNE DIGITAL COMPUTER (ISADC)

Project Briefing; Notice of Meeting

The Naval Air Systems Command is planning the procurement of an Interim Standard Airborne Digital Computer (ISADC) for use in Naval airborne weapon systems prior to the availability of the All Applications Digital Computer (AADC). The ISADC will be a militarized, modularly partitioned, simplex computer using presently available, off-the-shelf hardware and software.

An ISADC briefing will be held on February 4, 1975, at 8 a.m., at the Holiday Inn, National Airport, Arlington, Virginia. The purpose of the briefing is to acquaint private and Government sectors with the technical goals and the procurement strategy of the ISADC project, as presently formulated in a Preliminary Specification, Preliminary Deliverables, and Project Plan, and to solicit comments and constructive criticism from those in attendance. As space and time will be limited, it is requested that organizations limit their attendance to two persons per organization.

The ISADC has been identified by the Manager, Electronic Standardization for the Department of Defense, as a likely candidate for multisource "From-Fit-Function" procurement action.

The Preliminary Specification, Preliminary Deliverables List, and Project Plan are being distributed to all organizations listed on the Naval Air Systems Command Master Bidders List under the heading of Computer and Control Systems (Computers). Other parties desirous of participating in the ISADC briefings are requested to provide written request for the Preliminary Specification, Preliminary Deliverables List, and Project Plan to the address listed below by January 31, 1975. Requests should provide complete mail and telephone-contact information. Forward requests to the ISADC Project, Code 53313, Naval Air Systems Command, Washington, D.C. 20361. Telephone inquiries may be made to Mr. R. Entner, Mr. H. Mendenhall, or Mr. R. Balestra at (202) 692-6474, 692-6475, 692-6476, or 692-6477.

Dated January 17, 1975.

H. B. ROBERTSON, Jr.,
Rear Admiral, JAGC, U.S. Navy
Acting Judge Advocate General.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. 74-8]

MAURICE W. ROSENBERG, M.D.

Revocation of Registration

On August 8, 1974, a hearing was held before Administrative Law Judge George A. Koutras on the issues raised by an Order to Show Cause directed to Maurice W. Rosenberg, M.D., as to why his DEA registration AR1435709 should not be revoked.

The Order to Show Cause was predicated on the April 15, 1974 conviction of Dr. Rosenberg in the United States District Court for the Central District of California on all twenty-seven counts of an indictment charging him with unlawful distribution of controlled substances in Schedules II, III and IV, in violation of Title 21, United States Code, Section 841(a)(1) and Title 18, United States Code, Section 2(b). Dr. Rosenberg was sentenced to two years imprisonment on each of the twenty-seven counts to run concurrently and fined $20,000. Execution of the sentence of imprisonment was suspended and Dr. Rosenberg, who was 73 or 74 years of age at the time of sentencing, was placed on three years probation.

Title 21, United States Code, Section 824(a)(2) provides that a registration to manufacture, distribute or dispense controlled substances may be suspended or revoked on a finding that the registrant has been convicted of a felony relating to a controlled substance.

The Administrative Law Judge found as a matter of law that Dr. Rosenberg had been convicted of such a felony and the Administrator concurs in that finding as a matter of fact and as a matter of law.

The Administrative Law Judge also found as a matter of law that Dr. Rosenberg's conviction was sufficient to permit the Administrator to exercise his authority to suspend or revoke Dr. Rosenberg's registration although an appeal from that conviction was then pending. This finding of law is consistent with the position taken by administrative law judges in previous matters in which the issue of pending appeals was raised. See In the Matter of Leonard S. Cohen, 38 F.R. 9522, April 17, 1973; In the Matter of Dr. Carl Oslin Ramzy, 36 F.R. 24077, December 18, 1971. The Administrator concurs in this finding of law.

The Administrative Law Judge found as a matter of law that "there is substantial evidence on the record" for the Administrator to suspend or revoke Dr. Rosenberg's registration. The record is clear and the Administrator, therefore, concurs in that finding of law.

The Administrative Law Judge recommends to the Administrator that Dr. Rosenberg's registration be revoked as to two of the Schedule II drugs involved in his conviction and that his registration authorizing him to dispense all other drugs be suspended for twelve months. Before considering the recommendation, the Administrator believes it necessary to comment on the basis for that recommendation as set forth by the Administrative Law Judge under the heading "Discussion."

The Administrative Law Judge has correctly stated the Administrator's discretion to suspend or revoke a registration in the event of a drug related felony. He apparently believes that to aid in the exercise of that discretion the administrative hearing should consider, in part at least, whether the jury's verdict was correct on various counts of the indictment. Thus, under "Discussion," we find comments on whether Dr. Rosenberg's conviction "indicates conduct exceeding the scope of his legitimate professional medical practice." As to some of the counts, the Administrative Law Judge seems to have found that Dr. Rosenberg's conduct did exceed the scope of legitimate practice; as to others he "cannot conclude that no physician-patient relationship existed."

Insofar as these comments indicate a position that the Federal district court jury reached incorrect verdicts on some counts or that the Federal district court judge may even have erred in permitting some counts to reach the jury, the Administrator rejects the position. It cannot be the function of an administrative hearing to review the correctness of the verdict in a criminal case upon which an order to show cause is based. Neither an administrative law judge nor an Administrator is authorized to act as an appellate tribunal. The Administrator therefore finds, as a matter of law, that as to each of the twenty-seven counts on which Dr. Rosenberg was convicted every element of the offense charged has been proved beyond a reasonable doubt.

This is not to say that the character of the criminal conduct underlying the Order to Show Cause cannot be considered by the Administrator in the exercise of his discretionary authority. Obviously some crimes are worse than others. The Administrator finds little that is ameliorative in the Administrative Law Judge's comment that "aside from his criminal conviction there is nothing of record to suggest that he (Dr. Rosenberg) has otherwise run afoul of the law or that his practice of medicine has ever been called into question." The indictment in this case charges continuous criminal activity over a four month period which ended only with the doctor's arrest. The fact of no prior record is a frail reed with which to defend against such disregard of the public health and safety.

The Administrator does agree with the Administrative Law Judge that Dr. Rosenberg's medical service for many elderly patients over many years should be considered. It is clear from the testimony of these patients at the hearing that they trust Dr. Rosenberg; that they rely on him and that they express fear and anxiety over the possible curtailment of his ability to practice medicine. It is in the interests of these people that less than outright revocation of Dr. Rosenberg's registration can even be considered.

The Administrator cannot accept the recommendation that Dr. Rosenberg's registration be revoked as to two particular drugs in Schedule II. Such revocation in the case of a practitioner is impracticable since there is no way for a pharmacy to know that a doctor registered to prescribe in a particular schedule is unable to prescribe as to part of that schedule. The solution, which to the Administrator seems best to fit the total situation, would be to revoke Dr. Rosenberg's registration as to the most dangerous drugs and permit him to continue his registration for those of lesser danger. This action would relieve the doctor, who is after all 74 years of age, from the responsibility of any connection with those drugs most sought after by addicts and by traffickers. In the interest of Dr. Rosenberg's elderly patients, he should be permitted to dispense drugs in the lower schedules without a period of suspension.

Therefore, under the authority vested in the Attorney General by Section 304 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 824), and redelegated to the Administrator of the Drug Enforcement Administration, by Section 0.100, as amended, Title 28, Code of Federal Regulations, the Administrator orders that the Certificate of Registration issued to Maurice W. Rosenberg, M.D. (DEA Registration AR1435709) be revoked and that upon proper application by Dr. Rosenberg, a new registration limited to Schedules III, IV and V be issued. The revocation of DEA Registration AR1435709 shall be effective on publication of this order in the FEDERAL REGISTER.

Dated: January 21, 1975.

OCCUPATION: Film Maker

5. IF "APPLICANT" IS A BUSINESS, CORPORATION, PUBLIC AGENCY, OR INSTITUTION, COMPLETE THE FOLLOWING:
EXPLAIN TYPE OR KIND OF BUSINESS, AGENCY, OR INSTITUTION
National Film Board of Canada - a non-profit Government Film Agency.

ANY BUSINESS, AGENCY, OR INSTITUTIONAL AFFILIATION HAVING TO DO WITH THE WILDLIFE TO BE COVERED BY THIS LICENSE/PERMIT
The Dept. of the Interior, U.S. Fisheries and Wildlife is co-sponsoring this project with the Canadian Wildlife Service and the Nat'l. Film Board.

NAME, TITLE, AND PHONE NUMBER OF PRESIDENT, PRINCIPAL OFFICER, DIRECTOR, ETC.

IF "APPLICANT" IS A CORPORATION, INDICATE STATE IN WHICH INCORPORATED
MONTREAL, QUEBEC, CANADA

6. LOCATION WHERE PROPOSED ACTIVITY IS TO BE CONDUCTED
The Aransas National Wildlife Refuge.

7. DO YOU HOLD ANY CURRENTLY VALID FEDERAL FISH AND WILDLIFE LICENSE OR PERMIT? ☐ YES ☒ NO
(If yes, list license or permit number)

8. IF REQUIRED BY ANY STATE OR FOREIGN GOVERNMENT, DO YOU HAVE THEIR APPROVAL TO CONDUCT THE ACTIVITY YOU PROPOSE? ☒ YES ☐ NO
(If yes, list jurisdictions and type of documents)

9. CERTIFIED CHECK OR MONEY ORDER (If applicable) PAYABLE TO THE U.S. FISH AND WILDLIFE SERVICE ENCLOSED IN AMOUNT OF
$

10. DESIRED EFFECTIVE DATE: Feb. 15/75

11. DURATION NEEDED: Two Weeks

12. ATTACHMENTS. THE SPECIFIC INFORMATION REQUIRED FOR THE TYPE OF LICENSE/PERMIT REQUESTED (See 50 CFR 13.12(a) (1)) MUST BE ATTACHED. IT CONSTITUTES AN INTEGRAL PART OF THIS APPLICATION. LIST SECTIONS OF 50 CFR UNDER WHICH ATTACHMENTS ARE PROVIDED.

CERTIFICATION

I HEREBY CERTIFY THAT I HAVE READ AND AM FAMILIAR WITH THE REGULATIONS CONTAINED IN TITLE 50, PART 13, OF THE CODE OF FEDERAL REGULATIONS AND THE OTHER APPLICABLE PARTS IN SUBCHAPTER B OF CHAPTER I OF TITLE 50, AND I FURTHER CERTIFY THAT THE INFORMATION SUBMITTED IN THIS APPLICATION FOR A LICENSE/PERMIT IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE AND BELIEF. I UNDERSTAND THAT ANY FALSE STATEMENT HEREIN MAY SUBJECT ME TO THE CRIMINAL PENALTIES OF 18 U.S.C. 1001.

COOPERATIVE FILM PRODUCTION AND DISTRIBUTION PROJECT

by

UNITED STATES FISH AND WILDLIFE SERVICE
CANADIAN WILDLIFE SERVICE

and

NATIONAL FILM BOARD OF CANADA

[Agreement No. 14-16-0008-1148]

This agreement, made this 27th day of June 1974, is entered into by the (1) United States Fish and Wildlife Service, Department of the Interior, hereinafter referred to as the "U.S. Service", (2) Department of Environment of Canada, Canadian Wildlife Service, hereinafter referred to as the "Canadian Service", and (3) National Film Board of Canada, hereinafter referred to as the "Board".

Witnesseth that,

Whereas, the "U.S. Service" is authorized under Public Law 93-205 (87 Stat. 884) December 28, 1973, to enter into agreements with foreign countries to provide for the purpose of conservation of endangered species; and

Whereas, the whooping crane is an endangered species, and as of June 3, 1974, there was a wild flock of only 48 birds; and

Whereas, the production of a film on the entire life cycle of the whooping crane starting at the only remaining nesting area which is in Wood Buffalo National Park, Canada, and continuing as they migrate to their wintering ground at Aransas National Wildlife Refuge, United States of America, would be of benefit to the scientists and the public; and

Whereas, this project will be facilitated by a cooperative undertaking. The parties hereto mutually agree to cooperate in fulfilling the following project:

I. *Editorial Control.* 1. The "Board" will have editorial control over the "film" which it will complete by March 1, 1976.

2. The "U.S. Service" and the "Canadian Service" will have the right of approval of the film at rough cut, commentary cutting copy, and test print stages.

3. All titles and credits used in the film must be approved by all parties to this agreement.

II. *Prints.* 1. The "Board" will give to the "U.S. Service", one inter-negative and one print of the film. The "U.S. Service" may purchase from the "Board", at the "Board's" laboratory cost, additional inter-negatives as required to meet requirements for distribution in the United States of America.

2. The "Board" will retain and be responsible for all stock shots.

III. *Financial Contributions.* The total budget for production of the project is $197,000 and the contributions thereto will be paid as follows:

1. The "U.S. Service" shall pay a total of $50,000 to the Board for production of the film. Payment will be made according to the following schedule:

a. Approved story treatment: $17,500.
b. Completion of all photography: $17,500.
c. Interlock: $15,000.

2. The "Canadian Service", as of the date of this agreement has paid $70,000 for the production of this project.

3. The "Board" will contribute $77,000 to the production of the project during the term of the project. Any expenditure over $197,000 during the course of production will be borne by the "Board", unless such expenditures are the direct result of additional work requested by either the "U.S. Service" or the "Canadian Service" which was not part of the original project as outlined in the shooting schedule.

IV. *Logistic Support.* 1. In addition to the payment of $50,000, the "U.S. Service" will provide for normal logistic support at shooting sites on lands and facilities it administers where possible and consistent with routine operations after approval of such filming activities by the Office of Endangered Species and International Activities, Washington, D.C., U.S.A., and appropriate Regional Directors. The "Board" will provide the "U.S. Service" with shooting schedules 14 calendar days prior to actual visits by Board film crews to the United States so that logistic arrangements can be initiated. For the purpose of this agreement, "logistic support" includes such things as jeeps, blinds, regularly scheduled flights of helicopters or planes, and assistance by "U.S. Service" personnel.

2. The "U.S. Service" and the "Canadian Service" will also provide technical advice to the "Board" during the course of production of the project.

IV. *Distribution rights.* 1. The "U.S. Service" shall have the exclusive irrevocable right, license and privilege to distribute, exploit, utilize, and exhibit the film via any non-commercial methods or means in the United States, its territories and possessions, in perpetuity. The foregoing does not preclude the "U.S. Service" from considering entering into commercial arrangements for distribution or viewing of the film in the United States; however, any such commercial arrangement the "U.S. Service" might wish to make is subject to prior approval, in writing, by the "Board".

2. The "U.S. Service" warrants it will distribute only the entire film and not portions thereof or stock shots therefrom.

3. The "Board" shall have the exclusive irrevocable right, license, and privilege to distribute, exploit, utilize and exhibit the "film" via any methods or means throughout the World, except the United States of America, its territories and possessions, in perpetuity. The "Board" will distribute the "film" through its usual commercial and/or noncommercial means as it sees fit within any given territory in the World, except the United States of America, its territories and possessions.

4. The "Board" will have the exclusive irrevocable right, license, and privilege to distribute, exploit, utilize and exhibit the "stock shots" throughout the World, in perpetuity, for educational use at the current stock shot rates. Educational use for the purpose of this agreement is defined as follows: That use for the purpose of creating audio visual materials which will be used for educational, teaching, or instructional purposes in schools, colleges, universities, adult training, on-the-job training, etc. The audio visual materials so produced may be rented, loaned, given, or sold to the user. They may also be telecast on recognized educational television networks, stations or programs, or on a public affairs or news program. Educational use specifically does not mean the use of the "stock shots" for entertainment theatrical or television shows or programs, or for the purpose of producing commercials or advertisements which advertise or promote consumer or industrial products.

5. All or any revenue earned by the "U.S. Service" as a result of its distribution of the film shall be retained by the U.S. Government.

6. All or any revenue earned by the "Board" as a result of its distribution of the film shall be retained by the "Board."

7. Both the "U.S. Service" and the "Board" will report to each other within 30 days of January 1, each year after completion of the film, the number of prints distributed in their respective territories and the manner in which the prints were used; e.g., number sold, number rented, number exhibited on television, etc.

V. *Festivals—Competitions.* Both the "U.S. Service" and the "Board" have the right to enter the film in festivals or competitions within the territories where they have distribution rights.

VI. *Warranty.* The "Board", the "U.S. Service", and the "Canadian Service" warrant that they have full rights to enter into this Agreement and further represent and warrant that the project shall contain no material defamatory, libelous, or otherwise unlawful, and that the project shall in no way infringe in whole or in part any proprietary right, copyright, right of privacy or any other right of any person whomsoever.

VII. *Notice and delivery.* Notice to be given under this Agreement shall be given by mailing the notice by prepaid registered mail, addressed, in the case of notice to the "Board," to the National Film Board of Canada, at P.O. Box 6100, Montreal, Quebec H3C 3H5, Canada, and, in the case of notice to the "U.S. Service" to the United States Fish and Wildlife Service, Department of the Interior, 18th and C Streets NW., Washington, D.C. 20240; and in the case of the "Canadian Service," to the Department of Environment of Canada, Canadian Wildlife Service, Ottawa, Ontario K1A OH3, or at such other address as either party, respectively, in writing, designates for the purpose of giving notice to it. Deliveries under this Agreement shall be made at the address to which notices may be sent.

This Agreement is not valid unless signed by officials of the three parties with delegated authority to sign such agreements.

COYOTE DAMAGE CONTROL: SHEEP AND GOATS

Report on Emergency Use of M–44 Devices Through October

Notice is hereby given on the emergency use of M–44 devices by the Department of Interior's operational predator damage control program, from inception and through the month of October. This is in compliance with the experimental use permit (No. 6704–EXP–6G) issued by the Environmental Protection Agency pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended (7 U.S.C. 135–135K), and in accordance with 40 CFR, part 162.19, as promulgated in the FEDERAL REGISTER on January 31, 1974 (39 FR 3939). This report is made pursuant to FEDERAL REGISTER notice of June 20, 1974 (39 FR 2216G).

Cumulative data for approval to use the M–44 device for June through October 1974 is as follows:

M–44 Emergency use approval—June 1 through Oct. 31, 1974

State	Number of counties	Number of ranches	Number of sheep and goats protected	Number of M–44's approved
Arizona	3	16	3,290	357
California	1	2	1,000	30
Idaho	2	2	2,278	35
Montana	21	39	27,485	1,167
Nevada	2	5	7,021	180
New Mexico	8	18	8,862	630
Oklahoma	6	6	1,441	117
Oregon	6	28	3,607	319
Texas	37	156	117,926	2,788
Utah	11	26	25,042	560
Wyoming	7	36	87,183	1,325
Total	107	334	236,015	7,508

One or more coyotes were taken with this device on approximately one-half of the emergency areas, but losses were not necessarily halted in each case. During this time period, 573 coyotes were taken by this device. Other species taken with the device during this period include 119 foxes, 6 feral dogs, 10 raccoons, 10 skunks, 14 opossums, and one calf.

All of the above use of M–44 devices as a supplemental tool to attempt to resolve coyote depredation on sheep and goats was conducted by trained Service personnel in accordance with the "Procedure For Advance Identification and Approval of Areas For the Possible Emergency Use of Sodium Cyanide Delivered by the M–44 Device for the Control of Depredating Canids," as it appears in the FEDERAL REGISTER, Volume 39, No. 120, Thursday, June 20, 1974.

Dated: January 21, 1975.

M. J. SPEAR,
Acting Director,
U.S. Fish and Wildlife Service.

Geological Survey

SUBSEA PRODUCTION EQUIPMENT

Notice

By Notice in the FEDERAL REGISTER of July 10, 1973, (38 FR 18390), the Department of the Interior requested comments concerning several proposals to develop oil and gas resources on the Outer Continental Shelf offshore the States of Mississippi, Alabama, and Florida with a minimum of platforms visible above the waterline. This included an assessment of the state-of-the-art of subsea well completion techniques.

The Department now requests comments as to the current status of technology in subsea well completion techniques and subsea production systems. Comments are also requested as to the impacts that would result from requiring subsea completions as a condition to granting some OCS leases. Responses will be evaluated as part of an overall assessment of deepwater production technology. It is requested that respondents forecast developments in subsea technology and provide a time frame for their application. Comments should address all aspects of subsea operation, including the following:

1. Water depth capabilities, depths at which subsea systems are economical (vs bottom-founded platforms).
2. Cost of drilling, completing, and maintaining subsea wells.
3. Flowline connections and servicing.
4. Navigation for well location and re-entry.
5. Well maintenance and repairs.
6. Subsea separation and storage.
7. Diving limitations.

Comments should be forwarded to the Director, U.S. Geological Survey, National Center, Mail Stop 100, 12201 Sunrise Valley Drive, Reston, Virginia 22092, on or before March 3, 1975.

JACK W. CARLSON,
Assistant Secretary of the Interior.

Office of the Secretary

COMMITTEE ON EMERGENCY PREPAREDNESS NATIONAL PETROLEUM COUNCIL

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770), notice is hereby given of the following meeting:

The Coordinating Subcommittee of the Committee on Emergency Preparedness of the National Petroleum Council will meet on February 7, 1975 at 10:00 a.m. at 1700 One Main Place, Dallas, Texas. The agenda includes the following items:

1. A request by the Assistant Secretary-Energy and Minerals, Department of the Interior, to the Chairman of the National Petroleum Council, dated December 20, 1974, that the Council extend the work of its Committee on Emergency Preparedness to develop additional information on the emergency petroleum security storage system recommended in the Committee's summary report of September 10, 1974.
2. A letter from the Assistant Secretary-Energy and Minerals, Department of the Interior, to the Chairman of the National Petroleum Council, dated December 31, 1974, outlining the major factors to be covered by the Committee on Emergency Preparedness in the development of additional information on the emergency petroleum security storage system requested on December 20, 1974.
3. Development of a schedule and an outline for preparation of a report in response to the request from the Assistant Secretary—Energy and Minerals, Department of the Interior.

The meeting will be open to the public to the extent that space and facilities permit. Any member of the public may file a written statement with the Council either before or after the meeting. Interested persons who wish to speak at the meeting must apply to the Council and obtain approval in accordance with its established procedures.

The purpose of the National Petroleum Council is to provide advice, information and recommendations to the Secretary of the Interior, upon request, on any matter relating to petroleum or the petroleum industry.

Further information with respect to this meeting may be obtained from Ben Tafoya, Office of the Assistant Secretary—Energy and Minerals, Department of the Interior, Washington, D.C., telephone number 343–7976.

Dated: January 23, 1975.

JACK W. CARLSON,
Assistant Secretary of the Interior.

NATIONAL RICE ADVISORY COMMITTEE

Public Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of a meeting of the National Rice Advisory Committee on February 11, 1975, beginning at 9 a.m., in Room 218–A, U.S. Department of Agriculture, Washington, D.C. 20250.

The purpose of the meeting is to consider the various aspects of producing and marketing rice, both in the U.S. and abroad. The meeting will be open to the public. Any member of the public may file a written statement with the Committee, before or within one week following the meeting.

The names of the members of the Committee, agenda, summary of the meeting and other information pertaining to the meeting may be obtained from Terrance G. Harman, Director, Cotton, Rice & Oilseeds Division, Room 5725–S, U.S. Department of Agriculture, Washington, D.C. 20250.

Signed at Washington, D.C., on January 17, 1975.

TERRANCE G. HARMAN,
Executive Secretary, National Rice Advisory Committee.

NATIONAL COTTON MARKETING STUDY COMMITTEE

Public Meeting

Pursuant to the provisions of section 10 (a) (2) of Pub. L. 92–463, notice is hereby given of a meeting of the National Cotton Marketing Study Committee established by Secretary's Memo 1852. The Committee will meet at 1:30 p.m. on Wednesday, February 26, 1975, and 8:30 a.m. on Thursday, February 27, 1975 in the International Hotel at 3000 Canal Street, New Orleans, Louisiana.

The meeting will be open to the public and a brief period will be set aside for public comments and questions. The agenda of the Committee meeting includes a review of study group progress, discussion of problem areas, and development of a format for the final report.

The names of the appointees comprising the Committee, agenda and other information pertaining to the meeting may be obtained from Mr. Irving Starbird, Executive Secretary, Room 212, 500 12th Street, SW, Washington, DC. 20250 (202–447–8400).

Soil Conservation Service

CHICOD CREEK WATERSHED PROJECT, NORTH CAROLINA

Notice of Availability of Final Environmental Impact Statement (Rev.)

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a final environmental impact statement (revised) for the Chicod Creek Watershed Project, Pitt and Beaufort Counties, North Carolina, USDA–SCS–EIS–WS–(ADM)–72–27 (F)–NC. (Revised)

The EIS concerns a plan for reducing flooding and providing outlets for drainage for 10,000 acres of cropland and pastureland. The planned works of improvement include conservation land treatment supplemented by 66 miles of channel modification which consists of: (1) 30 miles of new channels with continuous flow through some seasons of the year, but little or no flow through other seasons; (2) 5 miles of new channels with flow only during periods of surface runoff; (3) 11 miles of enlargement of previously modified channels which have continuous flow through some seasons but little or no flow through other seasons; (4) 10 miles of previously modified channels with flows only during periods of surface runoff; (5) 10 miles of existing streams with perennial flow except during extreme drought. Also included are a 12.4 acre lake, 11 channel pools, two wetland preservation areas, 30 water control structures, and 10 sediment traps. Disturbed earth will be vegetated for sediment control and wildlife food and cover areas.

The final EIS has been filed with the Council on Environmental Quality.

A limited supply is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, P.O. Box 27307, Raleigh, North Carolina 27611.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

JANUARY 20, 1975.

[FR Doc.75–2312 Filed 1–24–75;8:45 am]

MARCOLA RC&D MEASURE, OREG.

Notice of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council of Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Marcola RC&D Measure, Lane County, Oregon.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. James W. Mitchell, State Conservationist, Soil Conservation Service, USDA, 1218 SW. Washington Street, Portland, Oregon 97205, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The measure is a plan for flood prevention. The planned works of improvement include about 1,000 feet of interceptor diversions and 120 feet of 24-inch pipe, which will be installed to intercept flood water. This will be associated with, installation of 1,500 feet of 54-inch pipe, which will transport flood flows under the railroad, and the roadbed of Carson Street, the cleaning and slight enlargement of 1,500 feet of manmade channel around Marcola School, and the replacement of two culverts.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, 1218 SW. Washington Street, Portland, Oregon 97205.

No administrative action on implementation of the proposal will be taken until February 11, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.901, National Archives Reference Services.)

VICTOR H. BARRY, JR.,
Deputy Administrator for Field Services, Soil Conservation Service.

Decisions on Applications for Duty-Free Entry of Scientific Articles

Correction

In FR Docs. 74–22821 and 75–1286 appearing at pages 35586 and 2727 in the issues for Wednesday, October 2, 1974 and Wednesday, January 15, 1975, respectively, on pages 35587 and 2729, the docket number for the applications received from Texas Tech University should read as follows: "75–00098–33–46040".

PRESIDENT'S EXPORT COUNCIL

Open Meeting

A meeting of the President's Export Council will be held from 9:30 a.m. to 12:30 p.m. on Thursday, February 27, 1975, in Conference Room 4832 of the U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, D.C.

The Export Council was established by Executive Order 11753 of December 20, 1973 (38 FR 34983) to advise the President, the Council for International Economic Policy (CIEP), and the President's Interagency Committee for Export Expansion (PICEE), through the Secretary of Commerce, on export trade. The Council consists of 22 members who are all chief executive officers of major U.S. firms.

The purpose of this meeting will be to discuss the status of the Council's ongoing studies as well as other topics related to ways and means to increase U.S. export sales.

The public will be permitted to attend the meeting and approximately 20 seats will be available on a first-come, first-served basis. Inquiries may be addressed to Mr. Friedrich R. Crupe, Executive Sec-

KOMMANDETGESELLSCHAFT FUER TECHNISCHWIRTSCHAFTLICHE SYSTEME AND INDUSTRIE VERWALTUNGS UND BETRIEBSGESELLSCHAFT M.B.H.

Notice of Related Party Determinations

An Order dated March 27, 1974, was entered by the Office of Export Administration, Bureau of East-West Trade, Domestic and International Business Administration, Department of Commerce, against Wolfgang G. Prenosil and Apexa Deutschland G.m.b.H., Bauteile fuer Elektronik (Apexa), Egerstrasse 2, 6200 Wiesbaden, Federal Republic of Germany, indefinitely denying all privileges of participating, in any manner or capacity, in the exportation of U.S.-origin commodities or technical data. The Order was published in the FEDERAL REGISTER on March 27, 1974, at Page 11125.

Section 388.1(b) of the Export Administration Regulations provides, in pertinent part, that:

> Any order denying export privileges or excluding persons from practice before the Bureau of East-West Trade may be made applicable not only to persons named therein but also, to the extent necessary to prevent evasion, to other persons with whom such persons may then or thereafter be related by ownership, control, position of responsibility, affiliation, or other connection in the conduct of trade or related services.

By separate letters of March 27, 1974, Industrie Verwaltungs und Betriebsgesellschaft (hereinafter, IVB) and Kommandetgesellschaft fuer Technischwirtschaftliche Systeme (hereinafter, KTS), were notified by the Hearing Commissioner of the issuance of the above-referenced Denial Order of the same date. Those letters drew the attention of IVB and KTS to part III of the Denial Order which provides that:

> Such denial of export privileges shall extend not only to the respondents, but also to their agents and employees and to any successor, and to any person, firm, corporation, or business organization with which they or either of them now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of export trade or services connected therewith.

Based upon information received by the Bureau of East-West Trade to the effect that the denied party, Prenosil, had established, and was currently a partner in, IVB and KTS, those companies were informed in the above-referenced letters that, unless each company showed within 20 days that it had not been, or had wholly ceased to be, related to Prenosil, a related party determination would issue against it and it would become subject to the prohibitions of the Denial Order of March 27, 1974. No reply having been received from IVB or KTS, it has been determined, based upon the cited information, that they are related parties to Prenosil and are within the terms of § 388.1(b) of the Export Administration Regulations and Part III of the Denial Order issued against Prenosil, and are, therefore, subject to all prohibitions and restrictions of that Order.

The related parties, IVB and KTS, are notified that if either chooses to contend that the determination which is the subject of this Notice is not justified, either may make application to have the appropriate ruling reconsidered or terminated. Such application must be made to the Hearing Commissioner, Bureau of East-West Trade, Department of Commerce, Washington, D.C. 20230.

Dated: January 15, 1975.

RAUER H. MEYER,
Director, Office of Export Administration.

[FR Doc.75-2350 Filed 1-24-75;8:45 am]

Office of the Secretary

COMMERCE TECHNICAL ADVISORY BOARD

Meeting

A meeting of the Department of Commerce Technical Advisory Board will be held on Wednesday, February 26, 1975, from 9 a.m. to 5 p.m., and Thursday, February 27, 1975, from 8:30 a.m. to 12 Noon in Room 6802, Main Commerce Building, 14th Street and Constitution Avenue NW., Washington, D.C.

The Board was established to study and evaluate the technical activities of the Department of Commerce and recommend measures to increase their value to the business community. Agenda items are as follows:

1. Progress Report of the Sulfur Dioxide Control Technology Panel;
2. Plans for a Study of "Industrial Utilization of Federally Funded Energy R&D;"
3. Plans for a Study of Materials Shortages;
4. Technology Transfer in East-West Trade.

A limited number of seats will be available to the press and to the public. The public will be permitted to file written statements or inquiries with the Chairman before or after the meeting. Minutes of the meeting will be available 30 days from the date of the meeting upon written request addressed to: Central Reference and Records Inspection Facility, U.S. Department of Commerce, Washington, D.C. 20230.

Persons desiring to obtain further information concerning the Board should contact Mrs. Florence S. Feinberg, Room 3877, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, D.C. 20230, telephone (202) 967-5065.

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology.

Applications for Certification of Certain Gas Detector Tube Units

In the FEDERAL REGISTER of May 8, 1973 (38 FR 11458), the Department adopted regulations which set forth the requirements and procedures for the evaluation and certification of gas detector tube units (42 CFR Part 84). In accordance with § 84.3(a) of the regulations, notice is hereby given that the National Institute for Occupational Safety and Health will accept applications for certification of gas detector tube units pursuant to the following schedule:

Gas	Dates for submittal	Test standard
1. Styrene (C_8H_8)	Mar. 1 to Mar. 31, 1975.	100 ppm.
2. Ethane, 1,2-dichloro ($C_2H_4Cl_2$) ethylene dichloride.	Apr. 1 to Apr. 30, 1975.	50 ppm.
3. Hydrofluoric acid (HF) hydrogen fluoride.	May 1 to May 31, 1975.	3 ppm.

All applications and any questions concerning the certification program should be submitted to the Institute's Testing and Certification Laboratory, 944 Chestnut Ridge Road, Morgantown, West Virginia 26505.

Dated: January 21, 1975.

EDWARD J. BAIER,
Acting Director, National Institute for Occupational Safety and Health.

Office of Education

STRENGTHENING DEVELOPING INSTITUTIONS; ADVANCED INSTITUTIONAL DEVELOPMENT PROGRAM

Notice of Closing Date for Applications

Notice is hereby given that pursuant to the authority contained in Title III of the Higher Education Act of 1965, as amended (20 U.S.C. 1054), the Commissioner of Education has decided to provide additional funding to selected "developing" institutions of higher education which received grants under the Advanced Institutional Development program in Fiscal Years 1973 and 1974, to enable such institutions to make greater progress in achieving both operational and fiscal stability and participation in the mainstream of American higher education. These awards will be made on a one-time only basis and will be made to those institutions whose progress in developing and implementing their final plan of operation has been deemed satisfactory.

Applications for grants will be evaluated on the basis of the criteria set forth in § 169.37 of the Title III regulations (45 CFR 169.37), and in selecting grantees under § 169.37, the Commissioner will give preferential consideration to those applications whose proposed activities are likely to best carry out one or more of the objectives listed in § 169.35 of the Title III regulations (45 CFR 169.35).

Eligible institutions desiring to receive additional funding must submit their applications to the U.S. Office of Education Application Control Center on or before March 17, 1975.

A. Application sent by mail. An Application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue SW., Washington, D.C. 20202. Attention: 13.454. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than the fifth calendar day prior to the closing date (or if such fifth calendar day is a Saturday, Sunday, or Federal holiday, not later than the next following business day), as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.)

B. Hand delivered applications. An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. Program information and forms. Information and application forms may be obtained from the Developing Institutions Program, U.S. Office of Education, Room 4921, 7th and D Streets SW., Washington, D.C. 20202.

Office of Human Development

TRANSPORTATION FOR THE ELDERLY

Hearing

The Commissioner on Aging transmitted a report to the Secretary of Health, Education, and Welfare, to the President, and to the Congress, on the State of the Art of Transportation for the Elderly on January 1, 1975. This report is required under Title IV, Section 412 of the 1973 Comprehensive Services Amendments to the Older Americans Act. The Act also requires that the Commissioner prepare and transmit to the Secretary of Health, Education, and Welfare, to the President, and to the Congress, recommendations, including a plan for implementation of improved transportation services for older Americans and recommendations for additional legislative, administrative and other measures to provide solutions to the transportation problems of older Americans.

Issues raised in the report on the State of the Art of Transportation for the Elderly will be presented, and suggestions and recommendations for further action will be solicited from interested parties at four hearings to be conducted by the Commissioner on Aging in different parts of the country.

Major issues to be addressed at the hearings revolve around possible actions which could be taken at the Federal, State and community levels to improve transportation services for the elderly that make the most effective use of existing authorities and resources. Such issues include:

The coordination of special transportation systems;
Expanded use of existing public transportation resources;
Improved design of public transit vehicles;
Improved use of volunteerism and carpooling;
Overcoming barriers to the use of school buses for nonschool purposes;
Increased access to personal transportation.

Hearings will be held on the following dates and times at the places indicated:

V40118 JAN27 75 XUM

Date	Time	Place
Friday, Feb. 14, 1975.	9:00 a.m.	William Green, Jr., Federal Bldg., 600 Arch St., Room 3306, Philadelphia, Pa.
Thursday, Feb. 20, 1975.	9:00 a.m.	New Federal Bldg., 601 East 12th St., Room 140, Kansas City, Mo.
Saturday, Mar. 1, 1975.	10:00 a.m.	Sanford, N.C. (for address, contact Administration on Aging, in Washington, D.C.).
Monday, Mar. 3, 1975.	9:00 a.m.	Federal Office Bldg., 450 Golden Gate Ave., Room 13450, San Francisco, Calif.

All hearings will be open to the public.

Interested parties wishing to make statements at any of the hearings should contact Ms. Dolli Cutler, Office of Planning and Evaluation, Administration on Aging, Office of Human Development, Department of Health, Education, and Welfare, Room 4920, 400 6th Street SW., Washington, D.C. 20201. Telephone: (202) 245–0641.

Issued in Washington, D.C. on January 27, 1975.

ARTHUR S. FLEMING,
Commissioner on Aging,
Administration on Aging.

DEFENSE MANPOWER COMMISSION

NOTICE OF MEETING

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given that the Commissioners of the Defense Manpower Commission will meet on February 14, 1975, at 9 a.m. in the New Executive Office Building, Room 2008, 726 Jackson Place NW., Washington, D.C. 20036.

The purpose of the meeting will be to meet with Dr. Eli Ginzberg, Chairman of the National Commission for Manpower Policy. Additionally, the Executive Director's report and a discussion of recruiting systems in the Army and Air Force by members of the staff will be presented to the Commissioners.

The meeting will be open to the public. Since meeting space is limited, interested persons wishing to attend should telephone (202) 254–7803 before close of business February 13, 1975.

Dated: January 21, 1975.

BRUCE PALMER, Jr.,
General, USA (Ret.)
Executive Director.

[FR Doc.75–2339 Filed 1–24–75;8:45 am]

MANPOWER REQUIREMENTS OF DEPARTMENT OF DEFENSE

Public Hearing

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given that the Defense Manpower Commission will hold a public hearing on March 13, 1975, in the New Executive Office Building, Room 2010, 726 Jackson Place NW., Washington, D.C. 20036 from 9 a.m. to 4 p.m. so that representatives of public and private organizations and interested citizens can express their views on the issues which the Commission is required to address by its enabling legislation.

Pub. L. 93–155 directs the Commission to conduct a comprehensive study and investigation of the overall manpower requirements of the Department of Defense on both a short and long term basis with a view to determining what the manpower requirements are currently and will likely be over the next ten years, and how manpower can be more effectively utilized in the Department of Defense.

The Commission is required to submit its final report to the Congress and to the President not more than twenty-four months after the appointment of the Commission, and shall cease to exist sixty days after the submission of its final report.

In carrying out its study and investigation, the Commission has been directed to give special consideration to:

(1) The effectiveness with which civilian and active duty personnel are utilized, particularly in headquarters staffing and in the number of support forces in relation to combat forces;

(2) Whether the pay structure, including fringe benefits, is adequate and equitable at all levels;

(3) The distribution of grades within each armed force and the requirements for advancement in grade;

(4) The cost effectiveness and manpower utilization of the United States Armed Forces as compared with the armed forces of other countries;

(5) Whether the military retirement system is consistent with overall Department of Defense requirements and is comparable to civilian retirement plans;

(6) The methods and techniques used to attract and recruit personnel for the armed forces, and whether such methods and techniques might be improved or new and more effective ones utilized;

(7) The implications for the ability of the armed forces to fulfill their mission as a result of the change in the socio-economic composition of military enlistees since the enactment of new recruiting policies provided for in Public Law 92–129 and the implications for national policies of this change in the composition of the Armed forces; and

(8) Such other matters related to manpower as the Commission deems pertinent to the study and investigation.

Interested persons may make an oral presentation and/or submit a written statement for consideration by the Commission during the meeting.

The length and number of oral presentations to be made will depend on the number of requests received. Maximum time permitted per presentation will be fifteen (15) minutes.

Each person desiring to make an oral presentation or submit a written statement must notify the Commission and provide at least 10 copies of the presentation statement by March 6, 1975. The order of the presentations on the agenda will be determined by the order in which requests are received by the staff.

Statements should be limited to the mission of the Commission as outlined in Pub. L. 93–155, or other current issues regarding Department of Defense manpower.

Written material in furtherance of presentations will be accepted by the Commission at the time of the meeting and for four days thereafter.

Persons wishing to make presentations, or interested persons wishing to attend the public hearing as observers, must notify Mr. Rippa of the Commission staff (202/254–7803) by March 6, 1975. Copies of statements and other correspondence must be sent to: Defense Manpower Commission, 1111 18th Street, NW., Room 301, Washington, D.C. 20036, Attn: Hearing Management.

Dated: January 20, 1975.

BRUCE PALMER, Jr.,
General, USA (Ret.),
Executive Director.

ENVIRONMENTAL PROTECTION AGENCY

INDIANA

[FRL 325–8]

PROGRAM FOR CONTROL OF DISCHARGES OF POLLUTANTS TO NAVIGABLE WATERS

Notice of Approval

Notice is given hereby that the U.S. Environmental Protection Agency has granted the State of Indiana's request for approval of its program for controlling discharges of pollutants to navigable waters in accordance with the National Pollutant Discharge Elimination System (NPDES), pursuant to section 402(b) of the Federal Water Pollution Control Act, as amended (Pub. L. 92–500, 86 Stat. 816, 33 U.S.C. 1251; the Act).

Section 402 of the Act establishes a permitting system, known as the National Pollutant Discharge Elimination System, under which the Administrator of the U.S. Environmental Protection Agency (EPA) may issue permits for the discharge of any pollutant, upon condition that the discharge meets the applicable requirements of the Act. Section 402(b) provides that any State desiring to administer its own permit program for discharges into navigable waters within its jurisdiction may submit such program to the Administrator. If the Administrator determines that the State has adequate authority to carry out the requirements of the Act, he shall approve the submitted program and suspend the issuance of permits as to those navigable waters subject to such program, except with respect to agencies and instrumentalities of the Federal Government. Guidelines specifying procedural and other elements for State NPDES programs appear at 40 CFR Part 124 (as amended by 38 FR 18000, July 5, 1973, and 38 FR 19894, July 24, 1973).

On October 3, 1974, Indiana submitted a program for carrying out the NPDES. On November 26, 1974, EPA conducted a public hearing on the proposed approval in Indianapolis, Indiana. After a thorough review of the Indiana program, the accompanying legal certification, and all comments submitted by the public during and following the public hearing, the Administrator determined that the State's authority was adequate to carry out the requirements of the Act, and so informed Governor Otis R. Bowen in a letter dated January 1, 1975.

As of January 2, 1975, the Indiana NPDES permit program is being administered by the Indiana Stream Pollution Control Board, 1330 West Michigan Street, Indianapolis, Indiana 46206 (telephone (317) 633–4941). Mr. Oral H. Hert is the Technical Secretary of the Indiana Stream Pollution Control Board. The Indiana program is being administered in accordance with Indiana statutes and regulations and a Memorandum of Agreement between Indiana and the EPA Region V Office, 230 South Dearborn Street, Chicago, Illinois 60604 (telephone (312) 353–5250). All pertinent documents are available for inspection at the Indiana State agency and EPA Regional office at the addresses given above and EPA Headquarters in Room 3201, Waterside Mall, 401 M Street SW., Washington, D.C. 20460.

ALAN G. KIRK,
Assistant Administrator for Enforcement and General Counsel.

[OPP–32000/177; FRL 325–7]

NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB–31, East Tower, 401 M Street SW., Washington, D.C. 20460.

On or before March 28, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH–569), Office of Pesticide Programs, 401 M Street SW., Washington D.C. 20460. Every such claimant must include, at a minimum, the information

V 40 18 JAN 27 75 XUM

listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after March 28, 1975.

Dated: January 20, 1975.

JOHN B. RITCH, JR.,
Director,
Registration Division.

ENERGY RELATED SUSPENSION AUTHORITY

Report on Progress and Impact

Section 119(k)(2) of the Clean Air Act, as amended by the Energy Supply and Environmental Coordination Act of 1974, directs the Administrator to publish in the FEDERAL REGISTER at no less than 180 day intervals beginning January 1, 1975, certain reports and findings on the implementation of EPA's energy related suspension authority under section 119 of the Act. Specifically, the Administrator is directed to publish a concise summary of progress reports required to be filed by any person or source owner or operator to which the compliance date extension provisions of subsection 119(c) apply. Such reports are to include information on the status of compliance with requirements imposed by the Administrator under subsection 119(c). In addition, the Administrator is directed to publish up-to-date findings on the impact of section 119 upon applicable State implementation plans and upon ambient air quality.

As of January 1, 1975, no applications for compliance date extensions under subsection 119(c) had been received by the Administrator and no such extensions were granted. Therefore, no progress reports were required of or filed by any person or source owner or operator under subsection 119(c). In addition, no temporary suspensions or postponements under subsections 119(b) and 119(i) became effective before January 1, 1975. Section 119, therefore, had no impact on applicable State implementation plans or ambient air quality from the date of its enactment on June 22, 1974, up to January 1, 1975.

Date: January 17, 1975.

JOHN QUARLES,
Acting Administrator.

SCIENTIFIC SEMINAR ON AUTOMOTIVE POLLUTANTS

Seminar

Notice is hereby given that a scientific seminar will be held at the Thomas Jefferson Memorial Auditorium, U.S. Department of Agriculture, South Building, 14th Street and Independence Avenue, Washington, D.C., on February 10, 11, and, if necessary, February 12, 1975, each day at 9 a.m.

The purpose of the seminar is to continue to assemble the most recent research knowledge on the health effects and atmospheric chemistry of air pollutants from automobiles by offering the scientific community and other interested persons the opportunity to present information through this forum.

Representatives of industry, environmental groups, government agencies, universities and private research institutions are invited to present and discuss research findings pertaining to the subject. The principal concern of the seminar will be NO_x because of recently developed information on this subject; however, the presentation of any new information related to CO, HC, or other automotive pollutants is also in order. Presentations should address the following agenda items: (1) health effects (experimental animal and human studies); and (2) atmospheric chemistry of NO_x including the relationship of NO_x to hydrocarbons and the formation of photochemical oxidants.

The meeting will be open to the public. Persons wishing to submit a paper, attend, or obtain further information should contact Dr. Herbert L. Wiser, Deputy Assistant Administrator for Environmental Sciences, Office of Research and Development (RD–682), Environmental Protection Agency, Washington, D.C. 20460. The telephone number is (202) 755–0655.

Persons failing to notify EPA by February 3, 1975 of their intent to give an oral presentation at the seminar shall not be entitled to give such a presentation except at the discretion of EPA. Such persons are not precluded, however, from submitting written statements for the record.

WILSON K. TALLEY,
Assistant Administrator for
Research and Development.

JANUARY 21, 1975.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 737]

COMMON CARRIER SERVICES INFORMATION [1]

Domestic Public Radio Services Applications Accepted for Filing [2]

JANUARY 20, 1975.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to Section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to §§ 21.27 of the Commission's Rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

APPLICATION ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

21010–CD–P–(3)–75, Advanced Radio Communications Company (new). C.P. for a new 2-way station to operate on 454.025, 454.050, and 454.250 MHz to be located at 5282 Lee Highway, Arlington, Virginia.

21011–CD–P–75, The Lincoln Telephone and Telegraph Company (new). C.P. for a new 2-way station to operate on 152.72 MHz to be located at 591 "D" St., David City, Nebraska.

21012–CD–P–75, Mobilphone-Paging Radio Corporation (KRS653). C.P. for additional facilities to operate on 152.24 MHz at Loc. #3: Rt. 165, 6.3 miles W. of Exeter, Rhode Island.

21013–CD–P–75, Mobilfone Corporation (KSV992). C.P. to change antenna system and relocate facilities operating on 158.70 MHz located at 120 South 6th Street, Minneapolis, Minnesota.

21014–CD–P–(2)–75, Kidd's Communications, Inc. (KMD349). C.P. to change antenna system and for additional facilities to operate on 35.58 MHz located at 215 East 18th Street, Bakersfield, California.

21015–CD–TC–(2)–75, Radio Dispatch Corporation. Consent to Transfer of Control from Radio Dispatch Corporation, Transferor, to Robert H. Stopher, Transferee. Stations: KSV928 and KMD992, Pomona, California.

21016–CD–P–75, General Communications Service (KOE257). C.P. to add antenna Loc. #3 to operate on 35.22 MHz located at Shaw Butte Mtn., 1.5 miles N. of Phoenix, Arizona.

21017–CD–P–75, Answer Iowa, Inc. (KWH325). C.P. to relocate facilities operating on 152.24 MHz to be located at 805 Brady Street, Davenport, Iowa.

21018–CD–P–75, Answer Iowa, Inc. (KAF642). C.P. to relocate facilities operating on 152.03 MHz to be located at 805 Brady Street, Davenport, Iowa.

21019–CD–P–75, Mobilefone Northwest (KFL 918). C.P. to relocate facilities, control, operating on 454.35 MHz located at 347 2nd Avenue, Walla Walla, Washington.

21020–CD–P–75, General Communications Service, Inc. (KLB562). C.P. to relocate standby facilities operating on 152.12 MHz located 1 mile W. of Andrews, Texas.

21021–CD–P–75, Radio Phone Communications, Inc. (new). C.P. for a new 1-way station to operate on 35.22 MHz to be located at 5232 Lee Highway, Arlington, Virginia.

21022–CD–P–75, Valcom, Inc. (new). C.P. for a new 1-way station to operate on 152.24 MHz to be located at Flanders Hill, 1 mile N. of Norwich, Vermont.

20853–CD–P–75, Tel-Illinois, Inc. (KWH304), Mt. Vernon, Illinois. Amend to add additional transmitter location for the 158.70 MHz facilities to be located at a site described as water tank adjacent to City Hall, Collinsville, Illinois. All other particulars to remain as reported on PN #732 dated December 16, 1974.

20854–CD–P–75, Tel-Illinois, Inc. (KUO565), Mt. Vernon, Illinois. Amend to add additional transmitter location for the 43.22 MHz facilities to be located at a site described as water tank adjacent to City Hall, Collinsville, Illinois. All other particulars to remain as reported on PN #732 dated December 16, 1974.

20900 – CD – P – (2) – 75, Tel-Missouri, Inc. (KRS636), St. Charles, Missouri. Amend to add additional transmitter location for the 158.70 MHz facilities to be located at Lindenwood College Campus, St. Charles, Missouri. All other particulars to remain as reported on PN 3733 dated December 23, 1974.

20901 – CD – P – (2) – 75, Tel - Missouri, Inc. (KDN396), Clayton, Missouri. Amend to add additional transmitter location for the 35.58 MHz facilities to be located at Lindenwood College Campus, St. Charles, Missouri. All other particulars to remain as reported on PN #733 dated December 23, 1974.

20937–CD–AL–75, Jennings B. Bacon dba Telephone Message Exchange. (KRS678). Amend to reflect that CP for station KUC918 is also included among the Assignments. KUC918, Baldy Hill, Washington. All other particulars to remain as reported on PN #735 dated January 6, 1975.

Corrections

Correction appearing on PN #735 dated January 6, 1975, should have listed file number as 21085–C2–P–(3)–74 instead of 21086–C2–P–(2)–74. All other particulars to remain as reported.

DPRS, Inc. t/a Zipcall. 20853–C2–P–(2)–74 (KTS212), 20855–C2–P–74 (KCB891), 21282–C2–P–74 (KCB890), and 20118–CD–P–(2)–75 (KCB890) have been made part of 20854–C2–P–(2)–74, all under call sign KCB890, in the area of Boston, Massachusetts. All other participants to remain as reported on PN's dated 4/29/74, 1/8/74, and 8/5/74.

INFORMATIVE

DOMESTIC PUBLIC LAND MOBILE SERVICE

On the Common Carrier Public Notice of January 13, 1975 (Report No. 736) applicants were advised that FCC Rules implementing the National Environmental Policy Act of 1969 would become effective January 20, 1975. Applicants are advised that all applications for construction permit are required to contain the following statement:

This application is -- is not -- a "major action" as defined by § 1.1305 of the Commission's Rules.

We request that this statement be made as Exhibit No. 1 to each application, until we can amend the forms. We realize that this may require renumbering of previously prepared exhibits (e.g., from No. 1 to No. 1A), but we believe that it will speed the initial processing if the processors know where to look for the statement.

Applications which would involve a major action must contain the environmental information specified by rule § 1.1311. In view of the late notification of this new requirement, applications received on or after January 20, 1975 will be given until February 10, 1975 to amend their applications with the above information. All applications received after February 10, 1975, and the aforementioned applications which have not been amended to include this information will be returned as defective pursuant to § 21.20 of the rules.

RURAL RADIO SERVICE

60243–CR–P/L–75, The Mountain States Telephone and Telegraph Company (new). C.P. for a new rural subscriber station to operate on 157.95 MHz to be located 18.5 miles East of Cheyenne, Wyoming.

60244–CR–P/L–75, The Mountain States Telephone and Telegraph Company (new). C.P. for a new rural subscriber station to operate on 157.80 MHz to be located 6 miles NE. of San Luis, Colorado.

60245–CR–P–75, RCA Alaska Communications, Inc. (new). C.P. for a new interoffice station to operate on 459.450 MHz to be located 336 miles North of Fairbanks, Pump Station #2, Alaska.

POINT-TO-POINT MICROWAVE RADIO SERVICE

2045–CF–P–75, CPI Satellite Telecommunications Inc. (WPE35), One Main Place, corner of Field & Main Streets, Dallas, Texas. Lat. 32°46'49" N., Long. 96°48'07" W. C.P. to add frequency 11465.0V MHz and 11225.0V MHz toward Cedar Hill, Texas, on azimuth 217°07'.

2046–CF–P–75, Same (new), 1.5 Miles Southwest of Cedar Hill, Texas. Lat. 32°34'42" N., Long. 96°58'56" W. C.P. for a new station on frequencies 11175.0V, 10935.0V toward Dallas, Texas on azimuth 37°00'.

2115–CF–P–75, Carter-Goeken, Inc. (new), 233 S. Wacker Drive, Chicago, Illinois. Lat. 41° 52'44" N., Long. 87°38'10" W. C.P. for a new station on 2177.0H MHz toward Grays Lake, Illinois, on azimuth 328°48'.

2116–CF–P–75, Same (new), 1.42 Miles from Grays Lake on 105° bearing, Grays Lake, Illinois. Lat. 42°20'22" N., Long. 88°00'45" W. C.P. for a new station on 2127.0H MHz toward Chicago, Illinois on azimuth 148° 32' and 2120.0H MHz toward Union Grove, Wisconsin, on azimuth 4°43'.

2117–CF–P–75, Same (new), 250 E. Wisconsin Avenue, Milwaukee, Wisconsin. Lat. 43° 03'15" N., Long. 87°54'30" W. C.P. for a new station on 2163.0V MHz toward Union Grove, Wisconsin, on azimuth 187°27'.

2118–CF–P–75, Same (new), 5.1 miles from Union Grove on 133° bearing, Union Grove, Wisconsin. Lat. 42°36'15" N., Long. 87°59'45" W. C.P. for a new station on 2179.0H MHz toward Grays Lake, Illinois, on azimuth 186°44' and 2113.0V MHz toward Milwaukee, Wisconsin, on azimuth 7°24'.

2267–CF–P–75, MCI Telecommunications Corporation (WOE57), 500 Griswold Street, (Guardian Bldg.), Detroit, Michigan. Lat. 42°19'47" N., Long. 83°02'46" W. C.P. to add point of communication on 11465.0V MHz toward Detroit Grand, Michigan on azimuth 330°41'.

2168, Same (new), 3044 W. Grand Blvd., Detroit, Michigan. Lat. 42°22'07" N., Long. 83°04'32" W. C.P. for a new station on frequency 11055.0V MHz toward Detroit, Michigan, on azimuth 150°40'.

2160–CF–MI–75, American Telephone and Telegraph Company (KIV70), 4.8 Miles East of Chatsworth, Georgia. Lat. 34°49' 12" N., Long. 84°41'16" W. Mod. of License to change polarization from vertical to horizontal on frequency 4010 MHz toward Adairsville, Georgia, on azimuth 201 degrees/03 minutes.

2263–CF–P–75, RCA Alaska Communications, Inc. (new), Franklin Bluff Camp, Alyeska pipeline construction site near Hill 981 247 miles North of Fairbanks, Alaska. Lat. 69° 43'04" N., Long. 148°42'02" W. C.P. for new station on frequency 2168.0H MHz toward Franklin Bluff, Alaska, on azimuth 45 degrees/15 minutes.

2264–CF–P–75, Same (WCF50), Franklin Bluff, remote repeater site at Hill 981 on Alyeska pipeline route, 362 miles North of Fairbanks, Alaska. Lat. 69°47'24" N., Long. 148°22'22" W. C.P. to add 2138.0H MHz toward Franklin Bluff Camp, Alaska, on azimuth 225 degrees/27 minutes.

2265–CF–P/ML–75, General Telephone and Telegraph Company of the Northwest, Inc. (KPJ99), 1109 Midway Blvd., Oak Harbor, Washington. Lat. 48°17'32" N., Long. 122° 38'35" W. C.P. and Mod. of License to add 5907.8H MHz toward Camano, Washington, on azimuth 135 degrees/54 minutes. Applicant requests authority to change from temporary fixed location to permanent, pursuant to section 21.707(2) of FCC rules.

2266–CF–P/ML–75, Same (KPJ97), Camano Island, 2.0 miles ENE of Camano, Washington. Lat. 48°13'21" N., Long. 122°29'38" W. C.P. and Mod. of License to add frequency 6189.8H MHz toward Oak Harbor, Washington, on azimuth 316 degrees/01 minute. Applicant requests authority to change from temporary fixed location to permanent, pursuant to section 21.707(2) of FCC rules.

2275–CF–P–75, Southern Bell Telephone and Telegraph Company (KTF60), 125 Reese Street, Athens, Georgia. Lat. 33°57'27" N., Long. 83°22'52" W. C.P. to change output power of frequencies 6197.2H, 6315.9H MHz, and to add frequency 6375.2H MHz toward Alcovy Mtn., Georgia, on azimuth 233 degrees/35 minutes.

2276–CF–P–75, Same (KIB39), Alcovy Mountain, 3.3 miles ENE. of Jersey, Georgia. Lat. 33°43'57" N., Long. 83°44'43" W. C.P. to replace transmitters and change output power on frequencies 5974.8H, 6034.2H, 6093.5H, and 6152.8H toward Rockdale, Georgia, on azimuth 242 degrees/05 minutes; add frequency 6123.1H MHz and change output power on frequencies 5945.2H and 6063.8H MHz toward Athens, Georgia, on azimuth 53 degrees/23 minutes.

2277–CF–P–75, Same (KJG94), Rockdale, approximately 3 miles SE. of Conyers, Georgia. Lat. 33°37'42" N., Long. 83°58'47" W. C.P. to replace transmitter on frequency 6285.2H MHz and to change output power on frequencies 6226.9H, 6345.5H, and 6404.8H MHz toward Alcovy Mtn., Georgia, on azimuth 61 degrees/57 minutes.

2280–CF–P–75, The Mountain States Telephone and Telegraph Company (KPH75), 10.1 miles East of Glendive, Montana. Lat. 47°07'05" N., Long. 104°28'35" W. C.P. to add frequency 2112.0V MHz toward a new point of communication at Rim Road, Mid-Rivers Co-op, Montana, on azimuth 364 degrees/39 minutes.

2281–CF–P–75, Continental Telephone Company of Texas (KLF30), South West corner Walnut and Church Streets, Hemphill, Texas. Lat. 31°20'23" N., Long. 93°50'56" W. C.P. to change frequency, power and emission, and replace transmitter from 6125V and 6375V MHz to 1225.0V and 1485.0V MHz toward Hurricane Hill, Texas, on corrected azimuth 178 degrees/02 minutes, and length of radio path 27.76 Km.

2282–CF–P–75, Same (KLF31), Newton, Texas. C.P. to change frequency, power and emission and replace transmitter from 6175V and 6415V MHz to 11565.0V and 11095.0V MHz toward Hurricane Hill, Texas, on corrected azimuth 343 degrees/27 minutes.

2283–CF–P–75, Same (KLF32), Hurricane Hill, Texas. Lat. 31°05'32" N., Long. 93°56'20" W. C.P. to change frequency, power and emission and replace transmitter from 6085V and 6285V MHz to 10855.0V and 11095.0V MHz toward Newton, Texas, on corrected azimuth 163 degrees/26 minutes and length of radio path 27.37 Km.; from 6015V and 6255V MHz to 10735.0V and 10975.0V MHz toward Hemphill, Texas, on corrected azimuth 358 degrees/02 minutes, and length of radio path 27.76 Km.

2112–CF–P–75, Eastern Microwave, Inc. (KEG91), 8 miles ESE. of Canisteo Mtn., New York. Lat. 42°12'16" N., Long. 77°29'20" W. C.P. to add new point of communication at Springwater, New York, on 6137.9H MHz and Alma Hill, New York, via power split.

2113–CF–P–75, Same (KEA27), 3.2 miles W. of Springwater, New York. Lat. 42°38'21" N., Long. 77°39'34" W. C.P. to add 6316.9V MHz toward Rochester, New York.

2040–CF–P–75, Same (KEA27). C.P. to change antenna system and to add 6226.9H MHz and 6256.5V MHz toward Rochester, New York, on azimuth 61°34'.

Correction

The following was erroneous omitted on Public Notice dated December 16, 1974.

1719–C1–P–75, Michigan Bell Telephone Company (KQH77), 10389 Hadley Rd., Atlas, Michigan. C.P. to add 4150V MHz toward Flint, Oxford, and Millington, Michigan.

1939–CF–MP–75, Taft Broadcasting Corporation. Correct call sign to read: WSM43.

Major amendments

1209–C1–P–74, Alabama Microwave, Inc. (KJJ57), Capshaw Mtn., Alabama. Lat. 34°49'05" N., Long. 86°44'16" W. Application amended to change frequency to 6197.2V MHz toward Rogersville, Alabama, on azimuth 273°29'.

1210–C1–P–74, Same (KJW67), Rogersville, Alabama. Lat. 34°50'36" N., Long. 87°16'30" W. Application amended to change frequency to 5945.2V MHz toward Florence, Alabama, on azimuth 264°41'. (NOTE: Waiver of 21.701(l) is requested by Alabama.)

[FR Doc.75-2334 Filed 1-24-75;8:45 am]

[Docket Nos. 20310; 20311; BP–19596; BR–19095]

LAKE COUNTY BROADCASTERS AND KBMR RADIO, INC.

Applications for Construction Permits; Consolidated Hearing

In re Applications of Lake County Broadcasters, a limited partnership, (Terry L. Kinne and Judy A. Kinne, General Partners), Polson, Montana; requests: 1050 kHz, 1 kW, D and KBMR Radio, Inc., Polson, Montana; requests: 1070 kHz, 1 kW, 25 kW–LS, DA–N, U for Construction Permits.

1. The Commission, by the Chief of the Broadcast Bureau, acting pursuant to delegated authority, has before it the two above-described applications for new standard broadcast stations at Polson, Montana. The applications must be designated for a consolidated hearing since operation as proposed would result in mutual overlap of 2 mV/m and 25 mV/m contours in contravention of section 73.37(a), and would result in three daytime aural services to Polson in contravention of § 73.37(e)(1)(ii).

2. According to the financial data submitted in its application, Lake County Broadcasters [Lake County] would require $58,034 to construct and operate the proposed facility for a period of one year, without revenue, itemized as follows:

Lease payment on equipment	$7,814
Mortgage payments (land)	1,951
Mortgage payments (building)	2,750
Miscellaneous	6,450
Estimated interest on loan (at 10 percent)	2,500
Working capital (first-year)	36,569
Total	58,034

To meet this requirement, Lake County relies upon $15,000 in existing capital, and two loans from financial institutions—a $25,000 loan from Security State Bank, and a $20,000 loan from First Security Bank. Although the existing capital is well documented, the two bank loans are unacceptable for failure to comply with section III, paragraph 4(e), of FCC Form 301. Specifically, the letter of commitment from Security State Bank does not state the collateral required, nor does it specify the rate of interest. Further, the letter from First Security Bank does not contain language indicating a firm commitment to lend money, but rather is an offer to consider such a loan. In view of these deficiencies, the Commission cannot conclude that sufficient funds will be available to Lake County, as required, to meet the projected costs of construction and operation. Accordingly, an appropriate issue will be specified.

3. Data submitted by the applicants indicate that there would be a significant difference in the size of the areas and populations which would receive service from the proposals. Consequently, for the purposes of comparison, the areas and populations which would receive primary service, together with the availability of other primary aural services 1 mV/m or greater in the case of FM in such areas will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to either of the applicants.

4. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

5. Accordingly, *It is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. With respect to the application of Lake County Broadcasters:

(a) To determine the terms and conditions of the two putative bank loans and whether they are available to the applicant;

(b) Whether, in light of the evidence adduced in (a) above, whether Lake County Broadcasters is financially qualified.

2. To determine which of the proposals would, on a comparative basis, better serve the public interest.

3. To determine, in the light of the evidence adduced pursuant to the foregoing issues which, if either, of the applications should be granted.

---

6. *It is further ordered*, That to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

7. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and section 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible, and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: December 31, 1974.

Released: January 6, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

KEN STEPHENS AND GULF STATES BROADCASTING CO., INC.

Applications for Construction Permits; Consolidated Hearing

In re Applications of Ken Stephens, Orange, Texas; requests: 106.1 mHz; Channel No.: 291; 100 kW(H&V); 909 feet and Gulf States Broadcasting Company, Inc., Orange, Texas; requests: 106.1 mHz; Channel No.: 291; 100 kW (H&V); 1,065 feet.

1. The Chief of the Broadcast Bureau, acting pursuant to delegated authority, section 0.281 of the rules, has under consideration the above-captioned applications, which are mutually exclusive in that the applicants seek the same channel in Orange, Texas.

2. Gulf States Broadcasting Company proposes Black-oriented programming while Ken Stephens proposes a "Beautiful Music" format. Accordingly, the relative need for these different types of programming will be considered under the standard comparative issue. Ward L. Jones, FCC 67–82 (1967). Policy Statement on Comparative Broadcast Hearings, 1 FCC 2d 393, footnote 9 at 397 (1965).

3. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

4. Accordingly, *It is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine which of the proposals would, on a comparative basis, better serve the public interest.

2. To determine, in the light of the evidence adduced pursuant to the foregoing issues which, if either, of the applications should be granted.

5. *It is further ordered*, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

6. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible, and consistent with the rules, jointly, within the time and in the manner prescribed in such rule and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: January 14, 1975.

Released: January 16, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

RADIO TECHNICAL COMMISSION FOR MARINE SERVICES

Notice of Meetings

In accordance with Pub. L. 92–463, "Federal Advisory Committee Act," Radio Technical Commission for Marine Services (RTCM) meetings scheduled for the future are as follows:

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Special Committee No. 68, "Marine Radiotelephone Operator Education", Notice of 4th Meeting, Tuesday, February 18, 1975—9:30 a.m., Conference Room 847, 1919 M Street, NW, Washington, D.C.

AGENDA

1. Call to order; Chairman's report.
2. Adoption of Agenda.
3. Acceptance of Summary Records.
4. Reports on Work Assignments.
5. Approval of submitted papers.
6. Discussion of problem areas.
7. Solicitation of Work Assignments.
8. Other business.
9. Establishment of next meeting date.

A. Newell Garden, Chairman, SC–68, Raytheon Company, 141 Spring Street, Lexington, Massachusetts 02173, Phone: [617] 862–6600 (Ext. 414).

Special Committee No. 66, "Receiver Standards for the Maritime Mobile Service", Notice of 28th Meeting, Wednesday, February 19, 1975—9:00 a.m. (All-day meeting), Conference Room A205, 1229 20th Street, NW, Washington, D.C.

AGENDA

1. Call to Order; Chairman's report.
2. Adoption of Agenda.
3. Acceptance of Summary Records.
4. Reports on Work Assignments.
5. Approval of submitted papers.
6. Discussion of problem areas.
7. Solicitation of Work Assignments.
8. Other business.
9. Establishment of next meeting date.

V40118 JAN 27 75 XUM

H. B. Smith, Chairman, SC–65, ITT Mackay Marine, 441 U.S. Highway #1, Elizabeth, N.J. 07202, Phone: (201) 527–0600.

Special Committee No. 65, "Ship Radar", Notice of 35th Meeting, Wednesday, February 19, 1975—1:30 p.m., Conference Room 8210, 2025 M Street, NW., Washington, D.C.

AGENDA

1. Call to Order; Chairman's Report.
2. Adoption of Agenda; Appointment of Rapporteur.
3. Acceptance of SC–65 Summary Records.
4. Progress Report of Collision Avoidance Working Group.
5. Small Boat Radar Specifications.
6. Other business.
7. Establishment of next meeting date.

COLLISION AVOIDANCE WORKING GROUP

The Collision Avoidance Working Group will hold a meeting on Wednesday, February 19, 1975, beginning at 9:30 a.m., in Conference Room 8210, 2025 M Street, NW., Washington, D.C.

Irvin Hurwitz, Chairman, SC–65, Federal Communications Commission, Washington, D.C. 20554, Phone: (202) 632–7197.

RTCM Executive Committee, Notice of February meeting, Thursday, February 20, 1975—9:30 a.m., Conference Room 847, 1919 M Street, NW., Washington, D.C.

AGENDA

1. Call to Order; Chairman's Report.
2. Introduction of Attendees; Adoption of Agenda.
3. Approval of Minutes.
4. Committee Reports.
5. Status report on "Federal Advisory Committee Act".
6. Discussion on draft papers.
7. Assembly Meeting Report.
8. Reports on other meetings.
9. Summary reports and announcements.
10. New business.
11. Establishment of next meeting date.

To comply with the advance meeting notice requirements of Pub. L. 92–463, a comparatively long interval of time occurs between publication of this notice and the actual meetings. Consequently, there is no absolute certainty that the listed meeting room will be available on the day of the meeting. Those planning to attend any of the preceding listed meetings should report to the room number given in the notice. If a room substitution has been made, the new meeting room location will be posted at the room listed in this notice.

Agendas, working papers, and other appropriate documentation for each committee meeting are available at that meeting. Those desiring more specific information may contact either the designated Committee Chairman or the RTCM Secretariat. (Phone: (202) 632–6490)

The RTCM has acted as a coordinator for maritime telecommunications since its establishment in 1947. Problems are studied by Special Committees and the final reports are approved by the RTCM Executive Committee. All RTCM meetings are open to the public.

FEDERAL MARITIME COMMISSION

NORTH ATLANTIC CONTINENTAL FREIGHT CONFERENCE

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington Office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before February 17, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

MODIFICATION OF AGREEMENT

Notice of agreement filed by:

Howard A. Levy, Esquire
Suite 727
17 Battery Place
New York, New York 10004

Agreement No. 9214–14 extends the scope of the conference agreement to cover intermodal shipments moving under a through bill of lading or otherwise; matters relating to per diem, free time and detention on carrier provided equipment; positioning of such equipment; interchange; receiving, handling, storage, delivery and consolidation; depots, yards and freight stations and such other matters as may be ancillary to such intermodal movements. It also provides that the Conference may agree with other conferences serving the same European ports in establishing rules, practices and charges relating to the inland movement of containers to and from member lines' terminals at those ports.

Dated: JANUARY 22, 1975.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

New York, New York 10004

Agreement No. T–3007–2, between the members of the New York Shipping Association, Inc. (NYSA) and the members of the International Longshoremen's Association, AFL-CIO (ILA), modifies the parties' basic tonnage assessment agreement (as heretofore amended) for the three-year period commencing October 1, 1974. The purpose of the amendment is to modify the assessment of newsprint so that newsprint shall be assessed (effective October 1, 1974, under Agreement No. T–3007) on an excepted cargo basis. Agreement No. T–3007–2 is a result of Agreement No. T–3055, between the ILA, NYSA, Daniels & Kennedy, Inc., and the Madden Corporation which, inter alia, provides for the settlement of certain issues raised by Agreement No. T–3007 under FMC Pocket No. 74–49 with respect to NYSA/ILA assessments against newsprint cargoes.

Dated: January 22, 1975.

25 Broadway
New York, New York 10004

Agreement No. T–3055, between the International Longshoremen's Association, AFL–CIO (ILA); the New York Shipping Association, Inc. (NYSA); and Daniels & Kennedy Inc. (D&K) and The Madden Corporation (Madden) (collectively as the "Newsprint Interests"), provides for the settlement of the parties' litigation in FMC Dockets Nos. 69–57, 73–34 and 74–49.

With respect to Docket No. 69–57, the parties settle their litigation without regard to the continuance of these proceedings by any other parties to the proceedings. The agreement also provides that the Newsprint Interests relinquish any and all claims which they presently or in the future may have to any monies or other relief which may be due them as a result of proceedings in Docket No. 69–57, et al. arising out of alleged overassessments against them under FMC Agreement No. T–2390 and the Newsprint Interests further agree that they will make no further such claims against NYSA, ILA or any NYSA–ILA fringe benefit fund before any tribunal, without regard to future events or actions in Docket No. 69–57, et al. The agreement further provides that D&K withdraw its complaint in Docket No. 69–57) and D&K dated with Docket No. 69–57) and D&K and Madden each withdraw as intervenors in Docket No. 69–57 and all other proceedings consolidated therewith, upon final Federal Maritime Commission approval of this agreement and FMC Agreement No. T–3007–2.

With respect to Dockets Nos. 73–74 and 74–49, the parties agree that all issues in these proceedings are fully and completely settled. The agreement provides that D&K relinquish any and all claims which it presently or in the future may have to any monies or other relief which may be due it as a result of these proceedings arising out of alleged overassessments against D&K under FMC Agreements Nos. T–2804 and T–3007. The agreement also provides that D&K agrees not to make any further such claims against NYSA, ILA or any NYSA–ILA fringe benefit fund before any tribunal, without regard to future events or actions in these proceedings. The agreement further provides that D&K withdraw as intervenor in these proceedings upon final Federal Maritime Commission approval of this agreement and FMC Agreement No. T–3007–2.

The agreement also provides that NYSA and ILA relinquish any and all claims which they separately or jointly, presently or in the future, may have against the Newsprint Interests for monies or other relief which may be due to them arising out of past or future assessments under FMC Agreements Nos. T–2390, T–2804 or T–3007, other than such assessments as may from time to time be due and owing from D&K under Agreement No. T–3007 as amended by Agreement No. T–3007–2. In this respect, NYSA and ILA agree to amend Agreement No. T–3007 to provide for the assessment of newsprint effective October 1, 1974–September 30, 1977, on the assessment basis presently applicable to newsprint.

Upon final unconditional Federal Maritime Commission approval of this agreement and Agreement No. T–3007–2, the agreement provides that the NYSA–ILA Contract Board will immediately submit to D&K a written statement setting forth the amount to be credited to

V40118 JAN 27 75 XUM

D&K for overassessments for October 1, 1974 through the date of such statement. D&K will not be required to pay any further assessments of any kind until such time as the credit so computed has been exhausted; thereafter D&K will be assessed at the excepted cargo rate in accordance with this agreement.

Dated: January 22, 1975.

By Order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. RP75-44-2]

ALABAMA-TENNESSEE NATURAL GAS CO. (TVA)

Order Granting Extraordinary Relief and Setting Matter for Hearing

JANUARY 17, 1975.

On December 23, 1974, the Tennessee Valley Authority (TVA) filed in the above-captioned docket a petition for extraordinary relief pursuant to § 1.7 of the Commission's rules of practice and procedure and § 2.78 of the Commission's rules and regulations. TVA states that it is an agency of the Federal government charged with the statutory duty pursuant to the Tennessee Valley Act of 1933, 16 U.S.C. 831-831dd, to develop, produce, and sell fertilizer. In discharging these responsibilities it operates the National Fertilizer Development Center (Center), Muscle Shoals, Alabama.

TVA states that its production of ammonia fertilizer at the Center is totally dependent upon natural gas supplied by Alabama-Tennessee Natural Gas Company (Alabama-Tennessee). TVA was notified on December 16, 1974, by Alabama-Tennessee that its firm gas supply would be curtailed by 26 percent. This curtailment, according to TVA, will reduce in substantial amount its production of ammonia, which is used in the production of fertilizer. TVA avers that fertilizer production will suffer a decrease of approximately 46 tons per day as the result of projected curtailment. If curtailment extends through March 1975, TVA estimates that this fertilizer production loss translates into a food loss in grain sufficient to feed 15,000 persons for a year.

TVA has a contract with Alabama-Tennessee which provides for the delivery of 5,000 Mcf per day of firm gas and 1,500 Mcf per day of interruptible gas. Petitioner indicates that of the firm deliveries, 3,774 Mcf is utilized as process gas and 1,226 Mcf for fuel use in the production of ammonia. It is claimed that this fuel use is as critical to the maximum production of fertilizer as the process gas usage. Although alternate fuel facilities have not been installed for this purpose, TVA asserts that it is committed to converting to the use of No. 2 fuel oil in the near future. It is also stated that, with the exception of the ammonia plant, all heating functions at the Center are being operated through the use of alternate fuels.

Petitioner requests, then, that the Commission order Alabama-Tennessee to deliver the full firm contract volume on a temporary basis pending hearing on the permanent restoration of these volumes. It is also agreed that such temporary relief will be subject to any payback requirements as may be applicable. The urgent need for continued production of fertilizer at this time is a matter of public knowledge and a proper subject of judicial notice. For this reason and also because of the alleged effects of curtailment, we find it in the public interest to grant the relief requested, as conditioned hereinafter, prior to expiration of the period for intervention and comment.

In its answer to the instant petition, Alabama-Tennessee similarly states its support for the proposition that the firm delivery of 5,000 Mcf per day to TVA should be unimpaired. However, Alabama-Tennessee states that in order to enable it to make such deliveries, it is necessary that additional deliveries for TVA be made available by Alabama-Tennessee's sole supplier, Tennessee Gas Pipeline Company, a Division of Tenneco, Inc. (Tennessee). Otherwise, so it is averred, deliveries could only be made available by the further curtailment of other customers' requirements in the Order No. 467-B Category 2 of the existing curtailment plan. Absent a filing by Alabama-Tennessee in compliance with Order No. 467-C, which would contain information concerning Alabama-Tennessee's alleged need for additional deliveries from Tennessee, which pipeline is itself curtailing, we deem it inappropriate to condition a grant of extraordinary relief to TVA as suggested. At the same time though, recognizing the essential need to preserve the integrity of residential and commercial customer requirements on the Alabama-Tennessee system, we will accord relief volumes herein the next lower priority status, i.e., the last to be curtailed before curtailing residential and commercial requirements. Relief herein, then, as ordered is not to jeopardize service to the residential and commercial market of the Alabama-Tennessee system.

The Commission finds: (1) Good cause exists to set for formal hearing the application for extraordinary relief.

(2) Based on the facts presented in the petition and judicial notice taken of the national fertilizer shortage, relief should be granted as requested on an interim basis pending hearing, and subject to a payback if later determined to be appropriate.

(3) The relief granted should not jeopardize service to residential and commercial customers.

The Commission orders. (A) The TVA application for extraordinary relief from curtailment requesting deliveries of 5,000 Mcf per day, inclusive of projected deliveries under curtailment, is hereby set for hearing.

(B) Pursuant to the authority contained in and subject to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly, sections 4, 5, 15 and 16, and the Commission's rules and regulations under that Act, a public hearing shall be held commencing February 4, 1975, at 10:00 a.m. at a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning whether or not extraordinary relief should be granted and on what terms and conditions.

(C) Petitioner TVA and all other parties shall file their testimony on or before January 24, 1975.

(D) Interim relief up to 5,000 Mcf per day is granted subject to the above-stated conditions.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-2289 Filed 1-24-75;8:45 am]

[Docket No. CP73-164]

CITY OF HUNTINGBURG, INDIANA

Extension of Time

JANUARY 15, 1975.

On January 13, 1975, Staff Counsel filed a motion to extend the time for filing briefs opposing exceptions to the initial decision of the Presiding Administrative Law Judge issued November 25, 1974 in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the time for filing briefs opposing exceptions in the above matter is extended to and including January 27, 1975.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-2292 Filed 1-24-75;8:45 am]

[Docket No. E-9104]

NEVADA POWER CO.

Order Accepting for Filing, Suspending and Establishing Procedural Dates

JANUARY 17, 1975.

On November 12, 1974, the Nevada Power Company (Nevada) tendered for

V40#18 JAN 27 75 XUM

filing a proposed change in the energy charges under its RS–CPH rate to the California-Pacific Utilities Company (Cal–Pac) at Henderson, Nevada[1] and under its RS–CPN to Cal–Pac at Needles, California.[2] The filing was held to be deficient for filing by the Secretary and was subsequently completed on December 20, 1974, upon receipt of additional information and new revised rates.

Nevada contends that the November 12, 1974 proposed rates are designed to provide Nevada with an earned rate of return of 16.08 percent on its sales to Cal–Pac resulting in a 28.61 percent return on common equity. Nevada contends that for the period ending November 30, 1974, the December 20, 1974 proposed rates will result in increased revenues of $998,486, which is about 3 percent below the revenue level proposed in the November 12 filing.

In support of its request Nevada states that it has not been able to attract the capital it needs to supply the reasonably expected requirements of its customers. Nevada also states that this relief is urgently needed.

Notice of Nevada's November 12, 1974 filing was issued on November 21, 1974, with protests and petitions to intervene due on or before December 6, 1974. On December 6, 1974, a petition to intervene was filed by Cal-Pac. The petition requests that the proposed increase be suspended for the full statutory period and set for hearing pursuant to section 205 of the Federal Power Act. An untimely notice of intervention was filed by the Public Service Commission of Nevada on December 9, 1974.

Nevada's filings in this docket have requested that the filing date of its application should be November 12, 1974, the date it initially tendered the proposed changes. However, good cause has not been shown to waive the notice requirements of the Commission's regulations, and accordingly December 20, 1974, the date Nevada completed its application, shall be assigned the filing date for the proposed changes.

Our review of Nevada's filing and the issues raised therein indicates that the proposed changes have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. Accordingly, we shall suspend the proposed changes for four months and establish hearing procedures to determine the justness and reasonableness of Nevada's filing.

The Commission finds. It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Nevada's revised rate schedule proposed in this docket and that the tendered rate schedules be suspended as hereinafter provided.

The Commission orders. (A) Pending a hearing and a decision thereon, Nevada's proposed changes in its rates and charges, tendered on December 20, 1974, are accepted for filing, and suspended for four months, the use thereof deferred until May 20, 1975, subject to refund.

(B) Pursuant to authority of the Federal Power Act, particularly section 205 thereof, and the Commission's rules and regulations (18 CFR, Ch. I), a hearing for purposes of cross-examination concerning the lawfulness and reasonableness of the rates and charges in Nevada's FPC Rate Schedule, as proposed to be amended herein shall be held commencing on June 17, 1975, at 10:00 a.m., e.d.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, DC. 20426.

(C) On or before May 6, 1975, the Commission Staff shall serve its prepared testimony and exhibits. Any intervenor evidence shall be filed on or before May 20, 1975. Any rebuttal evidence by Nevada shall be served on or before June 3, 1975.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose, (See Delegation of Authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(E) The above mentioned petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission; *Provided, however*, That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petitions to intervene; and *Provided, further*, That the admission of such intervenors shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(F) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to § 1.18 of the Commission's rules of practice and procedure.

(G) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75–2291 Filed 1–24–75;8:45 am]

[1] Designation: Nevada Power Company, Supplement No. 8 to Rate Schedule FPC No. 2 (Supersedes Supplement No. 6).

[2] Supplement No. 9 to Rate Schedule FPC No. 1 (Supersedes Supplement No. 7).

[Project No. 2426]

STATE OF CALIFORNIA

Extension of Time

JANUARY 17, 1975.

In the matter of State of California, Department of Water Resource and City of Los Angeles, Department of Water and Power (California Aqueduct).

On December 26, 1974, the State of California filed a motion to extend the time for filing comments to the Commission Staff's Draft Environmental Impact Statement issued on December 3, 1974 in the above-designated matter.

Notice is hereby given that the time for filing comments to the above Statement is extended to and including March 18, 1975.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–2287 Filed 1–24–75;8:45 am]

[Docket No. RP74–41]

TEXAS EASTERN TRANSMISSION CORP.

Prehearing Conference Rescheduled

JANUARY 16, 1975.

On December 30, 1974, Texas Eastern Transmission Corporation filed a motion to advance the date of the Prehearing Conference fixed by order issued January 14, 1975, as most recently modified by notice issued December 19, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Prehearing Conference, January 20, 1975 (10:00 a.m. e.s.t.).
Service of Intervenor's Testimony [unchanged], January 20, 1975.
Service of Company Rebuttal [unchanged], February 28, 1975.
Hearing, At a time to be designated by Presiding Administrative Law Judge.

All parties have agreed to the service of a proposed settlement agreement by January 8, 1975, which will be submitted at the prehearing conference and that all initial comments to it will be filed at the same time. The remaining service dates and hearing will be for reserved issues.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–2294 Filed 1–24–75;8:45 am]

[Docket No. RP74–39–11]

TEXAS EASTERN TRANSMISSION CORP. AND BOROUGH OF CHAMBERSBURG, PA.

Order Consolidating Proceedings and Permitting Intervention

JANUARY 17, 1975.

On October 21, 1974, the Borough of Chambersburg, Pennsylvania (Chambersburg) filed a supplemental petition for a declaratory order pursuant to § 1.7(c) of the Commission's rules of practice and procedure. Chambersburg requests that the Commission issue an order directing Texas Eastern Transmission Corporation (TETCO) (1) to cease and desist from its present method of implementing its Demand Charge Adjustment (DCA) provisions[1] and (2) to implement its DCA in a manner which would lower Chambersburg's demand charges by reflecting the difference between Chambersburg's requirements and its actual takes.

Chambersburg purchases all of its gas from TETCO under the latter's DCQ–D Rate Schedule (Maximum Daily Quantity (MDQ): 5,279 Dth) and WS Rate Schedule (MDQ: 2653 Dth).

TETCO placed its DCA provisions into effect on July 1, 1974. They apply to all customers taking gas under a two-part rate schedule.

Sections 6.2 and 7.2 of TETCO's tariff are identical and provide for a demand charge reduction for DCQ and GS customers respectively. Both sections read as follows:

Secs. 6.2, 7.2 For Impairment of Deliveries. If Seller, for any reason other than the allowable delivery variation and the provisions of section 12.5 of the General Terms and Conditions, is unable to deliver during any one or more days in any month the quantity of natural gas Buyer required on such day or days up to the Maximum Daily Quantity then the total demand charge as otherwise computed hereunder shall be reduced by an amount which shall be equal to the sum of all such day's deficiencies multiplied by the Demand Charge Adjustment (Sheet No. 13) per Mcf for the applicable zone.

TETCO recoups the revenues lost through the demand charge adjustment by increasing its total commodity charges by an amount equal to the total of the reductions in demand charges. Both of these adjustments are made on a separate basis for each rate schedule and zone on TETCO's system.

In its supplemental petition Chambersburg claims that the method which TETCO uses to calculate demand charge adjustments is unjust and discriminatory. Chambersburg states that TETCO is violating the spirit of our order issued in this proceeding on August 26, 1974, in which we stated that the DCA provisions should ameliorate the situation in which a customer being curtailed at a rate higher than the system average also pays higher unit rates.

In its supplemental petition Chambersburg states that TETCO makes a demand charge adjustment only on those days that a customer takes 96 percent or more of its curtailed MDQ on the theory that if a customer takes this much gas then the customer needed its full MDQ. The demand charge adjustment is always calculated on the total Mcf difference between MDQ and curtailed MDQ. No attempt is made to determine the customer's actual requirements above its curtailed MDQ although TETCO's tariff states that a demand charge reduction is granted when Texas Eastern is unable "to deliver during any one or more days in any month the quantity of natural gas buyer requires on such day or days up to the Maximum Daily Quantity." Consequently on any day in which a customer takes less than 96 percent of its curtailed MDQ, it receives no demand charge reduction because TETCO holds that the requirements of that customer had, on that day, been met

Chambersburg states that since its Annual Quantity Entitlement (AQE) is based on a historical load factor of 88 percent it cannot purchase 96 percent of its curtailed MDQ on every day without overrunning its AQE and incurring a penalty.[3] Consequently, Chambersburg argues that the demand charge adjustment should be calculated in a manner which recognizes the requirements of a customer during the base period in order that Chambersburg, with one of the highest curtailment levels on the system, might receive a larger demand charge adjustment which would actually reflect Chambersburg's high curtailment.

Chambersburg suggests that a more equitable method for calculating the demand charge adjustment would be to use the Mcf difference between (a) a customer's actual present takes and (b) its requirements during the pro forma base year[3] used to establish AQE's.

It appears that the method used by TETCO may not fully meet the problem of customers who are curtailed heavily and who at the same time must pay higher unit costs for their gas. The problem was recognized in our Order of May 10, 1974, in these proceedings and the current tariff provisions were filed to ease this problem. It is necessary to determine the impact on all DCQ customers of an implementation of the demand charge adjustment in the manner suggested by Chambersburg. The Commission believes that Chambersburg's method would not be suited to the GS rate schedule since, by its nature, it is a lower load factor schedule.[4]

A record currently exists in Texas Eastern's ongoing curtailment case in Docket Nos. RP71–130 and RP72–58 on the method TETCO uses to calculate demand charge adjustments and on Chambersburg's proposed method. These proceedings shall therefore be consolidated with those in Docket Nos. RP71–130, et al. for purposes of hearing and decision. Texas Eastern shall be ordered to present additional evidence in that proceeding on the impact of using Chambersburg's method to calculate demand charge adjustments for all DCQ customers. The Presiding Administrative Law Judge shall be required to render an Interim Initial Decision regarding the issues raised in Chambersburg's petition as those issues affect Chambersburg and other customers of TETCO taking under the latter's DCQ Rate Schedule.

In order to develop an adequate record on which to base a decision, TETCO shall be required to furnish evidence on the impact for the period July 1, 1974 through August 31, 1975, on all DCQ customers of calculating demand charge adjustments using the difference between (a) a customer's actual[5] monthly takes and (b) its monthly requirements during the pro forma base year used to establish AQE's versus the current method utilized. The impact studies should show total dollars paid by each company by month under the DCQ rate schedule. The customers' monthly requirements during the pro forma base year may be computed with data presently available to TETCO.

Public notice of Chambersburg's supplemental petition was issued on November 6, 1974, with protests and petitions to intervene due by November 22, 1974. Petitions to intervene were received by the following parties:

Pottsville Gas Company, et al.
Equitable Gas Company
Algonquin Gas Transmission Company
Texas Eastern Transmission Corporation
Carnegie Natural Gas Company
Philadelphia Gas Works

The Commission finds. (1) Good cause exists to consolidate these proceedings with those in Docket Nos. RP71–130 and RP72–58 for the purposes of hearing and decision.

(2) Good cause exists to require TETCO to submit additional evidence in these proceedings as hereinafter ordered.

(3) Good cause exists to certify the issues presented in Chambersburg's petition to the Presiding Administrative Law Judge for initial decision.

(4) The participation in these proceedings of those parties who have petitioned to intervene may be in the public interest.

The Commission orders: (A) These proceedings are hereby consolidated with those in Docket Nos. RP71–130 and RP72–58 for the purposes of hearing and decision.

(B) Within one month of the date of the issue of this order, TETCO shall file evidence on the impact for the period July 1, 1974 through August 31, 1975, on the DCQ customers of (1) calculating demand charge adjustments using the dif-

[1] The relevant DCA provisions appear at sections 6.2 and 7.2 of TETCO's FPC Gas Tariff, Fourth Revised Volume No. 1.

[3] Of the 25 customers purchasing under the DCQ rate schedule, 21 have AQE's which are virtually 100 percent of their contract entitlements. Indiana Gas Company's AQE is 84 percent of its contract entitlement, National Gas and Oil Corporation, 95 percent, Chambersburg, 88 percent, and Pottsville Gas C mpany, 99 percent.

[3] The AQE's of the DCQ customers were fixed by taking the actual purchased volumes for the period September, 1970 through November, 1971 and estimated purchased volumes for December, 1971 through August, 1972, and then constructing the annual entitlement for a pro forma year on the basis of the highest monthly volume for each corresponding month.

[4] A customer taking gas under TETCO's GS Rate Schedule can take, on an annual basis, a volume equal to 270 times its MDQ. Thus, under its contract with TETCO, a GS customer's load factor cannot exceed 74% and may be significantly lower. A DCQ customer, on the other hand, could, under its contract with TETCO, take its MDQ 365 days a year and ultimately achieve a load factor of 100%.

[5] Monthly takes for January 1975 through August 1975 should be TETCO's best estimate of the volumes actually taken by its customers.

V40118 JAN27 75 XUM

ference between (a) a customer's actual monthly takes and (b) that customer's monthly requirements during the pro forma base year used to establish that customer's AQE and (2) calculating demand charge adjustments by the present method. In both of the studies (1) and (2) required above, TETCO should show total dollars paid by each company by month under the DCQ Rate Schedule.

(C) All parties including the Commission Staff wishing to file rebuttal evidence shall do so within two weeks of the date on which evidence is filed by TETCO.

(D) The Presiding Administrative Law Judge shall, within 45 days of the conclusion of cross examination on these issues, render an Interim Initial Decision on the issues raised by Chambersburg in its petition. In his Interim Initial Decision, the Presiding Administrative Law Judge shall rule with respect to all of TETCO's DCQ customers.

(E) The above-named petitioners are hereby permitted to become intervenors in these proceedings subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in these proceedings and that each intervenor agrees to take the record as it now stands.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-2290 Filed 1-24-75;8:45 am]

[Docket No. RP72-133, PGA75-1-A]

UNITED GAS PIPE LINE CO.

Order Accepting Proposed PGA Rate Increase for Filing and Permitting Intervention

JANUARY 17, 1975.

On December 18, 1974, United Gas Pipe Line Company (United) tendered for filing a Proposed Substitute Tariff Sheet[1] which would place into effect, as of January 1, 1975, a surcharge adjustment of 4.69¢/Mcf to the company's purchased gas costs. The tendered surcharge is designed to recover all Opinion No. 699 producer increases (excluding Opinion No. 699-H) incurred during the period June 21, 1974, through December 31, 1974. In support of its tendered filing, United sites our order of November 29, 1974 at United Gas Pipe Line Company, Docket No. RP75-22 in which we authorized United to include in its next PGA filing a surcharge computed by using the actual amount of unrecovered purchased gas costs included in its deferred account plus an estimated amount computed to provide for the recovery of all Opinion No. 699 producer increases incurred up to the effective date of its PGA increase. The proposed surcharge would recoup the balance of approximately $14.4 million in United's Unrecovered Purchased Gas Cost Account.

The subject filing includes rates above those included in United's PGA increase which we accepted for filing and suspended by order of December 31, 1974, at Docket No. RP72-133, PGA75-1. Our order of December 31, permitted United to file substitute sheets (to become effective January 1, 1975, as originally proposed, which would reflect that portion of its proposed increase that did not include costs associated with small producer and emergency purchases in excess of the levels prescribed in Opinion No. 699-H and all costs based upon producer rate changes which would not become effective by January 1, 1975.

Notice of United's proposed increase was issued with comments, protests, and petitions to intervene due on or before January 6,, 1975. Only Memphis Light, Gas and Water Division of the City of Memphis, Tennessee (Memphis) filed a petition to intervene. Memphis requests a five month suspension of United's tendered filing, alleging that United has not shown that the proposed increases in rates are just and reasonable. However, Memphis has set forth no claims, arguments or data in support of its allegation.

Our analysis of United's filing indicates that the revised tariff sheet complies with our order of November 29, 1974, at Docket No. RP75-22. It does not reflect small producer and emergency purchases in excess of the levels prescribed in Opinion No. 699, nor any based upon producer rate increases not in effect by January 1, 1975. We shall, therefore, accept United's proposed tariff sheet for filing and place it into effect without suspension, as of January 1, 1975.

The Commission finds. (1) Good cause exists to accept, without suspension, United's proposed Substitute Twentieth Revised Sheet No. 4, to its FPC Gas Tariff, First Revised Volume No. 1.

(2) Good cause exists to permit the intervention of the above-named intervenor, but to deny its request for a five month suspension of the proposed increase.

(3) Good cause exists to waive the notice requirements of our regulations to permit an effective date of January 1, 1975.

The Commission orders. (A) United's proposed Substitute Twentieth Revised Sheet No. 4, to its FPC Gas Tariff, First Revised Volume No. 1, tendered on December 18, 1974, is hereby accepted for filing and made effective as of January 1, 1975.

(B) The above-named petitioner is hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenor shall be limited to matters affecting rights and interests specifically set forth in its petition to intervene, and *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(C) Memphis' request for a five month suspension of United's tendered tariff is denied.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-2288 Filed 1-24-75;8:45 am]

[Docket No. CP75-112]

VILLAGE OF CIRCLE PINES, MINN., ET AL.

Order Setting Formal Hearing, Granting Intervention, and Establishing Procedures

JANUARY 20, 1975.

In the matter of Village of Circle Pines, Minnesota, and Hutchinson Utilities Commission, Applicants; and Northern Natural Gas Company, Respondent.

On October 1, 1974, the Village of Circle Pines, Minnesota (Circle Pines) and the Hutchinson Utilities Commission (Hutchinson) hereinafter jointly referred to as Applicants filed an application pursuant to section 7(a) of the Natural Gas Act for an order directing Northern Natural Gas Company (Northern) to consolidate the respective natural gas contract demand quantities of Applicants and deliver same to Circle Hutch Public Utility Board (Circle Hutch).

Circle Pines operates a municipal gas distribution system and purchases its entire supply of natural gas from Northern under Northern's CD Rate Schedule (Contract Demand: 873 Mcf per day) and PS Rate Schedule (Contract Demand: 50 Mcf per day) for resale within the community. Circle Pines has peak day requirements in excess of its peak-day contractual entitlement from Northern and as a result has had to purchase penalty gas in the past to meet its high priority load on peak days. Circle Pines has no peak shaving facility.

Hutchinson operates a municipal gas distribution system and purchases its entire supply of natural gas from Northern under Northern's CD Rate Schedule (Contract Demand: 5,200 Mcf per day) and WPS Rate Schedule (Contract Demand: 260 Mcf per day) for resale within the community. Hutchinson has a propane air peak shaving plant which at the present time has a capacity of 100 Mcf per hour but with the installation of air compressor would have a capacity of 150 Mcf per hour.

Pursuant to Section 471.59 of the Minnesota Statutes, Circle Pines and Hutchinson have entered into a "Joint and Cooperative Agreement" (Joint Agreement) establishing the Circle-Hutch Public Utility Board for the purpose of purchasing natural gas from Northern for resale within the respective communities. To effectuate this result, Circle Pines and Hutchinson are requesting authority to transfer their existing respective contract demands to the Utility Board which would execute the appropriate service agreements with Northern to replace the present service agreements between Northern and Circle Pines and Northern and Hutchinson.

Circle Pines and Hutchinson state that the primary purpose for the formation of the Utility Board, and hence this application to make it a viable entity, is to permit Hutchinson and Circle Pines to make use of the peak shaving facility which Hutchinson installed in 1972. Presently, only Hutchinson can use the peak shaving plant, which has a potential capacity greater than Hutchinson's requirements; but with the activation of the Utility Board, Circle Pines would indirectly benefit from the peak shaving plant by being able on peak days to increase its daily takes (above its existing contract demand, but well within the limits of the consolidation contract demand) while at the same time Hutchinson would increase the output of its peak shaving plant to make up for its reduced takes from the Utility Board. The end result would be that both Circle Pines and Hutchinson could meet their peak day requirements without burdening Northern or its customers. The alternative is for Circle Pines to build its own peak shaving plant, but this alternative was not found financially feasible by an independent consulting firm. The applicants submit that this is not in the public interest where the same beneficial result of protecting firm service to high priority customers can be achieved through the proposed Utility Board at no additional expense to applicants and with no substantive change in Northern's contractual obligations. Furthermore, applicants claim the enhanced use of Hutchinson's peak shaving facilities will not only justify the increase in capacity from 100 to 150 Mcf per hour, but also will assist Hutchinson in being able to pay for the existing facility over shorter period of time due to the fact that according to the Joint Agreement, Hutchinson will be appropriately reimbursed by Circle Pines for the increased use of the former's peak shaving plant.

On November 25, 1974, Northern filed an Answer and Objection to the application and request that an evidentiary hearing be held to resolve and clarify the questions raised by Northern as set forth below.

Northern objects to the application for the following reasons:

(a) The application fails to state what liability the Utility Board would assume in terms of being responsible for payment of bills for gas and what resources the Utility Board would have available to it for meeting such obligations if they are to be assumed.

(b) From an operating point of view, it is unclear as to who would be responsible for receiving curtailment orders and complying with the same.

(c) The application fails to disclose what volumes are expected to be delivered through the existing delivery points for Circle Pines and Hutchinson, assuming the application is approved. Therefore, Northern cannot make a determination as to the adequacies of its branch line and measuring station facilities.

(d) The Joint Agreement is unclear as to whether or not additional "government units" may be added to the agreement at a future date.

(e) Under the Powers of the Board, there are a number of options which, if exercised, may have an adverse impact on Northern's operations.

The answer filed by Northern raises issues that should be heard in an evidentiary proceeding. Accordingly, we will set this matter for hearing to ascertain whether or not the public interest requires the issuance of the certificate of public convenience and necessity.

A timely petition to intervene was filed on October 29, 1974, by Michigan Wisconsin Pipe Line Company (Michigan Wisconsin).

The Commission finds. (1) Good causes exists for the Commission to enter upon a hearing concerning Applicants' request for a certificate of public convenience and necessity and for establishing the procedure for that hearing, all as hereinafter ordered.

(2) Participation in this proceeding by Michigan Wisconsin may be in the public interest.

The Commission orders. (A) Pursuant to the authority of the Natural Gas Act, particularly sections 7 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Ch. I), a public hearing shall be held commencing March 4, 1975, at 10:00 a.m. (e.s.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426 concerning the public interest issues involved in the application for issuance of a certificate of public convenience and necessity filed by Applicants in this proceeding.

(B) On or before January 31, 1975, Applicants shall file their testimony and exhibits comprising its case-in-chief in support of their application, containing therein, inter alia, their response to the issues raised by Northern and a break down of their sales within the categories of priorities established by the Commission in its Order No. 467-B, 18 CFR 2.78 (a)(2) for the latest 12-month period and shall serve their case-in-chief upon all parties to this proceeding including Commission staff; answering testimony shall be filed and served upon all parties on or before February 14, 1975; rebuttal testimony shall be filed and served upon all parties on or before February 26, 1975; and at the hearing on March 4, 1975, cross-examination will commence on the testimony and exhibits which are proffered and accepted in evidence.

(C) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearings in this proceeding and shall prescribe relevant procedural matters not herein provided.

(D) Michigan-Wisconsin is hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission; *Provided, however,* That participation of such intervener shall be limited to matters affecting its asserted rights and interest as specifically set forth in its petition to intervene; and *Provided, further,* That the admission of such intervener shall not be construed as recognition by the Commission that it might be aggrieved by any order entered by the Commission in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-2293 Filed 1-24-75;8:45 am]

FEDERAL RESERVE SYSTEM

EQUITABLE BANCORPORATION

Order Approving Acquisition of Equiban Life Insurance Company

Equitable Bancorporation, Baltimore, Maryland, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y to acquire all of the voting shares of Equiban Life Insurance Company ("Company"), Phoenix, Arizona, a company to be organized de novo to engage in the underwriting, as reinsurer, of credit life insurance in connection with extensions of credit by Applicant's subsidiaries. Such activity has been determined by the Board to be closely related to banking (12 CFR 225.4(a)(10)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (39 FR 40614). The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant controls five banks with aggregate deposits of approximately $1 billion representing about 14 percent of the total deposits in commercial banks in Maryland.[1] Company will be organized under Arizona law as a full reserve life insurance company. Since Company will be qualified to underwrite insurance directly only in Arizona, its activities will be limited to acting as reinsurer of credit life insurance policies made available in connection with extensions of credit by Applicant's subsidiaries located in Maryland. Such insurance would be directly underwritten by an insurer qualified to underwrite in Maryland and would, thereafter, be assigned or ceded to Company under a reinsurance agreement.

Credit life insurance is generally made available by banks and other lenders and

[1] All deposit data are as of June 30, 1974.

[1] Substitute Twentieth Revised Sheet No. 4, to United's FPC Gas Tariff, First Revised Volume No. 1.

V40N18 JAN27 75 XUM

is designed to insure repayment of a loan in the event of the death of a borrower. In connection with the addition of the underwriting of such insurance to the list of permissible activities for bank holding companies, the Board has stated:

To insure that engaging in the underwriting of credit life and credit accident and health insurance can reasonably be expected to be in the public interest, the Board will only approve applications in which an Applicant demonstrates that approval will benefit the consumer or result in other public benefits. Normally, such a showing would be made by projected reduction in rates or increase in policy benefits due to bank holding company performance of this service.

Applicant has stated that it will provide credit life insurance at rates below those permitted under State law and provide increased policy limits for its credit insurance customers. Premium rates for credit life insurance written in connection with extensions of credit by Applicant's subsidiaries and underwritten by an independent insurance company are the maximum permitted under State law. Applicant would offer single decreasing term life insurance at a premium rate 7.1 percent below the statutory maximum and joint decreasing term life insurance at a rate 8.7 percent below the statutory maximum. Further, Applicant proposes to increase the liability limit for credit life insurance offered in connection with consumer loans made by Applicant's subsidiaries from $15,000 to $20,000.

The Board regards Applicant's proposed premium rates and increase in policy limit as procompetitive and in the public interest. Furthermore, there is no evidence in the record indicating that consummation of the proposed acquisition would result in any undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices, or other adverse effects on the public interest.

Based upon the foregoing and other considerations reflected in the record, the Board has determined, in accordance with the provisions of section 4(c)(8), that consummation of this proposal can reasonably be expected to produce benefits to the public that outweigh possible adverse effects. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of the holding company or any of its subsidiaries as the Board finds necessary to insure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder or to prevent evasion thereof.

The transaction shall be made not later than three months after the effective date of this Order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Richmond pursuant to authority delegated herein.

By order of the Board of Governors,* effective January 20, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

ADVISORY COMMITTEES

Notice of Review and Renewal

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463), a review was conducted as to the essentiality of all General Services Administration advisory committees which were in existence when the Act went into effect on January 5, 1973. Of 36 committees subject to this review, and after consultation with the Office of Management and Budget, it has been determined that continuation and rechartering of 26 of the committees is in the public interest in accordance with duties imposed on the agency by law. The remaining 10 committees have been terminated. Each of the following committees are being rechartered for a two-year period commencing January 5, 1975, without change in basic purpose:

Emergency Economic Stabilization Industry Advisory Committee for Food Retailing
Emergency Economic Stabilization Industry Advisory Committee for Food Service
Emergency Economic Stabilization Industry Advisory Committee for Lumber and Wood Products
Emergency Economic Stabilization Industry Advisory Committee for Retailing (Other than Food and Automobiles)
General Services Public Advisory Council
Joint Federal, State, and Local Government Advisory Panel on Procurement and Supply
National Archives Advisory Council
National Health Resources Advisory Committee
National Public Advisory Panel on Architectural and Engineering Services
Program Advisory Committee
Regional Archives Advisory Councils (Regions 2, 3, 4, 7, and 9)
Regional Public Advisory Panels on Architectural and Engineering Services (10 regions)
Roosevelt Library Editorial Advisory Board

Dated: January 16, 1975.

LARRY F. ROUSH,
Acting Assistant Administrator.

INTERNATIONAL TRADE COMMISSION

[TEA-W-360]

SHAER SHOE CO., MANCHESTER, N.H.

Workers' Petition for a Determination Under Section 301(c)(2) of the Trade Expansion Act of 1962; Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the former workers of the Manchester, New Hampshire, plant of the Shaer Shoe Corp., Manchester, New Hampshire, the United States International Trade Commission, on January 21, 1975, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with footwear for women (of the types provided for in items 700.45, 700.55, and 700.70 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed on or before February 6, 1975.

The petition filed in this case is available for inspection at the Office of the Secretary, United States International Trade Commission, 8th and E Streets, NW, Washington, DC., and at the New York City office of the International Trade Commission located at 6 World Trade Center.

By order of the Commission.

Issued: January 22, 1975.

KENNETH R. MASON,
Secretary.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on January 22, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received: the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the clearance office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529), or from the reviewer listed.

NATIONAL SCIENCE FOUNDATION

MINORITY INSTITUTIONS SCIENCE IMPROVEMENT PANEL (MISIP)

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Minority Institutions Science Improvement Panel (MISIP) Subpanel to be held at 9 a.m. on February 13, and 14, 1975, in room 651, 1800 G Street, NW., Washington, D.C.

The purpose of this Subpanel is to provide advice and recommendations concerning the merit of specific proposals submitted for consideration by the Minority Institutions Science Improvement Panel.

This meeting will not be open to the public because the Subpanel will be reviewing, discussing, and evaluating individual research proposals. These proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemption of 5 U.S.C. 552(b). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of Section 10(d) of Pub. L. 92-463.

For further information about this Subpanel, please contact Dr. Art Diaz, Program Manager, rm. 448, National Science Foundation, Washington, D.C. 20550, telephone 202/282-7760.

FRED K. MURAKAMI,
Committee Management Officer.

INTERNATIONAL DECADE OF OCEAN EXPLORATION PROPOSAL REVIEW PANEL

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the International Decade of Ocean Exploration Proposal Review Panel to be held at 8:30 a.m. on February 13 and 14, 1975, in room 631, 1800 G Street, NW., Washington, D.C.

The purpose of this Panel is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects.

This meeting will not be open to the public because the Panel will be reviewing, discussing, and evaluating individual research proposals. These proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of Section 10(d) of Pub. L. 92-463.

For further information about this Panel, please contact Mr. Feenan Jennings, Head, International Decade of Ocean Exploration, Rm. 710, National Science Foundation, Washington, D.C. 20550, telephone 202/632-7356.

FRED K. MURAKAMI,
Committee Management Officer.

JANUARY 21, 1975.

ADVISORY COMMITTEE ON GEOTHERMAL ENERGY

Notice of Determination to Establish

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), it is hereby determined that the establishment of an Advisory Committee on Geothermal Energy as hereinafter identified, is necessary, appropriate, and in the public interest in connection with the performance of duties imposed upon the National Science Foundation by the National Science Foundation Act of 1950, as amended, and other applicable law. This determination follows consultation with the Office of Management and Budget (OMB), pursuant to Section 9(a)(2) of the Federal Advisory Committee Act and OMB Circular No. A-63, Revised.

1. *Name of committee.* Advisory Committee on Geothermal Energy.

2. *Purpose.* To advise the National Science Foundation on the status of social, legal, technological and institutional problems that inhibit the private sector from exploiting the Nation's vast reserves of geothermal energy; to suggest to the Foundation and other Federal agencies areas of research which will accelerate the private development of geothermal energy into electric and non-electric power; and, to inform NSF and other Federal agencies on the status of privately supported geothermal research and development.

3. *Effective date of establishment and duration.* The committee is established, effective 15 days after publication of this Notice and after filing of the charter with the standing committees of Congress having legislative jurisdiction of the National Science Foundation. The committee's duration shall be two years from the effective date.

4. *Membership.* The membership of the committee shall be fairly balanced in terms of the points of view represented and the committee's function. Membership will include, but not be restricted to the following segments of the private sector in order to be assured of a balanced representation among public interests and concerns.

a. Public and private utilities.
b. Resource exploration companies.
c. Resource supply companies.
d. State regulatory commissions.
e. Environmental protection associations.
f. Financial and legal institutions.
g. Consumer groups.

There will be no discrimination on the basis of race, color, national origin, religion or sex.

5. *Committee operation.* The committee will operate in accordance with provisions of the Federal Advisory Committee Act (Pub. L. 92-463), Foundation policy and procedures, OMB Circular No. A-63, Revised, and other directives and instructions issued in implementation of the Act. The committee will elect its officers and designate the structure and composition of subcommittees and special panels. Committee meetings will be held bi-annually at a time and place to be determined by the National Science Foundation. Agenda for each meeting will be developed cooperatively between the Committee Chairman and NSF. Meetings will be structured in a manner which permits discussion of non-agenda items.

H. GUYFORD STEVER,
Director.

[FR Doc.75-2346 Filed 1-24-75;8:45 am]

*Voting for this action: Vice Chairman Holland, Wallich, and Coldwell. Absent and Mitchell and Governors Sheehan, Bucher, not voting: Chairman Burns.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts

VISUAL ARTS ADVISORY PANEL

Meeting

Pursuant to Section 10(a) (2) of the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given that a meeting of the Visual Arts Advisory Panel to the National Council on the Arts will be held on February 11, 1975, at 10:00 a.m. in the 11th floor conference room, Shoreham Building, 806 15th Street, NW, Washington, DC.

The purpose of this meeting is for a general policy discussion. The meeting will be open to the public on a space available basis. Accommodations are limited. Further information can be obtained from Mrs. Luna Diamond, Advisory Committee Management Officer, National Endowment for the Arts, Washington, DC. 20506, or call (202) 634–7144.

EDWARD M. WOLFE,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

VISUAL ARTS ADVISORY PANEL

Meeting

Pursuant to Section 10(a) (2) of the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given that closed meetings of the Visual Arts Advisory Panel to the National Endowment for the Arts will be held at 9:00—5:00 p.m. on February 12, 1975 in New York City; February 18, 19, 20, 1975 in the 13th floor conference room, Columbia Plaza, Washington, D.C.; February 25–28, 1975 in Washington, D.C.

These meetings are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of January 10, 1973, these meetings, which involve matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552 (b)(4), (5)), will not be open to the public.

Further information with reference to these meetings can be obtained from Mrs. Luna Diamond, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634–7144.

EDWARD M. WOLFE,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. STN 50–502; STN 50–503]

WISCONSIN ELECTRIC POWER CO. ET AL.

Special Prehearing Conference

In the Matter of Wisconsin Electric Power Company; Wisconsin Power & Light Company; Wisconsin Public Service Corporation; Madison Gas and Electric Company. Please take notice, that pursuant to the Atomic Energy Commission's[1] Notice of Hearing on a joint application for construction permits for the Koshkonong Nuclear Plant, Units 1 and 2, dated October 21, 1974 (39 Fed. Reg. 38018), and in accordance with the Commission's rules of practice, a special prehearing conference will be held on February 14, 1975 in Madison, Wisconsin as more fully set forth below.

The cardinal objective of said conference will be to:

(a) Establish a clear and particularized identification of the issues with respect to petitions for intervention and petitions for participation under § 2.715(c);

(b) To consider the need for discovery and the time required for same;

(c) To establish a schedule for further actions in this proceeding; and

(d) To consider such other matters as may aid in the orderly disposition of this proceeding.

The Board will consider any stipulations from the parties regarding the matters in controversy or settlement of outstanding issues.

Members of the public are invited to attend this special prehearing conference as well as any subsequent prehearing conferences or evidentiary sessions called in this proceeding, but should be advised that this special prehearing conference will not receive any evidence nor will there be any opportunity for presentation of statements from members of the public. Members of the public who have requested opportunity to make limited appearance statements will be afforded the opportunity to do so on the initial day or days of the evidentiary hearing. Public notice of the evidentiary hearing will be given.

Wherefore it is ordered, That a special prehearing conference shall commence at 9:00 a.m. local time on February 14, 1975 at the U.S. Post Office and Courthouse, Courtroom No. 232, 215 Monona Avenue, Madison, Wisconsin 53701.

Dated at Bethesda, Maryland, this 22nd day of January 1975.

ATOMIC SAFETY AND LICENSING BOARD,
GLENN O. BRIGHT,
E. LEONARD CHEATUM,
JOHN B. FARMAKIDES,
Chairman.

[FR Doc.75–2365 Filed 1–24–75;8:45 am]

[1] Successor agency as of January 19, 1975, is the Nuclear Regulatory Commission through the Energy Reorganization Act of 1974, Public Law 93–438, October 11, 1974.

[Docket No. 50–344]

PORTLAND GENERAL ELECTRIC CO. ET AL. (TROJAN NUCLEAR PLANT)

Order Extending Dates for Completion of Facility

In the matter of Portland General Electric Company, the City of Eugene, Oregon Pacific Power and Light Company (Trojan Nuclear Plant),

Portland General Electric Company, The City of Eugene, Oregon, acting by and through the Eugene Water and Electric Board, and the Pacific Power & Light Company are holders of Construction Permit No. CPPR–79 issued by the Atomic Energy Commission on February 8, 1971, for construction of the Trojan Nuclear Plant presently under construction in Columbia County, Oregon.

On December 24, 1974, Portland General Electric Company, on behalf of the City of Eugene, Pacific Power & Light Company and itself, submitted a request for an extension of the dates for the completion of the facility specified in CPPR–79 on the ground that construction has been delayed because of (1) strikes and work stoppages by organized labor, (2) low labor productivity, (3) manpower shortages, (4) late delivery of material and equipment, (5) and design changes.

As set forth in a Regulatory staff evaluation dated January 17, 1975, we have found that good cause exists for the granting of an extension, the period of time for which the extension was requested is reasonable, and no significant hazards consideration is presented.

It is hereby ordered, therefore, That the dates for completion of the facility specified in Construction Permit No. CPPR–79 are extended and that paragraph 2A of Construction Permit No. CPPR–79 is amended to read:

The earliest date for completion of the facility is July 1, 1975, and the latest date for completion of the facility is July 1, 1976.

Date of Issuance: January 17, 1975.

For the Atomic Energy Commission.

R. C. DEYOUNG,
Assistant Director for Light Water Reactors, Group 1, Directorate of Licensing.

[FR Doc.75–2276 Filed 1–24–75;8:45 am]

[Docket No. 50–305]

WISCONSIN PUBLIC SERVICE CORP. ET AL.

Notice of Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 4 to Facility Operating License No. DPR–43 issued to Wisconsin Public Service Corporation, Wisconsin Power and Light Company, and Madison Gas and Electric Company (the licensee) which revised Technical Specifications for operation of the Kewaunee Nuclear Power Plant, located in Kewaunee County, Wisconsin. The amendment is effective as of its date of issuance.

The amendment revises the Technical Specifications by temporarily extending the current monthly surveillance period for the turbine governor and steam stop valves (Table T.S. 4.1–3, Item 10) by an additional 59 days.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment dated December 20, 1974, (2) Amendment No. 4 to License No. DPR–43, with any attachments, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Kewaunee Public Library, 314 Milwaukee Street, Kewaunee, Wisconsin.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this 20th day of January 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch #1, Directorate of Licensing.

[FR Doc.75–2277 Filed 1–24–75;8:45 am]

[Docket Nos. 50–524, 50–525, 50–526, and 50–527]

ALABAMA POWER CO. (ALAN R. BARTON NUCLEAR PLANT, UNITS 1, 2, 3, AND 4)

Prehearing Conference

Notice is hereby given that, pursuant to the Atomic Energy Commission's "Notice of Hearing on Application for Construction Permits" published in the FEDERAL REGISTER on December 6, 1974 (39 FR 42707), and in accordance with § 2.751a of said Commission's rules of practice, 10 CFR Part 2, a special prehearing conference will be held in the above-captioned proceeding at 10 a.m. on February 6, 1975, at the Montgomery County Courthouse, 3rd Floor, 142 Washington Avenue, Montgomery, Alabama 36104.

This special prehearing conference will be held before the Atomic Safety and Licensing Board (the Board) established in the aforementioned Notice of Hearing and composed of Dr. Ernest O. Salo, Dr. Marvin M. Mann and Daniel M. Head, Chairman.

The application which is subject matter of this proceeding has been made by the Alabama Power Company for construction permits for four boiling water nuclear reactors designated as the Alan R. Barton Nuclear Plant, Units 1, 2, 3, and 4 (the facilities), each of which will be designed for operation at 3579 thermal megawatts with a net electrical output of approximately 1159 megawatts. The proposed facilities are to be located approximately 15 miles southeast of Clanton, along the west side of the Coosa River, in Chilton and Elmore Counties, Alabama.

This special prehearing conference shall deal with the following matters:

1. Identification of key issues;
2. Any steps necessary for further identification of the issues;
3. Outstanding petitions for intervention;
4. All pending motions;
5. The need for discovery, and the time required thereof;
6. Establishment of a schedule for further action; and
7. Such other matters as may aid in the orderly disposition of the proceeding.

At the special prehearing conference, the Board will entertain oral argument on the outstanding petitions to intervene. The Board will cover both the interest and the contentions positions of the petitions to intervene.

Members of the public are invited to attend this prehearing conference as well as the evidentiary hearing to be held at a later date to be fixed by the Board. Members of the public wishing to make limited appearances pursuant to § 2.715 (a) of the Commission's rules of practice, 10 CFR Part 2, may identify themselves at this prehearing conference but oral or written statements to be presented by limited appearances will not be received at this conference. The Board will receive such statements at the aforementioned evidentiary hearing.

The attorneys for the respective parties and any petitioners for intervention are directed to confer in advance of this special prehearing conference, in such manner as they may deem appropriate, and report to the Board at said conference on any stipulations regarding interest and/or matters in controversy, and on any other mutually agreeable procedures to expedite this proceeding.

Issued at Bethesda, Maryland, this 17th day of January 1975.

By order of the Atomic Safety and Licensing Board.

DANIEL M. HEAD,
Chairman.

[FR Doc.75–2280 Filed 1–24–75;8:45 am]

[Docket No. STN 50–497]

OFFSHORE POWER SYSTEMS (FLOATING NUCLEAR POWER PLANTS)

Rescheduling of Second Prehearing Conference

The Applicant, Offshore Power Systems, has requested that the Second Prehearing Conference currently scheduled for January 28, 1975 be postponed for approximately three weeks. The other parties to this proceeding and to the related proceeding of Public Service Electric and Gas Company (Atlantic Generating Station, Units 1 and 2), STN 50–477 and STN 50–478, have consented to this continuance.

Accordingly, please take notice that the Second Prehearing Conference in the above-identified proceeding is hereby continued from January 28, 1975 until 10 a.m. Tuesday, February 18, 1975. The Second Prehearing Conference will be held in the Atomic Safety and Licensing Board Panel's hearing room, 12th floor, Landow Building, 7910 Woodmont Avenue, Bethesda, Maryland.

Issued at Bethesda, Maryland, this 17th day of January 1975.

By order of the Atomic Safety and Licensing Board.

DANIEL M. HEAD,
Chairman.

[FR Doc.75–2279 Filed 1–24–75;8:45 am]

[Docket Nos. STN 50–477 and 50–478]

PUBLIC SERVICE ELECTRIC AND GAS CO. (ATLANTIC GENERATING STATION, UNITS 1 AND 2)

Rescheduling of Second Prehearing Conference

At the request of counsel for the Applicant in the related proceeding of Offshore Power Systems (Floating Nuclear Power Plants), STN 50–437, the Second Prehearing Conference in that proceeding has been continued from January 28, 1975 until February 18, 1975. Since the Second Prehearing Conference in this proceeding was to follow immediately after the Second Prehearing Conference in Offshore Power Systems, it also will be continued until February 18, 1975.

Accordingly, please take notice that the Second Prehearing Conference in the above-identified proceeding is hereby continued from January 28, 1975 until February 18, 1975. This prehearing conference will be held in the Atomic Safety and Licensing Board Panel's hearing room, 12th floor, Landow Building, 7910 Woodmont Avenue, Bethesda, Maryland, and will begin immediately following the conclusion of the Second Prehearing Conference of the Offshore Power Systems case.

Issued at Bethesda, Maryland, this 17th day of January 1975.

By order of the Atomic Safety and Licensing Board.

DANIEL M. HEAD,
Chairman.

SECURITIES AND EXCHANGE COMMISSION

ADVISORY COMMITTEE ON THE IMPLEMENTATION OF A CENTRAL MARKET SYSTEM

Meeting

This is to give notice, pursuant to section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. I 10(a), that the Securities and Exchange Commission Advisory Committee on the Implementation of a Central Market System will conduct open meetings February 6 and 7, 1975 beginning at 9 a.m., at the offices of Capital Research and Management Co.: Investment Group Conference Room, 31st floor, Crocker Bank Plaza, 611 West Sixth Street, Los Angeles, California 90017.

The summarized agenda for the meeting is as follows:

1. Review of written comments received in response to the Committee's Preliminary Statement (Securities Exchange Act Release No. 11131, December 11, 1974).
2. Evaluation of oral presentations regarding the statement made at the Committee's previous meetings on January 9 and 10, 1975.
3. Preparation of final draft of the Preliminary Statement.
4. Consideration of possible topics for future Committee consideration.

Further information may be obtained by writing Andrew P. Steffan, Director, Office of Policy Planning, Securities and Exchange Commission, Washington, D.C. 20549.

Dated: January 21, 1974.

[SEAL] GEORGE A. FITZSIMMONS,
Advisory Committee Management Officer.

[FR Doc.75-2403 Filed 1-24-75;8:45 am]

[Rel. No. 18777; 70-5606]

AMERICAN NATURAL GAS CO.

Notice of Proposed Issue and Sale of Common Stock by Holding Company

JANUARY 20, 1975.

Notice is hereby given that American Natural Gas Company ("American Natural"), 30 Rockefeller Plaza, Suite 4545, New York, New York 10020, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

American Natural proposes to issue and sell between 1,700,000 and 2,000,000 shares of its authorized and unissued common stock, par value $10 per share. The company expects to negotiate the sale of the common stock and enter into an underwriting agreement providing for the purchase and resale of the common stock by a group of underwriters managed by Dillon, Read & Co. Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated, and Salomon Brothers. The public offering price per share of the common stock will be a fixed price, determined by agreement between the underwriters and American Natural, and not higher than the last reported sale (regular way) or the last reported asked price of American Natural's common stock on the New York Stock Exchange immediately prior to such determination, whichever is higher, plus 50¢. The underwriting commission will be an amount per share also determined by agreement between the underwriters and American Natural and will not be in excess of an agreed percentage of the public offering price to be specified in the underwriting agreement. On January 16, 1975, the closing price of American Natural's common stock on the New York Stock Exchange was $36.50 per share. The competitive bidding requirements of Rule 50 are not applicable because of the temporary suspension thereof by the Commission with respect to common stock issues of registered holding companies (HCAR No. 18646 (November 7, 1974)).

American Natural proposes to apply the net proceeds from the sale of common stock to the repayment of bank loans outstanding at the date of sale. The bank loans were incurred in 1974 to provide funds for the purchase of common stock of its subsidiaries to aid them in financing their capital requirements. Additional funds required to repay the remaining bank loans outstanding will be generated internally or obtained from new short-term borrowings under the exemption provided in section 6(a) of the Act. At December 31, 1974, American Natural had $73,800,000 of bank loans outstanding of which $14,800,000 were due April 29, 1975, and $59,000,000 were due June 11, 1975.

It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction. The fees and expenses to be paid in connection with the proposed transaction are to be filed by amendment.

Notice is further given that any interested person may, not later than February 18, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75-2394 Filed 1-24-75;8:45 am]

[Rel. No. 18778; 70-5604]

ARKANSAS POWER & LIGHT CO.

Notice of Proposed Amendment of Charter and Solicitation of Proxies

JANUARY 21, 1975.

Notice is hereby given that Arkansas Power & Light Company ("Arkansas"), Ninth and Louisiana Streets, Little Rock, Arkansas 72203, a public-utility subsidiary company of Middle South Utilities, Inc. ("Middle South"), a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, and 12(e) of the Act and rule 62 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Under Arkansas' charter, authorized shares of preferred stock may be issued from time to time in one or more series having such distinctive serial designations and (within the limitations set forth in the charter) such variations as between series as the company's board of directors shall state and express in a resolution or resolutions providing for the issue of such series. In all other respects, however, the shares of each series of preferred stock have the same rank, are identical with each other, and have the preferences, limitations, and relative rights appertaining thereto set forth in the charter.

It is stated that Arkansas will require substantial additional funds during the next few years to finance its continuing construction program and that it expects to raise the major part of such funds through the issuance and sale of additional securities, including additional shares of preferred stock. While the exact nature and amount of each such security issue will depend upon the capital requirements of the company and market conditions existing at the time, Arkansas presently is considering the issuance and sale of additional shares of a new series of its preferred stock during 1975.

It is further stated that other electric utilities have under present market conditions been able to sell shares of preferred stock at favorable dividend rates (if at all) only with the benefit of sinking funds. Arkansas' charter presently does not permit the company to issue preferred stock containing a sinking fund provision.

In order to make it possible for Arkansas to issue shares of new series of its preferred stock with the benefit of a sinking fund and thus enable it to sell securities when it might not otherwise be able to do so on acceptable terms, the company proposes to amend its charter to add to the authority of the board of directors to divide the authorized but unissued shares of the company's preferred stock into series and to fix and determine the characteristics, as to which there may be variations between different series, the authority to include in the resolution creating any future series of the company's preferred stock such terms and the amount of sinking fund requirements for the purchase or redemption of shares of any such series as it deems advisable. The issuance of any additional shares of preferred stock and the terms and conditions thereof would be subject to the approval of this Commission.

Arkansas's board of directors has called a meeting of holders of its common and preferred stock to be held on April 17, 1975, to consider the proposed charter amendment. The company proposes to solicit proxies for use at said meeting. It is stated that under the applicable provisions of the Arkansas Business Corporation Act, as amended, and the company's charter, the adoption of the proposal to amend the charter will require (a) the affirmative vote of the holders of at least two-thirds of the total number of outstanding shares of the preferred stock and the common stock voting together, (b) the affirmative vote of the holders of at least two-thirds of the total number of outstanding shares of the preferred stock voting as a class separately from the holders of the common stock, (c) the affirmative vote of the holders of at least two-thirds of the total number of outstanding shares of the common stock present at the meeting in person or by proxy as a class separately from the holders of the preferred stock, and (d) the presence in person or by proxy of the holders of at least 50 percent of the total number of outstanding shares of the common stock.

Middle South holds 23,390,000 shares of Arkansas' common stock, constituting 100 percent of all outstanding shares of such stock, and 95.8 percent of all outstanding shares of all stock of the company. The company has been informed by Middle South that it intends to vote all shares of common stock of the company held by it in favor of the adoption of the proposal to amend the company's charter. Such vote would necessarily constitute the required vote specified in (a) and (c) of the preceding paragraph and satisfy the condition specified in (d) therein.

It is stated that the Arkansas Public Service Commission has jurisdiction over the proposed charter amendment and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. Fees and expenses to be incurred in connection with the proposed transactions are estimated at $22,000, including legal fees of $8,500.

Notice is further given that any interested person may, not later than February 14, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

BOSTON STOCK EXCHANGE

Notice of Application for Unlisted Trading Privileges and of Opportunity for Hearing

JANUARY 21, 1975.

The above named national securities exchange has filed an application with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and rule 12f-1 thereunder, for unlisted trading privileges in the common stock of the following company, which security is listed and registered on one or more other national securities exchange:

International Nickel Co. of Canada Limited — File No. 7-4713

Upon receipt of a request, on or before February 7, 1975 from any interested person, the Commission will determine whether the application shall be set down for hearing. Any such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no one requests a hearing, this application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HALLIS,
Acting Secretary.

[Rel. No. 8646; 812-3715]

IVY FUND, INC. AND STANDISH, AYER & WOOD, INC.

Notice of Filing of Application

JANUARY 21, 1975.

Notice is hereby given that Ivy Fund, Inc., 441 Stuart Street, Boston, Massachusetts 02116 ("Fund"), an open-end, diversified, management investment company registered under the Investment Company Act of 1940 (the "Act"), and Standish, Ayer & Wood, Inc. ("Standish, Ayer"), 50 Congress Street, Boston, Massachusetts 02109, a registered investment adviser (collectively referred to hereinafter as "Applicants"), filed an application on October 30, 1974 and amendments thereto on December 30, 1974 and January 16, 1975 for an order of the Commission, pursuant to section 2(a)(20) of the Act, declaring Standish, Ayer not to be within the intent of the definition of "investment adviser" as that term is used in the Act, or alternatively, for an order of the Commission, pursuant to section 6(c) of the Act, exempting Applicants from the provisions of section 15(a) of the Act to the extent noted below. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

On September 25, 1974, the Fund's Board of Directors terminated the Fund's then existing investment advisory contract with Studley, Shupert & Co., Inc. ("Studley, Shupert"), effective October 31, 1974 and voted to employ Standish, Ayer to provide investment advisory services to the Fund commencing November 1, 1974. On October 18, 1974, after considering various requests and statements by Studley, Shupert, including its request that the appointment of Standish, Ayer be deferred pending a meeting of the Fund's shareholders, the Board of Directors of the Fund voted not to defer the appointment of Standish, Ayer, to approve an investment advisory contract (the "Contract") between the Fund and Standish, Ayer, and to call a special meeting of shareholders for the purpose of securing shareholder approval of the Contract.

The Contract approved by the Fund's Board of Directors provides that the Fund will pay to Standish, Ayer, for advisory services rendered during the period from November 1, 1974 to the date of the special meeting of shareholders (or to the end of the month in which such meeting is held if shareholders do not approve the Contract), the lesser of Standish, Ayer's costs of providing such services or a fee equal to ⅜ of 1 percent per annum of the first $15,000,000 of the Fund's average net assets in said period plus ¼ of 1 percent of the remaining average net assets, pro-rated for the period. The Contract further provides that, in the event the shareholders approve the Contract, the Fund will pay to Standish, Ayer the amount by which the aforesaid percentage fee for the period exceeds Standish, Ayer's costs, if such payment is specifically approved by shareholders and the order of the Commission requested herein is granted. The special meeting of shareholders of the Fund was originally scheduled for December 18, 1974, was rescheduled for January 30, 1975, and is presently scheduled for February 19, 1975.

Section 15(a) of the Act prohibits any person from serving or acting as investment adviser of a registered investment company except pursuant to a written contract which has been approved by the vote of a majority of the outstanding voting securities of such registered investment company. Section 2(a)(20) of the Act, in pertinent part, defines the term "investment adviser" of an investment company to include any person who, pursuant to contract, regularly furnishes advice to an investment company with respect to the desirability of investing in, purchasing or selling securities, or is empowered to determine what securities shall be purchased or sold, but specifically excludes therefrom persons furnishing such advice through uniform publications, persons furnishing only statistical information, companies furnishing such services at cost to one or more investment companies, insurance companies, or other financial institutions, persons whose compensation must be approved by a court, and such other persons as the Commission may by rules and regulations or order determine not to be within the intent of the definition.

Applicants seek an order of the Commission, pursuant to section 2(a)(20) of the Act, declaring Standish, Ayer not to be within the intent of the definition of "investment adviser" as that term is used in the Act or, alternatively, an order of the Commission, pursuant to section 6(c) of the Act, exempting Applicants from the provisions of section 15(a) of the Act to the extent necessary to permit the Fund:

(1) To employ Standish, Ayer as the Fund's investment adviser prior to approval by the Fund's shareholders of the Contract, and

(2) To pay retroactively to Standish, Ayer the amount by which the percentage fee specified in the Contract exceeds Standish, Ayer's costs if the Fund's shareholders approve the Contract and the retroactive payment.

The termination of Studley, Shupert and the appointment of Standish, Ayer as the Fund's investment adviser was unanimously recommended and supported by the Fund's disinterested directors. Applicants state that these actions were taken only after extensive consideration, evaluation and comparison of the capacity of Studley, Shupert to serve as the Fund's investment adviser and the capacity of Standish, Ayer and other potential advisers so to serve. This investigation began on June 20, 1974, following a Board of Directors meeting at which it was formally reported that Paul Fenton, Jr. was resigning as the Fund's President and would cease to be a full-time employee of Studley, Shupert, effective September 1, 1974, that Studley, Shupert had made certain changes in its organization, and that Fidelity Corporation of Virginia, Studley, Shupert's parent corporation, was experiencing financial difficulties.

The application states that these developments prompted the disinterested directors to meet following the Board of Directors meeting and discuss the Fund's performance, the failure of Studley, Shupert to provide requested reports on portfolio securities and Studley, Shupert's financial condition. It was the consensus of this meeting that the disinterested directors reconsider the relationship between the Fund and Studley, Shupert and that alternative sources of services be investigated.

The disinterested directors, during the following three months, interviewed investment advisory firms, conducted further discussions of the matter with Studley, Shupert and its parent, Fidelity Corporation, and with a prospective purchaser of Studley, Shupert, and in the end concluded that it was in the best interests of the Fund and its shareholders that Studley, Shupert be terminated as the Fund's investment adviser and that Standish, Ayer be so employed. It was the Board of Director's further conclusion that a deferral of the employment of Standish, Ayer beyond November 1, 1974 would not be in the best interests of the Fund and its shareholders.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security or transaction from any provision of the Act if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Applicants submit that the requested exemption is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than February 18, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-in-law, by certificate) shall be filed contemporaneously with the request. As provided by rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following February 18, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advise as to whether a hearing is

ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[File No. 81-167; File No. 3-4596]

FAMILY LIFE INSURANCE CO.

Notice of Application and Opportunity for Hearing

JANUARY 21, 1975.

Notice is hereby given that Family Life Insurance Company ("Applicant") has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended ("the 1934 Act") that Applicant be granted an exemption from the provisions of section 15(d).

Section 15(d) provides that each issuer who has filed a registration statement which has become effective pursuant to the Securities Act of 1933, as amended, shall file with the Commission, in accordance with such rules and regulations as the Commission may prescribe as necessary or appropriate in the public interest or for the protection of investors, such supplementary and periodic information, documents, and reports as may be required pursuant to section 13 of the 1934 Act in respect of a security registered pursuant to section 12 of the 1934 Act.

Section 12(h) of the 1934 Act empowers the Commission to exempt, in whole or in part, any issuer or class of issuers from the registration, periodic reporting or proxy solicitation provisions under sections 12, 13, and 14 and any officer, director or beneficial owner of more than 10 percent of the 12(g) registered equity securities of any issuer from the insider trading provisions of section 16 of the 1934 Act, if the Commission finds, by reason of the number of public investors, amount of trading interest in the securities, and nature and extent of the activities of the issuer, income or assets of the issuer or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The Applicant states, in part:

1. Applicant is incorporated under the laws of Washington.

2. Prior to 1974 the Applicant had one class of equity securities registered under the Securities Act of 1933.

3. As a result of a merger on November 13, 1974, the Applicant became a wholly-owned subsidiary of Merrill Lynch & Co., Inc.

4. At this time the Applicant has only one shareholder, Merrill Lynch & Co., Inc.

In the absence of an exemption, Applicant would be subject to the provisions of section 15(d) relating to reports to be filed with the Commission by reason of the fact that the company had a public offering of its Common Stock in 1965, which offering was registered and became effective under the Securities Act of 1933.

Applicant argues that there would be no useful purpose served by the necessity of continued reports for the balance of the 1974 calendar year simply for the reason that from January 1, 1974 until November 13, 1974 (the time of the merger) the Applicant had over 300 stockholders of record.

For a more detailed statement of the information presented, all persons are referred to said application which is on file in the offices of the Commission at 500 North Capitol Street, Washington, D.C.

Notice is further given that any interested person not later than February 17, 1975 may submit to the Commission in writing his views or any substantial facts bearing on this application or the desirability of a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert. Persons who request a hearing or advice as to whether a hearing is ordered will

V40118 JAN27 75 XUM

receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof. At any time after said date, an order granting the application may be issued upon request or upon the Commission's own motion.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[FR Doc.75-2397 Filed 1-24-75;8:45 am]

[File No. 81-166; File No. 3-4589]

HONEYWELL OVERSEAS FINANCE CO.

Notice of Application and Opportunity for Hearing

JANUARY 21, 1975.

Notice is hereby given that Honeywell Overseas Finance Company ("Applicant") has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended (the "1934 Act") that Applicant be granted an exemption from the provisions of section 13 of the 1934 Act.

Section 12(b) of the 1934 Act provides that an issuer may register securities on a national exchange by filing a registration statement with both the exchange and the Securities and Exchange Commission (the "Commission") which registration statement contains information as to the issuer and any person directly or indirectly controlling or controlled by the issuer as the Commission may require for the protection of investors or in the public interest.

Section 13 of the 1934 Act requires that issuers of securities registered pursuant to section 12 must file certain periodic reports with the Commission for the protection of investors and to insure fair dealing in the security.

Section 12(h) of the 1934 Act empowers the Commission to exempt, in whole, or in part, any issuer or class of issuers from the registration or periodic reporting provisions under sections 12 and 13, if the Commission finds, by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer, income or assets of the issuer or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The Applicant states, in part:

1) Applicant is a Delaware corporation and wholly owned subsidiary of Honeywell, Inc. ("Honeywell") formed on January 30, 1968 for the principal purpose of obtaining funds to meet the capital requirements of Honeywell outside of the United States and Canada.

2) In February, 1968, Applicant issued $30 million, principal amount of 5 percent Guaranteed Convertible Debentures due 1983. (the "Debentures").

3) The debentures are unconditionally guaranteed as to payment of principal and interest by Honeywell, and are convertible into shares of Honeywell common stock at $103.25 per share.

4) Applicant states that the debentures were intended for sale to non-United States investors and were issued under conditions reasonably designed to prevent their distribution to United States nationals.

5) The debentures are listed on the New York Stock Exchange and are registered pursuant to section 12(b) of the 1934 Act.

In the absence of an exemption, Applicant is required to file certain periodic reports with the Commission pursuant to section 13 of the 1934 Act because the debentures are registered with both the New York Stock Exchange and the Securities and Exchange Commission.

Applicant argues that the exemption order requested by it is appropriate in view of the fact that none of the securities of the Applicant (other than debt securities) are or will be held by any person other than Honeywell, or a wholly-owned subsidiary of Honeywell; that since the debentures are guaranteed by and convertible into common shares of Honeywell, it is the reports of Honeywell filed pursuant to Section 13 of the 1934 Act and not those of Applicant in which reasonable investors would be primarily interested; and since the debentures were admitted to trading on the New York Stock Exchange, no transactions in the debentures on such Exchange have occurred.

For a more detailed statement of the information presented, all persons are referred to the application and amendments which are on file in the offices of the Commission at 500 North Capitol Street, Washington, D.C. 20549.

Notice is further given that any person not later than February 17, 1975 may submit to the Commission in writing his views or any substantial facts bearing on the application or the desirability of a hearing thereon. Any such communication or request should be addressed to: Secretary, Securities and Exchange Commission, 500 North Capitol Street NW., Washington, D.C. 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof. At any time after said date, an order granting the application may be issued upon request or upon the Commission's own motion.

By the Commission.

SMALL BUSINESS ADMINISTRATION

REAL ESTATE CAPITAL CORP.

Notice of Filing of Application for Transfer of Control of a Licensed Small Business Investment Company

Notice is hereby given that an application has been filed with the Small Business Administration (SBA), pursuant to § 107.701 of the Regulations governing small business investment companies (13 CFR 107.701 (1974)), for the transfer of control of Real Estate Capital Corporation (RECC), 111 West 40th Street, New York, New York 10018, a Federal licensee under the Small Business Investment Act of 1958, as amended (the Act), License No. 02/02-0124.

RECC was licensed on December 27, 1961. Its present combined paid-in capital and surplus is $1,260,444 with 800 shares, issued and outstanding, held by Union Investing Corporation (Union). This proposed transfer of control is subject to, and contingent upon, the approval of SBA.

The applicant, Dominion Holdings, Inc. (formerly Disc Incorporated of America) with offices at 1845 Walnut Street, Philadelphia, Pennsylvania 19103, is purchasing from Union 100 percent of the issued and outstanding stock of the licensee and will relocate the principal office of the licensee at 9823 Central Avenue, Largo, Maryland 20870.

The proposed new officers and directors of the applicant are as follows:

William J. Levitt, Jr., Chairman of the Board and Director.
Bennett Blum, President and Director.
Edward C. Keyworth, Vice President, Secretary and Director.
Barry A. Ebert, Treasurer and Director.

The single largest stockholder in Dominion is Levitt Enterprises Incorporated, and Mr. William J. Levitt, Jr., is the only individual who owns more than 10 percent of Levitt Enterprises, Inc.

Matters involved in SBA's consideration of the application include the general business reputation and character of the new owner and management, and the probability of successful operations of RECC under their management and control, including adequate profitability and financial soundness, in accordance with the Act and Regulations.

Notice is hereby given that any interested person may, not later than February 11, 1975, submit to SBA, in writing, relevant comments on the transfer of control. Any such communication should be addressed to:

Deputy Associate Administrator for Investment
1441 L Street, NW
Washington, D.C. 20416

A copy of this Notice shall be published by the transferee in newspapers of general circulation in Largo, Maryland and Philadelphia, Pennsylvania.

Date: November 25, 1974.

JAMES THOMAS PHELAN, *Deputy Associate Administrator for Investment.*

[FR Doc.75-248 Filed 1-24-75;8:46 am]

DEPARTMENT OF LABOR

Office of the Secretary

SHAER SHOE CORP.; MILFORD, MASSACHUSETTS PLANT

Certification of Eligibility of Workers to Apply for Adjustment Assistance

Under date of December 20, 1974, the U.S. Tariff Commission made a report of the results of its investigation (TEA-W-252) under Section 301(c)(2) of the Trade Expansion Act of 1962 (76 Stat. 884) in response to a petition for determination of eligibility to apply for adjustment assistance filed by the Shoe Workers Association of Milford, Massachusetts on behalf of former workers of the Milford, Massachusetts plant of the Shaer Shoe Corp., Manchester, New Hampshire. In this report, the Commission found that articles like or directly competitive with footwear for women produced by the Milford, Massachusetts plant of the Shaer Shoe Corp. are, as a result in major part of concessions granted under trade agreements, being imported into the United States in such increased quantities as to cause the unemployment or underemployment of a significant number or proportion of the workers of the Milford, Massachusetts plant of the firm.

Upon receipt of the Tariff Commission's affirmative finding, the Department, through the Director of the Office of Foreign Economic Policy, Bureau of International Labor Affairs, instituted an investigation.

Following this, the Director made a recommendation to me relating to the matter of certification (Notice of Delegation of Authority and Notice of Investigation, 34 FR 18342; 37 FR 2472; 40 FR 846-7; 29 CFR Part 90). In the recommendation she noted that concession generated imports like or directly competitive with footwear for women produced by the Milford, Massachusetts plant of Shaer Shoe Corp. increased substantially. During the period 1970-1974, the plant's customers turned increasingly to imports. In an effort to compete with foreign producers during that period, the firm introduced style changes and initiated an economy program at the Milford plant which involved a substitution of vinyl uppers for leather uppers, the conversion of the majority of the workers from a piecework pay plan to an hourly pay plan and an extension of the workers' 1970 wage contract through 1974. Those efforts failed to lower production costs to a level that would permit the plant to effectively compete with imports. As a result, sales declined and the management was forced to reduce employment at the Milford plant. Unemployment and underemployment of a significant number or proportion of workers of the Milford plant began in July 1970 and continues. Production workers were phased out of employment after the plant ceased production in September 1974, but a small office staff is being maintained at the Milford facility. After due consideration I make the following certification:

All workers, hourly, piecework, and salaried, of the Milford, Massachusetts plant of the Shaer Shoe Corporation, Manchester, New Hampshire, who became or will become unemployed or underemployed after July 5, 1970 are eligible to apply for adjustment assistance under Title III, Chapter 3, of the Trade Expansion Act of 1962.

Signed at Washington, D.C. this 21st day of January 1975.

HERBERT N. BLACKMAN, *Associate Deputy Under Secretary for Trade and Adjustment Policy.*

JANUARY 21, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 22254 (Sub-No. 79TA), filed January 16, 1975. Applicant: TRANS-AMERICAN VAN SERVICE, INC., P.O. Box 12608, Forth Worth, Tex. 76116. Applicant's representative: Theodore A. Coulter (same address as applicant). Tate, District Supervisor, Bureau of Operations, Interstate Commerce Commission, A–422 U.S. Court House, Nashville, Tenn.

No. MC 106644 (Sub-No. 201TA), filed January 13, 1975. Applicant: SUPERIOR TRUCKING COMPANY, INC., 2770 Peyton Road NW., Atlanta, Ga. 30318. Applicant's representative: W. Randall Tye, 1400 Candler Bldg., 127 Peachtree Street, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, plywood, particleboard, and wood products* (except in bulk), from Bon Wier, Cleveland, and Silsbee, Tex., to points in the United States (except Alaska and Hawaii, and Texas), for 180 days. Supporting shipper: Kirby Lumber Corporation, P.O. Box 577, Silsbee, Tex. 77656. Send protests to: William L. Scroggs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 546, 1252 West Peachtree Street NW., Atlanta, Ga. 30309.

No. MC 106674 (Sub-No. 150TA), filed January 15, 1975. Applicant: SCHILLI MOTOR LINES, INC., Box 123, Remington, Ind. 47977. Applicant's representative: Jerry Johnson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Railroad ties, wooden mining materials, and lumber, treated or untreated*, from Sutton, West Virginia to all points in Illinois, Indiana, Michigan, Wisconsin, for 180 days. Supporting shipper: United Wood Preserving Co., Old Fair Grounds, Sutton, West Va. 26601. Send protests to: J. H. Gray, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 345 W. Wayne, Room 204, Fort Wayne, Ind. 46802.

No. MC 107496 (Sub-No. 983TA), filed January 13, 1975. Applicant: RUAN TRANSPORT CORPORATION, Third and Keosauqua Way, Des Moines, Iowa 50309. Applicant's representative: E. Check (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Distiller solubles*, in bulk, from Atchison, Kans. to Oskaloosa, Iowa. for 180 days. Supporting shipper: Supersweet Feeds, 1200 Multifoods Bldg., Minneapolis, Minn. 55403. Send protests to: Herbert W. Allen, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 875 Federal Bldg., Des Moines, Iowa 50309.

No. MC 108393 (Sub-No. 86TA), filed January 13, 1975. Applicant: SIGNAL DELIVERY SERVICE, INC., 201 East Ogden Avenue, Hinsdale, Ill. 60521. Applicant's representative: Eugene L. Cohn, One North La Salle Street, Chicago, Ill. 60602. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Parts of Electrical and Gas Appliances and Equipment, Materials and Supplies*, used in the manufacture, distribution and repair of electrical and gas appliances, between St. Charles, Ill., and Clyde, Ohio, restricted to operations for the account of Whirlpool Corporation, for 180 days. Supporting shipper: Carl R. Anderson, Director of Corporate Traffic, Whirlpool Corporation, Benton Harbor, Miss. 49022. Send protests to: William J. Gray, Jr., District Supervisor, Bureau of Operations, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1086, Chicago, Ill.

No. MC 111485 (Sub-No. 17TA), (amendment), filed December 19, 1974, published in the FEDERAL REGISTER issue of January 3, 1975, and republished as amended this issue. Applicant: PASCHALL TRUCK LINES, INC., Route 4, Murray, Ky. 42071. Applicant's representative: Robert H. Kinker, 711 McClure Bldg., P.O. Box 464, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Monumental stone*, from points in Elbert County, Ga., to points in Missouri, Illinois, that part of Indiana in and west of Elkhart, Kosciusko, Fulton, Miami, Cass, Carroll, Tippecanoe, Montgomery, Boone, Putnam, Morgan, Monroe, Greene, Martin, Dubois, and Spencer Counties, Ind., and that part of Kentucky west of the Tennessee River, and (2) *Monumental stone*, from points in Elbert, Wilkes, Oglethorpe, Madison, Hart, Pickens, and Dawson Counties, Ga., to points in that part of Kentucky west of the Tennessee River, for 180 days.

NOTE.—Applicant states that the purpose of this filing is to permit it to lawfully continue a service previously performed by tacking and subject to the rules promulgated in Gateway Elimination, 119 MCC 530 (1974), 49 CFR 1065.

Supporting shippers: There are approximately 37 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: District Supervisor Floyd A. Johnson, Interstate Commerce Commission, Bureau of Operations, 435 Federal Office Bldg., 167 North Main Street, Memphis, Tenn. 38103. The purpose of this republication is to amend the description of the authority sought above.

No. MC 111729 (Sub-No. 484TA), filed December 5, 1974, published in the FEDERAL REGISTER issue of December 18, 1974, and republished as corrected this issue. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Business papers, records, audit, and accounting media*, between Kalamazoo, Mich., on the one hand, and, on the other, Keokuk, Iowa, and points in Illinois, Indiana, Ohio, and Pennsylvania, for 180 days. Supporting shipper: Parallex Corporation, 10528 Shaver Road, Kalamazoo, Mich. 49002. Send protests to: Anthony D. Giaimo, District Supervisor, Interstate Commerce Commission, 26 Federal Plaza, New York, N.Y. 10007.

NOTE.—The purpose of this republication is to change the territorial description.

No. MC 111729 (Sub-No. 499TA), filed January 15, 1975. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: John M. Delany (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Exposed and processed film and prints, complimentary replacement film, incidental dealer handling supplies, and advertising material*, moving therewith (except motion picture film, used primarily for commercial theatre and television exhibition), between Dallas, Tex., on the one hand, and, on the other, points in New Mexico, for 90 days. IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Applications

JANUARY 22, 1975.

The following applications to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(d)(2)), and notice thereof to all interested per-

V40118 JAN27 75 XUM

sons is hereby given as provided in such rules.

Carriers having a genuine interest in an application may file an original and three copies of verified statements in opposition with the Interstate Commerce Commission on or before February 26, 1975. (This procedure is outlined in the Commission's report and order in Gateway Elimination, 119 M.C.C. 530.) A copy of the verified statement in opposition must also be served upon applicant or its named representative. The verified statement should contain all the evidence upon which protestant relies in the application proceeding including a detailed statement of protestant's interest in the proposal. No rebuttal statements will be accepted.

No. MC 5470 (Sub-No. 89G), filed June 4, 1974. Applicant: TAJON, INC., R.D. #5, Mercer, Pa. 16137. Applicant's representative: Don Cross, 700 World Center Building, 918 Sixteenth Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Alloys*, in dump vehicles, from West Elizabeth, Pa., to Pontiac, Mich. The purpose of this filing is to eliminate the gateways of Conneaut, Ohio, and Erie, Pa. (2) *ferro-alloys*, in dump vehicles, from Monaca, Pa., to Ecorse and Warren, Mich. The purpose of this filing is to eliminate the gateway of Vancoram, Ohio.

No. MC 5470 (Sub-No. 91G), filed June 4, 1974. Applicant: TAJON, INC., R.D. #5, Mercer, Pa. 16137. Applicant's representative: Don Cross, 700 World Center Building, 918 Sixteenth Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alloys*, in dump vehicles, from Ashtabula, Ohio, to points in Michigan. The purpose of this filing is to eliminate the gateway of Erie, Pa.

No. MC 20894 (Sub-No. 22G), filed June 4, 1974. Applicant: P. CALLAHAN, INC., 5240 Comly Street, Philadelphia, Pa. 19135. Applicant's representative: Maxwell A. Howell, 1511 K Street NW., Washington, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Philadelphia, Pa., on the one hand, and, on the other, points in Nassau, Suffolk, and Westchester Counties, N.Y. The purpose of this filing is to eliminate the gateway of Souderton, Pa.

No. MC 34975 (Sub-No. 7G), filed June 4, 1974. Applicant: TREDWAYS EXPRESS, INC., 512 Myrtle Avenue, Boonton, N.J. 07005. Applicant's representative: William J. Augello, 120 Main Street, P.O. Box Z, Huntington, N.Y. 11743. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between points in Atlantic and Camden Counties on and north of U.S. Highway 30, Burlington, Hunterdon, Mercer, Middlesex, Monmouth, Morris, Ocean, Sussex, and Warren Counties, N.J., on the one hand, and, on the other, Allentown, Bethlehem, Easton, and Philadelphia, Pa. The purpose of this filing is to eliminate the gateways of Union County (Berkeley Heights), N.J., or Newark, N.J., and points in the commercial zone of Newark.

No. MC 53908 (Sub-No. 1G), filed June 5, 1974. Applicant: E. B. LIBE, INC., 160 Broad Street, Phillipsburg, N.J. 08865. Applicant's representative: John W. Frame, Box 626, 2207 Old Gettysburg Road, Camp Hill, Pa. 17011. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Steel machinery*, from points in New York, New Jersey, and Pennsylvania within 100 miles of Phillipsburg, N.J., to points in Pennsylvania, New York, Virginia, Rhode Island, Tennessee, Maryland, Massachusetts, Connecticut, and the District of Columbia. The purpose of this filing is to eliminate the gateway of Phillipsburg, N.J.

No. MC 59194 (Sub-No. 19G), filed June 4, 1974. Applicant: EASTERN FREIGHT WAYS, INC., Eastern and Moonachie Avenues, Carlstadt, N.J. 07072. Applicant's representative: J. Thomas Schneider, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except Classes A and B explosives, commodities in bulk, and those requiring special equipment), between points in Bradford, Cameron, Elk, McKean, Potter, Tioga, Warren, and Lycoming Counties, Pa., on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateways of Athens or Sayre, Pa.

No. MC 67200 (Sub-No. 42G), filed June 4, 1974. Applicant: THE FURNITURE TRANSPORT COMPANY, INC., P.O. Box 392, Furniture Row, Milford, Conn. 06460. Applicant's representative: Arthur J. Piken, One Lefrak City Plaza, Flushing, N.Y. 11368. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *New furniture*, (1) between points in Maine, New Hampshire, Vermont, Connecticut, and Rhode Island. The purpose of this filing is to eliminate the gateways at Boston and Turners Falls, Mass. (2) from points in New York, New Jersey, and Pennsylvania, within 100 miles of Columbus Circle, New York, N.Y., to points in Maine, New Hampshire, Vermont, Connecticut, Rhode Island, and Massachusetts. The purpose of this filing is to eliminate the gateways at New York, N.Y., and Boston and Turners Falls, Mass. (3) from points in New York, New Jersey, and Pennsylvania, within 100 miles of Columbus Circle, New York, N.Y., to points in New York, New Jersey, and Pennsylvania. The purpose of this filing is to eliminate the gateway at New York, N.Y. (4) from points in Maine, New Hampshire, Vermont, Connecticut, and Rhode Island, to points in New York, New Jersey, and Pennsylvania. The purpose of this filing is to eliminate the gateways at New York, N.Y., New Haven and West Haven, Conn., and Boston, Mass.

(5) From points in Massachusetts within 20 miles of Gardner, Mass., Leominster, Turners Falls, North Dartmouth, Boston, Mass., and points within 10 miles of the State House of Boston, Mass., to points in Maine, New Hampshire, Vermont, Connecticut, Rhode Island, New York, New Jersey, and Pennsylvania, restricted (a) against service from Turners Falls, Mass., to points in Maine, New Hampshire, Vermont, Connecticut, Rhode Island, New York, and New Jersey, (b) against uncrated new furniture moving from North Dartmouth, Mass., to points in Connecticut, New Jersey, and Pennsylvania, and (c) against service from Boston, Mass., and points within 10 miles of the State House of Boston, Mass., to points in Maine, New Hampshire, Vermont, Connecticut, Rhode Island, and New York. The purpose of this filing is to eliminate the gateways at Leominster, Boston, and Turners Falls, Mass., Milford and New Haven, Conn., and New York, N.Y. (6) from points in New Hampshire, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Leominster, Turners Falls, and points in Massachusetts within 20 miles of Gardner, Mass., and Baldwinville and Gardner, Mass., and Boston and points within 10 miles of State House, Boston, Mass., to Baltimore, Md., Washington, D.C., Newport News and Richmond, Va., restricted (a) to new, upholstered furniture, uncrated, and (b) against service from Milford, Conn., from which carrier holds direct authority. The purpose of this filing is to eliminate the gateways at Boston and Leominster, Mass., New Britain, New Haven, and Hartford, Conn., and New York, N.Y. (7) from points in Maine, New Hampshire, Vermont, Connecticut, and Rhode Island, to points in Massachusetts. The purpose of this filing is to eliminate the gateway at Boston, Mass.

No. MC 105457 (Sub-No. 81G), filed June 4, 1974. Applicant: THURSTON MOTOR LINES, INC., 600 Johnston Road, Charlotte, N.C. 28201. Applicant's representative: John V. Luckadoo, P.O. Box 10638, Charlotte, N.C. 28201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between points in Virginia, on the one hand, and, on the other, points in Georgia, Russell County, Ala., and that part of South Carolina west of a line extending from the North Carolina–South Carolina State line along South Carolina Highway 49 to York, S.C., thence along U.S. Highway 321 to Ulmers, S.C., thence along U.S. Highway 301 to the South Carolina-Georgia State line. The purpose of this filing is to eliminate the gateways of Charlotte or Roanoke Rapids, N.C.

No. MC 107515 (Sub-No. 912G), filed June 4, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., 3901 Jonesboro Road, Forest Park, Ga. 30050. Applicant's representative: Alan E. Serby, 3379 Peachtree Rd. NE., Suite No. 375, Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Frozen foods*, from Philadelphia, Pa., to points in Texas, Oklahoma, Iowa, Minnesota, West Virginia, Virginia, Kentucky, and Omaha, Nebr. The purpose of this filing is to eliminate the gateways of Richmond, Va., Florence, Ala., and/or Rocky Mount, N.C. (2) *edible meats*, from Philadelphia, Pa., to points in Wisconsin. The purpose of this filing is to eliminate the gateways of Richmond, Va., and/or Louisville, Ky. (3) *frozen foods*, from Philadelphia, Scranton, and New York, N.Y., and points in their respective commercial zone, to points in Virginia. The purpose of this filing is to eliminate the gateways of Richmond, Va., and/or Rocky Mount, N.C. (4) *fresh and cured meats*, from Philadelphia and Scranton, Pa., and New York, N.Y., and points in their respective commercial zones, to points in North Carolina, South Carolina and Virginia. The purpose of this filing is to eliminate the gateways of Richmond, Va., Atlanta, Ga., and/or Charlotte, N.C. (5) *frozen foods*, from New York, N.Y., and points in its commercial zone, to points in Virginia, West Virginia, Wisconsin, and Omaha, Nebr. The purpose of this filing is to eliminate the gateways of Richmond, Va., Rocky Mount, N.C., and/or Florence, Ala.

No. MC 113855 (Sub-No. 293G), filed June 4, 1974. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First National Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which, because of their size or weight, require the use of special equipment, *and related machinery, parts, and related contractors' materials and supplies* when the transportation is incidental to the transportation by said carrier of commodities which by reason of size or weight require special equipment, (2) *Self-propelled articles*, each weighing 15,000 lbs. or more *and related machinery, tools, parts, and supplies* moving in connection therewith, restricted to commodities to be transported on trailers, (3) *Road construction machinery*, (4) *Material handling equipment*, (5) *Agricultural machinery*, (6) *Construction, earth moving, excavating, loading, maintenance, logging and mining machinery, and equipment, tractors*, (not including truck tractors), and *pipe layers*, and (7) *Parts and attachments* for the commodities described in (3) through (6) above, between points in the United States (including Alaska, but excluding Hawaii). The purpose of this filing is to eliminate the gateways at Elgin, Ill., Scranton and Allentown, Pa., Davenport, Iowa, points in Minnesota and Iowa within 50 miles of Sioux Falls, S. Dak., points in Minnesota and Iowa within 25 miles of the Wisconsin-Iowa State line, points in Utah, North Dakota, Montana, Wyoming, and South Dakota.

No. MC 114868 (Sub-No. 3G), filed June 4, 1974. Applicant: HARRY EARL NEWLON, JR., doing business as NEWLON'S TRANSFER, 1511 North Nelson Street, Arlington, Va. 22201. Applicant's representative: Robert J. Gallagher, 1776 Broadway, New York, N.Y. 10019. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (1) between points in Maryland, Virginia, and the District of Columbia; and (2) between points Ohio, Illinois, Kentucky, Maryland, Virginia, and the District of Columbia, on the one hand, and, on the other, points in Connecticut, Delaware, Florida, Georgia, Indiana, Maine, Massachusetts, Michigan, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, and West Virginia. The purpose of this filing is to eliminate the gateway at Washington, D.C.

No. MC 117313 (Sub-No. 7G), filed June 4, 1974. Applicant: TRYON TRUCKING, INC., P.O. Box 68, Fairless Hills, Pa. 19030. Applicant's representative: John P. McMahon, Suite 1800, 100 East Broad Street, Columbus, Ohio. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: (1) *Tin plate, sheet metal, tinners' and roofers' supplies*, which because of size or weight, requires the use of special equipment, between points in Ohio, points in Pennsylvania on and west of a line beginning at the Pennsylvania-New York State line near Millerton, Pa., and extending in a southerly direction through Williamsport, Pa., to the Pennsylvania-Maryland State line near West Manheim, Pa., to points in Delaware and the District of Columbia, on the one hand, and, on the other, points in New Jersey, Maryland, New York, and points in Pennsylvania east of a line beginning at the Pennsylvania-New York State line near Millerton, Pa., and extending in a southerly direction through Williamsport, Pa., to the Pennsylvania-Maryland State line near West Manheim, Pa., (2) *Iron and steel, sheet metal and tin plate*, which because of size or weight, requires the use of special equipment, between the plant site of the Bethlehem Steel Corporation at Burns Harbor, Porter County, Ind., on the one hand, and, on the other, points in Ohio, West Virginia, Pennsylvania, New York, Maryland, New Jersey, Delaware, and the District of Columbia. The purpose of this filing is to eliminate the gateways at Philadelphia, Pa.

No. MC 125433 (Sub-No. 51G), filed June 4, 1974. Applicant: F–B TRUCK LINE COMPANY, a Corporation, 1891 West 2100 South, Salt Lake City, Utah 84119 Applicant's representative: David J. Lister, 1891 West 2100 South, Salt Lake City, Utah 84119. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, construction materials, and equipment*, between points in California, on the one hand, and, on the other, points in Washington and that part of Oregon on and north of the 44th parallel; and (2) *Contractor's equipment, heavy machinery, and other commodities*, the transportation of which, because of size and weight, requires the use of special equipment, *and related machinery parts, equipment, and supplies*, when the transportation thereof is incidental to the transportation of heavy machinery and other commodities which by reason of size or weight require the use of special equipment, between points in Modoc, Siskiyou, Del Norte, Humboldt, Trinity, Shasta, and Lassen Counties, Calif. (excluding service to or from points in Siskiyou and Shasta Counties, Calif. located on U.S. Highway 99), on the one hand, and, on the other, points in Washington, Oregon north of the 44th parallel, Idaho north of the northern boundary of Idaho County, and that part of Montana on and west of a direct north and south line extending from the northwest corner of Wyoming to the boundary of the United States and Canada. The purpose of this filing is to eliminate the gateways at points in Idaho.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizng safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before February 6, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 1936 (Sub-No. E11), filed May 30, 1974. Applicant: B&PP MOTOR EEXPRESS, INC., 720 Gross St., Pitts-

V 40 18 JAN 27 75 XUM

burgh, Pa. 15224. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Twilight zone commodities* as described in *National Automobile Transporters Association et al. v. Rowe Transfer & Storage Company, Inc.* 64 M.C.C. 229 (1955), and subsequent cases, between Newburgh, Poughkeepsie, and Firthcliffe, N.Y., on the one hand, and, on the other, points in Ohio on and east of U.S. Highway 23 from the Michigan-Ohio State line to junction U.S. Highway 224, thence on and north of U.S. Highway 224 to Ellsworth, Ohio, and thence on and east of Ohio Highway 45 to Wellsville, Ohio, and that part of Medina County, Ohio, on and south of U.S. Highway 224. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 31462 (Sub-No. E22), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Arkansas on and north of a line beginning at the Mississippi River, thence along U.S. Highway 49 to junction U.S. Highway 79, thence along U.S. Highway 79 to Pine Bluff, Ark., thence along U.S. Highway 270 to Hot Springs, Ark., thence along U.S. Highway 70 to junction Arkansas Highway 8, thence along Arkansas Highway 8 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Arkansas Highway 4, thence along Arkansas Highway 4 to the Arkansas-Oklahoma State line, on the one hand, and, on the other, points in Colorado. The purpose of this filing is to eliminate the gateway of Kansas City, Mo., or any point within 30 miles thereof.

No. MC 31462 (Sub-No. E24), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in South Carolina, on the one hand, and, on the other, points in that part of Arkansas on and north of a line beginning at the Arkansas-Missouri State line, thence along Interstate Highway 55 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Arkansas Highway 14, thence along Arkansas Highway 14 to junction Arkansas Highway 1, thence along Arkansas Highway 1 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction U.S. Highway 270, thence along U.S. Highway 270 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Arkansas Highway 8, thence along Arkansas Highway 8 to junction U.S. Highway 70, thence along U.S. Highway 70 to the Arkansas-Oklahoma State line. The purpose of this filing is to eliminate the gateways of (1) any point in Missouri within 25 miles of Cairo, Ill., (2) any point in Tennessee, and (3) any point in Georgia.

No. MC 31462 (Sub-No. E198), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Kansas, on the one hand, and, on the other, points in Ohio. The purpose of this filing is to eliminate the gateways of (1) Kansas City, Mo., or any point within 30 miles thereof, (2) any point in Missouri within 25 miles of Cairo, Ill., and (3) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E212), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Kansas, on the one hand, and, on the other, points in West Virginia. The purpose of this filing is to eliminate the gateways of (1) Kansas City, Mo., or any point within 30 miles thereof, and (2) Ft. Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E287), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Minnesota, to points in Pennsylvania. The purpose of this filing is to eliminate the gateway of (1) any point in Illinois within 50 miles of Burlington, Iowa, and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E288), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Minnesota, to points in Ohio. The purpose of this filing is to eliminate the gateways of (1) any point in Illinois within 50 miles of Burlington, Iowa, and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E289), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Minnesota, to points in West Virginia. The purpose of this filing is to eliminate the gateway of (1) any point in Illinois within 50 miles of Burlington, Iowa, and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E290), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Minnesota, to points in the District of Columbia. The purpose of this filing is to eliminate the gateways of (1) any point in Illinois within 50 miles of Burlington, Iowa, and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E291), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Minnesota to points in Virginia. The purpose of this filing is to eliminate the gateways of (1) any point in Illinois within 50 miles of Burlington, Iowa, and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 61403 (Sub-No. E34), (Correction), filed May 31, 1974, published in the FEDERAL REGISTER December 23, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (2) *Liquid chemicals*, in bulk, in tank vehicles, (a) from points in Tennessee on and east of U.S. Highway 85 to points in North Dakota on and east of U.S. Highway 85, and points in South Dakota, on and east of U.S. Highway 27 (Kingsport, Tenn., and Marshall, Ill.) *. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this partial correction is to correct a highway description. The remainder of this letter-notice remains as previously published.

No. MC 61403 (Sub-No. E40) (Correction), filed May 31, 1974, published in the FEDERAL REGISTER December 23, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from the plant site of Ashland Chemical Company, Division of Ashland Oil & Refining Co., at or near Mapleton, Ill., to points in Louisiana south of a line beginning at the Louisiana-Texas State line and extending along U.S. Highway 190 to junction U.S. Highway 90, thence along U.S. Highway 90 to the Louisiana-Mississippi State line, and points in Texas on, east, and south of a line beginning at the Texas-Louisiana State line and extending along U.S. Highway 190 to Livingston, thence along U.S. Highway 59 to the International Boundary line between the United States and Mexico. Restricted against the transportation of (1) naval stores to DeQuincy, La., (2) caustic potash and caustic soda to points in Louisiana. The purpose of this filing is to eliminate the gateway of Sheffield, Ala. The purpose of this correction is to correct the "E" number, previously published as E140.

No. MC 95900 (Sub-No. E1), filed June 1, 1974. Applicant: A. E. WHITE MOVING & STORAGE CO., INC., 49–55 Front Street, East Rockaway, N.Y. 11518. Applicant's representative: John L. Alfano, 550 Mamaroneck Ave., Harrison, N.Y. 10528. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (a) between points in New York, N.Y., Nassau and Suffolk Counties, N.Y., on the one hand, and, on the other, points in Connecticut, New Jersey, Pennsylvania, Massachusetts, New Hampshire, Virginia, Vermont, and District of Columbia; and (b) between points in Bergen, Essex, Hudson, Passaic, and Union Counties, N.J., and New York, N.Y., Nassau, Rockland, Suffolk, and Westchester Counties, N.Y., on the one hand, and, on the other, points in Ohio, Michigan, Florida, and Illinois. The purpose of this filing is to eliminate the gateway of those points in Nassau County, N.Y., which are in the New York, N.Y., commercial zone.

No. MC 105950 (Sub-No. E1), filed May 31, 1974. Applicant: BADER BROS. VAN LINES, INC., 475 Underhill Blvd., Syosset, L.I., N.Y. 11791. Applicant's representative: Frances Jalet, 1776 Broadway, New York, N.Y. 10019. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, (1) between points in Alabama, Georgia, North Carolina, and South Carolina, on the one hand, and, on the other, points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont (New York, N.Y.) *; (2) between points in Delaware, Maryland, New Jersey, Virginia, West Virginia, and the District of Columbia, on the one hand, and, on the other, points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont (New York, N.Y.) *; (3) between points in Florida, on the one hand, and, on the other, points in Maine, New Hampshire, and Vermont (Stamford, Conn.) *; and (4) between points in Pennsylvania, on the one hand, and, on the other, points in Rhode Island (New York, N.Y.*). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 107403 (Sub-No. E295), filed May 29, 1974. Applicant: MATLACK, INC., 10 W. Baltimore Ave., Lansdowne, Pa. 19050, Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except gasoline, fuel oil, benzene, kerosene, and raw milk), in bulk, in tank vehicles, from points in Pennsylvania within 150 miles of Monongahela, Pa., to points in Maine, Massachusetts, New Hampshire, and Vermont. The purpose of this filing is to eliminate the gateways of Johnsburg, Pa./Newark, N.J., and Clairton, Pa./Newark, N.J.

No. MC 107403 (Sub-No. E308), filed May 29, 1974. Applicant: MATLACK, INC., 10 W. Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except liquids, fly ash, salt, cement, plastic materials, and calcium chloride), in bulk, in tank vehicles, from points in Kentucky to points in Massachusetts, Rhode Island, Maine, Vermont, and New Hampshire. The purpose of this filing is to eliminate the gateways of Painesville, Ohio, and Solvay, N.Y.

No. MC 109478 (Sub-No. E44), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Road, P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 West Tenth Street, Erie, Pa. 16501. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except gasoline, fuel oil, benzene, kerosene, and raw milk), in bulk, in tank vehicles, from points in Pennsylvania within 150 miles of Monongahela, Pa., to points in Maine, Massachusetts, New Hampshire, and Vermont. The purpose of this filing is to eliminate the gateways of Johnsburg, Pa./Newark, N.J., and Clairton, Pa./Newark, N.J. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except liquids, fly ash, salt, cement, plastic materials, and calcium chloride), in bulk, in tank vehicles, from points in Kentucky to points in Massachusetts, Rhode Island, Maine, Vermont, and New Hampshire. The purpose of this filing is to eliminate the gateways of Painesville, Ohio, and Solvay, N.Y.

No. MC 109478 (Sub-No. E44), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Road, P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 West Tenth Street, Erie, Pa. 16501. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal containers* and parts therefor, from Lapel, Lawrenceburg, and Marion, Ind., and Strentor and Chicago, Ill., to Fall River, Boston, New Bedford, and Taunton, Mass., Jersey City and points in New Jersey within 25 miles thereof, and Swedesboro, N.J., Providence, R.I., and points in New York. The purpose of this filing is to eliminate the gateways of Brocton, Westfield, LeRoy and points within 50 miles thereof, Chautauqua County, Erie County, Genesee County, and Monroe County, N.Y., and North East, Pa.

No. MC 109478 (Sub-No. E45), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Road, P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 West Tenth Street, Erie, Pa. 16501. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal containers* and parts therefore, from Salem, N.J., to Lawton and Decatur, Mich., and Erie County, Pa. The purpose of this filing is to eliminate the gateways of Brocton and Westfield, N.Y.

No. MC 109478 (Sub-No. E46), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Road, P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 West Tenth Street, Erie, Pa. 16501. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tin containers* and parts therefore, from points in New Jersey, Pennsylvania, and Baltimore, Md., to Erie and Chautauqua Counties, N.Y., and Erie County, Pa. The purpose of this filing is to eliminate the gateways of Brocton and Westfield, N.Y., and North East, Pa.

No. MC 109478 (Sub-No. E47), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Road, P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 West Tenth Street, Erie, Pa. 16501. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal containers* and parts therefore, from Boston and Waban, Mass., to Erie County, Pa. The purpose of this filing is to eliminate the gateway of Brocton, N.Y.

No. MC 109478 (Sub-No. E48), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Road, P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 West Tenth Street, Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal containers* and parts therefor, from the plant and warehouse sites of United Can Company, at or near Rossford, Ohio, to Fall River, Boston, New Bedford, and Taunton, Mass., Erie County, Pa., and Providence, R.I. The purpose of this filing is to eliminate the gateways of Brocton, Monroe County, Genesee County, N.Y.

No. MC 109478 (Sub-No. E49), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Rd., P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 W. 10th St., Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Containers*, other than glass or metal, and parts therefor, from points in Ohio to points in New York. The purpose of this filing is to eliminate the gateway of Erie County, Pa., and LeRoy, N.Y., and points within 50 miles thereof.

No. MC 109478 (Sub-No. E50), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Rd., P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 W. 10th St., Erie, Pa. 16501. County, Erie County, N.Y., and North East, Pa.

No. MC 109478 (Sub-No. E51), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Rd., P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 W. 10th St., Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Containers*, other than glass or metal, and parts therefor, from Salem, N.J., to Lawton and Decatur, Mich., and Erie County, Pa. The purpose of this filing is to eliminate the gateway of Brocton and Westfield, N.Y.

No. MC 109478 (Sub-No. E53), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Rd., P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 W. 10th St., Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Containers* other than glass or metal and parts therefor, from Boston and Waban, Mass., to Erie County, Pa. The purpose of this filing is to eliminate the gateway of Brocton, N.Y.

No. MC 119988 (Sub-No. E57), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Tex. 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Tex. 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *newspaper supplements* otherwise exempt from economic regulation under Section 203(b)(7) of the Interstate Commerce Act when transported in mixed loads with printed advertising matter, from the facilities of Allied Printers and Publishers at or near Tulsa, Okla., to points in Idaho. The purpose of this filing is to eliminate the gateway of Montgomery County, Kans.

No. MC 119988 (Sub-No. E58), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Tex. 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *newspaper supplements* otherwise exempt from economic regulation under section 203(b)(7) of the Interstate Commerce Act when transported in mixed loads with printed advertising matter, from the facilities of Allied Printers and Publishers at or near Tulsa, Okla., to points in Utah. The purpose of this filing is to eliminate the gateway of Montgomery County, Kans.

No. MC 111545 (Sub-No. E66) (Correction) filed May 23, 1974, published in the FEDERAL REGISTER July 1, 1974. Applicant: HOME TRANSPORTATION COMPANY, INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in that part of Kentucky within 175 miles of Chattanooga, Tenn., on the one hand, and, on the other, points in that portion of Virginia in, east, and south of Southampton, Sussex, Surry, James, City, and York Counties, Va. The purpose of this filing is to eliminate the gateway of any point in North Carolina within 175 miles of Chattanooga, Tenn.

No. MC 112668 (Sub-No. E1), filed May 15, 1974. Applicant: HARVEY R. SHIPLEY & SONS, INC., Finksburg, Md. 21048. Applicant's representative: Norman E. Shipley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, in bulk, from Retsof, N.Y., to points in the District of Columbia, and points in Fauquier, Fairfax, Loudoun, and Prince William Counties, Va., and points in Jefferson County W. Va. The purpose of this filing is to eliminate the gateway of Baltimore, Md.

No. MC 113459 (Sub-No. E17), filed May 6, 1974. Applicant: H. J. JEFFRIES TRUCK LINE, INC., P.O. Box 94850, Oklahoma City, Okla. 73109. Applicant's representative: Robert A. Fisher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment; (2) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* when moving in connection therewith; (3) *Machinery, equipment, materials, and supplies* incidental to or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum (except the stringing and picking up of pipe in connection with main or trunk pipelines); (4) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (5) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with: (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; between points in that part of Illinois on and south of a line beginning at the Illinois-Missouri State line and extending along U.S. Highway 24 to its junction with Illinois Highway 103, thence along Illinois Highway 103 to its junction with Illinois Highway 125, thence along Illinois Highway 125 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with Illinois Highway 47, thence along Illinois Highway 47 to its junction with Interstate Highway 74, thence along Interstate Highway 74 to the Illinois-Indiana State line, on the one hand, and, on the other, points in Utah; between points in that part of Illinois on and south of U.S. Highway 24, on the one hand, and, on the other, points in that part of Utah on and south of U.S. Highway 40; and between points in that part of Illinois on, south, and east of a line beginning at the Illinois-Wisconsin State line and extending along U.S. Highway 51 to its junction with Illinois Highway 2, thence along Illinois Highway 2 to the Illinois-Iowa State line, on the one hand, and, on the other, points in that part of Utah on and south of a line beginning at the Utah-Colorado State line and extending along U.S. Highway 40 to its junction with U.S. Highway 189, thence along U.S. Highway 189 to its junction with Utah Highway 80, thence along Utah Highway 80 to its junction with Utah Highway 73, thence along Utah Highway 73 to its junction with Utah Highway 36, thence along Utah Highway 36 to its junction with Interstate Highway 80, thence along Interstate Highway 80 to the Utah-Nevada State line. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 113459 (Sub-No. E72), filed May 14, 1974. Applicant: H. J. JEFFRIES TRUCK LINE, INC., P.O. Box 94850, Oklahoma City, Okla. 73109. Applicant's representative: Robert A. Fisher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* incidental to or used in the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum (except the stringing and picking up of pipe in connection with main or trunk pipelines); (2) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (3) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with: (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled,

(c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; between points in that part of Kansas on and south of a line beginning at the Kansas-Colorado State line end extending along Kansas Highway 96 to its junction with U.S. Highway 56, thence along U.S. Highway 56 to its junction with Interstate Highway 35, thence along Interstate Highway 35 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to the Kansas-Missouri State line, on the one hand, and, on the other, points in that part of Illinois on and south of a line beginning at the Illinois-Iowa State line and extending along U.S. Highway 34 to its junction with Illinois Highway 47, thence along Illinois Highway 47 to the Illinois-Wisconsin State line. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 113459 (Sub-No. E73), filed May 31, 1974. Applicant: H. J. JEFFRIES TRUCK LINE, INC., P.O. Box 94850, Oklahoma City, Okla. 73109. Applicant's representative: Robert A. Fisher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment; and (2) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* when moving in connection therewith; between points in that part of Missouri on and east of a line beginning at the Missouri-Iowa State line and extending along U.S. Highway 61 to its junction with Interstate Highway 57, thence along Interstate Highway 57 to the Missouri-Illinois State line, on the one hand, and, on the other, points in that part of Louisiana on and north of Interstate Highway 20. Restriction: The operations authorized in (1) above are restricted against the transportation of agricultural machinery and agricultural tractors, and the operations authorized in (2) above are restricted to commodities which are transported on trailers. The purpose of this filing is to eliminate the gateway of points in Illinois.

No. MC 113459 (Sub-No. E74), filed May 31, 1974. Applicant: H. J. JEFFRIES TRUCK LINE, INC., P.O. Box 94850, Oklahoma City, Okla. 73109. Applicant's representative: Robert A. Fisher (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment; and (2) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* when moving in connection therewith; between points in that part of Texas on and east of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 75 to its junction with U.S. Highway 82, thence along U.S. Highway 82 to its junction with U.S. Highway 377, thence along U.S. Highway 377 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with U.S. Highway 57, thence along U.S. Highway 57 to the United States-Mexico International Boundary line, on the one hand, and, on the other, points in that part of Ohio on and north of a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 30 to its junction with U.S. Highway 30S, thence along U.S. Highway 30S to its junction with U.S. Highway 30, thence along U.S. Highway 30 to the Ohio-West Virginia State line. Restriction: The operations authorized in (1) and (2) above are restricted against the transportation of agricultural machinery and agricultural tractors, and the operations authorized in (2) above are restricted to commodities which are transported on trailers. The purpose of this filing is to eliminate the gateway of points in Illinois.

No. MC 113678 (Sub-No. E30), filed May 17, 1974. Applicant: CURTIS, INC., 4810 Pontiac St., Commerce City, Colo. 80022. Applicant's representative: David L. Metzler (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Canned meats, canned meat products, and canned meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from the facilities of Northwest Packing Company at Portland, Oreg.; (a) to points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, and the District of Columbia (Lexington, Nebr.)*; (b) to points in Alabama, Mississippi, Florida, Arkansas, Georgia, Kentucky, North Carolina, South Carolina, Tennessee, and West Virginia (Denver, Colo.)*; and (c) to points in Oklahoma (Greeley, Colo.)*; (2) *Canned goods*, from the plant site of Northwest Packing Company, at Portland, Oreg., (a) to points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, and the District of Columbia (Lexington, Nebr.)*; (b) to points in Alabama, Mississippi, Arkansas, Georgia, Kentucky, North Carolina, South Carolina, Tennessee, and West Virginia (Denver, Colo.)*; and (c) to points in Oklahoma (Greeley, Colo.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113678 (Sub-No. E69), filed May 17, 1974. Applicant: CURTIS, INC., 4810 Pontiac St., Commerce City, Colo. 80022. Applicant's representative: David L. Metzler (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts*, as defined by the Commission (except commodities in bulk, in tank vehicles), from Los Angeles, San Diego, and San Francisco, Calif., to points in Maine, New Hampshire, Vermont, Ohio, and Michigan. The purpose of this filing is to eliminate the gateways of Denver, Colo., and Rapid City, N. Dak.

No. MC 113678 (Sub-No. E70), filed May 17, 1974. Applicant: CURTIS, INC., 4810 Pontiac St., Commerce City, Colo. 80022. Applicant's representative: David L. Metzler (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, and *articles distributed by meat packinghouses*, as defined by the Commission (except commodities in bulk, in tank vehicles, and hides), from Greeley, Colo., to points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, and the District of Columbia. The purpose of this filing is to eliminate the gateway of York, Nebr.

No. MC 113678 (Sub-No. E73), filed May 17, 1974. Applicant: CURTIS, INC., 4810 Pontiac St., Commerce City, Colo. 80022. Applicant's representative: David L. Metzler (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Wahoo, Nebr., to points in Washington, Oregon, and Idaho. Restricted to the transportation of shipments originating at the facilities of Platte Valley Foods, Inc., at Wahoo, Nebr. The purpose of this filing is to eliminate the gateway of Denver, Colo.

No. MC 113678 (Sub-No. E81), filed May 10, 1974. Applicant: CURTIS, INC., 4810 Pontiac St., Commerce City, Colo. 80022. Applicant's representative: David L. Metzler (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Los Angeles, San Diego, and San Francisco, Calif., to points in Maine, New Hampshire, Vermont, Ohio, and Michigan. The purpose of this filing is to eliminate the gateway of Rapid City, S. Dak.

No. MC 113678 (Sub-No. E95), filed May 10, 1974. Applicant: CURTIS, INC., 4810 Pontiac St., Commerce City, Colo. 80022. Applicant's representative: David L. Metzler (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen preserved vegetables*, from the facilities of Food Processors, Inc., at Wilson, N.C., to points in Colorado, Idaho, Nebraska, Nevada, North Dakota, South Dakota, Oregon, Utah, Montana, Washington, and Wyoming. Restriction: The authority granted herein is restricted to traffic originating at the above-specified plant site and warehouse facilities. The pur-

V40N18 JAN27 75 XUM

pose of this filing is to eliminate the gateway of Ames, Iowa.

No. MC 114211 (Sub-No. E398), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements and parts thereof* (except commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling), from points in Nebraska to points in that part of Texas on and east of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 271 to junction Texas Highway 19, thence along Texas Highway 19 to junction Texas Highway 30, thence along Texas Highway 30 to junction Texas Highway 6, thence along Texas Highway 6 to junction Texas Highway 159, thence along Texas Highway 159 to junction Texas Highway 36, thence along Texas Highway 36 to junction Interstate Highway 10, thence along Interstate Highway 10 to junction Texas Highway 71, thence along Texas Highway 71 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Texas Highway 285, thence along Texas Highway 285 to junction U.S. Highway 281, thence along U.S. Highway 281 to McAllen, Tex., with no transportation for compensation on return except as otherwise authorized restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E25), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe* (except pipe used in or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products, and by-products), and *fittings* and *accessories* therefor, when moving with such pipe, the transportation of which because of size or weight, requires special equipment, from points in that part of Nebraska on and north west of a line beginning at the Iowa-Nebraska State line, thence along Nebraska Highway 2 to junction U.S. Highway 73/75, thence along U.S. Highway 73/75 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line to points in Louisiana on and south of a line beginning at the Texas-Louisiana State line, thence along U.S. Highway 80 to the Louisiana-Mississippi State line and to points in Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, Pennsylvania, New Jersey, Ohio, West Virginia, Virginia, Delaware, Maryland, Kentucky, Tennessee, North Carolina, South Carolina, Mississippi, Alabama, Georgia, and Florida, with no transportation for compensation on return, except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E426), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tractors* (except those with vehicle beds, bed frames, and fifth wheels), *equipment* designed for use in conjunction with tractors, *attachments* for the above-described commodities, and *parts* of the commodities described above in mixed loads with such commodities, from points in Iowa to points in that part of North Dakota on and north of a line beginning at the Minnesota-North Dakota State line, thence along Interstate Highway 94 to the North Dakota-Montana State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of that part of the Fargo, N. Dak., Commercial Zone located in the State of Minnesota.

No. MC 114211 (Sub-No. E427), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts thereof*, from points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line, thence along Illinois Highway 9 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Illinois Highway 17, thence along Illinois Highway 17 to the Illinois-Indiana State line to points in that part of Kansas on and west of a line beginning at the Kansas-Colorado State line, thence along Kansas Highway 96 to junction Kansas Highway 25, thence along Kansas Highway 25 to junction Kansas Highway 270, thence along Kansas Highway 270 to junction U.S. Highway 56, thence along U.S. Highway 56 to junction Kansas Highway 25, thence along Kansas Highway 25 to the Kansas-Oklahoma State line and to points in that part of Nebraska on and north of a line beginning at the Iowa-Nebraska State line, thence along U.S. Highway 20, to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Nebraska Highway 91, thence along Nebraska Highway 91 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction Nebraska Highway 21, thence along Nebraska Highway 21 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Nebraska-Wyoming State line, and to points in that part of South Dakota on and west of a line beginning at the South Dakota-North Dakota State line, thence along South Dakota Highway 45 to junction South Dakota Highway 34, thence along South Dakota Highway 34 to junction South Dakota Highway 47, thence along South Dakota Highway 47, to junction Interstate Highway 90, thence along Interstate Highway 90 to junction South Dakota Highway 45, thence along South Dakota Highway 45 to junction U.S. Highway 281, thence along U.S. Highway 281 to the South Dakota-Nebraska State line, and to points in that part of Louisiana on and west of a line beginning at the Arkansas-Louisiana State line, thence along Louisiana Highway 33, to junction Louisiana Highway 143, thence along Louisiana Highway 143 to junction U.S. Highway 165, thence along U.S. Highway 165 to junction Louisiana Highway 15 thence along Louisiana Highway 15 to junction U.S. Highway 84, thence along U.S. Highway 84 to the Louisiana-Mississippi State line, and to points in that part of Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line, thence along U.S. Highway 283, to junction Oklahoma Highway 15, thence along Oklahoma Highway 15 to the Oklahoma-Texas State line, and to points in Montana, Colorado, Texas, and New Mexico, with no transportation for compensation except as otherwise authorized restricted to the transportation of traffic (a) originating at the plant sites or warehouse facilities of International Harvester Company and (b) destined to the destination points specified above, except that the restriction in (b) shall not apply to traffic moving in foreign commerce. The purpose of this filing is to eliminate the gateway of Rock Island, Ill.

No. MC 114211 (Sub-No. E429), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities which because of size or weight require the use of special equipment and except commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459), from points in Minnesota to points in that part of Arizona on and south of a line beginning at the California-Arizona State line, thence along Interstate Highway 10 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction Arizona Highway 71, thence along Arizona Highway 71 to junction U.S. Highway 89, thence along U.S. Highway 89 to junction U.S. Highway 66, thence along U.S. Highway 66 to the Arizona-New Mexico State line, and to points in that part of New Mexico on and south of a line beginning at the New Mexico-Arizona State line, thence along Interstate Highway 40 to junction U.S. Highway 85, thence along

U.S. Highway 85 to junction U.S. Highway 60, thence along U.S. Highway 60 to the New Mexico-Texas State line, and to points in that part of California on and south of a line beginning at Oceanside, Calif., thence along California Highway 76 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction California Highway 71, thence along California Highway 71 to junction California Highway 74, thence along California Highway 74 to junction California Highway 111, thence along California Highway 111 to junction Interstate Highway 10, thence along Interstate Highway 10 to the California-Arizona State line, with no transportation for compensation on return except as otherwise authorized.

No. MC 114211 (Sub-No. E430), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities which because of size or weight require the use of special equipment and except commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459), from points in Minnesota to points in that part of Arkansas on and south of a line beginning at the Arkansas-Oklahoma State line, thence along U.S. Highway 62 to junction Arkansas Highway 16, thence along Arkansas Highway 16 to junction Arkansas Highway 21, thence along Arkansas Highway 21 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction Arkansas Highway 7, thence along Arkansas Highway 7 to the Louisiana-Arkansas State line and to points in that part of Louisiana on and west of a line beginning at the Louisiana-Arkansas State line, thence along U.S. Highway 167 to junction Interstate Highway 20, thence along Interstate Highway 20 to junction U.S. Highway 165, thence along U.S. Highway 165 to junction Louisiana Highway 128, thence along Louisiana Highway 128 to junction Louisiana Highway 15, thence along Louisiana Highway 15 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Mississippi-Louisiana State line, thence along the Mississippi-Louisiana State line to junction U.S. Highway 61, thence along U.S. Highway 61 to junction U.S. Highway 190, thence along U.S. Highway 190 to Louisiana Highway 1, thence along Louisiana Highway 1 to junction Louisiana Highway 24, thence along Louisiana Highway 24 to Hauma, La., with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Independence, Kans., Claremore, Okla.

No. MC 114211 (Sub-No. E431), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts thereof*, except commodities requiring special equipment, from the plants, warehouse sites, and storage facilities of the Sperry Rand Corp., New Holland Division, located at Belleville, Mountville, and New Holland, Pa., to points in that part of Minnesota on and west of a line beginning at the Iowa-Minnesota State line, thence along U.S. Highway 59 to junction Minnesota Highway 60, thence along Minnesota Highway 60 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Minnesota Highway 15, thence along Minnesota Highway 15 to junction Minnesota Highway 23, thence along Minnesota Highway 23 to junction Minnesota Highway 210, thence along Minnesota Highway 210 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Minnesota Highway 38, thence along Minnesota Highway 38 to Minnesota Highway 6, thence along Minnesota Highway 6 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Minnesota Canada International Boundary line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of points in South Dakota and Nassau, Minn.

No. MC 114211 (Sub-No. E433), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery, agricultural implements, and parts thereof* (except commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling), from points in that part of Nebraska on and east of a line beginning at the South Dakota-Nebraska State line to points in that part of Texas on and east of a line beginning at the Texas-Oklahoma State line, thence along U.S. Highway 75 to junction Interstate Highway 35E, thence along Interstate Highway 35E to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Texas Highway 285, thence along Texas Highway 285 to junction U.S. Highway 281, thence along U.S. Highway 281 to McAllen, Tex., with no transportation for compensation on return except as otherwise authorized restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E434), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements and parts* thereof, the transportation of which, because of size or weight, requires special equipment, from points in that part of Nebraska on and east of a line beginning at the South Dakota-Nebraska State line, thence along Nebraska Highway 47 to junction Nebraska Highway 137, thence along Nebraska Highway 137 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction U.S. Highway 281, thence along U.S. Highway 281 to the Nebraska-Kansas State line to points in that part of Texas on and southeast of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 281 to junction Texas Highway 79, thence along Texas Highway 79 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction U.S. Highway 290, thence along U.S. Highway 290 to junction Interstate Highway 10, thence along Interstate Highway 10 to the Texas-New Mexico State line, with no transportation for compensation on return except as otherwise authorized restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E435), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery, agricultural implements and parts thereof* (except commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling), from points in that part of Nebraska on and east of a line beginning at the South Dakota-Nebraska State line, thence along Nebraska Highway 47 to junction Nebraska Highway 137, thence along Nebraska Highway 137 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction U.S. Highway 281, thence along U.S. Highway 281 to the Nebraska-Kansas State line to points in that part of Texas on and southeast of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 281 to junction Texas Highway 79, thence along Texas Highway 79 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction U.S. Highway 290, thence along U.S. Highway 290 to junction Interstate Highway 10, thence along Interstate Highway 10 to the Texas-New Mexico State line,

with no transportation for compensation on return except as otherwise authorized restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E436), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors*, from points in that part of Nebraska on and east of a line beginning at the South Dakota-Nebraska State line, thence along Nebraska Highway 47 to junction Nebraska Highway 137, thence along Nebraska Highway 137 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction U.S. Highway 281, thence along U.S. Highway 281 to the Nebraska-Kansas State line to points in that part of Texas on and southeast of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 281 to junction Texas Highway 79, thence along Texas Highway 79 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction U.S. Highway 290, thence along U.S. Highway 290 to junction Interstate Highway 10, thence along Interstate Highway 10 to the Texas-New Mexico State line, with no transportation for compensation on return except as otherwise authorized restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E437), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors*, from points in that part of Nebraska on and east of a line beginning at the South Dakota-Nebraska State line, thence along U.S. Highway 83 to the Nebraska-Kansas State line to points in that part of Texas on and east of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 75 to junction Interstate Highway 35E, thence along Interstate Highway 35E to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Texas Highway 285, thence along Texas Highway 285 to junction U.S. Highway 281, thence along U.S. Highway 281 to McAllen, Tex., with no transportation for compensation on return except as otherwise authorized restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E438), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors* the transportation of which, because of size or weight, requires special equipment, from points in that part of Nebraska on and east of a line beginning at the South Dakota-Nebraska State line, thence along U.S. Highway 83 to the Nebraska-Kansas State line to points in that part of Texas on and east of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 75 to junction Interstate Highway 35E, thence along Interstate Highway 35E to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Texas Highway 285, thence along Texas Highway 285 to junction U.S. Highway 281, thence along U.S. Highway 281 to McAllen, Tex., with no transportation for compensation on return except as otherwise authorized restricted against movement to oilfield locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E440), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors*, from points in that part of Nebraska on and northwest of a line beginning at the Iowa-Nebraska State line, thence along Nebraska Highway 92 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Nebraska-Kansas State line to points in Indiana. The purpose of this filing is to eliminate the gateway of Fort Dodge, Iowa.

No. MC 119702 (Sub-No. E1), filed May 31, 1974. Applicant: STAHLY CARTAGE CO., P.O. Box 486, Edwardsville, Ill. 62025. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fuel oils, gasoline, kerosene, and asphalt*, in bulk, in tank vehicles, from Hartford, Roxana, and Wood River, Ill., to points in Illinois north of U.S. Highway 24. The purpose of this filing is to eliminate the gateway of St. Louis, Mo.

No. MC 119702 (Sub-No. E2), filed May 31, 1974. Applicant: STAHLY CARTAGE CO., P.O. Box 486, Edwardsville, Ill. 62025. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizers and fertilizer ingredients* which are petroleum products, in bulk, from the facilities of the Illinois Road Contractors, Inc., in Pike County, Ill., to those points in Indiana on and east of U.S. Highway 31, and points in Michigan and Ohio. The purpose of this filing is to eliminate the gateway of the facilities of United States Steel Corp., Chemical Division, at or near Tilton, Ill.

No. MC 119702 (Sub-No. E4), filed May 31, 1974. Applicant: STAHLY CARTAGE CO., P.O. Box 486, Edwardsville, Ill. 62025. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such petroleum products as are acids, chemicals, fertilizer, and fertilizer ingredients* (except cryogenic liquids), in bulk, in tank vehicles, from the facilities of Illinois Road Contractors, Inc., in Pike County, Ill., to points in that part of Iowa on and north of U.S. Highway 20, to points in the Upper Peninsula of Michigan, and points in South Dakota, Minnesota, and Wisconsin (the facilities of Apple River Chemical Co., Division of St. Paul Ammonia Products, Inc., at or near East Dubuque, Ill.) *; and (2) *Such petroleum products as are acids, chemicals, fertilizer, and fertilizer ingredients* (except cryogenic liquids), in bulk, in tank vehicles, from the facilities of Illinois Road Contractors, Inc., in Pike County, Ill., to points in Iowa, Kansas, Minnesota, Nebraska, South Dakota, and Wisconsin (the facilities of Apple River Chemical Co., Division of St. Paul Ammonia Products, Inc., at or near Niota, Ill.) *. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 119702 (Sub-No. E5), filed May 31, 1974. Applicant: STAHLY CARTAGE CO., P.O. Box 486, Edwardsville, Ill. 62025. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer solutions* which are petroleum products, in bulk, in tank vehicles, from the facilities of Illinois Road Contractors, Inc., in Pike County, Ill., to points in Michigan and Wisconsin (except anhydrous ammonia, from such plant site to points in Wisconsin). The purpose of this filing is to eliminate the gateway of the facilities of Agrico Chemical Co., near Pekin, Ill.

No. MC 119934 (Sub-No. E5), filed May 12, 1974. Applicant: ECOFF TRUCKING, INC., 625 E. Broadway, Fortville, Ind. 46040. Applicant's representative: Robert W. Loser II, 320 N. Meridian St., Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Phosphoric acid*, in bulk, in tank vehicles, from Jeffersonville, Ind., to points in Iowa, Minnesota, and Wisconsin, restricted against transporting the site of any glass manufacturing plant. The purpose of this filing is to eliminate the gateway of the plant site of National Phosphate Corporation at or near Marseilles, Ill. (B) *Chemicals* (except soda ash and petroleum derivative chemicals as defined by the Commission), in bulk, in tank vehicles, from Jeffersonville, Ind., to points in Iowa, Minnesota, and Wisconsin. The purpose of this filing is to eliminate the gateway of the plant site of Central Chemical Co., Division of Wilson & Co., Inc., near Elwood, Ill. (C) *Phosphoric acid and dry phosphates*, in bulk, in tank vehicles, from Jeffersonville, Ind., to points in Maryland, New Jersey, New York, Pennsylvania, and West Virginia. The purpose of this filing is to eliminate the gateway of Fernald, Ohio.

No. MC 119988 (Sub-No. E52), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Tex. 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Tex. 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *Newspaper supplements* otherwise exempt from economic regulation under Section 203(b)(7) of the Interstate Commerce Act when transported in mixed loads with printed advertising matter, from the facilities of Allied Printers and Publishers at or near Tulsa, Okla., to that part of New Mexico on and south of a line beginning at the New Mexico-Texas State line and extending along U.S. Highway 380 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction Interstate Highway 40, thence along Interstate Highway 40 to the New Mexico-Arizona State line. The purpose of this filing is to eliminate the gateway of that part of Texas on and east of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 81 to junction U.S. Highway 181, thence along U.S. Highway 181 to the Gulf of Mexico.

No. MC 119988 (Sub-No. E53), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Tex. 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Tex. 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *Newspaper supplements* otherwise exempt from economic regulation under Section 203(b)(7) of the Interstate Commerce Act when transported in mixed loads with printed advertising matter, from the facilities of Allied Printers and Publishers at or near Tulsa, Okla., to Washington, D.C. The purpose of this filing is to eliminate the gateway of Montgomery County, Kans.

No. MC 119988 (Sub-No. E55), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Tex. 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Tex. 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *newspaper supplements* otherwise exempt from economic regulation under Section 203(b)(7) of the Interstate Commerce Act when transported in mixed loads with printed advertising matter, from the facilities of Allied Printers and Publishers at or near Tulsa, Okla., to points in Wyoming. The purpose of this filing is to eliminate the gateway of Montgomery County, Kans.

No. MC 119988 (Sub-No. E56), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Tex. 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Tex. 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *Newspaper supplements* otherwise exempt from economic regulation under section 203(b)(7) of the Interstate Commerce Act when transported in mixed loads with printed advertising matter, from the facilities of Allied Printers and Publishers at or near Tulsa, Okla., to points in Oregon. The purpose of this filing is to eliminate the gateway of Montgomery County, Kans.

No. MC 119988 (Sub-No. E59), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Tex. 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Tex. 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *newspaper supplements* otherwise exempt from economic regulation under Section 203(b)(7) of the Interstate Commerce Act when transported in mixed loads with printed advertising matter, from the facilities of Allied Printers and Publishers at or near Tulsa, Okla., to Washington, D.C. The purpose of this filing is to eliminate the gateway of Montgomery County, Kans.

No. MC 123407 (Sub-No. E176), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board, materials*, and *accessories*, used in the installation of Composition board and *ceiling tile* (except lumber and commodities in bulk, chemicals, and commodities which because of size or weight require the use of special equipment), from Brookville, Ind., to the Counties of Jeff Davis, Culberson, Hudspeth, and El Paso, Tex., points in New Mexico except the Counties of Eddy, Lea, Chaves, Roosevelt, and Curry, and points in Colorado. The purpose of this filing is to eliminate the gateway of that part of the Commercial Zone of Dubuque, Iowa, in Illinois.

No. MC 123407 (Sub-No. E178), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board, materials*, and *accessories* used in the installation of the commodities above (except lumber and commodities in bulk), from the facilities of Abitibi Corporation at Roaring River, N.C., to points in Montana and the Counties of Teton, Park, Big Horn, Hot Springs, Washakie, Sheridan, Johnson, Campbell, and Crook, Wyo. The purpose of this filing is to eliminate the gateway of L'Anse, Mich.

No. MC 123407 (Sub-No. E180), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Composition board*, (2) *materials* and *accessories* used in the installation of the commodities in (1) above, (except lumber and commodities in bulk), and (3) *ceiling tile*, from points in Illinois except Moline, East Moline, and Rock Island and the Counties of Hancock, Adams, and Pike to the Counties of Lincoln, Flathead, Sanders, Lake, Glacier, Pondera, Toole, Liberty, and Hill, Mont. The purpose of this filing is to eliminate the gateways of Warren, Ill., and L'Anse, Mich.

No. MC 123407 (Sub-No. E182), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Composition board*, (2) *materials* and *accessories* used in the installation of the commodities in (1) above (except lumber and commodities in bulk), and (3) *Ceiling tile*, from Lakeville, Minn., to points in Maine, Vermont, New Hampshire, Massachusetts, and Connecticut. The purpose of this filing is to eliminate the gateway of L'Anse, Mich.

No. MC 123407 (Sub-No. E183), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board, materials*, and *accessories* used in the installation of composition board (except lumber and commodities in bulk), from Natchez, Miss., to the Counties of Lincoln, Sanders, Flathead, Glacier, Pondera, Toole, Liberty, Hill, Blaine, Phillips, Valley and Daniels, Mont. The purpose of this filing is to eliminate the gateway of L'Anse, Mich.

No. MC 123407 (Sub-No. E184), filed January 2, 1975. Applicant: SAWYER

V40I18 JAN27 75 XUM

TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board* (except lumber and commodities in bulk), from Charleston, S.C., to points in Montana and the counties of Teton, Park, Big Horn, Sheridan, Johnson, Campbell, Brook, and Weston, Wyo. The purpose of this filing is to eliminate the gateway of L'Anse, Mich.

No. MC 123407 (Sub-No. E185), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Composition board*, (2) *Materials* and *accessories* used in the installation of the commodities in (1) above (except lumber and commodities in bulk), and (3) *Ceiling tile*, from Florence, Ky., to points in Montana. The purpose of this filing is to eliminate the gateway of L'Anse, Mich.

No. MC 123407 (Sub-No. E186), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board, materials, and accessories* used in the installation of composition board (except lumber and commodities in bulk), from Henry County, Tenn., to the counties of Lincoln, Sanders, Flathead, Lake, Glacier, Mineral, Missoula, Ravalli, Granite, Deer Lodge, Silver Bow, Jefferson, Powell, Broadwater, Lewis and Clark, Teton, Pondera, Toole, Liberty, Chouteau, Hill, Cascade, Judith Basin, Meagher, Wheatland, Fergus, Blaine, Phillips, Petroleum, Garfield, Valley, Daniels, Roosevelt, McCone, and Sheridan, Mont. The purpose of this filing is to eliminate the gateway of L'Anse, Mich.

No. MC 123407 (Sub-No. E187), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by water vehicle, over irregular routes, transporting: *Composition board* (except lumber and commodities in bulk), from the facilities of Georgia-Pacific Corporation at Taylorsville, Miss., to the counties of Lincoln, Sanders, Mineral, Ravalli, Granite, Deer Lodge, Powell, Lewis and Clark, Missoula, Lake, Flathead, Glacier, Teton, Pondera, Toole, Cascade, Chouteau, Liberty, Hill, Judith Basin, Fergus, Blaine, Phillips, Petroleum, Valley, Garfield, McCone, Daniels, Roosevelt, Dawson, Richland, and Sheridan, Mont. The purpose of this filing is to eliminate the gateway of L'Anse, Mich.

No. MC 123407 (Sub-No. E188), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board* (except lumber and commodities in bulk), from Orangeburg, S.C., to points in Montana and the counties of Park, Big Horn, Hot Springs, Washakee, Sheridan, Johnson, Campbell, Crook, and Weston, Wyo. The purpose of this filing is to eliminate the gateway of L'Anse, Mich.

No. MC 123407 (Sub-No. E189), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Composition board*, (2) *Materials and accessories* used in the installation of the commodities in (1) above (except lumber and commodities in bulk), and (3) *Ceiling tile*, from Warren, Ill., to the counties of Lincoln, Sanders, Flathead, Lake, Glacier, Pondera, Titon, Toole, Liberty, Hill, Chouteau, and Blaine, Mont. The purpose of this filing is to eliminate the gateway of L'Anse, Mich.

No. MC 123407 (Sub-No. E190), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Composition board*, (2) *Materials and accessories* used in the installation of the commodities in (1) above (except lumber and commodities in bulk), and (3) *Ceiling tile*, from Superior, Wis., to points in West Virginia, Maryland, Delaware, New Jersey, District of Columbia, Virginia, North Carolina, South Carolina, Georgia, Florida, Texas, New Mexico, and Colorado. The purpose of this filing is to eliminate the gateway of that part of Dubuque, Iowa, commercial zone, which is in Illinois.

No. MC 123407 (Sub-No. E191), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing and roofing materials* (except commodities in bulk, lumber, chemicals, and commodities which because of size or weight require the use of special equipment), from Chicago and Wilmington, Ill., to points in Virginia, West Virginia, North Carolina, Kentucky in and east of the counties of Meade, Hardin, Hart, Edmonson, Warren, and Allen, and Tennessee in and east of the counties of Sumner, Davidson, Rutherford, Marshall, and Lincoln. The purpose of this filing is to eliminate the gateway of Brookville, Ind.

No. MC 123407 (Sub-No. E192), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board, materials, and accessories* used in the installation of composition board, and *ceiling tube* (except lumber, commodities in bulk, iron and steel, and commodities which because of their size or weight require the use of special equipment), from the facilities of Certain-Teed Products Corporation in Scott County, Minn., to points in Connecticut, Massachusetts, New Hampshire, and Delaware. The purpose of this filing is to eliminate the gateway of L'Anse, Mich.

No. MC 123407 (Sub-No. E193), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., S. Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board*, and *Materials and accessories* used in the installation of composition board (except lumber and commodities in bulk), from the facilities of National Gypsum Company at Mobile, Ala., to points in Montana except the Counties of Beaverhead, Madison, Gallatin, Park, Sweet Grass, Stillwater, Carbon, Big Horn, Treasure, Rosebud, Custer, Powder River, Fallon, and Carter. The purpose of this filing is to eliminate the gateway of L'Anse, Mich.

No. MC 123407 (Sub-No. E194), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., S. Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board* (except lumber and commodities in bulk) from Charleston, S.C., to points in Colorado except the Counties of Power, Baca and Las Animas. The purpose of this filing is to eliminate the gateway of Dubuque, Iowa.

No. MC 123407 (Sub-No. E195), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., S. Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board* (except lumber and commodities in bulk), from Orangeburg, S.C., to points in Colorado except the Counties of Baca, Powers, Otero, and Las Animas. The purpose of this filing is to eliminate the gateway of Dubuque, Iowa.

No. MC 123407 (Sub-No. E196), filed January 2, 1975. Applicant: SAWYER TRANSPORT, INC., S. Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Composition board*, (2) *Materials and accessories* used in the installation of the commodities in (1) above, (except lumber and commodities in bulk), and (3) *Ceiling tile*, from International Falls, Minn., to points in West Virginia, Maryland, Delaware, District of Columbia, Virginia, North Carolina, South Carolina, Georgia, and Florida. The purpose of this filing is to eliminate the gateway of that part of the commercial zone of Dubuque, Iowa, within Illinois.

By the Commission.

Effluent Guidelines and Standards

V40-18 JAN27 75 XUM

Title 40—Protection of the Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

[FRL 326-2]

PART 422—PHOSPHATE MANUFACTURING POINT SOURCE CATEGORY

Interim Final Rule Making

Notice is hereby given that effluent limitations and guidelines for existing sources set forth in interim final form below are promulgated by the Environmental Protection Agency (EPA). On February 20, 1974, EPA promulgated a regulation adding Part 422 to Chapter 40 of the Code of Federal Regulations (39 FR 6580). That regulation with subsequent amendments established effluent limitations and guidelines for existing sources and standards of performance and pretreatment standards for new sources for the phosphate manufacturing point source category. The regulation set forth below will amend 40 CFR Part 422, Phosphate Manufacturing Point Source Category, by adding thereto effluent limitations and guidelines for existing sources for the defluorinated phosphate rock subcategory (Subpart D), the defluorinated phosphoric acid subcategory (Subpart E) and the sodium phosphates subcategory (Subpart F) pursuant to sections 301, 304(b) and (c), of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1311, 1314(b) and (c), 86 Stat. 816 et seq.; Pub. L. 92-500) (the Act). Simultaneously, the Agency is publishing in proposed form standards of performance for new point sources and pretreatment standards for existing sources and for new sources.

(a) *Legal authority.* Section 301(b) of the Act requires the achievement by not later than July 1, 1977, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of the best practicable control technology currently available as defined by the Administrator pursuant to section 304(b) of the Act. Section 301(b) also requires the achievement by not later than July 1, 1983, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of best available technology economically achievable which will result in reasonable further progress toward the national goal of eliminating the discharge of all pollutants, as determined in accordance with regulations issued by the Administrator pursuant to section 304(b) of the Act.

Section 304(b) of the Act requires the Administrator to publish regulations providing guidelines for effluent limitations setting forth the degree of effluent reduction attainable through the application of the best practicable control technology currently available and the degree of effluent reduction attainable through the application of the best control measures and practices achievable including treatment techniques, process and procedural innovations, operating methods and other alternatives. The regulation herein sets forth effluent limitations and guidelines, pursuant to sections 301 and 304(b) of the Act, for the defluorinated phosphate rock subcategory (Subpart D), the defluorinated phosphoric acid subcategory (Subpart E) and the sodium phosphates subcategory (Subpart F) of the phosphate manufacturing point source category.

Section 304(c) of the Act requires the Administrator to issue to the States and appropriate water pollution control agencies information on the processes, procedures or operating methods which result in the elimination or reduction of the discharge of pollutants to implement standards of performance under section 306 of the Act. The report or "Development Document" referred to below provides, pursuant to section 304(c) of the Act, information on such processes, procedures or operating methods.

Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants. Section 307(c) of the Act requires the Administrator to promulgate pretreatment standards for new sources at the same time that standards of performance for new sources are promulgated pursuant to section 306. Section 307(b) of the Act requires the establishment of pretreatment standards for pollutants introduced into publicly owned treatment works and 40 CFR 128 establishes that the Agency will propose specific pretreatment standards at the time effluent limitations are established for point source discharges. In another section of the FEDERAL REGISTER regulations are proposed in fulfillment of these requirements.

(b) *Summary and basis of proposed effluent limitations and guidelines for existing sources and standards of performance and pretreatment standards for new sources*—(1) *General methodology.* The effluent limitations and guidelines set forth herein were developed in the following manner. The point source category was first studied for the purpose of determining whether separate limitations are appropriate for different segments within the category. This analysis included a determination of whether differences in raw material used, product produced, manufacturing process employed, age, size, waste water constituents and other factors require development of separate limitations for different segments of the point source category. The raw waste characteristics for each such segment were then identified. This included an analysis of the source, flow and volume of water used in the process employed, the sources of waste and waste waters in the operation and the constituents of all waste water. The constituents of the waste waters which should be subject to effluent limitations were identified.

The control and treatment technologies existing within each segment were identified. This included an identification of each distinct control and treatment technology, including both in-plant and end-of-process technologies, which is existent or capable of being designed for each segment. It also included an identification of, in terms of the amount of constituents and the chemical, physical, and biological characteristics of pollutants, the effluent level resulting from the application of each of the technologies. The problems, limitations and reliability of each treatment and control technology were also identified. In addition, the nonwater quality environmental impact, such as the effects of the application of such technologies upon other pollution problems, including air, solid waste, noise and radiation were identified. The energy requirements of each control and treatment technology were determined as well as the cost of the application of such technologies.

The information, as outlined above, was then evaluated in order to determine what levels of technology constitute the "best practicable control technology currently available." In identifying such technologies, various factors were considered. These included the total cost of application of technology in relation to the effluent reduction benefits to be achieved from such application, the age of equipment and facilities involved, the process employed, the engineering aspects of the application of various types of control techniques, process changes, nonwater quality environmental impact (including energy requirements) and other factors.

The data upon which the above analysis was performed included EPA permit applications, EPA sampling and inspections, consultant reports, and industry submissions.

(2) Summary of conclusions with respect to the defluorinated phosphate rock subcategory (Subpart D), the defluorinated phosphoric acid subcategory (Subpart E) and the sodium phosphates subcategory (Subpart F) of the phosphate manufacturing point source category.

(i) *Categorization.* Although the phosphate compounds of highest purity are made from phosphorus derived acid, a substantial demand developed for products of adequate quality for many uses, but cheaper than the furnace acid derived materials. Major products in this area are calcium phosphates for animal feed, defluorinated phosphoric acid, and sodium phosphates. The industry supplies this demand through defluorination of phosphate rock, and defluorination of phosphoric acid. The sodium phosphates demand is supplied by products derived from the purification of wet process phosphoric acid derived from calcined rock.

Within this group of chemicals, the defluorination of phosphate rock is carried out by heating phosphate rock (with phosphoric acid, silica, and/or various

other reagents), which distinguishes the category sharply from the remaining products derived through the defluorination of liquid phosphoric acid. The most favorable water balance within the segment is held by this defluorinated rock process. Substantial evaporation occurs as a result of stack washing to control fluoride emission. The water used for stack washing picks up substantial fluorine pollution, much the same as the scrubber water in fertilizer phosphate manufacture or in the manufacture of elemental phosphorus.

Water is collected from the defluorination of phosphoric acid. This is water driven from the acid, aided by air streams and/or vacuum. This water contains the fluoride contaminant common to phosphoric acid production. This water also contains some of the wet phosphoric acid raw material and some of the defluorinated product. Spray carry-over contaminates the condensate, particularly where some types of barometric condensers are used.

Sodium phosphates are produced from conventional wet process phosphoric acid derived from calcined rock. The calcining temperature is high enough to destroy organic components that impart objectionable color, but not high enough to defluorinate the rock. The production of sodium phosphates is associated with waste water problems similar to the fertilizer phosphate problems. The conversion of rock to acid is by the usual process. The purification steps conducted in phosphate salt manufacture require blowdown of process water with fluorine, sulphate, and phosphate waste water components, as well as other salts and solids.

Most of the fluoride in the raw product acid is crystallized out as sodium silicofluoride byproduct, whereas the fluorides removed in the defluorination of phosphate rock, and in the defluorination of phosphoric acid appear in the waste water.

As a result of these considerations, and of other factors considered in the study, three subcategories have been established for the other non-fertilizer phosphate chemicals segment of the Phosphate Manufacturing Point Source Category: Subpart D—The Defluorinated Phosphate Rock Subcategory. Subpart E—The Defluorinated Phosphoric Acid Subcategory. Subpart F—the Sodium Phosphate Subcategory.

(ii) *Waste characteristics.* Conventional fertilizer plant wet phosphoric acid is used as a treatment reagent in the defluorination of phosphate rock, and as the principal raw material for the production of defluorinated phosphoric acid, and of sodium phosphates. All three subcategories of this segment, accordingly, must deal with the same waste water problems dealt with in wet phosphoric acid production. These include large amounts of sulfuric acid derived from stack or tail gas scrubbing, filtration, solids washing and acid manufacturing operations. These also include huge quantities of solid wastes originating as suspended solids during manufacturing operations. These wastes include sizeable quantities of gypsum and debris from acid treatment of rock.

Stack washing is required in the manufacture of defluorinated rock to control air contamination by sulfur dioxide and fluorides. This results in a large quantity of waste water, made acidic by sulfurous acid. The purification processes imposed on both phosphate rock and phosphoric acid to reduce product fluoride inexorably results in increased waste water fluoride. Waste product phosphoric acid, likewise, appears in waste water as a major pollutant.

Stack washing operations lead to pickup of much heat by the process waste water. In addition, large quantities of noncontract cooling water are used. These streams must be constantly monitored for leaks, and dealt with as contaminated process waste water when leaks occur, or when spray problems carry raw material, reagent or product into the cooling water.

The sodium phosphates manufacturing processes develop a number of salt wastes, which accumulate from salting out and evaporating processes. Process water accumulating in the system acquires a build-up concentration of miscellaneous impurities; these must be discharged from the system constantly to protect product purity. This provides a stream bearing some fluoride and a considerable amount of phosphate and suspended solids contaminants. Solid wastes are separated by precipitation steps utilized in the manufacturing processes. Some arsenic is present in the raw product acid. Sulfide precipitation is applied as a manufacturing step to make certain that an objectionable level of arsenic does not appear in the phosphate products. The sediment from this operation is accumulated in a landfill. Officials responsible for non-point source pollution in the area of a facility must be apprised of the potential ground water pollution hazard and/or a potential hazard from the solid deposit. Large quantities of cooling water are utilized, resulting in much heat accumulation in the waste water.

Polyphosphates are formed by the severe heat and dehydration processes applied in the defluorination of both rock and acid, and are among the sodium phosphates products. These compounds, not encountered in wet phosphoric acid production, do appear among the waste water components of this industrial segment.

Radium 226 is present in most raw rocks at highly objectionable levels. This contaminant is soluble in the acidic waste water recirculating in the cooling water ponds of most manufacturing facilities; however, radium-226 is mainly associated with the suspended solids and solid debris of phosphate manufacture. It is not discharged in treated effluent at a significant level. Officials responsible for non-point source pollution in the area of a facility must be apprised of the potential ground water pollution hazard, and/or potential hazards in the solids deposits.

(iii) *Origin of waste water pollutants.* The dominant source of contaminated waste water in the defluorination of rock originates from stack washing. This waste water stream is rich in fluoride, sulfate, phosphates, acidic substances, suspended solids and heat. Other sources of waste water contamination are leaks and spills and suspended solids from purifying raw water in the water supply plant.

Condensate from the concentration process is the major source of waste water from acid defluorination. This stream picks up raw material and product spray, the fluoride removed from the raw acid, and much heat. Minor sources of contamination are spills, pump seal leaks, and suspended solids from the water supply facilities.

Salts accumulating from salting out processes, solids separating from precipitation processes, and blowdown of contaminated water from the purification system are representative of waste water contaminants that are an integral part of the manufacturing process for sodium phosphates production. The other major sources of waste water contamination in the industry are pump and seal leaks, and spills. Leaks and spills can be controlled by diligent management and should not contribute significantly to the raw waste water load.

(iv) *Treatment and control technology.* Waste water treatment and control technologies have been studied for each subcategory of the industry to determine what is (a) the best practicable control technology currently available, (b) the best available technology economically achievable, and (c) the best available demonstrated control technogoly, processes, operating methods or other alternatives.

The factors and contaminants in nonfertilizer phosphate chemical process effluent streams have for the most part been well identified and well known for many years. As a consequence, considerable effort has been expended to correct for and minimize the majority of those which are particularly detrimental to natural water receiving bodies. Much of this work has been directed at correcting the source of the contamination by an in-process improvement rather than an end-of-pipe type of treatment. A large part of the motivation for such improvement has been economics, that is, improved operating efficiency and costs. Such improvements are just plain good business and justify capital expenditure required to achieve them.

The major contaminants that must be dealt with are mainly the same as those encountered in the Phosphate Subcategory of the Basic Fertilizers Segment of the Fertilizer Manufacturing Point Source Category. These major contaminants are fluorides, phosphates, and sulfuric acid. The recirculation, sedimentation and cooling pond has been established as a vital point of the waste water treatment system. The major waste water anions, fluoride, phosphate and sulfate, are precipitated by the calcium, iron and aluminum accumulating

V 40 18 JAN 27 75 XUM

in the lagoon. Much calcium, iron and aluminum are derived from the acid treatment of rock. The calcium, iron and aluminum components concentrate as a result of stack scrubbing and evaporation processes. The major anionic pollutants are precipitated from the pond water when conditions are favorable.

Plants in the arid regions, with a favorable rainfall-evaporation ratio, have no waste water discharge to navigable waters. Much water is lost as steam in stack washing operations. Most plants, faced with the need to treat effluent, develop water conservation and reuse programs that drastically reduce the amount that must be discharged. When discharge becomes essential, lime is effective for removing the major pollutants, acid, radium-226, fluoride and phosphate. Calcium sulfate, calcium fluoride, calcium phosphate, iron phosphate and aluminum phosphate are the major end products of treatment and remain as solid wastes.

Special precautions are essential to assure pond reliability so that dam failure does not lead to massive contamination of surface waters, and that pond leakage does not contaminate valuable ground water. These factors are covered in the Development Document.

Radium-226 is present in high amounts in the sediment of the pond, and in solution in the acidic water of the pond. This pollutant is regarded as highly objectionable. Fortunately, radium-226 can be regulated by control of seepage and by effective lime clarification.

Some plants producing defluorinated rock and some producing defluorinated acid are able to manage the waste water recycle pond so that no discharge occurs to navigable waters. It is recognized that discharges are required in times of excessive rainfall; overflow is permitted, for best practicable treatment, of rainfall in excess of the heaviest expected 24 hour rain in a 10 year period. Overflow is permitted for the best available technology economically achievable and for new sources when rainfall exceeds the heaviest 24 hour rainfall expected in 25 years. Lime treatment must be carried out in periods when rainfall exceeds evaporation.

The discharges allowed from the sodium phosphates subcategory are based on the technology developments of lime treatment and technical knowledge of the treatment process. A lagoon for wet phosphoric acid waste is available at the sodium phosphate plant. This does not have a discharge to navigable waters and can be called upon to handle difficult waste water streams which would cause violations if discharged through the effluent clarifier system.

The proper management of solid wastes resulting from pollution control systems must be practiced. Pollution control technologies generate many different amounts and types of solid wastes and liquid concentrates through the removal of pollutants. These substances vary greatly in their chemical and physical composition and may be either hazardous or non-hazardous. A variety of techniques may be employed to dispose of these substances depending on the degree of hazard.

If thermal processing (incineration) is the choice for disposal, provisions must be made to ensure against entry of hazardous pollutants into the atmosphere. Consideration should also be given to recovery of materials of value in the wastes.

For those waste materials considered to be non-hazardous where land disposal is the choice for disposal, practices similar to proper santiary landfill technology may be followed. The principles set forth in the EPA's Land Disposal of Solid Wastes Guidelines 40 CFR 241 may be used as guidance for acceptable land disposal techniques.

For those waste materials considered to be hazardous, disposal will require special precautions. In order to ensure long-term protection of public health and the environment, special preparation and pretreatment may be required prior to disposal. If land disposal is to be practiced, these sites must not allow movement of pollutants to either ground or surface waters. Sites should be selected that have natural soil and geological conditions to prevent such contamination or, if such conditions do not exist, artificial means (e.g. liners) must be provided to ensure long-term protection of the environment from hazardous materials. Where appropriate, the location of solid hazardous materials disposal sites should be permanently recorded in the appropriate office of the legal jurisdiction in which the site is located.

(v) *Cost estimates for control of waste water pollutants.* Detailed costs for construction and operation of the contaminated water lagoons and for treatment of pond water were obtained from facilities of the fertilizer phosphates industry. The same systems are utilized to treat fertilizer phosphate waste water and waste water from the non-fertilizer segment of the phosphate industry. Land cost is a vital factor and varies tremendously (by a factor of 10) from area to area. The contractor determined a pond capital cost of $13,983 per acre for a single acre with a 10 ft. high dike. A contaminated pond water treatment system for a 1000 ton/d plant was determined to have an investment of $349,000, with $26,222 interest, $34,960 depreciation, and $13,990 operation and maintenance cost. Energy cost was $0.05 per 1,000 gallons treated. Raw materials costs are $2.10 per 1,000 gallons treated, and total overall cost is $2.60 per 1,000 gallons treated. The above costs are on a 1971 basis.

Production practices in the industry recycle waste water streams in a manner that has made impractical the determination of raw waste loads for the fertilizer phosphate and the non-fertilizer phosphate segments. The fertilizer phosphate segment has the largest raw load, by a factor of 5 to 10, and therefore must be assigned a major portion of waste treatment costs.

Several plants producing defluorinated products are operating with no discharge of process waste water. Phosphate plants faced with the requirement to treat waste water have utilized water reuse and conservation measures to drastically reduce the discharge volume. High lime cost forces this action.

An economic study, conducted after making some well founded estimates and assumptions, provides a detailed breakdown of capital investment and treatment costs. These details are assembled in the Part II Draft Report on Economic Analyses of Proposed Effluent Guidelines for the Non-Fertilizer Phosphate Manufacturing Industry, September, 1974.

(vi) *Energy requirements and non-water quality environmental impacts.* Air pollution by fluorine, sulfur dioxide and radon-222 must be regarded as chronic air pollution problems of phosphate manufacture. Stack scrubbing has become standard practice for control of air pollution. The contaminated water pond supplies the large volume of water and high cooling capacity. The pond is an indispensable part of both air and water pollution control. Defluorination is essential for all subcategories of the non-fertilizer phosphates; the typical air pollution problems of phosphate manufacture prevail if not controlled by stack and tail gas scrubbing procedures.

Many solids residues are left as solid wastes. For those waste materials considered to be non-hazardous where land disposal is the choice for disposal, practices similar to proper sanitary landfill technology may be followed. The principles set forth in the EPA's Land Disposal of Solid Wastes Guidelines 40 CFR 241 may be used as guidance for acceptable land disposal techniques.

For those waste materials considered to be hazardous, disposal may require special precautions. In order to ensure long-term protection of public health and the environment, special preparations and pretreatment may be required prior to disposal. If land disposal is to be practiced, these sites must not allow movement of pollutants such as fluoride and radium-226 to either ground or surface water. Sites should be selected that have natural soil and geological conditions to prevent such contamination or, if such conditions do not exist, artificial means (e.g., liners) must be provided to ensure long-term protection of the environment from hazardous materials. Where appropriate, the location of solid hazardous materials disposal sites should be permanently recorded in the appropriate office of the legal jurisdiction in which the site is located.

Comprehensive studies of air pollution and radiological chemical problems have not been carried out for phosphate manufacturing. EPA groups are currently initiating studies.

Energy requirements for waste water treatment are relatively small in this segment of the industry. No significant energy use will be required for application of best available technology economically achievable.

(vii) *Economic impact analysis.* While all of the defluorinated rock plants (DFP) and eight of the eleven defluorinated phosphoric acid plants have been treatment in place, some adverse impacts are anticipated in both the defluorinated acid and sodium phosphates subcategories under best practicable control technology currently available (BPCTCA) guidelines. Large capital expenditures will be required for the three acid plants without basic treatment facilities. Consequently, there is high probability that one of these plants will close due to BPCTCA regulations. In addition, two other small producers are thought to have negative cash flows under existing conditions (1973). Although one of these plants has no treatment in place, it is expected that both plants will close for economic reasons unrelated to pollution control. The sodium phosphates wet process plant may also be impacted as it may not be able to increase its prices enough to cover incremental annual pollution control costs.

Prices of DFP and defluorinated acid may rise by 3.5 to 4.0 percent because of pollution control costs and rising demand for dicalcium phosphate. Sodium tripolyphosphate (STPP) could rise by 1.5 to 2.0 percent. However, this price boost will not be the result of pollution abatement costs for the wet process plant, but rather because of raw material price increases to furnace acid process STPP producers.

The three expected closures in the acid subcategory account for approximately seven percent of segment capacity. Planned construction of merchant-grade phosphoric acid plants should prevent shortage of most phosphate materials. But tight supplies of defluorinated acid could exist if no new defluorination facilities are brought on line.

The threatened STPP plant represents 12 percent of STPP production. Existing capacity should be sufficient to offset any reduction in output of STPP.

The four potential closures in the DFP and STPP subcategories could result in a loss of up to 60 jobs. Some of these workers should find employment within the associated fertilizer plants.

Best available technology economically achievable (BATEA) annual and investment costs are small and should not result in any additional impacts.

Industry growth should not be affected by BPCTCA, BATEA or New Source Performance Standards (NSPS) guidelines. NSPS would not appear to be a critical factor in decisions to construct new plants. Most plants constructed in recent years have already incorporated treatment facilities.

No significant community effects or balance of payment effects are anticipated as a result of the 1977 or 1983 guidelines.

The report entitled "Development Document for Proposed Effluent Limitations Guidelines and New Source Performance Standards for the Other Non-Fertilizer Phosphate Chemicals Segment of the Phosphate Manufacturing Point Source Category" details the analysis undertaken in support of the interim final regulation set forth herein and is available for inspection in the EPA Information Center, Room 227, West Tower, Waterside Mall, Washington, D.C., at all EPA regional offices, and at State water pollution control offices. A supplementary analysis prepared for EPA of the possible economic effects of the regulation is also available for inspection at these locations. Copies of both of these documents are being sent to persons or institutions affected by the proposed regulation or who have placed themselves on a mailing list for this purpose. (See EPA's Advance Notice of Public Review Procedures, 38 FR 21202, August 6, 1973). An additional limited number of copies of both reports is available. Persons wishing to obtain a copy may write the EPA Information Center, Environmental Protection Agency, Washington, D.C. 20460, Attention: Mr. Philip B. Wisman.

When this regulation is promulgated in final rather than interim form, revised copies of the Development Document will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C 20402. Copies of the economic analysis document will be available through the National Technical Information Service, Springfield, VA 22151.

(c) *Summary of public participation.* Prior to this publication, the agencies and groups listed below were consulted and given an opportunity to participate in the development of effluent limitations, guidelines and standards proposed for the phosphate manufacturing category. All participating agencies have been informed of project developments. An initial draft of the Development Document was sent to all participants and comments were solicited on that report. The following are the principal agencies and groups consulted: (1) Effluent Standards and Water Quality Information Advisory Committee (established under section 515 of the Act); (2) all State and U.S. Territory Pollution Control Agencies; (3) The Fertilizer Institute; (4) Manufacturing Chemists Association; (5) Puerto Rico Land Association; (6) Soap and Detergent Association; (7) The American Society of Mechanical Engineers; (8) Hudson River Sloop Restoration, Inc.; (9) The Conservation Foundation; (10) Environmental Defense Fund, Inc.; (11) Natural Resources Defense Council; (12) The American Society of Civil Engineers; (13) Water Pollution Control Federation; (14) National Wildlife Federation, and (15) Izaak Walton League of America.

The following responded with comments: United States Water Resources Council, Delaware River Basin Commission, New York State Department of Environmental Conservation, Division of Pure Waters, The Fertilizer Institute, Olin, Manufacturing Chemists Association, and Minnesota Pollution Control Agency. Each of the comments received was carefully reviewed and evaluated.

The primary issues raised in the development of the proposed effluent limitations and guidelines and standards of performance, and the treatment of these issues herein are as follows:

(1) A common criticism was that the excess of rainfall over evaporation in some locations would preclude the establishment of a limitation at "no discharge of process waste water." The proposed regulations have been modified to permit discharge of lime neutralized and clarified effluent during unfavorable rainfall-evaporation periods.

(2) The criticism was made that the definition "within the impoundment" should include not only the pond surface but be extended to include the outer slopes of the dams and the drainage ditch area around the dams. After discussion with representatives of industry, a definition was formulated to treat run-off collected from the outer slopes of the dike and from the seepage collection ditch of existent ponds as being "within the impoundment." For all impoundments or new source impoundments constructed on or after the date of this regulation, the term "within the impoundment" for purposes of calculating the volume of process water which may be discharged shall mean the water surface area within the impoundment at maximum capacity. Section VII of the Development Document explains how underdrain systems and relief wells eliminate the need to include the outer slope.

(3) A number of commenters pointed out that some State effluent standards and some water quality standards would be violated by the proposed limitations for fluoride and phosphate. When this happens, the more stringent standard will be enforced.

(4) The comment was made that some arsenic and cadmium stream standards could not be met by the proposed guidelines. When this circumstance arises, the stream standard will be enforced.

(5) Concern was expressed that adequate attention be directed to bottom lining that will prevent contamination of ground water. Considerably more technical information has been added to the Development Document on the control of seepage.

(6) One commenter pointed out that more calcium may be required to get optimum reduction of fluoride and phosphate. This possibility has been recognized and explained in the section of the Development Document dealing with the technology of treatment.

(7) One commenter pointed out that the contractor's proposed pH treatment levels would not give adequate precipitation of phosphate.

Phosphate can be adequately removed by lime addition to pH 6.0 to 9.0, with efficient sedimentation, under the conditions prevalent in recirculating and reuse ponds at most phosphate manufacturing facilities. The Development Document supplies information on pond conditions that create precipitation problems and how to deal with these problems.

(8) The suggestion was made that one day standards, as well as 30 consecutive day standards, be added. This change has been made.

V 4018
JAN 27 75
XUM

(9) The comment was made that certain sites lack the ground area required for lagoons. It is the judgment of the EPA staff and its advisors that the recirculation and reuse lagoon is an indispensable part of a wet phosphoric acid production facility. The waste water from this segment of phosphate manufacture, likewise, requires the recirculation lagoon for practicable disposal of some waste water streams. Some type of recirculation system is possible for most locations.

(10) The comment was made that the term "spills and leaks" suggested poor housekeeping on the part of the manufacturer. It is clearly noted in the Development Document that most of these to a certain extent are avoidable occurrences in the manufacturing process. Most of the waste water pollution resultant from these occurrences can be minimized by diligent maintenance of equipment, isolation and reuse, and other good manufacturing and waste water management procedures. This source is commonly the cause of serious pollution and must be controlled. Many of the leaks and spills in this industry can be directed to the gyp pond for recycle or treatment.

(11) The comment was made that phosphate should be regulated on the basis of phosphate available as a plant nutrient instead of total phosphorus. The distinction of available from unavailable phosphorus has some unresolved analytical factors that would make an extremely difficult control problem. The distinction is not essential. The only effluent discharge permitted is clarified effluent. The phosphate present in clarified effluent is mostly soluble, and therefore available as a plant nutrient.

(12) One comment was to the point that test wells for ground water pollution monitoring would be prohibitively expensive. Test wells are in use and are not reported to be excessively costly. This is discussed in Section VII of the Development Document.

(13) A comment has been made to the need for neutralization of gypsum pond water for the purpose of limiting Radium-226. Uranium occurs naturally in phosphate rock, especially that from Florida, and Radium-226 is a particularly dangerous decay product of Uranium.

Sufficient data are not available to form an adequate basis for the specific limitation of Radium-226 in this regulation.

Additional information is currently being developed by the Agency. Appropriate steps may be taken at a future date to reflect such new information in these effluent standards.

(14) A comment has been raised concerning need for a cadmium limitation. Additional information is solicited concerning the need, the technology for removal and the achievable limits.

(15) Questions have been raised concerning the availability of standards or guidelines applicable to the disposal of solid wastes resulting from the operation of pollution control systems.

The principles set forth in "Land Disposal of Solid Wastes Guidelines" (40 CFR Part 241) may be used as guidance for acceptable land disposal techniques. Potentially hazardous wastes may require special considerations to insure their proper disposal. Additionally, State and local guidelines and regulations should be considered wherever applicable.

The Agency is subject to an order of the United States District Court for the District of Columbia entered in Natural Resources Defense Council v Train et al. (Cv. No. 1609–73) which requires the promulgation of regulations for this industry category no later than January 8, 1975. This order also requires that such regulations become effective immediately upon publication. In addition, it is necessary to promulgate regulations establishing limitations on the discharge of pollutants from point sources in this category so that the process of issuing permits to individual dischargers under section 402 of the Act is not delayed.

It has not been practicable to develop and publish regulations for this category in proposed form, to provide a 30 day comment period, and to make any necessary revisions in light of the comments received within the time constraints imposed by the court order referred to above. Accordingly, the Agency has determined pursuant to 5 USC 553(b) that notice and comment on the interim final regulations would be impracticable and contrary to the public interest. Good cause is also found for these regulations to become effective immediately upon publication.

Interested persons are encouraged to submit written comments. Comments should be submitted in triplicate to the EPA Information Center, Environmental Protection Agency, Washington, D.C. 20460, Attention: Mr. Philip B. Wisman. Comments on all aspects of the regulation are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which are available, or which may be relied upon by the Agency, comments should identify and, if possible, provide any additional data which may be available and should indicate why such data are essential to the amendment or modification of the regulation. In the event comments address the approach taken by the Agency in establishing an effluent limitation or guideline EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of sections 301 and 304(b) of the Act.

A copy of all public comments will be available for inspection and copying at the EPA Information Center, Room 227, West Tower, Waterside Mall, 401 M Street SW., Washington, D.C. A copy of preliminary draft contractor reports, the Development Document and economic study referred to above, and certain supplementary materials supporting the study of the industry concerned will also be maintained at this location for public review and copying. The EPA information regulation, 40 CFR Part 2, provides that a reasonable fee may be charged for copying.

All comments on or before February 26, 1975, will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning public review procedures published on August 6, 1973 (38 FR 21202). In the event that the final regulation differs substantially from the interim final regulation set forth herein the Agency will consider petitions for reconsideration of any permits issued in accordance with these interim final regulation.

In consideration of the foregoing, 40 CFR Part 422 is hereby amended by adding Subparts D, E, and F, as set forth below.

Dated January 16, 1975.

RUSSELL E. TRAIN,
Administrator.

Subpart D—Defluorinated Phosphate Rock Subcategory

Sec.

422.40 Applicability; description of the defluorinated phosphate rock subcategory.
422.41 Specialized definitions.
422.42 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
422.43 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

Subpart E—Defluorinated Phosphoric Acid Subcategory

422.50 Applicability; description of the defluorinated phosphoric acid subcategory.
422.51 Specialized definitions.
422.52 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
422.53 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

Subpart F—Sodium Phosphates Subcategory

422.60 Applicability; description of the sodium phosphates subcategory.
422.61 Specialized definitions.
422.62 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
422.63 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

Subpart D—Defluorinated Phosphate Rock Subcategory

§ 422.40 Applicability; description of the defluorinated phosphate rock subcategory.

The provisions of this subpart are applicable to discharges resulting from the defluorination of phosphate rock by application of high temperature treatment along with wet process phosphoric acid, silica and other reagents.

§ 422.41 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 401 shall apply to this subpart.

(b) For all impoundments constructed prior to the date of this regulation, the term "within the impoundment" when used for purposes of calculating the volume of process waste water which may be discharged shall mean the water surface area within the impoundment at maximum capacity plus the area of the inside and outside slopes of the impoundment dam and the surface area between the outside edge of the impoundment dam and any seepage ditch immediately adjacent to the dam upon which rain falls and is returned to the impoundment. For the purpose of such calculations, the surface area allowances set forth above shall not be more than 30 percent of the water surface area within the impoundment dam at maximum capacity.

(c) For all impoundments or new source impoundments constructed on or after the date of this regulation, the term "within the impoundment" for purposes of calculating the volume of process water which may be discharged shall mean the water surface area within the impoundment at maximum capacity.

(d) The term "pond water surface area" when used for the purpose of calculating the volume of waste water which may be discharged shall mean the water surface area at normal operating level of the pond created by the impoundment for storage of process waste water. This surface shall in no case be less than one-third of the surface area of the maximum amount of water which could be contained by the impoundment. Normal operating level shall be the average level of the pond during the preceding calendar month.

§ 422.42 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations. The following limitations establish the quantity or quality of pollutants or pollutant properties, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

(a) Subject to the provisions of paragraphs (b), (c), and (d) of this section, there shall be no discharge of process waste water pollutants into navigable waters.

(b) A process waste water impoundment which is designed, contructed and operated so as to contain the precipitation from the 10 year, 24 hour rainfall event as established by the National Climatic Center, National Oceanic and Atmospheric Administration, for the area in which such impoundment is located may discharge that volume of process waste water which is equivalent to the volume of precipitation that falls within the impoundment in excess of that attributable to the 10 year, 24 hour rainfall event, when such event occurs.

(c) During any calendar month there may be discharged from a process waste water impoundment either a volume of process waste water equal to the difference between the precipitation for that month that falls within the impoundment and either the evaporation from the pond water surface area for that month, or a volume of process waste water equal to the difference between the mean precipitation for that month that falls within the impoundment and the mean evaporation from the pond water surface area for that month as established by the National Climatic Center, National Oceanic and Atmospheric Administration, for the area in which such impoundment is located (or as otherwise determined if no monthly data have been established by the National Climatic Center), whichever is greater.

(d) Any process waste water discharged pursuant to paragraph (c) of this section shall comply with each of the following requirements:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
	(Metric units, mg/l)	
Total phosphorus (as P).	70	35
Fluoride	30	15
TSS	50	25
pH	Within the range 6.0 to 9.0.	

§ 422.43 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

(a) Subject to the provisions of paragraphs (b), (c), and (d) of this section, there shall be no discharge of process waste water pollutants into navigable waters.

(b) A process waste water impoundment which is designed, constructed and operated so as to contain the precipitation from the 25 year, 24 hour rainfall event as established by the National Climatic Center, National Oceanic and Atmospheric Administration, for the area in which such impoundment is located may discharge that volume of process waste water which is equivalent to the volume of precipitation that falls within the impoundment in excess of that attributable to the 25 year, 24 hour rainfall event, when such event occurs.

(c) During any calendar month there may be discharged from a process waste water impoundment either a volume of process waste water equal to the difference between the precipitation for that month that falls within the impoundment and either the evaporation from the pond water surface area for that month, or a volume of process waste water equal to the difference between the mean precipitation for that month that falls within the impoundment and the mean evaporation from the pond water surface area for that month as established by the National Climatic Center, National Oceanic and Atmospheric Administration, for the area in which such impoundment is located (or as otherwise determined if no monthly data have been established by the National Climatic Center), whichever is greater.

(d) Any process waste water discharged pursuant to paragraph (c) of this section shall comply with each of the following requirements:

V40018 JAN27 75 XUM

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units, mg/l)		
Total phosphorus (as P).	70	35
Fluoride	30	15
TSS	50	25
pH	Within the range 6.0 to 9.0.	

Subpart E—Defluorinated Phosphoric Acid Subcategory

§ 422.50 Applicability; description of the defluorinated phosphoric acid subcategory.

The provisions of this subpart are applicable to discharges resulting from the defluorination of phosphoric acid. Wet process phosphoric acid is dehydrated by application of heat and other processing aids such as vacuum and air stripping. The acid is concentrated up to 70–73 percent P_2O_5 in the defluorination process.

§ 422.51 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 401 shall apply to this subpart.

(b) For all impoundments constructed prior to the date of this regulation, the term "within the impoundment" when used for purposes of calculating the volume of process waste water which may be discharged shall mean the water surface area within the impoundment at maximum capacity plus the area of the inside and outside slopes of the impoundment dam and the surface area between the outside edge of the impoundment dam and any seepage ditch immediately adjacent to the dam upon which rain falls and is returned to the impoundment. For the purpose of such calculations, the surface area allowances set forth above shall not be more than 30 percent of the water surface area within the impoundment dam at maximum capacity.

(c) For all impoundments or new source impoundments constructed on or after the date of this regulation, the term "within the impoundment" for purposes of calculating the volume of process water which may be discharged shall mean the water surface area within the impoundment at maximum capacity.

(d) The term "pond water surface area" when used for the purpose of calculating the volume of waste water which may be discharged shall mean the water surface area at normal operating level of the pond created by the impoundment for storage of process waste water. This surface shall in no case be less than one-third of the surface area of the maximum amount of water which could be contained by the impoundment. Normal operating level shall be the average level of the pond during the preceding calendar month.

§ 422.52 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations. The following limitations establish the quantity or quality of pollutants or pollutant properties, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

(a) Subject to the provisions of paragraphs (b), (c), and (d) of this section, there shall be no discharge of process waste water pollutants into navigable waters.

(b) A process waste water impoundment which is designed, constructed and operated so as to contain the precipitation from the 10 year, 24 hour rainfall event as established by the National Climatic Center, National Oceanic and Atmospheric Administration, for the area in which such impoundment is located may discharge that volume of process waste water which is equivalent to the volume of precipitation that falls within the impoundment in excess of that attributable to the 10 year, 24 hour rainfall event, when such event occurs.

(c) During any calendar month there may be discharged from a process waste water impoundment either a volume of process waste water equal to the difference between the precipitation for that month that falls within the impoundment and either the evaporation from the pond water surface area for that month, or a volume of process waste water equal to the difference between the mean precipitation for that month that falls within the impoundment and the mean evaporation from the pond water surface area for that month as established by the National Climatic Center, National Oceanic and Atmospheric Administration, for the area in which such impoundment is located (or as otherwise determined if no monthly data have been established by the National Climatic Center), whichever is greater.

(d) Any process waste water discharged pursuant to paragraph (c) of this section shall comply with each of the following requirements:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units, mg/l)		
Total phosphorus (as P).	70	35
Fluoride	30	15
TSS	50	25
pH	Within the range 6.0 to 9.0.	

§ 422.53 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source after application of the best available technology economically achievable:

(a) Subject to the provisions of paragraphs (b), (c), and (d) of this section, there shall be no discharge of process waste water pollutants into navigable waters.

(b) A process waste water impoundment which is designed, constructed and operated so as to contain the precipitation from the 25 year, 24 hour rainfall event as established by the National Climatic Center, National Oceanic and Atmospheric Administration, for the area in which such impoundment is located may discharge that volume of process waste water which is equivalent to the volume of precipitation that falls within the impoundment in excess of that attributable to the 25 year, 24 hour rainfall event, when such event occurs.

(c) During any calendar month there may be discharged from a process waste water impoundment either a volume of process waste water equal to the difference between the precipitation for that month that falls within the impoundment and either the evaporation from the pond water surface area for that month, or a volume of process waste water equal to the difference between the mean precipitation for that month that falls within the impoundment and the mean evaporation from the pond water surface area for that month as established by the National Climatic Center, National Oceanic and Atmospheric Administration, for the area in which such impoundment is located (or as otherwise determined if no monthly data have been established by the National Climatic Center), whichever is greater.

(d) Any process waste water discharged pursuant to paragraph (c) of this section shall comply with each of the following requirements:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units mg/l)		
Total phosphorus (as P).	70	35
Fluoride	30	15
TSS	50	25
pH	Within the range 6.0 to 9.0.	

Subpart F—Sodium Phosphates Subcategory

§ 422.60 Applicability; description of the sodium phosphates subcategory.

The provisions of this subpart are applicable to discharges resulting from the manufacture of purified sodium phosphates from wet process phosphoric acid.

§ 422.61 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 401 shall apply to this subpart.

§ 422.62 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units, kg/kkg of product)		
TSS	0.50	0.25
Total phosphorus (as P).	0.80	0.40
Fluoride	0.30	0.15
pH	Within the range 6.0 to 9.0.	
(English units, lb/1000 lb of product)		
TSS	0.50	0.25
Total phosphorus (as P).	0.80	0.40
Fluoride	0.30	0.15
pH	Within the range 6.0 to 9.0.	

§ 422.63 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units, kg/kkg of product)		
TSS	0.35	0.18
Total phosphorus (as P).	0.56	0.28
Fluoride	0.21	0.11
pH	Within the range 6.0 to 9.0.	
(English units, lb/1000 lb of product)		
TSS	0.35	0.18
Total phosphorus (as P).	0.56	0.28
Fluoride	0.21	0.11
pH	Within the range 6.0 to 9.0.	

[FR Doc.75-2263 Filed 1-24-75;8:45 am]

V 40 18 JAN 27 75 XUM

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 422]

[FRL 326-3]

PHOSPHATE MANUFACTURING POINT SOURCE CATEGORY

Proposed Performance and Pretreatment Standards

Notice is hereby given that standards of performance and pretreatment standards for new sources and pretreatment standards for existing sources set forth in tentative form below are proposed by the Environmental Protection Agency (EPA). On February 20, 1974, EPA promulgated a regulation adding Part 422 to Chapter 40 of the Code of Federal Regulations (39 FR 6580). That regulation with subsequent amendments established effluent limitations and guidelines for existing sources and standards of performance and pretreatment standards for new sources for the phosphate manufacturing point source category. The regulation proposed below will amend 40 CFR Part 422, Phosphate Manufacturing Point Source Category, by adding §§ 422.44, 422.45 and 422.46 to the defluorinated phosphate rock subcategory (Subpart D), §§ 422.54, 422.55 and 422.56 to the defluorinated phosphoric acid subcategory (Subpart E) and §§ 422.64, 422.65 and 422.66 to the sodium phosphates subcategory (Subpart F) pursuant to sections 306(b) and 307 (b) and (c) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1316(b) and 1317 (b) and (c), 86 Stat. 816 et seq.; Pub. L. 92-500) (the Act). Simultaneously with this proposed rulemaking EPA is promulgating interim final regulations which establish the above listed subparts.

(a) *Legal Authority.* Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants.

Section 306(b)(1)(B) of the Act requires the Administrator to propose regulations establishing Federal standards of performance for categories of new sources included in a list published pursuant to section 306(b)(1)(A) of the Act. The Administrator published in the FEDERAL REGISTER of January 16, 1973 (38 FR 1624), a list of 27 point source categories, including the phosphate manufacturing category. The regulations proposed herein set forth the standards of performance applicable to new sources for the defluorinated phosphate rock subcategory (Subpart D), the defluorinated phosphoric acid subcategory (Subpart E) and the sodium phosphates subcategory (Subpart F) of the phosphate manufacturing point source category.

Section 307(c) of the Act requires the Administrator to promulgate pretreatment standards for new sources at the same time that standards of performance for new sources are promulgated pursuant to section 306. Sections 422.46, 422.56, and 422.66, proposed below, provide pretreatment standards for new sources within the defluorinated phosphate rock subcategory (Subpart D), the defluorinated phosphoric acid subcategory (Subpart E) and the sodium phosphates subcategory (Subpart F) of the phosphate manufacturing point source category. Section 307(b) of the Act requires the establishment of pretreatment standards for pollutants introduced into publicly owned treatment works and 40 CFR 128 establishes that the Agency will propose specific pretreatment standards at the time effluent limitations are established for point source discharges. Sections 422.44, 422.54 and 422.64 proposed below provide pretreatment standards for existing sources within the defluorinated phosphate rock subcategory (Subpart D), the defluorinated phosphoric acid subcategory (Subpart E) and the sodium phosphates subcategory (Subpart F) of the phosphate manufacturing point source category.

(b) *Summary and Basis of Proposed Standards of Performance and Pretreatment Standards for New Sources and Pretreatment Standards for Existing Sources.* The general methodology and summary of conclusions are discussed in considerable detail in the preamble of the interim final regulations for the defluorinated phosphate rock subcategory (Subpart D), the defluorinated phosphoric acid subcategory (Subpart E) and the sodium phosphates subcategory (Subpart F), which are being promulgated by EPA simultaneously with publication of this proposed regulation. The information contained in the preamble to the interim final regulation is incorporated herein by reference. The proposed regulation set forth below proposes pretreatment standards for pollutants introduced into publicly owned treatment works. The proposal will establish for each subpart the extent of application of effluent limitations to existing sources and to new sources which discharge to publicly owned treatment works. The regulation is intended to be complementary to the general regulation for pretreatment standards for existing sources set forth at 40 CFR Part 128. The general regulation was proposed July 19, 1973 (38 FR 19236), and published in final form on November 8, 1973 (38 FR 30982). The regulation proposed below applies to users of publicly owned treatment works which fall within the description of the point source category to which the limitations and standards apply. However, the proposed pretreatment regulation applies to the introduction of pollutants which are directed into a publicly owned treatment works, rather than to discharges of pollutants to navigable waters.

The general pretreatment standard divides pollutants discharged by users of publicly owned treatment works into two broad categories; "compatible" and "incompatible." Compatible pollutants are generally not subject to pretreatment standards. However, 40 CFR 128.131 (prohibited wastes) may be applicable to compatible pollutants. Additionally, local pretreatment requirements may apply (See 40 CFR 128.110). Incompatible pollutants are subject generally to pretreatment standards as provided in 40 CFR 128.133.

Sections 422.44, .54 and .64 of the regulation proposed below are intended to implement that portion of section 128.133, above, requiring that a separate provision be made stating the application to pretreatment standards of effluent limitations based upon best practicable control technology currently available.

Questions were raised during the public comment period on the proposed general pretreatment standard (40 CFR Part 128) about the propriety of applying a standard based upon best practicable control technology currently available to all plants subject to pretreatment standards. In general, EPA believes the analysis supporting the effluent limitations and guidelines is adequate to make a determination regarding the application of those standards to users of publicly owned treatment works. However, to ensure that those standards are appropriate in all cases, EPA now seeks additional comments focusing upon the application of effluent limitations guidelines to users of publicly owned treatment works.

The report entitled "Development Document for Proposed Effluent Limitations Guidelines and New Source Performance Standards for the other Non-Fertilizer Phosphate Chemicals Segment of the Phosphate Manufacturing Point Source Category" details the analysis undertaken in support of the regulation being proposed herein and is available for inspection in the EPA Information Center, Room 227, West Tower, Waterside Mall, Washington, D.C., at all EPA regional offices, and at State water pollution control offices. A supplementary analysis prepared for EPA of the possible economic effects of the proposed regulation is also available for inspection at these locations. Copies of both of these documents are being sent to persons or institutions affected by the proposed regulation or who have placed themselves on a mailing list for this purpose (see EPA's Advance Notice of Public Review Procedures, 38 FR 21202, August 6, 1973). An additional limited number of copies of both reports are available. Persons wishing to obtain a copy may write the EPA Information Center, Environmental Protection Agency, Washington, D.C. 20460, Attention: Mr. Philip B. Wisman.

When this regulation is promulgated, revised copies of the Development Document will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of the Economic Analysis will be available through the National Technical Information Service, Springfield, Virginia 22151.

(c) *Summary of public participation.* A full listing of participants and discussion of comments and responses is included in the preamble of the interim final regulation for the defluorinated phospate rock subcategory (Subpart D), the defluorinated phosphoric acid subcategory (Subpart E) and the sodium phosphates subcategory (Subpart F) being simultaneously promulgated by EPA and are incorporated herein by reference.

Interested persons may participate in this rulemaking by submitting written comments in triplicate to the EPA Information Center, Environmental Protection Agency, Washington, D.C. 20460, Attention: Mr. Philip B. Wisman. Comments on all aspects of the proposed regulation are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which are available, or which may be relied upon by the Agency, comments should identify and, if possible, provide any additional data which may be available and should indicate why such data are essential to the development of the regulations. In the event comments address the approach taken by the Agency in establishing a standard of performance or pretreatment standard, EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of sections 306 and 307 (b) and (c) of the Act.

A copy of all public comments will be available for inspection and copying at the EPA Information Center, Room 227, West Tower, Waterside Mall, 401 M Street, SW., Washington, D.C. A copy of preliminary draft contractor reports, the Development Document and economic study referred to above, and certain supplementary materials supporting the study of the industry concerned will also be maintained at this location for public review and copying. The EPA information regulation, 40 CFR Part 2, provides that a reasonable fee may be charged for copying.

All comments received on or before February 26, 1975 will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning public review procedures published on August 6, 1973 (38 FR 21202).

Dated: January 16, 1975.

RUSSELL E. TRAIN,
Administrator.

PART 422—PHOSPHATE MANUFACTURING POINT SOURCE CATEGORY

Subpart D—Defluorinated Phosphate Rock Subcategory

* * * * *

Sec.
422.44 Pretreatment standard for existing sources.
422.45 Standards of performance for new sources.
422.46 Pretreatment standard for new sources.

Subpart E—Defluorinated Phosphoric Acid Subcategory

* * * * *

Sec.
422.54 Pretreatment standard for existing sources.
422.55 Standards of performance for new sources.
422.56 Pretreatment standard for new sources.

Subpart F—Sodium Phosphates Subcategory

* * * * *

422.64 Pretreatment standard for existing sources.
422.65 Standards of performance for new sources.
422.66 Pretreatment standard for new sources.

Part 422 is amended as follows:

Subpart D is amended by adding §§ 422.44, 422.45 and 422.46 as follows:

§ 422.44 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the defluorinated phosphate rock subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart:

(a) The volume of waste water that may be discharged is established by § 422.42.

Pollutant or pollutant property	Pretreatment standards	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) mg/l of effluent discharged		
BOD_5	No limitation	No limitation.
TSS	No limitation	No limitation.
pH	No limitation	No limitation.
Total phosphorus	70	35.
Fluoride	30	15.

§ 422.45 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

(a) Subject to the provisions of paragraphs (b), (c), and (d) of this section, there shall be no discharge of process waste water pollutants into navigable waters.

(b) A process waste water impoundment which is designed, constructed and operated so as to contain the precipitation from the 25 year, 24 hour rainfall event as established by the National Climatic Center, National Oceanic and Atmospheric Administration, for the area in which such impoundment is located may discharge that volume of process waste water which is equivalent to the volume of precipitation that falls within the impoundment in excess of that attributable to the 25 year, 24 hour rainfall event, when such event occurs.

(c) During any calendar month there may be discharged form a process waste water impoundment either a volume of process waste water equal to the difference between the precipitation for that month that falls within the impoundment and either the evaporation from the pond water surface area for that month, or a volume of process waste water equal to the difference between the mean precipitation for that month that falls within the impoundment and the mean evaporation from the pond water surface area for that month as established by the National Climatic Center, National Oceanic and Atmospheric Administration, for the area in which such impoundment is located (or as otherwise determined if no monthly data have been established by the National Climatic Center), whichever is greater.

(d) Any process waste water discharged pursuant to paragraph (c) of this section shall comply with each of the following requirements:

Pollutant or pollutant property	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units, mg/l)		
Total phosphorus (as P)	70	35
Fluoride	30	15
TSS	50	25
pH	Within the range 6.0 to 9.0.	

§ 422.46 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the defluorinated phosphate rock subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment

V 40 18 JAN 27 75 XUM

works by a new source subject to the provisions of this subpart:

(a) The volume of waste water that may be discharged is established by § 422.42.

Pollutant or pollutant property	Pretreatment standards	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) mg/l of effluent discharged		
BOD5	No limitation	No limitation.
TSS	No limitation	No limitation.
pH	No limitation	No limitation.
Total phosphorus	70	35.
Fluoride	30	15.

Subpart E is amended by adding §§ 422.54, 422.55 and 422.56 as follows:

§ 422.54 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the defluorinated phosphoric acid subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart:

(a) The volume of waste water that may be discharged is established by § 422.52.

Pollutant or pollutant property	Pretreatment standards	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) mg/l of effluent discharged		
BOD5	No limitation	No limitation.
TSS	No limitation	No limitation.
pH	No limitation	No limitation.
Total phosphorus	70	35.
Fluoride	30	15.

§ 422.55 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, which may be discharged by a new source subject to the provisions of this subpart:

(a) Subject to the provisions of paragraphs (b), (c), and (d) of this section, there shall be no discharge of process waste water pollutants into navigable waters.

(b) A process waste water impoundment which is designed, constructed and operated so as to contain the precipitation from the 25-year, 24-hour rainfall event as established by the National Climatic Center, National Oceanic and Atmospheric Administration, for the area in which such impoundment is located may discharge that volume of process waste water which is equivalent to the volume of precipitation that falls within the impoundment in excess of that attributable to the 25-year, 24-hour rainfall event, when such event occurs.

(c) During any calendar month there may be discharged from a process waste water impoundment either a volume of process waste water equal to the difference between the precipitation for that month that falls within the impoundment and either the evaporation from the pond water surface area for that month, or a volume of process waste water equal to the difference between the mean precipitation for that month that falls within the impoundment and the mean evaporation from the pond water surface area for that month as established by the National Climatic Center, National Oceanic and Atmospheric Administration, for the area in which such impoundment is located (or as otherwise determined if no monthly data have been established by the National Climatic Center), whichever is greater.

(d) Any process waste water discharged pursuant to paragraph (c) of this section shall comply with each of the following requirements:

Pollutant or pollutant property	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units, mg/l)		
Total phosphorus (as P)	70	35
Fluoride	30	15.
TSS	50	25
pH	Within the range 6.0 to 9.0.	

§ 422.56 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the defluorinated phosphoric acid subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR Part 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

(a) The volume of waste water that may be discharged is established by § 422.42.

Pollutant or pollutant property	Pretreatment standards	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) mg/l of effluent discharged		
BOD5	No limitation	No limitation.
TSS	No limitation	No limitation.
pH	No limitation	No limitation.
Total phosphorus	70	35.
Fluoride	30	15.

Subpart F is amended by adding §§ 422.64, 422.65 and 422.66 as follows:

§ 422.64 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the sodium phosphates subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart:

Pollutant or pollutant property	Pretreatment standards	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	No limitation	No limitation.
TSS	No limitation	No limitation.
pH	No limitation	No limitation.
Total phosphorus	0.80	0.40.
Fluoride	0.30	0.15.
(English units) lb/1000 lb of product		
BOD5	No limitation	No limitation.
TSS	No limitation	No limitation.
pH	No limitation	No limitation.
Total phosphorus	0.80	0.40.
Fluoride	0.30	0.15.

§ 422.65 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units, kg/kkg of product)		
TSS	0.35	0.18
Total phosphorus (as P)	0.56	0.28
Fluoride	0.21	0.11
pH	Within the range 6.0 to 9.0.	
(English units, lb/1000 lb of product)		
TSS	0.35	0.18
Total phosphorus (as P)	0.56	0.28
Fluoride	0.21	0.11
pH	Within the range 6.0 to 9.0.	

§ 422.66 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the sodium phosphates subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	Pretreatment standards	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	No limitation	No limitation.
TSS	No limitation	No limitation.
pH	No limitation	No limitation.
Total phosphorus	0.80	0.40.
Fluoride	0.30	0.15.
(English units) lb/1000 lb of product		
BOD5	No limitation	No limitation.
TSS	No limitation	No limitation.
pH	No limitation	No limitation.
Total phosphorus	0.80	0.40.
Fluoride	0.30	0.15.

V 40 18 JAN 27 75 XUM

NOTICE TO FEDERAL REGISTER READERS

As part of its continuing program to improve the quality of the daily FEDERAL REGISTER and CODE OF FEDERAL REGULATIONS, the Office of the Federal Register is soliciting the views of interested persons on the effectiveness of individual Federal Register documents and on regulations contained in the CODE OF FEDERAL REGULATIONS.

Our goal is twofold:

First—to make each document published in the FEDERAL REGISTER easily understandable, thus making compliance easier, more efficient, and less costly; and

Second—to identify and correct any existing Federal regulations which are obsolete, unnecessarily wordy, or unclearly stated.

We believe this effort is consistent with the objectives stated by President Ford in his October 8th speech on the economy in which he announced "a joint effort by the Congress, the executive branch and the private sector to identify and eliminate existing Federal rules and regulations that increase costs to the consumer without any good reason in today's economic climate."

The Office of the Federal Register welcomes your comments and suggestions. The survey blank below is provided for that purpose. All comments received will be maintained in a public docket and will be available for inspection in the Office of the Federal Register to any interested persons or agencies. Comments which point out the need for substantive changes in existing regulations also will be forwarded to the responsible agency.

- -

I. For the following reasons I found it difficult to understand the document from _____ (agency) in column _____, page _____ of the _____ (date) issue of the FEDERAL REGISTER:

☐ only technical language was used; ☐ document contained long and difficult sentences; ☐ preamble did not contain a clear and concise explanation of the document's purpose; ☐ other (explain) _____

_____

_____

II. I believe that the requirement(s) contained in:

A. The document from _____ (agency) in column _____, page _____ of the _____ (date) issue of the FEDERAL REGISTER, or

B. Section(s) _____ of Title _____ of the CODE OF FEDERAL REGULATIONS impose(s) an: ☐ unnecessary; ☐ unreasonable; ☐ impractical; or ☐ obsolete requirement on those persons subject to that regulation.

My reasons are: _____

_____

_____

III. (Optional) I suggest that the provision(s) mentioned above be rewritten as follows:

_____

_____

_____

Please mail to:

PART I

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

PROCLAMATIONS—National MIA Awareness Day 4115

INTEREST RATES—VA lowers maximum on new loans; effective 1–21–75 4143

VETERANS BENEFITS—VA announces creation of 5 year nonrenewable term insurance; effective 5–24–74 4135

EMERGENCY LOANS—USDA/FmHA allows refinancing of debt; effective 1–28–75 4118

TRUST FUNDS—Treasury/Comptroller proposes authorization of short-term investment notes by National Banks; comments by 3–31–75 4151

SECURITIES AUCTION—Treasury announces sale of notes and bonds (2 documents) 4160, 4163

AIR BRAKE SYSTEMS—DOT/NHTSA proposes criteria for specialized vehicle exemption; comments by 2–15–75 4153

(Continued inside)

PART II:

RAILROADS—DOT/FRA procedures and requirements regarding applications for rail service continuation assistance 4231

PART III:

INDIVIDUAL RETIREMENT BONDS—Treasury/FS announces regulations governing issuance and redemption 4239

NOTE: There were no items that are eligible for inclusion in the list of RULES GOING INTO EFFECT TODAY.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5282. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

MEETINGS—
Commerce/DIBA: Advisory Committee on East-West Trade, 3–14–75 4171
CRC: Arkansas State Advisory Committee, 2–15-75 4184
Virginia State Advisory Committee, 3–28–75 4184
DOD/Air: Scientific Advisory Board, Electronic Systems Advisory Group, 2–27 and 2–28–75 4164
DIA: Scientific Advisory Committee, 3–19 and 3–20–75 4165
National Science Foundation: Advisory Panel for Developmental Biology, 2–14 and 2–15–75 4193
Advisory Panel on Science Education Projects, 2–17 through 2–21–75 4193
Instructional Scientific Equipment Program Subpanel, 2–13 through 2–15–75 4193
Nuclear Regulatory Commission: Advisory Committee on Reactor Safeguards, 2–6 and 2–8–75 4193
Treasury/IRS: Commissioner's Advisory Group, 2–25 and 2–26–75 4160
USDA/ASCS: National Advisory Committee on Grains-Wheat, Feed Grains, and Soybeans, 2–12 and 2–13–75 4169
National Cotton Advisory Committee, 2–12 and 2–13–75 4170
CANCELLED MEETINGS:

Title 3—The President

PROCLAMATION 4342

National MIA Awareness Day

By the President of the United States of America

A Proclamation

January 27, 1975, marks the second anniversary of the signing of the Paris Agreement ending United States combat involvement in Vietnam. Although the Agreement contains specific obligations on accounting for the missing and the return of the remains of the dead, the communist authorities have failed either to provide this information or to follow through on the return of the remains of our dead. Over 2400 Americans are still unaccounted for—some 900 of them still listed as missing, the remainder declared dead with their bodies never recovered. The families of these men continue to live with the anguish of uncertainty about the ultimate fate of these loved ones.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby designate Monday, January 27, 1975, as National MIA Awareness Day, dedicated to the many Americans who remain missing or unaccounted for in Indochina, and to their families. I call upon all Americans to join in voicing once again the clear, continuing commitment of the American people and their Government to seek the fullest possible accounting for Americans missing in Southeast Asia and the return of the remains of those who died.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-fifth day of January, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred ninety-ninth.

Gerald R. Ford

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Grapefruit Reg. 26, Amdt. 2]

PART 906—ORANGES AND GRAPEFRUIT GROWN IN THE LOWER RIO GRANDE VALLEY IN TEXAS

Limitation of Shipments

This amendment lowers the minimum size requirement for shipments of grapefruit grown in the Lower Rio Grande Valley to 3$^{1}/_{16}$ inches for fruit grading at least U.S. No. 1, effective January 27, 1975. This requirement is designed to promote orderly marketing and provide consumers with an ample supply of acceptable-quality fruit.

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906), regulating the handling of grapefruit grown in the Lower Rio Grande Valley in Texas, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the Texas Valley Citrus Committee (established under the aforesaid amended marketing agreement and order), and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

Grapefruit Regulation 26, as amended (39 FR 36851; 39257) requires all grapefruit shipments to be at least 3$^{7}/_{8}$ inches in diameter and at least U.S. No. 2 grade until February 24, 1975, when such minimum size would be lowered to 3$^{5}/_{8}$ inches. The amendment would lower the minimum size requirement to 3$^{7}/_{8}$ inches in diameter on January 27, 1975, for fruit grading at least U.S. No. 1. Such amendment would make additional supplies of fruit available at a time when supplies are diminishing. The crop this season is short and the demand for grapefruit 3$^{7}/_{8}$ inches in diameter now exceeds the supply. The release of fruit 3$^{7}/_{8}$ inches in diameter and larger grading at least U.S. No. 1 would make additional supplies of satisfactory fruit available. Because of the light fruit set this season it is not practicable to ring pick the fruit; thus, all of the fruit on the trees is being picked at once. The processing outlet is the normal outlet for fruit not suitable for fresh shipment, and currently this outlet is not attractive because of low juice prices.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of grapefruit.

Order. The provisions of paragraph (a)(2) of § 906.355 Grapefruit Regulation 26 (39 FR 36851; 39257) are amended to read as follows:

§ 906.355 Grapefruit Regulation 26.

(a) *Order.* (1) • • •

(2) Any grapefruit of any variety, grown in the production area, which are smaller than pack size 96, as such size is specified in § 51.630(c) of the U.S. Standards for Grapefruit (Texas and States other than Florida, California, and Arizona), except that the minimum diameter limit for pack size 96 grapefruit in any lot shall be 3$^{7}/_{8}$ inches: *Provided,* That during the period January 27 through February 23, 1975, any handler may handle grapefruit of any variety smaller than pack size 96 (minimum diameter 3$^{7}/_{8}$ inches) providing such grapefruit grades at least U.S. No. 1 and is not smaller than pack size 112 (minimum diameter 3$^{5}/_{8}$ inches); and *Provided further,* That during the period February 24 through November 2, 1975, any handler may handle grapefruit of any variety smaller than pack size 96 (minimum diameter 3$^{7}/_{8}$ inches) providing such grapefruit is not smaller than pack size 112 (minimum diameter 3$^{5}/_{8}$ inches).

• • • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 23, 1975, to become effective January 27, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division Agricultural Marketing Service.

[FR Doc.75-2507 Filed 1-27-75;8:45 am]

PART 917—FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA

Increases in Expenses for the 1974–75 Season

This document authorizes an increase of $15,431 in the Control Committee expenses during the 1974–75 fiscal period (March 1, 1974, through February 28, 1975) under Marketing Order No. 917. Said increase changes the annual committee budget from $809,827 to $825,258 with no change in the related rate of assessment on handlers of the regulated fruits.

On December 27, 1974, notice of proposed rule making was published in the FEDERAL REGISTER (39 FR 44763) regarding proposed amendment of the committee expenses for the period March 1, 1974, through February 28, 1975, pursuant to the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917), which regulate the handling of fresh pears, plums, and peaches grown in California. This is a regulatory program effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The notice allowed interested persons 21 days to submit written data, views, or arguments pertaining to the proposal. None were submitted.

After consideration of all relevant matter presented, including the proposal set forth in said notice which was submitted by the Control Committee (established pursuant to said amended marketing agreement and order) *It is hereby ordered,* That the provisions of paragraph (a) of § 917.212 Expenses and rate of assessment (39 FR 28277; 39 FR 30477) be amended to read as follows:

§ 917.212 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred during the fiscal period March 1, 1974, through February 28, 1975, will amount to $825,258.

• • • • • •

It is hereby found that good cause exists for not postponing the effective time hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) the Control Committee has incurred expenses in excess of those previously thought likely to be incurred, (2) it is essential that the determination of expenses, as specified herein, be issued immediately so that said committee can meet its obligations and perform its duties and functions during the current fiscal period in accordance with the provisions of said marketing agreement and order, and (3) the increase in expenses, as set forth herein, will not result in an increase in the rate of assessment for handlers as heretofore fixed by the Secretary (39 FR 28277; 39 FR 30477).

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 23, 1975.

CHARLER R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

V40I19 JAN28 75 XUM

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—LOANS PRIMARILY FOR PRODUCTION PURPOSES

[FmHA Instruction 441.5]

PART 1832—EMERGENCY LOANS

Subpart E—Special Emergency Loan Policies and Authorizations Implementing Applicable Provisions of Pub. L. 93–237

Section 1832.87 (g) and (i) of Subpart E of Part 1832, Title 7, Code of Federal Regulations (39 FR 7569) are amended. Section 1832.87(g) is amended to correct a reference to other Farmers Home Administration (FmHA) regulations. Section 1832.87(i) is deleted thereby removing the prohibition against making Emergency loans to refinance or pay off debts owed to the FmHA. The removal of this prohibition against making Emergency (EM) loans to refinance or pay off debts owed to FmHA is being published without general notice of proposed rulemaking in order to permit immediate implementation of certain benefits to farmers and ranchers who have had losses from natural disasters, but who are FmHA borrowers. These benefits are now available to EM loan applicants who are borrowers of other lenders. Failure to implement this change immediately would cause a hardship for certain applicants for Emergency loans.

Interested persons are invited to submit written comments, suggestions, or objections regarding this revision to the Deputy Administrator Comptroller, Farmers Home Administration, U.S. Department of Agriculture, Room 5007, South Building, Washington, D.C. 20250 on or before February 27, 1975. Material thus submitted will be evaluated and acted upon in the same manner as if this document were a proposal. Since these rules are needed immediately to assist natural disaster victims, this revision and deletion shall remain in effect until amended. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Deputy Administrator Comptroller during regular business hours (8:15 a.m.–4:45 p.m.).

In § 1832.87 paragraph (g) is amended and paragraph (i) deleted to read as follows:

§ 1832.87 Loan limitations.

• • • • •

(g) To flood and mudslide victims to repair or replace damaged or destroyed farm dwellings or farm service buildings and the contents therein, in areas where "National Flood Insurance" is available, except as authorized in Part 1806, Subpart B, of this chapter.

• • • • • •

(i) (Deleted)

• • • • • •

(U.S.C. 1989; 42 U.S.C. 1480; delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70)

Effective date. This amendment and deletion are effective January 28, 1975.

Dated: January 13, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-2437 Filed 1-27-75;8:45 am]

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 74-1244]

PART 543—INCORPORATION, ORGANIZATION AND CONVERSION

Corporate Title of Federal Associations

DECEMBER 5, 1974.

The following summary of the amendment adopted by this Resolution is provided for the readers' convenience and is subject to the full description in the preamble as well as the specific provisions in the regulation.

I. *Present Regulation.* A. The corporate title of a Federal association must include the words "Federal Savings and Loan Association".

B. The words "Federal Savings and Loan Association" must be preceded by a descriptive word or words, such as "First", and may be followed by words indicating location.

C. If a corporate title includes the name of a State, then the title must also include the name of the place in which the association's home office is located, unless:

1. The association's offices are located in various areas of the State, and

2. The Board determines that there is a clear need for the association to use the State name without reference to its home office location.

II. *Amended Regulation.* A. The corporate title of a Federal association must still contain the words "Federal Savings and Loan Association", and these words must be preceded by descriptive words and may be followed by words indicating location.

B. The amendment makes clear that a Federal association may not use a State name as a prefix in its corporate title without a showing of clear need even though the suffix of its title refers to the home office location. For example, an association will not be permitted to call itself Maryland Federal Savings and Loan Association of Gaithersburg without showing a clear need to do so.

III. *Reason for Amendment.* A. The amendment clarifies the present regulation.

B. This clarification reflects the existing Board interpretation of the regulation.

IV. *Applicability of Amendment.* A. The amendment applies only with respect to applications for Federal charters and to applications for change of corporate title.

The Federal Home Loan Bank Board considers it necessary to amend Part 543 (12 CFR Part 543) to clarify § 543.1 thereof, captioned "Corporate title" Section 543.1 provides that the corporate title of a Federal association must include the words "Federal Savings and Loan Association". Section 543.1 further provides that the words "Federal Savings and Loan Association" shall be preceded by a suitable descriptive word or words (such as "First") and may be followed by words indicating location (such as "of Gaithersburg, Maryland"). If a Federal association's corporate title includes the name of a State, the title must also include the name of the place in the State at which the association's home office is located. However, an association may use a corporate title including the name of a State without referring to the place in which such association's home office is located (1) if such association's offices are located in various areas of the State (or a portion of the State if the corporate title refers to such portion) and (2) if the Board determines that such association has a clear need to use the name of the State without reference to its home office location.

Section 543.1 is amended to make clear that a Federal association may not use a State name as a prefix in its corporate title without a showing of clear need even though the suffix of its title refers to the home office location. Thus, the name "Maryland Federal Savings and Loan Association of Gaithersburg" will not be permitted without a showing of clear need. However, the name "Gaithersburg Federal Savings and Loan Association of Maryland" will be permitted without such a showing. The Board has followed the policy codified by this amendment for some time because of the confusion which can result from a name such as "Maryland Savings and Loan Association of Gaithersburg" if the association drops the suffix "of Gaithersburg" in its advertisements. This amendment will only affect applications for Federal charters and applications by existing Federal associations to change their corporate title.

Accordingly, the Federal Home Loan Bank Board hereby amends § 543.1 to read as set forth below, effective March 1, 1975.

Since the above-described amendment is a codification of existing Board policy and is entirely prospective in application, the Board hereby finds that notice and public procedure with respect to said amendment are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b).

§ 543.1 Corporate title.

The full corporate title of each Federal association shall include the words "Federal Savings and Loan Association," which shall be preceded by a suitable descriptive word or words and may be followed by the words "of ----------", indicating location. The words following "Federal Savings and Loan Association" may include the name of a State if the corporate title also includes the name of the place in the State at which the home office is located. The name of a State may also be included in any part of the corporate title if the offices of the association are located in various areas of the State (or portion of the State in case the corporate title refers to such portion) so as to create a clear need, in the Board's judgment, for the association to use the name of the State (or such portion of the State).

(Sec. 5, 48 Stat., 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, JR.,
Assistant Secretary.

[FR Doc.75-2450 Filed 1-27-75;8:45 am]

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Revision 13]

PART 121—SMALL BUSINESS SIZE STANDARDS

Definitions of Small Business; Correction

In Revision 13 of Part 121, Chapter I, Title 13 of the Code of Federal Regulations, published in the FEDERAL REGISTER on December 24, 1974 (39 FR 44423), some lines were inadvertently left out in two of the definitions of small business.

One omission was in the definition of small business for assistance by small business investment companies or development companies (§ 121.3–11).

The other omission was in the definition of small business for the purpose of Government leases of uranium prospecting or mining rights (§ 121.3–14).

1. Section 121.3–11 should read as follows:

§ 121.3–11 Definition of small business for assistance by small business investment companies or by development companies.

A small business concern for the purpose of receiving financial or other assistance from small business investment companies or development companies is one which:

(a) Together with its affiliates, is independently owned and operated, is not dominant in its field of operation, does not have assets exceeding $7.5 million, does not have net worth in excess of $2.5 million, and does not have an average net income, after Federal income taxes, for the preceding 2 years in excess of $250,000 (average net income to be computed without benefit of any carryover loss); or

(b) Qualifies as a small business concern under § 121.3–10.

2. Section 121.3–14 should read as follows:

§ 121.3–14 Definition of small business for the purpose of Government leases of uranium prospecting or mining rights.

In the submission of a bid or proposal for a Government lease of uranium prospecting or mining rights, a concern whose number of employees does not exceed 100 persons may represent that it is a small business. In the absence of a written protest or other information which would cause him to question the veracity of the self-certification, the contracting officer shall accept the self-certification at face value for the particular lease involved.

(All SBA programs listed in the Catalog of Federal Domestic Assistance Programs under Nos. 59.001–59.018)

Dated: January 15, 1975.

THOMAS S. KLEPPE,
Administrator.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 14129; Amdt. 39–2080]

PART 39—AIRWORTHINESS DIRECTIVES

Chromalloy Model RLB–6 Series Rescue Locator Beacons Installed in Emergency Equipment

Pursuant to the authority delegated to me by the Administrator, an amendment to AD 74–24–07 (39 FR 40939), Amendment 39–2021, was adopted on November 15, 1974, and made effective immediately as to known U.S. operators of aircraft covered by that AD. That AD is applicable to certain Chromalloy Model RLB–6 Series rescue locator beacons installed in emergency equipment such as life rafts and slide-raft combinations. The amendment was issued to clarify the AD's applicability, to reflect the FAA approval of Chromalloy battery pack, P/N P4–01–0044, as a replacement for installation under the AD, and to make it clear that the provision in the AD permitting the installation of an FAA approved portable type emergency locator transmitter is an interim measure pending the installation of approved replacement beacons or battery packs.

Since it was found that immediate action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the amendment effective immediately as to the known U.S. operators of aircraft covered by AD 74–24–07 by individual telegrams dated November 15, 1974.

These conditions still exist and the amendment to AD 74–24–07 (39 FR 40939), Amdt. 39–2021, is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons. The AD, as amended, is set forth herein in its entirety.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

CHROMALLOY. Applies to Chromalloy Model RLB–6 Series rescue locator beacons incorporating battery packs, P/N A3–01–0175, installed in emergency equipment (including, but not limited to, slide-raft combinations and life rafts)

Compliance required as indicated unless already accomplished:

(a) On or before December 2, 1974, remove from service all Chromalloy Model RLB–6 Series rescue locator beacons or the battery packs incorporated in those units.

(b) Contrary provisions of §§ 121.339, 121.353, and 135.163 of the Federal Aviation Regulations notwithstanding, Part 121 and 135 operators of aircraft, equipped with life rafts or slide-raft combinations incorporating Chromalloy Model RLB–6 Series rescue locator beacons may, after removal of such beacons or their battery packs pursuant to paragraph (A), continue to operate the aircraft—

(1) After replacing the battery pack with Chromalloy battery packs, P/N P4–01–0044, marked "FAA approved for use only as a replacement battery under AD 74–24–07.";

(2) After replacing the affected beacons with FAA approved replacement beacons; or

(3) Pending compliance with subparagraphs (1) or (2) of this paragraph, after installing in the aircraft an FAA approved portable type emergency locator transmitter that is accessible to the flight crew. (Note: Chromalloy Model RLB–6 Series rescue locator beacons that incorporate battery packs, P/N P4–01–0044, meet the performance requirements of TSO–C91 except their "low operating temperature" is +29 degrees F).

This amendment is effective January 28, 1975 as to all persons except those persons to whom it was made immediately effective by the telegram, dated November 15, 1974, which contained this amendment.

Issued in Washington, D.C. on January 17, 1975.

C. R. MELUGIN, JR.,
Acting Director,
Flight Standards Service.

[Airspace Docket No. 73–WA–49]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Miami, Florida Terminal Control Area

On June 12, 1974, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (39 FR 20616) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Group I Terminal Control Area (TCA) for Miami, Fla.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. Four comments were received and were given due consideration.

Two comments received in response to the notice raised objections. The Florida Department of Transportation recommended raising the floor of the TCA to 4,000 feet over North Perry, Opa Locka, Opa Locka West and New Tamiami Airports. They also stated that Area "F"

V40N19 JAN28 75 XUM

should have a base of 1,000 feet instead of 500 feet to allow reasonable seaplane operations, aerial advertising, and helicopter flights enough latitude to remain clear of persons and property except for takeoff and landing. The National Pilots Association agreed with the proposal with the exception of the lowering of the airspace south of the Biscayne Bay VORTAC 270° radial and 090° radial to 3,000 feet. They requested that the base of this airspace be left at 5,000 feet to allow more freedom for the Tamiami Airport pilots and stated that a higher base was essential to the Miami Glider Port.

Two comments supported the modification of the Miami TCA, one from the Dade County Aviation Department and one from the Air Transport Association.

In response to the objections received to the proposal, the airspace designated Area "F" will have a base of 1,000 feet MSL instead of the 500 foot ceiling proposed in the Notice.

The area south of the Biscayne Bay VORTAC 270° and 090° radials was proposed in the Notice to be lowered from 5,000 feet MSL to 3,000 feet MSL. Due to comments received about the proposed lowering of this floor, the portion of this floor that is west of U.S. Highway 1 will not be lowered from its present 5,000 foot base.

It is considered impractical to use a higher en route altitude than 3,000 feet for aircraft operating between the Miami and Ft. Lauderdale-Hollywood International Airports because of the short distance involved. To have these aircraft continue to operate below the TCA floor does not provide the desired level of protection. Another factor is that aircraft operating beneath TCA floors should be able to expect a greater degree of segregation from the turbine-powered aircraft. Even though an aircraft would not be able to overfly the airport traffic areas at Opa Locka and North Perry Airports, authorization could be obtained from ATC to operate within these areas.

The lowering of the floor to 3,000 feet over Opa Locka West Airport is required to contain aircraft executing the VOR Runway 12 Straight-In Approach within the TCA. The crossing altitude over the VOR for this approach is 3,000 feet.

In consideration of the foregoing, § 71.401(a) (40 FR 640) of the Federal Aviation Regulations is amended effective 0901 G.m.t., March 27, 1975, by amending the description of the Miami Group I Terminal Control Area to read as follows:

MIAMI, FLA., TERMINAL CONTROL AREA

Primary Airport.—Miami International Airport (Lat. 25°47'34'' N., Long. 80°17'10'' W.).

BOUNDARIES

Area A

That airspace extending upward from the surface to and including 7,000 feet MSL within a 6-mile radius of the Miami International Airport, excluding that airspace that is both northeast of the Miami VORTAC (Lat. 25°57'47'' N., Long. 80°27'39'' W.) 130° radial and north of Lat. 25°52'02'' N. (Northwest 103rd Street/49th Street in the City of Hialeah), and within and underlying Area F described hereinafter.

Area B.

That airspace extending upward from 1,500 feet MSL to and including 7,000 feet MSL within a 10-mile radius of Miami International Airport, excluding that airspace that is both northeast of the Miami VORTAC 130° radial and north of Lat. 25°52'02'' N., that airspace south of the Biscayne Bay VORTAC (Lat. 25°40'17'' N., Long. 80°10'40'' W.) 090° and 270° radials, Area A previously described, and within and underlying Areas C and F described hereinafter.

Area C

That airspace extending upward from 2,000 feet MSL to and including 7,000 feet MSL within an area bounded on the northeast by a 5-statute mile radius arc of the New Tamiami Airport (Lat. 25°38'51'' N., Long. 80°25'59'' W.), on the south by the Biscayne Bay VORTAC 270° radial, and on the southwest by a 10-mile radius arc of the Miami International Airport.

Area D

That airspace extending upward from 3,000 feet MSL to and including 7,000 feet MSL within a 20-mile radius of Miami International Airport, excluding that airspace beyond a 15-mile radius of Miami International Airport extending clockwise from the Miami VORTAC 270° radial to the Miami VORTAC 090° radial, and extending clockwise from the Miami VORTAC 150° radial to the Biscayne Bay VORTAC 270° radial, Areas A, B, and C previously described, and within and underlying Area F and G described hereinafter.

Area E

That airspace extending upward from 4,000 feet MSL to and including 7,000 feet MSL between the 15-mile and 20-mile radii of the Miami International Airport extending clockwise from the Miami VORTAC 270° radial to the Biscayne Bay VORTAC 331° radial.

Area F

That airspace extending upward from but not including 1,000 feet MSL to and including 7,000 feet MSL bounded on the east by a 6-mile radius arc of the Miami International Airport, and on the west by the west shoreline of Biscayne Bay.

Area G

That airspace extending upward from 5,000 feet MSL to and including 7,000 feet MSL south of the Biscayne Bay VORTAC 270° radial, north and east of the 15-mile radius arc of the Miami International Airport and west of U.S. Route 1.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on January 22, 1975.

GORDON E. KEWER,
Acting Chief, Airspace and Air Traffic Rules Division.

[Airspace Docket No. 74-SW-50]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate the Lake Providence, La., transition area.

On December 9, 1974, a notice of proposed rule making was published in the FEDERAL REGISTER (39 FR 42920) stating the Federal Aviation Administration proposed to designate a transition area at Lake Providence, La.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 27, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

LAKE PROVIDENCE, LA.

That airspace extending upward from 700 feet above the surface within a 5-statute-mile radius of Byerley Airport, Lake Providence, La. (latitude 32°49'45'' N., longitude 91°11'00'' W.); and within 3.5 miles each side of the 355° bearing from the Lake Providence NDB (latitude 32°51'36'' N., longitude 91°11'33'' W.), extending from the 5-mile-radius to 11.5 statute miles north of the NDB.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act [49 U.S.C. 1655(c)])

Issued in Fort Worth, Tex., on January 16, 1975.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

[FR Doc.75-2412 Filed 1-27-75;8:45 am]

[Airspace Docket No. 74-SW-46]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate a 700-foot transition area at Carthage, Tex.

On November 29, 1974, a notice of proposed rule making was published in the FEDERAL REGISTER (39 FR 41540) stating the Federal Aviation Administration proposed to designate the Carthage, Tex., transition area.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. We received only one objection, which was from the Air Transport Association of America. They objected to the proposal on the basis that it would have a significant impact on IFR operations being conducted at the Gregg County Airport. We have reviewed their objection and understand their concern for Texas International Air Lines and its 14 scheduled daily operations at the Gregg County Airport. We do not feel that the volume of traffic utilizing the Panola County approach will have a significant effect, if any, on Texas International's operations.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 27, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

CARTHAGE, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Panola County Airport (latitude 32°10' 21'' N., longitude 94°17'51'' W.) and within 3 miles each side of the Gregg County VORTAC (latitude 32°25'03.3'' N., longitude 94° 45'10.5'' W.) 122° radial, extending from the 5-mile radius area to 25 miles southeast of the Gregg County VORTAC.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on January 13, 1975.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

[FR Doc.75-2413 Filed 1-27-75;8:45 am]

[Airspace Docket No. 74-SO-103]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of VOR Federal Airways

On December 6, 1974, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (39 FR 42697) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would extend V-454 from Monroeville, Ala., to Brookley, Ala., and change the 6-mile route width of V-20S between Mobile, Ala., and Monroeville, Ala., to a normal 8-mile route width.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. No comments were received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 27, 1975, as hereinafter set forth.

Section 71.123 (40 FR 307) is amended as follows:

1. In V-20 "Monroeville, including a 6-mile wide S alternate via INT Mobile 063° and Monroeville 216° radials;" is deleted and "Monroeville, including a S alternate via INT Mobile 063° and Monroeville 216° radials;" is substituted therefor.
2. In V-454 "From Monroeville, Ala.," is deleted and "From Brookley, Ala.; Monroeville, Ala.;" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on January 21, 1975.

GORDON E. KEWER,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.75-2414 Filed 1-27-75;8:45 am]

[Airspace Docket No. 73-SO-59]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Amendment to Transition Area; Correction

On January 8, 1975, FR Doc. No. 75-660 was published in the FEDERAL REGISTER (40 FR 1507), amending Part 71 of the Federal Aviation Regulations by altering the Charleston, S.C., transition area.

In the amendment, reference is made to the 280° bearing from Johns Island RBN, and a typographical error exists in the description change. Subsequent to publication of the rule, the final approach bearing was changed to 278°. It is necessary to amend the FR Doc. to change the final approach bearing and correct the error. Since these amendments are editorial and/or minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, effective immediately, FR Doc. No. 75-660 is amended as follows:

Lines one, two and three of the description change are deleted and " • • • long. 80°00'00'' W.) • • • " is deleted and " • • • long. 80°00'00'' W.); within 3 miles each side of the 278° bearing • • • " is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on January 17, 1975.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.75-2415 Filed 1-27-75;8:45 am]

[Airspace Docket No. 73-SO-68]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Amendment to Transition Area; Correction

On January 8, 1975, FR Doc. No. 75-661 was published in the FEDERAL REGISTER (40 FR 1508), amending Part 71 of the Federal Aviation Regulations by designating the Moncks Corner, S.C., transition area.

In the description, the latitude for Moncks Corner RBN was cited as "33°11'35'' N." Subsequent to publication of the rule, the latitude was refined to "33°11'16'' N." It is necessary to amend the FR Doc. to reflect this change. Since this amendment is minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, effective immediately, FR Doc. No. 75-661 is amended as follows:

In line six of the description " • • • latitude 33°11'35'' N • • • " is deleted and " • • • latitude 33°11'16'' N • • • " is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on January 17, 1975.

DUANE W. FREER,
Acting Director, Southern Region.

credit, or any advertisement to aid, promote or assist directly or indirectly any extension of consumer credit, as "advertisement" and "consumer credit" are defined in Regulation Z (12 CFR 226) of the Truth in Lending Act (Pub. L. 90–321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Representing in any such advertisement, directly or by implication, the amount of the downpayment required or that no downpayment is required, the amount of any installment payment, the dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit, unless all of the following items are stated in terminology prescribed under § 226.8 of Regulation Z, as required by § 226.10(d) (2) of Regulation Z:

a. The cash price;

b. The amount of the downpayment required or that no downpayment is required, as applicable;

c. The number, amount, and due dates or period of payments scheduled to repay the indebtedness if the credit is extended;

d. The amount of the finance charge expressed as an annual percentage rate; and

e. The deferred payment price.

2. Representing in any such advertisement, directly or by implication, that a specific amount of credit or installment amount can be arranged unless respondents usually and customarily arrange or make available credit amounts or installments for that period or in that amount, as required by § 226.10(a) (1) of Regulation Z.

3. Failing, in any consumer credit transaction or advertisement, to make all disclosures, determined in accordance with §§ 226.4 and 226.5 of Regulation Z, at the time and in the manner, form and amount required by §§ 226.6, 226.7, 226.8, 226.9 and 226.10 of Regulation Z.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the consummation of any extension of consumer credit or in any aspect of the preparation, creation or placing of advertising, to all persons engaged in reviewing the legal sufficiency of advertising, and to all present and future agencies engaged in preparation, creation or placing of advertising on behalf of respondents, and that respondents secure from each such person and agency a signed statement acknowledging receipt of said order.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include the respondent's current business address and a statement as to the nature of the business or employment in which he is engaged, as well as a description of his duties and responsibilities.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Decision and order issued by the Commission October 22, 1974.

CHARLES A. TOBIN,
Secretary.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Oden Distributing Co., Inc., et al., Omaha, Neb., Docket C–2576, Oct. 16, 1974]

In the Matter of Oden Distributing Co., Inc., a Corporation, and Donald W. Oden, Individually and as an Officer of Said Corporation

Consent order requiring an Omaha, Neb., retailer of sewing machines and other products, among other things to cease using deceptive contests and false pricing claims to sell sewing machines and other products.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

It is ordered, That Oden Distributing Co., Inc., a corporation, its successors and assigns, and its officers, and Donald W. Oden, individually and as an officer of said corporation, and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, and sale of sewing machines and other products and services in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, orally or in writing, that recipients of any advertising or promotional material were selected on the basis of analytical or scientific sampling techniques, or by use of marketing studies, or by use of any other device unless such device or method was, in fact, employed as stated.

2. Failing to maintain records and data which are open to the inspection of the Federal Trade Commission and which evidence the method used and other relevant information in support of such representations of the type dealt with in Paragraph 1 above.

3. Representing, directly or by implication, orally or in writing, that any price is the respondents' regular price for any article of merchandise or service unless said amount is the price at which such merchandise or service has been sold or offered for sale by respondents for a reasonably substantial period of time in the recent, regular course of their business and not for the purpose of establishing fictitious higher prices upon which a deceptive comparison or a "free" or similar offer might be based.

4. Representing, directly or by implication, orally or in writing, that a purchaser of respondents' merchandise or services will receive a "free" sewing machine or any other "free" merchandise, service, prize or award unless all conditions, obligations, or other prerequisites to the receipt and retention of such merchandise, services, gifts, prizes or awards are clearly and conspicuously disclosed at the outset in close conjunction with the word "free" wherever it first appears in each advertisement or offer.

5. Representing, directly or by implication, orally or in writing, that any merchandise or service is furnished "free" or at no cost to the purchaser of advertised merchandise or services, when in fact, the cost of such merchandise or service is regularly included in the selling price of the advertised merchandise or service.

6. Representing, directly or by implication, orally or in writing, that a "free" offer is being made in connection with the introduction of new merchandise or services offered for sale at a specified price unless the respondents expect, in good faith, to discontinue the offer after a limited time and commence selling such merchandise or service, separately, at the same price at which it was sold with a "free" offer.

7. Representing, directly or by implication, orally or in writing, that merchandise or service is being offered "free" with the sale of merchandise or service which is usually sold at a price arrived at through bargaining, rather than at a regular price, or where there may be a regular price, but where other material factors such as quantity, quality, or size are arrived at through bargaining.

8. Representing, directly or by implication, orally or in writing, that a "free" offer is available in a trade area for more than six (6) months in any twelve (12) month period. At least thirty (30) days shall elapse before another such "free" offer is made in the same trade area. No more than three (3) such "free" offers shall be made in the same area in any twelve (12) month period. In such period, respondents' sale in that area of the product or service in the amount, size or quality promoted with the "free" offer shall not exceed fifty percent (50 percent) of the total volume of its sales of the product or service, in the same amount, size or quality, in the area.

9. Representing, directly or by implication, orally or in writing, that a product or service is being offered as a "gift", "without charge", "bonus" or by other words or terms which tend to convey the impression to the consuming public that the article of merchandise or service is free, when the use of the term "free" in relation thereto is prohibited by the provisions of this order.

10. Representing, directly or by implication, orally or in writing, that by purchasing any merchandise or service:

a. Customers are afforded savings amounting to the difference between respondents' stated price and respondents' former price unless such merchandise has been sold or offered for sale in good faith at the former price by respondents for a reasonably substantial period of time in the recent, regular course of their business.

b. Customers are afforded savings amounting to the difference between respondents' stated price and a compared price for said merchandise or service in respondents' trade area unless a substantial number of the principal retail outlets in the trade area regularly sell said merchandise or service at the compared price or some higher price.

c. Customers are afforded savings amounting to the difference between respondents' stated price and a compared value price for comparable merchandise or service, unless substantial sales of like grade and quality are being made in the trade area at the compared price or higher price and unless respondents have in good faith conducted a market survey or obtained a similar representative sample of prices in their trade area which establishes the validity of said compared price and it is clearly and conspicuously disclosed that the comparison is with merchandise or service of like grade and quality.

11. Failing to maintain and produce for inspection or copying for a period of three (3) years, adequate records (a) which disclose the facts upon which any savings claims, sales claims and other similar representations as set forth in Paragraph 10 of this order are based and (b) from which the validity of any savings claims, sales claims and similar representations can be determined.

12. Representing, directly or by implication, that respondents conduct contests, unless such contests are actually conducted and advertisements or notices concerning said contests fully, clearly, and conspicuously disclose each and every of the following delineated items:

a. The total number of prizes which will be awarded in each prize category.

b. The nature of the prizes together with their value, which value must be stated as the value at which the identical or substantially similar item was sold or offered for sale in good faith by respondents for a reasonably substantial period of time in the recent, regular course of their business.

c. The approximate numerical odds of winning each such prize; *Provided, however,* That in a promotional device in which the odds cannot be determined with reasonable accuracy, respondents shall clearly and conspicuously disclose the approximate number of individuals to whom the promotional device is being disseminated if such fact may be reasonably determined.

d. All terms, conditions and obligations with which individuals will be asked to or must comply with in order to obtain a prize.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all of their present and future personnel engaged in the offering for sale, or sale of memberships, services, or any other products or services, or in any aspect of preparation, creation, or placing of advertising, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission, October 16, 1974.

CHARLES A. TOBIN,
Secretary.

In the Matter of Sol Sportswear, Inc., a Corporation, and Solomon Brum, Individually and as an Officer of Said Corporation

Consent order requiring a Miami, Fla., manufacturer of textile fiber products, including wearing apparel in the form of men's and boy's shirts, among other things to cease misbranding its textile fiber products.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

It is ordered, That respondents Sol Sportswear, Inc., a corporation, its successors and assigns, and its officers, and Solomon Brum, individually and as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device in

[1] Copies of the complaint and decision and order filed with the original document.

V 40 19 JAN 28 75 XUM

connection with the introduction, delivery for introduction, manufacture for introduction, sale, advertising or offering for sale in commerce, or the importation into the United States of any textile fiber products; or in connection with the sale, offering for sale, advertising, delivery, transportation or causing to be transported of any textile fiber product which has been advertised for sale in commerce; or in connection with the sale, offering for sale, advertising, delivery, transportation or causing to be transported after shipment in commerce of any textile fiber product whether in its original state or contained in any other textile fiber product, as the terms "commerce" and "textile fiber product" are defined in the Textile Fiber Products Identification Act, do forthwith cease and desist from:

1. Misbranding textile fiber products by:

a. Falsely or deceptively stamping, tagging, labeling, invoicing, advertising or otherwise identifying such products as to the name or amount of the constituent fibers contained therein;

b. Failing to affix labels to such textile fiber products showing in a clear, legible and conspicuous manner each element of information required to be disclosed by section 4(b) of the Textile Fiber Products Identification Act;

c. Using a fiber trademark on labels affixed to textile fiber products without the generic name of the fiber in immediate conjunction therewith on the said label;

d. Failing to maintain and preserve proper records showing the fiber content of the textile fiber products manufactured by said respondents, as required by section 6 of the Textile Fiber Products Identification Act and Rule 39 of the regulations promulgated thereunder.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent, such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission, October 3, 1974.

Title 17—Commodity and Securities Exchanges

CHAPTER I—COMMODITY EXCHANGE AUTHORITY (INCLUDING COMMODITY EXCHANGE COMMISSION), DEPARTMENT OF AGRICULTURE

PART 140—ORGANIZATION, FUNCTIONS, AND PROCEDURES OF THE COMMODITY EXCHANGE AUTHORITY

Authority and Functions of Region Offices and Regional Directors

Pursuant to the authority of the Administrator, Commodity Exchange Authority, appearing at 7 CFR 2.7 and 2.52, § 140.2 of Title 17, Code of Federal Regulations, is revised to read as follows:

§ 140.2 Region Offices—Regional Directors.

Each of the Region offices described herein functions as set forth below under the direction of a Regional Director, who is delegated authority and responsibility for the enforcement of the Commodity Exchange Act and administration of the programs of the Authority in the particular Region, except authorities reserved to the Assistant Secretary for Marketing and Consumer Services in 7 CFR 2.52(b).

(a) The Central Region office is located at Room A-1, Board of Trade Building, 141 West Jackson Boulevard, Chicago, IL 60604, with a sub-office at Room 510, Grain Exchange Building, Fourth Street and Fourth Avenue South, Minneapolis, MN 55415, and is responsible for enforcement of the Commodity Exchange Act and administration of the programs of the Agency in the States of Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin. The office is responsible for the supervision of trading on the Chicago Board of Trade, the Chicago Mercantile Exchange, the Mid-America Commodity Exchange and the Minneapolis Grain Exchange.

(b) The Western Region office is located at Room 356, Board of Trade Building, 4800 Main Street, Kansas City, MO 64112, with a sub-office at Room 400, 550 Kearny Street, San Francisco, CA 94108, and is responsible for enforcement of the Commodity Exchange Act and administration of the programs of the Agency in the States of Alaska, Arizona, Arkansas, California, Colorado, Hawaii, Idaho, Iowa, Kansas, Louisiana, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming. The office is responsible for the supervision of trading on the Board of Trade of Kansas City, Mo., Inc., and the Pacific Commodities Exchange, Inc.

(c) The Eastern Region office is located at Room 2101, 61 Broadway, New York, NY 10006, and is responsible for enforcement of the Commodity Exchange Act and administration of the programs of the Agency in the States of Alabama, Connecticut, Delaware, Florida, Georgia, Kentucky, Maine, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, and West Virginia. The office is responsible for the supervision of trading on the Citrus Associates of the New York Cotton Exchange, Inc., the New York Cotton Exchange, The New York Mercantile Exchange, and the Wool Associates of the New York Cotton Exchange, Inc.

The purpose of this amendment is to clarify the organizational structure of the Region offices and the authority of the Regional Directors. All actions heretofore taken by the Region offices and the Regional Directors in their respective Regions in connection with the enforcement of the Commodity Exchange Act and administration of the programs of the Authority are hereby specifically ratified and confirmed.

This amendment also reflects certain changes in contract market names and designations, and Region boundaries.

This revision shall be effective January 31, 1975.

(37 FR 28463 et seq., and authority therefor cited therein, 7 CFR 2.7, 2.17(c), 2.52)

Done at Washington, D.C., this 23rd day of January, 1975.

ALEX C. CALDWELL,
Administrator.

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 75-21]

PART 171—FINES, PENALTIES, AND FORFEITURES

Voluntary Disclosures

Correction

In FR Doc. 75-1401, appearing in the issue of Thursday, January 16, 1975, on page 2797, the effective date at the end of the document on page 2798 should be changed to read "January 16, 1975."

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-454]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding. Since this publication is merely for the purpose of informing the public of the location of areas of special flood hazard and has no binding effect on the sale of flood insurance or the commencement of construction, notice and public procedure are impracticable, unnecessary, and contrary to the public interest. Inasmuch as this publication is not a substantive rule, the identification of special hazard areas shall be effective on the date shown. Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.
